HARRIS' PREMIER

Sow the Seed Now for

**Harris' Exhibition Hybrid
Aquilegia**

**Harris' Prince of
Orange Hollyhock**

THERE are no better hardy perennials for your garden than these five Harris Premier Varieties.

They are absolutely the best and can be used as the foundation for the finest hardy garden you can imagine.

There will be flowers all season, a variety of colors and in different heights.

In addition you can be sure of having flowers that are distinctly better, because they are all **Harris Grown**. They can not be purchased elsewhere at any cost.

We feel quite positive that their qualities can not be equalled.

A hardy garden need not be expensive if you use Harris' seed. And to think, that they are so easy to raise from seed that anyone can have them next summer by sowing the seed in the garden now. If properly handled, one packet of each of the five varieties should give you plants enough to make a beautiful hardy border over 25 feet long and 5 feet wide.

It is not necessary to disturb your garden this summer in order to start now for next year. Just sow the seed in rows in a well prepared little seed bed not over 3 feet square and early this fall or very early next spring transplant them to their permanent position. If you have the space you could sow them now into their permanent position.

C-415—Harris Golden Opportunity Collection of Premier Perennials for only \$1.50

One regular packet of each of these 5 varieties for only \$1.50 (regular price \$2.15).

Just imagine, this wonderful garden next summer for the special collection price of only **\$1.50**. This is a golden opportunity. Never before have you had the chance to get such a wonderful collection of unusually remarkable hardy perennials at such a low price.

A single plant of Harris' New Hardy Carnation

HARDY PERENNIALS

Flowers Next Summer

Have no fear—Harris Hardy Perennial seed actually grows. We know it will grow because we make accurate germination tests of all varieties before they are sent to you. Look for this actual percentage on the back of each package.

Page 72 of our general catalog describes our method of testing seed.

2641—Harris' Monarch Delphinium. These plants will develop enormous spikes of flowers in all shades of blue and mauve-pink. This seed is all picked from only our choicest plants. Customers who see these plants here gladly pay \$1.00 to \$3.00 apiece for them. You can raise several for \$1.00. Pkt. \$1.00; Large Pkt. \$1.50.

2074—Harris' Exhibition Aquilegia (Columbine). An exceptionally fine range of colors and wonderful long spurs. The result of several years selection on Moreton Farm. Pkt. 15c; Large Pkt. 30c; $\frac{1}{4}$ oz. \$1.25.

3320—Harris' Supreme Hardy Lupins. This is a mixture of our own growing which you will find distinctly finer than any Lupins you have ever seen. Colors will run through a wide range in rose, pink, buff, white and shades of lavender and blue. Pkt. 25c; Large Pkt. 50c; $\frac{1}{4}$ oz. 85c.

3112—Harris' Orange Prince Hollyhocks. Here is a hollyhock which develops great spikes of double flowers in a brilliant shade of orange. This is another of our own productions. It will come true from seed. A most unusual and attractive shade. Pkt. 35c; Large Pkt. 70c; $\frac{1}{4}$ oz. \$1.25.

2310—Harris' New Hardy Carnation. One of the finest of Harris productions. These we offer in mixed colors only. They will develop extra large healthy plants in a wide range of colors, with a large percentage of double and semi-double flowers bearing a delicious clove fragrance. Pkt. 25c; Large Pkt. 50c; $\frac{1}{4}$ oz. \$1.00.

Harris' Supreme Hardy Lupins

These five splendid varieties of perennials are fully described and also are illustrated in natural colors in our large spring catalog. We hope you will refer back to pages 73, 74 and 84 so that you will fully appreciate their beauty.

It is possible to have a row like this from one large packet of Harris' Monarch Delphinium

GROW YOUR OWN

By Sowing the

SAVE yourself a good many dollars and have a lot of real enjoyment doing it. You can have a wonderful collection of satisfactory rock garden plants for only \$2.00 by ordering the two following special collections; C408 and C405 at only \$1.00 each.

Read page 82 of our large spring catalog. If you haven't a copy we will gladly send you one. We have found from our own experience that the varieties we offer here are the most satisfactory.

SECRETS OF GOOD GARDENING

A new book filled with practical suggestions for making your garden work easier. Will be sent free on request to any customer.

"It (*Secrets of Good Gardening*) contains more common sense, practical helps to the square inch than any other similar publication I ever saw." *N. H. Schenck, Muncy, Pa.*

Arabis alpina in bloom in May

Alpine Aster, Goliath, flowering in June

AQUILEGIA

2077—**Alpina**. Very rich blue. Flowers early. Pkt. 15c; Large Pkt. 25c.

2078 — **Compacta Edelweiss**. Snow-white flowers. Pkt. 50c.

ALYSSUM (Basket of Gold)

2025—**Saxatile compacta**. Bright yellow masses in early spring. Pkt. 10c; Large Pkt. 20c; ¼ oz. 50c.

ALPINE ASTER

1990—**Goliath**. Low upright plant blooming in early summer. Light blue. Pkt. 25c; Large Pkt. 50c.

C408—Special Collection of one packet each of *Arabis Alpina*, *Campanula Carpathica* Blue and White, *Linaria Macedonica*, *Dianthus deltoides*, *Geum Mrs. Bradshaw*, *Saponaria ocymoides*, *Stokesia*, *Cyanea*, *Alyssum Saxatile*, *Oenothera Youngii*.

These ten varieties of hardy perennials are all easy to grow, and they include a wide range of colors and flowering all season from early spring until late fall. **Price \$1.00.**

FREE ROCK GARDEN LEAFLET

We have a very concise yet complete leaflet on rock gardens which we will send to any customer on request. It contains directions for construction and lists of plants to use. Ask for leaflet "E".

ROCK GARDEN PLANTS

There are many exceptionally fine rock garden plants which do not grow from seed. You will find them on pages 10 and 11 of this book and more fully described on pages 85 to 92 of spring catalog. If you have lost your copy send for another one.

JOSEPH HARRIS CO., Inc.
COLDWATER, N. Y.

Saponaria, a mass of pink in June

Sow Harris' Hardy and Have a Beautiful

WE know our seeds will grow before we send them to you.

We make an accurate germination test of every lot of seed to be **sure** it will grow, and then we put the **exact** percentage of germination or vitality on **every** package we send out. Moreover, this test is made just previous to the seed being packaged and sent to you.

Canterbury Bells

2249—Harris' Special All Variety Mixture contains all the colors and is the finest mixture ever offered. Pkt. 15c; Large Pkt. 25c; $\frac{1}{4}$ oz. 60c.

Cup and Saucer Canterbury Bells. Immense flowers in early summer. 3 ft.

2231—White. Pkt. 20c; Large Pkt. 35c; $\frac{1}{4}$ oz. \$1.00.

2232—Rose. Pkt. 20c; Large Pkt. 35c; $\frac{1}{4}$ oz. \$1.00.

2233—Blue. Pkt. 20c; Large Pkt. 35c; $\frac{1}{4}$ oz. \$1.00.

2230—Variety Mixture. Pkt. 20c; Large Pkt. 35c; $\frac{1}{4}$ oz. \$1.00.

Single Canterbury Bells. Beautiful bell-like flowers in early summer. 3 ft.

2221—White. Pkt. 10c; Large Pkt. 25c; $\frac{1}{4}$ oz. 40c.

2222—Rose. Pkt. 10c; Large Pkt. 25c; $\frac{1}{4}$ oz. 40c.

2223—Blue. Pkt. 10c; Large Pkt. 25c; $\frac{1}{4}$ oz. 40c.

2220—Variety Mixture. Pkt. 10c; Large Pkt. 25c; $\frac{1}{4}$ oz. 40c.

Double Canterbury Bells. Like the single varieties except the bells are double.

2251—White. Pkt. 25c; Large Pkt. 50c.

2252—Blue. Pkt. 25c; Large Pkt. 50c.

Campanula Pyramidalis (Chimney Bell Flower). An uncommon variety growing 3 to 4 feet. Blooms August and September.

2256—Blue. Pkt. 15c; Large Pkt. 30c.

Harris' Delphinium

AS a result of years of careful growing, of selecting seed from the finest specimens, we are able to say that **HARRIS' DELPHINIUM SEED** is the finest to be had. We invite your attention to all of the splendid varieties listed below. Nothing that you can plant in your garden will so enhance it as **HARRIS' DELPHINIUM**.

2641—Harris Monarch Delphinium. Truly the finest strain ever developed. Please refer to page 2. Pkt. \$1.00.

2640—Harris Moreton Hybrids. Exceptional quality at a remarkably low price. All gathered from the same fields as our Monarch Strain and it contains both single and double blooms in all shades. Pkt. 15c; Large Pkt. 35c; $\frac{1}{4}$ oz. \$1.25.

Blackmore and Langdon's Strain. By far the best of all European grown Delphiniums. It will develop enormous spikes of the deep-blue and purple shades. This is the best of Blackmore and Langdon's own growing.

2644—Pkt. \$1.00; Large Pkt. \$1.50.

Wrexham or Hollyhock Strain.

2660—A new strain of very large flowers produced by a leading English grower. Pkt. 80c; Large Pkt. \$1.25.

A tray of different kinds of seed as it is put into the electric tester to ascertain the percentage which will germinate

Digitalis (Foxglove) blooming in June and July

Harris' Sunbeam Coreopsis flowering in June and July

Perennial Seed Now Border Next Summer

DIGITALIS (Foxglove)

2725—**The Shirley.** Mixed Colors. No garden is complete without Foxgloves. Plant in masses with Delphinium. 3 to 4 ft. Pkt. 10c; Large Pkt. 20c; $\frac{1}{4}$ oz. 50c.

GAILLARDIA (Blanket Flower)

2910—**The Dazzler.** Deep yellow and maroon flowers all summer. Easily raised. Excellent for cutting. 2 ft. Pkt. 10c; Large Pkt. 25c; $\frac{1}{4}$ oz. 50c; oz. \$1.75.

GYPSOPHILA (Baby's Breath)

2995—**Paniculata Single.** Masses of tiny white flowers in July and August. 2 ft. Pkt. 10c; Large Pkt. 15c; $\frac{1}{4}$ oz. 25c.

2996—**Paniculata Double.** Used for winter decoration. Plants will not all come double from seed. Pkt. 25c; Large Pkt. 50c.

HARDY ZINNIA

3160—**Heliopsis scabra Zinniaeflora.** The best tall growing yellow perennial. 3 to 4 ft. Pkt. 10c; Large Pkt. 20c.

HOLLYHOCKS

Harris' Double Hollyhocks. By color. Pkt. 15c; Large Pkt. 25c; $\frac{1}{4}$ oz. 50c.

3101—White

3103—Rose

3104—Red

3102—Pink

3105—Yellow

3100—**Variety Mixture.** All colors above. Pkt. 10c; Large Pkt. 20c; $\frac{1}{4}$ oz. 45c.

3118—**Exquisite Rose.** A recently introduced ruffled and fringed type. Double flowers of old rose edged with white. Pkt. 20c; Large Pkt. 40c.

3115—**Allegheny Mixture.** Special pink shades. Semi-double and single, ruffled and fringed. Pkt. 10c; Large Pkt. 20c; $\frac{1}{4}$ oz. 50c; oz. \$1.75.

ORIENTAL POPPIES

3950—**Scarlet.** Brightest red. Pkt. 10c; Large Pkt. 20c; $\frac{1}{4}$ oz. 40c.

NEW AND RARE PERENNIALS

To Sow This Summer

HERE is a most unusual opportunity to select some of the newest and most distinctive of the recent introductions. Have something entirely different from what others have in their gardens. One of the delights of gardening is being able to successfully grow some of the newest and best kinds and "put one over" on your competing garden friends.

Please read carefully. In order to give our friends the opportunity to have the latest developments we are offering you these new varieties on the originators' recommendations and in many cases, in the originators' packets.

When judging the results you obtain, please remember most of these varieties are so new that we have had no opportunity to make any tests.

3966—Sanford's Giant Strain Iceland Poppy. A new type with extra large flowers and very free flowering. Originators' packets, 50c each.

2076—Aquilegia, Crimson Star. A new long spurred blood red variety with white center petals. Originators' packets, 50c each.

2078—Aquilegia, Compacta Edelweiss. Low growing with pure white flowers. Fine for rock gardens. Originators' packets, 50c each.

1991—Aster Subcoeruleus, Florist's Delight. An entirely new type blooming early, with immense light blue flowers. Original packet, 50c.

3772—Johnny-Jump-Up. The old fashioned true purple, blue and yellow Johnny-Jump-Up. A delight in any garden. Pkt. 50c each.

3766—Apricot Queen Viola. The new bright apricot orange shown in colors on page 74 of our general catalog. Original packets, 50c each.

3765—Jersey Gem Viola. The most important introduction in Violas ever made. One of the most satisfactory perennials, flowering all summer. Pkts. 50c each.

2758—Edelweiss. The small white leaved plant of the Alp Mountains. Should be in every rock garden. Pkts. 50c each.

2706—Dianthus Neglectus, Glacier Pink. A most unusual little rock garden plant rapidly coming into favor. Bright rose color. Pkt. 50c each.

3394—Golden Ball Matricaria. Although not such a new variety, it is so satisfactory that you should surely have some. Only 1 ft. high and covered with small bright yellow flowers resembling tiny button chrysanthemums. Pkts. 25c each.

3979—Potentilla Nepalensis, Miss Willmont. Bright carmine flowers on plants only 12 inches high. Worth trying in every garden. Pkt. 50c each.

**New Orange Queen Geum
which blooms in Midsummer**

8044—Veronica Longifolia, Hendersoni. A remarkably good plant, and a decided improvement over the old Veronica Longifolia. Pkt. 25c.

2702—Dianthus plumarius, Red Shades. A new departure in Hardy Pinks. Different bright shades of red. Pkt. 50c.

2912—Gaillardia, New Burgundy. Dark red flowers on long stiff stems. A new 1931 variety. Original packets, 50c each.

3125—Double Hollyhock, Triumph. An entirely new type. The plant is branching and the stems are studded with large wavy flowers in a wonderful array of new colors. Original packets, 50c each.

3110—Double Hollyhock, Imperator. The largest known Hollyhocks, of a distinct form. Very beautiful. Original packets, 35c.

2922—Orange Queen Geum. A new bright orange and a quite unusually attractive color. Pkt. 50c.

4024—New Blue Celeste Hardy Primrose. A very scarce and unusual variety. The colors range from light to dark blue and purple. Pkt. \$1.00.

HARRIS HARDY PERENNIAL PLANTS

THE early fall and late summer is the best time to set out many varieties of hardy plants. It gives them an opportunity to get well established before winter and then they are ready to start right out the first thing in the spring and give you extra fine flowers next summer. The varieties we are offering are the best to set out this fall.

ORDER EARLY

You will have much better results next summer if you do your planting in September.

We start shipping plants on September 1st, but we can ship your plants at almost any date you specify. Plants set out too late will winter-kill.

Hardy Phlox

FOR a gorgeous display of color in the perennial border in August, there is nothing to compare with Hardy Phlox. You must be sure to have the better varieties or your garden is not complete nor are you realizing the utmost in enjoyment from it. We are suggesting 14 varieties as the best. The color range is so complete that you can surely satisfy your taste among these splendid sorts.

PLANT PHLOX IN THE FALL

The nature of the growth of Phlox is such that it is far better to transplant them in the fall rather than to disturb them in the spring.

Our plants this summer are exceptionally good. They are all young and healthy field grown stock and are ideal to set out this fall.

SPECIAL LOW PRICES

You will get better plants at lower prices if you buy now. Place your order now and we will send the plants as soon as they are ready.

Prices:

4 for \$1.00	} of any one variety
12 for \$2.50	
25 for \$4.00	

Write for special prices on larger quantities.

Special \$3.00 Offer of 3 plants each of any 6 kinds, your selection. Order your Phlox before September 1st and get the best plants.

Enchantress. The finest pink we know. A beautiful shade of deep cerise or rosy scarlet.

General Von Heutz. A deep carmine. The plant branches strongly. A very showy variety.

B. Comte. A tall growing, large flowering deep velvety dark rosy magenta. Very effective in mass.

Rheinlander. A most attractive and pleasing shade of bright salmon-rose with a small red eye.

Miss Lingard. Flowers early and over a long period. Pure white flowers, shiny foliage.

General Von Hochberg. One of the finest dark reds. A beautiful deep velvety shade.

Von Lassburg. The best tall, pure white. Midseason variety.

Hardy Phlox for Aug. and Sept. Bloom

Rosenberg. Dark purple. Large flowers and medium height.

Africa. Carmine-red with a dark red eye. One of the best new dark red varieties.

Count Zeppelin. Very free flowering. Flowers are pure white with a brilliant red eye.

Milly von Hoboken. Large flowering soft pink. A very beautiful light pink.

Deutschland. Bright shade of light red.

Mia Ruys. Rather dwarf in habit but very branching in habit. Immense clusters of pure white.

Sunset. Bright salmon pink. Large trusses and medium height.

The rock garden and pool in the "Model Back Yard" in our display gardens

HARDY PLANTS FOR THE ROCK GARDEN

THIS summer and fall is the ideal time to build a new rock garden or fill in the one you now have. The kinds on this page are carefully selected from the most desirable sorts. They are most all pot-grown plants that can be shipped any time and are sure to give you the best results. PRICE: Any of the following varieties. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

SPECIAL COLLECTIONS. 3 plants each of any 5 varieties (your selection) for only \$3.50 for 15 plants.

Ajuga (Bugleweed).

Reptans. A good creeper for the shade.

Variegated. Green and white foliage.

Anchusa Myosotidiflora. Charming blue flowers like Forget-Me-Nots. Blooms in June-July. Likes shade.

Arabis (Rock Cress).

Alpina, double. Low creeping plant with white flowers in May.

Alpina rosea. Pale pink flowers. Unusual.

Armeria Lauchearia (Sea Pink). Bright red, flowers all summer.

Arenaria Verna (Sandwort). Low growing grassy tufts.

Hardy Asters (Michaelmas Daisies).

Mauve Cushion. Mauve-pink, in fall.

Alpinus, Goliath. Large blue, in June.

Aubrietia Hybrids (Rock Cress). Mixed colors.

Campanula Carpatica (Harebell). Blue or white.

Cerastium Tomentosum. Gray foliage. White flowers.

Creeping Jenny. A good ground cover.

Daphne Cneorum. Low growing evergreen shrub with pink flowers. One of the best rock plants.

Dianthus (Hardy Pinks).

Plumarius (Clove Pinks). Bloom in June and July.

Deltoides Brilliant. Crimson flowers in June and July. A splendid rockery plant.

Alwoodii Alpinus. Blooms all season.

Edelweiss (*Leontopodium sibericum*). White woolly leaves.

Helenium Hoopesii. Large yellow in July.

Heuchera Sanguinea (Coral Bells). Small bright crimson bells.

Hypericum Patulum (St. John's Wort). Yellow flowers.

Iris, Dwarf.

Pumila. Large dark purple flowers.

Cristata. Dwarf with light blue flowers.

Iberis (Hardy Candytuft).

Sempervirens. Early white flowers. Evergreen foliage.

Snowflake is more dwarf and compact.

Lotus Corniculatus. A low creeping plant with yellow flowers. A valuable rock plant.

ROCK GARDEN PLANTS—Continued

Lysimachia Nummularia (Creeping Jenny). An excellent ground cover with yellow flowers.

Lychnis Viscaria Double (Ragged Robin). A very satisfactory plant. Purplish-red flowers in clusters in June and July.

Nierembergia Rivularis (Cup Flower). A creeping plant with white flowers.

Pachysandra Terminalis (Japanese Spurge). A trailing ground plant. Very valuable in shady locations.

Phlox Subulata (Moss Pinks).

White. Creeping plant. White in May.

Rosea. Rosy-lilac flowers all during May.

Vivid. A new bright rosy-pink variety with a scarlet eye.

Divaricata canadensis. This variety has lavender flowers in May.

Physostegia Vivid (False Dragonhead). Bright deep pink flowers in September.

Primula (Hardy Primrose).

Veris superba. Fragrant large yellow.

Veris, Harris Moreton Mixture. A wide range of beautiful soft colors.

Saponaria Ocymoides Splendens (Soap Wort). A fine creeping plant. Pink in June.

Saxifraga.

Decipiens (Crimson Moss). A creeping plant.

Megasea Hybrids. All shades of rose and pink. Foliage is very attractive.

Cordifolia. Large deep green leaves. Pink flowers.

Scutellaria Baicalensis Coelestina (Skull Cap). Blue flowers in July and August.

Sedum (Stone Crop). The most valuable rock plants.

Acre (Golden Moss). Bright grassy foliage. Yellow flowers.

Glaucum. Interesting light blue-green.

Kamtschaticum. Broad bright leaves. Flowers yellow.

Kamtschaticum Variegated. Foliage green and cream.

Muralis. Reddish-green foliage and pink flowers.

Obtusatum. Green and bronze foliage. Yellow flowers.

Prunium Forsterianum. Neat rosettes of bluish-green.

Sarmentosum. Splendid for rock walls.

Spurium coccineum. Small flowers of rosy-crimson.

Spectabilis Brilliant. Large clusters of bright crimson flowers. Foliage very fleshy.

Sempervivum (Hens and Chickens).

Globiferum. Small flat rosettes of light green Cactus-like leaves.

Tectorum. Larger rosettes, leaves tipped reddish-brown.

Spirea Filipendula, Double (Goats Beard). Feathery heads of small white flowers, the foliage fern-like.

Stokesia Cyanea, Blue. A splendid, low, all summer bloomer.

Thymus Serpyllum Coccineum (Thyme). A small creeping plant which is very hardy.

Veronica (Speed well).

Longifolia subsessilis. Navy-blue flowers from July to September.

Orchidea. Bright blue flowers in mid-summer.

Amethystina. Rich blue flowers in June.

True Blue. Intense blue flowers in July.

Rupestris. Becomes a carpet of bright heavenly-blue blooms.

Trehani Variegated. Blue flowers with variegated foliage.

Vinca Minor (Trailing Myrtle or Periwinkle). A splendid creeper, valuable in shade.

Viola Jersey Gem (Tufted Pansy). Rich violet-blue flowers all summer. Excellent.

Your Peonies should be planted
September 1st

HARRIS SPECIAL HARDY PLANTS

THE plants on this page are those we especially recommend. They are sure to be satisfactory. From this page you can select a variety of colors, plants of different heights, and different seasons of bloom. Every one of them will add to the joy of your garden. Be sure to include them in your order if you do not already have them.

We start shipping on September 1st. You may designate any particular date you wish your plants sent.

Harris' Monarch Delphinium. Fine large plants all especially chosen from blooming plants. You can be sure each one is a magnificent specimen. Customers who saw these same kinds of plants here last year gladly paid \$1.00 and \$1.50 each for them. We are reducing the price this year to 3 for \$2.00; 6 for \$3.50; \$6.00 per doz.

Harris' Moreton Hybrid Delphinium. We have never had finer plants of such choice varieties for as low a price. They are exceptional value. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Harris' New Hardy Carnation. A wonderful plant for the foreground of your garden. Quantities of good flowers for bouquets. Our plants are not large and overgrown, but just right to set out. We have a special offer at 5 for \$1.00; \$1.50 per doz.

Harris' Pink Beauty (Sidalcea). This has been one of our favorites for several years. Long stems of pink flowers in June and July. 4 ft. high. Beautiful foliage. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Physostegia Dwarf Vivid.
Blooms profusely in
September

Harris' Monarch Delphinium
commence to flower
in June

Harris Hardy Primroses. Always so welcome in early spring.

Moreton Mixture. A mixture of all colors. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Veris Superba. Large flowering deep yellow and very fragrant. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Harris' Golden Sprays. We introduced this new plant this last spring. See our general catalog page 83 for a color picture. Sprays of yellow flowers in July and August. 3 ft. high. Large plants. 3 for \$1.00; 6 for \$1.35; \$2.50 per doz.

Harris' Physostegia (False Dragonhead).

Harris Giant. An improved tall growing variety with long spikes of pink flowers about September 1st. 5 ft. Good for bouquets. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Dwarf Vivid. A marvelously good low growing plant for borders or rock gardens. Blooms in September with many spikes of deep pink flowers. 1 ft. high. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

Riverton Gem Helenium. One of the most showy fall blooming border plants. Clusters of yellow and brown flowers in August and September. 4 to 5 ft. high. 3 for \$1.00; 6 for \$1.35; 12 for \$2.50.

FRESH DUG LILIES

Harris' fresh dug Lily bulbs are sure to give satisfaction. They must not be confused with foreign grown bulbs that have been held in storage for several months. Storage bulbs often take one year to sprout while Harris' fresh dug bulbs sent to you at the proper time go right on growing.

"My lilies last year were wonderful—far beyond my expectations for the first year; in fact, all that I have received have done well." Effie E. Johnson, Peoria, Ill.

HARDY GARDEN LILIES

Harris' Own Growing

HARRIS Lilies are fresh dug from the fields as ordered. Each is considered as a plant and is carefully wrapped in wet moss so that it will reach you in a perfectly fresh condition.

There can be no thought of failure if you will plant **Harris Own Grown Hardy Lilies**, all grown by us on Moreton Farm. You will find these lilies vastly different from the usual imported stock to be had elsewhere.

Complete cultural directions sent with every order.

Madonna Lily (*Lilium candidum*). Sometimes called "St. Joseph's" and "Ascension," this is the best known of all. Flowers are enormous, a waxy white, many on a single stalk. The lily is a sure bloomer in July. 30c each; \$3.00 per doz.

Excelsum (Nankeen Lily). Flowers apricot. Stalk often 7 feet high. Fragrant. \$2.50 each.

Henryi. Large flowers, orange, spotted with brown. Grows to 9 feet. 50c each; \$5.00 per doz.

Speciosum Album. Beautiful white flowers in September. Stalks 4 to 5 feet high. Very hardy. 40c each; \$4.00 per doz.

Speciosum Rubrum. Large rosy-white flowers flecked with rich crimson. 40c each; \$4.00 per doz.

Batemanniae. Grows 3 feet high. Apricot colored flowers in July and August. 50c each; \$5.00 per doz.

Martagon (Turkscap Lily). Grows in partial shade or sun. 4 to 5 feet high. As many as 25 wax-like, purple flowers in June. 30c each; \$3.00 per doz.

Martagon Album. A white form of the above. 65c each; \$6.50 per doz.

Pyrenaicum (Yellow Turkscap). Blooms in June. 2 to 3 feet. Waxy-yellow flowers flecked with greenish brown. 75c each; \$7.50 per doz.

Chalcedonicum (Scarlet Turkscap). A rare bright scarlet variety. Blooms in July. Very hardy and adaptable to any soil. \$1.85 each; \$20.00 per doz.

Harris' Home Grown Madonna Lilies are sure to be satisfactory

Regal Lily (*L. Myriophyllum*). Please see illustration in natural colors on the inside back cover of our spring catalog. 25c each; \$2.50 per doz.

Krameri (Pink Kramer's Lily). 2 to 4 feet high. Blooms in July. 60c each; \$6.00 per doz.

Umbellatum Grandiflorum. Bright orange-red, spotted dark. 2 feet high. Blooms in June. 20c each; \$2.00 per doz.

Tigrinum Splendens Single (Single Tiger). Deep orange. 3 to 5 feet high in late summer. 20c each; \$2.00 per doz.

Tigrinum Double. A beautiful double variety of the above. 40c each; \$4.00 per doz.

Superbum (American Turkscap). Often reaches 6 feet. Flowers are bright orange spotted darkly. 45c each; \$4.50 per doz.

Lilium Thunbergianum (Elegans Lily).

Kikak. A low growing variety for rock gardens. Brilliant orange. 45c each; \$4.50 per doz.

Bicolor. A pleasing shade of orange edged with scarlet and dark spotted. 20c each; \$2.00 per doz.

Mahoney. An unusual dark mahogany-red. \$1.50 each; \$15.00 per doz.

Umbellatum Lilies are the most showy and easiest to grow Thunbergianum is of the same type

HARRIS' DUTCH BULB BARGAINS

HARRIS' TEN BEST DARWIN TULIPS

THERE is no use paying high prices for good Tulips. Harris' Darwins have been very carefully selected to give you the best flowers at the lowest prices. Each one of the ten varieties is an entirely different color, and the finest kind of its color for outdoor planting. You don't have to fuss over a long list. Buy Harris' and know you have the best.

HARRIS' BULB BARGAINS

Harris' Cottage Tulip Mixture

Have Tulips In Your Garden for a Longer Season By Planting Cottage Tulips With the Darwins.

They are deservedly becoming more popular, because they fill in the gap between Single Early Tulips and the Darwins, and should be planted more than they are.

In fact, they can be planted with the Darwins, being nearly as tall, and blooming almost the same time. They are in a different range of colors, thus adding many new colors to a planting of Tulips. 50c per doz.; \$3.50 per 100.

Striped Tulips

Plant a few clusters of Striped Tulips together with the Darwins. They grow well with them and bloom at the same time. It makes a more colorful display.

A great variety of blotched, striped and feathered colorings. 95c per doz.; \$7.00 per 100.

Double Early Tulips

The double flowering Tulips come into bloom a little later than the Early Flowering Single varieties and they are used extensively for growing indoors. We have very carefully selected the three most satisfactory varieties.

Murillo. The most popular light pink. 60c per 12.

Van de Hoeff. An extra fine golden-yellow. 80c per 12.

Rubra Maxima. The best bright scarlet-red. 80c per 12.

Harris' Variety Mixture. Very carefully made from the best varieties in a wide range of colors, including all of the above sorts. 80c per 12; \$6.00 per 100.

No. 34. Special Garden Collection of Double Tulips. 12 bulbs each of the above three varieties for only \$1.50.

Cottage Tulips

Double Early Tulips, Murillo

Single Early Tulips

The Single Early Tulips are really the most delightful because they come into bloom so early in the spring that their rows or clusters of bright glistening colors are most welcome. Another advantage is that they bloom early enough so the beds can be used for other plants during the summer. Also, the fact that they are lower growing makes them especially desirable for many locations.

Our Five Best Varieties For Outdoor Planting

These five are carefully chosen for their desirable colors, splendid types and good growing qualities.

	Per Doz.	Per 100
Artus. Dark scarlet.....	\$5.50	\$3.50
Ibis. Very deep pink.....	.60	4.00
Prosperity. Splendid bright pink	.50	3.50
Keizerkroon. The best red and yellow.....	.85	6.00
White Hawk. Immense pure white.....	.80	5.50

Choice Mixture of Early Tulips

All colors in splendid mixture. A riot of color in the very early spring. 60c per doz.; \$4.00 per 100; \$37.00 per 1000.

JOSEPH HARRIS COMPANY, Inc.
COLDWATER, N. Y.

PARROT TULIPS

The petals of Parrot Tulips are all very curiously and artistically fringed, and the flower is very quaintly formed. They are said to resemble the neck and head of a parrot.

Fantasy. A recent product of the Tulip breeder's art. It has the color, size, stem and season of the well-known Clara Butt Darwin Tulip, and the beautiful quaint shape of the Parrot Tulip. It is the most ornamental Tulip known. 45c each; \$4.50 per doz.

Perfecta. Yellow striped red. 75c per doz.; \$5.00 per 100.

Admiral de Constantinople. Red tipped orange. 75c per doz.; \$5.00 per 100.

Choice Mixture of all kinds and different color combinations. 70c per doz.; \$4.50 per 100.

Parrot Tulips

"I have more plants from your seeds than any seeds I buy."

Mrs. S. E. Gorton, Blackstone, Va.

"As you know, I have used your seeds for a long time and I still think they are the best."

G. H. Walker, Orleans, Mass.

"Some of the bulbs are blooming that I got from you last fall and I must tell you that they are unusually fine. Everything that I get from you is very satisfactory." Mrs. H. C. Niles, York, Pa.

ONE MONTH TULIP COLLECTION

- 12 bulbs Chionodoxa Luciliae
- 12 bulbs Scilla Siberica

The 84 bulbs for only \$2.75 (Regular price \$3.55)

Peat Moss A Valuable Soil Conditioner

We have found Granulated Peat Moss to be a most valuable material to aid in getting the soil of lawns and gardens in the best condition. It is composed of partly decayed moss and other plants and is odorless and easy to handle. Peat Moss is entirely organic and adds humus to the soil, making hard land more friable and light sandy land hold moisture better. If your lawn is not what it should be, a mulch of Peat Moss spread on about 1/2 inch thick in the late fall (it will almost disappear by spring), will add 100% to the appearance of your lawn.

Peat Moss should be used for the following purposes:

- To mix with soil to make it loose and hold water.
- To cover the roots of evergreens to make the soil condition which they require.
- To cover plants and bulbs during the winter.
- To cover lawns so as to keep the grass green in dry weather.

Peat Moss comes in large bales closely compressed, and wrapped in burlap. A bale makes from 19 to 20 bu. of loose material or enough to cover about 300 sq. ft.—1 in. deep.

We also offer peat moss in trial size Garden Boxes—equivalent to about 2 bushels of loose material.

Price:

Full size single bale, by freight, not prepaid.....	\$3.75
3 bales or more \$3.50 per bale	
Half bale, by freight, not prepaid.....	2.50
Trial Garden Box, by freight, not prepaid.....	1.50

The Garden Box will be sent postpaid as follows:

West of Utica and east of Erie, Pa.....	1.75
West of Springfield, Mass. and east of Toledo, Ohio.....	2.00
Other places east of the Mississippi River and north of the Ohio River.....	2.25

AMERICAN GROWN NARCISSUS

Showing the field in Washington where our Daffodils and Narcissus are grown. The variety in the foreground is Emperor.

Reduced Prices on Daffodils

DAFFODILS and Narcissus have never been so low in price since the embargo was put on several years ago. Now you can afford to buy them again.

There is no class of fall planted bulbs that will give you more satisfaction over a long period of years.

They look well in most any location and will do well in most any soil and will continue to thrive and become more beautiful for several years.

When you plant Narcissus bulbs you make a long term investment in garden joy.

Emperor. The standard large pure yellow. 3 for 50c; 12 for \$1.40; \$9.50 per 100.

Treserve. Larger clear yellow flowers, much larger than King Alfred, but lower in price. 3 for 60c; 12 for \$1.70; \$13.50 per 100.

Spring Glory. An exceptional large flower with white petals and a yellow trumpet. 3 for 55c; 12 for \$1.50; \$10.00 per 100.

SPECIAL COLLECTIONS

No. 11—3 each of the above 3 varieties for \$1.50.

No. 12—12 each of the above 3 varieties for \$4.00.

AMERICAN GROWN NARCISSUS BARGAINS

THE many different smaller flowered types are wonderfully satisfactory and most enjoyable. They thrive so well and bloom so profusely that they are rapidly becoming more and more popular.

Von Sion (Double). The popular old fashioned large flowering double yellow. 3 for 50c; 12 for \$1.40; \$9.50 per 100.

Orange Phoenix ("Eggs and Bacon"). Large double white flowers with orange center. 3 for 45c; 12 for \$1.20; \$7.00 per 100.

Sir Watkins. Large wavy light yellow petals and deep yellow cup. Very effective and satisfactory. 3 for 45c; 12 for \$1.30; \$8.50 per 100.

Poeticus Recurvus. The beautiful "Pheasant's Eye." Clusters of snow white with small yellow cups. Excellent for naturalizing. 3 for 25c; 12 for 60c; \$4.00 per 100.

Will Scarlet. One of the most beautiful Narcissus. Long wavy white petals with a large fiery orange-red cup. A favorite in England. 3 for 50c; 12 for \$1.50; \$10.00 per 100.

Laurens Koster. Graceful clusters of several flowers to a stem. Pure white with bright orange cup. 3 for 35c; 12 for \$1.00; \$6.00 per 100.

White Lady Narcissus

EXTRA SPECIAL BARGAIN

White Lady. We have found this to be the most beautiful pure snow-white Narcissus we have ever seen. Long stems and free flowering. The snow-white petals are long and wavy while the pale yellow short cup soon turns to white.

We are making a special bargain price offer. 3 for 35c; 12 for 70c; \$4.50 per 100.

Naturalizing Mixture

A **SPLENDID** mixture of many different kinds and colors of Narcissus and Daffodils at a real low price. Excellent for either small or large plantings. 12 for 65c; \$4.50 per 100.

Harris' Hyacinths

Exhibition or Large Size Bulbs

There is no more delightful flower imaginable for blooming in the living room during the cold winter months.

There are no prettier or more satisfactory flowers, and there is no reason why you cannot have beautiful Hyacinths all winter. Full directions for growing with every order. 15c each; \$1.50 per 12.

WHITE
YELLOW
PINK

LIGHT BLUE
DARK BLUE
RED

Hyacinths are the most satisfactory to grow indoors. They are just as beautiful in the garden, and prices are the lowest in years.

No. 29—SPECIAL COLLECTION. One bulb each of the 6 above named colors for 80c.

DUTCH BULBS FOR FALL PLANTING

Crocus

Long before Tulips and Daffodils are awake these welcome little flowers have thrust their way up to assure us that spring is at our door.

Our bulbs are of the best Large-flowering Crocus.

Yellow	} 50c per 12; \$3.50 per 100
White	
Blue	
Striped	

Harris' Special-Color Blend Crocus Mixture

A new mixture we make up out of equal proportions of yellow, blue, striped and white. This makes a well-balanced blend of colors and assures you of the best possible mixture at the lowest cost. 45c per 12; \$3.00 per 100; \$28.00 per 1000.

Scilla or Squill

One of the best of the extra early flowering little flowers. They thrive in most any situation, if left undisturbed. They are good for the border or the rock garden.

Scilla Siberica Blue. Bright blue bell-like flowers following the Crocus, and lasting for a long time. 60c per 12; \$4.00 per 100.

Glory-of-the-Snow or Chionodoxa

The First Bright Flower in the Garden

Grows and thrives in most any location and is perfectly hardy. Once planted the flowers will seed themselves and form natural colonies. They bloom at the same time as Crocus, making a beautiful display of intense blue, with 10 or more little cup-shaped flowers on a six inch spike.

Plant 15 to 20 bulbs to a square foot. They will thrive in any sunny or semi-shady location where they can remain undisturbed for a number of years.

Luciliae. Flowers of an intense bright blue with white centers. 50c per 12; \$3.00 per 100.

Grape Hyacinth or Muscaria

The prettiest of the little early spring-flowering bulbs and they should be more generously planted.

The flowers grow about 7 to 9 inches high and look much like tiny Hyacinths; hence the name, "Grape Hyacinth." Muscaria are the most attractive shade of clear, bright blue, and one of the most satisfactory bulbs to plant. They are perfectly hardy, increase rapidly and can be planted in any location.

Heavenly Blue. The most popular variety and a beautiful shade. An especially low price for large sized bulbs. 50c per 12; \$3.50 per 100.

Guinea Hen Flower or Checkered Lily

Fritillaria Meleagris. Dwarf bell shaped flowers in various colors and all curiously striped and splashed and oddly checkered. They are both attractive and unique and most effective when planted in clusters of 25 or more in a dry situation. Blossoming early in April. Perfectly hardy. 50c per 12; \$3.00 per 100.

Winter Aconite or Eranthis Hyemalis

Real early in the spring the golden yellow blossoms of Winter Aconite commence to bring brightness and cheerfulness into the garden. The bright yellow flowers look so charming on the cushions of emerald green leaves which remain attractive long after the flowers are gone. 50c per 12; \$3.00 per 100.

Snowdrop or Galanthus

Plant a lot of Snowdrops this fall and be the first to have flowers in your garden next spring.

Nivalis is the ever satisfactory old-fashioned variety. 50c per 12; \$3.00 per 100.

Ixias

Few people know the beautiful Ixias in their different bright shades of red, pink, yellow, blue and white. They are 1 ft. tall and bloom in May. Fine for the border.

Extra Mixture. A mixture of all colors. 50c per 12; \$3.50 per 100.

Muscaria or Grape Hyacinths

Chionodoxa

Snowdrops

EXTRA SPECIAL

Harris Own Growing of *Scilla Campanulata Rosea*

HERE is an unusual opportunity for this summer only. In the first place good bulbs of the true pretty pink *Scilla* have been difficult to obtain. In the second place, here is a stock of extra fine large bulbs of our own growing.

Plant clumps of them around the edge of your border or in your rock garden. They will last for years. They are hyacinth-like spikes of attractive pink, 1 ft. high the last of May and fore part of June. They are also delightful in bouquets. Be sure to take advantage of this opportunity at our reduced price. 85c per doz.; \$1.65 per 25; \$6.00 per 100.

Order early as our stock is limited.

Scilla Campanulata Rosea

ANNUALS FOR FALL SOWING

Somewhere in your garden, there is a small protected place where you can sow the following seeds in the late summer or early fall so that in the spring you will have a supply of vigorous plants to transplant to various parts of your garden. Lifting them and transplanting them in this way you are sure to enjoy them.

FALL IS THE BEST TIME TO SOW LAWN GRASS SEED!

Practical experience has proved that the best results are obtained by sowing lawn grass seed in the fall; that is from the middle of August till about the middle of October. The young plants make a more vigorous bunched growth at this time and are not so liable to be burned and stunted by the hot sun. Then too, you will not be troubled so much by the weeds which disfigure so many new lawns. If you are going to make a new lawn or renew your old lawn, plan to do it this fall and be sure to use only the very best lawn grass seed.

Take advantage of these New Low Prices for the highest quality lawn grass seed.

Harris' Superfine Lawn Grass Seed

Harris' Superfine Lawn Grass Seed is composed of the pure seeds of the three or four most desirable grasses for lawns. They are all tested for purity and germination before being mixed together and none are used which do not come up to the highest standard of excellence. These grasses will form a thick fine sod that will stand drought well and maintain a thick, soft turf for many years.

Such seed cannot be sold at the low prices charged for the inferior seeds offered by many dealers. If you want really good seed we have it, but if you want ordinary "Lawn Grass" seed you can get it at the corner grocery. This seed is so pure, clean and free from chaff that a bushel weighs 30 lbs. instead of 20 lbs. which is the usual weight of lawn grass seed.

The best results are obtained by sowing the seed quite thick—1 lb. or quart to 200 or 300 square feet, but sowing one pound on 400 to 500 square feet will make an excellent lawn although not quite as quickly.

Full directions for making a lawn are contained in a little pamphlet, which will be sent free on request.

To renew old lawns rake thoroughly, stirring the ground as much as possible without killing the grass. All moss and weeds should be removed as far as possible. Sow half as much grass seed as recommended for seeding a new lawn. After seeding, the lawn should be rolled.

Harris' Superfine Lawn Grass Seed contains white clover which we consider highly desirable in a lawn, as the roots penetrate deep into the soil and so get water to keep the lawn green during very hot weather. We can furnish the seed without White Clover, if desired, at the same price.

Postpaid

1 lb. seeds	15x 20 ft. or	300 sq. ft.	\$.50
5 lbs. seeds	20x 75 ft. or	1500 sq. ft.	2.40
10 lbs. seeds	50x 60 ft. or	3000 sq. ft.	4.50
25 lbs. seeds	75x100 ft. or	7500 sq. ft.	10.00

Freight Prepaid

50 lbs. seeds	100x150 ft. or	15000 sq. ft.	19.00
100 lbs. seeds	100x300 ft. or	30000 sq. ft.	35.00

Note—Harris' Superfine Lawn Grass seed contains no cheap kinds such as Timothy and Rye grass which are often put in so the seed can be sold at a low price.

Grass Seed for Shady Lawns

This mixture is composed of the few kinds of grasses that grow best in shady places. These grasses will grow and make a good sod under trees and in the shade of buildings where the common kinds of lawn grass would not do well.

This seed should be sown in the early spring or fall. The ground should be thoroughly stirred up and raked smooth before seeding. Use seed at the same rate as common Lawn grass. See quantities above.

Lawn Grass for Shady Spots. Pound 65c; 5 lbs. \$3.00; any greater quantity, 55c per lb. postpaid.

For Seeding Under Trees

There are often places under large deciduous trees and shrubs which the sun cannot reach at any time during the day when the leaves are out. No grass of any kind will grow under such conditions for any length of time. The best thing for such places is to sow some quick growing grasses, either in the autumn when the leaves fall, or in the early spring before the leaves come out. The grass will then cover the ground and remain green late in the summer. The ground has to be reseeded each year. We can furnish a mixture of grasses suitable for this purpose. Please order by name as follows:

Lawn Grass for Annual Seeding.

1 lb., enough for 200 sq. ft., 35c; 5 lbs. \$1.50; each additional pound 25c postpaid.

White Clover for Lawns

White Clover is used principally for lawns. The roots extend deep into the ground and consequently this clover stands drought well remaining green when other grasses dry up. For this reason it is valuable for lawns on dry soil. Lb. 60c; 5 lbs. or more 45c per lb. postpaid.

Special prices quoted on large lots

Kentucky Blue Grass

One of the best grasses for pasture and lawns. It starts to grow very early in the spring and remains green late in the fall. It does well on either high, dry land or places that are quite moist. The standard weight of a bushel of seed is 14 pounds, but the re-cleaned seed we sell weighs 21 pounds per measured bushel. Lb. 50c; 10 lbs. at 40c per lb.; 100 lbs., \$35.00 Prepaid.

Creeping Bent

Used largely for putting greens and tennis courts. Makes a low dense growth which can be cut close. 95% pure. Lb. \$1.30; 10 lbs. or more \$1.25 per lb. postpaid.

Special prices quoted on large lots

Chewing Fescue

A dwarf strain of Red Fescue from New Zealand. Largely used for lawns. We offer the finest New Zealand seed. Lb. 55c; 10 lbs. at 47c per lb. postpaid.

Special prices quoted on large lots

Red Top

One of the best varieties for lawns. Develops quickly and blends well with Kentucky Blue Grass. Red Top is at its best in the late summer and fall. Finest re-cleaned seed. Lb. 45c; 10 lbs. or more 35c per lb. postpaid.

Special prices quoted on large lots

Lawns

By F. F. Rockwell. A book that will be useful year after year. Covers the essentials of making a lawn and how to keep it smooth and velvety thereafter. Building the foundation and grading, lawn grasses, fertilizing, planting and care after planting, weeds, pests, diseases, etc. are discussed. 96 pages, illustrated, cloth, postpaid.....\$1.00

HARRIS' NEW ROADSIDE STORE

One section of our store showing the attractive arrangement of plants.

Part of one of our rock gardens where you can see the different plants correctly labeled. This makes their selection easy for you.

Visit Moreton Farm

5 Miles West of Rochester, N. Y. (Route 33)

Now that autos and good roads have shortened distances, we find more and more of our customers like to drive right here to Moreton Farm to buy their seeds and plants. We are pleased to have you drive in and talk over your garden problems with us. There are many interesting flowers and vegetables to see and possibly we can give you some helpful suggestions.

If you are touring through western New York be sure to plan a stop-off at Harris' Roadside Store where you will receive a most cordial welcome.

Our New Display Garden

In connection with our store we now have a large display garden which shows how to use the different kinds of shrubs, perennials, annuals and bulbs. There is a large lily pool, evergreen planting with hardy lilies, roses, a selection of the most satisfactory shrubs, and borders of hardy perennials and annuals.

Within this garden there is a specimen garden 50 ft. x 50 ft. which shows our suggestions for developing a garden on a small city lot.

Harris' Test Gardens

Are well worth visiting if you are interested in either flowers or vegetables. Here you will see test rows of all the different kinds of flowers and vegetables we sell. They are actually samples taken from the same seed we send you, together with many novelties not in this catalog.

Garden Planning

There is no charge or obligation for this service. If you have a planting problem simply write us about it and one of our representatives will arrange to call at your convenience. You may feel free to discuss your problem with him. If necessary he will prepare, while at your residence a planting plan to fit your needs. There is positively no charge for it. See page 92 of our general catalog.
