"HERALDS of the SPRING"

Charming Large Flowered CROCUSES

Especially if you wish for some life and color in the garden very early in Spring the Crocuses are strongly recommended.

The finding of the first Crocus in bloom, heralding Spring, is one of the genuine delights of life. A garden without Crocuses is hardly imaginable especially when you see for how little money we can supply you with a great number of bulbs.

The Crocuses we offer here are in the various colors they come of, heavy quality and all large flowered.

SPRING FLOWERING BULBS

At Very Attractive Prices

WINTER-ACONITE (*Eranthis hyemalis*)

Flower exceptionally early, seem never to mind the worst of weather conditions. If the bulbs are not planted more than 6 inches apart, the wreath shaped green leaves above which the butter yellow flowers lift themselves, create a green yellow flower carpet. Especially recommended for beds, plots and borders.

Heavy quality—60c. per 25, \$2.00 per 100

Grape-hyacinths

Galanthus

Scilla sibirica

Scilla campanulata

Ixias

Varieties of Spring Flowering Bulbs—Continued

Charming SCILLA SIBIRICA (Blue Squill)

The small bunches of bright blue flowers surrounded by the narrow leaves bring much variation and cheer early in Spring. They are most pretty and attractive in the garden in plot, small borders and beds.

Heavy quality—50c. per 25, \$1.75 per 100

Popular GRAPE-HYACINTHS (Muscari Blue)

Who does not know and love these Blue Grapes? These delicate little Spring flowers with their dainty blue, bell-shaped flowers close together on top of the stem continue a long time in bloom. Massed in flower border, as edgings, etc. they are most charming.

Heavy quality—50c. per 25, \$1.75 per 100

Favorite SNOWDROPS (*Galanthus nivalis*)

It will not be difficult to find a place in your garden for these lovely little flowers. They are satisfied with any nook or corner and when left alone reappear every year in larger numbers.

Heavy quality—70c. per 25, \$2.40 per 100

Robust SCILLA CAMPANULATA (Wood-hyacinth)

They produce on strong stems a large number of elegant flowers resembling Hyacinths. Thrive even on the most shady spots, therefore a bare, shady place or odd corner can now be made bright and cheerful.

Heavy quality—60c. per 25, \$2.00 per 100

Striking CHIONODOXA (Glory-of-the-snow)

They grow about 6 inches high and produce sky blue flowers with little white hearts. These two colors combined make them uncommonly beautiful, striking and bright. A mass planting forms one of the most striking display of floral beauty early in Spring. Plant about 18 bulbs to a square foot.

Heavy quality—50c. per 25, \$1.75 per 100

Rarely Refined IXIAS

Ixias display their refined beauty in June in the garden. Very thin, though robust stems, bear small bouquets of many flower cups in the most beautiful colors and shades; brilliant or straw yellow, with orange or purple heart, purple red, orange and delicate pink. They are very nice in groups, beds and borders and do extremely well for cut flowers, their stems being 12 to 18 inches long. A mixture of colors is supplied in:

Heavy quality—50c. per 25, \$1.75 per 100

ROCKERY BULBS and PLANTS

EARLY Spring Flowering BULBS for ROCKERIES

One of the requirements of a well-planned rock garden is that the flowers continually succeed each other, but also that the "Rocks" shake off their Winter bareness as early as possible. To attain this end the early flowering bulbs are indispensable. For your convenience we have here composed a list of bulbs suitable for your rock garden, that will bring color, brightness and beauty for many weeks at a stretch there, where otherwise would be only bareness. No rock garden enthusiast can pass this offer up.

Cheery FLOWERS for CHRISTMAS and WINTER

THERE is no festal day in the year when flowers seem more warmly colored, more sweetly scented and more beautiful, than at Yuletide. Just as the Christmas tree and the Holly are symbolic of Christmas, so the new awakened flowers are an indispensable part. Yes, flowers brought into glory by your own efforts. No professional skill is necessary to do this with success, as we have selected the suitable bulbs for you and the cultural directions we send with each shipment are easy to follow. The varieties offered are now stored in our warehouse, awaiting the opportunity to fulfill their beautiful task for you this coming Christmas.

Beloved CHRISTMAS HYACINTHS

The Hyacinths to be brought into flower at Christmas have been specially treated for early development. They grow very easily in pots, boxes or jardinières. Prime bulbs and complete success are fully guaranteed. You will enjoy their fragrant flowers of bright colors for several weeks and just see for how little money.

Delightfully Fragrant CHRISTMAS NARCISSUS

There is no simpler, cheaper and more interesting cultivation than the bringing into flower of the well known Paperwhite and Yellow Paperwhite Narcissus. They simply grow in dishes or bowls filled with pebbles and water. Planted at the end of November they flower already at Christmas. The later in the season planted, the quicker they come into flower. Keep a supply of bulbs on hand, plant some of them every 14 days and you have sweet scented flowers in the home during the whole Winter.

Gay WINTER FLOWERS for the HOME

The cultivation of flowers in continuation of those for Christmas has much joy and many happy surprises for you in store. The varieties of bulbs that can be brought to bloom during January, February and March, are so many that at no time will your home have to miss the cheerfulness and diversity of lovely flowers. The bulbs we offer here for successive indoor flowering are all easily brought to bloom in pots, pans, baskets or boxes. The Single and Double Early Tulips and Darwins are offered in colors. You can choose exactly the colors which you think will best suit the surroundings.

For indoor cultivation, we supply only "Motherbulbs."

Narcissus—Easy to Grow

STASSEN

Long Stemmed **DARWIN** **TULIPS** in Elite Varieties

Considering their unsurpassed beauty, really much too cheap.

No wonder that Darwin Tulips have attained such popularity by the flower loving public, for indeed, they have reached the highest perfection which a Tulip flower can attain. They have everything in their favor—long, straight, robust stems, large cups of flowers and particularly pleasing colors. Next May you can make your garden look like a million dollars at very little expense to you. It hardly seems possible that we can sell the below mentioned elite varieties at such low prices. In fact, they are below the cost of cultivation. This situation cannot last for another year; therefore, take advantage of it now.

Robust **DARWIN TULIPS** in Separate Colors FOR BEDS AND BORDERS

**100
FOR
\$2.30**

This special offer is made for those of our customers who are of the opinion that a bed or border planted with Darwins will run in too much money, or for those who are not particularly interested in

or familiar with the named varieties of Darwins. How can we offer them so extremely reasonable? Are they of inferior quality? Certainly NOT. Darwins in separate colors are advantageous, because we are not bound to a particular variety, but only to a color, and in this way we can best clear off our largest stocks.

Now, with this special offer before you, you can afford to have that otherwise always-bare-looking-in-spring-bed or border change this Spring, into an exhibit of great beauty.

HYACINTHS

EVERYONE, without exception, has again the opportunity to cultivate a number of those glorious, fragrant flowers in the home during the Winter and in the garden when Spring comes again. Last year we offered the Hyacinths at much reduced prices. This year we are again in a position to reduce the price considerably. Enjoy once more to the full their noble beauty.

Hyacinths may be put to several uses. We suggest:

For Growing Indoors—When grown for exhibition, plant bulbs singly in 5 inch pots and use our **Exhibition Size**. For more decorative purposes, plant three, four, or more bulbs in pans, boxes or baskets and use our **First Size** bulbs.

For Growing in Glasses—It's fascinating to watch the development of roots, the sprouting of leaves and bursting of the beautiful flower spike from the very beginning. Use our **Exhibition Size** and only the varieties indicated with "Hg" of the list following.

For Growing in Window Boxes—Ever thought of planting Hyacinths in outside window boxes? Do it this year. You should not miss the wonderful aspect the boxes filled with colorful Hyacinths gives your home, and that so early in April. They will have done their beautiful task by the time the boxes are to be fixed for summer flowering plants. Use our **First Size** and only one variety of bulbs for each box.

For Growing in the Garden—When very large compact flowers in special varieties are desired in the garden, use our **First Size**.

Cheaper, ordinary garden Hyacinths in separate colors are offered below on this page.

We offer the 12 special selected varieties of Hyacinths as follows:

Stassen EARLY FLOWERING TULIPS

SINGLE EARLY TULIPS

in

Elite Varieties . . .

The Early Flowering Tulips are generally known and have been in favor all over the world for many years. The discarding of the Early Tulips in many gardens a few years back has been a mistake. They belong in every well planned garden, blooming at a time when color in your garden is so badly needed. Due to their early flowering, they last several weeks longer than any other type of Tulips. The practical thing about them is that they are gone by the time you need the space for other bedding plants. Especially for bedding purposes, we recommend the following varieties very strongly:

The first of all Tulips to open their "eyes" on a new budding Spring—

Extremely Beautiful COTTAGE TULIPS

Mayflowering

A Little Sister of the Darwins

Here we have the little sister of the Darwins, who has not yet gained such popularity as the Darwin, but her beauty and elegance is in no way inferior. The stems are also very tall, slender but strong. Due to the totally different shape of their flower, they occupy their own particular position amongst the Tulips. They bloom just when the Darwins start to fade.

The 10 most beautiful varieties are:	12	100
Bouton d'Or. Gold yellow with black stamens, beautifully shaped.....	\$0.55	\$3.70
Fairy Queen. Purple brown with heliotrope, bronze yellow edges, inside bronze. Extremely interesting.....	.50	3.50

Lily Flowered Tulip

Graceful LILY-FLOWERED TULIPS

The Lily-flowered Tulips have gradually been gained from other Tulip species and differ in shape and stature from all other Tulips. The pointed petals are elegantly bent outwards which gives the flower the appearance of Lilies. Of late, they have become very popular in American gardens. As cut flowers they are of unequalled elegance and beauty.

NEW BREEDER TULIPS

The Real Aristocrats in the Tulip World

This breed is not new any more, but the introduction of exquisite varieties, and the modern urge for unusual colors are making this fine breed the very center of popularity. They flower at about the same time as the Darwins do. Their gigantic-sized flowers are borne on unusual, strong, tall stems.

Louis XIV. Dark purple, with broad, gold brown border. Enormous flower. One of the best Breeders.....	\$0.55	\$3.70

NARCISSUS

Daffodils

NARCISSUS exist only in white and yellow shades, which gives them quite a place of their own in the flower world. Blooming from March into the middle of May, they make the garden beautiful and gay. Daffodils are surprisingly strong in growing and flowering. They develop into massive plants and every plant nobly shaped and beautiful flowers on robust stems. They agree with every soil, need not be protected against frost, which makes the cultivation very easy and simple.

Bargain-Priced NARCISSUS to Grow Wild

Very early in the Spring when there is not a leaf on trees and shrubs and everything looks desolate and bare, then these Narcissus flowers come to bring new life with their yellow and white colors. Under hedges, trees and shrubs, in weeds and lawns, on dry and damp soil anywhere and everywhere these Daffodils can be planted and will always grow and flower profusely. You will not enjoy their Spring beauty for one year only, but for many years in succession. Leave them alone and they will continue to thrive indefinitely. Whatever you do, don't take your quantity too small, for besides being cheap, they are so beautiful that you will always wish you had planted more.

Bargain Priced **HARDY BULBS** for **NATURALIZING**

How often have you wished that Nature was as generous in your garden as it was in some places you saw, somewhere out in the country, its splendor displaying with irregular masses of flowers in all imaginable colors. Nature is kind and generous, also in your garden. All it needs is a helping hand, a liberal giving hand and Nature will do its task for years and years with ever increasing splendor.

The opportunity is given here now to plant hardy bulbs for naturalizing generously, because the cost of it is really next to nothing. No reason now for having bare, desertlike places around your home. By planting this Fall, the otherwise gloomy corners and spots will be bright and cheerful next Spring and for many Springs to come. All the varieties for naturalizing offered below and described in preceding pages can be planted in your garden, lawn, woods, etc.—*everywhere*.

The bulbs offered are somewhat smaller in size than the heavy quality offered before, but they are fully guaranteed to flower 100 per cent.

Dutch Iris

NEW DUTCH IRIS

This group of bulbous Iris is of recent origin and has won international recognition already in only the few years they exist. The "Orchid"-like flowers are most valuable for cutting yet they certainly are not to be despised for beds, groups, and borders as they look lovely in all surroundings. In substance, brilliancy and purity of color they are superior to the old Spanish Iris. The following 5 varieties we can recommend as the most beautiful in Iris.
