CONSUMER

VAN BOURGONDIEBROS.

BABYLON, LONG ISLAND, N.Y.

... a MESSAGE of Importance

IN olden days Tulips were Tulips, bulbs were bulbs, and as long as a flower was produced every bulb was considered marvelous.

Those days are past; the enormous interest in gardens, garden clubs, flower shows, and even rock gardens in this great country has developed so fast that statistics are amazing, and yet only six per cent of the American home owners are buyers of horticultural products to any extent, so we, for one, are going to do all we can to properly put our shoulders to the horticultural wheel to make this country of ours not only the greatest, but the most beautiful.

General Office, Babylon, Long Island.

We growers in Holland are prepared to back up the above statement, by producing thousands of acres of the **finest and rarest Tulips, Hyacinths, Daffodils, Crocus and Rock Garden Bulbs.** They are shipped in boatloads to this country and we distribute them from our Babylon, N. Y., warehouses direct from us to you. Consider our quality.

We have on file thousands of unsolicited letters from satisfied customers, but we do not consider that printing them will add to the dignity of this book.

Free Delivery on All Bulbs

All merchandise traveling any distance usually becomes expensive on account of the transportation charges, which have to be added to the price of the goods.

When you agree to our competitive prices for the finest quality bulbs, you have no further expenses, as we agree to deliver them in your home town charges prepaid.

The cost of this service is not added to our prices, but deducted from our revenue in order to back our slogan:

**From
Grower to Consumer**

Holland Nurseries.

Babylon, Long Island, Packing Houses.

FRENCH BULBS for Early Forcing

AMERICAN GROWN

The two varieties named below have been grown for us in the United States and are due to arrive at our packing house in August. They can be delivered upon arrival or at the time your order is received, for immediate planting in order to have early flowers. Follow the directions given with each variety, and you will have an abundance of dainty, attractive flowers in early winter. We start our book with these bulbs as they are the earliest flowering bulbs we offer.

Lilium Candidum

This is the exquisite Madonna Lily, which produces a large mass of snow-white flowers on straight stems. Plant these bulbs in the open in September or October, and protect them well from frost, as they are not extremely hardy, and during May or June you will have an abundance of flowers. Can also be planted in pots and by putting them in a cold frame for 3 months, well protected, then taking them into a greenhouse, the same success will be yours. Jumbo bulbs only, 40c each; \$4.00 per doz.; \$30.00 per 100.

Lilium Candidum.

**All Orders
will be
Fully Prepaid
in
U.S.A.**

Golden Yellow
Narcissus.

they will produce an abundance of beautiful blooms. They are not hardy. Jumbo or Exhibition Size, \$1.00 per doz.; \$7.50 per 100; \$70.00 per 1000.

Golden Yellow Narcissus Soleil d'Or

Soleil d'Or resembles the Paper-White Narcissus very much, in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We expect to have some very fine stock of this variety to meet the steadily increased demand of the past few seasons. Do not forget to order a few and get acquainted with this wonderful flower. We offer only the Exhibition Size, \$2.50 per doz.; \$18.00 per 100; \$160.00 per 1000.

Paper-White
Narcissus.

Paper-White Narcissus

Suitable for Growing in Water and Gravel,
Sand or Fibre

We handle only the Giant Grandiflora variety, which is a great improvement over the ordinary Paper-White Narcissus. It can be had in bloom from Christmas until Easter, either in pots, bowls or boxes. Upon arrival, plant them immediately, if wanted early, and put in a cool place in cellar or pit, free from frost. When well rooted they can be taken into heat, and if watered freely

GIANT DARWIN TULIPS

(May-Flowering)

THE PRIDE OF THE GARDEN

THESE Tulips have created a real sensation for the past few years, and one really does not wonder when seeing them in full bloom. They got their reputation through merit alone. They are most brilliant in color and of the greatest variety of shades. Each flower is extremely large, thereby producing a most gorgeous show in any garden, either in beds, borders or among shrubbery. With the exception of a few varieties, they are not very satisfactory indoors, and one must be an expert grower to flower them in the house at all, but they never fail outdoors.

Harry Veitch Tulip.

Tulips for Outdoor Culture

If soil is loosened about 12 inches deep before planting and if possible mixed with leaf mold or well-rotted stable manure the best results can be expected. Tulips should be planted 4 inches below the surface of the ground. Cover them after the ground is frozen, although covering is not strictly necessary. Remove covering in the spring when tops are approximately 4 inches high.

Culture for Indoors

For indoor culture see our directions, which we supply with each order.

of the Garden"*

City of Haarlem Tulips.

Inglescombe Yellow Tulips.

Old English COTTAGE TULIPS

(May-Flowering)

The tulips belonging to this class owe their name to the fact that many of them had been found growing about country houses and cottages in England and France generations ago. In the hands of skillful gardeners, and by careful hybridizing and selecting the best soil that could be found, the selection has become very extensive. All imaginable colors are now represented in this class. They all have long stems and very graceful formation and are therefore unsurpassed for the garden and excellent for cutting.

Majestic Breeder Tulips

These Tulips, although formerly listed among the Cottage varieties, form a distinct class in themselves, being an unbroken form of the old-time Florist's Tulip. The Breeders, strange to say, were discarded by their originators, the old Dutch gardeners, because they had no stripes or feathers, and until recently they were placed in the background of borders and other obscure places. Now that a taste for art colors has been awakened, together with a desire for bronze, brown, and buff tones, attention is again drawn to these old-fashioned Tulips, and within a very few years they have become the most popular of all the late Tulips.

They well deserve their popularity, not only for their peculiar and artistic coloring but for their lasting qualities as well, for this makes them unusually well suited for garden decoration, slow forcing, and cut flower use. In size of flower, length and strength of stem, and general beauty they far excel the Darwins.

This class of Tulips will prove very interesting on account of their peculiar forms and different habits of growth.

All Orders Will be Fully Prepaid in U. S. A.

NOVELTY TULIPS

All varieties on these two pages are either new or rare varieties grown in Holland in limited quantities and of extraordinary beauty, size, or other distinction. We strongly urge our patrons not to let the price sway your desire to have some of these beautiful Tulips, but at least give them a trial and have some rare attraction in your favorite garden spot.

Novelty Parrot Tulips

FANTASY. The only Parrot Tulip with a straight stem. Being a sport of Clara Butt, it produces a very similar color to Clara Butt, but deeper pink inside the petals and beautifully lacinated. A real sensational novelty. 25c each; \$2.50 per doz.; \$18.00 per 100.

Novelty Darwin Tulips

Our reputation as bulb specialists is world-wide

HYACINTHS

Hyacinths will grow in any good soil but they prefer a rich light soil. The method of growing is as simple as that of Tulips but when planted in pots the top of the bulb should be level with the surface of the soil, and plenty of water should be given when in the house or conservatory. When planted outdoors they require 6 inches or more of cover (preferably light) after the first sharp frost, as they are not as hardy as Tulips. the cover to be partly removed after the middle of March if there is no snow.

Special Collection of Exhibition Hyacinths

Van Bourgondien Bros. EXHIBITION HYACINTHS

These are Positively the Largest Bulbs We Grow in Our Holland Nurseries
Exhibition Hyacinths: Each, 20c; per doz., \$2.00; per 100, \$15.00.

Single Red and Pink Shades

GENERAAL DE WET. Light pink; immense spike like Grand Maitre. Very delicate.

GERTRUDE. Dark pink; compact truss. Fine for pots or bedding.

GIGANTEA. Light pink; broad, compact truss, of great merit.

LADY DERBY. Soft rose; large truss. Fine for pans as well as outdoors.

LA VICTOIRE. The finest brilliant scarlet Hyacinth. Very early.

Single Light and Dark Blue

BISMARCK. Bright blue; very fine for forcing in pots.

GRAND MAÎTRE. Immense porcelain-blue spike of great substance. The best of all porcelain Hyacinths.

KING OF THE BLUES. Dark blue; splendid truss. Very fine.

MENELIK. Almost black; large glittering spike.

PERLE BRILLIANTE. Light blue; erect and perfect shaped spike.

QUEEN OF THE BLUES. Light blue. Extra fine for forcing; also does well in a bed.

Single White and Blush-White Shades

ARENTE ARENDSE. Snow-white; special for early forcing.

GENERAL VETTER. Fine truss; large bells; almost pure white.

GRANDEUR A MERVEILLE. Blush white; large truss. Very attractive.

LA GRANDESSE. Pure white; long truss.

L'INNOCENCE. Pure white; large truss; extra-fine large bells. Very fine bedder and forcer.

Single Yellow and Violet

CITY OF HAARLEM. Golden yellow. The purest and finest yellow Hyacinth.

DISTINCTION. Ruby-red, striped garnet; very early.

LORD BALFOUR. A beautiful large truss of a violet shade.

SIR WILLIAM MANSFIELD. Ruby violet; splendid truss.

YELLOW HAMMER. The largest of all yellow Hyacinths. Light yellow; very fine truss.

SPECIAL BEDDING HYACINTHS

The Hyacinths selected for this purpose excel in vigor as well as size of truss the so-called Unnamed Bedding Hyacinths, as these are selected from our First and Second-Size Hyacinths and are consequently very superior. Plant 8 inches apart and with at least 4 inches of soil on top of the bulb. Give them the same treatment as other Hyacinths.

MINIATURE OR DUTCH ROMAN HYACINTHS

These are the Hyacinths used for growing in bulb-pans, and if planted 10 to 12 bulbs to an 8- or 9-inch pan they cannot be surpassed. They are apparently small bulbs, but in comparison to their size they produce immense flowers. On account of their low price and splendid results, they are very much in demand for house culture. By planting only one kind in a pan, the best results can be obtained, as then they produce an even growth. By following the same cultural directions as given for the Hyacinths, failure is impossible. They are also greatly used for bedding.

NARCISSUS or DAFFODILS

In order to have a beautiful bulb garden, Narcissi should be planted very freely. They thrive in practically any climate in the United States and it is small wonder that the demand is doubling every year. They are not only excellent for outdoors but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long, straight stems have made them favorites for cut-flower purposes with every American gardener. We have compiled a list (as short as we could make it) of the best and most attractive varieties for indoor, and exhibition purposes, and it is complete and easy to select from.

Culture. The same as Tulips, although they should be planted as close as possible in the open or pans. After active growth commences, give plenty of water.

Culture Outdoors. They should be planted so that the top of the bulb is at least 5 inches beneath the soil. A little protection should be given during severe winter weather, although they are perfectly hardy.

In our descriptions we use the following terms: **Perianth**—the outer petals of the flower. **Trumpet**—the long cup- or trumpet-shaped center. **Crown or Cup**—the short or flat center.

Explanation of Daffodil Classes and Types

YELLOW TRUMPET varieties have trumpets which as a rule are longer or as long as the perianth segments (petals). They usually have a light or deep yellow perianth with a trumpet of deeper yellow.

BICOLOR varieties have creamy or pure white perianth segments and yellow trumpets.

BARRI varieties have light or deep yellow perianth segments and an expanded crown instead of a trumpet, which is light or deep with red or orange edge.

INCOMPARABILIS varieties have light or deep yellow segments, a crown of light or deep yellow very similar to a short trumpet.

LEEDSI varieties always have white segments, while the crowns are white or light yellow. They are very dainty.

POETICUS. Snow-white segments, crowns usually heavily rimmed orange or scarlet with a green eye in center of crown.

POETAZ. Cluster flowered in white, light or deep yellow. Some varieties have orange or red rimmed small crowns.

JONQUILS. Usually bear small flowers in small or large clusters on one stem, and usually are sweet scented.

Horace Daffodil.

DAFFODILS for Naturalizing

Hundreds of thousands of Daffodils are used yearly for this purpose, because when once planted they continue without any care to give you immeasurable joy year after year.

Numerous varieties have proved very successful for this purpose and we will use no others. Practically all types of Daffodils contain some varieties suitable for this purpose, thereby increasing the number of varieties and adding greatly to the desire of naturalizing Daffodils.

Only sizes which are most desirable for naturalizing without continuous care are selected for your favorite garden spot. "The natural garden."

Practically any soil has been found suitable, but when planted under and among trees and in woodlands, the leaves of the trees should not always be removed, as taking away this natural food will not only injure your trees but also will prevent the Daffodils from producing as they should.

Only such varieties having proved to be hardy are selected for this purpose.

Plant at least 8 inches deep but avoid places where water may collect at any time as they like drainage.

Try to plant them before October 15th or shortly thereafter, but place your order early as the demand is increasing for these bulbs at this special low price we have adopted, and we cannot take orders for less than 100 bulbs.

Per 100 . . . \$ 5.50

Per 1000 . . . 50.00

Per 10,000 . 450.00

Miniature Bulbs for Rock Gardens

Muscari

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of an entirely different form—grapelike clusters closely set—and are wonderful cut flowers. Always exquisite when naturalized.

ALBA. White. 50c per doz.; \$3.50 per 100.

BLUE BIRD. An immense improvement over the former variety, the flowers being twice as large and growing taller, and of a delightful heavenly blue. \$1.20 per doz.; \$9.00 per 100.

HEAVENLY BLUE. 40c per doz.; \$3.00 per 100.

Snowdrops

(Galanthus)

Everybody knows the Snowdrops; with their little white bells coming through the snow very early in the spring, practically the first flower to show itself after the dreariness of winter. It is a wonderful bulb for naturalizing and for every garden.

NIVALIS (Single). 40c per doz.; \$3.00 per 100; \$30.00 per 1000.

NIVALIS (Double). 50c per doz.; \$3.50 per 100; \$35.00 per 1000.

Scilla

Scilla sibirica naturalize splendidly, are cheap and so can be planted liberally, and everyone who has a garden should provide for the time when they will be excluded.

SIBIRICA, BLUE. 45c per doz.; \$3.50 per 100; \$33.00 per 1000.

SIBIRICA, SKY BLUE. A trifle lighter blue than the former with large flowers of a most beautiful heavenly blue color. \$1.00 per doz.; \$7.50 per 100.

Chionodoxa

(Glory-of-the-Snow)

An early flowering spring bulb for borders or rockery. Produces flower spikes bearing ten to fifteen scilla-like flowers. Perfectly hardy and should be planted close together for effect.

LUCILIAE. Deep blue, with a white center. Selected mother bulbs, 40c per doz.; \$3.00 per 100; \$25.00 per 1000.

SARDENSIS. Deep blue. 50c per doz.; \$3.50 per 100.

Fritillaria Meleagris

Singular, dwarf, spring-flowering plants, bearing large, pendent, bell-shaped flowers of various colors, in yellow, white, black, purple, striped and splashed, and checkered in the most curious way. They are invaluable for pot

culture, and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation.

MIXED. Select mixtures. 60c per doz.; \$4.00 per 100; \$35.00 per 1000.

Eranthis Hyemalis

(Winter Aconite)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrops, Scillas and Chionodoxas. The foliage remains long after the flowers, making the plant especially valuable in moist situations, such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 40c per doz.; \$3.00 per 100; \$25.00 per 1000.

Eranthis Hyemalis.

Scilla Sibirica.

Fritillaria Meleagris.

Snowdrops.

Chionodoxa
Luciliae.

SCILLA CAMPANULATA

All the varieties of *Scilla campanulata* are splendid for naturalizing because they will flower in shady places. All have bells like small hyacinths, forming long and graceful spikes.

CAMPANULATA ALBA MAXIMA. Large, pure white. 50c per doz.; \$3.50 per 100.

BLUE QUEEN. Large, bright blue. 50c per doz.; \$3.50 per 100.

ROSE QUEEN. Soft lilac-rose. 50c per doz.; \$3.50 per 100.

Scilla Campanulata,
Rose Queen.

SPECIAL OFFER No. 18 of Pages 25-26

**Muscari, Chionodoxa, Snowdrops, Scilla,
Eranthis, Fritillaria**

Last but not least, the earliest of all spring arrivals when the snow is not quite off the ground, they show their heads in defiance of past winter and when left undisturbed they will do so year after year, in sun, shade or partial shade, under bushes, trees or in your rock garden.

CHIONODOXA Luciliae.

CHIONODOXA sardensis. Deep blue.

ERANTHIS hyemalis.

FRITILLARIA meleagris.

MUSCARI botryoides. Heavenly blue.

English Iris.

English Iris.

ENGLISH IRIS (Bulbous)

for Outdoor Planting

For years this most beautiful of all bulbous Iris was practically non-existent in this country and could not be imported. Fortunately we located a farm in Michigan where they can be grown very successfully and years of persistent cultivation has made us a stock equal to none in this country.

They are grown in mixed colors containing numerous shades of blue, purple, and white veined and feathered with opposite color.

We want to interest every Iris lover in this most beautiful bulbous Iris and we have dropped the price within reach of everybody.

Per dozen, 75c

Per 100, \$5.00

Dutch Iris (Bulbous)

For Outdoor Planting Only

The eight varieties mentioned below are the most distinct and outstanding. They should be planted in well drained soil about 5 inches deep and a heavy mulch through the winter will well repay you.

New Dutch Iris.

A Word About Irises

It has been the experience of many that Irises planted in the spring will not bloom the first season, and we recommend September planting, not later. This rule applies to a great many varieties of plants. If you order plants from us, we will ship in the right planting season, in other words, we help those who are in doubt about "When to Plant."

IRIS GERMANICA

These beautiful Irises bloom early in the spring when the bulbs have just finished blooming, and because of their great variety of colors, they make a magnificent show. They are perfectly hardy and thrive in almost any soil: especially where they are exposed to the full sun. No home garden is complete without a few clumps scattered about, and they are also excellent for massing and bordering.

We quote only the best old varieties and new ones.

To simplify making a selection, we have classified them with the following abbreviations:

Germanica, Ger. May-flowering; earliest of all.

Pallida, Pal. Tall growers with large, sweet scented, blue, lavender and purple flowers.

Amoena, Am. Standards white; falls various shades.

Neglecta, Ng. Standards range from lavender to purple.

Plicata, Pli. Flowers have a frill-like lilac margin on a white ground.

Squalens, Sq. Standards are clouded shades of copper, bronze and fawn.

Variegata, Var. Standards are various shades of yellow.

IRIS GERMANICA • Garden Orchids

3 for 75c; 12 for \$2.50; 100 for \$20.00

- ALBERT VICTOR** (Pal.). S. soft blue; F. beautiful lavender. Large and fine.
- AUREA**. Rich chrome-yellow. The finest pure yellow.
- CELESTE** (Pal.). Pale azure-blue.
- FLORENTINA ALBA**. Ivory-white tinged with lilac. Excellent variety for cutting and an early bloomer.
- FLORENTINA BLUE**. Deep dark blue. Tall and vigorous.
- GRACCHUS** (Var.). S. clear yellow; F. marked red, reticulated white. A very conspicuous variety.
- INNOCENZA** (Am.). S. and F. ivory-white, crest rich golden. Delicate and beautiful.
- KATHLEEN** (Pal.). S. and F. a soft lilac.
- LOHENGRIN**. S. and F. uniform shade of Cattleya rose. Very large.
- LORELEY**. S. light yellow; F. ultramarine-blue, border cream.
- MITHRAS** (Var.). S. pale yellow; F. violet shaded with claret and yellow border.
- MONSIGNOR**. S. crimson dotted lavender, inner petals ivory. F. rich crimson edged lavender.
- KHEDIVE** (Neg.). S. light blue; F. dark velvety violet and black and orange beard. A handsome bold conspicuous flower.
- PRINCESS VICTORIA LOUISE**. S. pale yellow; F. rich violet edged cream.
- QUAKER LADY**. S. smoky lavender with yellow shadings; F. blue and gold; stigmas yellow. Yellow beard. Odd and attractive.
- QUEEN ALEXANDRA**. S. fawn shot with lilac; F. lilac reticulated at base with bronze. Beard yellow.
- TENDRESSE** (Pal.). Delicate lavender and lilac.
- VIOLACEA GRANDIFLORA** (Pal.). S. rich blue; F. violet-blue. Large.
- LA VESUVE**. Intense brilliant blue.

Fritillaria Imperialis
(Crown Imperial)

This unique and most attractive flower derived the name "Crown Imperial" from the crown-shaped flower, as the photo illustrates.

Plant about 4 to 5 inches deep. Flowering time of this fine novel bulb is about May and June, and therefore should be planted early in the fall and it is for that reason that orders after July 15th cannot be accepted.

RED 50c each; \$4.00 per doz.
YELLOW 80c each; \$6.00 per doz.

Peonies

The old-fashioned early-flowering Peony with its deep pink and blood-red colors are still holding their own against the modern high priced Peony. In spite of all competition there are no Peonies as popular as these two Officialis varieties.

DEEP PINK Per clump, \$1.50
BLOOD-RED Per clump, \$1.50

JAPANESE IRIS

This queen of the large-flowering Iris is very attractive. It flowers a little later than the German Irises, which adds greatly to its popularity. The flowers are of an enormous size and there are single and double varieties, both being equally attractive and suitable for cut flowers, as they really develop into a more perfect bloom if they are cut just before the bud opens and placed in the house in fresh water. The best time to plant these Irises, like all other Irises, is September, to allow them a fair time to make new roots before the winter sets in.

3 for \$1.00; 12 for \$3.50; 100 for \$25.00
