MRS. CLARICE NYE

Prospect, Oregon

**Crater Lake Highway, Forty Miles
from Medford**

Foreword

I wish to tell you something of our climate here in western Oregon. It is very wet in winter and dry in summer. Our spring comes early with *synthyris*, *dentaria*, *runculus*, *sisyrinchium grandiflora* and a multitude of beauties sometimes in bloom on the first of March and have their seed ripened and are ready to move by July. This is a trying time to ship plants, but they should be moved at least early in the fall. We try to have as good a supply dormant as possible for spring shipment, but I think the best results will follow fall planting of all the very early spring bloomers.

Alpines, too, should by all means be ordered early as they will winter much better in snow covered gardens than stored in my rain washed park. Alpines in this list are plants which grow at or over 5,000 feet elevation. This is high with us.

ADVICE ABOUT ROCK GARDENS

I will be glad to help in any way if you will write me about your garden problems but I will have to acknowledge I am not as well informed nor as experienced as Mrs. Louise Beebe Wilder, who gives in her "Adventures in My Garden and Rock Garden," and Mr. Herbert Durand in his "My Wild Garden"—advice which is well worth the cost in money, labor and lives (of plants) they will save you. The first may be had from Doubleday, Page & Co., and the latter from G. P. Putnam's Sons, New York City.

OREGON WILD FLOWERS

We have the following to offer you at this time and are constantly adding new varieties for the Perennial Border and some for the Bulb Garden, but most of them are for the Rock Garden.

We have climbed many high mountains and scaled cliffs so dangerous it was necessary to use a rope to collect some plants and seeds listed herein. We wished that with them we could send you the lovely views we enjoyed while we toiled in these high places.

We have tried to learn the correct names but many of the plants are so new to the flower world it has been difficult. We will refund the purchase price of any not true to name.

Seeds—Seeds of many varieties can be furnished at 25c per packet. As all are perennials they should be planted early and exposed to frost.

Substitutes—We never substitute but appreciate it very much if you will name some substitutes which may be sent in case of need. This is especially true of seeds.

Numbers (00) indicate height in inches.

Native Plants Suitable for the Dry Garden in Sun Unless Otherwise Stated

	Each Doz.	
Anemone Deltoides, purest white colors, for shade	.15	1.00
Anemone Lyalli, many delicate colors in shade	.15	1.00
Anemone Occidentalis, chalice cup, milk white flower, plummy seed head and nice ferny leaves.....	.35	3.00
Arabis Lyalli, pink flower, best in shade	.25	2.00
Arabis Purpureus (6) extra nice plant, pink flower	.25	2.50
Aquilegia Formosa, (18) scarlet and gold columbine.....	25.	2.00
Arenaria Congesta, (5) pure white, Alpine	.15	3.00
Aster species, (4) light blue from Alpine lake margin.....	.25	2.00
Aster species, (8) rays rather scattered but very free blooming in the rock garden	.15	1.00
Aster species, (16) deep purple, many rays, seeds.....	.15	2.00
Aster species, (14) lavender and light blue, nice large flowers, moist soil. Seeds	.25	2.00
Antennaria Roseum, (3) pink, likes sandy soil.....	.25	2.00

	Each	Doz.
Achlys Triphylla, Sweet after Death, not showy	.15	1.00
Calypso Borealis, fairy slipper, with soil for planting.....	.25	2.00
Calypso Bulbosa, same as above....	.25	2.00
Campanula Scoulero (4) very light blue lily shaped flower.....	.25	2.00
Castilleja mineata, (6) scarlet In- dian Paint Brush.....	.15	1.50
Clintonia Uniflora, (3) pure white Queen's Cup	.15.	1.50
Cleone Nemorosa, (16) pink. Seeds only		
Dentaria Tracyii, (5) Milkmaid's flower, purple spotted leaves. Very early bloomer.....	.15	1.00
Dentaria Californica, white with round dentate leaves	.15	1.00
Dicentra Formosa, plummy bleeding heart, beautiful foliage.....	.15	1.00
Delphinium Columbianum, (5) purple	15	1.00
Delphinium bicolor, (8) blue and white	.15	1.00
Delphinium Cardinalis, for fall de- livery	.25	2.50
Delphinium nudicaule, (18) for au- tumn delivery	.20	2.50
Digitalis, 4 to 6 ft.) Fox Glove many colors	.25	2.00
Dodecatheon Alpina, (6) preferst moist situation	.50	4.00
Dodocatheon Hendersonii, (6) a beautiful rose to crimson primu- laceae, blooming very early in spring. Good in the rock garden	.15	1.00
Dodocatheon Jeffreyii (12), a later bloomer called Sierra Shooting Star, light pink.....	.25	2.50
Epipactus Gigantea, for moist shade	.20	2.00
Erigeron Radicatus, (2) deep blue or purple, free blooming.....	.35	3.00
Erigeron Compositus var. trifidus, (4), white flower.....	.35	3.00
Erigeron Foliosus var. compositus, (6), light blue	.25.	3.00
Erigeron Salsuginosus, (10), large Alpine daisy	.25	2.50
Erigeron Species, prostrate, found blooming in Nov. in Klamath marsh region	.25	2.50
Eriogonums are fine for the rock garden. Dry situation seeds best as they they are hard to transplant.		
Erigeron Compositus, (14), large clusters of white flowers.....	.50	

	Each	Doz
Eriogonums Nudum, (18), white flower on slender stem.....	.25	2.00
Eriogonums Sulphureum, same but yellow	.25	2.50
Eriogonum Umbellatum, (6), large yellow flower	.25	3.00
Eriogonum Ovalifolium, (3), ever-blooming Alpine pink	.50	4.00
Eriogonum species, (6), red flower, very nice, seeds only.....		
Eriogonum species (6), lemon yellow flower, white leaved plant making carpet. Seeds only.		
Eriogonum species, (5), pink flowered, from Mt. Mazama.....	.50	4.00
Eriophyllum Ceasptosum, (8), Oregon Sunshine, yellow flower, white foliage	.15	1.00
Erioghyllum species, (4), felty white foliage, Alpine.....	50	4.00
Erysinum aspernum, (12), Wester Wall Flower, yellow	.15	1.00

FERNS

Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to conserve moisture and thus they will face full sun.

Cheilanthes Gracillima, (5), lace fern, dainty, clump.....	.25	2.50
Cryptogramma acrostichoides, (3), parsley fern	.25	2.50
Gumnogramma triangularis, (3), gold fern	.25	2.50
Pellaea brachypteris, (6), evergreen fern, like a sprig of fir.....	.35	3.00
Woodsia Oregana, (5), very dainty and fragile. Dries down in summer, reappearing in eary spring	.15	1.50
Lomaria Spicant, the Deer fern for moist shade	.25	2.50
Polypodium Occidentale, licorice fern, prefers a mossy stone for a home	.15	1.50

Larger Ferns

Polyystichiums Lonchitis, Holly Fern, A lovely evergreen fern for shade only	.50	4.00
Polystichum Munitum, large sword fern	.25	.50
Polystichum imbricans, small sword fern for dry rock garden	.25	2.00
Dryopteris arguta, (18), Evergreen shield fern	.25	2.50
Asplenium filix-foemina, Lady fern moist shade. Each, 25c.....	.50	1.00

	Each	Doz.
Adiantum pedatum, five finger fern maiden hair, requires water and shade. Each 25c	.50	1.00
Woodwardia Radicans, great chain fern, very large, requires mois- ture and shade. Each, 25c.	.50	1.00
We have many other nice ferns not yet classified. Write us your wants.		
Gentiana Affinis, a very nice lit- tle gentian with very dark blue flower, freely borne, moist soil..	.35	3.00
Gentiana Steigera, very similar to Calycosa; large, dark blue flow- er, late bloomer, moist soil.....	.35	3.00
Geranium Fremonti, (18), large magenta rose flower; rare.....	.25	2.00
Geranium Richardsonii, (24), white flower; very rare.....	.25	2.00
Gilia Pungens, forms a low mat like Phlox Douglassi, equally free flowering and easier to estab- lish	.50	4.00
Gilia aggregata, (6-18), scarlet gil- ly flower; nice plant, free flow- ering	.15	1.00
Goodyeara Menziesii, mottled green and white leaves, shade....	.15	1.00
Gormanii Watsoni or obtusatum (6), white flower. A plant very nearly related to the Sedums and as good for dry or moist rock work	.25	3.00
Gormania rhodiola, red flowered. Plant very nice	.35	3.00
Heuchera Micrantha, (12), spray of white flowers, begonia like leaves which color nicely.....	.25	2.00
Heuchera glabella, green leaves. Good for dry rock work.....	.25	2.00
Irises—Our natives are fine but not easy to grow. Seeds of all.		
Iris Bracteata, (8), white to yel- low. Very fine shaped large flow- er, dwarf plant	.25	2.00
Iris Douglasiana, (12, yellow shades only	.25	2.00
Iris Missouriensis, (16), blue flower	.25	2.00
Iris Tenax, (8), many lovely colors in mixture.		
Iris Tenax, same in deep purple. This is our best native iris. Flow- er, similar to Siberia, but more freely borne; plant more dwarf..	.25	2.00

	Each	Doz.
Iris, species from Port Orford, name not known, but is a very good tall blue iris.....	.25.	
Lathyrus Torreyi var. (4), red flower er	.15	1.00
Lappula nervosa, a lovely forget- me-not but has a burr seed. Oth- erwise a fine plant	.35	3.00
Lilium—see bulb list..		
Lewisia Rediviva, (3), Bitter root, state flower of Montana. This is a fine large showy flowered dwarf hardy in any section of the U. S. A.	.15	1.50
Lewisia oppositifolia, (5), similar with smaller white flower. Both die down in summer.....	.15	1.50

Lewisia—The evergreen varieties are often listed as Oreobroma and include all below. These are our very best rock garden plants requiring good drainage and full sun, but not south exposure in California. Roots should have good protection under large rocks, and no irrigation. Coarse sand or broken rocks around the plant on surface to prevent damping off.

Lewisa Cotyledon, slender leaved rosette and white flower, veined pink	.25	2.50
Lewisia Howellii, leaves of the rosette, ruffled and crested, flower deep rose striped with white.....	.25	2.50
Lewisia Howellii, new variation of of our own discovery. Larger than type with white flower.....	.50	5.00
Lewisia Howellii, new variation, smaller than type but not very different	.25	2.50
Lewisia Hecknerii,, a fine new one with saw-edged leaves; flower pink striped with yellow and white	.35	3.00
Lewisia species, not named as yet. Have seed of these	.35	3.00
Lewisia Purdyii, similar to Rupicola, closer rosette.....	.35	3.00
Lewisia Columbianum, quite different from the last seven having narrow leaves and much smaller flowers. This bloomed the whole summer and fall in my rock garden. Flower white.....	.25	2.50
Lewisia Leeana, similar to last two with deep magenta bloom	.25	2.50

	Each	Doz.
Lewisia Tweedyi, the largest of them all and a beautiful plant. Flowers are a delicate peach pink. It bloomed from June to November in my garden. Give sand soil and full sun. South exposure, small. Each, 75c.....	1.25	\$10
Linum Lewisia, (12), similar to L. Perrene but deeper color and larger flower	.20	2.00
Linum species from Umpqua Valley, (11). much smaller flower, very light blue. Nice for rock garden	.15	1.00
Lithophragma affinis, (8), Woodland Star, white to pink	.15	1.00
Linnaea Borealis var. Americana, Twin Flower, vine	.15	1.00
Lupinus Lyallii, (4), the tiny gray leaved Alpine which blooms the whole season. Seed is best.....	.35	3.00
Lupinus Minimus, (9), very free blooming	.15	1.00
Lupinus Ornatus, (12), silver leaved lupine	.35	3.00
Lupinus, tall varieties in mixture. Seeds only.		
Mesembryanthemum aequilaterale, Sea Fig, nice flower.....	.35	3.00
Micromeria Douglasii, vine with scented leaves; nice in the rock garden	.15	1.00
Mertensia laevigata, a long blooming blue bell.....		
Montia Parvifolia, dainty white flower, always in bloom	.15	1.00
Paeonia Brownii, (8), our only native and a dwarf adapted to a rock garden; large red flower..	.50	4.00
Penstemon Azureus, (8), a lovely flower freely borne	.35	3.00
Penstemon Cardwellii, (6), shrubby creeper, very free blooming flower brightest blue	.50	4.00
Penstemon Deustus, (9), a beautiful plant, flower small	.15	1.50
Penstemon Glaber, (8), large flowers of beautiful blue, pink throat; free blooming. Alpine.....	.50	4.00
Penstemon Laetus, (12), rather dark blue nice in border as well as rock garden	.15	1.00
Penstemon Menziesii, (4), shrubby creeper, blue	.35	3.00
Penstemon Rupicola, (6), gray leaved shrubby creeper; rose crimson flower; very nice.....	.35	3.00

	Each	Doz.
Penstemon Procerus, same as Confertus variety caeruleo-purpureus; blue flower on upright stems, (12)	.35	3.00
Penstemon Roëzli, (12), bright blue flower on upright stems. For dry rocks	.25	2.50
Phlox Adsurgens, (5), evergreen creeper with fine pink flowers....	.25	2.50
Phlox Speciosum, (8), upright grower with nice flowers.....	.35	3.00
Polemonium Occidentale (18) blue	.35	3.00
Phlox Douglasii, flat mats covered with flowers of pink, lavender or light blue.....	.35	3.00
Phlox Hoodii, similar with white flowers	.66	3.00
Polemonium species, very dwarf, large flowered	.35	3.00
Polemonium Carneum, (19) peach pink, very pretty	.35	3.00
Polemonium species, (6), mumile or similar, blue	.35	3.00
Polemonium Occidentale, (18), blue blue	.35	3.00
Polemonium Occidentale, (18), blue flower	.25	2.50
Ranunculus, Butter-cup, (10), very early spring bloom	.15	1.50
Romanzoffia Californica, (6), for mossy, moist rocks	.15	1.50
Romanzoffia Stichensis, (4), Mist maidens, Alpine, same moist situation required	.35	3.00
Saxafraga Eastwoodiaea, (4), same situation as above.....	.35	3.00
Saxafraga species (2), same situation as above. Has tiny rosette of dark colored notched leaves and white flower, red anthers.....	.35	3.
Saxafraga Mertensiana, (6), moist shade preferred. White.....	.15	1.50
Saxafraga Tolmei. (2), makes a lovely green mat, with lots of small white flowers. Alpine and requires moisture and full sun. Found at foot of glaciers. Seed only.		
Sedum divergens, forms flat mats; very nice	.25	2.50
Sedum Jepsonii, (8), for dry rock work; white flower, large.....	.25	2.50
Sedum Purdyii, (2), dense rosettes spreading by red thread-like runners. Bright yellow flowers.....	.25	2.50
Sedum Spathulifolium, whitish rosettes inclined to color nicely. Yellow flower, (3). Good in sun..	.15	1.00

	Each	Doz.
Sedum Watsonii, round bead-like leaves. Very small.....	.35	3.00
Sedum Woodii, small with very yellow flower	.35	3.00
Sedum species, much larger than Purdyii with pointed leaves. Both prefer shade	.25	2.50
Shasta Daisy, the native, much smaller than the improved; small flowers on slender stems.....	.15	1.00
Sidacea Californica, (10), clear pink flower	.25	2.00
Silene Hookerii, (3), fringed pink, very long blooming	.25	2.00
Sisyrinchium Belum, (6), Blue-eyed Grass, blue	.15	1.00
Sisyrinchium Iridifolium, (24), cream flower	.50	
Sisyrinchium Grandiflorum, (10), a lovely flower of a nameless col- or between rose and purple.....	.25	2.00
Spragua Umbellata, Pussy-paws, grows flat on the ground, flow- ers white to red, watermelon scented	.15	1.50
Spragua Multiceps, many headed or rosetted. Turns a nice red- dish color	.25	2.50
Smilacina stellata, (8), small with star shaped white flower, (24)....	.15	1.50
Smilacina Amplexicaulis, (24), much larger, white flower	.15	1.50
Synthyris rotundifolia, (3), Hope's Spring, Sleigh-bell or Spring Queen, all names of a well-loved little blue flower which comes first of all	.15	1.00
Synthyris rentiformis, (6), more showy light blue flower. Both plants very nice and like shade..	.35	3.00
Synthyris species, Alpine; dark blue flower, leaf long and ruf- fled, purple beneath.....	.35	3.00
Tellima odorata, (12), large be- gonia like leaves	.35	3.00
Tiarella Unifoliata, spray of tiny white flowers, prefers most shade	.15	1.00
Trientalis latifolia, pink star flow- er, a tiny primula	.15	1.50
Thalictrum Adiantifolium, very fern leaves; shade	.50	4.00
Viola Adonca, blue, very long blooming	.15	1.00
Viola Blanda, white, damp soil, very small	.25	2.00

	Each	Doz.
<i>Viola Brooksii</i> , yellow, dry rock garden	.25	2.00
<i>Viola Becwithii</i> , lavender and purple bi-color	.25	
<i>Viola Chrysantha</i> or <i>Douglasii</i> , deep yellow	.25	
<i>Viola Hallii</i> , sweet scented, purple and cream. Our finest native violet	.25	2.00
<i>Viola</i> , Peacock violet	.15	1.00
<i>Viola Ocellata</i> , Western Heart's Ease, white	.15	1.50
<i>Viola Occidentalis</i> , long-stemmed white, for water margin only ...	.25	2.00
<i>Viola Nuttallii</i> , Downy Johnny Jump-up	.15	1.00
<i>Viola Sheltoni</i> , yellow, for rock garden	.15	1.50
<i>Viola Parlustris</i> , (?) pink to lilac, for wet meadow	.25	2.00
<i>Xerophyllum tenax</i> . Indian Basket Grass, Squaw lily, Elk grass, the <i>Eremurus</i> of our high mountains. Rather hard to establish but nice to have	.50	4.00
<i>Zauschneria Californica</i> , for fall delivery	.25	.50

PLANTS FOR THE BOG GARDEN

<i>Aconitum Columbianum</i> , (36), purple monkshood	.15	1.50
<i>Arguta Rubra</i> , white flower, red berries	.15	1.50
<i>Asarum caudatum</i> , wild ginger.....	.25	2.50
<i>Asarum Hartweggi</i> , mottled, not too wet a location.....	.25	2.50
<i>Aracea lysichiton</i> , very large plant with yellow calla like flower; Slightly bad odor, small, ea., 50c..	1.00	
<i>Caltha</i> , Marsh Marigold, found by Diamond Lake	.25	2.50
<i>Cornus Candanese</i> , (3), Bunchberry, Partridge berry	.25	2.50
<i>Cypripedium Californica</i> , white lady slipper	.50	5.00
<i>Delphinium scopulorum</i> var., (84), deep blue flower, long spike.....	.50	4.00
<i>Habernaria Dilitata</i> , (18), showy orchis, pure white	.25	2.00
<i>Hypericum anagalloides</i> , Tinkers Penny	.15	1.00
<i>Parnassia palustris</i> , (12), dainty white flower	.35	3.00
<i>Lupinus Rivularis</i> , large plant with fine ornametnal leaves and long spike of bloom	.35	3.00

	Each	Doz.
Mimulus Lewistii, (18), the beautiful crimson mimulus which makes such a lovely show in Crater Lake Park water gardens all summer. Seeds of this.....	.50	5.00
Mimulus primuloides, (2), very tiny yellow. Seeds only.....		
Mimulus Luteus, (12), sweet-scented yellow monkey flower.....	.15	1.00
Pyrola Bracteata, (8), Beautiful glossy leaves and nice pink flower. Very acid soil required.....	.25	2.50

Plants listed elsewhere which are also good in the bog garden are *Metrensia laevigata*, *Lilium Pardalinum*, *Lilium Roezli*, both gentians, *Caemassias*, *Linneaea* and there should be a number of nice ferns and mosses. Can supply worn stepping stones and anything required in the wild garden.

WATER PLANTS AND LILIES

<i>Sagittaria</i> , Arrow head, aquatic, with white flower.....	.25	2.50
<i>Nymphaea Polypsepala</i> , Indian pond lily of Wokus; leaves very large; flower yellow; large roots Each		2.50
Mixed pink and white seedlings <i>Nymphaeas</i> ; very large roots, \$1.50; medium roots, \$1.00; small roots, .50; all blooming size.		

NATIVE TREES AND SHRUBS

<i>Cornus Nuttali</i> , Pacific dogwood, <i>Azalea Occidentalis</i> , beautiful sweet scented flower; leaves turn gorgeous colors in autumn and remain nice a long time. Well rooted small	.30	3.00
medium, (12), good roots, well branched	.50	5.00
large, (18), blooming size	1.00	10.00
large white flower.....	.30	3.00
Mountain ash, small tree with red berries in fall	.30	3.00
Oregon Grape, the fern leaved variety	.30	3.00
<i>Spirea opulaster</i> , nine bark, white white flower	.30	3.00
<i>Arbutus Menziesii</i> , Madore, broad leaved evergreen with white flowers and nice red berries, Seeds, pkt., 25c	.30	3.00
<i>Arctostaphylos Manzanita</i> , in variety	.30	3.00

	Each	Doz.
Ceanothus Arboreus, white flowered, broad leaved evergreen; makes small tree. Seeds only....		
Ceanthus Interrigimus, wild lilac, covered with dainty sweet scented flowers of many colors, blue prevailing	15	1.00
Ceanothus Prostratus, a lovely evergreen creeper, lavender.....	.50	4.00
Ceanothus Prostratus var., divergens, one foot high, lavender. Seeds.		
Ceanothus Pumila, very flat carpet, varied flowers.....	.50	4.00
Grossularia Rozeli, fuchia flowered gooseberry	.30	3.00
Philadelphus Lewisia, mock orange, scented white flower.....	.15	1.00
Rhododendron Californica, beautiful state flower of Washington. We can supply fine little seedlings of these carefully handled and well packed but cannot warrant them to grow. Small plants 6 to 10 in. high, at 50c each. Larger at proportional higher prices. Very good plants with soil on roots, well mossed and burlaped at each.....		1.50
Rosa Gymnocarpa, nice little rose for rock garden.....	30.	3.00
Spirea Ariaefolia, Ocean Foam, Bridal Veil, lacy flower	30	3.00
Pachystima myrsinites, Oregon box or Mountain lover.....	.30	3.00
Umbellularia Californica, Oregon Myrtle, a beautiful tree and makes a valuable timber.....	50	4.00
Vaccinum mycophyllum, a tiny huckleberry, fine in rock garden	.30	
Vaccinum ovatum, evergreen huckleberry, a lovely shrub and extensively used by florists for greens	.50	4.00
Seeds and seedlings of the following forest trees:		
Acer Macrophyllum, large leaved soft maple	.30	3.00
Circinatum, vine maple	.30	3.00
Abies Nobilis, noble fir	.50	
Magnificum, Shasta fir	.30	3.00
Quercus Garryana, Oregon white oak	.30	3.00
Kelloggii, California black oak	30	3.00
Wislizenii, live oak.....	.50	4.00

	Each	Doz.
Pinus Lamberiana, Sugar pine, seeds only		
Monticola, White pine, seeds only		
Ponderosa, Long needle pine....	.30	2.00
Pondersoa var. Jefferyii, seeds only		
Taxus Brevifolia, Western Yew, a lovely tree for moist shade; nice for the bog garden	.30	3.00
Pseudotsuga taxifolia, Douglas fir, 8 to 12 inches.....	.30	3.00
Libocedrus decurrens, Incense ced ar	.30	2.00
Picea Englemanii, good for moist soil	.30	3.00
Chamaecyparis Lawsonii, Port Or ford cedar, Lawson's cypress; a beautiful tree for moist soil; shade preferred	.50	4.00

NATIVE BULB PRICE LIST

Bulbs of all kinds are best planted in the fall. The small Liliacea can be supplied by Sept. 1 and the larger lilies by Oct. 15 or sooner.

LILIES

Lilium Washingtonianum, a very fine white to pink lily. There are many variations of this lovely lily and the most common is called Mt. Hood lily. We can sup ply this and the larger form call ed Washingtonianum Purpur eum. Give them very excellent drainage	.50	4.00
Smaller bulbs	.30	3.00
Lilium Washingtonianum minor, Shasta lily, similar to above but with smaller bulbs and slender stems. Price 30c, 50c to 75c each, according to size.....		3.00
Lilium Humboldti Mangnificum, a splendid yellow lily. Prefers well drained clay soil. Small bulbs, 25c, largs, 75c.....		6.00
Lilium Columbiana, a nice small yellow lily	.30	2.50
Lilium Pardalinum, orange lily for moist soil	.40	2.00
Lilium Rozeli, closely related to the latter, but really finer. Stem taller, leaves larger and darker color	.50	3.00

Each Doz.

Lilium Bolanderi, a small deep red
lily suitable for the rock gar-
den only75 5.00

Seeds—We strive to secure all the seeds
we can of these and other native lilies. Price
per pkt. 25c Prices on larger quantities.
on request.

BULBS FOR THE ROCK GARDEN

Dry soil in sun unless otherwise stated.
Allium Acuminatum, (6), deep red

	Doz.	Per 100
flower	.60	4.00
Allium Falcifolium, (3), large bright red	.75	5.00
Allium, (6), pure white flower....	.60	4.00
Allium, (8), delicate pink	.60	4.00
Brodiaea congesta, (16), blue flow- er	.60	4.00
Brodiaea coccinea, (14), the fire cracker flower	1.00	
Brodiaea Grnadiflora, (9), bright- est blue	.50	3.00
Brodiaea Lactea, (12), white with green stripe	.50	3.00
Brodiaea Laxa, large blue flower .50..		3.00
Brodiaea Ixoides, (6), yellow with purple stripe	.75	5.00
Camassia Esculenta, (12), light blue wild hyacinth	1.00	5.00
Camassia Leichtlini, (16), deep blue hyacinth	1.00	5.00
Camassia Leichterini alba, white hyacinth (3)	1.00	5.00
Calochortus Amabilis, deep yellow globe tulip	.50	3.50
Calochortus Lilacinus, very dainty one without hairs	.50	3.50
Calochortus Howelli, white with green hairs and black eyes.....		4.50
Calochortus Maweanus, Cat ears, pink with hairs	.50	3.50
Calochortus Mixed, many kinds....	.75	4.00

This year we have only seeds of the fol-
lowing: Per pkt., 25c.

Calochortus Albus, white Fairy Lantern	
Calochortus Catalinae	
Calochortus Desertii	
Calochortus Citrinum, yellow with black eye	
Calochortus Eldorado, pink to claret	
Calochortus Nitridus, white with indigo eye	

Calochortus Macrocarpus, a lovely flower,
white clouded with lavender and purple

with dark eye. Stems a foot or more high and bearing several blossoms four or five inches across.

Calochortus Vesta, similar to above but not so large.

Calochorti are the wild tulip of the West and are more varied and charming than the tulips of Holland. They will grow well under most any garden conditions and are excellently well adapted to the rock garden. Care should be taken to keep them from irrigation in late summer as they are naturally dormant at that time.

	Doz.	Per 100
<i>Erythronium Giganteum</i> , cream white with chocolate center.....	.50	3.50
<i>Erythronium Grandiflorum</i> ro-beusta, bright yellow	.60	4.00
<i>Erythronium Citrinum</i> , cream turning pink, lovely	.50	3.50
<i>Erythronium Johnsonii</i> , large pink, very fine	1.00	6.00
<i>Erythronium Hendersonii</i> , lavender with maroon center.....	.75	5.00
<i>Erythronium Klamathensis</i> , new variety similar to <i>Parviflorum</i> , light lemon with pink tips.....	1.00	6.00
<i>Erythronium Montanum</i> , rare white Alpine. Seeds only.....		

Erythroniums are very easy to naturalize in woodsy conditions and are good in the bulb bed or the rock garden. They are a charming little lily and often but erroneously called Dog Tooth Violet. Herberd Druand calls the spotted leaved varieties Trout lily and John Muir calls them Fawn lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.

<i>Fritillaria Recurva</i> or Red Mission Bell	1.00
<i>Fritillaria Lancelota</i> , Green lily.....	1.00
<i>Fritillaria Purdyii</i> , red, seed only..	
<i>Fritillaria, Pudica</i> yellow bell.....	1.00

Fritillarias are at home in the rock garden. All but *Lancelota* require well drained situation and it is good anywhere.

<i>Trillium Sessile Chloropetalum</i> , large white flower. Hardy but prefers shade	1.00	5.00
<i>Trillium Petiolatum</i> , <i>Rubrum</i> , opens deep red.....	1.00	
<i>Trillium Ovatum</i> , opens white and changes to wine. Many most beautiful shades in a clump at one time. Woodsy condition, acid soil and shade required. Large bulbs, 12c.	1.25	8.00

	Each	Doz.
Trillium Rivale, small and dainty. Whites pecked with maroon. This is good in the rock garden as well as the moist shade	1.00	7.50

ROCK PLANTS NOT NATIVE

Although most of my garden is Native things only a few lovely little foreigners have come creeping in and we had to welcome them with true Western hospitality. Among those we like best are:

Viola Alpina, a tiny dear with purple flowers and in bloom the whole season	.25	2.00
Sedum Anglicum, a cute little gray mat	.25	2.00
Sedum Acre, a mossy one with yellow flower	.25	2.00

Several others are on probation and maybe ready for recommendation next time.

PAEONIES

Eudalis Superba, early pink. Blooms about June 1	.50	
Festiva Maxima, one of the very finest white varieties we have ever seen	.75	
Madam de Verneville, not so pure white as the last but the dainty tints on the opening flowers seem to add beauty. Very free and long in bloom	.60	
Officinalis Rubra, earliest of all and a fine bright red	.75	
Single red, for fall delivery.....	.50	
Mixed, fine large roots, 40c, 3 for..		1.00

ROSES

Dorothy Perkins	15	Rugosa Rubra	15
Pink moss	15	Scotch sweet briar.....	15
White moss	15	American Beauty.....	25

PERENNIAL PLANTS

The overflow from my old-fashioned garden

	Each	Doz.
Aquilegia, long spurred hybrids in all light colors, mixed.....	.15	1.00
Aquilegia, short spurred and double in mixture	.15	1.00
Chinese Fern, a tall growing bi- ennial with fern-like foliage, last- ing for weeks in water; green throughout the whole winter with us	.10	.50
Creeping Charley, a good carpet- er in shade	.10	.50

	Each	Doz.
Linum Perenne, light blue flax.		
Very dainty	.15	1.00
Hemerocallis, a fine lily-like plant very hardy and sure to succeed under most any conditions. Call- ed Lemon lily or corn lily from the foliage.		
Flava, with clear lemon yellow blossom, 2 feet	.25	2.50
Fulva, bronzy red flower, stalks 3 to 4 feet	.15	1.50
Kwanso, double, same as last in color and size	.25	1.50
Michaelmas Daisy, tiny white, light blue, pink and purple.....	15	1.50
Feverfew, double white flower.....	.10	1.00
Perrenial Phlox, Miss Lingaard, large flowered early white.....	.15	1.50
R. P. Struthers, deep ping, red eye	.15	1.00
eye	.15	1.00
Tall white, late blooming, from my great grandmother's garden.....	.10	1.00
Mixed, many shades of pink.....	.10	1.50
Foxgloves, very many colors in mixture, small plants	.10	1.00
Sapnaria, the double lavender pink, spreads badly		
Solidago, tall Goldenrod	.10	1.00
Sweet Rocket, sweet scented early bloomer, tall, mixed	.10	1.00
Vinca, green Myrtle vine; fine for cutting and window boxes, but very bad to spread if grown in nice fertile soil	.10	1.00

BULBS

Montbretia, orange red. Bulbs in autumn	.10	1.00
Madonna lily, large bulbs in late summer	.35	2.50
Regale lily, blooming size; bulbs in autumn	.35	2.50
Daffodils, the large double mix- ed, early	.5	.50
Narcissus, many kinds in mixture	.5	.50

VINES

Matrimony vine, nice among oth- ers for the red berries	.15	1.00
Honeysuckle, white to yellow, sweet scented flower	.15	1.00

IRIS

Alpina, a dwarf, very nice for borders or rock garden, large deep blue self	.25	
Dozen	2.00	

	Each
Black Prince, dark	.25
Delicatissima, delicate lilac	.25
Fairy, white and lovely blue	.25
Kharput, S. violet, F. purple.....	.25
Lohengrin, Cattleya, rose pink.....	.20
Loreley, S. yellow, F. purple.....	.20
Her Majesty, rosy pink	.25
Moonstone, pale blue	.75
Monsignor, S. violet, F. purple.....	.35
Mad. Chereau, white with blue stitching on edge	.15
Queen Catrina, pale violet	.50
Kochii, deepest purple	.15
Sherwin Wright, fine yellow	.25
Sweet Orris, mixed colors	.15
Rhein Nix, S. white, F. blue.....	.15
Zua, while like frosted crepe.....	.50
Japanese, mixed for water margins.....	.25

MIXED IRIS BARGAINS

Once upon a time we moved our iris bed and staked each plant very carefully, but had not yet recorded them in the garden book. Just then two of the dearest little fairies came walking in our garden and gathered all of those nice stakes for their grandmother. Now we have sixty varieties of irises without names. We will send you 30 plants for \$5.00 or 65 plants for \$10.00, postpaid from this bed. We will also send 50 plants including some of the cheaper old varieties for \$5.00. No labels. Here are some of the ones that are lost in the mixture:

After Glow, Alcazar, Amas, Ambassadeur, Ambigue, Archiveque, Asia, Aurea, Azure, Ballerine, Bluet, B. Y. Morrison.

Candlebra, Caprice, Catrina, Chester J. Hunt, Celeste, Cluny, Crusader.

Dawn, Dominion.

Ed. Michel, Eldorado.

Iris King, Isolene.

Jacquesiana, Juanita.

Kochii.

La Neige, Lent A. Williamson, Lord of June.

Mad. Carriere, Ma Mie, Mad. Chobaut, Mrs. Alan Gray, Mt. Penn.

Navajo, Nina Wells, Nirvana.

Opera, Oriflamme.

Pallida Delmatica, Pocahontas, Princess Victoria Louise, Prosper Lauger.

Quaker Lady, Queen of May.

Shekinah, Souv. de Mme. Gaudichau.

Troost, Violacea Grandiflora, Wyomissing.

GLADIOLUS

	Each	Doz.
Aflame, giant flame colored.....	.50	4.00
Alice Tiplady, orange	.05	05.
Anna Eberius, purple	.05	.50
Black Pansy, very dark red	.05	.50
Giant Nymph, nice light pink.....	.05	.50
Gretchen Zang, very dainty pink..	.05	.50
Mrs. Bothin, loveliest ruffled pink....	.05	.50
Mrs. Hornberger, finest white.....	.20	2.00
Rose Ash, named for the color.....	.10	1.00
Tycko Zang, the wonder pink glad	.10	1.00
Myra, salmon	.05	.50
Virginia, one of the best reds.....	.05	.50
Mixed, many of the Kundred and Deinier varieties in the lot.....	.05	.50

I can supply almost any variety of Gladiolus in wholesale lots grown by others and can secure planting stock for you at very reasonable prices. Have offered me just now a lot of Mrs. Willard Richardson, an especially fine red. Anna Eberius, still one of the best purples; also Herada, Dr. Bennett, Virginia and the lovely Prince of Wales. Always good and plenty.

Address all orders to

CLARICE NYE

Prospect, Ore.
