VISITORS WELCOME

Just A Word.

Some nurseries lay claim to their superiority as to the size of their nurseries; others to their age, and still others to their low prices, but we do not claim either. We do claim however, that our stock, (be it evergreens, shrubs, trees, or perennials), is well grown, well dug, well packed, very well rooted, and of just a little better quality than the average.

Prices Are Lower. Due to the reduction of the cost of nursery stock, and other production expense, we are pleased to be able to quote much lower prices on most of our various items.

All prices for stock are f. o. b. nurseries or railroad station at Essex. Boxing and burlapping will be charged at actual cost.

The prices herein listed are for good well grown stock, as grown in our nursery row, but where a plant of extra good quality is selected, then a special price will be charged according to size and quality. Five plants of any one variety or size will be sold at the ten rate, and twenty-five at the hundred rate.

Delivery of stock by truck is highly recommended on short distances. The stock will arrive quickly; just when wanted, and in a fresh condition. By this method the cost of packing and burlapping is eliminated.

Shipping instructions should be given, otherwise we use our best judgment, but assume no risk. All shipments travel at the purchaser's risk, and carriers must be held liable for any damage in transit. All stock becomes the property of the purchaser on delivery to the transportation company or carrier.

Guarantee. We give no warranty, expressed or implied, as to description, quality, productiveness, or any matter of any seeds, bulbs, nursery stock, or plants we sell, and will not be in any way responsible beyond the original purchase price. If goods are not accepted on these terms, they are to be returned at once.

Plant Insurance. On request, we will insure stock over a specified period at a rate covering the estimated hazard.

Terms. Cash or satisfactory references from unknown customers. All accounts are due the first of each month, unless by special arrangement. Five percent. discount may be deducted only WHEN CASH ACCOMPANIES THE ORDER. Claims for errors must be made upon receipt of goods. Any mistake or error on our part will be gladly rectified.

All Goods in this catalogue are offered subject to being unsold on receipt of order, and the prices are subject to advance without notice.

A certificate of inspection accompanies every shipment of nursery stock.

CHEBACCO NURSERIES

Evergreens.

If we were to picture in our minds, a winter landscape without an evergreen of any kind to adorn it; how cold and barren it would appear. On the other hand allow your mind to picture a winter landscape scene where we see nothing but evergreens, and it immediately registers a dark and gloomy feeling. In most cases, where nature has selected the plants and done the planting, we find a combination of both.

With this idea in mind, we are convinced that in a well planned design, there are places where no plant will serve the purpose like some one of the evergreens.

Why not allow our representative to call, and discuss your planting problem, and perhaps help you to clear up some uncertain ideas regarding your garden plans. We are only too glad to render this service.

ABIES concolor (White Fir)

One of the most beautiful and hardy evergreen trees, growing in symetrical, pyramidal form, with long feathery silvery green foliage. As a specimen, it is one of the most graceful trees.

	Each	10	100
2½ to 3 ft.	\$7.00		
3 to 3½ ft.	9.00		

CHAMAECYPARIS obtusa compacta (Compact Cypress)

Growth semi-dwarf, compact and bushy. Foliage dark green and wavy.

2 to 2½ ft.	\$4.00
2½ to 3 ft.	6.00

pisifera (Sawara Cypress)

A tall pyramidal tree with horizontal branches and a flat foliage of deep green.

3½ to 4 ft.	\$4.50
4 to 4½ ft.	6.50

pisifera plumosa. Plume Retinospora.

Forms a densely branched pyramid, with elegant, feathery, light green foliage. To maintain their cone shape, they should be sheared early in June. One of the finest varieties for formal effects.

15 to 18 in.	\$1.50
-------------------	--------

pisifera plumosa aurea. Golden Plume Retinospora.

One of the best evergreens, forming a pyramid of rich golden foliage, which holds its color the year round. It is one of the most brilliant and popular conifers. Very hardy.

10 to 12 in.	\$1.25
12 to 18 in.	1.50

Plant evergreens, and have winter as well as summer effect.

CHEBACCO NURSERIES

JUNIPER chinensis pfitzeriana (Pfitzer's Juniper)

Broad, bushy habit, handsome grayish green foliage. On account of its spreading, fan-shaped growth it is admirably adapted for foundation plantings.

	Each	10	100
2 1/4 to 3 ft.	\$5.00	\$45.00	

We have specimens 5 ft. 6 in. across. Price on application.

J. columnaris (Column Chinese Juniper)

A compact columnar form of *J. Chinensis* with beautiful, steel blue foliage. New.

3 to 4 ft.	\$ 7.50
4 to 5 ft.	10.00

J. communis depressa plumosa

Semi-prostrate habit of growth. Summer color is a bright green. Turns to a rich reddish-purple as the frosts come on.

18 to 24 in.	\$4.00
24 to 30 in.	6 00

J. excelsa stricta (Spinv Greek Juniper)

Slender conical outline: very symmetrical. Foliage glaucous, dense, and prickly.

18 to 24 in.	\$3.75
-------------------	--------

J. sabina (Sabin Juniper)

Semi dwarf Juniper with dark green foliage.

2 to 2 1/4 ft.	\$3 00
2 1/4 to 3 ft.	4 00
3 to 4 ft.	5.00

J. sabina tamariscifolia (Tamarix Savin)

Low, spreading habit with dense, gray-green foliage. Fine for rock gardens.

18 to 24 in.	\$4.75
24 to 30 in.	6.00

J. chin. Sargenti

Prostrate compact variety, with blue green foliage.

24 in. (full)	\$6.00
---------------------	--------

J. horizontalis (Creeping Juniper)

Prostrate habit of growth. Highly recommended for use in rock planting.

2 to 2 1/2 ft.	\$3.25
---------------------	--------

J. virginiana (Red Cedar)

Tree with many forms from narrow columnar to broadly conical. Our hardy New England type is far superior to the western and southern forms.

2 to 3 ft.	\$ 3.00	\$25.00
3 to 4 ft.	4.00	35.00
4 to 5 ft.	6.00	55.00
5 to 6 ft.	7.50	70.00
6 to 7 ft.	10.00	85.00

We can also furnish extra well shaped trees of this variety in sizes ranging from eight to thirty feet in height. We feel that we can quote you very attractive prices on this stock.

All our evergreens are hardy.

CHEBACCO NURSERIES

We consider our native cedar (Juniperus Virginiana) as one of the best evergreens to plant in this section.

PICEA canadensis (American White Spruce)

Very hardy and beautiful ornamental species of dense habit, with light bluish green foliage, particularly suitable for shore planting.

	Each	10	100
1½ to 2 ft.	\$1.75	\$15.00	
2 to 2½ ft.	3 00	27.50	
3 to 3½ ft.	4 00	35 00	
3½ to 4 ft.	4.50	40.00	

P. excelsa (Norway Spruce)

A very rapid growing tree. Excellent for hedges, timber and windbreaks.

18 to 24 in.	\$1.50	\$14.00
2 to 3 ft.	2 50	22.00
3 to 4 ft.	3.50	30.00
4 to 5 ft.	5.00	45.00
5 to 6 ft.	7.50	

We can also furnish larger specimens ranging from 6 ft. to 12 ft. in height. Prices on application.

P. pungens glauca (Colorado Blue Spruce)

Very desirable tree with attractive steel blue foliage. Useful for both individual and group planting.

2 to 2½ ft.	\$4.00	\$35.00
2½ to 3 ft.	5.00	45.00
3 to 3½ ft.	6.50	60.00

Larger specimens ranging in size from 6 to 15 feet in height. Prices on application.

Evergreens may be safely transplanted during April, May, August, and September.

CHEBACCO NURSERIES

We consider Pinus Mughus one of the most useful of the evergreens.

PINUS mughus (Mugho Pine)

Slow growing, bushy, spreading habit with breadth exceeding height. Foliage of a bright dark green color.

	Each	10	100
18 to 24 in.	\$4.00	\$30.00	
24 to 30 in.	5.00	40.00	
2½ to 3 ft.	6.00	50.00	

P. nigra (austriaca) (Austrian Pine)

Very handsome, vigorous pine with stout spreading branches and long dark green leaves. One of our hardiest pines for the seashore.

2 to 3 ft.	\$4.00
3 to 4 ft.	6.00

P. sylvestris (Scotch Pine)

One of the fastest growing evergreens with silvery foliage and reddish brown bark. Picturesque growth.

4 to 5 ft.	\$5.50
5 to 6 ft.	7.00

P. strobus (White Pine)

One of the most valuable of the pines. Of rapid growth, symmetrical when young, picturesque when old.

2 to 3 ft.	\$3.00	\$25.00
3 to 4 ft.	4.00	35.00
4 to 5 ft.	5.50	50.00

P. resinosa (Red Pine)

Long dark green leaves; ornamental pine of vigorous growth, one of the best for northern gardens.

2 to 3 ft.	\$2.50	\$20.00
3 to 4 ft.	4.00	

It is not a home until it is planted.

CHEBACCO NURSERIES

PSEUDOTSUGA douglasi (Douglas Fir)

A very valuable tree for hedges individual of group planting. Foliage ranges from a deep green to a silvery blue. Pyramidal form; very hardy.

	Each	10	100
4 to 5 ft.	\$6.50		
5 to 6 ft.	9.00		

TAXUS cuspidata (Japanese Yew—Spreading)

A semi-upright form, faster growing than nana. Foliage bright green. One of the best of the ever-green group. Will do well in either partial shade or full sunlight.

15 to 18 in.	\$3.50	\$32.50
18 to 24 in.	4.50	
24 to 30 in.	6.50	
30 to 36 in.	9.50	85.00

cuspidata rana. (Spreading variety.)

Dwarf Japanese Yew. A handsome shrubby form of the above, with short, dark green needles. One of the most beautiful and ornamental dwarf evergreens equally valuable for formal or natural effects.

10 to 12 in.	\$2.50	\$20.00
-------------------	--------	---------

T. cuspidata capitata (Erect Japanese Yew)

Very desirable for hedge work. This type is of tree form which can be trimmed into a compact pyramidal shape to take the place of boxwood. Very useful as an individual specimen. Foliage bright green.

18 to 24 in.	\$5.00	\$45.00
-------------------	--------	---------

PEAT MOSS. Why not purchase a few bales of granulated peat moss to use as a summer mulch under evergreens to retain the moisture, and also as a covering under them to help keep out the frost. Very good to spade into a clay soil to make it more workable, and on a sandy soil to increase the humus content. Per bale \$2.75; 10 tables \$25.00.

THUYA occidentalis (American Arborvitae)

This evergreen is very extensively used for hedges and screens. Of narrow pyramidal growth; very suitable for formal plantings. Very hardy.

18 to 24 in.	\$1 50	\$12.50
2 to 3 ft.	2 00	17.50
3 to 4 ft.	3 00	27.00
4 to 5 ft.	4.50	40.00

T. occ. globosa (Globe Arborvitae)

Dwarf growing form; globe shaped; useful for border planting. Hardy; needs no trimming. Very popular for formal effects.

18 to 24 in.	\$3.00	\$27.50
-------------------	--------	---------

T. occ. compacta (Parson's Arborvitae)

Very useful globe type for formal effects. Slow growing and permanent.

18 to 24 in.	\$4.00	
-------------------	--------	--

Evergreens are sure to attract the birds.

CHEBACCO NURSERIES

(THUYA continued)

T. occ. vervaeneana (Vervaeene Arborvitae)

A distinct variety of dense habit, with yellowish green foliage, turning bronzy in winter. Forms a pleasing contrast with other evergreens. Hardy.

Each 10 100

3½ to 4 ft. \$4.50

T. occ. wareana (Siberian Arborvitae)

A very hardy variety of broad pyramidal form, with shiny dark green foliage which does not turn brown in winter. Useful in a foundation planting or an evergreen grouping.

2 to 2½ ft. \$3.00 \$27.50

2½ to 3 ft. 4.00 37.50

T. pyramidalis (Pyramidal Arborvitae)

A valuable upright evergreen of columnar shape and densely branched with dark glossy green foliage. Very satisfactory for foundation planting or for use in tubs.

3½ to 4 ft. \$4.50 \$42.50

4 to 5 ft. 6.00 55.00

5 to 6 ft. 9.00

T. pyramidalis douglasi (Douglas Arborvitae)

A slender pyramidal evergreen of symmetrical outline, with dark green, fern like foliage. Ideal variety for formal planting.

4 to 5 ft. \$6.50 \$60.00

TSUGA canadensis (American Hemlock)

One of the most useful of all the evergreens. Branches slender and graceful; thrives in partial shade. Will stand shearing to any desired shape.

15 to 18 in. \$1.00 \$ 8.50

18 to 24 in. 2.00 17.50

2 to 3 ft. 4.50 40.00

3 to 4 ft. 6.00 50.00

Take particular notice of the well developed root system, and the well furnished tops.

We take pride in the fact that our stock is so well rooted.

CHEBACCO NURSERIES

Evergreen Shrubs.

ANDROMEDA floribunda (Mountain Andromeda)

Dense growing shrub with dark green foliage and upright panicles of waxy white flowers in Spring.

Each 10 100

15 to 18 in. \$4.00

*ARCTOSTAPHYLOS uva-ursi (Bearberry)

Low spreading evergreen plant. Glossy green and bronze foliage, pink flowers, scarlet berries.

Pot grown \$.60 \$ 5.50

cotoneaster horizontalis. Rock Cotoneaster.

Though by no means a new plant, this rare and perfectly hardy Cotoneaster deserves to be widely planted. It is semi-prostrate in habit, grows 3 to 4 feet tall, forming a dense bush many yards through. The fruits are bright scarlet, changing to crimson, and the small leaves, which are dark green and almost round, are retained late into the fall, and even up to Christmas. It is suitable for planting in rocky positions. Pot grown \$1.50 each.

Cotoneaster microphylla, 1½ ft. to 2 ft.

(Rockspray)

Evergreen. Very small leaves, very deep green. Rather more bushy than the Rock Cotoneaster.

6 in pots \$1.50 \$14.00

DAPHNE Cneorum (Rose Daphne)

Dwarf spreading shrub, producing bright sweet scented flowers, from May to October. Excellent for rockeries.

9 to 12 in. \$1.00 \$9.00

12 to 15 in. 1.50

EUONYMUS radicans (Winter creeper)

Japanese evergreen creeper with dark glossy green dense foliage. Has been found very suitable for edgings and small hedges in formal gardens. Very hardy. It is also suitable for rock garden use.

2-year \$.60 \$5.00

3-year75 6.00

E. vegetus (Big-leaf Wintercreeper)

Generally considered to be our best evergreen vine. Holds its foliage even when planted in full sun. Carries rich deep green foliage, and will thrive in partial shade where other plants fail to thrive.

2-year \$.75 \$6.00

3-year90 8.00

E. rad. kewensis (Baby Wintercreeper)

A fine evergreen plant of a trailing habit of growth; useful for the rock garden or for covering the ground. The small oval foliage is dark green in color with lighter veins.

2½ in. pots, bushy \$.50 \$4.50

ILEX crenata (Japanese Holly)

Has small, oval, smooth, green leaves about one half inch long; a rapid grower, forming a dense, compact bush, which can be shaped like a boxwood.

2 to 3 ft. \$5.50

We recommend fine peat moss for mulching under evergreens.

CHEBACCO NURSERIES

KALMIA latifolia (Mountain Laurel)

Bushy evergreen shrubs useful for massing with rhododendrons or as an undergrowth in woodlands. Large showy flowers of pink and white flowers in June.

	Each	10	100
18 to 24 in.	\$3.00	\$27.50	
24 to 30 in.	4.50	40.00	

LEUCOTHOE catesbeii (Drooping Leucothoe)

Dwarf evergreen shrub, with graceful arching branches. Flowers white. Foliage turns the color of our native highbush blueberry in the fall and holds this color all winter. Excellent for shady places.

15 to 18 in.	\$2.00	\$17.50
24 to 30 in.	4.50	

RHODODENDRON cawtawbiense (Catawba Rhododendron)

A very hardy and free blooming variety, excellent for groups and masses. Flowers in late spring; color lilac-rose.

2 to 2½ ft. (heavy)	\$5.00	\$45.00
---------------------------	--------	---------

PACHYSANDRA terminalis (Japanese Spurge)

A splendid ground cover plant and much used for that purpose in shady places. Forms a mat of dark glossy green foliage.

Pot grown	\$.30	\$2.50
-----------------	--------	--------

VINCA minor (Common Periwinkle)

Dwarf evergreen used for ground cover in shady places. Flowers bright blue from May to July.

Field grown plants 2-yr.	\$.25	\$2.20	\$15.00
-------------------------------	--------	--------	---------

YUCCA filamentosa (Adam's Needle)

A very striking plant, bearing great spikes of creamy white flowers.

2-year	\$.25	\$2.20
3-year	.30	2.50

ROCK GARDENS. You may have some part of your property that is apparently too rocky and rough for anything to grow. This is just the place for rock gardens. With a little rearranging of the rocks, and the taking out of some of the poor soil and filling the space with good loam, you will be surprised how small a problem it would be to have a good show of rock plants. Why not let us offer you some helpful suggestions on the construction of the area to be used, and also the selection of rock plants for same? We have a good variety of strong, sturdy rock plants already for delivery to your garden.

Why not let us "cleft-graft" your fruit trees
this spring?

CHEBACCO NURSERIES

Deciduous Trees.

ACER platinoides (Norway Maple)

A little shorter and broader than the Sugar Maple. Has large dark green leaves. Makes a fine specimen tree, or a good tree to group in with others.

	Each	10	100
8 to 10 ft.	\$3.50	\$30.00	
10 to 12 ft.	4.50	40.00	

BETULA pendula gracilus (Weeping Birch)

A very attractive lawn tree, with tall and graceful form. Foliage finely cut.

7 to 8 ft.	\$4.00
-----------------	--------

CORNUS florida (White Flowering Dogwood)

A very ornamental tree when planted as an individual, or in groups. Produces an abundance of pure white flowers. Foliage turns a beautiful color in the fall; red berries.

5 to 6 ft.	\$5.00
6 to 7 ft.	6.50

C. florida rubra (Pink Flowering Dogwood)

Pink form of the above bearing large quantities of very attractive pink flowers. Strong healthy plants. 4 to 5 ft., balled and burlapped \$7.00

M. ioensis plena (Bechtel's Crab)

Double pink flowers like small clustered roses. One of the most desirable.

3 to 4 ft.	\$2.00	\$15.00
4 to 5 ft.	\$2.50	\$22.50

M. parkmaani (Parkman's Crab)

Bright rose-red, double flowers hang on long slender stems. Very desirable.

4 to 5 ft.	\$3.00
-----------------	--------

POPULUS nigra italica (Lombardy Poplar)

Fast growing pyramidal tree. Very useful for avenue planting and windbreaks.

8 to 10 ft.	\$1.00	\$9.00
------------------	--------	--------

PRUNUS persica (Purple Leaf Peach)

Produces shiny, deep reddish purple leaves upon long branchlets. Free flowering.

4 to 5 ft.	\$1.50
-----------------	--------

QUERCUS palustris (Pin Oak)

Pyramidal form; and drooping growth. Beautiful autumn foliage. Rapid grower. Well adapted for street planting.

8 to 10 ft.	\$6.50
------------------	--------

Q. rubra (Red Oak)

A broad tree of rapid growth with large rich green foliage, that turns a bronzy red in the fall. Will flourish in poor soil.

8 to 10 ft.	\$5.00
------------------	--------

It is seldom that a tree or plant is injured by overwatering.

CHEBACCO NURSERIES

SALIX babylonica (Babylon Weeping Willow)
 Splendid sort for formal effects. Has drooping long slender branches of olive green. Will grow in any good soil.

Each 10 100

10 to 12 ft. \$2.50

S. pentandra (Laurel Leaved Willow)

Ornamental tree of upright dense growth. Leaves dark glossy green. Good for seashore planting.

4 to 6 ft. \$.75 \$6.50

SORBUS aucuparia (European Mt. Ash)

Produces large clusters of orange berries, borne in abundance from July to winter, make this a very attractive small tree.

8 to 10 ft. \$3.50

TILIA americana (American Linden)

A fast tree with very fragrant yellow flowers. Very suitable for lawns, parks, and streets.

8 to 10 ft. \$3.50

ULMUS americana (American Elm)

The most beautiful of the elms. Spreading in habit, and very hardy. A fine avenue tree.

8 to 10 ft. \$2.50

10 to 12 ft. 4.00

ULMUS pumila (Chinese Elm)

A very popular small elm for street planting, which merits even wider favor. It grows very rapidly, and at maturity its slender, grayish branches form a dense pyramidal canopy of small fresh green leaves.

6 to 8 ft. \$2.00

Shrubs.

ACANTHOPANAX pentaphyllum (Aralia)

A graceful shrub, with arching, spiny branches, and bright green, shining foliage. Good for shady places, on rocky banks and slopes, and also for hedges.

2 to 3 ft. \$.50 \$4.50

3 to 4 ft.75 6.50

AMORPHA fruticosa (Indigobush)

The unusual, dark violet-purple flowers in June make this an exceptionally interesting shrub. It is of spreading habit, with fine, feathery foliage. Excellent for massing.

3 to 9 ft. \$.60 \$5.00

AZALEA arborescens

Large spreading shrub producing masses of white fragrant flowers in July. Dark green foliage.

2 to 2½ ft. \$4.50

A. calendulacea (Flame Azalea)

The most showy azalea. It remains in bloom several weeks, bearing a profusion of scentless orange yellow or flame red flowers, before the leaves appear.

18 to 24 in. \$3.50

Why not plant a well rooted tree. Costs no more.

CHEBACCO NURSERIES

(AZALEA continued)

A. Vaseyi

Pink flowering azalea blooming in early June.
Very desirable.

	Each	10	100
18 to 24 in.....	\$4.00	\$37.50	

A. Kæmpferi

Very desirable shrub, producing quantities of bright cerise pink flowers during the month of June. Hardy.

18 to 24 in.	\$4.00	\$37.50	
-------------------	--------	---------	--

BERBERIS thunbergii (Japanese Barberry)

This popular plant is the best for a low hedge, either for a formal or informal effect. The foliage turns a bright red in September, and the scarlet berries persist throughout the winter.

18 to 24 in.	\$.25	\$1.50	\$10.00
24 to 30 in.	.30	2.00	13.00

B. thunbergii minor (Box Barberry)

Very useful where a low hedge is desired. Can be kept to a height of five or six inches.

9 to 12 in., 2 year	\$.50	\$4.50	
---------------------------	--------	--------	--

BUDDLEIA alternifolia

Flowers are lavender purple with reddish crimson eye and are borne many together in compact rounded clusters from the axils of the leaves of the previous years shoot, and later in the year in those of the current season. It is the hardiest member of the family, and by blooming at high summer and continuing into the fall, it is a valuable mid-season plant New.

3 to 4 ft.	\$1.50		
-----------------	--------	--	--

B. magnifica (Butterfly Bush)

Produces fragrant, rosy purple flowers with orange yellow centers, from August to October. The stalks die back each winter, but grow to full size the next season.

2-yr. plants	\$.50	\$4.00	
--------------------	--------	--------	--

CALYCANTHUS floridus (Common Sweet Shrub)

A favorite shrub found in old fashioned gardens everywhere; will thrive in partial shade. It has fine, glossy foliage and pineapple scented, chocolate colored flowers that last far into the summer.

2 to 3 ft.	\$.75	\$6.00	
-----------------	--------	--------	--

CLETHRA alnifolia (Sweet Pepper Bush)

Native shrub with spikes creamy white, fragrant flowers throughout the summer. It thrives in shady damp places where many shrubs will not grow.

18 to 24 in.	\$.65	\$6.00	
24 to 36 in.	.75	7.00	

CORNUS alba (Red Branched Dogwood)

An erect stemmed shrub with good clean foliage and bright red branches. Very desirable for winter effect.

2 to 3 ft.	\$.50	\$4.50	
3 to 4 ft.	.75	6.00	
4 to 5 ft.	.90	8.50	

Berried shrubs attract the birds in winter.

CHEBACCO NURSERIES

CYDONIA japonica (Japanese Quince)

One of the first shrubs to bloom in the spring; very showy. Scarlet flowers; often used as a hedge

	Each	10	100
plant.			
18 to 24 in.	\$.80	\$7.00	
24 to 36 in.	1.00	9.00	

D. Pride of Rochester

One of the tallest and best deutzias. The large double white flowers, with the backs of the petals tinged rose, are borne in great profusion in July.

3 to 4 ft.	\$.65	
4 to 5 ft.	.85	

EUONYMUS alatus (Winged Euonymus)

A very desirable shrub, with yellowish flowers followed by red fruit. The foliage is brilliant red in autumn.

2 to 3 ft.	\$.90	\$ 8.00
3 to 4 ft.	1.15	10 00

E. europaeus (European Burning Bush)

This attractive shrub derives its common name from its profusion of red seed-pods appearing in autumn, which open and allow the orange-colored seeds to hang on delicate threads.

3 to 4 ft.	\$.75	\$6.00
4 to 5 ft.	.90	8.50

FORSYTHIA fortuneii (Fortune's Forsythia)

Upright grower, with a profusion of rich yellow flowers, and later by broad deep green foliage, turning purplish in the autumn. Very handsome.

3 to 4 ft.	\$.65	\$6.00
4 to 5 ft.	.90	8.50

F. spectabilis (Showy Border Forsythia)

Free bloomer; deeper yellow than the type. Vigorous and compact. Regarded by many as being the best of this family.

3 to 4 ft.	\$.75	\$6.00
5 to 6 ft.	1.25	

DESMODIUM bicolor

A very desirable shrub with rosy purple flowers in August and September.

4 to 5 ft.	\$.50	\$4.50
-----------------	--------	--------

HYDRANGEA paniculata grandiflora

(Peegee Hydrangea)

Very well known variety. It has large conical heads of white flowers becoming pink and red with age.

18 to 24 in.	\$.60	\$5.00
2 to 3 ft.	.75	6.50

H. p. g. (tree form)

3 to 4 ft.	\$1.50	
-----------------	--------	--

KOLKWITZIA amabilis (Beauty Bush)

A handsome new shrub from Korea. Hardy in New England. Produces delicate pink flowers, like tiny weigelia blossoms, tinted with yellow in the throat. Very popular.

12 to 18 in.	\$.60	\$5.00
18 to 24 in.	.85	7.50
2 to 3 ft.	1.00	9.00

Try "SUNOCO OIL SPRAY" for your evergreens and shrubs.

CHEBACCO NURSERIES

LIGUSTRUM ibolium (Ibolium Privet)

Very similar in appearance to the well known California Privet. It is absolutely hardy in this section.

	Each	10	100
2 to 3 ft.	\$.20	\$1.50	\$12.00
3 to 4 ft.	.25	2.00	15.00

L. ibota (Ibota Privet)

One of the hardiest and most graceful sorts. Fragrant white flowers in June, followed by black berries. Useful for specimens, mass planting and hedges.

3 to 4 ft.	\$.40	\$3.00
-----------------	--------	--------

Anyone desiring an immediate effect would do well to investigate this value.

LONICERA tartarica alba (White Tartarian Honeysuckle)

Similar to L. tartarica but has large pure white flowers and crimson fruit.

3 to 4 ft.	\$.65	\$6.00
4 to 5 ft.	\$.85	\$8.00

L. tartarica rosea

Flowers somewhat larger than the type, delicately tinged pink with deeper edges. Very desirable.

3 to 4 ft.	\$.75	\$7.00
4 to 5 ft.	.90	8.50

NOTE: Although we are listing only one kind of fertilizer in this catalogue, we have on hand at all times many different kinds of fertilizer as bone meal, sheep manure, nitrate of soda, sulphate of ammonia, 5-8-7, 4-8-4, etc. Kindly write us, and we will be very glad to quote on your wants.

MORUS alba pendula

Low tree about six feet high, with pendulous branches that reach to the ground. Bears luscious fruit. An old favorite.

2-year heads—5 to 6 ft..... \$3.00

PHILADELPHUS coronarius (Sweet Mock Orange)

Tall growing shrub, with upright branches, with a great profusion of pure white fragrant flowers in June and handsome, dark green foliage.

2 to 3 ft.	
3 to 4 ft.	
4 to 5 ft.	
5 to 6 ft.	

P. virginal (Fragrant Syringa)

Erect grower with very large double white flowers in June and continues to bloom from the tips of the new shoots until late in the fall. A great favorite.

2 to 3 ft. \$.90

RHUS cotinus (Common Smoke Tree)

A much admired shrub for it's clouds of purplish flowers borne in early June. In the fall the leaves turn to a brown, red and yellow.

3 to 4 ft.	\$.75
4 to 5 ft.	1.00

Prune carefully and at the right time.

CHEBACCO NURSERIES

SPIREA anthony waterer (Anthony Waterer Spirea)

A free blooming compact shrub, with bright crimson flowers, in broad flat heads. Makes a desirable low flowering hedge.

	Each	10	100
18 to 24 in.	\$.75	\$6.50	

S. thunbergii (Thunberg's Spirea)

A very graceful shrub, bearing many small white flowers in May. It carries fine feathery foliage which turns orange and scarlet in autumn.

2 to 3 ft.	\$.75	\$6.50
3 to 4 ft.	.90	8.50

S. trichocarpa (Korean Spirea)

A spreading shrub bearing rounded clusters of white flowers in May and June. A very desirable shrub for flowering hedges and shrubby groups. New.

12 to 18 in.	\$.50	\$4.50
3 to 4 ft.	1.00	9.00

S. Van Houtteii (Van Houtte's Spirea)

One of the old standbys in the shrub group. It's gracefully drooping branches are covered with beautiful bunches of tiny white flowers in June. Very good.

3 to 4 ft.	\$.75	\$6.50
4 to 5 ft.	1.00	9.00

SYMPHORICARPUS racemosa (Snowberry)

A fine shrub with decorative leaves and slender branches, which bend gracefully under a load of white, waxy berries in autumn. The flowers are rose pink and appear in July and August. Will stand partial shade.

2 to 3 ft.	\$.60	\$5.00
3 to 4 ft.	.75	7.00

S. vulgaris (Indian Currant—Coral Berry)

A compact grower having greenish red flowers, followed by dark purplish red berries in clusters. Will stand partial shade.

18 to 24 in.	\$.40	\$3.50
-------------------	--------	--------

SYRINGA vulgaris (Common Lilac)

A well known shrub. Strong, vigorous upright grower, with rich dark green foliage and large clusters of very fragrant purplish flowers in May. Useful as a hedge plant or when planted in masses.

3 to 4 ft.	\$1.00	\$9.00
-----------------	--------	--------

S. vulgaris alba (Common White Lilac)

Similar to *S. vulgaris* but with white flowers a week earlier than any other variety.

3 to 4 ft.	\$1.35	\$12.50
-----------------	--------	---------

S. vulgaris var. Ludwig Spaeth

Very attractive dark red single flowers. One of the best varieties among the dark colors.

2 to 3 ft.	\$2.00
-----------------	--------

S. vulgaris var. Marie Legraye

A very fine single flowering white lilac, perhaps the most popular of this color.

2 to 3 ft.	\$2.00
-----------------	--------

Plants must have food, water and cultivation to live.

CHEBACCO NURSERIES

VACCINIUM corymbosum (Highbush Blueberry Collected stock)

We can furnish plants of this variety ranging in size from one to six feet in almost any quantity. We feel that our stock of this variety is unsurpassed, because of the fact that it is grown in the open field thus allowing it to become very bushy and well developed. These plants will lift with a good ball of earth so necessary for their successful transplanting. The blossoms are white in early spring, followed by quantities of edible fruit in July. The foliage turns to varied shades of red and green in the autumn. Prices on application.

VIBURNUM carlesi (Fragrant Viburnum)

Dwarf shrub, bearing beautiful pink and white flowers resembling the Arbutus both in color and fragrance. Very desirable.

	Each	10	100
18 to 24 in.	\$2.50		
24 to 30 in.	3.50		

V. dilatatum (Japanese Bush Cranberry)

Handsome, free-flowering variety, with pure white flowers in May and June, followed by scarlet fruits; has bright green foliage, coarsely toothed.

3 to 4 ft.	\$1.25		
-----------------	--------	--	--

V. opulus (Tree Cranberry)

Very showy. Large clusters of bright red berries are borne freely in the late summer.

3 to 4 ft.	\$.75	\$6.50	
4 to 5 ft.	1.00	9.00	

V. tomentosum plicatum (Japanese Snowball)

It has handsome leaves and large heads of pure white flowers in June. Better than the common snowball in foliage and flowers.

2 to 3 ft.	\$.75	\$6.50	
-----------------	--------	--------	--

PRUNING? Yes, we do it. It does not make any difference whether your problem of pruning is one of just a few shrubs, or one of much larger proportions, we have the necessary tools and experienced men to execute the work. May we remind you that there is a right and a wrong time to prune so as to get the best results from your trees and plants. Just call us and we will be glad to advise.

WEIGELIA Eva Rathke (Deep Red Weigelia)

Very showy with dark brownish red flowers, brightened by a light center. Profuse bloomer, and very popular.

3 to 4 ft.	\$.65	\$6.00	
-----------------	--------	--------	--

W. rosea (Rose Colored Weigelia)

A very free flowering shrub with bright pink flowers; very vigorous grower.

2 to 3 ft.	\$.60	\$ 5.00	
3 to 4 ft.	.75	6.50	
5 to 6 ft.	1.25	11.00	

Don't hesitate to ask for information as to the care of plants.

CHEBACCO NURSERIES

VINES

- ACTINIDIA arguta** (Bower Actinidia)
A strong growing Japanese vine. White flowers, with purple center and round, edible fruit of sweetish flavor.
	Each	10	100
2-year, No. 1	\$.75	\$6.50	
- AKEBIA quinata** (Five Leaved Akebia)
A graceful and rapid growing vine, which is hardy and not attacked by insects. The foliage is fine and bears rosy purple flowers in early summer, followed by ornamental fruit. This vine is free from insects.
2-year, No. 1	\$.75	\$7.00
- AMPELOPSIS quinouefolia** (Virginia Creeper)
A vigorous high climbing vine, with crimson foliage in autumn. Valuable where a quick covering is desired.
3-year, No. 1	\$.75	\$6.50
- A. tricuspidata veitchi** (Boston Ivy)
A vine which will give a dense covering for walls, rocks, and stumps. The foliage will stand smoke and dust well, and turns to a brilliant orange and scarlet in the fall. A very good substitute for English Ivy.
2-year, No. 1 from 4 in. pots	\$.75	\$6.50
- BIGNONIA radicans** (Trumpet Creeper)
A hardy vigorous vine, with large trumpet shaped flowers of glowing orange-red in August.
3-year, No. 1	\$.50	\$4.50
- CELASTRUS orbiculatus** (Oriental Bittersweet)
Tall vigorous climber, having orange scarlet fruit in the autumn. The fruit is much desired for winter decoration.
3-year, No. 1	\$.65	\$6.00
- CLEMATIS paniculata** (Japanese Clematis)
A strong grower and profuse bloomer with fine foliage. The flowers are medium-sized, pure white, very fragrant, and are borne in great profusion.
4-year, No. 1	\$.75	\$6.50
- LONICERA halleana** (Halls' Honeysuckle)
A vigorous grower with fragrant yellow and white flowers from mid-summer till frost. Much used as a ground cover.
4-year, No. 1	\$.60	\$5.00
- POLYGONUM auberti** (Silver Lace Vine)
A rapid-growing vine, climbing gracefully on a trellis, tree-trunk, an arch, or any other support. It will rapidly climb 20 feet or more, with fresh green foliage, lightly bronzed at the tips, and a profusion of silvery white, lacy flowers in erect sprays rivaling the Clematis paniculata which blooms at approximately the same time in August or September.
2-year, No. 1	\$1.00	\$9.00
- WISTERIA sinensis** (Chinese Wisteria)
Hardy, fast, tall growing climber with pale green foliage, and long clusters of purplish pea-shaped flowers in May.
4-year, No. 1, 2 to 3 ft.	\$1.15	\$10.00

We supply all kinds of fertilizers and spray materials.

CHEBACCO NURSERIES

Hybrid Tea or Everblooming Roses.

What could be more beautiful than a bed of Hybrid Tea roses blooming from July to frost?

These roses will give an abundance of bloom from June until frost. They require a liberal fertilizing each year, and do not allow the soil where they are planted to become dry during the blooming season. Special cultural directions pertaining to roses will be mailed free upon request.

Prices of Hybrid Tea Roses listed below except as noted are 75 cets. each; \$6.50 per 10; \$55.00 per 100.

Dame Edith Helen

One of the most perfect shaped and largest pink roses known. Blooms freely, with long, strong stems. The most perfumed of all pink roses. \$1.00 each; \$9.00 per 10.

Duchess of Wellington

Vigorous grower, with long saffron yellow buds opening to very large yellow flowers. Very popular.

Independence Day

Spreading bushy plants. Vivid apricot yellow flowers. A bed of it always makes a glorious display of color.

K. A. Victoria

Free flowering white rose. Fragrant. Very desirable.

Los Angeles

Beautifully shaped, fragrant flowers of pale salmon pink, richly shaded with deep rose and gold. Very popular.

Red Radiance

A bright rosy red form of Radiance. Vigorous constant bloomer.

Rose Marie

Large, dark satiny pink blooms of excellent form and fragrance.

Sunburst

Rich yellow, cupped flowers shaded with orange.

Souvenir de Claudius Pernet

Deep yellow, the blooms holding their color exceptionally well. Very vigorous.

William F. Dreer

A bright yellow flower of the Los Angeles type, shaded with coppery pink.

Lowest prices consistent with the highest quality.

CHEBACCO NURSERIES

Climbing Roses.

Under this heading we find a group of plants which are adapted for many different uses. They may be used in almost any location where a climbing plant is desired, with the added feature that they produce a great quantity of bloom. The range of color is almost limitless, and the flowers vary from tiny clustered rosettes to large blooms for cutting borne on fine long stems.

Prices of Climbing Roses listed below, except as noted, are 75 cts. each; \$6.50 per ten; \$55.00 per 100.

American Pillar

Very hardy climber, with waxy foliage, bearing great clusters of large, sparkling pink, single flowers with a round white eye, and bright golden stamens.

Aviateur Bleriot

Beautiful twining growth with holly-like leaves, and lemony buds, which open to clusters of medium sized, beautifully shaped, white flowers with pale yellow centers.

Dr. Van Fleet

Shiny leaved climber, which produces roses of the hybrid tea type on long stems suitable for cutting. The flowers are of the palest shade of pink, with a slightly darker center.

Mary Wallace

Similar in habit to the Dr. Van Fleet, except that the blooms are brilliant pink with a yellow undertone, and are borne in big clusters. A very popular variety.

Paul's Scarlet

Brilliant scarlet flowers of large size. Fast grower, and suitable for tying to a post or pillar. Very showy.

Silver Moon

Vigorous grower, cream to a white blossom, shiny foliage. Very desirable.

White Dorothy

Snowy white double flowers in immense clusters. Plant very vigorous and easily trained.

If you have some varieties of fruit trees on your place at the present time that you do not particularly care for as to variety, why not have them cleft grafted to some other variety that you desire? An average apple tree will bear in four to seven years. A tree that is grafted will bear in about three years from the time of grafting. We make our own grafting wax. Kindly let us go over this problem with you.

Ask about our special method of moving large trees. Interesting.

CHEBACCO NURSERIES

POLYANTHA ROSES

The roses of this group are many flowered as the name polyantha indicates. The small flowers are borne in clusters steadily throughout the summer, and make dwarf bushy plants suitable for edging beds of Hybrid Perpetuals paths, fountains, pools, or shrubbery borders. The most continuous bloomer of all the roses.

Miss Edith Cavell

Semi-double flowers of brilliant scarlet-red, produced in compact corymbs by sturdy well branched plants. 75 cts. each; \$6.50 per 10.

Orange Perfection

Large clusters of reddish orange buds, and blooms; continual bloomer. 75 cts. each; \$6.50 per 10.

HYBRID RUGOSA ROSES

A group of very hardy, large-growing shrubs with peculiarly rough healthy foliage, and large, showy flowers. Usually they bloom on and throughout the entire season, and they are particularly attractive in autumn when they bear their giant crimson fruits among their buds and flowers.

Pink Grootendorst

Excellent foliage; a very free bloomer; blooms almost continuously throughout the season. 90 cts. each; \$7.50 per 10.

Sir Thomas Lipton

Tough hardy shrub, reaching large size and producing very fine, pure white flowers in great abundance. A fine almost everblooming variety. 75 cts. each; \$6.50 per 10.

Rosa Rugosa Rubra

Species. Very large single flowers, varying in color from purple red to a bright rosy pink. Foliage and growth very fine. Very hardy. 75 cts. each; \$6.00 per 10.

ANNUAL PLANTS. Our annual seedlings are all grown with plenty of room to develop a good sturdy plant. We carry a good variety of annuals for planting during the latter part of May and June. We handle tulips, narcissus, lilies, etc., in the fall. Let us quote on your requirements. Why not try them?

We are equipped to take care of your spraying problem.

CHEBACCO NURSERIES

Hardy Herbaceous Perennials.

This question has always been uppermost in our minds? Do the majority of the people, who may be interested in flowers, realize how easy it is to grow this fine class of hardy plants, and also the satisfactory results to be obtained therefrom? From the time they are planted, the plants continue to increase in size with each succeeding year. With the increase in the size of the plants, there naturally comes an increase in the size and quality of the bloom.

With a little study of the characteristics of the various kinds, one can select the plants so as to procure an unbroken succession of bloom from early spring to late fall.

Is it not interesting to see the new green growth burst out of the ground in the spring, and blossom forth in a few short weeks from that time?

It is generally conceded, by most people, to be a good plan to plant at least three good sized clumps of a particular variety as a group in a border planting thereby getting the group effect which is so desirable.

In this classification we find some varieties which grow only a few inches in height, while others grow to a height of 6 to 8 feet.

Extra large clumps can be supplied in many varieties, at a proportionate increase in price, according to size and quality.

Except as otherwise noted, the price of all hardy perennials listed is: 25 cts. each; \$2.20 per 10; \$18.00 per 100.

The asterisk (*) indicates varieties particularly well adapted for the rock gardens.

Achillea ptarmica, The Pearl. 2 ft. July to October. Small heads of pure white flowers borne in great profusion on strong wiry stems. It is of great value for mixing with other cut-flowers.

Aconitum fischeri. (Azure Monkshood. 1½ to 2 ft. September and October. Short spikes of large, clear blue flowers and bright, glossy foliage. One of the finest for late flowers.

***Allyssum saxatile compactum.** (Dwarf Goldentuft). 1 ft. Mid-April to June. A very showy spring plant for the rockery or border, having fragrant yellow flowers in clusters, and silvery foliage.

***Armeria maritima Lauchiana** (A. vulgaris Lauchiana). Sea Pink; Thrift. Fine plant for rockeries or edgings. Flowers bright pink. May to July. 1 ft. 35cts. each; \$2.40 for 10; \$18.00 per 100.

Anchusa italica, Dropmore. (Dropmore Bugloss). 4 to 5 ft. May. An improved variety of the preceding, with rich gentian-blue flowers. One of the most desirable perennials.

A home well planted pays good dividends.

CHEBACCO NURSERIES

- Anemone hupehensis.** (Chinese Anemone). 1 to 2 ft. Late summer.* Similar to the Japanese sorts, with somewhat smaller, mauve-pink flowers on tall stems. 90 cts. for 3, \$2.50 for 10.
- Anthemis tinctoria kelwayi.** (Kelway Camomile). 2 to 3 ft. June to October. Pretty lemon-yellow flowers similar to the preceding. Good for cutting and for the border.
- ***Alpinus speciosus.** One of the finest hardy plants for borders, clumps, rockeries, and for cutting. Fine deep blue flowers. June, July. 1 ft.
- ***A. formosa, Long-spurred Hybrids.** (California Columbine). 2 to 3 ft. May to July. Large flowers of a bewildering wealth of delicate colors. Spurs very long and fine. Foliage broad and ornamental.
- ***A., Mrs. Scott Elliott's Hybrids.** Various shades of pink.
- ***Aquilegia pink.** Beautiful shades of pink. Long spurred. Good for cutting or rockery.
- ***Arabis alpina.** (Alpine Rock Cress). 9 in. April and May. Flowers smaller but similar to the former variety and produced in even greater profusion. One of the best rock plants. 75 cts. for 3, \$2.20 for 10.
- ***Armeria formosa** (Statice pseudo-armeria). Thrift; Sea Pink. A pretty edging plant with deep pink flowers. May to September. 1 ft. 30 cts. each; \$2.50 for 10.
- ***Arenaria montana.** (Mountain Sandwort). 4 to 6 in. May and June. Very desirable evergreen trailing plant, forming a dense carpet of foliage and covered with large white flowers. Splendid for the rock garden.
- Aster-Barr's Pink.** Height 3 ft. Large flowered, early blooming aster, of a deep shade. Very desirable.
- A. novi-belgi.** (New York Aster). 3 to 5 ft. September and October. Pale blue flowers of medium size. One of the most distinct and beautiful. Excellent in shrubbery and border.
- ***Astilbe japonica.** (Japanese Astilbe.) 1 to 3 ft. June and July. Its plume-like spikes of pure white flowers and pretty dark green foliage make this a valuable sort for shady places in the garden or forcing. 30 cts. each; \$2.50 per 10.
- ***A. japonica, Peach Blossom.** 15 to 18 in. July and August. Soft pink flowers. 40 cts. each, \$3.50 for 10.
- ***Campanula carpatia.** (Carpathian Bellflower). 9 in or more. June to September. The dark blue flowers are unusually large for so small a plant. A very popular plant for border or rock garden.
- ***C. garganica.** (Gargano Harebell). 3 to 6 in. June to September. Flowers blue, profusely produced. Excellent for trailing out rocks. \$1.05 for 3; \$2.70 for 10.
- ***C. glomerata dahurica.** (Dahurian Bellflower). 1½ to 2 ft. or more. June and July. A splendid form bearing rich purple flowers in clusters on the ends of the shoots. Especially good for cutting.

Try our pasture sod for your steep terrace.

CHEBACCO NURSERIES

C. medum. (Canterbury Bells). 2 to 3 ft. Late June and July. Very large, bell-shaped flowers of blue, white, pink, and mixed. This is, perhaps, the most delicately beautiful of all. The white and pink kinds are especially lovely. Colors separate or mixed as desired.

C. persicifolia grandiflora. Large, deep blue, salver-shaped flowers. 2 ft. July and August.

***C. rotundifolia.** (Harebell). 1 ft. June to August. In the wild it is more slender and taller than in the garden. Clear blue flowers. Especially suited for crevices in the rock garden or steep slopes, where it can show its pendent habit. This is the true Bluebell of Scotland.

Carnations, Hardy Garden. A delightful class of fragrant, hardy plants, blooming profusely from May to June. They are indispensable for the hardy border and for cutting. The blooms are of good size, fragrant, and come in a great variety of color.

Cassia marilandica. (Wild Senna). 3 to 4 ft. June to September. A splendid border plant with bright yellow flowers in clusters at the tops of the stems. Fine light green foliage. Good for planting among shrubbery.

***Centurea montana.** (Mountain Bluet). 20 in. July and August. A low, bushy plant with big bluish violet flowers, like enormous cornflowers. Valuable for cutting and very effective in the border mixed with pale pink, yellow, or white flowers.

***Cerastium tomentosum.** (Snow-in-Summer). 3 to 6 in. May and June. Spreading plant with silvery foliage covered with a sheet of small white flowers. Used principally for edging and rockwork. It is especially good in the corners of stone steps and its gray foliage looks well with low pink flowers.

Chrysanthemum maximum, King Edward. 3 ft. July to October. New. One of the largest and finest varieties, producing Marguerite-like flowers of glistening white.

NAMED HARDY CHRYSANTHEMUMS.

Barbara Cummings. New. Large clear yellow flower shading to orange-bronze at the center. Starts to flower in late August. Flowers come to about 3 inches in diameter. Large early pink.

Cometo (Button). Large early pink.

Model of Perfection. (Button.) A vigorous growing, free flowering white.

Ouray. Large bronze button.

Frances Whittlesey. Habit is stocky and dwarf averaging 18 inches in height. Color, rich bronze and garnet. Begins to flower in September. Frost resistant.

Cimicifuga racemosa. (Cohosh Bugbane). 4 to 6 ft. July to September. A stately plant, with fine, long, elegantly twisted racemes of feathery white flowers. Effective against a dark background in a moist, shady corner. Fine for naturalizing.

***Convallaria majalis.** (Lily-of-the-Valley). 8 in. May, June. So familiar to everyone that we scarcely need to describe it. Large, luxuriant foliage, with sprays of small, bell-shaped flowers of most delightful fragrance. Strong clumps, 50 cts. each; \$4.50 for 10; \$40 per 100.

Keep your plantings well cultivated and free from weeds.

CHEBACCO NURSERIES

C. lanceolata. (Lance Coreopsis). 2 ft. June to September. Large, cosmos-like flowers of pure yellow. An excellent showy garden plant and beautiful when cut.

Delphinium formosum belladonna. Pale blue flowers, occasionally touched with mauve, in spreading sprays which bloom almost all season. This is especially good near pink rambler roses or among Madonna lilies.

***D. grandiflorum chinense.** (Slender Larkspur). 2 to 3 ft. June to August. One of the finest of the lower-growing types, with numerous very large flowers of varying shades of blue, lilac, mauve, and pale blue.

D. Blackmore and Langdon Strain. Magnificent new race of Hardy Larkspurs producing enormous spikes of bloom in many new and lovely shades. The flowers are very large and come in both single and double forms. The plants branch feerly and continue to flower all summer. 60 cts. each; \$5.00 for 10; \$40.00 per 100.

***D. barbatus.** (Sweet William). 10 to 20 in. June and July. One of the oldest garden flowers, which perpetuates itself by self-sowing. Flat heads of fringed flowers, many marked with a distinct eye, varying through shades of pink, red, and white.

D. barbatus, Newport Pink. An especially choice variety of a lovely salmon-pink color.

***D. plumarius.** (Grass Pink). 9 to 12 in. June. Pink, purplish, and white, fragrant flowers. An old-fashioned favorite much used for edging and bedding. Especially good for border or rock garden. Bloom continuously if flowers are cut when they begin to fade.

***D. deltoides.** (Maiden Pink). 6 in. June and July. One of the prettiest border Pinks of creeping habit, with dark red and crimson-eyed flowers. Good for rock garden.

Dicentra spectabilis. (Bleeding-heart). 2 ft. Late April to July. Large, rosy red, heart-shaped flowers. A fine old-fashioned flower desirable for planting in the shade. 75 cts. each, \$7 for 10.

Digitalis purpurea gloxiniaeflora. One of the old-fashioned garden plants. Should be planted in masses. Needs protection in this locality. The most popular variety. Flowers from white to deep purple, some cream or yellowish. 4 ft. June, July.

Eryngium amethystinum. Sea Holly. An effective plant for the hardy border, shrubbery and wild gardens, with amethyst-blue thistle-like flowers and finely cut spiny leaves. July. 2 to 3 ft. 30 cts. each; \$2.40 for 10.

Gaillardia aristata grandiflora. 2 ft. July to autumn. Large, gorgeous flowers of crimson and gold are borne throughout the season.

All our stock is freshly dug. No cellars.

CHEBACCO NURSERIES

G. aristata, Portola. A much improved variety with flowers of exceptional size and substance, brilliantly colored. This is a decided improvement in color, habit, and refinement over the varieties commonly grown. 90 cts. for 3, \$2.50 for 10, \$20 per 100.

Gaillardia-Dazzler. Very large golden yellow flowers, with a rich maroon-red center. Fine for cutting.

***Geum chiloense, Mrs. Bradshaw.** 12 to 15 in. June to September. A very choice variety with large, double, brilliant scarlet flowers.

Gypsophila paniculata fl.-pl., Bristol Fairy. 2 to 3 ft. June to October. This is a highly improved form of the preceding variety, with flowers two to three times as big, beginning to bloom two weeks earlier and continuing throughout the whole season, blooming on the tips of new side shoots. The flowers are larger, double, with a clearness of color lacking in the older type: and graceful, delicate, and misty as it was, Bristol Fairy is superior. The stock is still very limited. 75 cts. \$6 for 10, \$50 per 100.

***Helianthemum multiflorum.** Flowers orange-pink, June to September. 4 to 6 inches. 30 cts. each; \$2.50 per 10.

Helenium autumnale. (Common Sneezeweed). 4 to 6 ft. August and September. An elegant autumn plant with showy golden yellow flowers borne at the top of branching stems. Suitable for planting among shrubbery.

H. autumnale rubrum. 4 ft. September and October. In color the flowers resemble the blood-red English wall flowers. Fine for cutting.

***Heuchera sanguinea.** (Coral Bells). 12 to 18 in. June to September. A splendid border or rock plant with big rosettes of leaves from which rise clusters of slender stems bearing showers of tiny crimson bells. Pretty for cutting and excellent for the rock garden.

***H. Brizoides.** Vigorous grower; tall light pink flowers. Fine for cutting.

Hibiscus moscheutos, Mallow Marvels, Red, White, Pink, and Mixed. A robust type of upright habit, producing an abundance of flowers of enormous size in all the richest shades.

HOLLYHOCKS

Double in colors. Pink, red, and yellow.

H. plantaginea grandiflora. (Big Plantain Lily). This is the variety found in old gardens and yards, with big ribbed leaves and tall stems of waxy white flowers. 50 cts. each, \$4.50 for 10.

***Iberis sempervirens.** (Evergreen Candytuft). 1 ft. May. Of loose, spreading habit and distinctive narrow evergreen foliage. Flowers pure white, completely covering the plant. Splendid for rock garden; good for edging borders.

Allow us to submit plans for the development of
your garden.

CHEBACCO NURSERIES

GERMAN IRIS

- Eldorado.** (Vilmorin, 1910.) 7.8 S. bronzy yellow stained mauve; F. violet and yellow-bronze. 2½ ft. 30 cts. each, \$2.40 per 10.
- Lent A. Williamson.** (Williamson, 1918.) 9.0 S. mysterious lavender-violet with silky sheen; F. velvety purple with a dull blackish shadow and rich velvety texture. Center brightened by a showy gold-orange beard. One of the finest Irises in existence. Flowers very large on stems 4 ft. high. 50 cts. each; \$4.00 per 10.
- Lohengrin.** (Goos & Koenemann, 1910.) 8.2 S. and F. light lilac-pink with a soft, silvery sheen. Strong, erect stems. Very handsome. 35 cts. each, \$3 for 10.
- Lord of June.** (Yeld, 1911.) 9.1. S. light silvery blue; F. darker, marked with brown at the base. Very large, stately flowers on tall stems. One of the most beautiful of all Irises. 75 cts. each; \$6.50 per 10.
- Loreley.** (Goos & Koenemann, 1909.) 7.9. S. light yellow; F. deep sea-blue, with creamy edging. 32 in. 35 cts. each, \$2.70 for 10.
- Niebelungen.** (Goos & Koenemann, 1910.) 7.3 S. fawn-yellow; F. violet-purple on bronze. Large 2½ ft.
- Pallida Mandraliscæ.** S. and F. clear blue; large and handsome. Height, 3 ft. 35 cts. each, \$3.00 per 10.
- Pallida Dalmatica.** Height 36 in. A much sought variety with strong, broad leaves and wide petaled lavender flowers. Fine for massing. 25 cts. each, 3 for 65 cts, 12 for \$2.40.
- Rose Unione.** Deep rose. Darker than Her Majesty. Early. 30 cts. each, \$2.40 for 10.

JAPANESE IRIS

- Gold Bound.** Large white flowers, yellow center; six petals. 65 cts. each; \$5.00 per 10.
- Mixed Colors.** Large clumps in various colors.

SIBERIAN IRIS

- ***Sibirica Orientalis.** Height, 42 in. Rich deep blue, very attractive in the opening bud. Blooms about mid-June. 25 cts. each, 3 for 65 cts., 12 for \$2.40.
- ***Sibirica, Snow Queen.** Height 42 in. Pure white with soft yellow throat. A companion to the blue variety. 25 cts. each, 3 for 65 cts., 12 for \$2.40.
- Lathyrus latifolius.** (Perennial Pea). 4 ft. July to September. Clusters of large, bright rosy red flowers, on long stems produced in abundance. Can be used as a tall, bushy perennial, or makes an excellent vine for covering rocks, stumps, and walls.
- ***Lavandula officinalis (vera).** (True Lavender). 1½ ft. July and August. This is the true Sweet Lavender. Delightfully fragrant blue flowers. \$1.05 for 3, \$2.70 for 10, \$20 per 100.

Let our experienced men do your pruning.

CHEBACCO NURSERIES

- Lilium auratum.** (Goldband Lily). 3 ft. July and August. Gigantic, pure white flowers with tiny crimson spots and a broad gold band through each petal. Especially effective scattered in rhododendron beds or massed in border. \$1.50 for 3, \$4 for 10, \$30 per 100.
- L. regale.** (Royal Lily). 2 to 3 ft. This variety has enormous white flowers, shaded pink or purple, with a canary-yellow center. Undoubtedly the easiest of the white Lilies to grow and will grow almost anywhere, so long as the flowers can reach the sunlight. Lovely on top of a wall, or in the higher sections of the rock garden where it can be looked up to. \$1.80 for 3, \$5.50 for 10, \$50 per 100.
- L. speciosum album.** (White Speciosum Lily). 3 ft. August and September. Large, pure white, fragrant flowers. Fine for planting among rhododendrons. 75 cts. each, \$6 for 10, \$50 per 100.
- L. speciosum rubrum.** (Red Speciosum Lily). 3 ft. August and September. Large, fragrant flowers of light pink with a crimson stripe and many deep pink dots. Fine for planting among rhododendrons. \$1.20 for 3, \$3.50 for 10, \$25 per 100.
- ***Linum perenne.** (Perennial Flax). 1½ ft. May to August. A desirable bushy little plant with wiry stems and a multitude of large, clear blue flowers. Good in either border or rockery.
- ***L. alpinum.** Prostrate grower; blue flowers. Fine for rock garden planting.
- Lupinus polyphyllus.** (Washington Lupine). 2 to 3 ft. June to September. Beautiful plants with handsome leaves and deep blue, pea-shaped flowers in bold, long spikes. Cut off faded flowers to insure continuous bloom.
- L. polyphyllus roseus.** (Bush Lupine). 3 ft. June to September. Very charming sort with rosy pink flowers. A free bloomer.
- ***Lysimachia nummularia.** (Moneywort). 4 in. June and July. A rapid-growing, creeping plant with round, shining leaves arranged in pairs, and small, yellow, bell-shaped flowers. Valuable for hanging-baskets, rockwork, and walls, where it will make dense mats of foliage and flowers. 75 cts. for 3, \$2.20 for 10, \$15 per 100.
- ***Myosotis scorpioides semperflorens.** (Perpetual Forget-me-not). 8 in. All summer. Bright blue flowers in clusters, each one lit with a bright yellow eye. A very charming edging or rock-garden plant of more spreading habit than the preceding.
- ***Nierembergia rivularis.** Whitecup. A creeping rock-plant for sunny situations. Creamy white, cup-shaped flowers. This plant is of easiest cultivation and will quickly adapt itself to the conditions found in any part of the garden. June, July. 8 in.
-

Extra large clumps of perennials charged according to size.

CHEBACCO NURSERIES

- ***Oenothera fruticosa youngi.** (Young's Sundrops). 2 ft. June to August. Strong, stocky, large-leaved plant with firm, shiny foliage and numerous bright lemon-yellow flowers.
- Peony Festiva Maxima.** (Mieliez, 1851.) 9.3. An old variety which carries a very high rating because of its superb, enormous, pure white flowers with occasional crimson flakes, its tall stems, and abundant blooming habit. One of the finest Peonies and essential to every collection. Early. 75 cts. each, \$6.50 for 10.
- Karl Rosenfield.** (Rosenfield, 1908.) 8.8 Double, light crimson flowers of shapely form with distinctly waved and curling petals. Vigorous, floriferous plants with tall, strong stems. The finest red Peony at a moderate price, and by some regarded as the best of all. \$1.00 each; \$9.00 per 10.
- Edulis Superba.** (Lemon, 1824.) 7.6 Splendid, early flowers of rich rose-pink, with a fluffy, mounded or tufted center of lighter shades; fragrant. Tall, but stems bend, and very floriferous. An indispensable variety for its cheerful, extremely early flowers, and widely popular. 75 cts. each, \$6 for 10.
- ***Papaver nudicaule - Tibet.** New. Large orange blossoms. Vigorous grower. Has a very satisfactory blooming period from August to late October, together with the regular blooming period. 40 cts. each; \$3.50 per 10.
- ***Papaver nudicaule - Tangerine.** New Fine deep orange-scarlet. 30 cts. each; \$2.50 per 10.
- P. orientale. Mrs. Perry.** (Oriental Poppy). 2 to 3 ft. May to July. Glowing pink flowers of giant size, with black blotch at base of each petal. A good plant for hardy or shrubby borders. 90 cts. for 3, \$2.40 for 10; \$18 per 100.
- ***Pentstemon pubescens.** Very desirable rock plant bearing many flowers of a rosy purple shade. Foliage dark green turning to a rich bronze shade in late summer and fall.
- P. torreyi.** (Torrey's Pentstemon). 2½ to 3½ ft. July. One of the best varieties. Tall, loose spikes of scarlet flowers. Will bloom constantly if flowers are cut.
- Phlox glaberrima suffruticosa, Miss Lingard.** 2 to 3 ft. June and July. A fine white variety with very faint lilac eye and large individual florets.
- ***P. subulata.** (Moss Pink). 4 in. May and June. Forms a carpet of moss-like foliage, covered with pink flowers. A superb ground-cover and rocker plant which gets better year by year. 75 cts. for 3, \$2.20 for 10, \$15 per 100.
-

We do practically all kinds of landscape construction.

CHEBACCO NURSERIES

- Phlox-Beacon.** Brilliant cherry-red; very effective shade.
- P. Coquelicot.** Orange-scarlet. One of the most showy. \$1.05 for 3, \$3 for 10, \$24 per 100.
- P. Enchantress.** Very bright salmon-pink. Large trusses. Similar to Elizabeth Campbell, but a little brighter. \$1.05 for 3, \$3 for 10, \$24 per 100.
- P. Frau G. von Lassburg.** Pure white flowers in enormous panicles. Late.
- Physostegia virginiana rubra.** (False Dragonhead). July to September. Erect plants with small slender spikes of beautiful pink flowers of curious form.
- Platycodon grandiflorum.** (Balloon Flower). 18 in. June to October. Large, showy, deep blue flowers.
- ***P. grandiflorum mariesi.** (Maries' Balloon Flower). 12 to 15 in. July until late September. A beautiful dwarf species with broad, thick foliage and large, deep violet-blue flowers.
- ***Polemonium cæruleum.** (Greek Valerian). 1½ to 2 ft. June to September. Long, fern-like foliage, with the shoots surmounted by terminal clusters of bell-like blue flowers.
- ***Primula acaulis (vulgaris).** (English Primrose). 6 to 8 in. May and June. The true English Primrose is a delightful, much-prized plant, forming tufted rosettes of leaves among which the charming light yellow flowers nestle on the tip of slender stems. A beautiful little rock-garden plant or edging for an informal path, and makes a delightful combination with myosotis. \$1.05 for 3, \$2.70 for 10, \$20 per 100.
- ***Pulmonaria angustifolia azurea.** Azure Lungwort. English Blue Cowslip. Fine dwarf perennial with ornamental foliage and profuse, sky-blue flowers in early spring. Invaluable for rockery or border planting. 9 in. Clumps 75 cts. each.
- ***Pyrethrum roseum-mixed hybrids.** One of the best hardy perennials for cutting. Shades of pink, crimson, and white.
- Rudbeckia speciosa (newmanni).** (Showy Coneflower) 2 to 3 ft. July to October. Large yellow or orange-yellow flowers 3 to 4 in. across. Fine for cutting.
- ***Salvia azurea grandiflora.** (Great Azure Sage). 2 to 3 ft. August and September. Plants of shrubby habit, with beautiful light blue flowers in long, slender spikes.
- ***Salvia pratensis.** (Meadow Sage.) Large spikes of rich blue flowers. July, August. 1½ ft. 30 cts. each; \$2.40 for 10.
- ***Saponaria ocymoides.** (Rock Soapwort). 6 in. May to August. A half-trailing plant, useful for rock-work, with bright pink flowers in loose, broad cymes. Very showy and effective clambering over stones

We are fully equipped to take care of your landscape problems.

CHEBACCO NURSERIES

- ***Saxifraga Macnabiana.** Long, graceful sprays of white flowers, spotted crimson.
- ***Scabiosa caucasica.** (Caucasian Scabiosa). 18 in. June to September. Vigorous, handsome border plant with large, soft lilac-blue flowers on long stems, useful for cutting. \$1.05 for 3, \$2.70 for 10, \$21 per 100.
- ***Sedum acre.** (Gold Moss). 4 in. May and June. A little, low, tufted plant with pulpy light green leaves and with masses of yellow flowers. Good for edging and covering ledges. 75 cts. for 3, \$2.20 for 10, \$15 per 100.
- ***S. dasyphyllum.** (Leafy Stonecrop). 2 to 4 in. Tufted, branching plant with crowded, fleshy leaves, studded with crystals. Flowers pinkish in flat clusters.
- ***S. Hispanicum.** Foliage greenish gray turning reddish. Flowers pinkish white. 3 to 4 inches.
- ***S. sarmentosum.** (Stringy Stonecrop). A slender, creeping plant with whorled, thread-like leaves and flat heads of small, fleshy, yellow flowers.
- ***S. spectabile.** (Showy Stonecrop). 18 in. An erect-growing plant with broad green foliage and large heads of handsome rose-colored flowers. One of the best plants for rock garden or border of shrubbery bed.
- ***S. spectabile, Brilliant.** 1 ft. September and October. A more richly colored form of *S. spectabile*, being a bright amaranth-red.
- S. stoloniferum.** (Running Stonecrop). 4 in. July and August. A trailing plant, and one of the most desirable Sedums. It has flat, fleshy leaves and pink flowers.
- ***Sempervivum soboliferum.** (Hen and Chickens). 6 to 9 in. Compact little tufts with many loosely attached offsets which roll away and make new colonies. Pretty silvery foliage, lightly tinged bronze. Flowers yellow, in dense, fleshy spikes. 75 cts. for 3, \$2.20 for 10, \$15 per 100.
- ***Sidalcea, Rosy Gem.** 4 ft. One of the finest of the new hybrid sorts. Its graceful spikes of rose-pink flowers resemble the larkspur.
- ***Silene schafta.** (Schafta Catchfly). 4 to 6 in. June to September. Cushion-like plant with clusters of rose-pink flowers on stems springing from the rosettes of leaves. Beautiful for rock garden or edging.
- ***Statice incana.** A very charming Sea Lavender. Esteemed for bouquets. 30 cts. each; \$2.50 per 10.
- ***Stokesia cyanea.** Bears from July to October, large, light blue flowers resembling semi-double asters.

Don't allow any fertilizer to come in contact with the roots of plants.

CHEBACCO NURSERIES

Spirea palmata (*Filipendula palmata*). (Crimson Meadowsweet.) Beautiful rosy crimson flowers on erect stems. June, July. 3 ft. 35 cts. each; \$3.00 for 10.

***T. serpyllum lanuginosus**. (Woolly Thyme). 3 to 4 in. June to August. Downy gray foliage. Effective for compact carpeting and edging.

***Trollius europaeus**. (Common Globeflower). 1 to 1½ ft. May to August. A valuable border perennial, with large, globular, lemon-yellow buttercup-like flowers on long stems. \$1.20 for 3, \$3.50 for 10, \$30 per 100.

***T. europaeus, Orange Globe**. 2 ft. June to August. A strong, sturdy grower, with large, globular flowers of a rich, deep glowing orange. Free blooming. 50 cts. each, \$4 for 10, \$36 per 100.

***T. ledebouri**. (Ledebour Globeflower). A giant in the family, 3 feet or more tall. Flowers bright yellow, spread open more than other sorts. 40 cts. each, \$3.50 for 10, \$30 per 100.

***Veronica gentianoides**. A beautiful variety with spikes of large pale blue flowers, edged with dark blue. June, July. 1 ft. 40 cts. each; \$3.00 per 10.

Veronica longifolia subsessilis. (Clump Speedwell). 2 ft. July to September. One of the handsomest blue-flowering plants. It is perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers. Fine for cutting and one of the best plants for the hardy border. \$1.20 for 3, \$3.50 for 10.

***Veronica spicata**. Grows about 1½ ft. tall. Light blue flowers in great profusion. Strong grower.

***V. repens**. (Creeping Speedwell). 3 to 4 in. May and June. A useful rock or carpeting plant with light blue flowers, as it covers bare spaces rapidly. It prefers a moist situation but does well in dry soil.

***Viola apricot**. Very unusual and beautiful apricot color. 40 cts. each, \$3.50 per 10.

***V. Jersey Gem**. 8 in. An improved variety with showy violet-blue flowers which are produced more freely and over a longer season than most kinds. It is also very resistant to hot weather.

***V. odorata rosina**. A remarkable new violet, which is perfectly hardy and very vigorous with an abundance of very fragrant, rich rosy pink flowers. Very desirable. 40 cts. each; \$3.00 per 10.

Get in touch with our landscape department.

CHEBACCO NURSERIES

Our Landscape Department.

We wish to put special emphasis on this part of our work. We are equipped to take care of your landscape problem, be it large or small. Our landscape designer will be only too glad to call at your request, do whatever preliminary work may be necessary, and submit plans for your approval. A nominal fee will be charged for this work, according to the size of the problem. If the plans are accepted and carried out, this fee will be credited to the amount of the contract. We feel that we have a particular advantage over the average landscape contractor in that we raise a good part of the stock that is found necessary to use in this department; thus being able to supply good fresh planting material to the job just when it is needed.

If your landscape problem is a larger one than you care to undertake at any one time, why not let us submit a plan of your problem in its entirety, and do a certain portion of it each year. In this way you will be working on a definite plan, and when completed you will find that you have accomplished the work at a minimum price.

Any landscape problem that you may have, be it a pool, avenue, wall, flagstone walk, lawn, garden, or the layout of an estate, will receive our prompt and careful attention.

We will be only too glad to refer you to any one of our many clients as to the thoroughness of our work, quality of the stock used, and our desire to satisfy our customers.

We are very glad to answer any questions that we can.

Don't forget our invitation to visit our nurseries.

CHEBACCO NURSERIES

Fruit Trees.

There is hardly a person who would not like to have at least one or two fruit trees of one kind or another. We list below the varieties which we consider the most desirable for this section.

APPLES—

	Each	10	100
No. 1, 11/16 in., 5 to 7 ft.	\$.90	\$3.50	
Baldwin. Large, red and yellow, very popular winter apple.			
Gravenstein. Fall; large size, striped yellow and red, extra fine.			
McIntosh Red. Fall; dark red, good size, white flesh, very good.			
Northern Spy. Winter; striped yellow and red, very juicy, good.			

PEAR—

No. 1, 11/16 in., 5 to 7 ft.	\$1.25	\$11.50
Bartlett. Summer. Extra good.		
Burre Bosc. Large late variety of deep russet color, very sweet. \$1.50 each. 2-year only.		
Seckel. Fall; small, sweet, very desirable.		
Sheldon. Fall; large and juicy. Extra.		

PEACHES—

No. 1, 4 to 6 ft.	\$.60	\$5.00
Champion. August. White and very good eating.		
Elberta. September. Yellow and a good canner.		
J. H. Hale. One of the best ever introduced. Flesh yellow. Early.		

PLUMS—

No. 1, 11/16 and up	\$1.25	\$11.00
Abundance. August; large size, red, very good for either eating or canning.		
Burbank. August; dark red, flesh golden yellow, sweet and juicy, vigorous.		

CHERRIES—

No. 1, 11/16 in., 5 to 7 ft.	\$1.35	\$12.50
Black Tartarian. Large, luscious, and black.		
Napolean. July; vigorous, large pale yellow with red cheek, firm, juicy, and sweet.		

GRAPES—

60 cts. each; \$5.00 per 10.		
Concord. Black, large bunches, juicy and sweet.		
Caco. Large red berries covered with white bloom, strong grower.		
Niagara. White. Large berries, thin skin, sweet, vigorous.		

Note:—We have several trees of some varieties in larger sizes. Very desirable for anyone not wishing to wait for a younger tree to grow.

We will be very pleased to mail a copy of this catalogue to your friends.
