DETROIT GLADIOLUS SOCIETY

SCHENECTADY FLORICULTURAL SOCIETY

GLADIOLUS have become by far the most popular of summer flowers. Their many beautiful colors and long-keeping qualities make them desirable both for a show in the garden and for bouquets.

Visit our gardens at blooming time and make your selections.

IRIS AND PEONIES IN JUNE

GLADIOLUS, JULY 15th TO FROST

You can select your favorites while in bloom. Our bulbs are large first size bulbs, and prices are reasonable. Smaller sized bulbs cost less; if small or medium bulbs are wanted, write us. Our bulbs are true to name and if you find any that are not we replace them free.

Plant named varieties and know your Glads by name. Add a few new faces to your garden each year to make the work more interesting.

Bank Reference: NATIONAL BANK OF GLENS FALLS

You can use the list as an Order Sheet by marking the number of each variety you want on the margin. We return the list to you.

GLADIOLUS LIST

(All labeled and post-paid.)

UNLABELED COLLECTIONS

RIDGEVIEW MIXTURE—Over 40 varieties in this collection, 50 cents per dozen; per 100, large bulbs, \$3.00; medium bulbs, \$2.00; small bulbs, \$1.00.

GENERAL MIXTURE—Per dozen, 35 cents; per 100, large bulbs, \$2.00; medium bulbs, \$1.50.

SEEDLING MIXTURE—Per dozen, 25 cents; per 100, large bulbs, \$1.50; medium bulbs, \$1.00. Six at dozen rate, 50 at 100 rate.

SPECIAL F. O. B. COLLECTION—50 each of 20 good cut flower varieties (1,000 large bulbs, 1¼ to 2 inches) for \$20.00—all labeled.

If interested in large plantings we can furnish bulbs at wholesale. Let us know your wants. We also have several varieties not on list. If there are special varieties you want, let us know.

Gladiolus will grow in almost any soil, but not so well near trees or too near buildings. They like lots of sun and a well drained soil. If your ground is rich do not use much fertilizer. Bone meal and sheep manure are very good lightly raked in the soil after bulbs are planted.

Gladiolus can be planted in a trench 7 or 8 inches wide in a double row from 2 inches apart or more, according to space and number of bulbs you wish to plant. Plant bulbs about 5 or 6 inches deep in light soil or about 4 inches in heavy soil and the small bulbs from 3 to 4 inches. Keep the weeds out and cultivate often as you want to, as they like it. Your reward will be finer flowers.

Cut the flowers when first blossoms show and by changing the water daily and removing withered blossoms they will keep a week or more. Be sure in cutting the blooms to leave 4 or more leaves on the plant to mature the bulb.

Dig the bulbs when the leaves turn brown, cut tops and dry for a few weeks; then remove old bulbs and root and store until planting time in cool, dry room or cellar, but be sure they do not freeze.

We exercise care to keep our bulbs true and will replace, free of charge, any that are not true to name, but no responsibility assumed other than replacement of bulb or bulbs.

DAHLIAS

Large Double Dahlias, mixed colors, per dozen	\$2.00
Exhibition Dahlias, very choice, 12 all different, with label on each, dozen ..	5.00
