Fall List

1931

KALMIA LATIFOLIA

GILLETT'S
FERN AND FLOWER FARM

K. E. GILLETT, *Proprietor*
Southwick, Mass.

GENERAL INFORMATION

Purpose

THE PURPOSE of this special booklet is to bring to your attention the fine material I am offering this fall in the way of Ferns, Wild Flowers, Rhododendrons, Azaleas, Kalmias, etc. For more detailed information refer to my general catalog which has been mailed during the year. If however, you have mislaid your copy I will be glad to send you another one upon request.

Shipping Instructions

CUSTOMERS are requested to state how stock is to be shipped. In case no instructions are furnished by a customer, we will exercise our best judgment, but will not be responsible for damage to stock which may result from long transit.

Claims

NO CLAIMS will be entertained unless made within 10 days of receipt of goods. When shipments are injured by delays in transit, claims should at once be made against transportation company by consignee.

Prices

THE PRICES in this catalog include packing and delivery to the local express or freight station. In the

case of Broadleaved Evergreens and Azaleas where they are shipped with balls of earth the price includes careful digging and burlapping.

When bulbs or ferns are ordered in small quantities they can be delivered by parcel post and an extra charge of 10% of the cost of the plants should be added to cover delivery charges east of the Mississippi River and 20% on orders to points west of the Mississippi River.

No shrubs or Broadleaved Evergreens will be delivered by parcel post; they should be shipped by freight or express.

Five of any one variety and size will be sold at the 10 rate. Thirty or more of any one variety will be sold at the 100 rate where the 100 rate is given.

All unknown parties should send remittance with order. Old customers will be extended a credit to December 15, at which time all bills are due.

New customers wishing to open accounts should send satisfactory references.

All shipments will be accompanied by Certificates of Inspection, both Federal and State.

Address orders and communications to

**GILLETT'S
FERN & FLOWER FARM**

K. E. GILLETT, Prop.

Southwick, Mass.

FERNS

FERNS can be successfully planted in the autumn. If planted early they have an opportunity to become well established before freezing weather, making them in fine condition to start growing as soon as the season opens in the spring. It is always advisable to give a light mulch of leaves when they are planted in the fall, yet care should be exercised not to smother the roots, which often causes the new crowns to rot during the winter.

	Each	10	100
Adiantum pedatum (Maidenhair Fern)	\$.25	\$1.50	\$12.00
Aspidium acrostichoides (Christmas Fern).....	.25	1.50	12.00

Spiranthes cernua	.25	1.50	12.00

EVERGREEN SHRUBS

THERE is a luxuriance about Broad-leaved Evergreens that is very hard to describe, but which everyone feels and admires when he beholds them. Their dark green, glossy leaves are always attractive, and as foundation plantings about the house, they impart a feeling of warmth in winter and of coolness in summer.

Andromeda floribunda—15 to 18 inch grade

These prices include first quality material. I can furnish specimen plants in all varieties and sizes of Broad-leaved Evergreens and Azaleas at prices ranging from 25 to 50% in advance of the listed prices.

EVERGREEN SHRUBS

Andromeda (Pieris) floribunda (Lily of the Valley Shrub). Beautiful, hardy shrub. In early April is covered with showy spikes of white flowers. Very desirable for edging Rhododendron beds or for planting in front of a group of evergreens; in both instances it makes a pleasing contrast.

	Each	10	100
12 to 15 in. spread	\$2.00	\$17.50	\$150.00
15 to 18 in. spread	2.75	25.00	225.00
18 to 24 in. spread	3.50	32.50	300.00
2 ft. selected	4.50	42.50	400.00

Calluna vulgaris (Heather). Here is something distinctly out of the ordinary for the garden. In late July or early August the plants are a mass of color. Thrives on poor soils, the only requirements being a sunny situation and severe pruning in the early spring.

	Each	10	100
6 to 8 in. clumps	\$.75	\$ 6.00	\$ 50.00
8 to 10 in. clumps	.90	8.00	70.00
10 to 12 in. clumps	1.25	11.00	100.00

Daphne cneorum (Rose Daphne). A most attractive, dwarf, almost prostrate shrub. In May, and again in August, it bears beautiful flower clusters of a delightful shade of pink. For rock gardens and the edges of borders it is very desirable. Can be used in open sun or partial shade, is perfectly hardy, and in every way is a lovely plant.

	Each	10	100
6 to 8 in.	\$.60	\$ 5.50	\$ 50.00
8 to 10 in.	.90	8.00	75.00
10 to 12 in.	1.00	9.50	90.00
12 to 15 in.	1.50	13.50	120.00
15 to 18 in.	2.00	17.50	160.00

Ilex glabra (Inkberry). One of the best broad-leaved evergreens for New England. A broad, round-topped shrub with small, lustrous leaves. The inconspicuous flowers are followed by small black fruits, more or less concealed by the foliage, which hangs on all winter. Not at all particular about soil or location, the Inkberry is one of the most satisfactory native shrubs.

	Each	10	100
15 to 18 in.....	\$2.50	\$22.50	\$200.00
18 to 24 in.....	3.00	27.00	250.00
2 to 2½ ft.....	3.50	32.50	300.00

Kalmia Latifolia (Mountain Laurel). This broad-leaved evergreen will never be omitted from the thoughtfully arranged planting, for it is one of the most valuable of all. Indigenous to New England, it is extremely hardy, therefore adaptable to any reasonable location. In season it becomes a veritable mass of bloom, in shade a delicate pink. A cluster of flowers will be found illustrated on the cover of this book.

I offer splendid, well grown specimens in the following sizes:

	Each	10	100
12 to 15 in.....	\$1.20	\$10.00	\$ 90.00
15 to 18 in.....	1.60	15.00	125.00
18 to 24 in.....	2.00	17.50	160.00
2 to 2½ ft.....	3.00	27.50	250.00
2½ to 3 ft.....	4.50	40.00	350.00

Pachysandra terminalis (Japanese Pachysandra).

The best ground cover under shrubs of all kinds. Grows only 6 inches high, spreading by underground stems, and has dark green foliage. The flowers are inconspicuous but interesting.

	Each	10	100
Price.....	\$.30	\$ 2.50	\$ 15.00

RHODODENDRONS AND AZALEAS

ALL members of the heath family, including Broad-leaved Evergreens and Azaleas, require a soil showing an acid reaction. Because of this special requirement, many sections of the country have thus far been prevented from enjoying the beautiful display furnished by Rhododendrons, Kalmias and Azaleas. In sections where the soil shows an alkaline reaction, gardeners need no longer despair, these gorgeous representatives of our native plants can be made to thrive.

Prepare the soil carefully by spading thoroughly to a depth of 12 or 15 inches, then place a layer of Leaf Mold 3 to 4 inches thick which should be thoroughly worked into the soil. Leaf Mold is very beneficial to the growth of plants belonging to the Heath family. It produces a strong acid reaction and leaves the soil porous, admitting air and affording good drainage.

Rhododendron carolinianum (Carolina Rhododendron). The most beautiful of the native Rhododendrons, growing 6 to 8 feet high. The plants are well clothed with dark green leaves, rusty below, and produce, in early May, a wealth of unusually large, pale, rose-pink flowers in good-sized clusters. One of the best Broad-leaved Evergreens.

	Each	10	100
12 to 15 in. clumps	\$2.75	\$25.00	\$225.00
15 to 18 in. clumps	3.25	30.00	275.00
18 to 24 in. clumps	4.00	37.50	350.00
2 to 2½ ft. clumps	5.00	45.00

Rhododendron carolinianum—a 12 to 18 inch clump

Rhododendron catawbiense compacta
1½ to 2 ft. specimen

Rhododendron catawbiense compacta. A most interesting and beautiful variety of Catawbiense, making a very compact growth, therefore desirable for foundation plantings and particularly for rock-garden work.

	Each	10	100
12 to 15 in.....	\$2.75	\$25.00	\$225.00
15 to 18 in.....	3.50	32.50	300.00
18 to 24 in.....	4.50	40.00	350.00

If you are interested in high grade collected Rhododendrons, all varieties, Azaleas and Kalmia latifolia, write for special prices for fall shipment. Only very high grade material will be supplied. Fine rains throughout the season at collecting fields have made the soil in perfect condition for digging.

Rhododendron catawbiense (Catawba Rhododendron). One of the most beautiful native shrubs and the hardiest of all the Rhododendrons. In June every branch has a large cluster of 1½ in. broad, rosy purple blooms. The foliage is the most handsome of any Rhododendron.

	Each	10	100
12 to 15 in. clumps.....	\$2.25	\$21.00	\$200.00
15 to 18 in. clumps.....	3.00	27.50	250.00

2 to 2½ ft. clumps....	4.50	40.00	
2½ to 3 ft. clumps....	6.00	55.00

Rhododendron catawbiense—24 inch grade

Rhododendron maximum. A hardy variety, of magnificent size, making it a wonderful plant for mass effects. The luxuriant growth of dark green, narrow leaves, 6 to 12 inches long, gives a delightful atmosphere. The light pink or white flowers, 1½ to 2 inches broad, are borne in large clusters in great abundance in June.

	Each	10	100
15 to 18 in. clumps.	\$2.00	\$17.50	\$150.00
18 to 24 in. clumps.	2.50	22.50	200.00
2 to 2½ ft. clumps.	3.00	27.50	
2½ to 3 ft. clumps.	3.50	32.50	
3 to 4 ft. clumps.	5.00	45.00	

Native Azaleas

Azalea arborescens (Sweet Azalea). Very attractive white or faintly rose-tinted, fragrant flowers whose beauty is enhanced by the long, bright red filaments of the stamens. The flowers are borne after the foliage appears, and it is one of the most beautiful of all the hardy Azaleas. In sheltered places it often reaches 15 to 18 feet in height. May.

	Each	10	100
15 to 18 in. clumps.	\$2.00	\$17.50	
18 to 24 in.	3.00		

Azalea calendulacea (Flame Azalea). Probably the most gorgeous of the native Azaleas. From early May until well into the month of June, the plants are literally covered with orange-yellow or flame-red blooms which in size are often 2 inches across. The well-known Ghent Azaleas rarely equal in brilliancy this native species. Foliage remains good until late fall and breaks in the spring just before the blooms appear.

Azalea calendulacea—an average 18 to 24 inch plant

	Each	10	100
15 to 18 in.	\$2.00	\$17.50	\$150.00
1½ to 2 ft.	2.50	22.50	200.00
2 to 2½ ft.	3.00	27.50	250.00

15 to 18 in.	\$2.00	\$17.50	\$150.00
1½ to 2 ft.	2.75	22.50	200.00
2 to 2½ ft.	3.00	27.50	250.00

Azalea nudiflora (Pinxter Bloom). An extremely beautiful Azalea. Rosy pink or whitish blooms, after or before the foliage develops, of strong, sweet fragrance, and borne in great profusion at about the same time as *Azalea canescens*. Fall foliage assumes attractive shades of orange and bronze. Fine for dry, open places. Height 2 to 6 ft.

15 to 18 in.	\$2.00	\$17.50	\$150.00

Azalea vaseyi (Southern Pink Azalea). Discovered in the mountains of North Carolina. It grows quite tall and seems to respond to cultivation readily, adapting itself to almost any situation. The flowers vary from light pink to deep rose color, mottled at the base inside. Hardy in New England. The leaves take on beautiful tints in autumn.

	Each	10	100
15 to 18 in.	\$2.50	\$22.50	\$200.00
18 to 24 in.	3.50	32.50	300.00

2½ to 3 ft.	6.00

Azalea viscosa—2 to 3 foot grade

Azalea viscosa (Swamp Azalea). The last of the Azaleas to bloom, nearly all the other shrubs have passed out of bloom when it bears its heavy load of pure white, fragrant flowers, clothed with sticky hairs. Delights in swampy land and borders of lakes and streams.
