DAYTON'S DAHLIA GARDENS

Dayton Bond, Proprietor

647 North Main Street

AKRON :: OHIO

Gardens, Cor. E. Tallmadge and E. Park Aves.

I take great pleasure in presenting my 1932 illustrated descriptive catalogue of high class dahlias as grown in my gardens. Realizing that to list an enormous number of dahlias is confusing and can serve no good purpose, I have listed only those of superior merit.

I desire to thank my many customers for their liberal patronage during the past year and for the many kind letters telling of their success they had with my dahlias, both in the garden and show room. I ceaselessly endeavor to maintain a reputation for fairness, integrity and trustworthiness to do a clean business, satisfactory to me and my customers. My best business comes from those who send me their orders year after year; they know they can depend on me for good stock and a fair deal.

Visitors welcome at all times. Do not fail to visit our gardens during the blooming season.

This catalogue is alphabetically arranged so that the busy man or woman can find what is wanted quickly.

Full culture directions sent with each order.

TERMS OF SALE:—Please read carefully.

The following offers are made subject to Prior sale, and on the following conditions.

Our quotations are for strictly first class stock, and I guarantee its quality to please you. Any stock that should prove otherwise I will cheerfully replace free of charge. Beyond that my responsibility ceases.

There has and always will be a limited number of failures in every line of Gardening endeavor, most of which are usually beyond control, such as soil condition, too deep or too shallow planting, lack of cultivation, unfavorable weather, etc., which renders it impossible for us to guarantee your success but I do guarantee to fill your order with good healthy stock, and to deliver them to you in growing condition. With each order I send printed cultural instructions for your guidance, which if followed carefully, should be very helpful in guiding you to success.

Terms:—Cash with order. Orders for less than \$1.00 not accepted unless 25c postage is added. On early orders a deposit of 25% of the amount of order will hold it till shipping time, balance may be C. O. D. Usual trade discount except those marked Net.

Always state by what method you want your goods forwarded, otherwise I will use my best judgment. Claims must be made within 5 days after receipt of goods. All goods travel at owners risk.

Non-Warrant: I endeavor to send out the best quality only, true to name and color, but I cannot guarantee results. If customers do not accept goods on above conditions, they may be returned to me within 10 days.

I will not substitute unless ordered to do so.

DAYTON'S DAHLIA GARDENS.

Dayton Bond, Prop.

Our Own Introductions

— 1932 —

While we have had many good seedlings in the past years this is the first time we feel that we have something that will prove worth while in the dahlia world. We feel proud to list the following.

CITY OF AKRON. FD. (Seedling of Mrs. Elnor Martin) Color very difficult to describe. Being a combination of old rose and mulberry slightly tipped gold, insect resisting foliage, strong grower blooms held well above the foliage on cane perfect stems.Roots \$15.00. Plants \$7.50
Stock limited.

MRS. DAYTON BOND. C. A clear canary yellow of large size on the most perfect cane stems that hold the flowers high out of the foliage. Very profuse bloomer and a splendid keeper. Insects have never attacked this variety with us. I predict a great future for this dahlia.....Plants Only \$10.00

ROSE BEAUTY. FD. A seedling of Jersey's Beauty having the same habits except a better root maker. Color old rose. Size just a trifle larger than J. B.Plants Only \$5.00

***OLIVE BOND. FD.** One of my seedlings that has proved a winner. Color buff shading to salmon at center. Fine stems and a good grower Roots \$3.00

***ALICE FAY BOND. FD.** This 1928 seedling I sold by mistake spring of 1929 and the party receiving it was very much pleased with it and returned three roots for identification. I grew it in 30 and 31 and have named it for my daughter. It is a strong grower, large blooms on stiff stems inclined to turn down slightly but this is offset by the wonderful color. Best described as a flaming sunset. It has no rival in color.....Plants Only \$5.00

***CECILIA CATHERINE. FD** A seedling of Jersey's Beauty and named by Mrs. Dixon for her sister. Color buff shaded mulberry tipped yellow, fine stems and a profuse bloomer.....Roots \$1.50

New And Recent Introductions

Abbreviations used in listing varieties: C. Cactus Type. IC. Incurved Cactus Type. SC. Semi Cactus Type. FD. Formal Decorative Type. ID. Informal Decorative Type. MD. Miniature Decorative Type. P. Peony Type. Col. Collarette Type. S. Single Type. PP. Pom-Pom Type.

Varieties * Plants one-half price of roots

AMERICAN LEGION. ID. Clear sulphur yellow of immense size. A great prize winner.

Plants Only \$7.50

***AMERICAN TRIUMPH.** (Nunviller) IC. Large flower of bright, rich red color, perfect stems.

Roots \$3.50

***ANDEREA ERICSON.** (F. & M.) This new dahlia resembles Fort Monmouth, except in color which is a fluffy, pure white. Excellent stems.

Roots \$7.50

***ASBURY PARK.** (Wood) FD. This is a very large variety. Scored 95 in a rigorous test. The color is a light coral pink; one color throughout the entire flower. The stiff stems hold the large blooms at a most pleasing angle. This is one the insects don't like. Stock limited.

Roots \$7.50

***AUNT NELL.** FD. A tall grower. Flowers of autumn color on fine cane stems. New and a fine dahlia.

Roots \$3.50

***BARBARA REDFERN.** (Redfern) ID. Burnished copper shading to gold with a suffusion of salmon. Good stems and foliage.

Roots \$.75

***BETTY IVANS.** (F. & M.) FD. Color rich salmon. overlaid with an amber glow, showing a rosy pink reverse. Fine stems.

Roots \$2.50

***BUCKEYE BRIDE.** (Peck) FD. Geranium pink. A 1930 introduction that has won fame.

Roots \$4.00

***CHAMPOEG.** ID. Immense flowers of waxy yellow, shading to reddish salmon at tips of petals. Perfect stems.

Plants Only \$5.00

***CHEMARS EUREKA.** (Chemar) FD. A splendid new variety. Ideal in form and stem. It is almost pure white, showing a trace of lavender at center which disappears as it matures.

Roots \$1.50

***COLOR SARGEANT.** (Lyndora Gardens) ID. Rich deep salmony bronze flowers of large size. Perfect stems and clean upright grower.

Roots \$1.00

- ***CITY OF TRENTON.** ID. Color glowing tangerine with a crushed strawberry reverseRoots \$1.50
- ***CORA BUTTERWORTH.** ID. A 1929 introduction that has made many friends. It is a giant with stems that hold is up and out of the foliage. Color Primrose yellow.....Roots \$2.50
- ***CARDINALS** (J. Kennedy) FD. Color brilliant cardinal red. splendid formation. The flowers are borne on strong upright stemsRoots \$7.50
- ***DERRIL W. HART.** (Broomall) FD. Capicine yellow shading to grenadine red; in cool weather it is almost copper in color. Large and fine stemsRoots \$3.50
- ***DORIS FELLOWS.** (Fellows) FD. A fine new introduction of pale yellow shading to salmon. Blooms of large size and perfect formation on cane stems that hold them well out of foliage.....Roots \$3.00
- ***DOROTHY STONE.** (F. & M.) FD. Color rose pink, was a rival for Kathleen Norris last year. It is given the preference by many.....Roots \$3.50
- ***DR. JOHN CARMAN.** (Bromall) C. A large cactus of an American beauty rose in color. Excellent stems and a tough foliageRoots \$2.00
- ***EAGLE ROCK FANTASY.** ID. Mallow pink.....Plants Only \$7.50
- ***EDNA FERBER.** (F. & M.) SC. Glistening coral, shading to old rose. A favorite of many.....Roots \$1.00
- ***ELIZA L. SHEPARD.** (Peacock) IF. Color bright golden orange apricot, evenly blended. Large flowers on splendid stems.....Roots \$5.00
- ***EAGLE ROCK WONDER.** (Bromall) SC. Has won many times in the largest bloom class the past season. Color, orange shading to orange buff. Splendid stems.....Roots \$7.50
- ***FORT MONMOUTH.** (Kemp) ID. Truly a giant. Color rich crimson maroon, just a faint tinge of bluish violet at tips of petals. Flowers are borne on long stiff stems high out of the foliage.....Roots \$1.50
- ***F. W. BUTLER.** (Bessie Boston) ID. Color is gold heavily overlaid with a dull brownish red. Later becoming a golden orange. Large early, and produced on fine stems.....Roots \$7.50
- FORT WASHINGTON.** (Rindfleisch) FD. Flowers very large, seldom seen under 10 inches. Color deep maroon. Fine stemsRoots \$1.00
- FRANK MILLER** (Burch) FD. Pale yellow shading deeper towards the center. Very large and fine stems.....Roots \$1.00

- ***FRAU O. BRACHT.** (Berger) C. Primrose yellow.
Good stems and a fine danlia.....Roots \$3.00
- ***GALLI CURCI.** ID. Originators description is a
salmon orange intensified with tints of gold.
blooms large and deep.....Roots \$1.50
- GOODNIGHT.** (Broomall) ID. Color dark crimson.
This is a flower admired by all.....Roots \$5.00
- ***GRAF. ZEPPELIN.** FD. Pure white of fine size and
formation.....Roots \$5.00
- HARRY MAYER.** (Seltsam) FD. Pale rosaline pur-
ple. A splendid grower with excellent stems and
foliage.....Roots \$.75
- ***HATTIE SHELTON.** 1931. FD. Rhodamine purple.
Long stems, very good.....Roots \$5.00
- ***HELEN IVANS.** FD. The blooms are large and
deep on perfect stems. Color orchid lavender.....
.....Roots \$3.00
- ***IDA PERKINS.** (Perkins) FD. A fine cut flower
variety of clear white. Large and good form, fine
stems.....Roots \$1.50
- JANE COWL.** (Downs) ID. A large flower that
needs no introduction. Has perhaps won more
prizes than any other introduction in several years.
Color Buff and gold blending to a bright salmon at
the center. The giant flowers are held aloft on
rigid stems.....Roots \$.75
- ***JEAN TRIMBEE.** (Trimbee) SC. A Canadian vari-
ety, that has proved to be a great favorite, 12
inch blooms of this variety are common. The
color being a beautiful, rich petunia violet. Stems
are very good and it is a vigorous grower.....
.....Roots \$7.50
- ***JERSEY'S METEOR.** (Waite) FD. A seedling of
Jersey's Beacon, which it resembles except in
color which is a light salmon orange, the stem is
good and holds the bloom erect.....Roots \$5.00
- ***JERSEY'S GLORY.** (Waite) FD. The color is
described as a yellow hue or orange. The stems
are long and stiff. A leathery foliage that insects
don't bother.....Roots \$2.50
- ***JERSEY'S TRIUMPH.** (Waite) FD. A Jersey's
Beauty except in color. Autumn shade of bright
copper flushed with salmon bronze. A good cut-
flower variety.....Roots \$3.75
- JOSEPHINE ..G. ..**(Grosscross) SC. Rose pink
Beautiful formation and good sizeRoots \$5.00
- ***JUDGE LEON McCORD.** (Bessie Boston) FD. An
enormous flower, grown on an absolutely stiff stem.
The color is the deepest shade of gold, with a
reverse of old rose.....Roots \$3.50
- ***JUNE FELLOWS.** (Fellows) FD. A new one of
large size, fine stems and a beautiful shade of
lavender pink.....Roots \$3.00

- ***KATHLEEN NORRIS.** (F. & M.) ID. A bloom of gigantic proportions. Without doubt the greatest pink dahlia in commerce today. Color a true rose pink later deepening to mallow pink, paler in the center. Great bloomer and wonderful keeper.....
.....Roots \$3.75
- ***KEMP'S VIOLET WONDER.** (Kemp) ID. Just what the name implies. Violet in color with underlying tones of royal purple, reverse lavender. Extremely large, blooms profuse and on fine stems.
.....Roots \$2.50
- ***KING MIDAS.** (Peacock) ID. This is a rich golden yellow. The flowers are large and freely produced on good stems.....Roots \$2.50
- ***MINNIE EASTMAN.** (Eastman) SC. Color is bright flame with outer shadings of deep yellow. Tall grower and the flowers are borne on long, stiff stems.....Roots \$2.50
- ***MABEL S. DOUGLAS.** (Thompson) ID. This is one of the largest of the new dahlias. Won first at the N. Y. show in the new seedling class. Color is clear pastel lavender.....Roots \$5.00
- ***MONMOUTH CHAMPION.** (Kemp) ID. Strong vigorous grower, producing extra large flowers of a brilliant orange flame. The stems are perfect, and a splendid exhibition variety.....Roots \$5.00
- ***MAY TOWER.** Pale gold deepening to apricot, often tipped white. Truly a fine dahlia Roots \$1.50
- MILDRED R. HOOVER.** One of the largest and best keeping dahlias to date. In color it is a clear pastel lavender. A winner in the largest bloom class. Fine stems and a wonderful habit of growth.....
.....Roots \$5.00
- ***MRS. ALFRED B. SEAL.** (Seal) FD. Flowers are very large on splendid stems and a rich, glowing old rose in color.....Roots \$3.50
- MOLLY PITCHER.** (Kemp) FD. Color strawberry red, fine stems and a good grower.....Roots \$1.00
- ***MY MARYLAND.** (Downs) SC. Pink, tipped ivory. The formation of the flower is all that could be hoped for. The stems are excellentRoots \$2.50
- MY RIO RITA.** FD. A new introduction that has become very popular the past season. Color another beautiful autumn colored dahliaRoots \$5.00
- NANCY SUE LANG.** (Bromall) ID. Color red and gold.....Roots \$1.00
- ***NEW GLORY.** SC. Ox blood red tipped white. One that attracts much attentionRoots \$3.00
- ***NORTH'S YELLOW.** (Peacock-Dahliadel) ID. A large flower of light yellow color, produced on long stiff stems.....
.....Roots \$2.50

- ***PETER PAN.** FD. Pink in color and a large flower that has proved popular where ever grown.....
.....Roots \$5.00
- ***REGAL.** (Bessie Boston) ID. Gold Medal dahlia Can be grown to 12 inches and over. Color Autumn shades, bronze heavily suffused with old rose and gold at base of petals, giving the effect of burnished copper. Blooms stand well out of the foliage on long stiff stems.....Roots \$1.50
- ***ROBT. E. LEE.** SC. Cardinal red. A real dahlia.....
.....Roots \$5.00
- SEAL'S CALIFORNIAN.** (Seal) ID. Petals are buttercup shaped not possessed in any other dahlia. Blooms are large and the color is a bright golden at the center, shading lighter at the outer petals, the tips are suffused very lightly with a bronze rose pink.....Roots \$2.00
- ***THE WORLD.** (Dahliadel) FD. Color is a rich, deep rosy magenta overlaid garnet with silver shadings on the edges of the petals. Stems are perfect.....Roots \$2.50
- ***THOMAS EDISON.** (Dahliadel) FD. A very dark purple variety. Stems canelike and the flowers, which are large, are produced very freely.....
.....Roots \$3.00
- ***TREASURE ISLAND.** (Dahliadel) FD. Autumn shades color, being bright apricot with gold and rose suffusion. Habits ideal.....Roots \$1.50
- ***THE LEMONADE.** ID. The color is pale lemon yellow. A fine exhibition variety.....Roots \$1.25

DE LAMARE GARDEN **NONE BETTER** BOOKS

DAYTON'S DAHLIA GARDENS

647 North Main Street

AKRON, OHIO

Gardens, cor. E. Tallmadge and E. Park Aves.

THIS MINIATURE CATALOG gives a brief story of each of the successful garden books we have published to date. Fuller particulars, circulars and other details will be gladly forwarded on request.

The history of our Company is bound up in the history of the rise of interest in gardening in the United States.

It is well over forty years since we became connected with the seed trade, florist and nursery business. We have progressed as the various industries have progressed—and it has been a notable advance, as all who are acquainted with the present day gardening spirit can testify.

Our connection through these years has given us a wide acquaintance with the best writers on all subjects having to do with gardening; this is why we feel justified in making the claim—

DE LA MARE GARDEN BOOKS
“None Better”

THE FLOWER GROWER

PUBLISHED MONTHLY

"The Magazine With a Mission"

"Our Magazine"

A few extracts from thousands of letters received, prove the unique relationship between "Our Magazine," its Readers, and its Editor. We cooperate.

"Most practical of any magazine published." (Lakeside, Mich.)

"Never had better value for my money." (Burlington, Colo.)

"A wonderful help in growing flowers." (Perryville, Penna.)

"Best floral magazine we get." (Napanea, Ont.)

"Worth twice its price." (Mill Valley, Calif.)

"A directory of the largest and best growers." (Montello, Mass.)

"One of the BEST TEXT BOOKS on plants." (Kittanning, Penna.)

"Well-balanced, homey and chatty, so different from others." (Aberdeen, S. D.)

"I glory in the ideals you maintain." (San Diego, Calif.)

"Each copy digs a little deeper into my heart." (Dewittville, N. Y.)

"I admire your editorials." (Novato, Calif.)

"The only magazine I file away." (Savage, Minn.)

"It has a clean atmosphere about it." (Courtney, B. C.)

"Everybody needs your magazine." (Freeport, Ill.)

"The best balanced and most interesting garden magazine." (Arcadia, Calif.)

"Your publication is timely, practical,—satisfying." (Aberdeen, S. D.)

"The best garden 'stimuli' I ever saw." (Northampton, Mass.)

"And the ads,—they alone are worth more than the price of magazine." (Easton, Penna.)

"What I have been looking for." (Harrisburg, Penna.)

"Find none other so practical." (Sherwood, Mich.)

"Editorials worth re-reading several times over." (Memphis, Tenn.)

"More practical than any other publication." (Tryon, N. C.)

"Have never known an Editor to get so near to his readers as you." (Breckenridge, Texas.)

"Could not garden without your magazine." (Madison, Wis.)

"I take six garden magazines.—THE FLOWER GROWER comes first." (Catonsville, Md.)

"I hold THE FLOWER GROWER pre-eminent." (Parsons, Kans.)

Special Rates

Club Rate:—Three yearly subscriptions, (one can be a renewal), for \$4.00. Secure two new subscriptions at regular price and you get your own free. Get together and form a club and thus create neighborhood interest. Readers often use **The Flower Grower** as a present under this club rate.

Educational and Editorial Rate:—Editors, Teachers and Ministers and others engaged in public work are entitled to a reduced rate. Remit regular rate and state your line of work, and your subscription will be entered for the correct period.

Garden and Floral Club Rate:—Members of floral, garden and horticultural organizations are entitled to a reduced rate when subscriptions are sent through the secretary or other officer. Write for special quotation.

All About Flowering Bulbs

By T. A. WESTON

Written especially for the amateur, this book gives all the information the home gardener requires on the culture and flowering of bulbs of all seasons planted outdoors, as well as those that do well in the house.

"All About Flowering Bulbs" is a completely revised edition of "Bulbs That Bloom in the Spring," with considerable new material

added, covering the Summerflowering and the Tenderflowering bulbs.

Table of contents: Bulbs and Their Uses, The Best Springflowering Bulbs and How to Grow Them, Summerflowering Bulbs and Roots, Tender Bulbs and Roots, Diseases and Insect Pests.

These chapters cover each subject fully and provide information that the reader can readily understand. The author, who nowadays grows bulbs as a hobby, is well posted on this subject, and combines the knowledge of his professional experience with the entertaining style of the born journalist.

184 pages, many magnificent full page halftones with eight full page four color plates, bound in Span-o-tone with attractive jacket in four colors

Price, \$2.00; postpaid, \$2.15

Our Native Cacti

By *ETHEL BAILEY HIGGINS*

This much needed volume gives the characteristics of the species native to the United States, providing descriptions of the plants, fruits and flowers, their uses, habitats of the plants, flowering periods, diseases to which they are subject and much other information. A chapter on cultural details, covering the raising of but one plant up to the maintaining of an extensive Cactus garden, makes this book most valuable for the amateur.

The author has lived in close proximity to the desert and her absorbing interest in the plant life about her led her to collect innumerable Cactus specimens. She has watched them grow, blossom and fruit, and her descriptions, as given in this book, are from personal observations.

An interesting set of 100 questions about Cacti and the correct answers thereto are an added feature of the book which will be much appreciated by those who have hitherto found it necessary to seek for this information in the scattered literature relating to the Cactus now obtainable.

Chapters: The Cactus Family; The Opuntia and Its Uses; The Cereus—Echinocereus, Echinocactus, Coryphantha, Mammillaria, Rhipsalis; Some Favorites, Old and New; The Cactus and Its Culture; Questions and Answers; List of Cacti Native to the United States.

180 pages, 5 $\frac{3}{4}$ x8 $\frac{1}{4}$, with 96 black-and-white half-tones and four in full color effect. Bound in linen with jacket in two colors

Price, \$2.50; postpaid, \$2.65

Adventures in Dish Gardening

By *PATTEN BEARD*

Patten Beard is always freshly original in all her writing. Here, however, she gives a new craft that is one made with Nature's own materials of stones, clay and growing things. Her own adventure is well worth following.

In the Winter you may escape, through the dish garden, to any desired type of Nature's loveliness. Verdant and growing, you may have a desert Island or a brookshore, a river gorge or a seashore, upon your table as centerpiece, or in your sun parlor as a plant suggestion of outdoors.

The invalid will find in dish gardening a new and easy craft that is an escape to quiet places for tired nerves. It will be a boon to shut-ins, providing a new interest in life as well as a hobby.

In school or camp, teachers will find this book most useful. Play schools and settlements will welcome it and its message. The young, the old—everyone should know the joy of an adventure in dish gardening. It gives new meaning to growing things.

All who love plants and understand Nature will appreciate *Adventures in Dish Gardening* and will find the charm of a very real adventure open through the pages of this book.

220 pages, illustrated with four 4-color plates and 65 full page halftones. Bound in imitation leather, with colored jacket

Price, \$2.50; postpaid, \$2.65

Rock Garden Primer

By ARCHIE THORNTON

Many amateur gardeners are interested in rock plants, yet hesitate to attempt their culture.

This book, with its pen-and-ink drawings, showing methods of planting and pictures of the finished work, will be most helpful to all such. The subject matter is set forth in a simple practical way and in language that anyone may understand. After perusing this volume those who have not a rock garden will crave one, and those who already boast one will find helpful hints that will enable them to increase the number and quality of plants they already grow.

Its contents include: Choice of a Site for a Rock Garden, Rocks, Drainage and Soils, Construction (building), Propagation of Rock Plants, Bulbs for the Rock Garden, Small Coniferous Evergreens for the Rock Garden, Flowering Shrubs for Use in the Formation of a Background, Trees Suitable for a Background, Easily Grown Rock Plants.

*152 pages, 70 illustrations and four 4-color plates.
Bound in imitation leather*

Price, \$2.00; postpaid, \$2.15

Rose Garden Primer

By *EBER HOLMES*

The truth about Rose growing at home, for pleasure, is told in a simple, straightforward, instructive and interesting manner that will be helpful not only to the beginner, but also to the advanced amateur. The author embodies the results of his experience, covering nearly half a century. Before the book was written, the best works on the subject were carefully read and checked up, making this work authoritative, complete, reliable and up-to-date.

Contents: The Origin of Our Roses, The Rose in Early History, The Progress of Rose Culture, Classification of the Rose, Roses for Everyone, Varieties for All Purposes, Making a Rose Garden, Planting Requirements, Spring Uncovering, Pruning—Winter Protection, Propagation, Roses for Every State in the Union, Rose Culture Under Glass, Insect Pests and Diseases, Calendar of Operations for Temperate Sections, The A. B. C. of Rose Growing, Roses for the Small Garden, Questions and Answers.

224 pages, 70 illustrations, bound in Span-o-tone cloth, with colored jacket

Price, \$1.75; postpaid, \$1.90

Gardening in the South

By **GEORGE R. BRIGGS**

The first work on gardening in the South that can claim to be at once complete and authoritative.

Covers all types of plants commonly grown in the Upper and Middle South except the coastal plains and extreme mountainous regions. The planting dates are especially applicable to the Piedmont section of the Southeast and higher altitudes of the Central South.

Some of the outstanding features are the two chapters on shrubs with their desirable and undesirable qualities, cultural directions and methods of arrangement; Roses for the South, with detailed information on their care and arrangement; a selection of the best shade trees; and the problem of lawn making explained in detail.

The remainder of the book covers the principles of landscape designing, the flower garden, the vegetable garden, the home orchard, the propagation of plants, control of insects and diseases and a garden calendar for the year.

"Gardening in the South promises to be of widespread interest throughout Southern territory because the need of just such a work has existed for a long time."—The Greenville Piedmont, Greenville, S. C.

232 pages, profusely illustrated with exceptionally fine halftones. Green, Span-o-tone binding with attractive green, black and white jacket

Price, \$2.00; postpaid, \$2.15

Flowers of the Wild

THEIR CULTURE AND REQUIREMENTS

By FRANK C. PELLETT

A decidedly different wild flower book from the average, in that it covers most of the common wild flowers suited for naturalization or cultivation in the Northeastern States and the best from the West. The manuscript for this book was written after years of preparation, the actual work of writing extending over three years.

The many illustrations in the book, reproductions from photographs expressly taken for it, will enable the novice to recognize the various wild flowers at first glance.

The author draws on his experience of many years, during which he hunted for hundreds of wild flowers and replanted them in his preserve. He gives full and explicit cultural directions for taking care of wild flowers in the home garden.

*168 pages, 104 black-and-white halftones,
four 4-color plates*

Price, \$2.00; postpaid, \$2.15

Birds of the Wild

HOW TO MAKE YOUR HOME THEIR HOME

By FRANK C. PELLETT

Mr. Pellett, a naturalist and bird lover, has given in this work the benefits of his own unremitting observations during a period of twenty years in which he has studied the habits of birds and encouraged them to take up their abode with him.

He writes as one might talk; in fact, the entire book is just a running story of personal experiences; it is not a mere catalog of wild birds with hints as to how they may be attracted to one's garden. It chattily discusses how birds provide pleasure such as cannot be obtained in any other way.

*128 pages, profusely illustrated with 74 illustrations
from photographs taken by the author; bound in
cloth with two-color jacket*

Price, \$1.75; postpaid, \$1.90

Garden Guide

Fifth Edition, revised up to date

A condensed Cyclopedia of Gardening for the amateur, providing information on every subject connected with the garden and gardening.

Over 80,000 copies sold throughout the United States and Canada.

GARDEN GUIDE has wonderful chapters devoted to the Vegetable, Flower and Fruit Gardens, with practical layouts and planting plans.

It tells you in full about how to prepare and fertilize your ground, how to distinguish and get rid of insect pests.

All about the flowers and bulbs, with planting plans, the lawn, ornamental trees and shrubs, vines, water plants.

How to prune your plants; how to propagate plants; how to construct hotbeds and forcing frames; how to spray; about tools, rustic furniture, birds of the garden, canning, Winter storage of food and plants, etc.

Covers every step from spading the ground to preserving the harvest.

388 pages and over 275 teaching illustrations, with beautiful cover in four colors

Price, Span-o-tone cloth, \$1.50; postpaid, \$1.65

Paper bound, \$1.00; postpaid, \$1.10

1001 Garden Questions Answered

By *ALFRED C. HOTTES*

A modest title with a wealth of information covering the flower, vegetable and fruit garden, arranged in the unique form of questions and answers. This book, like the dictionary, is not meant to be read for literary effect, but to secure a quick answer to any definite question—and it fulfills that function well.

Outstanding Features of the Book

A calendar of garden operations for each month in the year.

Useful information for growing and caring for all the worthwhile Annuals, Perennials, Bulbous plants, Roses, Shrubs, Trees, Evergreens, etc.

The making of rock and water gardens, with practical notes on the construction of a pool.

Helpful knowledge in the treatment of insects and diseases.

Clever drawings depicting path construction, flagstone walks, grafting, pruning, budding, layering, tree surgery, trenching, the making of garden seats, etc.

Uptodate information on spraying.

Judging scales, which should be in the hands of every one who holds, or exhibits at, a flower show.

The book contains 320 pages and is copiously illustrated. A beautiful 4-color plate adorns the cover

Price, cloth bound, \$2.00; postpaid, \$2.15

Paper bound, \$1.50; postpaid, \$1.65

City and Suburban Gardening

By **CHELSEA C. SHERLOCK**

Managing Editor, Ladies Home Journal

Treats the home maker's problems in a practical manner. Appeals particularly to the amateur gardener with limited gardening hours, no hired help and a modest garden budget.

The author, from years of practical experience in city and suburban gardening, and from his contact with thousands of small home gardens through his editorial positions, is well equipped to write with authority on the problems of

making average sized city or suburban gardens.

Numerous and diverting garden plans for small areas, accompanied by planting keys, together with many reproductions in halftone from photographs taken by the author are featured in the book.

Contents—Dooryard Garden Lessons, The Dooryard Beautiful, The Necessity of Preparation, How to Build Lawns, Fences and Borders, Planning the Garden, Shrubs and Trees, Understanding the Evergreen, The Perennial Border, Peony and Iris Pointers, Roses for Small Gardens, Succeeding with Bulbs, Summer-flowering Bulbs, Climbers and How to Use Them, Dwarf Friends, Make Friends with Birds, The Small Water Garden, Tools and Spraying Equipment, Pests to Overcome, Along the Garden Path.

186 pages, 5x7½, 93 illustrations (many full page).

Bound in cloth, with colored jacket

Price, \$2.00; postpaid, \$2.15

The Book of Shrubs

By *ALFRED C. HOTTES*

Second Edition, Revised and Enlarged

Brings together a vast amount of information on shrubs that otherwise would have to be sought in various directions. It is the first American attempt to give the uses, soil requisites, propagation, etc., in one volume and is notable for the fact that it is right up to the minute, giving all the most recent data, scientific and otherwise, that has been disseminated. The author has supplemented his own personal knowledge by drawing upon the valuable manuals of Bailey and Rehder, while scores of professional and commercial plantsmen have lent their aid toward making this work as replete and complete as a volume of its size possibly can be.

The text is supplemented by many halftones and line illustrations, which not only enable one to visualize many of the subjects dealt with, but also provide information on propagation and planting. One of the most valuable features of the book consists of the lists of all conceivable kinds of shrubs for all sorts of purposes—hedges, various colored flowers, fruits and twigs, shrubs for rockeries, for shade, seashore, dry soil and for the bird garden.

Contents includes Propagation by Seeds, Cuttings, Grafting, Budding and Divisions, Insects, Diseases and Remedies, Pruning, Acid, Neutral and Alkaline Soils, Fertilizers, Transplanting and Planting, Planning the Home Planting, Effective Foundation and Boundary Plantings, Evergreens, Combinations, etc.

The shrubs themselves are taken up in alphabetical order. Each species is described, compared with other species, and information given on uses, soil, pruning, objections, propagation, etc.

*448 pages, 5x7, with 180 halftones and diagrams,
Cloth cover with colored jacket*

Price, \$3.00; postpaid, \$3.15

Practical Landscape Gardening

By ROBERT B. CRIDLAND

Too many books on this subject are severely technical and therefore difficult to understand.

This book is written in commonsense style and is primarily for the owner of a modest home.

It tells how to plan and plant from a 20 ft. plot up.

It gives detailed sketches showing where to place your flower, Rose, wild or rock garden.

It has planting plans telling exactly what varieties to plant for best effects.

It gives working plans showing how to construct walks, drives, pergolas, terraces, pools, fountains, garden seats and rustic houses.

It illustrates home ground surroundings, showing correct and incorrect methods.

It tells in detail all about lawn making, gutters, catch basins, roadways.

Its pictures place before you the explanation of practically every problem confronting the home builder and owner.

Contains 91 photographic illustrations, 67 sketches and 33 plans, 19 of which are planting plans accompanied by planting keys. The type is large and clear; the paper is enamel; the binding durable.

The color plate on front cover is irresistibly attractive; it portrays a wonderful landscape scene

Price, cloth bound, \$2.50; postpaid, \$2.65

Foundation Planting

By *LEONARD H. JOHNSON*

The art and science of beautifying by means of plants the immediate frontage of the house, and when conditions serve, its sides and rear as well.

Over 200 black-and-white illustrations, the majority of them accompanied by planting plans and keys, have been, with few exceptions, reproduced from photographs taken exclusively for this work, the search for worthwhile examples leading through many States.

The descriptive text praises, criticises and discusses all the plantings shown.

Size 7½x10, 256 pages, substantial cloth binding

Price, \$3.50, postpaid, \$3.65.

Landscaping the Small Home

By *EDWARD W. OLVER*

Makes its direct appeal to the small home owner. Through the pages of this book he is afforded an opportunity to experience the pleasure of further enriching his family and community life by planning an ideal environment for his family—the outdoor living room—the home garden. It will teach him

how to frame the front of his home with beautiful trees, the correct foundation planting for his particular building, how to fence his property with a living screen of attractive flowering shrubs, how to plan the perennial or Rose garden, how to construct the little rock garden. Complete planting plans for the average small city or suburban home.

160 pages

Price, cloth bound, \$2.00; postpaid, \$2.15

The Book of Annuals

By *ALFRED C. HOTTES*

For the amateur or professional

The author opens up many new possibilities to garden makers in this book, which is exceedingly complete and, all in all, as useful a manual dealing with Annual flowers as can be obtained.

One plants Annuals freely in order to fill in the bare spots on the home grounds. The more flowers we pluck the more they bloom. This is the great charm of Annuals. They may always be depended upon to give a splendid showing the same year they are sown.

Over 100 separate species are described, with full directions for their culture and uses.

Chapters include: The Use of Annuals, Ordering Seeds, Why Is An Annual? Classes of Annuals, Seed Sowing, Transplanting, Pinching, The Hoe vs. the Hose, Watering vs. Sprinkling, Hotbeds and Coldframes, Forcing Annuals in the Greenhouse, Table for Forcing Annuals, A Chain of Ten Links, Select List of Annuals (Odor, Evening Annuals, Flowers for Picking, Shade, Seashore and Mountains, Rockery, Edging, Foliage, Tallest, Temporary Hedges, Poor Soil, Hot, Dry Places, Moist Places, Window and Porch Boxes), Families of Annuals, Annuals of Merit, Everlastings, Decorative Seed Pods, Ornamental Grasses, Annual Vines, Index of Plant Names, Tabular List of Annuals.

182 pages, 155 illustrations

Price, cloth bound, \$1.50; postpaid, \$1.65

The Book of Perennials

By *ALFRED C. HOTTES*

For the amateur and professional

This book is a veritable storehouse of information about the ever popular flowers which come up year after year—the perennials—and is indexed and cross indexed in such a way that the amateur cannot fail to build a marvelous perennial garden or bed.

The most important and useful representatives of this class of garden plants—to the number of over 125 separate species—are discussed individually, together with their culture and requirements.

A number of comprehensive lists of perennials suited for different locations and purposes are featured.

A tabular cultural index, giving species or variety, height, flowering period, color, etc., adds to the value of the book.

The volume is marked by the liberal use of illustrations and by the eminently practical language that makes Mr. Hottes' writings both interesting and instructive for amateur as well as professional.

Price, cloth bound, \$1.50; postpaid, \$1.65

American Orchid Culture

By PROF. EDWARD A. WHITE

The first attempt to give both the commercial grower and the enthusiastic amateur a purely American production, written by an American, and telling the story of the rise and progress of Orchid culture in America. Additionally, it points the way to success in their culture.

Since Orchid species have been practically debarred from importation, more and more men have interested themselves in propagating both species and hybrids, and it is the purpose of this book to make known all those details of their culture

which produce the best results.

Many years of observation, wide travel, actual growing and much association with Orchid growers, both here and abroad, are back of this work, and one can only marvel how so busy a man could gather together and compile, in one continuous story, so much interesting and instructive material.

The man who grows Orchids, and the man who intends to grow them, will find this book invaluable; the artist can study its color plates for inspiration; the man who admires a book simply for its typographical appearance will treasure this one; while every worthwhile library in the country—both public and private—should have this work on its shelves.

228 pages, 8 handsome 4- and 5-color plates and scores of teaching illustrations, bound in a highly attractive cover, stamped in gold

Price, \$4.50; postpaid, \$4.65

Modern Dahlia Culture

By W. H. WAITE

Interest in the Dahlia increases every season, and no book on this subject has achieved greater popularity than *Modern Dahlia Culture*.

Brief, clear, complete, based on the actual operations and results of a practical, experienced grower, propagator and exhibitor; written to meet the needs of the novice and to interest and inform the expert — Mr. Waite's little volume is the biggest book value there is for Dahlia lovers, present and to come.

Gives classification, culture, propagation, insects, diseases and remedies, shipping, packing, storing, soils, fertilizers, societies, shows, etc.

132 pages of clear type, 24 halftone illustrations and 6 in full color—several taken expressly for this work; complete index and pages for garden notes and records. Handsome cloth binding

Price, cloth bound, \$1.50; postpaid, \$1.65

The Principles of Flower Arrangement

By PROF. E. A. WHITE

For the hostess, the social leader and all women who delight in displaying flowers to their fullest beauty

To enjoy the reputation of being an adept in the arrangement of flowers in your home means much to both yourself and your visitors.

In this volume the author tells how to arrange flowers to bring out all their grace and beauty, his observations based on the result of contact with professional decorators and florists and some of the greatest authorities on color.

Full recognition is given to every class of natural decorative material, both indoor and outdoor, not omitting berried branches and the various dried flowers.

The principles followed in the successful arrangement of flowers are as definite as those governing the worker with oils and water colors, and Professor White sets forth these principles in a clear and understandable manner.

The chapters cover: The Decorative Value of Flowers, Plant Material for Decorative Purposes, Receptacles for Cut Flowers and Potted Plants, Japanese Flower Arrangement, Tones, Measures and Shapes, Notan and Color, Color Harmonies, Church, Hall, or Reception Room Decorations, Table Decorations, Flowers for Personal Adornment, Various Other Uses of Decorative Plant Material.

Second edition, 225 pages, profusely illustrated in black-and-white and six magnificent color plates
Price, imitation leather, \$3.00; postpaid, \$3.15

Milady's House Plants

By F. E. PALMER

This book is the outgrowth of a lecture on house plants by the author, F. E. Palmer, before several hundred women who asked scores of questions. It is confined to those plants only that the author has tested and knows will succeed in the home, embracing foliage and flowering plants, bulbous plants, house plants out of doors in Summer, sowing of seeds and rooting of cuttings, window boxes, insects pests and remedies, sun parlors, and the treatment of cut flowers.

Profusely illustrated with about 100 instructive pictures, the majority of them taken exclusively for this book

Price, cloth bound, \$1.25; postpaid, \$1.35

Paper bound, \$1.00; postpaid, \$1.10

The Woman's Flower Garden

INDOOR AND OUTDOOR

By JANE LESLIE KIFT

As its name implies, it is a book for women on the care of flowers and plants in the home and on their cultivation in the garden.

The person with only a plant or a vine or two, the one with a wee garden attached to some window ledge far above the roar of city traffic, or the owner of a suburban garden, have all been kept in mind by Miss Kift in this practical and, withal, entertaining book.

160 pages, numerous illustrations

Price, cloth cover, \$1.25; postpaid, \$1.35

Practical Plant Propagation

By *ALFRED C. HOTTES*

Appeals to everyone who has to do with seeds and plants, whether amateur or professional

An exposition of the art and science of increasing plants as practiced by the nurseryman, florist and gardener.

The text is brief and to the point. No lengthy discussions, but facts are tersely stated, so that the busy propagator may get the point quickly and return to the propagation of his plants.

All amateurs have an intense desire to propagate those plants which they admire. In this book is told in simple terms how to graft fruit trees, make cuttings and layers, and sow the seeds which are often difficult to germinate.

A book of this character has never been of more interest than at present, as no longer can we look to Europe for our finer plants.

Profusely illustrated with half tones and line cuts

Price, cloth bound, \$2.00; postpaid, \$2.15

Gladiolus Breeding

By *J. A. KEMP*

A trustworthy guide of 12 pages for the experimenter in the successful breeding of Gladiolus. The various operations are described in plain, everyday garden language.

Price, paper, 50c.; postpaid, 55c.

A Little Book of Climbing Plants

By *ALFRED C. HOTTES*

A most valuable book, in that it brings together the data that one could only find by consulting a complete horticultural library, plus many catalogs. The only book obtainable combining all climbing plants, of whatsoever nature, in the one volume.

The chapters include: The Uses of Climbers; The Abuses of Climbers; The Objections to Climbers; How Plants Climb; General Cultural Notes; Pruning and Training; Propagation; Insects and Diseases; Garden Enclosures and Plant Supports; Lists of Vines for Many Purposes; Hardy Climbers, Woody and Herbaceous Perennials; Climbing Roses; Annual Climbers; Conservatory Climbers and Creepers; Ground Covers; A Key to Common Vines; A Glossary of Terms Used; Index to Meaning of Species Names; Table of Climbers, Trailers and Ground Covers; General Index.

Highly illustrated. 250 pages

Price, cloth bound, \$1.75; postpaid, \$1.90

Paper bound, \$1.50, postpaid, \$1.65

Fertilizers for Greenhouse and Garden Crops

By ALEX. LAURIE and J. B. EDMOND

Deals with the fundamental factors of plant growth and their relation to the application of various materials to stimulate the growth and development of various cut flowers and pot plants.

This volume will be found to differ with many of the books on the subject of commercial floriculture now in print, in that *definite recommendations are made for each crop.*

In order to comply with the needs of many who are growing vegetables as well as outdoor ornamental crops, chapters dealing with vegetables have been included. A complete table covering the recommendations in concise form is appended.

156 pages, heavily illustrated, bound in cloth

Price, \$2.00; postpaid, \$2.15

Practical Pest Control

For Nurserymen and Florists

By H. C. TWEEDALE

A 32-page illustrated pamphlet by an expert, experienced plantsman, telling in simple direct terms how to protect horticultural crops against injurious insects and diseases.

Price, 50c.; postpaid, 55c.

Water Gardens and Goldfish

By **ROBERT V. SAWYER**

and **EDWIN H. PERKINS**

Teaches the amateur the art of growing Waterlilies in a small way in a tub or on a balcony, gradually leading up to the establishment of water gardens in concrete tubs and ponds.

The second half of the book, devoted to Goldfish, covers Varieties of Goldfish, Breeding, Fish Foods, Fish Diseases and Remedies and the Home Aquarium and Its Management.

Printed on heavy enamel paper, 112 pages, 5x7, 59 illustrations, cloth cover with colored jacket

Price, \$1.50; postpaid, \$1.65

The Book of Water Gardening

By **PETER BISSET**

This book gives in full detail, all the practical information necessary to the selection, grouping and successful cultivation of Aquatic and other plants, required in the making of a Water Garden and its surroundings, taking thought of the needs of the commercial grower as well as covering the wants of the amateur.

Profusely illustrated with 125 halftones, 17 diagrams and 2 double page plates

Price, \$5.00, postpaid

Gardening Under Glass

By **F. F. ROCKWELL**, Thoroughly revised by
T. A. WESTON and brought up to date

A commonsense treatment of the advantages of the new field of greenhouse cultivation

The earlier chapters will have an appeal for the novice as Mr. Rockwell records his own early experiences with a small homemade house and later with a regular greenhouse.

Table of contents includes:

What You Need to Know to Garden Under Glass, Rebuilding the Garden of Eden, You Decide on a Greenhouse—the Fun Begins, How to Succeed with Seeds, The Magic Touch, The Fascinating Art of Soil Building, Such Stuff as Blooms Are Made Of, Keeping Your Plants Hale and Hearty, Overcoming Bug

304 pages profusely illustrated. Bound in Span-o-tone cloth cover, two-color jacket

Price, \$2.50; postpaid, \$2.65

Fruits and Vegetables Under Glass

By **WILLIAM TURNER**

In this book the author has endeavored to discard theory and to give nothing but solid facts and information which it has taken him many years of close experience to collect and apply.

Apples, Apricots, Cherries, Figs, Grapes, Melons, Peaches and Nectarines, Pears, Pineapples, Plums and Strawberries, Asparagus, Beans, Beets, Carrots, Chicory, Mushrooms, Radishes, Rhubarb, Sea Kale, Tomatoes—all of these may be grown under glass, for pleasure or for profit.

Numerous illustrations, 256 pages, cloth

Price, \$5.00, postpaid

Ornamental Dwarf Fruit Trees

HOW TO GROW AND TRAIN THEM
IN THE HOME GARDEN

By **EBERHARD ABJORNSON**

This true gardening art—long known and widely practiced abroad, but relatively misunderstood and neglected over here—offers the opportunity to not only grace your table with the most delectable specimens of wholesome fare, but also embellish your grounds with graceful cordons, espaliers and other alluringly entitled forms, beautiful both in bloom and in bearing, and everlastingly interesting as subjects for the exercise of skill in pruning and training.

64 pages well illustrated with teaching line cuts.

Handsome cloth cover

Price, \$1.50; postpaid, \$1.65

Roof Gardening

By **IDA MELLEN**

The author of this book has been enthusiastically giving expression to her interest in practical gardening for several years by maintaining a permanent garden of annual and perennial flowering plants on an extension roof, 15 ft. by 21 ft. and in 6 in. deep beds and boxes.

How she did, and is doing it—and how anyone can win equal pleasure and satisfaction in equally unpromising situations—Miss Mellen tells in her book, illustrated with numerous photographic reproductions of her own roof garden.

116 pages, bound in green cloth and stamped in gold

Price, \$1.25; postpaid, \$1.35

Practical Tomato Culture

By *FRANK C. and MELVIN A. PELLETT*

Written particularly to inform those who grow Tomatoes for market, and covering every minute detail connected with the subject, from planting the seed to picking, packing and selling the crop. The amateur, as well, will find this book most informative, particularly its chapters on growing the plants, staking and pruning, insects and diseases, and its numerous recipes for canning and otherwise converting this appetizing vegetable into catsup, chili sauce, soup, etc.

164 pages; illustrated

Price, cloth bound, \$1.50; postpaid, \$1.65

Practical Vegetable Culture

By *ALBERT E. WILKINSON*

In the United States there are approximately 10,000,000 home gardeners; over 100,000 students are enrolled in vocational schools or in high schools, studying vocational subjects; somewhere between 500,000 and 1,000,000 boys and girls are enrolled in 4-H club work. There are thousands and thousands of amateurs—inexperienced men and women—who are trying to obtain a livelihood from vegetable and small fruit production. It is the aim of this book to help all of these. In its 308 pages all phases of vegetable culture are covered from sowing the seed to reaping the harvest; there are innumerable garden plans of all kinds and of all sizes; greenhouses, hotbeds, coldframes, home vegetable storage, control of pests and diseases, etc., are discussed in detail.

308 pages, profusely illustrated, bound in cloth, handsome jacket

Price, \$2.00; postpaid, \$2.15

Nursery Sales and Management

By NELSON COON

Devoted to the economic considerations involved in the establishment of a small nursery

A thoroughly revised and practically rewritten edition of *The Small Nursery*, intended as a guide for the man who wishes to embark in the nursery business, or as a helpful counsellor to the man who has already established himself in this line but feels that he is not thoroughly equipped to manage the business efficiently.

The author, a practical nurseryman, writes largely from his own experience and gives excellent pointers on buying and planting nursery stock, salesmanship, advertising, correspondence, estimating, filling orders, nursery records and cost finding, and horticultural standards, the latter containing shipping and trading terms, abbreviations, telegraph codes, etc.

244 pages, well illustrated with halftones, charts and line cuts, cloth bound

Price, \$1.50; postpaid, \$1.65

Wayside Marketing

By SCHUYLER ARNOLD

The author of "Wayside Marketing," Schuyler Arnold, after several years of observation and much study on the subject, has written a book that is packed with worthwhile suggestions enabling the wayside stand owner to better marshal his opportunities, abilities and equipment.

Every angle of the situation is covered—location, the building of the stand, with details of measurement, the stock to be offered (flowers, fruits and vegetables) and how to grow it, etc. An exclusive feature of the book consists of the many line cuts made from hand drawings of practical booths, ranging from simple stands to the more elaborate affairs—all of which can be worked out by the average person. Added to this are numerous illustrations of actual stands which have been photographed on the roadside, as also pictorial representations of those annual and perennial flowers in greatest demand and of which an attractive showing can be made.

132 pages, bound in cloth and encased in an attractive jacket

Price, \$1.50; postpaid, \$1.65

Commercial Rose Culture

By EBER HOLMES

Fourth Edition—Revised

There is no more important subject to the commercial grower than that of Roses. There will be found no better guide to their successful culture than is contained in *Commercial Rose Culture*, which embraces the author's experience extending over many years in the growing of Roses under glass and outdoors.

The book does not delve into the ancient history of the Rose or indulge in long descriptions and classification of varieties, but points out to the beginner, the small grower or the florist with a retail trade, who grows a few Roses with his general stock, the best way to be successful in growing good Roses.

Size 7¼x5 in., 255 pages, heavily illustrated

Price, cloth bound, \$2.00; postpaid, \$2.15

Chrysanthemums Under Glass and Outdoors

By ALEX LAURIE

Brings together the most up-to-date practices relating to the culture of Chrysanthemums for greenhouse and garden purposes. Its contents include History, Classification, Soils and Fertilizers, Greenhouse Culture, Commercial Pot Plants, Hardy Chrysanthemums for the Garden, Insect Pests, Diseases, Breeding and the Use of Chrysanthemums. The information is based largely upon personal observation and a varied nature of experimental work conducted by the author over a period of many years.

118 pages, well illustrated and attractively bound

Price, cloth bound, \$1.50; postpaid, \$1.65

Practical Carnation Culture

By T. A. WESTON

For some years there has been a persistent demand for a book on Carnations, embodying up-to-date information in a volume of moderate size, to sell at a reasonable price. The publishers are fortunate in having the opportunity to introduce this work which meets these conditions, and—to use the vernacular—then some. Not only does it cover the ground thoroughly, but it is written in an easy and interesting style. Compiled by one who has been associated with horticulture since boyhood, it provides information that the commercial as well as the amateur grower will appreciate; even the gardener without glass need not deny himself the pleasure of growing one or more types of Carnations.

220 pages, well illustrated

Price, cloth cover, \$2.00; postpaid, \$2.15

Practical Violet Culture

By NELSON COON

The raising of Violets for pleasure or profit is an enterprise that is full of surprises and pitfalls, and yet one that is likely to yield an unsuspected profit. This book sets forth the fundamental principles of Violet culture that must be mastered to successfully grow this crop.

It is the work of a practical, successful grower of high class Violets, located in the heart of America's Violet center.

Contains 8 chapters, 128 pages, 32 halftone illustrations of the most helpful sort

Price, board cover, \$1.75; postpaid, \$1.90

Imitation leather, \$2.25; postpaid, \$2.40

Fritz Bahr's Commercial Floriculture

A practical Manual for the Retail Grower

Based on the author's experience of half a century. Covers a general review of the florist business, its opportunities and its responsibilities, together with all types of plant, shrub, tree and vine the reader is likely to handle.

The size of the book is $6\frac{1}{4} \times 9\frac{1}{4}$, 615 pages, binding exceptionally strong and durable. There are more than 300 illustrations, the majority of them made from photographs specially selected and many of them specially taken for this book. They picture every phase of all sides of the business and the great majority of its materials in the way they ought to be grown.

**Price, extra strong Fabrikoid binding,
\$5.50, postpaid**

Plant Culture

By GEO. W. OLIVER and ALFRED C. HOTTES

**For the commercial florist, gardener and
nurseryman as well as the amateur student**

Covers practically all the known plants cultivated in the garden and home grounds, together with those of the greenhouse and conservatory, and with still more thoroughness those grown for everyday commercial purposes. Many lesser known plants worthy of wider acquaintance are also included. The treatment includes a thorough elucidation of all the main points having to do with plant culture, such as budding, grafting, potting, soils, watering, seeding, hybridization and cultivation. Insect pests and plant diseases are taken care of in a special chapter. The contents is written in language easily understood and to the point.

*Copiously illustrated and handily indexed; will
serve as a pocket cyclopedia of plants; 444 pages*

Price, cloth bound, \$3.50; postpaid, \$3.65

American Greenhouse Construction

By RICHARD T. MULLER

Here is a book that will prove of value to the owner of any greenhouse establishment, and more particularly to all those who have to be their own mechanics. To those starting in as growers, and as well to the student, the work should prove invaluable.

A complete and comprehensive work on greenhouse structures, covering all details as to the erection of the best and most approved styles of houses, for both amateur and professional. The most successful methods of heating and ventilating are fully dealt with.

152 pages, copiously illustrated, bound in cloth

Price, \$1.50, postpaid; \$1.65

Standardized Plant Names

The first and only systematic, practical, comprehensive and authoritative index to the right names—both common and scientific—of plants known to horticulture.

Designed to serve anyone and everyone who has to do with plants—whether amateur or professional—whether as gardener, student, plant lover, commercial florist, nurseryman or seedsman, grower, editor, writer, teacher, librarian, etc.—by supplying:
A Single Accurate Name for Every Plant.

Standardized Plant Names is the product of the American Joint Committee on Horticultural Nomenclature.

Cloth, 548 pages, 45,000 plant names, 5½x8 in. in size

Standard edition, cloth, \$6.00

Pocket edition, india paper, flexible cover, \$7.50

Interleaved edition, cloth, \$7.50

Koster's Color Guide

By P. M. KOSTER

Produced after years of comparison of colors as they occur in flowers, fruits and foliage

A much needed guide for landscape architects, nurserymen, florists, seedsmen, members of garden clubs, amateurs, authors and lecturers to enable them to speak the same color language.

Nature has provided us with many living, never changing colors, and these the Color Guide reproduces. The names of the colors have all been derived from the color names of the spectrum; they are logical and easily understood. They are printed in five languages: English, French, German, Spanish and Italian, while alphabetical lists of the colors facilitate comparisons with descriptions in any of these languages.

Each of the one hundred colors the Guide contains is printed on a separate sheet of high quality paper; the color block stands out clearly, not hampered by any printing.

It is expected that on its merits and in due course Koster's Color Guide will be generally referred to as a standard authority not only in this country, but also in Europe.

Bound in heavy leather looseleaf binder, the operation of the binding rings being such as will readily facilitate the removal of any color sheet desired when necessary to take it into the field or garden for observation

Price, \$5.00, postpaid
