BIRDS **of the** **SAWTOOTH** **NATIONAL RECREATION** **AREA**

INTRODUCTION

The Sawtooth National Recreation Area (NRA), located in central Idaho, contains the headwaters of three major river systems and includes some of the most beautiful mountain ranges in the state. The famous "River of No Return," the Salmon, originates in the northern portion of the Sawtooth NRA, the South Fork of the Payette drains the Sawtooths to the west, and the Big Wood River flows south past world-famous Sun Valley ski resort. Habitats vary with elevation from ancient stands of limber pine at over 11,000 feet, through forests of Douglas-fir, subalpine fir, lodgepole pine and aspen, to grassland and sagebrush at 5,200 feet. These diverse habitats provide food and shelter for approximately 214 species of birds that can be found on the Sawtooth NRA either in migration or during the nesting season.

This list is intended to be used with a field guide to help identify and observe birds during your visit to the area. If you see any species not on the list or listed as endangered, please report the sighting to the Sawtooth NRA headquarters (eight miles north of Ketchum) or the Stanley Ranger Station. Need identification help? Feel free to stop by at either location for some friendly advice.

LEGEND

Abundance

- A = Abundant or common in large numbers
- C = Common in suitable habitat
- U = Uncommon (present in small numbers)
- O = Occasionally seen
- R = Rare (recorded less than 5 times)

Habitat

- 1 = Lakes
- 2 = Marshes
- 3 = Riparian areas / rivers and streams
- 4 = Grasslands / meadows
- 5 = Sagebrush / brushlands

ACKNOWLEDGMENTS

This list contains birds seen and recorded by Forest Service personnel, as well as Idaho Department of Fish and Game personnel and local birdwatchers.

Many thanks to Larry Barnes, Robin Garwood, Gary Gadwa, Cindy Hagas, Hadley Roberts, Louise Stands, Brian Sturges, and Jenny Taylor for their input and review of this list. Thanks to the Los Angeles Audubon Society for use of the bird silhouettes. Also, a special thanks to Louise Stands for allowing the use of her drawings of the American dipper and the sandhill crane.

NOTES

This image shows a single sheet of bright yellow paper with horizontal black ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.
