SAN JOSE, CALIFORNIA

List #3201, Jan. 9, 1932.

FLOWERING FRUIT TREES

This beautiful class of trees has been one of our principal specialties for many years and we believe we offer the most complete assortment and choicest varieties in the country. All propagation is from our specimen collection which represents many years of careful selection. There are many inferior strains but these have been eliminated until nothing but the very best varieties are now included.

Stock this year is exceptionally fine and prices low. Everything is dug and ready for immediate shipment if desired or will be set aside on order for early spring shipment. Express is not necessary as freight shipment about March 1st via New Orleans is perfectly safe and rate is same as if shipped direct.

To introduce our stock more widely we make this

SPECIAL OFFER

On an order for Flowering Fruit Trees amounting to \$50 or more we will pack free and allow the freight charges to any place in the U. S. On orders for \$25 up we will allow half the freight. Also if entire order is for 100 trees or more we will allow hundred rates throughout regardless of how assortment is made up, except that we cannot include less than 5 trees of any variety or size on this offer, but will supply such little lots at the 10 rate plus 20%. On this special offer we shall expect an advance payment of about 25% from new customers, balance C.O.D. or references if wanted on open account.

Our entire line of these trees is quoted on pages 20 to 23 of list 3111 sent you about a month ago, but for convenience we give below prices on stock still available.

		10 rate	100 rate
