Vegetable Plants

Nearly all vegetables will do better if planted in different ground each year. For instance, plant your onions where you had lettuce last year, and beets where you had beans, etc. Cabbage should be planted in a different place each year to avoid clubroot.

BROCCOLI—Something like Cauliflower but grows out green and spragley. When first head is cut out it will grow out again. Price 20 cents per dozen.

CABBAGE PLANTS—We grow only proven varieties and if you are not familiar with the different kinds tell us whether you want it for fall use or to keep for winter and we will send you a kind adapted to your needs. We have Early Jersey Wakefield, Copenhagen Market, and Golden Acre for early. Enkhuizen Glory, Sure Head, All Season for all around cabbage and for winter keeping we have the Penn State a new variety developed probably from the Dannish Ball and a better yielder and keeper. This recommended by Pennsylvania State College. Then we have the short stemmed Dannish Ball and Premum Flat Dutch, also Savoy and Mammoth Rock Red, these latter winter varieties.

Prices on all but Penn State and Golden Acre as follows: Early plants 10 cents a dozen or 75 cents a 100. Field Grown Plants ready about June first, 10 cents a dozen, or 50 cents per 100. Prices on Penn State and Golden Acre, 10 cents per 100 more than above.

CAULIFLOWER—Snowball and Danish Perfection. Snowball is the earliest and Danish Perfection has more leaves, which make the heads grow whiter. 20 cents per dozen, \$1.25 per 100.

CELERY—Golden Self Blanching, old strain with short heavy hearts and the new strain with taller stalks and earlier, but probably not quite so good a keeper. French Success, White Plume and Giant Pascal which is a large winter celery. This latter variety is an improved strain and much easier to blanch than the old Giant Pascal. Nice plants 10 cents a dozen or 75 cents a 100, transplanted plants 20 cents a dozen or \$1.25 a 100.

EGG PLANT—Black beauty is the largest, but Extra Early Dwarf Purple is earlier and you are more sure of a crop. 25 cents per dozen.

PEPPER PLANTS—Harris' Earliest is an extra early round pepper, good size and good bearer. Sweet Mountain, Neapolitan and Harris' Early Giant are sweet, good bearers and early. Bull Nose is a round pepper of good size and sharp. Giant Cayenne is very sharp. Harris' Early Giant is a new extra large and very early pepper. 25 cents per dozen, or \$1.50 per 100.

RED BEETS—Early Wonder, Eclipse, and Crosby's Egyptian are the best early round, Dark Red Beets that you can get. Early plants, 10 cents per dozen, 60 cents per 100. About June 1st, 20 for 10 cents, 100 for 40 cents, 300 for \$1.00, or \$3.00 for 1,000.

KOHL RABI—Same price as cabbage.

RUTA BAGAS—Same price as cabbage.

TOMATO PLANTS—Earliana, Bonney Best, John Baer, and Golden Queen (a yellow tomato) and Ponderosa. We have found the Bonny Best and John Baer to be the best all around tomatoes. They are almost as early as the Earliana, nicer tomatoes and better yielders. Nice plants, 15 cents per dozen, or \$1.00 per 100. Extra large, transplanted plants, 25 cents per dozen, or \$1.75 per 100. Potted plants, 50 cents to \$1.00 per dozen, at the house, as they are too large to mail.

RHUBARB—The large, early kind; large roots, 10 cents each, or \$1.00 per dozen.

PEPPERMINT—10 cents each, or \$1.00 per dozen. Extra large plants 25 cents each.

Flowers

Flowers are divided into two classes, Annuals and Perennials. Annuals must be planted every year from seed, while Perennials, the same plant comes up every year. Some of the best Annuals for cut flowers are: ASTERS, CALENDULAS, CARNATIONS, CALLIOPSIS, BACHELOR BUTTONS, COSMOS, GYPSOPHILIA, LARKSPUR, NICOTINA, PANSIES, SCABIOSA, PHLOX, SWEET PEAS, SNAPDRAGONS, STOCKS, VERBENAS, and ZINNIAS.
