	10-12'	25.00	
	12-14'	35.00	
	12-14'	50.00	
YOSHINO DAYBREAK , delicate flesh pink. Single flowers so dense as to almost obscure the branches.	3-4'	4.50	
	4-5'	5.50	
	5-6'	7.00	
	6-7'	10.00	
	7-8'	15.00	
	8-9'	20.00	
	9-10'	25.00	
	10-12'	35.00	

10% additional paid at time of purchase insures free replacement for one year.

Japanese Weeping Cherries

	Size	Each	Ten
SHIDARE-HIGAN-ZAKURA (Prunus Subhirtella Pendula), Standard Form (umbrella-shaped), generally on bare stems 4 to 6 feet high.	1 yr. head	\$ 6.00	\$ 55.00
	2 yr. head	7.50	70.00
	3 yr. head	10.00	95.00
	4 yr. head	12.50	120.00
	5 yr. head	15.00	145.00
	6 yr. head	17.50	170.00
	7 yr. head	20.00	
	8 yr. head		

SHIDARE-HIGAN-ZAKURA (Prunus Subhirtella Pendula), Pyramid Form, single; pink; early, after Beni-Higan, the first tree to bloom in the Spring and the first deep pink flowers of the season. Same variety as the top worked or Standards, but they are more attractive in every particular. They branch from the ground up and are shapely trees of picturesque outlines.	2-3'	4.50	40.00
	3-4'	6.00	55.00
	4-5'	7.00	65.00
	5-6'	8.50	80.00
	6-7'	10.00	95.00
	7-8'	15.00	140.00
	8-9'	17.50	160.00
	9-10'	20.00	180.00
	10-12'	25.00	225.00
	12-15'	30.00	275.00

WOHLERT'S Double Flowering Weeping, NEW.

Habit of growth fairly regular, and the shape of the tree as it develops resembles a strikingly beautiful, open sun shade. The double rose-pink flowers are large, the color of Sekizan or Kofugen, and of similar size.

Pyramids	2-3'	4.50	40.00
Pyramids	3-4'	6.00	55.00
Pyramids	4-5'	10.00	
Standards	1 yr. head	7.00	
	2 yr. head	10.00	
	3 yr. head	15.00	

EUREKA WEEPING, the common, single flowered, light pink Weeping Japanese Cherry that has been grown in this country at least fifty years, which is a tribute to its beauty and popularity.

3 yr. head	4-5' stem	10.00
4 yr. head	4-5' stem	15.00

PARK WEEPING, an unidentified variety. It is as strongly drooping as Eureka Weeping but differs in its more vigorous growth, type of foliage and most important the color of the flowers, which are deep pink instead of light pink.

3 yr. head	4-5' stem	10.00
4 yr. head	4-5' stem	15.00

SHIDAREYOSHINO, weeping habit as pronounced as in the preceding. It is not a subhirtella variety but has larger, single, pure white flowers. This is the weeping form of the popular Yoshino. "Shidare" means weeping or drooping.

3 yr. head	4' stem	15.00
4 yr. head	4' stem	20.00

For an additional 10% paid at time of purchase, we will insure the growth of your trees for a period of one year.

From 6" pots	2.50	22.50
Extra size from 6" pots	3.50	30.00

RETINOSPORA (*Chamaecyparis*).

Obtusa Gracilis. One of the very best dark green conifers, hardy.

2½-3' high x 18-24" wide	6.00	55.00
3-4' high x 24-30" wide	8.00	75.00
5-6' high x 36" wide	25.00	
6-7' high x 24-30" wide	25.00	
7-8' high x 24" wide	30.00	
8-9' high x 30" wide	35.00	

Pisifera, Sawara Cypress. One of the best and hardiest of the *Retinosporas*.

Pisifera Aurea, Golden Sawara Cypress. Tall, pyramidal shape with broad, flat foliage of golden yellow.

Plumosa, Plume Cypress. Tall, pyramidal shape, useful for hedges and formal work. This, with the Golden Plume Cypress, stands shearing best.

Azaleas and Evergreens with soil ball shipped only within a radius of 200 miles of our nurseries. If wanted outside this area, prices will be quoted upon application.

For an additional 10% paid at time of purchase, we will insure the growth of your trees for a period of one year.

RETINOSPORA—Continued

Plumosa Aurea, Golden Plume Cypress. One of the best for specimens or hedges as well as one of the hardiest. The rich golden Spring growth holds well through the Summer.

Ground Cover Plants

PACHYSANDRA TERMINALIS, Japanese Spurge.

A beautiful evergreen plant excellent as a ground cover, growing from 6 to 8 inches high. It is perfectly hardy and endures dense shade and dry locations, as well as direct sunlight or moist positions, making an excellent plant for any position requiring other than grass for a ground cover.

It is also suitable as a border for walks and flower beds, as its low green growth at all times may be easily kept within bounds.

Plant 6 to 8 inches apart.

	100	1000

Divisions.....	6.00	35.00

10% additional paid at time of purchase insures free replacement for one year.

Trained "U" or six armed Verrier Apple Tree

Trained Fruit Trees

Trained Fruit Trees should have a place in every garden and we are sure many gardeners will welcome our offer of these trees at this time. It is a simple matter to erect a "post and wire" fence to which they may be lightly tied or to a "wired wall," which is accomplished by driving wall hooks into the wall at intervals of 1 foot each way, leaving 4-5 inches protruding, to which the galvanized wires are horizontally attached. The "leaders" of the trees are carefully tied to the wires by "figure of eight" loops of tarred twine or heavy raffia, which allows limited leeway and prevents chafing.

Grown on the post and wire method, trained fruit trees are very ornamental in the garden—indeed they make a useful and artistic wind screen and background to flower beds and borders, the blossoms and, later, the highly colored fruit adding further brightness to the border.

They bear splendid crop of nicely colored, large fruit, without shading or otherwise interfering with the flowers or vegetable crops planted nearby; fruit is easily gathered and trees are readily manured and pruned.

They serve a dual purpose, being both ornamental and useful. In Spring their exquisite blossoms add a decorative touch to the early garden display but our appreciation is greatest when they offer us their luscious fruits in the Fall.

There is no good reason why trained fruit trees should not be seen frequently in small gardens as well as on large estates, to which they have been mostly restricted in the past. Probably the difficulty experienced in finding the proper material has been an influence in preventing the use of trained trees, but this difficulty no longer exists and the cost of trees, which have been started in either espalier or cordon form, is by no means prohibitive.

Trained trees enable the owners of small properties to utilize wall space which might otherwise be wasted. The side of a building or a board fence may thus be made to produce surprisingly large crops of choice apples, pears, peaches, cherries and even nectarines. Only three years are required ordinarily for these trees to reach the bearing age and, apart from their practical value, they lend a touch of the "old world" to the garden which is seen all too rarely in this country.

PRICES

APPLES (Budded on Paradise)

Single Cordon, \$3.50 each; U-shaped, 4 ft., \$6.00 each.

U-shaped, 5-6 ft., \$7.00 each; 8 ft., \$9.00 each.

Palmette Verrier, 4 ft. and double "U," \$10.00 each.

Palmette Verrier, 6-8 ft., \$12.00 each.

Six Armed Verrier or triple "U," \$18.00 each.

Horizontal Cordons, \$7.00 each.

Horizontal Cordons, Single (for corners), \$6.00 each.

Specimen Fan-shaped Trees, 6-10 ft. spread, \$25.00.

Baldwin. Large, red, juicy and of rich flavor.

Delicious. Fruit large, dark red, crisp and luscious.

Duchess of Oldenburg. Very large, streaked with red and yellow.

Landscape Service

We maintain a Landscape Department in order that you may obtain this valuable service necessary for developing your home grounds. Whether your home be large or small, it will benefit by careful and expert landscape designing.

We will prepare a plan for your home grounds suggesting a planting scheme for a nominal charge of \$10.00 and if plant material is purchased from us to the value of \$100.00, this \$10.00 deposit will be credited on your order.

A Few Unsolicited Testimonials from Our Satisfied Patrons

Hilo, Hawaii.

Dear Sir:

Trees which you recently sent me have come to hand. Permit me to compliment you on the excellent manner in which these trees were packed. They reached me in perfect condition and I am very much pleased with them.

(The trees shipped were Japanese Flowering Cherries, Chinese Flowering Crabs, Chinese Magnolias and Pyracanthus.)

Bronxville, N. Y.

January 20, 1930.

My dear Mr. Wohler:

I have noticed with regret that this Commission has not told you how well the Cherries have done which you furnished in 1928.

We did not lose one tree out of the entire shipment, and despite the very unfavorable season last Summer the trees give every promise of giving a riotous display of bloom this Spring. Already the section in which they are planted is becoming a mecca for garden lovers.

Yours very truly,

Westchester County Park System.

Public Buildings and Public Parks of the

National Capital

Washington, D. C.

My dear Mr. Wohler:

I have your helpful letter of November 18, 1930, together with enclosed detail list of Japanese Cherry Trees and Flowering Crabs, and I further desire to acknowledge the safe arrival of your shipment of 285 Japanese Cherries and 100 Flowering Crabs for planting in East Potomac and Anacostia Parks.

The larger portion of the consignment of Japanese Cherries has already been planted in East Potomac Park in large color groups of the same variety, where practicable, 20 to 30 feet apart in well drained locations, as you suggested in your last letter. I feel that these trees should make a really very fine showing next spring and I shall be pleased to show them to you upon your next visit to Washington.

In closing may I again express my warm appreciation of your assistance.

Very sincerely yours,

(Signed) F. B. Butler,
Assistant Director.

Nantucket, Mass.

Dear Sir:

I wish to thank you for the extra cherry tree which you sent. It was very generous of you to include it. All the trees are fine specimens, and were received in excellent condition. They were planted immediately. If they prove a success, I hope their being planted here may lead to further orders from people who see them.

Milwaukee, Wis.

Dear Sir:

I want to thank you for treating me on the square. All the trees I received from you look good and healthy and hope they will bloom this Spring, and I hope you will send me your next catalog when it comes out, as probably it will have some other ones that will appeal to me. Again thanking you for sending me that extra tree and treating me fair, I remain as ever.

So. Orange, N. J.

Dear Sir:

It may interest you to know that every bit of the very fine stock ordered by me from your nursery last November and this last Spring has come triumphantly through the drought and is well established. I am sure it will be the source of much pleasure for many years to come.

Williamsport, Pa.

Dear Sir:

The well-rooted cuttings (*Pachysandra terminalis*) received from you at \$5.00 per hundred were in excellent condition and fine little plants I thought at that price. They far exceeded my expectations and I thank you for the same and also for their being received in such extreme weather so well packed.

Toronto, Canada.

Dear Sir:

Stock came in good shape, all growing.

New Rochelle, N. Y.

My dear Mr. Wohler:

The two trees you sent me to replace the peach trees arrived yesterday in perfect condition. I want to thank you for them, and to say that nowhere else, that I have dealt, have I ever received such prompt and courteous service, or such generous replacement when something had not proven satisfactory (which, with you, is rarely the case). Indeed many times I have had to suffer loss, which is one reason I have confined my orders to the Garden Nursery.

New York City, N. Y.

Dear Sir:

The shipment of trees arrived in good condition. I congratulate you for the efficient manner in which the shipment was made. The stock is good.

Mt. Vernon, N. Y.

Dear Sir:

We are very much pleased with the European Mountain Ash which you sent us. Same is thriving out at Copiague, L. I.

Oyster Bay, N. Y.

Dear Sir:

Enclosed find check for one dollar for packing charges. Received stock in fine shape, and we are well pleased with same.

Leominster, Mass.

Dear Sir:

Trees were planted the same day they arrived in excellent condition. Thank you.

Battle Creek, Mich.

Dear Sir:

Enclosed please find check to the amount of \$. The trees all the way through were first class and could not be expected any better and I certainly do appreciate your way of handling, and I thank you.

Westport, Conn.

Dear Sir:

I have just received the Kofugen Cherry which you sent in place of the one that died. It is a fine tree, in good condition and I wish to thank you for your fair and generous treatment and your interest in even a small order. Needless to say, it will give me great pleasure to recommend you to all my friends who are planting trees and shrubs.

Winnetka, Ill.

Dear Sir:

For some time I have expected to write you to acknowledge the receipt of the Flowering Cherry Trees I ordered in response to an advertisement in *Horticulture*. The trees arrived very promptly and in good order, and while they were small I hardly expected them to be of great size when only two years old.

New York, N. Y.

Dear Mr. Wohler:

The thirty cherry Yoshino reached me in fine shape and I am much obliged to you in selecting for me such nice matched specimens. We have planted them in an avenue thirty feet apart and in ten years they will be a fine sight. My old trees are magnificent this year, I wish you could see them. They certainly make a wonderful avenue tree, but they need room. Generally they are planted so close they lose all their character.

Long Island City, N. Y.

Dear Sir:

The trees arrived in splendid condition and we were simply delighted with them. In fact, we were agreeably surprised for they were much larger than we expected.

Roanoke, Va.

Dear Sir:

The Cherry Trees ordered by the City Manager of Roanoke came in splendid shape and were fine specimens. I had them planted today. Thank you very much for sending such nice ones. I hope to send in another order in the Fall if these do well.

Princeton, N. J.

Dear Sir:

The crab apples have arrived and in the rain this evening were planted. Mr. ——— and I both are delighted with them and feel that they are worth much more than we paid.

New York, N. Y.

Dear Sir:

The trees were delivered safely and in excellent condition Saturday. I wish to congratulate you on the character of your stock.

For an additional 10% paid at time of purchase, we will insure the growth of your trees for a period of one year.

PACKING AND SHIPPING. No charge is made for delivery to the freight depots or express offices from which we ship. Packing of heavy and specimen trees such as Flowering Crabs and Cherries at a value of \$15.00 and over, as well as Weeping Cherries at a value of \$10.00 and over, will be charged at a rate of 20% additional to cost. No charge for packing other trees. Freight and express charges are to be paid by the purchaser. Plain and explicit shipping directions should be given with every order, naming mode and route for forwarding, otherwise we will use our own judgment; but upon delivery to railroad, steamboat or express companies our responsibility ceases.
