PRICE LIST

Closing out list of Gladioli, Dahlias and Irises. Gladioli: L means $1\frac{3}{4}$ in. up, M, $\frac{3}{4}$ to 1 inch; S, $\frac{1}{2}$ down. Blooming size, any size that is sure to bloom, mostly 1 inch bulbs. Bulbets of any kind on list, and many kinds in my trial garden, are put up in 10 cent packets, and many run up to 100 or more, according to variety. Extra value will be given, as I must close out this season. I can't afford to hire help at the price I sell. 6 sold at price of 5 and 12 at price of 10. Everything prepaid. Orders under \$3.00, send 5c for insurance, if you wish them insured; orders under \$1.00, remit in unused 1c or 2c stamps. All bulbs semesan treated. B stands for Bill's origination, D for Diener, K for Kundered. Leave the high priced bulbs and bulblets alone. Ninety-nine out of 100 are not as good as the old kinds and they usually resemble some of the old kinds and before you can get a start of them they drop down so cheap you are sure to lose.
