~ AZALEAS

AZALEA MOLLIS

IT is with pleasure that we present this Catalogue devoted entirely to Azaleas. In summer, fall, and winter they are charming, but in spring, being Azalea-time, they are in their glory.

Their vivid colors, combined with beautiful foliage, put them in a class by themselves, and when massed or mixed in with your other planting, they always add charm and beauty to the landscape.

Azaleas require no special attention after they are once planted. They thrive best in a good garden loam, free from lime. If possible use plenty of decayed leaves about your plants. Remember, the main feeding-roots of the Azaleas are on or near the surface of the ground, so be careful not to hoe or spade directly near the plants. Use your hands to pull the weeds and add leaf-mold on the surface and your Azaleas will always be a joy. In severe weather it is wise to protect the plants with a mulch.

DECIDUOUS AZALEAS

AZALEAS Indoors and Out

FOR richness of colors and vivid fall foliage, there are no Azaleas that compare with the hardy deciduous forms. Taller-growing than the evergreen types, they are indispensable in a shrubbery border or in masses.

AZALEA MOLLIS

Chinese Azalea

See Color Illustration, page 1

Words cannot describe the wonderful flame shadings of the bloom—soft yellow, apricot, terra-cotta, golden salmon, and their rich blendings. Attains a height of 4 to 5 feet.

	Each	10
8 to 10 inches	\$1 50	\$13 50
10 to 12 inches	2 00	18 00
12 to 14 inches	2 25	19 25
14 to 16 inches	2 50	22 50
16 to 18 inches	3 00	27 00

AZALEA SCHLIPPENBACHI

Royal Azalea

A very hardy, strong-growing Azalea. The blooms are large, pale rose-pink, with the upper petals spotted with brown. Grows to 5 feet. 3 to 4 inches \$1.50 each, \$13.50 for 10.

Kurume Azalea

AZALEA JAPONICA

(Seedlings)

Resembles Mollis in type and growth. Blossoms large, varying in color from cream to orange-red. 4 to 6 inches \$1 each, \$9 for 10.

AZALEA ALTA CLARENSIS

A fast-growing deciduous Azalea with exceptionally large trumpet-shaped flowers of a coppery yellow. Very choice. Wonderful in massed plantings. 6 inches \$1 each.

NOTE.—Evergreen Azaleas are measured by the spread of the tops, not their height. Deciduous Azaleas are measured by their height only.

AZALEA KAEMPFERI

Noted for its hardiness and fire-red blooms that completely cover the plant. This Azalea is a treasure in any garden. It reaches a height of 4 to 5 feet and is quite bushy in habit. Very choice. 6 inches \$1.50 each.

Azalea Kaempferi

Special Collections

Nos. 1, 2, and 3

COLLECTION No. 1

2 Azalea mollis
1 Azalea amoena
1 Azalea Hinodegiri

Amœna. A compact, slow-growing type with single, claret-red blooms. Very attractive in masses or hedge. 4 to 6 inches \$1 each, \$9 for 10; 8 to 10 inches \$1.50 each, \$13.50 for 10.

Amœna superba. A semi-double form of the above. Not quite such a compact grower. Used in groups by themselves. 6 to 8 inches \$1 each, \$9 for 10; 8 to 10 inches \$1.25 each, \$11.25 for 10; 10 to 12 inches \$1.50 each, \$13.50 for 10.

Benigiri. This charming evergreen Azalea attains a height of 4 feet. Very graceful in its habits and has clear watermelon-pink blooms. 8 to 10 inches \$1.50 each, \$13.50 for 10.

Hakalata-shiro. Low and compact in growth, with large, single white blossoms. 8 to 10 inches \$2.50 each, \$22.50 for 10.

Hinamoyo. This new Azalea of great merit grows low and compact. The bloom is clear pink. 8 to 10 inches \$1.75 each, \$15.75 for 10.

Hinodegiri. An old standby among the Azaleas. A wonderful bloomer. Flowers bright red, of great beauty. 6 to 8 inches \$1 each, \$9 for 10; 8 to 10 inches \$1.50 each, \$13.50 for 10; 10 to 12 inches \$2.50 each, \$22.50 for 10; 12 to 14 inches \$3 each, \$27 for 10.

Kimnazoi. A novelty in a class by itself. Foliage and bloom long and narrow. Blossoms red. 4 to 6 inches \$1 each, \$9 for 10.

Maxwelli. The large, carmine-red blossoms of a wonderful shade make this compact-growing Azalea a plant of beauty. 15 to 18 inches \$3 each, \$27 for 10.

Rosæflora (A. balsaminæflora). A double-flowering, hardy, light orange variety that is low-growing. 8 to 10 inches \$7.50 each.

Yaye-giri. A charming, showy plant with salmon-red, semi-double blossoms. 8 to 10 inches \$2 each, \$18 for 10; 10 to 12 inches \$2.50 each, \$22.50 for 10.
