Takes Pleasure in Presenting to Critical Gardeners

Choice GLADIOLUS Selections

INTRODUCTION

For the season of 1931 and 1932 I am again presenting a selection of Gladiolus varieties which I believe to be one of the most complete lists of select varieties to be found anywhere. This year many new varieties are added to my list; every one of which, I believe, is worthy of a place in your garden.

TO OLD CUSTOMERS

Many thanks for your orders last Spring. I trust that you have had worthwhile blooms from the bulbs that you ordered of me. If for any reason you are dissatisfied do not hesitate telling me about it. I want you to know that I stand back of my stock ready to make good, should the fault be mine. May I have the pleasure of serving you again?

TO NEW CUSTOMERS

My collection of Glads is gathered from all possible world sources. For the past 5 years I have watched very closely their behavior in my garden and have culled out the inferior ones, passing on to you only the ones that I consider very worth while. Send in your order early, as much of the rare and imported stock that I am offering is yet very limited in supply and will be the first to be sold out. I will ship your order between November 15 and December 15, unless directed to hold until spring. If you are not satisfied with the bulbs, count and extras when you receive the order, return it at once at my expense. You must be satisfied.

FALL SALE

I realize that a large per cent of Gladiolus Buyers are very critical in their selections of varieties and, for this reason, they prefer buying their stock in the Fall before the limited supply is exhausted. Each season shows an increased percentage of Fall buying. Fall buying brings to you the cream of the stock plus a liberal count and a greater generosity of extras. For this reason I am mailing you my catalog early this Fall. This is the only price list you will receive from me this season. There will be no Spring Catalog.

This season as in all others, I am striving to offer the Best Values Possible. My increased business shows that my customers are satisfied and satisfied customers have created others in a "grapevine" fashion.

PRICES

These prices hold throughout the sales season only so long as stock is available.

It is always difficult this early in the season to know just what prices to make on some varieties. However, should any of my prices appear out of line with the other growers, I will

see that additional bulbs are added to make compensation for same. Send in your order at once and don't worry about prices. I guarantee you your money worth or money back.

To save space and useless repetition, the price of each variety is listed for each bulb, twelve bulbs sold at ten times the price of one. Six bulbs at the dozen rate. This also applies to bulblets listed as single.

GUARANTEE

I guarantee all stock to be *true to name*, should any prove otherwise I will gladly replace or refund money. All stock will be clean and disease free.

SIZES

- L. Large bulbs, size 1¼ inches or more, will average 1½ inches.
- M. Medium size bulbs, size ¾ inch or more, will average 1 inch or more.
- S. Small size bulbs, size below ¾ inch, will average ½ inch.

COLLECTIONS AND SETS

This catalog does not list all the varieties I am growing, so if you do not find what you want, write me. Perhaps I can supply you at the best possible terms. I solicit your inquiries for quotations on sets or collections.

TERMS OF SALE

My terms are strictly cash before shipment of order. A 25% deposit will hold orders until March 15, but no premiums or discounts are allowed on part payments. All stock is offered subject to previous sale or to loss for reasons beyond my control. There is no order too large or too small to receive my thankful appreciation. No matter how small your wants may be, do not hesitate sending your order for same. Many a small order has paved the way to a larger one. A trial is all I ask. Let's get acquainted, perhaps we can enjoy each other's business relations.

For orders sent with full cash remittance, you may add to your order, free, additional bulbs or bulblets at the following rate: For order of \$2.00 to \$5.00 add stock to value of 5%; for order of \$5.00 to \$20.00 add stock to value of 10%; for order of \$20.00 to \$50.00 add stock to value of 15%; for order over \$50.00 add stock to value of 20%.

I suggest that you club your orders with your glad lover friends, thereby, you will all share in the saving offered in the above discounts.

A special cash discount of 5% will be allowed on all cash orders received before November 15. This is a special advantage for early buying.

COURTESY Is a Great Builder of Friendship

There's a favor I greatly appreciate and often experience, that is, of having a customer send me new business through recommending this institution to his friends.

Perhaps, you too, have someone in mind. If so, be assured that I will extend every courtesy to the new customer you send me. I thank you,

DALE BRADFORD

Varieties and Prices

	Lg. Each	Med. Each	Small Each	Bulblets Per	Price
