Northern Grown Pure Strain Brand Seed Potatoes

We list below the best and most popular varieties now in cultivation. This seed is not certified, but is produced from the most disease-free strains of certified seed, making it much more vigorous and healthy than ordinary seed and often the equal of certified seed.

Our Second Size—Preferred by many for planting whole or cutting once—are U. S. grade No. 2, or sized between $1\frac{1}{2}$ and $1\frac{3}{8}$ inches and sorted equal to first size. A good, even stand is secured by planting seconds whole, when often either excessive wet or dry soil conditions at planting time will cause cut seed to rot. Also less seed is required per acre.
