GLADIOLUS PRICE LIST

SEASON 1932

FOREWORD

MY THANKS are again extended for your orders and many kind words of appreciation. In keeping with the times, prices have been materially reduced this season, but you will find the quality up to my usual standard, and I will guarantee satisfaction. I will duplicate any special offers of other growers in the varieties I grow and quote special prices on larger quantities. If you have never bought glads from me, just give me a trial order and if you are not more than satisfied, I will refund your money.

TERMS: Cash with order or a 25% deposit if future delivery is desired. I do not substitute but refund any part of order I cannot fill. I believe in extra count.

SHIPMENT: I ship any time. No orders taken for bulblets after April 1st, for planting, or sizes No. 4, 5 and 6 after May 1st, and for large bulbs, Nos. 1, 2 and 3, after June 1st. Can furnish assorted or mixtures until July 1st. Postage prepaid.

DISCOUNT: When cash accompanies order the following discounts can be taken:

\$10 to \$25 — 10% of the amount of your order additional,
your selection from Price List

\$25 to \$50 — 15% of the amount of your order additional,
your selection from Price List

On orders over \$50, write for special quotations for entire lot

1 large bulb of King Arthur free with each \$50 order or over

1 No. 6 King Arthur free with each \$25 order or over

SIZE: Size No. 1 — 1½ inches and up Size No. 4 — ¾ inch to 1 inch
Size No. 2 — 1¼ inches to 1½ inches Size No. 5 — ½ inch to ¾ inch
Size No. 3 — 1 inch to 1¼ inches Size No. 6 — ¼ inch to ½ inch

Where rate per 10 is given only, take one-tenth to find single rate.

No single item less than 5 cents

Quantity Prices on Request

ARTHUR A. ARENIUS

Gladiolus Grower

59 Bliss Road

Longmeadow, Mass.

Arenius' Originations

 It's
 early,
 tall,
 clear
 lavender
 and a
 very good
 propagator

 What
 the
 commercial
 grower
 has
 been
 looking
 for

EARLY MELODY

My only 1932 introduction. Here is a very early clear lavender glad, something the commercial growers have been looking for. It is as early as Halley, grows very tall, blooms large, wide open, and is an extra good propagator. According to Ridgway's color chart it is a pale Persian lilac, practically a self color. The flower spike is very long with 18 to 20 buds, with 6 to 8 open. You will make no mistake in getting started with this variety for early cut flower purposes. Just to show you how confident I feel about this variety, I make this proposition: Your money refunded if you will return bulbs and increase if not satisfied.

	<i>large</i>	<i>medium</i>	<i>small</i>

No Bulblets for Sale

Arenius' Originations

KING ARTHUR

A large ruffled and fluted lavender. Favorable reports continue to pile up as to its outstanding form and color. At the time of writing this, I am practically sold out of bulblets and wish to call your special attention to small size planting sizes at \$5.00 each.

After 2 years' trial, Mr. J. H. HEBERLING of Easton, Ill., has the following to say, July 28, 1931: "*Well! King Arthur is blooming again this year and the color and ruffling is all that it could be. King Arthur is undoubtedly the best ruffled lavender in existence. I cut my bulbs this year of this variety and hence the florets were not so large had the bulbs not been cut and even then they made 5 inches and the color is beautifully clear. Permit me again to congratulate you as originator of this wonderful variety.*"

	<i>large</i>	<i>medium</i>	<i>small</i>
Per 1	\$25.00	\$15.00	\$5.00
Per 10	180.00	100.00	40.00

Bulblets — \$2.00 each; \$15.00 dozen

CONSTANCY

A very large clear rose with a small throat blotch of deeper color. Very large and outstanding and in this color class, I believe it to be exceptional. Read what others say.

"As you undoubtedly know, a glad with me must open at one time 10 or more blooms, as I use them for exhibition purposes. Your Constancy was very good, but it only opened 5 and 6 and if it opened more, it would be a real wonder. Bloom was very large and I liked it fully as well as King Arthur." — BANCROFT WINSOR, New Bedford, Mass.

"I found your Constancy to be an excellent glad with extra large bloom and one that was immediately selected by a majority of the visitors, who call to see my flowers, as one of the nicest in my collection." — H. N. BROWN, Haydenville, Mass.

LAVENDER DELIGHT

This is a plain petalled deep lavender of great purity of color and chaste appearance. Not so large as the others, but my favorite of last year's introductions.

RADIANCE

A very bright, clear red. Lighter color and brighter than Taro. Good grower and propagator and it should make a splendid addition in its color class.

Prices of *Constancy*, *Lavender Delight* and *Radiance*

SPECIAL COLLECTION OF ASSORTED GLADS

Many folks desire a few "glads" to plant in the garden and do not care to fuss with the names of the varieties, just merely grow them for cut flowers. For this purpose I am offering a special collection of assorted named varieties but not labelled. Of course if you have a preference or dislike for certain colors, just mention it, and I'll act accordingly. If after blooming time you are not satisfied and pleased in every way, the purchase price will be refunded and no questions asked. Cultural directions accompany each order.

200 bulbs \$5.00 50 bulbs \$1.75
 100 bulbs 3.00 25 bulbs 1.00

Size one inch and over, sure to bloom. All prepaid.

Why not send in your order now before you forget!
Will hold and ship any time you say.

Join the Connecticut Gladiolus Society. Send annual dues of \$2.00 to
 E. S. Clark, Jr., Windsor, Conn.

SUPER COLLECTION

1 small bulb of each of the following:	
1 Blue Triumphator	\$2.50
1 Constancy	1.50
1 King Arthur	8.00
1 Lavender Delight	1.50
1 Mary Elizabeth	5.00
1 Radiance	1.50
1 Salbach's Orchid	2.00
	<hr/>
Value	\$22.00

Lot	\$12.00
2 lots	\$20.00

CUT FLOWER COLLECTION

5 large bulbs of each of the following:	
Betty Nuthall	\$0.75
Capt. Boynton	.25
Catherine Coleman	.30
Dr. Bennett	.25
Dr. Nelson Shook	.25
Gold Eagle	.25
Longfellow	.25
Marie Kunderd	.25
Montenegro	.75
Mr. W. H. Phipps	.25
Mrs. Leon Douglas	.25

Mad. Konynenburg	.20
Minuet	.25
Veilchenblau	.30
	<hr/>
Value	\$3.55

24 bulbs for	\$2.50
6 bulbs each, 48 in all ...	\$4.00

THRIP

FROM reports reaching me, this new pest to gladiolus is causing serious trouble in many sections of the country. It is a minute insect about 1/20 of an inch long, being of a yellowish-orange color when young and changing to a grayish-black and developing wings when fully grown. It sucks the juice from the foliage and bloom, causing the leaves to turn gray and appear to be shredded, while the blooms become spotted or dry up and fail to bloom. It also attacks the bulbs by sucking the juice from the bulb, causing a browning of the base of the bulb where the insects may usually be seen. Whether thrip has spread from infested bulbs or through the air from infested fields is a debatable question; probably both ways. The best method of control is to make sure your bulbs are free from thrip before planting.

This can be done by soaking small lots of bulbs in corrosive sublimate or bichloride of mercury or if you have large quantities of bulbs, cyanide gas treatment such as modern exterminators use, will effectively kill all thrip and its egg larva. Cyanide gas is a deadly poison and should be applied by someone who knows how to use it. It has been claimed that thrip has been controlled by using tobacco dust on the bulbs at planting time, putting it right on the bulbs in the furrow. After growth appears daily watering or overhead irrigation will help to keep them under control, as will dusting with tobacco dust or spraying with Nicoteen, Evergreen or Derrisol, but to be effective must be used as soon as growth appears and must be done constantly and thoroughly. My bulbs have all been treated with cyanide gas and I believe them to be free from thrip.
