PRICE LIST

TERMS AND CONDITIONS OF SALE

Packing

These prices include *free packing*.

Delivery

These prices include *free delivery* to such places as can be reached without unreasonable expense.

Guarantee

We guarantee to replace, free of charge, all plants which fail to grow, providing they have been given proper care, payment has been made when due, and notification of such failures is made before September 1 following delivery. *Planting of such replacements will be additional.*

Planting

These prices *do not* include planting but arrangement for planting can be made at a reasonable cost.

Terms

A discount of 2% will be made if paid within ten days from date of invoice; thirty days net.

Prices

Five of a kind at tens rate, fifty at hundreds rate.

Tens rate will be allowed on orders over \$100.00.

Hundreds rate will be allowed on orders over \$400.00.

We try to furnish the maximum in service and quality. Some nurseries do not include free delivery, guarantee, etc., and may quote lower prices for this reason. We will be pleased to quote discounts without such special service. In comparing prices, both nurseries should be asked to quote on the same terms. On the same conditions of service and quality, we welcome comparison of prices.

Landscape Service

We specialize in landscape work and are prepared to furnish plans and specifications alone, or will prepare plans, furnish material, and carry out the work in full, as desired.

Location

Located on Federal Highway 16, $\frac{1}{4}$ mile east of State Highway 83, 23 miles west of Milwaukee at the west limits of Hartland. Can also be reached by Milwaukee-Oconomowoc bus line and the C., M., St. P. & P. Railroad.

TREES

The diameter (or caliper) "c" of all trees is measured six inches above the ground.

EVERGREENS

These prices include digging and delivering evergreens with ball of earth. This adds greatly to the expense, both in digging and delivery, but is well worth the added cost. Sizes are given as height in feet, unless otherwise noted.

PERENNIALS

Perennials have increased greatly in popularity and in attempting to keep up with the demand, we have added new varieties to our list as fast as we have found them adaptable to Wisconsin conditions. We have grown increasingly large quantities until we now grow many thousands each year.

The plants quoted are all strong, transplanted stock of sufficient age and strength to bloom the first year.

★ designates rock plants.

Heights given are of plants when in bloom.

These prices include delivery and our usual guarantee. Special prices will be made on large quantities, without delivery or guarantee.

Three of one variety will be sold at 10's rate.

An extra charge will be made for plants selected and staked when in bloom or dug with ball of earth.
