Autumn Days

are **PLANTING DAYS**

When the heat of Summer begins to be tempered with cool, dewy nights, then we can start Fall planting in full swing. Evergreens claim first attention, then as the leaves of deciduous trees and shrubs ripen, the whole gamut of planting can progress. Often we can continue with plantings of trees, shrubs, perennials and bulbs up until Xmas.

Our 35 acres of nurseries are full of the good things you will desire for your garden and grounds. 50,000 *evergreens* to choose from, 75,000 *flowering shrubs and trees*, 10,000 *colorful berry-bearing shrubs*, with several acres devoted to those *old-fashioned hardy plants and bulbs* that mean perennial delight and pleasure in our gardens.

tion and advice, which
is freely given to all
our customers.***

Old-Fashioned English Box

Buxus suffruticosa

We are also headquarters for "BOXWOOD — Plant of the Ages."

This is the dwarf, slow-growing kind, used, primarily for edging garden paths, garden beds, terraces, and the like, and, in this strictly formal use, can be kept indefinitely within its prescribed domain with the slightest shearing.

	10	100
4 to 5".....	\$2.50	\$20.00

We also have large, well-developed specimens of Old English Box. Prices on application.

Common Box

Buxus sempervirens

This grows much faster than the Old-Fashioned English Box, and is, therefore, in demand for hedge purposes and to form a delightful background for gardens with its lustrous, dark green foliage. It is amenable to shearing and training into any definite form or shape for formal purposes.

Natural bush form:

Ball Shape, 18-20".....	7.50 each

True Tree Box

Buxus arborescens

The most rapid grower of the family, assuming tree-like proportions at maturity, and very beautiful indeed in its semi-pendulous, spreading habit of growth.

	Each
3 to 4'.....	\$6.00
4 to 5'.....	10.00

Japanese Box

Buxus latifolia

Distinct from the others in the fact that its foliage is of a much lighter green. Quite fast-growing, graceful habit of growth.
