*Quality Perennial Plants
at Lower Prices Than Usual
You Save on All You Buy*

GEORGE MARTIN NURSERIES

Hardy Herbaceous
and Alpine
Plants

Rock Garden
Plants a
Specialty

PERRY, OHIO

A Word About Special Collections

We have priced these collections at approximately 10 cents a plant which in many cases is about their wholesale price. In fact it is less than we can furnish them for in very small lots.

By cutting the price, however, we have not cut the quality. You will be surprised at the excellent size of the clumps we send you. Every plant we send out is young and full of life well rooted and capable of blooming the first season.

Rock Garden Specials

ROCKERY COLLECTION No. 1.

3 Iberis Sempervirens
3 Viola Cornuta, Mixed
3 Campanula Rotundifolia
3 Phlox Subulata, Mixed
3 Allysium Saxtile

Special **\$1.50**
Price .....

ROCKERY COLLECTION No. 2

3 Heuchera, Mixed
3 Achillea Rosea
3 Dianthus Plumarius Sem-
perfloriens
3 Cerastium Tomentosum
3 Veronica Rupestris

Special **\$1.50**
Price .....

ROCKERY COLLECTION No. 3

3 Armeria
3 Campanula Carpatia
3 Arabis
3 Sedum Acre
3 Festuca Glauca Grass

Special **\$1.50**
Price .....

ROCKERY COLLECTION No. 4

3 Papaver Nudicaule
3 Aster Mauve Cushion
3 Achillea Tomentosum
3 Plumbago Larpentae
3 Myosotis Palustris

Special **\$1.50**
Price .....

These four rock garden collections have no repeats of the same flower in any two of them. Each collection will plant about 15 or 20 square feet of rockery. Combined, they will plant quite a large area and afford a wealth of bloom early and late. These 20 varieties represent the best creeping and low growing plants in cultivation. Some of them spread rapidly and afford a dense mass of bloom over a long season. For descriptions, see the alphabetical listing of each plant.

All Four
Collections **\$5.50**

\$1.00 **SPECIALS**
*At regular prices these plants
would cost \$2.50 for each
group.*

No. 5.	10 2-yr.	Rock Garden Plants, our selection, \$1.00

No. 14.	10 1-yr.	Campanulas, mixed, \$1.00

George Martin

To Flower-Lovers and Friends

WE want you to celebrate with us our Tenth Year in business, as Herbaceous, Alpine and Rock Plant specialists. To make it worth your while to celebrate with us we have cut the prices of our plants far below their true value. Besides reducing the individual prices we have also included many special offers that give you groups of plants as low as 10 cents a plant. Note the special \$1.00 collections on the back cover and other collections throughout the book.

Hard times mean nothing when your dollar buys twice as much as usual. You can make a rock garden, border your lawn, or landscape your grounds this year for half the usual cost.

We are proud of the growth of our business in ten years from a modest two acres until now we have nearly 90 acres and about 1000 varieties of 1, 2 and 3-year old plants. Our policy of strict honesty and first class service has accounted for some of it no doubt.

WE NEED FRIENDS

We appreciate the friendships we have made during this time. It is largely by one customer telling others about our plants, our service and special offers that we have become known. Folks have learned that we will go a long way to make a friend and we will go still further to keep one. After all, our plants have helped. They speak for themselves and for us. We grow them, dig them fresh and they arrive quickly, full of life and vitality, ready to put forth their bright flowers the first year. All they need is weeding, watering and occasional thinning out to bloom for many years.

We have many letters in our files thanking us for the large plants and remarking about the fine condition in which they arrive.

If you admire flowers we hope you will enjoy reading the descriptions and studying how you will use some of them to brighten your home grounds.

SPECIAL COLLECTIONS

We have tried to anticipate your needs in making up special collections. However, if we have failed to meet your ideas we shall be glad to make up a special collection for you.

We are at your service and shall give your needs prompt attention.

George Martin Nurseries.

**Before
and
After**

One has only to compare the barren wastes of a new allotment with a well-planted lawn and garden to be convinced of the value of well arranged plants and shrubs.

What to Do When Plants Arrive

Your soil and the care you give the plants after they are planted tempers your success with them. They are living things and should be unpacked immediately when they arrive and if you cannot set them into the border or garden immediately you should cover the roots well with moist soil until you can plant them out.

In setting the plants out be sure your soil is rich enough to give them all the plant food they need. Work it up to a good depth until it is loose and fine. Dig a hole large enough for each plant so it will set slightly lower than it did in the nursery row. Spread the fine roots out carefully and sift the fine soil over them until they are covered to a natural depth then press the soil firmly around them and give them plenty of water. Do not allow a crust to form around the plants. Keep the ground stirred frequently. Watering in early morning or in the evening is often necessary during the dry summer months.

Do not allow manure, commercial fertilizer or prepared plant foods to touch the roots. It is usually best to sprinkle these on top of the ground near the plants and sprinkle with water or allow the rain to wash the soluble portions into the ground so the plants can use them.

You will be well repaid for the care and attention you give your plants. By keeping the fading flowers picked off the blooming season of many flowers can be considerably lengthened.

Hardy Perennial Plants

*. . . they bloom year after year
with a minimum of care.*

ACHILLEA

(Milfoil or Yarrow)

A pretty family of flowers that prefer dry sunny places. They are drought resisting and remain bloom for long periods. The dwarf varieties are much used for rockeries; the taller ones for medium border.

MILLEFOLIUM ROSEUM. (Rosy Milfoil).

Rosy pink flowers in dense heads on a plant that grows 12 to 15 inches high and blooms profusely from July to October. An attractive plant in the low border and the flowers may be used with other flowers in bouquets.

Each 20c, doz. \$2.00, 100 \$12.00.

TOMENTOSA. A low growing variety with bright yellow flowers in dense heads and finely cut mossy green foliage close to the ground. The plant spreads out beautifully among the rocks of your garden. The flowers last well and bloom continuously during June and July and grow only 6 or 8 in. high.

Each 20c, doz. \$2.00, 100 \$12.00

BOULE-DE-NEIGE. Pure white flowers that look like tiny balls and form in groups at the top of an upright stalk like a bunch of mammoth snow flakes. Makes an attractive feature plant in the rockery or low border, and blooms during June and July.

Each 20c, doz. \$2.00, 100 \$12.00

FILAPENDULA. Flat heads of brilliant yellow flowers that remain in bloom all summer. The foliage is finely cut of a mossy green texture. Plants grow from 12 to 15 inches high and do well in the low perennial border or on a dry rocky slope in broad sunlight.

Each 20c, doz. \$2.00, 100 \$12.00

ACONITUM

(Monkshood)

Autumn flowering plants, with pretty spikes of hood-shaped flowers. All varieties are beautiful in vases for table decorations. The deep green leathery foliage is one of the family's attractive features.

FISHERII. A dwarf dark blue variety that blooms from Sept. to Nov., growing from 15 inches to 2 ft. tall. It is the hardiest and most useful of all Aconites and works beautifully in the medium border, furnishing flowers late in the season when most plants are waning.

Each 20c, doz. \$2.00, 100 \$12.00

WILSONII. A tall pale blue Aconite that grows 3 to 4 feet and blooms in August and September. The blue of its flowers has much the same quality as Delphinium Belladonna.

Each 35c, doz. \$3.50, 100 \$30.00

SPARK'S VARIETY. A novelty Aconite with violet blue flowers that form in a loose panicle at the top of a 2 to 3 foot plant. Attractive in the medium border and blooms during August and September.

Each 35c, doz. \$3.50, 100 \$30.00

NAPELLUS. This charming plant is not as well known as some of the others. It has medium blue flowers with heavier darker foliage than Spark's Variety and the flowers are somewhat lighter in color. A charming plant that blooms during August and Sept. and grows 2 to 3 feet high.

Each 35c, doz. \$3.50, 100 \$30.00

ACTAEA

(Baneberry)

ALBA. A fine shade-loving plant, having long spikes of clear white flowers. Effective as a border in a shady woodland planting growing 2½ feet high.

Each 20c, doz. \$2.00, 100 \$14.00

RUBRA. Red form of the above.

Each 30c, doz. \$3.00, 100 \$25.00

AETHIONEMA

(Persian Candytuft)

These hardy little rock plants are of the most fascinating character. The foliage is a beautiful glaucous blue; stems woody, and when covered with their heads of pink flowers, make a picture you will not soon forget. They are almost shrubby in habit, and are improved by slight cutting back after blooming. Stony, sandy loam is suitable for them, and a warm sunny position is best.

PERSICUM. Strong twiggy bushes with long slender spikes of rosy pink flowers which are intensely double like the annual candytuft. Foliage a bluish gray. One of our best rock garden plants that attains a height of 9 inches and blooms during June and July.

Each 35c, doz. \$3.25, 100 \$22.50

GRANDIFLORA. A pale pink somewhat lighter in color and more spreading in habit than Persicum. Grows 6 inches high and blooms during June and July.

Each 35c, doz. \$3.25, 100 \$22.50

AGROSTEMMA

(Rose Campion)

Erect plants with silvery foliage and blooms during June and July. Very branchy with few leaves on the flower stems.

CORONARIA. (Mullein Pink). Bright rosy crimson flowers on a plant 2 to 3 feet high.

Each 15c, doz. \$1.50, 100 \$12.00

ALYSSUM

(Rock Madwort)

Very early flowering perennials used in rock garden and low border work.

ROSTRATUM. Prostrate, almost shrubby variety that spreads out into a broad mat with hoary gray foliage. Its bright yellow flowers make an attractive appearance on the tops of stems slightly above the mat of foliage, from May until July.

Each 15c, doz. \$1.50, 100 \$10.00

SAXTILE COMPACTUM. Commonly known as the "Old Basket of Gold." Its grayish foliage forms a broad mat and during May and June is densely dotted with pretty golden yellow flowers intermingled with the foliage. Grows 8 to 12 inches high.
Each 15c, doz. \$1.50, 100 \$10.00

ANCHUSA

(Alkanet)

By planting Anchusas in masses a very attractive effect is produced. By clipping off the fading flowers the blooming season may be greatly extended. Anchusas bloom themselves to death in 3 or 4 years, hence they should be reset often.

DROPMORE. Its broad deep green foliage grows close to the ground and is covered with stiff hairy spines. It blooms during June and July bearing its velvety blue flowers in a large panicle that is sometimes 18 inches to 2 feet long. A fine medium or back border filler to set between the taller, more upright perennials as it attains an ultimate height of 3 to 4 feet.
Each 20c, doz. \$2.00, 100 \$12.00

OPAL. A very beautiful variety with large pale blue flowers borne on a plant 3 or 4 feet high.
Each 20c, doz. \$2.00, 100 \$12.00

MYOSOTIDIFLORA. A distinctive dwarf perennial from Russia, of a spreading habit bearing clusters of charming blue flowers resembling forget-me-nots. An effective rock plant for shady places, growing 1 foot high and blooming during May having thick round leathery foliage.
Each 25c, doz. \$2.50, 100 \$20.00

Aquilegia, Mrs. Scott Elliott

ANEMONE JAPONICA

(Wind Flower)

These plants are suitable for single specimens or massing. They bloom from Sept. until freezing weather, producing large open flowers that are particularly attractive.

ALBA. Pure white single flowers, 2½ inches across with a bright yellow center borne on a plant 2 to 3 feet tall. Very attractive.

Each 25c, doz. \$2.50, 100 \$18.00

ALICE. A rose pink flower with a lilac center, very large.

Each 25c, doz. \$2.50, 100 \$20.00

PRINCE HENRY. Distinctive double red flowers borne on a plant 2 feet high and blooms somewhat earlier than the others.

Each 25c, doz. \$2.50, 100 \$20.00

QUEEN CHARLOTTE. A very good variety with semi-double pink flowers on a plant 2 to 3 feet high.

Each 25c, doz. \$2.50, 100 \$20.00

RUBRA. Charming rosy red flowers with stamens a bright yellow on a plant 1 to 2 feet tall.

Each 25c, doz. \$2.50, 100 \$20.00

WHIRLWIND. Large double white flowers on plants 2 to 3 feet high.

Each 25c, doz. \$2.50, 100 \$18.00

AQUILEGIA

(Columbine)

Aquilegias bloom profusely during May and by cutting off the fading flowers may be made to bloom until late June. They thrive in any soil but prefer a sandy loam in a sunny position. Their delicate colors brighten the late spring and early summer garden and their bright green foliage is interesting the rest of the summer. They are very attractive in vases and baskets.

CANADENSIS. The native red and yellow columbine that fits into the naturalizing of woodland nooks and medium border plantings. Grows 15 to 18 inches high.

Each 20c, doz. \$2.00, 100 \$12.00

CHRYSANTHA. Pretty yellow flowers on long slender stems. Grows 3 to 4 feet high and is quite upright in habit.

Each 20c, doz. \$2.00, 100 \$12.00

CHRYSANTHA ALBA. Beautiful pure white form of the above.

Each 20c, doz. \$2.00, 100 \$14.00.

COERULEA. The Rocky Mountain columbine and state flower of Colorado. A gorgeous flower with the outer flower a delicate shade of blue and the center pure white. The flowers grow about two feet high on a branched leafless stem high above the foliage. This plant is a little harder to establish than some of the others but is worth all the effort it takes to get it to grow in your garden.

Each 25c, doz. \$2.50, 100 \$18.00

LONG SPURRED HYBRIDS. Our strain of this name has been rogued out year after year until we have it developed to the lighter, more delicate shades. Some of these plants attained a height of four feet in our nursery last summer. The pink, cream, light orange, flesh tints and light yellows predominate.

Each 15c, doz. \$1.50, 100 \$10.00

SKINNERII. Rich combination of red and yellow long spurred flowers. This variety does not grow as tall as some of the others but is very attractive.

Each 20c, doz. \$2.00, 100 \$12.00

A Transformed Back Yard

AQUILEGIA Continued

MRS. SCOTT ELLIOTT STRAIN. This strain has become noted during recent years as one of the best *Aquilegias*. Its tints run a trifle deeper than Long Spurred Hybrids and include some very delicate blues, silvery pinks, deep yellows and other shades in beautiful combinations. We believe our strain of this is one of the best in existence.

Each 25c, doz. \$2.50, 100 \$16.00

ARABIS

(Rock Cress)

A pretty trailing rock plant with delicate white flowers extensively used as a ground cover. It will thrive in ordinary soil, but must have a sunny location. Blooms in April and May.

ALPINA. The single flowered variety and one of the best known rock plants. Literally covered for six or eight weeks with tiny single white flowers that stand only four or five inches above the ground.

Each 20c, doz. \$2.00, 100 \$12.00

ALPINA FLORE PLENO. The same as *Alpina* except that its flowers are double. Not as plentiful nor as common as the other.

Each 30c, doz. \$3.00, 100 \$25.00

ARENARIA

(Sandwort)

MONTANA. A low trailing plant profusely covered with small silvery white flowers quite early in the season. Excellent as an edging plant in formal gardens and in rockeries in sunny places. Flowers resemble small up-turned morning glories and bloom in May.

Each 25c, doz. \$2.50, 100 \$20.00

GRANDIFLORA. One of the best rock plants growing 6 to 8 inches tall, a native of the Pyrenees mountains. Covers itself with pure snow-white star-like flowers during May.

Each 25c, doz. \$2.50, 100 \$20.00

ARMERIA

(Sea Pink)

Pretty evergreen tufts of bright green foliage that grows close to the ground and the flowers are borne on leafless stems from 8 to 12 inches long and bloom practically all summer.

MARITIMA. Flowers pale pink, remaining in bloom during May and June. Flower heads are round and foliage is quite grass-like.

Each 20c, doz. \$2.00, 100 \$16.00

MARITIMA ALBA. Double white flowers. Foliage same as above.

Each 20c, doz. \$2.00, 100 \$15.00

LAUCHEANA. Bright rosy red, 6 to 8 inches tall.

Each 20c, doz. \$2.00, 100 \$15.00

ARTEMESIA

(Sage Brush)

LACTIFLORA. Forms a branchy plant 3 to 4 feet high with finely cut foliage. Flowers are very tiny, borne in a huge panicle at the top of the plant and their delightful odor is noticeable for long distances. One of the finest plants of recent introduction and suitable for the secondary border.

Each 15c, doz. \$1.50, 100 \$12.00

ARTEMESIA Continued

SILVER KING. (Ghost Plant) Its pretty silvery gray foliage makes it a splendid specimen in the border where it breaks up the continuous green of other plants. It grows about 2 feet high—works into bouquets beautifully and may be dried for winter effects. The flowers are worthless.

Each 15c, doz. \$1.50, 100 \$12.00

ASCLEPIAS

(Butterfly Weed)

TUBEROSA. An attractive native plant that grows about 2½ feet high and bears its umbels of bright orange colored flowers during July and August.

Each 20c, doz. \$2.00, 100 \$15.00

ASTER, HARDY

(Michaelmas Daisies)

There is a large number of varieties that grow to different heights, the flowers varying widely in color and shape and the nature and shape of the plant are very different. They are all thoroughly hardy and will succeed in most any location. For best results they should be divided every third or fourth year. As a class they fit into various locations in the hardy border very well and furnish bloom in the late fall when so many of the other flowers are faded and gone.

ACRIS. A pretty plant about 2 feet high with lavender pink flowers.

MAUVE CUSHION. A little dwarf trailing Aster that blooms in the fall when the Aubretias, Creeping Phlox, Arabis and many others have long been out of bloom. Its flowers will last until almost the time for Chrysanthemums. The outstanding Aster for the Rock Garden. Pretty pink flowers.

MRS. RAYNOR. The nearest red of all asters. 3 to 4 feet high.

Each 25c, doz. \$2.00, 100 \$15.00

ST. EGWIN. A plant of dwarf habit growing about 2 feet high and bearing its rosy pink flowers in late fall.

TARTARICA. A very late blueish-violet Aster, growing 6 feet high.

WHITE CLIMAX. This plant is very vigorous, growing about 3 feet high and bearing a profusion of pinkish white flowers.

CLIMAX. Same as above only having bright pink flowers.

WHITE QUEEN. A pure double white variety with finely cut foliage, quite broad and branching and growing about 3 feet high.

Each 15c, doz. \$1.50, 100 \$12.00
unless otherwise priced

AUBRETIA

(False Wall Cress)

One of the most dainty creeping plants for the rockery or edging. Blooms in May.

EYRI. Pretty mauve pink flowers that form a dense mat of bloom in early spring.

GRACEA. Flowers a sky blue somewhat the same quality as Delphinium Belladonna.

HENDERSONI. A gorgeous violet shade that makes its presence known to all with its beautiful effect.

All varieties, each 25c, doz. \$2.00, 100 \$15.00

BAPTISIA

(False Indigo)

AUSTRALIS. Very pretty dark blue, pea-shaped flowers arranged along the upper branches of the plant during July. Plant is upright in habit 2 feet high and works well into the medium border. We have wondered why people do not use this plant more often and in more ways. It is really beautiful and lasts well. The foliage is very attractive after the flowers have faded.

Each 20c, doz. \$2.00, 100 \$15.00

Bellis Perennis, Snowball

BELLIS PERENNIS

(Double English Daisy)

The plant grows close to the ground, having flat deep green leaves, throwing up leafless stems bearing the miniature double dairy-like flowers in May.

SNOWBALL. A pretty double white flowered variety.

LONGFELLOW. A rosy pink flowered sort. All varieties, each 20c, doz. \$1.50, 100 \$12.00

BOCCONIA

(Plume Poppy)

CORDATA. A pretty tall growing hardy perennial with broad leaves that add much to the effectiveness of the plant. Suitable for the background of a garden planting, against a fence or as a wall cover, growing 6 to 8 feet tall. Flowers are a beautiful creamy white in large terminal panicles during July and August.

Each 20c, dozen \$2.00, 100 \$14.00

BOLTONIA

(False Chamomile)

A thoroughly hardy perennial with flowers somewhat like asters borne on long stems and blooms during the autumn months. It presents a very showy effect with a multitude of flowers open at the same time.

ASTEROIDES. A pure white variety, 5 to 6 feet tall.

LATISQUAMAE. A pretty plant with lavender pink flowers growing three to four feet tall.

Both varieties, each 20c, doz. \$2.00, 100 \$12.00

BUDDLEIA

(Summer Lilac or Butterfly Bush)

VARIABILIS MAGNIFICA. Flowers of this plant are as the common name indicates, similar to lilacs. The flower group is more slender than the common lilac and more regular in form and has a pleasant and distinctive odor, pinkish purple in color. The plant is shrubby in habit, growing from 3 to 5 feet tall. It usually freezes back to the ground each year, putting out new growth in the spring like other perennials.

Each 30c, doz. \$3.00, 100 \$25.00

CALLIRHOE

(Poppy Mallow)

INVOLUCRATA. The only Rock Garden poppy known. A trailing plant with finely cut foliage and large rosy-crimson saucer-shaped flowers with white centers, that bloom all summer and fall. The plant is not absolutely hardy, needing some protection in winter.

Each 15c, doz. \$1.50, 100 \$12.00

CAMPANULA

(Canterbury Bells)

These beautiful biennial plants boom in early summer, bearing their large bell shaped flowers in great profusion on a 2 foot plant more or less conical in shape. The flowers often attain a size of 2½ inches across the bell. Plants die after blooming. Bloom in June and July.

MEDIUM. ROSE. (single Canterbury Bells). Pretty pink flowers.

MEDIUM BLUE.

MEDIUM WHITE.

The perennial border and rockery, too, are improved by planting a good proportion of plants that bloom throughout the summer. Choose a few seasonal features, of course. But the ever-bloomers and those with long flowering seasons help to keep the planting interesting at all times.

Campanula, Cup and Saucer

CALYCANTHEMA (Cup and Saucer) Double blue flowers.

CALYCANTHEMA. WHITE.

CALYCANTHEMA ROSE.

All varieties, each 20c, doz. \$2.00, 100 \$12.00

CARPATICA. (Harebell)

These plants are hardy, growing about 8 inches tall with a continuous bloom of clear blue flowers from June to October with very slender hair-like stems. The foliage is very narrow and inconspicuous.

BLUE.

WHITE.

Each 20c, doz. \$2.00, 100 \$15.00

PERSICIFOLIA. (Hardy Canterbury Bell).

Large bell shaped flowers growing on a 2 foot plant that is thoroughly hardy. One of the best Campanulas for the medium border. Will thrive in loamy soil and prefers bright sunny position.

BLUE.

WHITE.

Each 20c, doz. \$2.00, 100 \$15.00

CAMPANULA Continued

PYRAMIDALIS. An ideal back border plant growing 3 to 5 feet tall producing long spikes of bright flowers all summer. An excellent hardy plant, ranking well with the Delphinium for the back border.

BLUE.

WHITE.

Each 20c, doz. \$2.00, 100 \$15.00

LACTIFLORA COERULEA. Pale blue slender bell-shaped flowers that hang out from a long stem with foliage all the way up. Grows 2½ feet high and is a charming medium border specimen blooming for a long period during July and August. Hardy.

Each 20c, doz. \$2.00, 100 \$15.00

ROTUNDIFOLIA. (Bluebells of Scotland) Its delicate blue pendant bells that hang by sender stems from a plant 1 foot high are very attractive. It is an ideal flower for the rockery, making its best appearance if planted high among the rocks to show its pendant habit. Although one of the best known Campanulas it is highly prized for its delicacy and long blooming season, June until August. Hardy perennial.

Each 30c, doz. \$3.00, 100 \$20.00

CENTUREA

(Knapp Weed)

MONTANA. Perennial corn-flower, grows about 2 feet high bearing its numerous tuft-like violet blue flowers from July to September. The plant is upright in habit bearing its flowers each on a separate stem.

Each 20c, doz. \$2.00, 100 \$12.00

CERASTIUM

(Snow-in-summer)

TOMENTOSUM. A pretty low growing plant with silvery white foliage and a mass of dainty white flowers during May and June, growing about 6 to 8 inches high and spreading out into a fine ground cover that makes an interesting appearance between the stones of your rockery. It is sometimes used as a border plant and for this purpose it makes an attractive appearance by trimming it to a straight line along the front of your planting. The foliage is pretty after the flowers are gone and gives a good contrast of color between the green of the lawn and of the shrubbery.

Each 20c, doz. \$2.00, 100 \$12.00

CHELONE

(Shell Flower)

This plant is often called the hardy snapdragon. It grows about 2 feet high, bearing numerous spikes of flowers of the snapdragon type and is very attractive in the medium border. It likes a moist rich soil, but will do well in other locations. Flowers are a little larger than the annual snapdragons.

LYONI. Flowers are a pretty rose pink.

GLABRA, ALBA. Creamy White.

Each 20c, doz. \$2.00, 100 \$14.00

Hardy Carnations

CARNATIONS

(Hardy)

These beautiful flowers, although they are not nearly as large as the greenhouse carnations, take their place quite well for summer. They grow about 18 inches high bearing their numerous flowers each on a separate stem that comes up from the ground. A single two-year plant often bears as many as a dozen large flowers in a season if the blooming flowers are picked so the newer buds can develop. They are not strictly hardy in all locations and need a mulch of leaves or coarse manure as a winter covering. The plants often bloom themselves to death in three or four years.

RED.

PINK.

WHITE.

Each 15c, doz. \$1.50, 100 \$10.00

Rock Garden plants has become one of our specialties. Throughout this Service Guide you will find the dwarfs listed and in the descriptions in most instances are given the conditions that each variety of plants likes best.

Chrysanthemums

CHRYSANTHEMUMS

(Hardy)

The following were among grandmother's favorites and still are among the choice Chrysanthemums. They are thoroughly hardy, blooming a little later than some so-called hardy varieties that have proven disappointing. These are the sturdy late flowering mums that furnish a display of color in the garden during October and November when the other flowers have long been dead. They should be included in every planting.

OLD HOMESTEAD. Pink. Its flowers that are 2 or 2½ inches across come out a strong pink and fade to almost white on the edges of the petals. A very double flower that lasts well out-of-doors, and grows on an upright plant 2 or 2½ feet tall.

GOLDEN QUEEN. Yellow. Flowers 1½ to 2 inches across and colored a brilliant canary yellow. Foliage a pretty dark green, more attractive than the average.

INDIAN. RED. A loose-petaled variety that grows about 2½ feet high bearing its bronzy red flowers with yellow centers on erect stems. Very attractive.

VICTORY. Its large white flowers are about 3 inches across and are so intensely double that the center does not show. Plant is 1 to 1½ feet high branching from the ground and developing into broad clumps. Suitable for a late color spot for the rockery.

Each 15c, doz. \$1.50, 100 \$12.00

CIMICIFUGA

(Snakeroot)

RACEMOSA. Flowers are beautiful silvery white limber spikes of tiny flowers borne on a leafless stem from three to four feet tall with the shiny maple-like leaves growing low. Makes a wonderful feature in the back border, blooming in July and August.

Each 20c, doz. \$2.00, 100 \$16.00

CONVALLARIA

(Lily-of-the-Valley)

CLUMPS (in Fall only). Our clumps of this well known plant are grown from the finest type of imported German stock and are far superior to the common sort that are sold under this name.

Each 40c, doz. \$4.00, 100 \$30.00

COREOPSIS

(Tick Weed)

GRANDIFLORA. Its broad bright yellow flowers produce a continuous bloom all summer long, furnishing plenty of color for a spot in the medium border.

FLORA PLENO. Same color as Grandiflora. Flowers are semi-double to double.

Each 15c, doz. \$1.50, 100 \$10.00

DELPHINIUM

(Larkspur)

Delphiniums have become most popular during the past ten years when so many variations of them have been developed. Still the old stand-bys, Belladonna and Bellamosa are as popular as ever, the first furnishing a different and outstanding blue that is not common among annuals or perennials. They are easy to grow and if cut back after blooming will furnish a second and sometimes a third flower spike the same season. They respond readily to fertilization, watering and cultivation.

BELLADONNA. The delicate sky blue flowers of this variety furnish an outstanding color among flowers. Its stately spikes punctuate a perennial planting wonderfully. Grows 3 or 4 feet tall in good soil producing a spike equal to one-third the height of the plant.

Two year, each 20c, doz. \$2.00, 100 \$14.00
One year, each 10c, doz. \$1.00, 100 \$ 5.00

BELLAMOSA. The dark blue form of the above.

Same prices as Belladonna.

Delphiniums

DELPHINIUMS Continued

ENGLISH HYBRIDS. This variety has a good proportion of double flowers with a color range that varies from the bright blues to a deep purple including some pretty shades of rose and lavender. Flowers on different spikes have different shapes as well as different color combinations.

Same prices as Belladonna

CHINENSIS BLUE. This is a pretty Chinese variety whose flowers are arranged more or less in a panicle, grows low with finely cut foliage. Its flowers are somewhat darker than Belladonna.

Each 15c, doz. \$1.50, 100 \$10.00

CHINENSIS WHITE. Same as Chinsensis Blue except in color, and at same price.

GEORGE MARTIN DOUBLE HYBRIDS. If you want something particularly fine in Delphinium Hybrids this is it. We have selected and re-selected this strain until we have developed it to a perfect double—every spike representing a variety of shades—delicate blue combinations, those with light outer flowers with black centers, mauve purple flowers with white centers and those with the delicate combinations of purples and blues and darker stamens. A particularly wonderful strain that will stand out in your garden and make you intensely proud to show your friends the great variety of rare colors and the exceptionally long spikes.

Each \$1.00, doz. \$12.00

DESMODIUM

(Tick Trefoil)

PENDULIFLORUM. A strikingly beautiful shrub-like plant that grows 3 to 4 feet high, covered during August and Sept. with pendant purpleish red flowers that last for six or eight weeks. It furnishes color in the medium border at a time when color is needed and should be used more than it is as a feature plant. Plants have been known to live for 100 years.

Each 35c, doz. \$3.50, 100 \$28.00

Sweet Williams

DIANTHUS BARBATUS

(Sweet William)

These flowers are so well known that they need very little description. We have developed the best double strains of Sweet Williams that we have ever seen. Each variety has been selected and improved from year to year.

DOUBLE RED.

DOUBLE NEWPORT PINK.

DOUBLE WHITE BEAUTY.

Each 15c, doz. \$1.50, 100 \$10.00

DIANTHUS DELTOIDES

(Maiden Pink)

DELTOIDES. A pretty spreading plant with narrow leaves, and deep rose-pink flowers during June and July. Fine for the rockery and easily grown.

DELTOIDES BRILLIANT. A pretty bright pink form of the above.

DELTOIDES ALBA. White flowers with centers striped a deep pink.

Each 20c, doz. \$2.00, 100 \$14.00

DIANTHUS PLUMARIUS

(Clove Pinks)

SEMPERFLORIENS. Single and double flowers mixed. A very attractive plant for the rockery or the low border. The scent of the flowers is unique.

Each 20c, doz. \$2.00, 100 \$12.00

DIANTHUS

ALLWOODI. Flowers a brilliant rose color that bloom during June and July, growing 8 inches tall with slender foliage.

Each 20c, doz. \$2.00, 100 \$14.00

ANNIE LAURIE. A pretty wine-red with ring in the center, sweet scented, 12 inches.

Each 30c, doz. \$3.00, 100 \$20.00

ESSEX WITCH. A pretty brilliant pink. An old variety but there is none better for the rockery. Intense double variety with its flowers grouped a little above the rich green of the foliage.

Each 25c, doz. 2.50, 100 20.00

HARDY DOUBLE MIXED. A fine range of colors among the low growing pinks.

Each 20c, doz. \$2.00, 100 \$12.00

HER MAJESTY. Large pure white double that grows 12 inches high.

Each 25c, doz. \$2.50, 100 \$20.00

MRS. SIMKINS. A double white sweet scented variety.

Each 25c, doz. \$2.50, 100 \$20.00

The old-fashioned garden of annuals is very well for those who have time to devote to it, but most people are busy. Perennials save time; they come up and bloom year after year with a minimum of work. All they need is cultivation, some watering and occasional thinning out to bloom beautifully.

Bleeding Heart, *Dicentra*

DICENTRA

(Bleeding Heart)

These are among the most popular perennials with their beautiful heart-shaped flowers hanging pendant from drooping stems. They are very attractive in the low border or in the rockery where their brilliant flowers make a grand showing.

EXIMIA. Plumy bleeding heart of dwarf habit. Pretty pink flowers throughout the season. Its drooping fern-like foliage is very attractive even without the flowers. Thoroughly hardy.

Each 20c, doz. \$2.00, 100 \$18.00

SPECTABILIS. An old-fashioned favorite with its long graceful stems of pretty brilliant rosy pink flowers. Planted in masses or as individuals it makes a fine showing.

Each 35c, doz. \$3.50, 100 \$30.00

Digitalis—Foxglove

DIGITALIS

(Foxglove)

For beauty when planted among shrubs in parks, orchards, or in the edge of the woods this plant cannot be surpassed. It is a biennial but often renews itself from self-sown seed. The plants you get from us will bloom the first season.

GIANT SHIRLEY. This strain is the best of the foxgloves with a fine range of colors from white to the deep shades of purple all daintily spotted inside the cup. They grow to 5 or 6 feet.

Each 20c, doz. \$2.00, 100 \$18.00

GLOXINAEFLORA. The feature of this strain is its gloxiniae flower blooming at the top of each stalk. It has a fine range of attractive colors.

Each 20c, doz. \$2.00, 100 \$14.00

GRANDIFLORA PINK. This is the old fashioned foxglove of our grandmother's day with colors separate.

PURPLE.

WHITE.

YELLOW.

Each 20c, doz. \$2.00, 100 \$12.00

DICTAMNUS

(Gas Plant)

Its delicate pea-shaped flowers are arranged on short spikes on a plant 2 feet tall, a very satisfactory perennial with rich shiny foliage.

FRAXINELLA ALBA. White.

FRAXINELLA RUBRA. Red.

Each 30c, doz. \$3.00, 100 \$25.00

DORONICUM

(Leopard's Bane)

CAUCASICUM. One of the early spring flowering perennials with pretty large yellow daisy-like flowers 2 to 3 inches across, and growing 2 to 3 feet high. Suitable for the medium border and useful as cut flowers.

Each 50c, doz. \$4.50, 100 \$30.00

EUPATORIUM

(Hardy Ageratum)

COELESTINUM. This is a pretty hardy plant, with pale purple flowers like the Ageratum. It blooms from August until it freezes. Fine for cutting.

Each 15c, doz. \$1.50, 100 \$10.00

AGERATOIDES (Thoroughwort). A useful border plant of strong free growth and a little taller than *Coelestinum*. It has minute white flowers in dense heads. Will do well in shade for woody naturalizing. Fine for cutting and blooms in Aug. and Sept.

Each 15c, doz. \$1.50, 100 \$12.00

EUPHORBIA

(Milkwort)

COROLLATA. (Flowering Spurge). A useful garden flower that is similar to baby's breath. Its tiny white flowers bloom during July and Aug. at the numerous tiny stem ends of a very branchy plant, producing a mist effect. Fine to fill a corner in the perennial garden or as a filler in bouquets.

Each 20c, doz. \$2.00, 100 \$12.00

FEVERFEW

(*Matricaria*)

LITTLE GEM. A dwarf border or rockery plant that forms a 12 inch clump and is literally covered all summer with its small ball-like flowers.

GOLDEN BALL. Dwarf yellow form of the above.

Each 20c, doz. \$1.75, 100 \$12.00

FUNKIA

(Plantain Lily)

These plants are very attractive even when not in bloom, on account of their broad green foliage.

LANCIFOLIA. Light blue flowers, with narrow dull green leaves.

Each 20c, doz. \$2.00, 100 \$12.00

GRANDIFLORA SUBCORDATA. Flowers are almost as large as white lilies. Very sweet scented, blooming in Aug. and Sept. Leaves very broad bright green and drooping. Plant soon forms a clump two or three feet across and about 18 inches high.

Each 25c, doz. \$2.50, 100 \$18.00

VARIEGATA. Blue flowers and pretty variegated foliage. Fine as an edging in the border. Beautiful as a winter pot plant.

Each 15c, doz. \$1.50, 100 \$16.00

GRASSES

(Hardy Ornamental)

The ornamental grasses are used very extensively in formal gardens. They are fine either as specimens planted in masses or around fish and lily pools.

EULALIA GRACILLIMA. (Japan Rush). A graceful plant growing 6 to 7 feet high with narrow bright green leaves with a silvery midrib. Very attractive.

Each 20c, doz. \$2.00, 100 \$12.00

EULALIA JAPONICA. The graceful deep green of its narrow leaves and the plummy flower head often growing 7 feet high mark this for a truly wonderful specimen.

Each 20c, doz. \$2.00, 100 \$12.00

EULALIA JAPONICA VARIEGATA. A very showy plant growing 6 or 7 feet tall with narrow leaves striped green and creamy white.

Each 20c, doz. \$2.00, 100 \$12.00

EULALIA JAPONICA ZEBRINA (Zebra Grass). Graceful long narrow bright green leaves spotted with bright yellow spots. It makes a nice specimen, growing 6 to 8 feet tall.

Each 25c, doz. \$2.50, 100 \$20.00

FESTUCA GLAUCA. (Blue Fescue Grass). Its leaves are very slender, forming little clumps or tufts of steel blue color about 4 or 5 inches high, bearing a feathery bloom and seed head in Aug. Suitable as an edging or as a feature plant in the rockery.

Each 20c, doz. \$2.00, 100 \$12.00

GAILLARDIA

(Blanket Flower)

GRANDIFLORA. The large daisy-shaped flowers are very brightly colored with brilliant yellow at the tips of the petals, shading to a chrome yellow, orange, crimson, red, maroon with the center almost black. It grows about 18 inches tall. They grow in almost any location, bloom from July to October and present a colorful effect. There are many so-called improved types on the market, but in our estimation there is no improvement upon the well-known Grandiflora.

Each 15c, doz. \$1.50, 100 \$10.00

Gaillardia

GENTIANA

(Blue Gentian)

ANDREWSEI. One of the most fascinating native plants with foliage growing close to the ground and its intense deep blue flowers borne on leafless stems 6 to 8 inches high. Does best in moist places and blooms during July to October.

Each 15c, doz. \$1.50, 100 \$14.00

GERANIUM

(Crane's Bill)

ARGENTEUM. Silvery leaved variety that is good for hot dry places in the rock or wall garden, growing 6 to 8 inches high.

Each 25c, doz. \$2.50, 100 \$20.00

IBERICUM. Large lilac blue flowers that bloom all summer on a compact bushy plant with handsome serrated foliage, growing 18 inches high.

Each 25c, doz. \$2.50, 100 \$20.00

PRATENSE. Large blue flowers in pairs on stems 2½ feet high. Very handsome plant for the border.

Each 20c, doz. \$2.25, 100 \$18.00

PRATENSE ALBUM. Very handsome white variety of the meadow crane's bill.

Each 20c, doz. \$2.25, 100 \$18.00

SANGUINEUM. Attractive foliage and bright crimson flowers growing 18 inches.

Each 20c, doz. \$2.25, 100 \$18.00

GEUM

(Avens)

LADY STRATHEDEN. One of the newer introductions of a bright golden yellow color. Grows about 1 foot tall and suitable for the low border or rockery.

MRS. BRADSHAW. A pretty plant with double fiery red flowers and finely cut foliage. Flower heads are somewhat the shape of Geraniums.

Each 15c, doz. \$1.50, 100 \$12.00

GYPSOPHILA

(Baby's Breath)

Plants develop to large size with inconspicuous foliage, very branchy stems that produce a broad top covered on all sides with the tiny flowers that makes a misty effect. The results of using these plants in the border in clumps is a grayish green mass that contrasts well with the rest of the planting. The flowers make a wonderful filler for bouquets and baskets.

PANICULATA. This blooms in July and August with tiny white flowers in great abundance. Grows about 2 feet high.

Each 15c, doz. \$1.50, 100 \$10.00

PANICULATA FLORE PLENO. The double form of the above. Our plants are from seed—about 50% double.

Each 15c, doz. \$1.50, 100 \$12.00

BRISTOL FAIRY. A great improvement over the older varieties with quite large double flowers that are purer white than the others with a slight pinkish tinge. It flowers almost continuously throughout the summer. Strong grafted plants.

Each 50c, doz. \$5.00, 100 \$40.00

REPENS. A beautiful trailing plant for the rockery, with clouds of small white flowers in July and August.

Each 15c, doz. \$1.50, 100 \$10.00

HELENIUM

(Sneezewort)

Pretty, tall growing plants, bearing great masses of large daisy-like flowers in late summer and fall in many shades of yellow and orange.

AUTUMNALE SUPERBUM. Broad heads of deep golden yellow flowers in late summer, growing 4 or 5 feet tall and suitable for a late feature plant in the back border.

Each 20c, doz. \$2.25, 100 \$18.00

AUTUMNALE RUBRUM. Flowers are a deep bronze red, growing 4 to 5 feet in September.

Each 20c, doz. \$2.25, 100 \$18.00

BIGELOVI. A quick growing branchy plant, 2 to 3 feet high producing its showy clusters of deep yellow flowers with brown centers. A striking plant for the late medium border.

Each 20c, doz. \$2.00, 100 \$16.00

RIVERTON BEAUTY. Flowers are pure lemon yellow with large purplish black cones in the centers. It grows 3 to 4 feet and blooms in August and Sept.

Each 20c, doz. \$2.25, 100 \$18.00

RIVERTON GEM. Bright bronze red flowers—the best of all, blooming from Aug. to Oct.

Each 20c, doz. \$2.25, 100 \$18.00

HELIANTHUS

(Hardy Sun Flower)

When planted in masses among shrubbery or naturalized in wild gardens, the hardy sunflowers are indeed a beautiful sight. They are good free bloomers and not difficult to grow.

MULTIFLORUS FLORE PLENO. A double clear yellow variety that grows from 4 to 5 feet high in August and September. We believe this is by far the best Helianthus.

Each 20c, doz. \$2.00, 100 \$14.00

HELIANTHEMUM

(Rock or Sun Rose)

Pretty low growing plants, that reach a height of 8 to 10 inches, evergreen in broad clumps and covered with bloom from July to Sept. These plants are especially fine for the rockery.

BRIDE. Silver foliage, single flowers, 6 inches.

Each 30c, doz. \$3.00, 100 \$25.00

FIRE BAIL. Double bright scarlet, 4 inches.

Each 20c, doz. \$2.00, 100 \$20.00

RHODANTHE CARNEUM. Silvery foliage and pretty pink flowers, growing 8 inches high.

Each 30c, doz. \$3.00, 100 \$25.00

ROSE QUEEN. Single pink flowers on an 8 inch plant.

Each 30c, doz. \$3.00, 100 \$25.00

HELIOPSIS

(Hardy Zinnia)

Almost like Helianthus, but growing only 3 feet high. A good flower for vases and bouquets.

PITCHERIANA. A good variety of golden yellow flowers, about 3 inches in diameter. 4-5 feet.

Each 20c, doz. \$2.00, 100 \$12.00

SCABRA EXCELSA. From July until late Sept. this plant makes a very brilliant display with its double chrome yellow flowers that fade to a more brilliant yellow and grow on a plant 3 feet high.

Each 20c, doz. \$2.25, 100 \$18.00

HELLEBORUS

(Christmas Rose)

NIGER. Its very large white solitary flowers, sometimes flushed with purple, are very effective in midwinter. Its leaves are evergreen, growing to 1 foot in height. Its natural blooming period is in February and March. It will bloom at Christmas time if you put a box or some other protection over it, even when the ground is frozen around it. Flowers are about 1 or 1½ inches across, single, and blooms with a short stem.

Each \$2.00, doz. \$22.00

HEMEROCALLIS

(Yellow Day Lily)

These beautiful plants have always been in demand for the hardy garden. Its yellow lily-like flowers are fine naturalized along streams or moist places but will thrive most anywhere.

DR. REGAL. Rich orange yellow flowers that are quite fragrant and bloom in May and June.

Each 20c, doz. \$2.25, 100 \$18.00

FLAVA. (Lemon Lily). Sweet scented flowers that grow 2½ feet high and bloom in June.

Each 20c, doz. \$2.25, 100 \$18.00

FLORHAM. Large rich golden yellow flowers that grow about 3 feet high and bloom in June and July.

Each 20c, doz. \$2.25, 100 \$18.00

KWANSO FL. PL. Rich double golden bronze flowers, growing about 3 to 4 feet high.

Each 20c, doz. \$2.00, 100 \$14.00

THUNBERGII. The appearance of this variety is much like Flava, except that it blooms in July instead of June.

Each 20c, doz. \$2.00, 100 \$14.00

Keep this Service Guide. You may need some plants later.

Double Hollyhocks

HESPERIS

(Sweet Rocket)

MATRONALIS. Its fragrant purple flowers are arranged on showy spikes 2 to 3 feet tall, that bloom in June and July. It is a biennial. Desirable for use in the wild garden, among the shrubbery, or in the border.

Each 15c, doz. \$1.50, 100 \$10.00

HEUCHERA

(Coral Bells)

Beautiful plants for a delicate low border or in the rockery. Its tiny bell-shaped flowers hang from leafless stems 8 or 10 inches high and are richly colored.

HYBRIDS. All shades of red and coral pink. This is our own mixture which is highly spoken of because of its fine colors and large flowers.

BRIZOIDES. Flowers are a pretty pale pink, growing about 12 to 15 inches high, blooming in May.

SANGUINEA. Flowers are a brilliant shade of crimson, growing 12 to 15 inches high and blooming in May and June. The foliage is a deep green and grows close to the ground.

Each 30c, doz. \$3.00, 100 \$20.00

HIBISCUS

(Mallow)

Our strain of this wonderful flower is the new giant flowered Marshmallow, a great improvement over the old mallow marvels type. They will grow almost anywhere and are valuable in the wild garden, among the shrubbery, or in masses.

RED, PINK or WHITE. Strong 2 yr. plants. Each 15c, doz. \$1.50, 100 \$10.00

RED, PINK or WHITE. Strong 1 yr. plants, the best to plant.

Each 15c, doz. \$1.50, 100 \$8.00

HOLLYHOCKS

(Herbaceous Althea)

The hollyhocks have always been the favorites of the garden. Hollyhocks may be planted in either fall or spring but some people favor the fall. If planted in masses they produce a brilliant display in July and August and are very effective in covering unsightly places.

DOUBLE MAROON, DOUBLE RED, DOUBLE PINK, DOUBLE WHITE, and DOUBLE YELLOW. Separate.

NEW ALLEGHENY. Immense semi-double flowers in brilliant colors with fringed edges.

Each 15c, doz. \$1.50, 100 \$10.00

SINGLE MIXED. A strain of giant single-flowered hollyhocks that fit in nicely in the old-fashioned garden. Colors range from pure white to deep maroon red.

Each 15c, doz. \$1.50, 100 \$10.00

HYPERICUM

(St. John's Wort)

MOSERIANUM. A pretty plant of graceful habit, slender stems, about 18 inches high bearing its rich golden yellow flowers all summer. Drooping in nature. Fine for the border.

AUREUM. Rich golden yellow flowers borne on erect stems. Foliage shrubby and branchy. Leaves a bright shiny green, shaped somewhat like clover. More upright plant than Moserianum.

Each 30c, doz. \$3.00, 100 \$20.00

IBERIS

(Hardy Candytuft)

Very desirable little plants with evergreen foliage, growing 6 to 8 inches high, covered with flowers early in the spring. Fine for the rockery or low border.

GIBRALARTICA. The pretty pink form of the Hardy Candytuft.

SEMPERVIRENS. A pretty pure white.

Each 15c, doz. \$1.50, 100 \$15.00

Single Mixed Hollyhocks

IRIS GERMANICA

There are many beautiful flowers among the standard varieties of Iris that are worthy of a place in every garden. Their delicate blooms, their attractive colorings and the long time that they put forth their bright flowers makes them prime favorites with thousands of people. They like the water-side locations best, but will do well in any average soil and in almost any location where there is not too much shade. Their bright flowers punctuate a hardy border beautifully and even when the flowers are out of bloom the bright green foliage is attractive and really gives character to the border. If you are driving thru northern Ohio during Iris season we shall be delighted to show you our fields and pick an armful of flowers for you.

AFTER GLOW. An attractive flower with bluish white standards, falls shading to a delicate shade of blue. Throat pure white.
Each 20c, doz. \$2.00, 100 \$20.00

ALCAZAR. Deep purple falls and standards with deep broenze in the throat. One of the best of the older varieties.
Each 15c, doz. \$1.50, 100 \$10.00

CAPRICE. Large flowers of a deep rosy red hue, the nearest red of any German Iris. Grows about 18 inches high.
Each 15c, doz. \$1.50, 100 \$10.00

ISOLINE. Flowers are a beautiful pale pink strangely flushed a mauve. Falls are Chinese Violet, thus showing several beautiful shades of color in the same bloom.
Each 30c, doz. \$3.00, 100 \$20.00

KING OF IRIS. Clear yellow and rich maroon shaded to purple in combination, growing about 18 inches tall.
Each 20c, doz. \$2.00, 100 \$10.00

LOHENGRIN. The rich silvery lilac of this great variety make it a great prize as a landscape Iris.
Each 20c, doz. \$2.00, 100 \$10.00

MIDNIGHT. A rich deep purple, the darkest of all purples.
Each 20c, doz. \$2.00, 100 \$10.00

MRS. H. DARWIN. A clear waxy white flower with delicate violet veining.
Each 20c, doz. \$2.00, 100 \$10.00

NIBELUNGEN. Standards a bronzy yellow, falls a bronzy violet purple. A large flower of a distinctive coloring. Grows rapidly attaining a height of 30 inches.
Each 20c, doz. \$2.00, 100 \$10.00

PALLIDA DALMATICA. (Princess Beatrice) We carry only the true type of this clear lavender blue flower that is sweetly scented and grows vigorously.
Each 20c, doz. \$2.00, 100 \$14.00

Iris King

GERMAN IRIS SPECIALTIES

This list includes some of the newer introductions—varieties that are still rare. Some of them are in our estimation distinctive flowers that because of their unusual coloring and outstanding beauty will continue to be prized by the best of gardeners and for that reason are a little higher in price. But can you put a price on a flower? These Iris will continue to bloom for you for many years, once you have them established and their beauty will be remembered long after the price is forgotten.

ASIA. Flowers are a beautiful pale pink-shaded violet purple. The coloring of this delicate flower is distinctive to say the least and it attracts the eyes of all.
Each 60c, doz. \$6.00, 100 \$50.00

BALLERINE. Large pale blue flowers with a purplish reflex, delicately veined white.
Each 40c, doz. \$4.00, 100 \$30.00

GOLD IMPERIAL. Rich large golden yellow flowers. A gem of the garden that is not plentiful.
Each 60c, doz. \$6.00, 100 \$50.00

LEIVERVIER. One of the newer varieties that is sure to make a place for itself among the flowers of the better gardens.
Each 60c, doz. \$6.00, 100 \$50.00

LENT A. WILLIAMSON. A very tall and distinctive variety with standards a rich bluish violet, falls a deep royal purple and a yellow beard. Rated as the finest Iris in the world by the American Iris Society.
Each 30c, doz. \$3.00, 100 \$20.00

LORD OF JUNE. A rich lavender blue variety of large size. A graceful flower.
Each 30c, doz. \$3.00, 100 \$20.00

MAGNIFICA. All that its name implies. Flowers of immense size on stiff branching stems 4 feet high. Standards a light violet blue, falls of a superb dark reddish purple.
Each 50c, doz. \$5.00, 100 \$40.00

IRIS GERMANICA Continued

OPERA. Very distinct fine shaped flowers. Standards coppery brown dashed with purple. Falls wine red. The base bronzy maroon pencilled with gold.

Each 50c, doz. \$5.00, 100 \$45.00

QUEEN CATERINA. This remarkable variety is one of the most handsome of Iris. It is a giant in size of flowers as well as in habit of growth, attaining a height of fully four feet. The color is an exquisite shade of pure lavender-blue, uniform on both standards and falls.

Each 30c, doz. \$3.00, 100 \$20.00

SHEKINAH. A delightful shade of pale yellow with amber shadings. A tall growing handsomely conspicuous variety of an uncommon color.

Each 30c, doz. \$3.00, 100 \$20.00

SOUV. DE MAD. GAUDICHAU. A tall, deep velvety purple Iris of fine shape and finish. A early variety that is strikingly beautiful.

Each 40c, doz. \$4.00, 100 \$30.00

SUNSET. A brilliant yellow variety that as its name implies reminds one of the setting sun.

Each 60c, doz. \$6.00, 100 \$50.00

IRIS PUMILA

(Dwarf Iris)

CRISTATA. A dainty creeping variety only 3 or 4 inches high with flowers a rich amethyst blue. A beautiful little plant that blooms in April and May and is at its best in the rock garden or planted in front of the taller varieties of Iris.

Each 20c, doz. \$2.25, 100 \$18.00

VIOLACEA. Flowers much darker than Cristata. A deep purple with pale yellow throat. A beautiful specimen.

Each 20c, doz. \$2.25, 100 \$18.00

IRIS KAEMPFERI

(Japanese Iris)

The broad, more or less flat flowers of the Japan Iris and their most delicate colorings mark them for favorites with a large number of flower lovers. These are the last of the Iris to bloom but for rare beauty their waxy beauty puts them first in grandeur. They bloom in June and July.

AZURE. A double mauve blue variety with darker halo and bright yellow at the base of the petals.

DOROTHEA. A bright lavender flower with blue pencilings and center a deeper lavender.

ELEANOR PARRY. A double claret red shading white and blue.

GEKKA-NO-NAMI. A pure white flower with a chrome yellow center, growing about 4 feet tall. Flowers often 8 or 10 inches across.

GOLD BOUND. A delicate creamy white with a bright canary yellow center. Truly as beautiful as an orchid.

MAHOGANY. One of the latest to bloom, but its rich double mahogany red flowers are worth waiting for. Plants grow about 4 feet high and flowers are of excellent substance. This has been declared by some to be the best Jap Iris.

Each 25c, doz. \$2.50, 100 \$18.00

PURPLE AND GOLD. Its large double bluish purple flowers are banded with gold in the center with the center color following out the rib of each petal, making a point of golden yellow out from the center.

RHEIN-DES-BULGARES. A deep blue flower with white veins shading to a light blue in the center.

UCHIU. A beautiful six-petaled flower of large size of cerulean blue color golden center and white stamens. This flower has a very long blooming season and is one of rare beauty.

All varieties except as otherwise marked

Each 20c, doz. \$2.00, 100 \$15.00

Japanese Iris, Purple and Gold

The More You Buy the More You Save on These Thrifty Plants

Field View of Two-Year German Iris

LATHRUS

(Hardy Sweet Pea)

These are the hardy form of the well-known sweet peas that train up well on a small trellis or frame. They give you the lasting beauty of the annuals and the pleasant odor without the trouble of planting every year. They bloom nearly all summer if flowers are picked off when they begin to fade.

PINK BEAUTY. Deep rosy pink flowers.

RED. A beautiful rich red.

WHITE PEARL. A beautiful pure white.

Each 15c, doz. \$1.50, 100 \$10.00

LAVENDULA

(Lavender)

VERIS. This is the old-fashioned sweet lavender with its fragrant blue flowers in July and August, growing about 12 to 15 inches high. A low border plant with grayish green leaves.

Each 20c, doz. \$2.00, 100 \$12.00

LEONTOPODIUM

(Edelweiss)

ALPINUM. A well known Alpine with pretty white leaves and small yellow flowers which are surrounded with star-like heads of leaves, clothed with a dense white woolly substance. A splendid plant for the rock garden, growing 4 or 5 inches high and blooming from June to August.

Each 30c, doz. \$3.00, 100 \$20.00

LIATRIS

(Gay Feather or Blazing Star)

PYCNOSTACHYA. A tall plant throwing up slender stems 4 or 5 feet tall the lower part of which is covered with very slender foliage and the upper part becomes a spike of beautiful purple flowers that bloom for a long time during June and July. There is no better plant to use as a group in the hardy border or to center a perennial bed.

Each 20c, doz. \$2.00, 100 \$12.00

SPICATA. Same habit as the above except that it blooms earlier and has shorter spikes.

Each 20c, doz. \$2.00, 100 \$12.00

LILIES

(Hardy Garden Varieties)

It is possible to make a planting of lilies that will produce a succession of bloom during the greater part of the summer with but very little attention. The gorgeous flowers of the lilies make them prime favorites with many people. They are often used in a separate bed although they fit into the hardy border beautifully and supply an interesting feature spot wherever they appear.

REGALE. The pure white bell of this newest of the lilies is decorated on the outside with a deep red color shading to a lighter hue farther from the stem and on the inside with bright canary yellow and orange yellow tips on the stamens. It has a very fragrant odor and blooms in July, growing 3 or 4 feet high. A large bulb will often produce 6 or 8 large flowers on the same stalk.

Strong bulbs 2-4 in. in circumference

Each 15c, doz. \$1.50, 100 \$10.00

4-6 inch bulbs

Each 25c, doz. \$2.50, 100 \$20.00

6-8 inch bulbs

Each 35c, doz. \$3.50, 100 \$30.00

SPECIOSUM MAGNIFICUM. Large flowers of deep rich red. Petals are edged white and the red is dotted with brown and a point of green extends out from the center of each petal about 1 inch.

Large bulbs

Each 25c, doz. \$2.50, 100 \$20.00

Mammoth bulbs

Each 30c, doz. \$3.00, 100 \$28.00

SUPERBUM. Bright reddish orange flowers spotted with brown. Plant usually grows about 4 or 5 feet high producing numerous flowers about 4 inches across the bell. Easily grown, and blooms in Aug.

Each 20c, doz. \$2.00, 100 \$16.00

TIGRINUM SIMPLEX. The well-known single tiger lily with its stately flower stalks and beautiful flowers in August.

Each 25c, doz. \$2.50, 100 \$20.00

LILIES Continued

CANDIDUM. (Madonna Lily) This is the old-fashioned white garden lily that for sheer beauty cannot be excelled. It usually bears 6 or 8 large flowers on a tall flower stalk in June, growing to height of 3 or 4 feet.
Each 25c, doz. \$2.50, 100 \$20.00

TENUIFOLIUM. Grows only 12 inches high and may be used in the rockery. Flowers are bright scarlet, 1 1-2 to 2 inches across the bell, well known as the chrome lily.
Each 25c, doz. \$2.50, 100 \$20.00

LINUM

Flax

ALPINUM. A rare species from the Dauphine of low prostrate growth with showers of pale blue flowers throughout the summer.
Each 35c, doz. \$3.50, 100 \$25.00

PERENNE. The flowers of this variety are a beautiful pale blue that cover the 12 inch plant nearly all summer. Foliage is feathery. Makes a wonderful low border plant for the garden.
Each 15c, doz. \$1.50, 100 \$12.00

PERENNE ALBA. Beautiful pure white form of the above.
Each 15c, doz. \$1.50, 100 \$12.00

Lupine Polyphylus

Lychnis Chalcedonica

LOBELIA

(Indian Paint Brush)

CARDINALIS. (Cardinal Flower) Its fiery red flowers are in bloom nearly all summer with the tiny blossoms coming out in a head. The foliage is inconspicuous, mostly growing close to the ground.

SYPHILITICA. (Great Blue Lobelia) Similar in growth to the last, but the flowers are blue, streaked white. Plant in moist place. Desirable for border of brook or lake.

Each 20c, doz. \$2.25, 100 \$18.00

LUPINUS

(LUPINES)

The hardy Lupines meet with a long felt need for a beautiful cut flower which are sweet-pea shaped on good strong stems from 2 to 3 feet tall, the flower spikes occupying about 6 to 10 inches at the top. They prefer good moist soil.

POLYPHYLLUS ALBUS. Pure white.

POLYPHYLLUS BLUE. A beautiful blue.

POLYPHYLLUS ROSEUS. A beautiful peerless pink.

Each 20c, doz. \$2.00, 100 \$15.00

LYCHNIS

(Campion)

An old fashioned flower of brilliantly colored blooms that grow in close umbels at the top of a 2 to 3 foot plant. Effective in the medium border producing a nice showing during late summer and early fall.

CHALCEDONICA. Vivid scarlet flowers growing on a 3 foot plant.

Each 20c, doz. \$1.50, 100 \$12.00

VISCARIA FLORE PLENO. A fine double variety for cutting. Brilliant red about 18 inches tall.

Each 20c doz. \$2.00, 100 \$15.00

LYTHRUM

(Purple Loosestrift)

ROSEUM SUPERBUM. Its deep purple flowers grow in spikes 8 to 12 inches long on a plant three feet tall that is almost shrubby in habit with long deep green leaves. Splendid on banks of streams and ponds.

Each 15c, doz. \$1.50, 100 \$12.00

MERTENSIA

(Blue Bells)

VIRGINICA. This plant is the old type of Blue Bell which starts to bloom in the woods early in the spring. One of the most popular of our native plants. The plants we offer are strong cultivated clumps. They grow 15 to 18 inches high.

Each 20c, doz. \$2.00, 100 \$15.00

MONARDA

(Oswego Tea)

Very pretty plants, 2 to 3 feet tall, throwing forth their pretty tube-like flowers in dense heads during July and Aug. The foliage is pretty bright green.

DIDYMA CAMBRIDGE SCARLET. Brilliant crimson scarlet flowers.

DIDYMA ROSEA. A rose colored form of the above.

Each 20c, doz. \$2.00, 100 \$12.00

MYOSOTIS

(Forget-Me-Not)

Nearly everyone knows this beautiful little plant, blooming before most other plants in the spring. Its pretty flowers are a sight indeed. Very valuable for rock garden or edging.

PALUSTRIS. Rich blue flowers with yellow eye.

Each 15c, doz. \$1.50, 100 \$10.00

Myosotis (Forget-Me-Not)

Peony, Baroness Schroeder

PAEONIA SINENSIS

(Peonies)

These gorgeous flowers have been popularized and developed by the American Peony Society. They have been classified and rated by them, new hybrids originated. The flowers come out in late May and last well into June. The following varieties we know to be absolutely good. The A. P. S. ratings are given. The prices are for 3 to 5 eye divisions.

Peonies should be planted in late August or September. The roots must not come in contact with barnyard manure. Acid phosphate is beneficial to them if sprinkled on top of the ground a little ways out from the stems and allowed to be washed into the soil by rain or sprinkling. Strawy manure used as a mulch during the first winter is beneficial.

BARONESS SCHRODER The rating is 9.0. Bomb shaped white flowers with shadings of flesh pink. Very double and of good substance. Considered one of the best of the older varieties. Blooms late.

Each 60c, per 10 \$6.00, 100 \$50.00

EDULIS SUPERBA. 7.6 Deep pink flat crowned variety when fully open, blooming late.

Each 25c, per 10 \$3.50, 100 \$30.00

FELIX CROUSE. 8.4 Brilliant red, typical bomb shaped bloom, midseason.

Each 60c, per 10 \$5.00, 100 \$45.00

FESTIVA MAXIMA. 9.3 Pure white flowers with crimson spots in the center. Very large and full blooming, early.

Each 30c, per 10 \$3.00, 100 \$25.00

KARL ROSENFELD. 8.8 Has no equal as an early red. Flowers are very full and large. Extremely vigorous, and free blooming.

Each \$1.00, per 10 \$8.00, 100 \$75.00

LECYGNE. 9.9 This is an almost perfect creamy white flower with the highest rating of any Peony.

Each \$10.00, per 10 \$90.00

A Picture Cannot Do Justice to These Showy Oriental Poppies

PEONIES Continued

MONS MARTIN CAHUZAC. 8.8 The darkest peony known, its dark purplish red flowers shade to almost black at the base of the petals. Medium size, midseason, free blooming variety.

Each \$2.00, per 10 \$19.00

MONS JULES ELIE. 9.2 A beautiful peerless pink, one of the largest and most handsome cut flowers. A gorgeous flower.

Each 75c, per 10 \$6.00, 100 \$50.00

OFFICIALIS RUBRA FLORE PLENO. 8.2 Deep crimson with a bronzy reflex at the base of the petals. Large flowers and one of the earliest to bloom.

Each 75c, per 10 \$7.00, 100 \$60.00

RUBRA SUPERBA. 7.2 A large flowered deep crimson rose type peony. Very late.

Each 75c, per 10 \$7.00, 100 \$60.00

THERESE. 9.8 One of the best midseason peonies. Flowers are large and free flowering deep mauve pink fading to almost white on the outer edges of petals as the flowers grow older. A high crowned type, free blooming variety.

Each \$2.00, per 10 \$19.00

PAPAVER

(Poppy)

The gorgeous bright colored flowers of the poppy are by far the most showy flowers of May and June. A mass of them is an eye-catcher wherever they appear. The best time to plant them is during their dormant season in August.

ORIENTALE. Oriental poppy. Its large cup-shaped deep scarlet black centered flowers furnish a color that no other can supply.

Each 15c, doz. \$1.50, 100 \$10.00

ORIENTALE, BEAUTY OF LIVERMORE. Deep crimson with black blotch at the base of each petal. Very fine.

Each 50c, doz. \$4.00, 100 \$35.00

ORIENTALE, PERRY'S WHITE. The most distinct break in Orientale Poppies that has yet been made. Flowers are a fine satiny white with a crimson maroon blotch at the base of each petal.

Each 60c, doz. \$6.00, 100 \$50.00

MRS. PERRY. Beautiful deep apricot pink, a brilliant color that is needed to make variety with the Orientals.

Each 20c, doz. \$2.00, 100 \$16.00

OLYMPIA. A beautiful large double red.
Each 20c, doz. \$2.00, 100 \$16.00

PAPAVER NUDICAULE

(Iceland Poppy)

This plant is of neat dwarf habit with its beautiful fern-like foliage growing close to the ground and the slender 8 inch stems bearing the brilliant cup-shaped flowers. When flowers unfold, they seem to keep the tiny crinkled appearance of a wrinkled piece of stiff tissue paper. A beautiful rock garden plant that blooms nearly all summer.

YELLOW. Clear canary yellow.

ORANGE. Deep rich color of orange.

Each 15c, doz. \$1.50, 100 \$10.00

PACHYSANDRA

(Japanese Spurge)

TERMINALIS. A pretty golden evergreen trailing plant that will thrive in shade even under pine trees, growing 6 to 8 inches with its rich golden green foliage covering the ground and rocks completely. A fine rock garden plant, also used to cover unsightly places. Used as a border along the walk it is interesting. Bloom is a flat head of tiny flowers, yellowish white with lemon yellow stamens.

Each 20c, doz. \$2.00, 100 \$15.00

PENSTEMON

(Beard Tongue)

The varieties we list of these showy perennials are thoroughly hardy. They fit into the border plantings and rock garden situations beautifully, supplying bright colored flowers for long periods.

BARBATUS, PINK BEAUTY. Tiny tubular flowers hang from the drooping stem 25 to 30 inches tall make a grand appearance. Fine as a cut flower. Color is a bright clear shell-pink. One of the most outstanding new varieties.

Each 40c, doz. \$4.00, 100 \$30.00

BARBATUS TORREYI. Beautiful long spikes of bright scarlet flowers that make a nice showing during June to Aug. Stems about 3 feet long.

Each 20c, doz. \$2.00, 100 \$14.00

Field View of Phlox, Miss Lingard

PHLOX (Hardy)

These beautiful plants are the most popular of all perennials. They produce many flowers, last well and are thoroughly hardy, blooming from July until frost. The gorgeous colors to be found among the varieties of this family help to make them interesting. The varieties we offer have been thoroughly tested and have proven true and distinct.

ATHIS. A beautiful salmon pink.
Each 15c, doz. \$1.50, 100 \$10.00

ANTONIN MERCIÉ. A free flowering variety of delicate lilac blue flowers growing about 12 inches tall.
Each 20c, doz. \$2.00, 100 \$16.00

B. COMPTE. A very brilliant purple-red Phlox growing from 18 inches to 2 feet tall.
Each 20c, doz. \$2.00, 100 \$16.00

BEACON. Brilliant cherry-red flowers on strong stems.
Each 20c, doz. \$2.00, 100 \$15.00

COMMANDER VON HINDENBERG. Brilliant deep crimson red. This variety is a great favorite.
Each 25c, doz. \$2.50, 100 \$20.00

COUNT ZEPLIN. Pure white flowers with red eye. Free flowering and strong grower.
Each 25c, doz. \$2.25, 100 \$18.00

ELIZABETH CAMPBELL. A light salmon pink, with white shading toward the center. One of the best Phlox.
Each 35c, doz. \$3.50, 100 \$30.00

ETHEL PRITCHARD. A beautiful mauve colored Phlox. Almost a pale blue.
Each 25c, doz. \$2.50, 100 \$20.00

FUERBRAND. Bright orange scarlet. One of the best reds known.
Each 30c, doz. \$3.00, 100 \$25.00

JULES SANDEAU. Dwarf in habit, producing large heads of brilliant peerless pink flowers. A beautiful variety growing only 8 inches.
Each 20c, doz. \$2.00, 100 \$15.00

LA VAGUE. A pretty bright pink with dark eye.
Each 20c, doz. \$2.00, 100 \$12.00

MA RUYS. Dwarf in habit with large trusses of pure white flowers growing 12 inches tall. One of the best whites.
Each 20c, doz. \$2.00, 100 \$18.00

MISS LINGARD. This is a suffruticosa type blooming a month or so earlier than other Phlox. Its flowers are pure white, sweet scented and bloom from June until frost if cut back. One of the outstanding varieties for cutting, growing 2 to 3 feet tall.
Each 20c, doz. \$2.00, 100 \$14.00

Hardy Phlox

PHLOX Continued

M. P. LANGIER. One of the best purple reds.
Each 20c, doz. \$2.00, 100 \$12.00

MRS. JENKINS. A splendid sort for planting in masses. Pure white.
Each 15c, doz. \$1.50, 100 \$10.00

MRS. MILLY VAN HOBOKEN. A beautiful new variety with bright clear pink flowers free from the purplish tones. A real beauty 15 inches tall and a strong grower.
Each 25c, doz. \$2.50, 100 \$20.00

MRS. CHAS. DORR. The old-fashioned lavender Phlox.
Each 15c, doz. \$1.50, 100 \$10.00

PANTHEON. A beautiful peerless pink.
Each 20c, doz. \$2.00, 100 \$15.00

PROF. VERCHOW. A beautiful cherry red shading to pink.
Each 20c, doz. \$2.00, 100 \$15.00

PEACH BLOSSOM. A beautiful silvery pink, shading to white in the center. Grows 12 inches high.
Each 20c, doz. \$2.00, 100 \$15.00

RHEINLANDER. Although it is an old Phlox, it still holds its place with the best of them. Pretty salmon pink flowers with dark eye, strong and free.
Each 25c, doz. \$2.00, 100 \$18.00

RICHARD WALLACE. A real tall white, with pretty pink eye. 2 ft.
Each 20c, doz. \$2.00, 100 \$12.00

R. P. STRUTHERS. A beautiful salmon red, 3 feet.
Each 20c, doz. \$2.00, 100 \$12.00

RIJNSTROOM. A very strong grower with rosy pink flowers.
Each 20c, doz. \$2.00, 100 \$15.00

RIVERTON JEWEL. Large trusses of bright pink flowers with dark eye.
Each 20c, doz. \$2.00, 100 \$15.00

SEBOLDI. A beautiful orange scarlet, 12 inches.
Each 20c, doz. \$2.00, 100 \$12.00

SPECIAL FRENCH. A beautiful clear pink.
Each 20c, doz. \$2.00, 100 \$15.00

THOR. A pretty salmon pink that is becoming more and more popular. It has a crimson glow that is unique. We consider this one of the best pink sorts, 15 inches.
Each 20c, doz. \$2.00, 100 \$15.00

VON LASSBURG. A splendid tall white, 2 feet.
Each 15c, doz. \$1.50, 100 \$12.00

PHLOX SUBULATA

(Moss or Mountain Pink)

These beautiful rock plants cannot be surpassed. During the flowering season in April and May they are just one brilliant mass of color. This plant may be taken inside during the winter, placed in a pan and made to bloom beautifully. The flowers will stay in bloom for fully a month with the bright blooms above the green of the foliage.

ALBA. Pure white.

AMONE. Beautiful brilliant pink.

LILACINA. Light lilac.

ROSEA. Bright pink. Fine for rockery or edging.

Above varieties,

Each 20c, doz. \$2.00, 100 \$12.00

VIVID. Bright pink with fiery red eye. We would say this is the finest free flowering dwarf Phlox in existence.

Each 35c, doz. \$3.50, 100 \$25.00

PHYSALIS

(Chinese Lantern Plant)

FRANCHETI. This ornamental plant produces bright orange scarlet lantern-like fruit, and when cut will last all winter dry. Makes a fine Halloween decoration.
Each 20c, doz. \$2.00, 100 \$12.00

PHYSOSTEGIA

(False Dragon Head)

VIRGINIA PINK. Pretty pink flowers on long 3 ft. stems, tubular in form blooming in July and Aug.
Each 20c, doz. \$2.00, 100 \$12.00

VIRGINICA ALBA. Pure white form of the above.
Each 20c, doz. \$2.00, 100 \$12.00

VIVID. Brilliant pink, very desirable for medium border and makes a fine flower to decorate the home in vases.
Each 25c, doz. \$2.50, 100 \$20.00

PLATYCODON

(Balloon Flower)

GRANDIFLORA. Large showy blue flowers. Fine for borders.

GRANDIFLORA ALBA. White form of the above.

MARIESI. A pretty blue dwarf variety growing 6 or 8 inches tall. Suitable for the rockery or low border.
All above.

Each 20c, doz. \$2.00, 100 \$12.00

DOUBLE MIXED. The doubles of the Grandiflora type in mixed colors.
Each 25c, doz. \$2.50, 100 \$15.00

PLUMBAGO

(Leadwort)

LARPENTAE. One of the most attractive dwarf rock plants of spreading habit growing 6 to 8 inches high and covered with its deep blue flowers all summer and fall.
Each 20c, doz. \$2.00, 100 \$14.00

POLEMONIUM

(Jacob's Ladder)

REPTANS (Greek Valerian) Its showy bright blue flowers on the dwarf spreading plant make a fine appearance in the rock garden or front row border from April to June.
Each 20c, doz. \$2.00, 100 \$18.00

COERLEUM. Beautiful sky blue flowers on good strong stems that grow on a plant 2 to 3 feet high and bloom during June and July. Very good.
Each 15c, doz. \$1.50, 100 \$12.00

PRIMULA

(Hardy Primrose)

AURICULA ALPINA. One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. The flower stalks rise to a height of 6 to 8 inches bearing heads of bloom of various colors. Exceedingly fragrant. May flowering plant.
Each 35c, doz. \$3.50, 100 \$30.00

CASHMERIANA. Large globular heads of a pleasing purplish blue shade. Grows 6 inches high, blooms in May and prefers a moist shaded situation.
Each 50c, doz. \$4.00, 100 \$30.00

PRIMULA Continued

ELATION. Large blooms mostly in shades of yellow, 6 inches.

Each 35c, doz. \$3.50, 100 \$30.00

MOERHEIM HYBRIDS. A new strain Primulas resulting from crossing several others. Colors range from cream to shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half-shaded position that is fairly moist. An unusual variety that grows 6 inches tall, blooming in May.

Each 35c, doz. \$3.50, 100 \$25.00

MUNSTEAD. A giant flowered polyanthus in many shades of color growing 6 inches tall.

Each 35c, doz. \$3.50, 100 \$30.00

VERIS. The old fashioned ox slip ranging in almost all the beautiful colors one can imagine. Very valuable for rockery and edging, growing 4 inches high.

Each 20c, doz. \$2.00, 100 \$18.00

PYRETHRUM

(Painted Daisy)

A great many people do not know that there are other colors than white in daisies. The Pyrethrums are the result of a long series of hybridizations to obtain these beautiful colored daisies. We have tried to improve our strain of this wonderful plant and we now have them so they will come about 80 per cent in the pink and red shades. It is a wonderful cut flower and very beautiful when planted in masses.

SINGLE MIXED. 2 yr. clumps, bloom in June and July.

Each 20c, doz. \$2.00, 100 \$12.00

DOUBLE MIXED. 2 yr. Clumps.

Each 30c, doz. \$3.00, 100 \$25.00

ULIGINOSUM. This plant grows about 2 ft. tall with a cluster of beautiful white daisies on good strong stems.

Each 15c, doz. \$1.50, 100 \$10.00

RANUNCULUS

(Buttercup)

REPENS FLORE PLENO. A beautiful bright double yellow buttercup that blooms in May and June and growing about 12 inches high.

Each 15c, doz. \$1.50, 100 \$10.00

RUDBECKIA

(Cone Flower)

GOLDEN GLOW. Most of our grandmothers had some of these wonderful flowers that bloom in August and Sept. Grows 6 ft. tall, producing large, bright yellow intensely double flowers in great profusion. Foliage is quite prominent.

Each 15c, doz. \$1.50, 100 \$12.00

PURPUREA. Purple cone flower with reddish purple petals and a large brown cone in the center, growing about 3 ft. high, blooming from July to Oct. Fine as a cut flower.

Each 15c, doz. \$1.50, 100 \$12.00

SALVIA

(Purple Sage)

AZUREA. A native of the Rocky Mountains with beautiful sky blue flowers from Aug. until frost, growing 3 to 4 feet high. Fine in the medium border.

Each 15c, doz. \$1.50, 100 \$12.00

PITCHERIL. Its vivid blue flowers are very attractive during the autumn months, growing on long flower stalks above the foliage. Plant is 3 or 4 ft. high.

Each 20c, doz. \$2.00, 100 \$16.00

Rudbeckia—Golden Glow

SAXIFRAGA

(Megasea)

CORDIFOLIA. Its dainty umbels of light pink flowers come out early in the spring and its broad flat deep green leaves are beautiful the rest of the summer. Fine in the rockery, growing 4 to 6 inches high.

DECIPIENS. Crimson moss. Pretty dwarf mossy plants with white flowers on individual stems growing 4 to 6 inches high and in bloom during May and June. A beauty in the rockery.

GRASSIFOLIA. Large flat green leaves like cordifolia with heads of flowers shaped somewhat like the Hyacinth only smaller. Pretty shade of pink, blooming in May and June.

HYPNOIDES. Dove-dale Moss. Another dwarf for the rock garden whose flowers are white and foliage grows close to the ground. Blooms during May and June.

All above,

Each 75c, doz. \$7.00, 100 \$50.00

MEGASEA HYBRIDS. Handsome plants in a good range of bright colors of pink and red and the broad flat foliage that characterizes others of the Saxifarges. They are wonderful rock plants or front border edgings.

Each 40c, doz. \$4.00, 100 \$35.00

McNABIANA. Pretty white flowers that grow 4 to 6 inches high and broad grayish green foliage that lies flat on the ground with a point turned up on each leaf.

Each 50c, doz. \$5.00, 100 \$40.00

SCABIOSA

(Pin Cushion Flower)

Pretty border plants with flowers similar to the annual pin cushion. Valuable as a cut flower lasting well in vases. They have a long blooming season from June to Sept.

CAUCASIA. Blue Bonnet. Flowers a pretty shade of lavender on stems 18 inches long, blooming from June to Sept.

Each 25c, doz. \$2.00, 100 \$18.00

JAPONICA. Lavender blue flowers that form a mass of pretty bloom on stems about 2 feet high all summer.

Each 20c, doz. \$2.00, 100 \$15.00

SEDUM

(Stonecrop)

The dwarf varieties cannot be surpassed for the rock garden. They will stand almost any amount of abuse and will grow in almost any location. The taller varieties are valuable for borders and edgings in dry soil where nothing else will grow. They are adaptable for a winter dish plant for the table.

ACRE. Golden Moss. A beautiful trailing variety with bright yellow flowers, growing only an inch or two high.

ALBUM. A dwarf spreading variety with round thick waxy green foliage and white flowers. A good rock plant, growing 2 inches high.

GLAUCUM. An excellent variety with bright yellow flowers, used extensively for rock garden work and edgings.

All above,

Each 20c, doz. \$2.00, 100 \$15.00

KAMSHATICUM. Orange-yellow flowers with prostrate bright green foliage that turns a golden yellow in the autumn.

Each 30c, doz. \$3.00, 100 \$20.00

LYDIUM. A pretty reddish moss plant with golden yellow flowers.

Each 20c, doz. \$2.00, 100 \$15.00

PRUNITUM FORSTERIANUM. Pretty glaucous bluish-green leaves of trailing habit and golden yellow flowers.

Each 20c, doz. \$2.00, 100 \$18.00

SARMENTOSUM. Pretty trailing plant with yellowish green foliage and creamy yellow flowers.

Each 20c, doz. \$2.00, 100 \$15.00

SEBOLDI. Bright pink flowers in Aug. and Sept. Foliage round silvery green, growing 4 inches high.

Each 20c, doz. \$2.00, 100 \$18.00

SEXANGULARE. Very dark green foliage and yellow flowers growing 2 inches high.

Each 20c, doz. \$2.00, 100 \$15.00

STOLONIFERA. One of the most desirable Sedums with evergreen leaves and purplish pink flowers. They bloom in July and August growing about 6 inches high. Fine for the rockery or low border.

Each 20c, doz. \$2.00, 100 \$15.00

SPURIUM COCCINEUM. Its rosy crimson flowers come out during July and Aug. about 4 inches high among the round dark red foliage.

Each 20c, doz. \$2.00, 100 \$15.00

ERECT GROWING VARIETIES

SPECTABILE. A handsome plant growing about 12 inches high with light green glaucous foliage and large heads of flowers colored a delicate shade of old rose.

Each 20c, doz. \$2.00, 100 \$12.00

SPECTABILE BRILLIANT. The bright red form of the popular Spectabile.

Each 20c, doz. \$2.00, 100 \$12.00

SEMPERVIVUM

(House Leek or Old Hen and Chickens)

Pretty rock garden plants that form curious rosettes of thick leaves of varying colors and sizes according to the variety. They bud from underground stems sending up the tiny rosettes around the parent plant. They will grow well among the rocks, on dry banks or high on a rocky wall.

ALBERTII. Grayish green leaves 2 to 3 inches high throwing up a flower stalk about 1 foot in June bearing a pale yellow flower about 1 inch across.

ARACHNOIDEUM. (Cobweb House Leek) Tips of leaves in rosettes usually connected by silvery threads. Flowers a bright red in small panicles, growing 6 inches high.

GLOBIFERUM. Flattened rosettes, 2 to 3 inches in diameter, of grayish-green leaves lightly tipped brown. Pale yellow flowers, 3-4 to 1 inch in diameter in dense hairy panicles 1 foot high in June.

TECTORUM. Broad rosettes, the leaves having reddish brown tips. Flowers are pale red, 1 foot high.

All kinds,

Each 25c, doz. \$2.50, 100 \$20.00

SHORTIA

PALMATA ELEGANS. Graceful plumes of lovely light pink flowers that grow 3 feet high and bloom from June to Aug. Fine for waterside planting.

Each 35c, doz. \$3.50, 100 \$30.00

SIDALCEA

(Greek Mallow)

Erect growing plants, more or less branching producing their panicles of flowers during June and July. They will succeed in any garden soil in a sunny position.

ROSY GEM. Pretty bright rose colored flowers on a plant 2 to 3 feet high.

Each 20c, doz. \$2.00, 100 \$18.00

SILENE

(Catchfly)

A charming class of flowers for the rock garden that are closely allied to the pink family and require much the same treatment. They bloom nearly all summer and are very desirable.

ALPESTRIS. Dwarf rock plant with dainty pure white flowers in May and June that grow only an inch or two above the prostrate leaves.

Each 25c, doz. \$2.50, 100 \$20.00

SCHAFTA (Autumn Catchfly) A charming border or rock plant, growing from four to six inches high, with masses of bright pink flowers from July to Oct.

Each 20c, doz. \$2.00, 100 \$15.00

SPIREA ASTILBE

Everyone should have some of these beautiful herbaceous Spireas. They bloom in June and July, throwing up their feathery heads of bright colored flowers. They prefer a rich moist soil and will do well in semi-shade.

AMERICA. A beautiful deep pink that grows 12 to 18 inches high, and is one of the earliest to bloom.

CERES. Beautiful spikes of rosy lilac color, growing 2 feet tall. A stately flower to say the least.

Each 35c, doz. \$3.50, 100 \$30.00

Spirea Astilbe

SPIREA ASTILBE Continued

GLADSTONE. Large trusses of pure white flowers on strong stems. One of the latest to bloom.

Each 35c, doz. \$3.50, 100 \$39.00

PEACH BLOSSOM. A beautiful peach blossom pink producing from four to seven large flower trusses on each plant. Early.

Each 50c, doz. \$5.00, 100 \$40.00

QUEEN ALEXANDRA. Flowers are a bright pink produced on a stocky plant from 12 to 15 inches tall. A prime favorite.

Each 35c, doz. \$3.50, 100 \$39.00

SALLAND. A fine red tall growing variety reaching a height of about four feet.

Each 50c, doz. \$5.00, 100 \$40.00

SPIREA ASTILBE

(Garden Varieties)

ARUNCUS. Large feathery panicles of white flowers on a 4 foot plant.

Each 30c, doz. \$3.00, 100 \$25.00

KREIMHILDE. Arundis type with stems 3 to 4 feet long bearing their large plumes of delicate salmon flowers.

Each 30c, doz. \$3.00, 100 \$25.00

MORHEIM. A large pure white flower on a plant 3 to 4 feet tall.

Each 30c, doz. \$3.00, 100 \$25.00

All plants listed herein are carefully graded. They are grown in good soil with proper consideration for strong root development. Good strong thrifty plants full of vitality is the biggest feature service we have to offer.

SPIREA

(Goat's Beard)

Beautiful border plants with large attractive foliage somewhat the color and texture of maple leaves and large feathery plumes of flowers.

FILIPENDULA. Dropwort. Numerous corymbs of pure white flowers on stems 15 inches high and pretty fern-like foliage.

Each 20c, doz. \$2.00, 100 \$18.00

FILIPENDULA FLORE PLENO. The double pure white form of the above.

Each 30c, doz. \$3.00, 100 \$25.00

SHASTA DAISY

(Chrysanthemum Maximum)

This ever popular hardy daisy can be used either as specimen clumps grouped in the border with other flower or used as a feature corner with shrubbery. They succeed in almost any location, preferring a sunny position. They are right at home in the old fashioned garden and also make fine cut flowers.

ALASKA. Our strain of this variety has been improved from year to year until now we believe we have it as good as it is possible to make it. Flowers are large pure white 2 or 2 1/2 inches across and blooms in June and July.

Each 15c, doz. \$1.50, 100 \$10.00

HEARTJE AND ELDER. This is a large pure white Decoration Day daisy with strong stems and large flowers. Valuable as a cut flower.

Each 20c, doz. \$2.00, 100 \$12.00

Shasta Daisy

Six plants will be sold at the doz. rate and 25 at the 100 rate

SHASTA DAISY Continued

MRS. C. LOTHIAN BELL. One of the largest daisies that blooms continuously from June to Aug.

Each 20c, doz. \$2.00, 100 \$18.00

LEUCANTHEMUM FLORE PLENO. The double pure white form of the shasta daisy. A very remarkable flower with an extra row of broad petals around the bright yellow center of the flower.

Each 20c, doz. \$2.00, 100 \$18.00

STACHYS

(Woundwort)

LANATA. Fine old fashioned cottage garden plant for edging or rock garden. Its soft silvery foliage is the attraction of the plant, the flowers being inconspicuous. It is dwarf and spreading in habit growing only 4 inches tall.

Each 20c, doz. \$2.00, 100 \$12.00

STATICE

(Sea Lavender)

LATIFOLIA. Heavy tufts of leathery foliage with large umbel like heads of minute purplish blue flowers in bloom during July and Aug. May be picked when in bloom and hung to dry for winter bouquets.

Each 20c, doz. \$2.00, 100 \$15.00

STOKESIA

(Stoke's Aster)

This beautiful plant grows about 18 inches high, blooming very freely, producing its Centaurea-like flowers from June until Oct. Very effective in masses and border plantings.

CYANAE. A pretty light blue, 3 or 4 inches across.

Each 20c, doz. \$2.00, 100 \$12.00

CYANAE ALBA. The pure white form of the above.

Each 20c, doz. \$2.00, 100 \$12.00

TEUCRIUM

(Germander)

CHAMAEDRYS. A neat 12 inch border plant of shrub-like habit and glossy green foliage. Its bright purple flowers bloom during July and August.

Each 25c, doz. \$2.50, 100 \$20.00

Tritoma

THALICTRUM

(Meadow Rue)

AQUILEGIAFOLIUM. Its tufts of rosy purple flowers are in bloom during June and July and are borne on a plant 2 to 3 feet high with very attractive foliage. An outstanding medium border plant.

Each 20c, doz. \$2.00, 100 \$15.00

DIPTEROCARPUM. The best of all Meadow Rues. Flowers are a pretty shade of lilac mauve in graceful sprays during Aug. and Sept., growing 3 feet tall.

Each 30c, doz. \$3.00, 100 \$20.00

THYMUS

(Thyme)

Covered completely during June and July with their brilliant flowers the Thymes make a beautiful display in the rockery, along sunny banks, or dry rocky slopes. They thrive where it is hard to raise grass and the foliage makes an excellent carpet for the spring bulb beds. They grow wild in the mountain districts of this country, and are very fragrant.

CITRIODORUS. Golden yellow foliage that makes a wonderful display of color during June and July, growing only 2 to 3 inches high and matting out into a beautiful carpet.

Each 20c, doz. \$2.00, 100 \$12.00

LANUGINOSUS. (Woolly Leaved). Woolly foliage of a grayish green color densely covered with its bright pink flowers in early summer.

Each 30c, doz. \$3.00, 100 \$20.00

SERPILLUM ALBUM. (White Mountain Thyme.) Forms dense mats of dark green foliage, covered with clouds of white flowers 3 or 4 inches tall during June and July.

Each 30c, doz. \$3.00, 100 \$20.00

SERPILLUM COCCINEUM. Plants become covered with brilliant crimson flowers during early summer.

Each 30c, doz. \$3.00, 100 \$20.00

TRITOMA

(Red Hot Poker or Torch Lily)

PFITZERI. We offer the true type of this variety and we consider it the best we have seen. Color is rich fiery orange scarlet. It shows up best when planted in masses, and is very valuable as a cut flower. They need some protection in the winter.

Each 25c, doz. \$2.50, 100 \$18.00

TRILLIUM

(Wood, Lily or Wake Robin)

GRANDIFLORUM. Its large three-petaled pure white flowers are well known to people of Pennsylvania and northern Ohio, having seen it in its native state in the woods in early spring. It is an excellent plant for naturalizing a semi-shady section of the hardy border. Its broad deep green foliage is interesting.

Each 20c, doz. \$2.00, 100 \$12.00

GRANDIFLORUM ERECTUM RUBRUM. Deep red form of the above and quite scarce.

Each 20c, doz. \$2.00, 100 \$18.00

Six plants will be sold at the doz. rate and 25 at the 100 rate

TIARELLA

(Miterwort)

CORDIFOLIA. An excellent rock garden plant for partial shade that produces its small creamy white star-like flowers during May. An excellent plant growing 6 to 12 inches tall with fine foliage.

Each 20c, doz. \$2.00, 100 \$12.00

TRADESCANTIA

(Spiderwort)

VIRGINICA. Produces a succession of beautiful cup-shaped blue flowers all summer on a plant 2 feet high. An excellent medium border plant with long narrow grass-like foliage.

Each 20c, doz. \$2.00, 100 \$12.00

VIRGINICA ALBA. White flowered form of the above.

Each 20c, doz. \$2.00, 100 \$12.00

TUNICA

(Coat Flower)

SAXIFRAGA. A pretty little plant with very fine grass-like foliage and delicate tiny pink flowers all summer, growing about 6 inches tall. Very good for the rock garden or for a low edging for the perennial planting.

Each 20c, doz. \$2.00, 100 \$12.00

Veronica Longifolia Subsessilis

VERONICA

(Speedwell)

There are Veronics for almost every planting purpose. The tall growing sorts are fine and floriferous for the medium border, while the dwarfs are very beautiful rock garden specimens. Flowers grow in limber spikes that wave freely in the breeze. As they bloom at different seasons of the year, you may have a succession of bloom by planting different varieties. They do best in a rich moist soil in full sun.

AMETHYSTINA. Pretty spikes of rich deep blue flowers during June and July, growing 4 to 6 inches high.

Each 25c, doz. \$2.50, 100 \$18.00

INCANNA. Small silvery white leaves and pretty dark blue flowers that grow 6 inches high during June and July. Fine for the rockery or low border.

Each 25c, doz. \$2.50, 100 \$18.00

LONGIFOLIA SUBSESSILIS. We consider this the best Veronica. Its beautiful 6 or 8 inch spikes of rich blue flowers are borne freely on a plant 15 inches to 2 feet tall. Its pretty deep green foliage plays no mean part in the attractiveness of the plant. It is a wonderful medium or low border plant that improves from year to year and the flowers are fine for cutting, and blooms from July to Sept.

Each 25c, doz. \$2.50, 100 \$20.00

RUPESTRIS. Its clusters of flowers in early June make a wonderful showing in the rock garden. Plant grows 3 or 4 inches high spreading out into a dense mat of deep green foliage.

Each 20c, doz. \$2.00, 100 \$15.00

RUPESTRIS FLEXUOSA. A prostrate trailing plant forming a dense carpet of green which in late April and early May is covered with pale blue flowers 1 inch high. An excellent rock garden specimen.

Each 30c, doz. \$3.00, 100 \$20.00

SUPESTRIS NANA. Its deep Gentian blue flowers form a beautiful floral carpet in April and May and its shiny deep green foliage is an interesting feature of the plant. It makes a wonderful showing early, growing 1 inch high. One of the best creepers.

RUPESTRIS NANA ROSEA. Has the same general form and habit as Rupestris Nana except that its flowers are a brilliant mauve pink color.

Each 30c, doz. \$3.00, 100 \$20.00

SPICATA. Its long spikes of bright violet blue flowers are produced during June and July on a plant 8 or 10 inches tall. An excellent low border plant that for sheer beauty is hard to equal. It makes an excellent specimen plant on the lower levels of the rockery where it may stand by itself.

Each 20c, doz. \$2.00, 100 \$18.00

SPICATA ALBA. Long spikes of snowy white flowers in June and July. Plant is of the same general nature as Spicata.

Each 20c, doz. \$2.00, 100 \$18.00

VINCA

(Periwinkle or Trailing Myrtle)

MINOR. A trailing evergreen plant used extensively for carpeting the ground under shrubs, trees, evergreens where it is too shady for grass to grow. Strong nursery-grown clumps.

Each 20c, doz. \$2.00, 100 \$15.00

VIOLA CORNUTA

(Tufted Pansy)

These are thoroughly hardy pansies that will bloom and improve year after year in the rock garden or low edging and with ordinary attention give good results for several years. They bloom continuously from early spring until frost, producing an array of interesting colors over a long season. They need a rich soil with some moisture and thrive best in a sunny position.

ADMIRATION. A dark blue flowered variety, flowers having rather short stems, growing on a branchy spreading plant.

PRIMROSE DAME. Bright yellow flowers on a spreading plant that makes an interesting rock garden specimen.

WHITE PERFECTION. A pure white flowered variety that produces abundance of flowers from early spring until late fall.

MIXED. A fine range of mixed colors of the above varieties.

Each, above, 15c, doz. \$1.50, 100 \$12.00

TROLLIUS

(Globe Flower)

EUROPAEUS, LEMON QUEEN. Flowers pale yellow produced in abundance during the months from May until August and even later. Plant grows about 2 feet high and stools out as it grows older to form quite a large clump. It does best in slightly moist places in rich soil.

Each 40c, doz. \$4.00, 100 \$35.00

EUROPAEUS, ORANGE GLOBE. Beautiful bright orange yellow globe flowers that look somewhat like large buttercups. Plants grow about 2 feet high and bloom from May until August. They prefer moist places.

Each 35c, doz. \$3.00, 100 \$30.00

VIOLA

(Everblooming)

G. WERMIG. We might call this the ever-blooming Viola. It produces its brilliant violet-blue sweet scented flowers all the season through, on a branching spreading plant. One of the most interesting varieties of the true horned viola.

Each 20c, doz. \$2.00, 100 \$15.00

JERSEY GEM. This is one of the newest introductions in this line of hardy plants that has taken the country by storm. Wherever it is planted it has been admired and highly praised for its stately grandeur, its brilliant violet blue color and its abundance of flowers. When given a rich moist soil it produces a thick mat of gorgeous flowers continuously, that stand high above the foliage on long graceful stems. As cut flowers Jersey Gems makes up well for small bouquets, vases or broad table center-pieces. Flowers are sweet-scented.

Each 20c, doz. \$2.00, 100 \$14.00

VIOLET

(Hardy)

Among the hardy violets are varieties with such interesting features that you will be pleased beyond words when they bloom in your garden. The descriptions will help you to choose.

DOUBLE ENGLISH OR RUSSIAN. Beautiful deep blue intensely double flowers that bloom soon after the frost is out of the ground, then quit until fall when they again put forth a more limited number of blossoms. The flowers are very sweet scented and for this feature are very popular. Not a new variety, but one that is so old it has become almost extinct—so old that it is new, in fact.

Each 25c, doz. \$2.50, 100 \$20.00

GOV. HERRICK. Bright medium blue flowers on long stems. Blooms in early spring and making a pretty showing for a month or more in the rock garden or low border. It has shiny green foliage.

Each 20c, doz. \$2.00, 100 \$15.00

PRINCE OF WALES. Rich deep purple flowers that are sweet scented and grow on long stems above the broad deep green foliage in early spring with occasional flowers all summer.

Each 20c, doz. \$2.00, 100 \$15.00

Native Flowers and Ferns

This year we offer the following list of our own wild American Flowers. Most everyone would like some of these beautiful flowers if they only knew where to get them. We are collecting a large quantity of them this year and will have them in stock ready to fill your orders.

Our Native Plants

Actaea Alba—White Baneberry.
Anemone Pennsylvanica—Wind Flower.
Aquilegia Canadensis—Wild Columbine
Asarum Canadense—Wild Ginger
Caulophyllum Thalictrides—Blue Cohosh
Chelone Galbra—Snake Head
Cimicifuga Racemosa—Black Cohosh
Clintonia Virginica—Spring Beauty
Dicentra Cucullaria—Dutchman's Breeches
Dicentra Canadensis—Squirrel Corn
Erythronium Americanus—Adder Tongue
E. Albidum—White Adder Tongue
Eupatorium Ageratoides—White Snake
E. Purpureum—Joe Pye Weed
E. Colestinum—Blue Hardy Ageratum
Gentiana Andrewsii—Clasped Ageratum
G. Andrewsii Alba—White Gentian
Geranium Malculatum—Wild Crane
Hepatica Triloba—Hepatica
Heuchera Americana—Alum Root
Hydrastis Canadensis—Golden Seal
Iris Versicolor—Iris
Lilium Canadense—Meadow Lily
L. Superbum—Turk's Cap or Riverside Lily
Lobelia Cardinalis—Cardinal Flower
L. Syphilitica—Blue Hibelia
Mertensia Virginica—Blue Bells
Mitella Diphylla—Bishop's Cap

Mitchellia Repens—Squaw Vine
Monarda Fistulosa—Wild Bergamont
Phlox Divaricata—Wild Phlox
Polygonatum Majus—Giant Solomon's Seal
Podophyllum Peltatum—May Apple
Sanguinaria Canadensis—Blood Root
Smilacina Racemosa—False Solomon's Seal
Thalictrum Cornuti—Meadow Rue
Tiarella Cordifolia—Foam Flower
Trillium Grandiflorum—White Beth Root
Vinca Minor—Myrtle
Veratrum Viride—Wild Hellebore
Each 15c, doz. \$1.50, 100 \$12.00

Native Hardy Fern

Adiantum Pedatum—Maiden Hair Fern
Aspidium Acrostichoides—Christmas Fern
A. Marginale—Marginal Shield Fern
A. Spinulosum—Spinulose Shield Fern
A. Thelypteris—Marsh Shield Fern
Asplenium Felix-Foemina—Lady Fern
Dicksonia Punctilobula—Dicksonia Fern
Onoclea Struthiopteris—Ostrich Fern
Osmunda Regalis—Royal or Flowering Fern
O. Cinnamomea—Cinnamon Fern
O. Claytoniana—Interrupted Fern
Polypodium—Vulgar—Polypody
Lycopodium Lucidulum—Shining Club Moss
L. Denudroideum—Ground Pine-Club Moss
Each 15c, doz. \$1.50, 100 \$12.00

Home Planting of Peonies

BIG FIVE PEONY GROUP

Offer B

- 1 Edulis Superba, deep pink.
- 1 Karl Rosenfield, deep red.
- 1 Rubra Superba, crimson.
- 1 Mons Jules Elie, pink.
- 1 Festiva Maxima, white.

Unless otherwise instructed these peonies will be sent to you in August or September as the fall is the best time to plant peonies.

This collection includes the full range of peony colors from white to deep red and also ranges in full length of the peony season, early and late. If planted about two feet apart in the open sunlight along the drive or in the border they will make a wonderful showing the first year, and in two or three years will form large clumps each with a mass of bloom.

\$2.50

20-Foot

PERENNIAL GARDEN

Offer G

- A 3 Golden Glow
- B 4 Hollyhocks, Double mixed.
- C 4 Hollyhocks, New Allegheny
- D 12 Delphinium Belladonna
- E 13 Delphinium Bellamosa
- F 5 Aquilegias
- G 7 Phlox, Prof. Virschow
- H 7 Phlox, Bridesmaid
- I 6 Platycodons
- J 9 Sweet Williams (Dianthus)
- K 12 German Iris
- L 9 Shasta Daisies
- M 9 Gaillardia
- N 6 Chrysanthemums
- O 9 Achillea Perry's White
- P 5 Coreopsis

Enough plants to fill a rectangular border bed five feet wide and about 20 feet long. Given good soil and plenty of water during dry weather this grand collection of perennials will give you a riot of color all sum-

mer long and will continually get better as the season wears on. Gaillardias, Chrysanthemums, and Phlox will still be blooming when frost comes and by picking off the fading flowers of Aquilegias, Coreopsis, Platycodons and Hollyhocks their blooming season can be lengthened considerably. By cutting back your Delphiniums to the ground after their first flowers begin to fade they will come up again and give you a second and even a third flower spike each season. Then too, this Perennial Garden will be better the second year than the first. With cultivation, thinning and weeding these plants will supply an interesting display of flowers for many years.

Novelty

PERENNIAL BORDER

Offer H

- A 3 Bocconia Cordata
- B 10 Delphinium English Hybrids
- C 10 Liatris Pycnostachya
- D 4 Gypsophylla Paniculata
- E 5 Lupine Pollyphyllus
- F 5 Rudbeckia Purpurea
- G 6 Gaillardia
- H 6 Hardy Carnations
- I 5 German Iris
- J 5 Japanese Iris
- K 3 Regal Lilies
- L 3 Lillium Auratum
- M 6 Aquilegias
- N 6 Coreopsis
- O 5 Shasta Daisies
- P 5 Aconitum Fisheri
- R 3 Achillea Boule de Neige
- S 3 Pyrethrum
- T 25 Festuca Glaucia

The reason we have called this our Novelty Perennial Border is because there are several plants listed here that are not usually seen in the border. Lilies punctuate this

planting with an interesting variety. Liatris Pycnostachya spikes help to lend stateliness over a long season. Japanese Iris lend colorful charm and waxy delicacy at the same time. German Iris come earlier and make you wish for more. The Delphiniums with a good proportion of doubles compete with the Liatris for stately grace. And still there is much of interest in this planting that has not been mentioned. You sure get your money's worth in this collection. Give these flowers good soil, plenty of water and cultivation and they will smile the season through until Jack Frost writes "Finis" after the story of a beautiful garden.

Anniversary

TEN PLANT COLLECTION

Offer J

- A 3 Double Hollyhocks
- B 4 Delphiniums, Mixed
- C 3 Hardy Pinks, Dianthus Deltoides

It does not take a very large corner to accommodate these ten plants, but will surely say that you got your money's worth before

the summer is over if you plant them out this spring. A space about three by four feet will suffice. They like a sunny location.

Special
Price

\$1.00

Superbum Lilies, Rudbeckia Purpurea, Phlox, Campanulas and Gypsophila make up this basket. They all bloom in July

Trade Customs

LOCATION

To find our nurseries—go east from Painesville or west from Ashtabula on State Route 84. Our nursery is on the south side of the road about 4 miles east of Painesville and 6 miles west of Madison in Perry township. A large sign with our name on it will help you find it. We shall be pleased to have you stop and pay us a visit.

SHIPPING FACILITIES

Northern Ohio is so centrally located that freight and express shipments to all parts of the country is prompt and convenient. We ship all stock from Perry, Ohio, and our mail is sent from that Post Office.

ADJUSTMENTS OF COMPLAINTS

Complaints for adjustment must be mailed upon arrival of stock, direct to our office in writing.

TRANSPORTATION

When we deliver stock to a transportation company our responsibility for its safety ceases. Your claims for damages should be made promptly to the agent of the transportation company at the point of delivery before you sign the receipt if possible.

OUR RESPONSIBILITY

We exercise the utmost care to have our nursery products true to name and will replace any that is proven untrue. We guarantee safe arrival of all shipments. That is as far as we can go to give you results. The rest is up to you, and your success in making the plants grow and bloom is largely due to the treatment you give them. If you exercise the same care in making them grow that we do in the nursery, you will have outstanding results and will have a garden worthy of pride. In case of any error on our part we are at no time responsible for more than the original cost of the plants.

INQUIRIES

It is part of our service to you to answer your inquiries promptly. We solicit your correspondence. It will help us, however, if you will make your inquiry as brief and clear as possible.

PRICES AND TERMS

The prices in this catalog are net, cash with order and plants are shipped f. o. b. Perry, Ohio.

How To Plant And Care For Perennials

Most perennials will do well planted about 12 inches apart. The dwarfs may be set somewhat closer and the taller varieties farther apart. Crowded plantings are never as effective as those more openly spaced. The best top soil should be sifted around the roots and firmly pressed down. Use plenty of water.

Plants often grow too rapidly for the stems they produce and hence need some support to make them shapely and effective. Early staking will help them.

Many plants will bloom almost continuously if the flowers are cut and not allowed to seed. Skipping of dried leaves, broken stems and dead flowers helps the appearance of the perennial garden.

Plants listed are hardy in varying degrees. Some positively need protection such as Tritomas, Canterbury Bells and

Foxglove. Coarse strawy manure or leaves is an effective mulch when applied in late November and removed gradually in the spring as the frost leaves the ground.

Dwarf plants will usually thrive without much attention, but the taller varieties grow faster, produce heavy tops and dense roots that in one, two or three years often choke out the best qualities of the plant. They will do better if divided occasionally.

By stirring the ground occasionally with the hoe the moisture is retained. Grass cutting may be used as a light mulch. Sprinkling in early morning or late in the evening during very hot weather is often necessary, but the ground should never be allowed to bake or form a crust around the plants. Perennial plants will reward you well for the care and attention you give them.

Keep this Service Guide. You may need some plants later.
