Aquilegia (Columbine)

Rasmussen's Fruit Farm and Nurseries

OSHKOSH, WISCONSIN

1931

To Our Friends and Customers

WE PRESENT our 1931 catalog, a little book of good things to plant in your gardens. You will find as usual, a few newer and better varieties added, it being our policy to offer whatever we have found, after careful trials and observation, to be worthy of distribution.

We enjoy giving service and filling orders promptly, assuring you of good fresh stock, well packed to arrive in perfect condition. Only first class, live, healthy trees and plants are sent to our customers. Second grade, inferior goods are never offered for sale.

WE GUARANTEE all stock sold by us to be true-to-name, free from injurious diseases, and to reach you in good growing condition. If shipment arrives in an unsatisfactory condition notify us immediately and we will gladly make an adjustment. A certificate of inspection by State Department of Agriculture certifying our stock is clean, will accompany each shipment.

We further guarantee to replace, free of charge, any stock purchased from us at prices listed, that does not grow the first season, where plants have been properly planted and cared for, providing we are notified before September 1st, after planting.

SHIPPING—Small orders are usually shipped parcel post prepaid at catalog price, unless we are otherwise notified. Shrubs however, as well as trees and other large plants are shipped by express where possible. Better, stronger plants can be shipped this way and condition upon arrival is better. All orders are packed with plenty of damp moss to protect roots and no harm will result where plants cannot be planted immediately; in this case be sure to keep them moist and cool.

Visitors are welcome at all times at our nurseries. We are located on state trunk highway No. 21, only a short distance west of Oshkosh, on concrete road. Come and see us during the spring or summer when the roses, shrubs and perennials are in bloom. This gives you an opportunity to study and select the kinds of plants you want. You will find us ready at all times to help you with your planting problems, offering helpful suggestions wherever we can. That's what we're here for.

FRUIT TREES

Fruit trees of best size for planting, two and three years old, 5 to 7 feet, well branched and with good roots. Price of all fruit trees, unless otherwise stated -----\$1.00 each; \$10.00 per dozen.

If wanted in larger quantity, write for prices.

APPLES

EARLY—Early Harvest, Yellow Transparent, Red Astrachan, Duchess.

FALL—Dudley, McMahon, Wealthy, Wolf River.

WINTER—McIntosh Red, Fameuse (Snow), Northwestern Greening, Golden Russet, Salome, Jonathan, Tolman Sweet, Delicious, Winesap, Baldwin.

We especially recommend the McIntosh Red, a highly colored, fine flavored apple always commanding a top price.

CRABAPPLES

Whitney (early, pickling), Hyslop (late, jelly and pickling).

CHERRIES

SOUR—Early Richmond, English Morello, Montmorency.

SWEET—Governor Wood, May Duke.

PEARS

Bartlett, Clapp's Favorite, Flemish Beauty, Kieffer.

Price ----- \$1.25 each

PLUMS

HANSEN HYBRID—Very hardy; fruit first season.

Kahinta—Large, red skin, yellow flesh, sweet.

Sapa—Dark red, excellent fresh or preserved.

MINNESOTA HYBRID—New Minnesota plums, desirable for home and commercial planting. All are good sizes, highly colored, good quality and are perfectly hardy; come into bearing early.

Monitor—Dark red fruit. Very productive.

Tonka—Very sweet and juicy, bright red, stone small.

Underwood—Season early, fruit reddish yellow, very fine.

OTHER VARIETIES:

Abundance—Japanese. Red.

Burbank—Japanese. Large red.

Green Gage—European. Greenish-yellow.

Lombard—European. Purple; prolific yielder.

October Purple—European.

PROGRESSIVE —Fall-bearing	.35	.60	1.50	

DECIDUOUS TREES

Shade and Ornamental trees of first class growth; well-shaped, vigorous trees with good roots. They have been grown for lawn and street planting.

ASH, American White—Rapid growing, slender branches.

ELM, American—Grandest of all native trees for lawn planting.

MAPLE, Soft or Silver—Quick growing and largest of the Maples.

Prices of above trees:

8 to 10 ft. -----	\$1.50	2 inch stem -----	\$3.50
1½ inch stem -----	2.50	2½ inch stem -----	5.00

Write for prices of larger sizes

AILANTHUS, 'Tree of Heaven'—Rapid growing tree, large tropical appearing foliage.

5 to 6 ft. ----- \$1.50

ARALIA SPINOSA 'Devil's Walking Stick'—Has tropical appearance; long leaves, large clusters of small white flowers.

4 to 5 ft. ----- \$1.50

BIRCH

American White—Distinctive because of white bark.

5 to 6 ft. ----- \$1.00 6 to 8 ft. ----- \$1.75

We have larger size specimen trees, also clusters of 2 and more.

Cut-leaf Weeping—White bark and gracefully drooping branches, leaves deeply cut.

5 to 6 ft. ----- \$3.00

CATALPA

Bungei—Umbrella shaped top with large heart shaped leaves.

4 to 5 ft. ----- \$2.00

Speciosa—Large broad leaves, panicles of fragrant white flowers.

6 to 8 ft. ----- \$1.00

HAWTHORN, Native White—Small tree with clusters of white flowers followed by showy scarlet fruits.

----- \$1.50

LINDEN, 'Basswood'—Large heart shaped leaves of deep green.

8 to 10 ft. ----- \$2.00 1½ to 2 inch stem -- \$4.00

MOUNTAIN ASH—Very showy in late summer with clusters of bright red fruits following the white flowers.

8 to 10 ft. ----- \$2.00

MULBERRY

Russian—Bushy topped tree, fruitful.

5 to 6 ft. ----- \$1.00

Tea's Weeping—Long slender drooping branches ----- \$3.50

POPLAR—Narrow tapering trees, desirable for screen and back-ground planting.

Bolleana—Rapid growing, columnar tree with silvery foliage.
8 to 10 ft. -----\$1.25

Lombardy—Pyramidal growth; low branched trees.
8 to 10 ft. -----\$1.25

WILLOW—Rapid growers; very hardy.

Golden—Golden yellow bark. 8 to 10 ft. -----\$1.25

Wisconsin Weeping—Spreading limbs and pendulous branches.
8 to 10 ft. -----\$1.25

EVERGREENS

Evergreens lend an elegance, richness and beauty when planted in the intimacy of the home grounds that deciduous trees do not give. All the year round they give life and beauty to your garden picture; and a touch to the surroundings that will be a pride and joy with the passing years. We have a choice selection of evergreens suited to every purpose. Write for prices as to sizes and varieties.

ARBOR VITAE (Thuja).

American (T. occidentalis)—Very hardy and dependable; bushy at bottom, tapering toward top; foliage deep green, soft and flexible.

Pyramidal (T. occ. pyramidalis)—Narrow columnar shape; foliage dense, bright green the year around.

Woodwards Globe (T. occ. woodwardi)—Compact globe form; deep green.

FIR (Pseudotsuga)

Douglas—Foliage dark bluish-green. Desirable as a specimen.

HEMLOCK—(Tsuga)

Canadian (T. canadensis)—Conical form; dark green color; very dense. Long slender graceful drooping branches.

JUNIPER (Juniperus)

Pfizers (J. pfizeriana)—Bushy in habit, gray-green foliage; hardy.

Prostrate (J. communis depressa)—Spreading habit; light green foliage.

JUNIPER (Continued)

Virginiana 'Red Cedar'—Sheared, dense column of deep green; purplish in winter.

LARCH (*Larix*)

European (*L. europa*)—A deciduous tree shedding its needles in fall. Beautiful new growth in early spring; soft needles, small cones. Attractive yellow in autumn.

PINE (*Pinus*)

Austrian (*P. nigra*)—Vigorous dense grower with rich dark green foliage.

Mugho (*P. mughus*)—Round topped, dwarf grower, deep green.

Scotch (*P. sylvestris*)—Rapid grower, very hardy; picturesque.

White (*P. strobus*)—Largest conifer; rapid grower, very hardy.

SPRUCE (*Picea*)

Black Hill (*P. canadensis albertina*)—Hardest of all Spruces; symmetrical, compact and bushy in growth. Excellent for specimen or groups.

Norway (*P. excelsa*) — Rapid growing and very hardy; dark green foliage.

White (*P. canadensis*)—Light green color and a shapely tree of close texture; very hardy.

WINDBREAK PLANTINGS

There is a great comfort and protection in the use of evergreens for windbreaks and barriers. The protection, where drifting snow must be overcome, of the farm buildings, the garden and the orchard is important. A small shelter belt on the homegrounds will so protect and too break the severe winds. Such plantings also add beauty to the home landscape.

The value of evergreen shelter belts to the farm has long been recognized. The evergreens commonly and advantageously used for these purposes are White and Norway Spruce, White and Scotch Pine. Write for prices on these in seedling and transplanted sizes.

ORNAMENTAL SHRUBS

Each

ALMOND, Flowering —Dwarf shrub covered with double pink roselike flowers in early spring -----	\$0.50, \$0.75
BUTTERFLYBUSH, 'Summer Lilac' —Medium height shrub with spikes of lilac colored flowers from August to frost -----	.50
CRAB, Flowering —Small ornamental trees.	
Bechtel's—Fragrant double rose-pink flowers in May--	1.50
Hopa—Dark reddish bark and foliage, red blossoms --	1.50
DEUTZIA —Low growing shrub; clusters of small pinkish-white flowers in early spring -----	.50
DOGWOOD —Desired because of attractive winter color effect.	
Red—Red bark, white flowers, blue fruits -----	.50
Yellow—Distinct yellow bark, creamy white flowers --	.50
ELDER —Tall growing shrubs with large flat heads of fragrant white flowers in spring followed by large clusters of fruits.	
American—Common -----	.35
Cut-leaf—Finely cut fernlike foliage -----	.50
Golden—Foliage a golden yellow -----	.60
Redberried—Fruits bright red -----	.60
EUONYMUS ALATUS, 'Burningbush' — Branches corky; attractive brilliant red foliage and berries in fall--	.75
FORSYTHIA —Bright golden yellow flowers in early spring before leaves appear -----	.50
HYDRANGEA	
Arborescens Grandiflora, 'Hills of Snow' —Snowball-like blooms -----	\$0.50, \$1.00
Paniculata Grandiflora — Large showy panicles of creamy-white turning to pink -----	\$0.50, 1.00
Paniculata Grandiflora —Tree form -----	1.25
LILACS	
French —Many named varieties. Write for names and descriptions -----	\$0.75, 1.50
Japanese —Tree, white blooms, later than other lilacs--	1.25
Persian —Purple. White -----	.50
Purple —Common -----	.50
White —Common -----	.50

	Each
PEARLBUSH — Myriads of pearl-like buds opening into fragrant pure white starry flowers in late May ----	.75
PHILADELPHUS, 'Mockorange' — Tall growing shrub, fragrant white flowers in May and June.	
Boquet Blanc —Double flowering; very fragrant -----	1.00
Coronarius —Common -----	.50
Grandiflora —Large flowering -----	1.00
Virginal —Semi-double; most fragrant of all -----	1.00
PLUM, Flowering.	
Double flowering —Large double pink rose-like flowers; early -----	1.00
Purple-leaved —Purplish red foliage throughout season making bright contrast with other foliage -----	1.00
QUINCE, Japanese — Medium height shrub with large bright scarlet flowers in May -----	.60
SNOWBERRY —Medium height shrub with clusters of white berries in early fall that hang on all winter--	.50
SPIREAS	
Anthony Waterer —Hardy dwarf shrub with flat clusters of reddish flowers in July and August -----	.50
Arguta, 'Garland Spirea' —Very early; white flowers --	.50
Billiardi —Upright grower of medium height. Plume- like spikes of rose-pink flowers in mid-summer --	.50
Bumalda —Semi-dwarf grower; flat clusters of reddish flowers in mid-summer -----	.50
Prunifolia, 'True Bridal Wreath' —Earliest to bloom; small double white clustered flowers -----	.75
Sorbifolia, 'False Spirea' — Leaves out very early in spring; foliage attractive; fluffy heads of white flowers -----	.50
VanHoutte —Commonly called Bridal Wreath. Graceful arching branches completely covered with white flowers in May to June -----	\$0.35 to 1.00
SUMAC	
Cut-leaf — Fernlike foliage turning orange in fall. Flowers followed by red fruits -----	.50
Staghorn, 'Native Sumac' —Flowers in June and July in dense terminal panicles, followed by impressive red fruits. Foliage turns red in fall -----	.50
TAMARIX —Graceful shrub with feathery silver-green foliage and long slender racemes of pink flowers. Useful for bouquets -----	.50

VIBURNUMS

Lantana, 'Wayfaring Tree' — Deep green foliage; clusters of large white flowers in May. Bright red fruits turning to black -----	.75
Lentago, 'Nannyberry' —Shining green leaves; fragrant creamy white flowers followed by blue-black fruits	.75
Opulus, 'Highbush Cranberry' —Dense brilliant green foliage; single white flowers followed by scarlet fruits	.60
Plicatum, 'Japanese Snowball' — Deep green foliage; free from insects and diseases. Large globular flowers. -----	1.00

WEIGELIA

Eva Rathke —Medium growing; dark red flowers in late spring -----	.75
Rosea —Similar to above but with rose-pink flowers --	.50

We have many shrubs not listed above including Ilex, Privets, Coralberry, Honeysuckles, etc. We can furnish Bridal Wreath, Hydrangeas, Lilacs and other large specimens for immediate effect, balled and burlapped. If shrubs are wanted in quantity, write for prices. Tell us your wants, we shall be glad to help you.

HEDGING

We have hedge plants from 12 inches to 4 feet in size. Write for prices as to sizes and quantity. We can furnish large plants to fill in your hedge.

BARBERRY THUNBERGI—An all-purpose shrub useful for hedges and in shrubbery group plantings. Foliage turns orange and scarlet in fall; red berries in fall and winter.

BUCKTHORN—Dense growing bush with dark green foliage; a good, prunable hedge. Habit of growth makes this an impassable, protective hedge.

COTONEASTER—Very hardy; dark green foliage; black fruits. In the garden this makes a very effective background for flower plantings.

HONEYSUCKLE, Tatarian—Pink, Red, White. Tall fast growing bush for specimen or hedge. Red berries follow flowers. The Pink is the more generally used for hedge purpose.

PRIVET, Amurense—Hardy hedge shrub. White flowers in early summer. Best for low, trimmed hedge.

VINES

Dutchman's Pipe

A very rapid grower, unusually large dense foliage. Perfectly hardy, needs no winter protection. Above cut 2 years from planting.

DUTCHMAN'S PIPE —See illustration -----	Each \$1.00
AMPELOPSIS ENGELMANNI, 'English Ivy' —Climber for covering walls, clings to brick or stone. Foliage deep green turning to crimson and yellow in fall --	.50
BIGNONIA RADICANS, 'Trumpet Vine' —Large trumpet shaped bright red flowers in July and August --	.75
BITTERSWEET —Native twining vine with glossy foliage; clusters of orange-crimson fruits in fall; useful for winter house decoration -----	.75
CLEMATIS	
Jackmani —Large purple flowers -----	1.00
Madame Andre —Large red flowers -----	1.00
Paniculata —Vigorous hardy climber; flowers small, white and fragrant in late summer -----	.75
HONEYSUCKLE	
Scarlet Trumpet —Clusters of scarlet trumpet-shaped flowers in spring and fall; bright red berries following the flowers. -----	.50
Yellownet Japanese — Golden netted leaves; creamy white flowers -----	.75
WOODBINE — Rapid grower for covering trellises and arbors; leaves deeply cut and turn to crimson in fall. Best all purpose Ivy -----	.35

ROSES

HYBRID PERPETUALS

	Each
Clio—Pink -----	\$0.75
Frau Karl Druschki—White -----	.75
Gen. Jacqueminot—Red -----	.75
J. B. Clark—Red -----	.75
Mrs. John Laing—Deep rose-pink -----	.75
Oshkosh Beauty—Pink -----	.75
Paul Neyron—Pink -----	.75
Ulrich Brunner—Crimson -----	.75

GARDEN VARIETIES

Austrian Copper—Single, intense copper-red -----	1.00
Dr. E. M. Mills—Hardy with attractive autumn foliage -----	1.00
Gruss an Aachen—Salmon pink -----	.75
Gruss an Teplitz—Scarlet crimson -----	.75
Harrison Yellow—Single bright yellow, early -----	.75
Hugonis—Shrub rose with small yellow flowers; attractive foliage -----	1.00
Madame Plantier—Pure white -----	.75
Persian Yellow—Double golden yellow -----	.75
Rubiginosa, 'Sweet Briar'—Shrub rose; orange-red fruits -----	1.00
Rubrifolia—Foliage red; single pink flower -----	1.00

CLIMBERS and RAMBLERS

Crimson Rambler -----	.50
Dorothy Perkins—Pink -----	.50
Excelsa—Dark red -----	.50
Dr. Van Fleet—Very good pink -----	.75
Setigera, 'Prairie Rose'—Single pink; useful for massing or border as well as a trellis or fence climber -----	.75
Tausendschon, 'Thousand Beauties'—Bright pink --	.75

RUGOSA ROSES

Hardest of all roses, require no winter protection. Bloom most of the season. Foliage attractive; useful for specimen, hedge or shrub group planting.

Belle Poitevine—Bright pink; semi-dwarf -----	1.00
Blanc Dbl. de Coubert—Double white -----	1.00
Conrad F. Meyer—Silvery pink -----	1.00
F. J. Grootendorst—Dwarf growing; profuse bloomer; clusters of small double bright red flowers -----	1.00
Hansa—Double red -----	1.00
New Century—Large, double pink -----	1.00
Single Rugosas—Red, Pink, White -----	.75

DELPHINIUM—'Perennial Larkspur'

The Delphinium, or Larkspur, though one of the oldest of garden flowers is becoming more popular every day. During recent years the introduction of wonderful new varieties in a wide range of colors and with a continuance of bloom from June until frost, has increased the garden usefulness of this flower. We suggest that you visit the gardens and make your selections while the plants are in bloom. Delphiniums are early cultivated; are attractive in the garden and very desirable as cut flowers. We have for several seasons made a specialty of growing choice kinds and sell only strong field grown plants.

BELLADONNA —Turquoise blue, very free bloomer -----	Each
BELLAMOSA —Dark blue, all summer -----	\$0.25
CHINESE GRANDIFLORUM —Foliage finely cut; plants dwarf, adapted to borders and rock gardens; blue, and white -----	.25
SUMMER CLOUD —White -----	.25
HYBRIDS —Lemoine's Double, Wrexham, Kelway Show, Blackmore and Langdon strains. Unusually wide color range from light blue to purple and in various color combinations; double and semi-double flowers.	.35
Special select -----	\$1.00
Assorted -----	\$0.50

HARDY PERENNIALS AND ALPINE PLANTS

Perennial plantings so planned that the owner may have blossoms from early spring until late fall are a source of much enjoyment and satisfaction. We shall be glad to help you plan a planting of this kind; whether large or small it can well include many of your 'favorites'.

* Suited to Rock Gardens.

*ACHILLEA, The Pearl—White, June-July -----	Each \$0.25
*ALYSSUM—Low habit of growth; masses of bright yellow flowers -----	.25
BLEEDING HEART—Old fashioned -----	.75
*Eximia—Fern leaved, everblooming -----	.50
CANTERBURY BELLS—Double and single; separate colors -----	.25
CHRYSANTHEMUM—Hardy garden, various colors ----	.25
*COLUMBINE—See cover illustration	
Farquhar's Pink—Pink in various shades -----	.35
Longspurred Blue—Various shades -----	.25
Longspurred Hybrids—Mrs. Scott Elliot strain, all colors -----	.25

OFFICINALIS RUBRA —Early, dark red -----	\$1.00
FELIX CROUSSE —Late, dark red -----	1.00
L'ESPERENCE —Early, pink -----	.50
MADAME DUCEL —Late, pink -----	.75
FESTIVA MAXIMA —Early, white -----	1.00
COURONNE D'OR —Late, white -----	.75
Good Red, Pink or White, our selection -----	.50

ROCK GARDENS

Rock Gardens are being used more and more in beautifying the home grounds. There is a unique fascination in this type of gardening. Its adaptations vary from a sylvan nook to an unshaded back garden, and in area may be but a few square feet to acres in extent and may or may not include the use of water. The most attractive rock gardens are those which have been made to resemble nature in design.

The dwarf plants, the trailers and the ground covers are at home in these gardens, and the taller varieties fit into the picture as a background in harmony with the lower edgings.

We have a complete assortment of plants and bulbs for this type of gardening and shall be glad to help you build your Rock Garden.

BULBS FOR FALL PLANTINGS

The spring flowering bulbs give us our first flowers for the house and garden. Tulips, Hyacinths, Narcissus and others may be planted in the perennial border or in the shrub border and will give a cheerful spot of color in the early spring ere the shrubs and trees have leaved out.

We have a complete assortment of the bulbs in the early fall and shall be glad to send you list. Bulb plantings where followed by annual flowering plants will permit of a longer flower cutting season than will a planting composed of perennials.

GERMAN IRIS

Easily grown, multiplies rapidly, perfectly hardy.

LOHENGRIN—Lavender pink -----	\$0.25
MADAME CHEREAU—White, penciled with lavender ---	.25
MAY QUEEN—Rose -----	.25
MONSIGNOR—Purple -----	.25
MRS. HORACE DARWIN—Pure white -----	.30

LANDSCAPE SERVICE

EVERY home has a landscape problem to be solved. A very important part of our work is to assist, in a friendly personal way, to solve each individual problem.

We are eager to offer helpful suggestions to anyone interested in improving their home grounds. Feel free to call on us, whether you may need only a shrub or flower, or a complete planting of your property.

Should your grounds require extensive planting, you may be interested to know that we are prepared to assume the entire responsibility of designing a plan and executing the necessary operations involved in completing the landscape, and we are confident that we can produce results that will please you.
