Vegetable Seed Trials

Safe Delivery Guaranteed

All plants and seeds are guaranteed to arrive in first-class condition. If not, mail carrier or expressman should be notified on delivery. Refuse to receive them if worthless. If only slightly damaged, request him to make notation of damage, sign and mail to us at once and more plants or seeds will be forwarded or money refunded.

Terms

Cash must accompany all orders. Otherwise goods will be shipped C. O. D. Send check, postal money order, express money order or registered letter. You are protected by our safe delivery guarantee.

2% discount for cash on all sums over \$10.00. No discount on Plants. All accounts due August 1st.

No charge for packing, boxes, or bags except two-bushel seamless bags will be charged at 25 cents each when seeds are sent in quantity.

We guarantee all plants to be grown on our Sewell farms. We grow and handle nothing but the best seed obtainable. No seed that we know is of poor germination or inferior in any way is allowed to be sold.

The fact that no reputable seedsman now warrants seeds in any respect being well known, renders it unnecessary for us to say very much on this point, as it must be apparent to every intelligent person that no seedman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business. We beg to append the following notice:

While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we give no warranty, expressed or implied, as to description, purity, productiveness, variety or any other matter of any seeds, plants or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this catalog are for present stock and are subject to market changes and goods being unsold.

OROL LEDDEN & SON.

PLANTS

We are plant growers and not plant dealers. Every plant we send out is grown by us on our Sewell Farms. Nothing but first-class plants raised from carefully selected seed will be sent out.

We have five large greenhouses heated by hot-water heat for early plants. We have just finished constructing two large greenhouses, 166 ft. long, 35 ft. wide each; these new houses will be devoted to the growing of pepper, egg plant and tomato plants. Also eight hundred sash for cold-frame beds for spotting or raising plants. The greater part of our plants are hardy, field-grown, planted and farmed by machine in 12-inch rows. These field-grown plants are strong and healthy, raised from the highest-grade seed and will give best of satisfaction.

All plants shipped will be carefully packed in moss, in cartons, boxes or crates and sent by parcel post or express.

We are located in our Stucco Store, on concrete road, opposite Sewell station which is 12 miles below Camden on the W. J. & S. S. R. R. Electric branch of the Pennsylvania R. R. to Atlantic City.

We welcome customers and friends at our farms and shall be glad to show our plants and seeds. Sewell is 12 miles from Camden, N. J., on the Penna. R. R. Electric trains. Trains run every hour in the middle of the day and every 15 or 30 minutes in the morning and evening. To come by auto—Camden or Gloucester to Woodbury to Mantua, left two miles to Sewell. From South Jersey points come by way of Glassboro, take Woodbury road and turn to left at Sewell. Roads are in excellent condition.

The largest growers of Tomato, Cabbage, Pepper and Celery Plants in N. J.

PLANTS

BEET PLANTS

Plant May 15th to July 1st

Crosby Egyptian and Detroit Dark Red. These are the two best varieties for table use. We sow several times so as to always have plants the right size.

Postage prepaid. 25, 20c.; 100, 50c.; 500, \$1.75; 1,000, \$2.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$2.00. At our farms, 25, 10c.; 100, 25c.; 1,000, \$2.00.

BRUSSEL SPROUTS

Plant May 20th to August 1st

A variety of cabbage, producing from 50 to 100 heads on stem or stalk. Delicious in flavor, hardier than cabbage. Plant same as cabbage.

Half Dwarf Paris. Postage prepaid. Dozen, 20c.; 100, 50c.; 500, \$1.75; 1,000, \$2.75; or by express or parcel post, f.o.b. Sewell, 1,000, \$1.50; at our farms, dozen, 10c.; 100, 25c.; 1,000, \$1.50.

CAULIFLOWER

Plant May 15th to August 1st

Early Snowball. This is the best variety, postage prepaid. Dozen, 25c.; 100, 60c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00; at our farms, dozen, 15c.; 100, 35c.; 1,000, \$3.00.

Early Snowball

CABBAGE

Plant May 10th to August 10th

We annually grow large fields of cabbage plants for kraut packers and farmers. We have shipped 1,500,000 cabbage plants in five days. We have all leading varieties.

Early Jersey Wakefield. The most popular early variety, pointed head, compact, does not grow large.

Charleston Wakefield, or Large Wakefield. Similar to Jersey except about one week later. Heads larger.

Charleston Wakefield

Winningstadt. An extra good early variety. Sharp pointed heads.

All Head Early. This is a great cabbage and one of our best sellers. Head hard, slightly oval to flat in shape, one of the most used by kraut packers. We have sold millions of this variety to growers for kraut factories.

Copenhagen Market. An extra early, good, round heading, hard cabbage. One of the leading varieties.

Golden Acre. A small hard heading cabbage. Very early.

Early Summer. An early flat head variety.

Surehead. A large popular flat head late variety.

Succession. A second early, roundish, slightly flat. A solid head variety.
A good kraut cabbage.

Early Flat Dutch. Similar to Late Flat Dutch except earlier and smaller.

Glory Enkhuizen. A hard heading, second early, fine grain. One of the best for kraut.

Early Drumhead. An extra good second-early cabbage

The largest growers of Tomato, Cabbage, Pepper and Celery Plants in N. J.

Danish Ball Head. Tall stem. A hard heading late variety. A good keeper.

Danish Round Head. Short stem. Heads hard. A late variety.

Late Flat Dutch. An old standard variety. Enormous flat head. Should be planted early in July as it requires a full season to head hard.

Perfection Drumhead Savoy. A crumpled leaf variety, producing large heads. Should be planted in June, July or August.

Red Rock. A hard heading red variety.

Red Haco. An extra early deep dark red.

We would advise gardeners setting cabbage plants two or three times. Set early varieties in May. Second early or late in June. Late varieties in July. We plant several times and have a supply of right size plants whenever you want them. We grow large fields of late cabbage plants and endeavor to have good plants until August 10th.

Postage prepaid. 25, 20c.; 100, 50c.; 500, \$1.00; 1,000, \$1.80; or by express or parcel post f.o.b. Sewell, in 5,000 lots or more, 1,000, \$1.50; at our farms, 25, 10c.; 100, 20c.; 500, 75c.; 1,000, \$1.50.

Late Cabbage Plants—A partial view of twenty-seven acres of plants

CELERY

Plant June 15th to August 15th

Ledden Golden Self Blanching. The most popular and best of all early varieties. Our stock has produced celery the past few years of unexcelled quality and perfect in growth. Everyone should raise some of this excellent variety.

Golden Plume. A self-blanching variety.

Sanford Easy Blanching. This is a good variety, comes a little later than Golden Self Blanching and requires longer banking to blanch

Ledden's Golden Self Blanching

White Plume. This is a good early celery with beautiful white leaves in center. Blanching pure white. Liked by some better than Golden Self Blanching.

Giant Pascal. Grows large size. Extra good eating celery, very brittle.

Winter King. A strong grower, one of the best keepers. Blanching white when banked

Winter Queen. A stocky winter variety. Good keeper.

Postage prepaid. 50, 30c.; 100, 50c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00; at our farms, 50, 20c.; 100, 30c.; 500, \$1.50; 1,000, \$3.00.

Dealers and large growers write, phone, wire or come see our celery plants for special prices on large quantities.

EGG PLANTS

Plants set May 15 to June 30.

Black Beauty. For spotting, 1,000, \$3.50, f.o.b. Sewell. Pulled sash-grown, ready June 1st to July 15th. Postage prepaid. Dozen, 25c.; 100, \$1.00; 1,000, \$8.00; Spotted egg plants, ready May 20th to July 1st, in 5-inch blocks. At our green-houses, dozen, 60c.; 100, \$5.00; 1,000, \$40.00. These spotted plants do not carry good by express or parcel post. If you live near enough to come on train, you can carry them in handle baskets or they can be taken in auto or wagon. If you live at a distance and cannot come for them, we advise taking pulled plants.

PEPPER

Plants set May to July

World Beater. This great sweet pepper wins praise wherever it is grown. A large bush loaded with enormous peppers excellent for slicing or filling.

We grew 18 peppers that filled a basket and took first prize at Granger's Fair at Alcyon Park at Pitman, N. J.

Ruby King. An extra good sweet variety, heavy cropper. More Ruby King are planted than any other pepper. Earlier than World Beater.

Harris' Early Giant. The earliest of the large sweet peppers.

Chinese Giant. The largest and handsomest pepper that grows. Does not crop as heavy as Ruby King or World Beater. Extra good for family use. Sells higher than any other on account of size.

Bull Nose. An extra good hot, blunt variety. Heavy yielder.

Tomato or Squash Pepper. A round sweet variety.

Long Red Cayenne. A red-hot variety used for pickling, drying, etc.

Pepper plants for spotting, March 25th to April 25th, f.o.b. Sewell, 1,000, \$3 00

Pulled sash or field-grown plants ready May 20th to July 1st. Postage prepaid

Dozen, 20c.; 100, 60c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00. At our farms, dozen, 10c.; 100, 30c.; 1,000, \$3.00.

LETTUCE—Plant May 15th to June 15th

Big Boston and Iceberg.

Postage prepaid, 25, 15c.; 100, 30c.; 500, \$1.25; 1,000, \$2.00; at our farms, 25, 10c.; 100, 25c.; 500, \$1.00; 1,000, \$1.50.

SWEET POTATO PLANTS—May and June

Yellow and Red. Parcel Post prepaid, 100, 50c.; 1000, \$3.50; by express or parcel, f. o. b. Sewell, 1000, \$3.00.

Farming tomato plants early in May

Marglobe. Two-thirds natural size. Fruit red.

TOMATO

Plants set May 1 to July 30.

We believe we are the largest growers of Tomato plants in the United States.

Tomato plants are our greatest specialty. We annually supply numbers of canneries and large growers in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana and Illinois. We have had single orders from canning houses for a million tomato plants.

We give quick service when plants are right size.

We have numbers of testimonials saying "your plants were good and the tomatoes produced from them were the best received at the factory."

These plants are grown from seed treated with Semesan.

Greater Baltimore. An extra good main crop red tomato.

Marglobe. A second early variety. A solid, very meaty, thick red tomato, heavy yielder; the tomato ripens well up to the stem, making it very desirable for canning, or table use. Highly recommended.

Break O'Day. The new early globe shaped red tomato. It is resistant to disease, about one week earlier than Marglobe. We will have greenhouse grown plants of this variety for spotting at \$5.00 per 1000.

Matchless. A large extra good market sort. A good tomato for factories that pack whole tomatoes, or good for market. Tomatoes are large, solid and red.

Red Rock. Similar to Stone except tomatoes are darker red.

Improved Stone. An extra good heavy tomato for canning or slicing.

Bonny Best. A second early variety. Tomatoes grow in clusters. This variety is liked by canners that grind their tomatoes for soups or catsups as the tomatoes ripen to stem, also have a beautiful red color when ground.

Chalk's Early Jewel. Ripens earlier than most tomatoes. A heavy cropper but vines soon die.

John Baer. An extra good second early.

Ponderosa. A large purple tomato. Used for gardens.

Acme. An early purple tomato.

Yellow Plume. Used for preserving.

Tomato plants for spotting ready March 20th to April 20th. Spark's Earliana, Marglobe, Improved Stone, Bonny Best and Greater Baltimore, 1,000. \$3.00, f.o.b. Sewell.

We will grow your plants for you from your own seed.

We also have a large quantity of sash-grown tomato plants. Price quoted when these are ready, about May 15th to 25th.

The largest growers of Tomato, Cabbage, Pepper and Celery Plants in N. J.

Field-grown tomato plants always give the best satisfaction.

Parcel post prepaid, 25, 20c.; 100, 35c.; 500, \$1.75; 1,000, \$2.00; or by express or parcel post, f.o.b. Sewell, 1,000, \$1.50.

Spotted tomato plants ready about May 10th. Earliana and Bonny Best, at our greenhouses, dozen, 50c.; 1,000, \$30.00. These do not carry well by parcel post or express, but can be carried in baskets in auto or wagon.

On one of our farms.—A field of Greater Baltimore Tomatoes growing, two weeks before ripening. Note vigor of vines.

ROOTS

ASPARAGUS—Plant March and April

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family. 5000 roots to an acre in 4-foot rows.

Mary Washington, Pedigree Washington.

Extra strong roots, 2 years old. Postage prepaid

100, \$1.50; 1,000, \$10.00; or by express or parcel post, f.o.b. Sewell, 1,000, \$9.00. Special prices on larger quantities.

RHUBARB—Plant March and April

Victoria. An extra good market sort with large beautiful red and reddish green stalks.

Extra large roots, postage prepaid. Dozen, \$1.25; 100, \$8.00; or by express, f.o.b. Sewell, 1,000, \$35.00. At our farms, dozen, 75c.; 100, \$5.00; 1,000, \$30.00.

SEEDS

All Prices on Seeds are F.O.B. Sewell

Purchaser can pay parcel post in advance or have them sent C.O.D. postage. If purchaser does not wish to send money for seeds in advance, they can be sent C.O.D. by express. Small packages go best by parcel post. When ordering state whether you wish them sent by parcel post, express or freight. No charge for packing or package except two-bushel seamless bags which will be charged at 25 cents each.

We carry only the best varieties of seeds.

If you wish a variety not listed, kindly ask, we may have it.

Half-ounce sold at ounce rate. Half-pound sold at pound rate. Quarter or half-bushel sold at bushel rate. When ordering one bushel or more, add 35 cents for each two bushels for seamless bags. No seeds sold under 5 cents.

Double Action..... 20.00

THE AUTO SPRAY

A SELF-OPERATING AUTOMATIC SPRAYER

This machine is one of the strongest and most simple in its parts. The pump is locked by means of a sliding cam, which prevents wear, gives long service and renders all parts instantly accessible. Reservoir holds 4 gallons, but should not be over two-thirds full of solution when ready for spraying. About two pumpings will empty the tank, and the operator has only to direct the spray. It can be used in the garden for small trees and shrubs, spraying weeds, spraying cattle or white-washing. It can be carried in the hand or used as a knapsack sprayer.

No. 1B. Brass Tank with Auto Spray\$9.00
No. 1D. Galvanized Tank with Auto Spray.... 6.00

SAXMAYER TYER

This machine is made especially for tying rhubarb, scallions, onions, radishes, beets, carrots, turnips, parsley, cut flowers and plants. Manufacturers of this machine claim that one man can tie ten thousand bunches per day. We used one of these Tyers last season for tying plants, etc., and it gave us the best of satisfaction. It is very easily operated. Price, \$45.00.

Planet Jr. Farm and Garden Tools

SEED DRILLS

No. 3 Hill and Drill Seeder

The Planet Jr. No. 3 is the market gardeners' and truckers' favorite. It saves a lot of time and labor, as well as seeds, and insures a good, uniform stand. Sows in straight drills, at the right depth and thickness; or drops in hills 4, 6, 8, 12 or 24 inches apart. Capacity three quarts. The special force feed is driven directly from the main wheel; there is no lost motion, no chain to skip or "ride"; the agitator must work when the front wheel turns. Can furnish special plow and covers for onion seed for sets. **Price, \$17.50.**

No. 4 Combined Hill and Drill Seeder Single Wheel Hoe, Cultivator and Plow

The No. 4 combines in one machine:

1. An accurate hill dropping seeder;
2. A rapid continuous row seeder;
3. A light running single wheel hoe;
4. A sturdy single wheel cultivator;
5. A quick, neat furrower;
6. A rugged, efficient hand plow.

Price, \$18.00.

The seeder sows in straight drills or drops in hills 4, 6, 8, 12 or 24 inches apart. Capacity $2\frac{1}{2}$ quarts. Cultivating equipment. Pair of 6 inch hoes, three cultivator teeth, a garden plow, leaf guard. No. 4D: Hill and Drill Seeder only. **Price, \$14.25.**

No. 25 Combined Hill and Drill Seeder Double and Single Wheel Hoe, Cultivator and Plow

The No. 25 is called by many users, "The complete gardener". It combines in one tool a Drill Seeder, a Hill Dropping Seeder, a Single Wheel Hoe, Cultivator, and Plow; and a Double Wheel Hoe, Cultivator, Plow, and Furrower. Sows in straight drills; or drops in hills 4, 6, 8, 12 or 24 inches apart. As a Double Wheel Hoe it will straddle the plants until they are 20 inches high, cultivating both sides at one time. As a Single Wheel Hoe it can be used between the rows when the plants are too high to straddle. Capacity $2\frac{1}{2}$ quarts. Cultivating equipment includes: Pair 6-inch hoes, four steel cultivator teeth, pair of plows, two leaf guards. Special opening plow and covers for onion seeds for sets can be furnished. **Price, \$21.50.**

No. 300 Drill Seeder

A plate or disc Seeder for all seeds from the smallest up to and including peas, beans and corn. Growers of peas and beans will appreciate this Seeder as it does not break the seed and sows with great regularity. Only three plates each with thirteen holes, making ample adjustment for various seeds. Hopper holds four quarts and is removable, which makes easy filling and emptying. Net weight, 36 pounds.

No. 220 Fertilizer Distributor

The No. 220 saves time, labor, fertilizer, and produces bigger crops. The six spouts are easily and quickly adjusted to distribute over a width of from 4 to 30 inches. You can distribute fertilizer in the middles of three rows 12 to 14 inches apart; or side-dress one side each of two rows up to 36 inches apart. You can use it in very narrow rows—as close as 9 inches. Capacity is one bushel; weight of load is placed over the wheel, making it easy to push. No. 220 will distribute 100 to 2,000 pounds of commercial fertilizer to the acre. Quantity per acre regulated by notched index on right hand handle. Shut-off rod operated by thumb of right hand without dropping the handles. Positive distribution at every step. No chains, gears, or canvas belts to break, rust, tear or stick. **Price, \$27.00.**

No. 11 Double and Single Wheel Hoe Combined

The most completely equipped Wheel Hoe offered the market gardener or home gardener. Will do the widest range of work and we recommend it for all large gardens and for farmers and others growing a variety of vegetables.

As a Double Wheel Hoe it straddles the row until the plants are 20 inches high, cultivating both sides at one time. Then used between the rows as a Single Wheel Hoe. Cultivating equipment includes a pair of 6 inch hoes, a pair of $4\frac{1}{2}$ inch hoes, four steel cultivator teeth, one pair of plows, two 3-tooth rakes, two 5-tooth rakes, two leaf lifters. Steel frame; 14 inch steel wheel. **Price, \$13.75.**

No. 12: Same, less the pair of $4\frac{1}{2}$ hoes and the rakes. **Price, \$10.75.**

No. 13: Same, with only one pair of 6 inch hoes as equipment. **Price, \$8.00.**

No. 19 Garden Plow and Cultivator

The No. 19 is a real rugged, built-for-service tool, especially designed for the farmer's home garden and vacant lot farming where an extra strong, all-purpose tool is needed. An inexpensive tool but mighty dependable and effective. Cultivating equipment: One 2-inch cultivator tooth, one 10-inch sweep, one plow, one 5-prong cultivating attachment; 15 inch steel wheel. **Price, \$6.00.**

No. 100 Plain Cultivator

Built to give the best possible results in light sandy soils. The No. 100 is very light and easy to handle and at the same time it is built of the very best material and will last a regular "Planet Jr" life time. We unhesitatingly recommend this machine to all growers working crops on light, sandy soils. Turning shovels and shovel steels may be used. They are furnished as extras Useful for making furrows; afterwards for covering up; also for plowing and hilling as much or little as desired. **Price, \$9.25.**

No 100-D: Same, less the wheel. **Price, \$7.50.**

No. 17 Single Wheel Hoe

The No. 17 is very popular with the home gardener and the market gardener. Equipment includes the attachments that are most frequently used and which are the most valuable. They include a pair of 6 inch hoes, three steel cultivator teeth, and a large garden plow. Frame is of steel; steel wheel is 15 inches in diameter. The No. 17 will do in a few hours work that would require as many days with the old hand hoe. It will pay for itself in a short time. **Price, \$7.75.**

No. 119 Garden Plow and Cultivator

For the man who wants a high wheel garden plow and cultivator but who wants, at the same time, Planet Jr. quality. Wheel has $\frac{1}{8}$ x $\frac{3}{4}$ inch steel spokes; 24 inches in diameter. An easy running tool for any garden work but particularly where potatoes, corn, field beans or anything in wide rows must be cared for by hand rather than with a horse. Equipment includes a substantial garden plow: a $1\frac{3}{4}$ inch cultivator tooth, a 4 inch cultivator tooth and a combination of a pointed scuffle blade and a two or three tooth cultivator, both on one frame, and reversible. The $1\frac{3}{4}$ inch tooth shown on cultivator can be attached between the two teeth shown on attachment directly behind. **Price, \$4.50.**

Planet Jr. specially hardened cultivator teeth, sweeps, hillers, furrowers, turning shovels, bolts, etc., in stock at all times.

PLANET JR. MOTOR CULTIVATOR

The Planet Jr., Motor Cultivator is built to do a wider range of work, to do more work with less effort on the part of the operator, to do faster, closer cultivation and to afford greater economy.

The primary purpose of such a tractor is cultivation of narrow row crops such as beets, carrots, onions, etc. Many farmers and home owners with extensive gardens, however, wish to do a wider range of work from light plowing to horse cultivation in wide rows. The Planet Jr. has been made heavy enough and powerful enough to do this work in a very efficient manner. It handles a 6 inch plow easily.

It is in the cultivation of narrow row crops, however, that it particularly excels. With this tractor it is possible to cultivate right up to the row without endangering the crops. And it handles so easily that this cultivation can be done very rapidly.

This accuracy and ease of handling is achieved by the use of patented "pump handle" tool control, which operates in the same manner as a horse hoe is steered. To go to the right, merely press on the right handle, allowing the handle to sway to the left. As the tool carriage is attached to the frame ahead of the wheels, the turn of the wheels is constantly communicated to the cultivating tools, so that control is both instant and positive. The importance of a control which works as easily and positively as this cannot be over estimated, as it makes possible the closest kind of cultivation with a tractor heavy enough and powerful enough to do the work of a horse.

The adaptability of the Planet Jr. Motor Cultivator is furthermore increased by the ease of adjustment and infinite variety of adjustments made possible by a specially designed clamp and tool holder.

It is possible to cultivate any width rows because of the reversible feature on the wheels. This enables you to obtain settings of $13\frac{1}{2}$, 15, 18 and 20 inches from center to center of the treads.

The durability of the tractor is built into it from the bottom up. Everything possible has been done to increase its wearing qualities and reduce to a minimum any chances of break downs. For this purpose the tractor is equipped with a multiple disc clutch, ratchet differential in the wheels, ball bearings on the clutch shaft, Alemite lubrication, chrome vanadium alloy steel axle and clutch shaft, etc. In other words the machine is built of the best available material and according to the best engineering principles.

The Planet Jr. Motor Cultivator is built for use with either a Toro Model M. E. 13 $\frac{1}{4}$ H. P. motor or a Briggs and Stratton full power Model P. B. 1 H. P. motor, the latter being recommended for only the lightest type of work. The toro motor is standard equipment on the Planet Jr. and we strongly recommend that you buy it so equipped. The additional cost will be returned to you many times in the service it will give you.

It is impossible to do justice to the wide range of the features of the Planet Jr. tractor in this space. If you are interested further let us send you our complete tractor catalog.

Price, Model AT, \$329.50; Model AB, \$262.50.

Three row seeder No. 153, \$60.00. Three row seeder No. 8B, \$48.00.
