To Our Dahlia Loving Friends and Customers:

In submitting this list of **“VARIETIES THAT DO WELL UNDER TRYING WEATHER CONDITIONS,”** we wish to state that careful observations were made the past season, which, owing to the extreme dryness, was considered a very unfavorable one to Dahlias.

However, the **Varieties Mentioned Herein Proved Their Worth** by rugged growth and normal bloom and in most instances a very high percentage of both roots and plants were entirely satisfactory.

Of the newer varieties that run **90% or Better**, we are pleased to mention Monmouth Champion (100%), Cardinals, Dorothy Stone, E. R. Wonder, Grace Ricords, June Justice, May Dearborn Schwab, Mother Machree, Mrs. A. B. Seal, Nova, Santa Barbara, Supreme Glory, and Thos. A. Edison. Not far behind these were Dr. Elias Bartley, Dr. John H. Carman, Evelyn Morris, Jean Trimbee, Katherine Cole, King Midas, Oriental Beauty and Watchung Wonder. About half of our plants of Chemar's Eureka did exceptionally well, the balance (green plants) were worthless, probably the fault of the propagating stock.

You Can Grow These Varieties To Your Complete Satisfaction if you will **Dig Deep, Cultivate Regularly** and **Keep Insects Under Control**, particularly the leaf hopper.

We use our best efforts to keep our stock absolutely healthy and free from disease by the destruction of “runts” and “stunts” and by discarding those that do not come true.

We take this means to thank our customers and friends for their valued patronage and
