Price List

of Gladiolus Grown in the Famous Red River
Valley of the North

by

T. E. BARBER & SONS

Grand Forks, N. D.

The prices listed in our catalogue are made up rather early for the full season of 1931-32, so it may be that we are too high on some varieties that will be listed by the other growers. Where the stock is scarce and in small amounts, this will protect us in a way but where we have large stocks of varieties we want to be just and make fair competition with the other growers that are producing the same quality of bulbs that we are, and by so doing we hope to get our share of the orders for the coming season.

You will find a few varieties listed rather low in larger amounts due to the fact that we have large stock of these varieties and we must move them to balance up our growing stock.

On CASH ORDERS we will offer the following discounts, on CASH ORDERS of \$2.00 to \$5.00 you may select 10% in bulbs, your own choice and on \$5.00 to \$25.00 select 15%, \$25.00 to \$50.00 select 20% and on orders over \$50.00 select 25%. List your discounts separate.

The discount added will not bar us from adding our extra count and also any specials we may want to add, and we are liberal.

No single item accepted for less than 20c and no order sent prepaid for less than \$1.00, all other order from \$1.00 up prepaid to your station. All foreign orders prepaid to point of inspection and customs office. **Discounts apply only to orders with cash.**

We have been favored with a very fine growing season and at only one or two instances did we have to irrigate with the exception of our bulblet stock and we irrigated these only after the heavy rains to break up the surface as our soil here is black loam.

It is our desire to treat our customers right and give satisfaction, so if at any time you receive bulbs that are not right or if you are not satisfied after blooming them, let us know and we will gladly do our best to make it right.

Up to the present time we have had no trouble with thrips so you can rest assured our stock is free of disease and as true as it is possible to have it but if you should find an off bulb let us know and we will adjust it.

A deposit of 25% will hold bulbs until spring delivery or we will gladly talk over our partial payment plan and you can pay for the bulb over a period of months so you will not have to pay the full amount at once.

Twelve bulbs or bulblets at the price of ten, six at 12 rate, 25 at 100 rate, 250 at 1000 rate but no item for less than 20c. Pint at quart rate on bulblets.

Our storage facilities are as good as in the land as we have space in one of the largest up-to-date storage and warehouses in the Northwest and the conditions for storage of bulbs are ideal, insuring nice healthy plump bulbs that will have lots of pep for next years growing season.

We are agents for Vigoro—a balanced fertilizer we have found to fill our needs in every way.

TO OUR GLAD FRIENDS:

We wish to thank you for your kind patronage for the season of 1930-31 and in mailing this our 1931-32 catalogue we are confident that we are placing before you varieties that have proven their worth and have come very highly recommended from* foreign originators of unquestionable standing and varieties that will be equally as satisfactory on the exhibition tables, the homes or the gardens.

We have listed some varieties not released as yet just to give you an idea of some of the newer ones we are growing, many of these will be listed next year.

All bulbs and bulblets listed are subject to prior sale.

Sincerely yours,

T. E. BARBER AND SONS.
