ALDIE
LOUDOUN COUNTY
VIRGINIA

1932

Our Boxwood, propagated from century old specimens in our own grounds, is extraordinarily hardy. Within the last twenty years it has withstood, without injury, a temperature of 15 degrees below zero. It is of the very best type, is grown with the greatest care and we can say without exaggeration that every plant is a specimen.

Five plants are sold at the rate for 10; fifty plants at the rate for 100. If less than five are desired, add 10 per cent to the rate for ten.

Our extremely low prices compel us to keep operating expenses as low as possible. We therefore carry no accounts, and we request our customers to send remittance with their orders.
