Descriptive Catalog and Price List

Season of 1932

Introduction

We present this descriptive list to our customers with assurance to all, of our appreciation of past business relations, and sincerely trust future dealings may be as satisfactory. To parties who have never dealt with us we would be glad to have a share of your business. Personal inspection is cordially invited.

By carefully studying the following descriptions of our stock you will be able to make a better selection than you possibly could from the finest pictures to be had.

Write us freely about your wants. We can supply many things not in this catalog.

This catalog is our only salesman; we employ no agents.

Although our stocks are large, we advise sending in orders early before selections are broken. "First come, first served," is our motto. Do not fail to give your post office address and express office address if different from post office. Write your name plainly.

We want our customers to have their choice of varieties, but they will often be more successful if selection of varieties is in part, at least, left to us. By doing this you get the benefit of our extensive experience in growing and handling fruit trees, roses, shrubs, etc.

It is to our interest to send out the very best stock possible, true to name, healthy, and packed to arrive in good condition, and this we will do. But as we cannot prevent drouths, freezes, ravages of insects, rabbits, diseases, planting in unsuitable soils or locations, careless or improper planting, we do not guarantee stock to live

that was received by the purchaser in good condition.

We guarantee every tree and shrub you buy from us to be true to name; to be healthy and free from disease, and to be carefully packed and delivered in good condition. We use every precaution to keep our varieties true to name. However, should a mistake occur, on proper proof, we gladly replace the stock or refund the purchase

price. And it is agreed between ourselves and the purchaser that we shall be liable for no greater amount.

It is so manifestly impossible for a seller of any perishable article to be responsible for what may happen to it after it leaves his hands, especially one like trees, shrubs, etc. which are planted in the ground under varying conditions of soil and climate, that we, in common with all responsible American Nurserymen, give no warranty, expressed or implied, as to the growth or bearing qualities of any nursery stock we sell.

Free!

On each order amounting to \$5.00 or more we pay express, except on balled and burlapped plants, to your nearest express office if you are within 300 miles of us.

If your order amounts to \$10.00 or more, you may select \$1.00 worth of trees or extra plants. If your order amounts to \$20.00 or more, you may select \$3.00 worth of trees or plants extra. That is, if you send \$10.00 select \$11.00 worth of stock. If you send \$20.00 select \$23.00 worth of stock. If you come to the nursery and take your order back with you, you save express charges and get a further reduction.

If you happen to live 400 or 600 miles

To Our Friends and Customers

We are mighty glad to have you visit the Nursery and see the trees, shrubs and plants as they grow. Many of you cannot do this so we are putting in a few pictures taken in the fields. These give you an idea of how we grow the stock. Our business is growing rapidly because there is an ever increasing demand by intelligent people, for stock properly grown and packed. Every plant, tree and shrub in the nursery is grown, dug, and packed under my direct supervision. Our long experience and careful attention to every detail and direct method of dealing, together with a price as low as good stock can be sold, is responsible for our large volume of business. We can now serve you better than ever and thank you in advance for your valued patronage.

E. M. HENDERSON, *Proprietor.*

Member:

Southwestern Association of Nurserymen
American Association of Nurserymen

from us, just add five per cent of the amount of your order, and we will prepay express charges on it to you. That is, if you send \$5.00, just add 25 cents to it and we pay express charges; if you send \$10.00 just add 50 cents to it and we pay express, except on balled or burlapped plants.

We are not among those nurserymen who advertise novelties, trademarks, and special sorts as a means of securing extra prices for plants. We do not make exorbitant claims about our stock. We only claim that we grow as good stock as we know how and that we grow those varieties that have been tested and tried and known to be valuable for planting in Texas and the Southwest.

If we can in any way assist you in improving your home and providing fruit for your family, shrubs and flowers to beautify your home, we will certainly appreciate the opportunity of helping you.

We have found that a well-pleased customer is the best advertisement we can have. Many of our customers have resulted from a friend who was well pleased, passing his catalog on. We would appreciate it if you will send us the name of a neighbor who is interested, or better still, hand him your catalog when through with it.

Our plants are good, healthy, first-class stock, and each shipment is accompanied by the State Nursery Inspector's Certificate. We refer you to the First National Bank of Athens, Texas, as to our reliability and trust-worthiness.

This a Cordial Invitation to Visit Our Nursery

PLAN A TRIP TO OUR NURSERY. You will see much to interest you and perhaps you will find a suggestion as to just the very things you need to make your grounds more beautiful and fruitful.

Look around and see the fine, healthy, hardy fruit and ornamental trees, the beautiful shrubs, vines, flowers and other growing things. You'll enjoy every minute of your visit.

FRUIT TREES

There is an insistant demand for large size trees that will come quickly into bearing. To supply this, we have in most all varieties, bearing size trees.

APPLES

Size	Each	10
2 to 3 feet.....	\$.25	\$1.75
3 to 4 feet.....	.30	2.50
4 to 5 feet.....	.40	3.50
5 to 6 feet.....	.50	4.50

RED JUNE—Medium size, bright red; flesh white, tender and juicy; an abundant bearer; about the best June apple.

STRIPED JUNE—A very fine June apple of the best quality; very strong grower.

YELLOW TRANSPARENT—The very best yellow June apple.

JONATHAN—Healthy grower; prolific; medium red; good market; one of the best fall and early winter apples.

TEXAS RED—One of the most highly esteemed apples in East Texas; large, striped, fine. Good Keeper. Winter.

DELICIOUS—A very fine fall and early winter apple of the very best quality. The tree is a strong, healthy grower and prolific bearer. It does well anywhere apples will grow. The most popular apple grown.

—o—

PEACHES

Size	Each	10	100
1 to 2 feet.....	\$.15	\$1.25	\$10.00
2 to 3 feet.....	.20	1.50	12.50
3 to 4 feet.....	.30	2.00	15.00
4 to 5 feet.....	.40	3.00	25.00

MAY FLOWER—One of the best very early peaches. Red all over, medium size and excellent quality. Ripens with the very earliest.

RED BIRD (Early Wheeler)—A large firm, white cling with red cheek; the best early market peach. Ripe June 1.

JAPAN DWARF BLOOD—An early peach of special value for South Texas.

PALLAS—A South Texas variety, ripening later than the above.

ARP BEAUTY—One of the best for market; very handsome; yellow freestone; thrifty grower; hardy and prolific. June 5.

MAMIE ROSS—Very large; bluish; white flesh; very productive, and one of the best for family use or market. June 12.

HILEY BELLE—Fine early market peach, creamy white, with red cheek. Free-

stone. Ripe three weeks before Elberta.

GOV. HOGG—Very large white cling with blush. Much like Chinese Cling. Ripe June 25.

ROBT. E. LEE—One of the best Chinese Cling type; resembles that sort, but much better bearer. Ripens July 10.

ELBERTA—Large, yellow freestone; the most popular peach for home use and market. July 15.

J. H. HALE—Much like Elberta, somewhat firmer and better color.

ELB. CLING or ELBIRD—A magnificent large yellow cling, ripens two weeks later than Elberta.

MIXON CLING—Medium to large white cling with red cheek; juicy; sweet and highly flavored.

WHITE ENGLISH—Large, oval with a sharp apex; flesh pure white; rich; juicy and most excellent; very popular for preserving. September.

INDIAN CLING—Good size blood cling of excellent quality. The kind our parents used to have back in Georgia. August.

YELLOW INDIAN CLING (Money Maker)—a fine large yellow cling with Indian blood in it; finest quality; ripens September 20.

HENRIETTA—A magnificent large yellow cling with crimson cheek; always commands fancy prices. September.

STINSON'S OCTOBER—Firm, white cling with red cheek. The most satisfactory October peach.

RED ROMAN NECTRINE—A small peach without fuzz. Skin smooth like a plum.

SEEDLINGS—These seedlings are grown from seed from some of the best seedling orchards in the country. We cannot furnish named varieties in these, just peach trees. Price, 15 cents each.

SPECIAL COMBINATION FRUIT TREES—Home orchard all on one tree. Where space is limited you can have a variety of fruits all on a single root system. We have trees budded with a plum, an apricot, and several varieties of peaches. From three to six varieties per tree at 25c per variety.

PLUMS

Size	Each	10	100
1 to 2 feet.....	\$.18	\$1.50	\$12.50
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.30	2.50	20.00
4 to 5 feet.....	.40	3.50	30.00
5 to 6 feet.....	.50	4.00	35.00

ADVANCE—A very early, large red plum. The biggest early plum; the earliest big plum.

COMBINATION—Luther Burbank said this plum combined the good qualities of all others so he named it Combination. Profuse bearer of very sweet large plums. Color whitish with red blush. One of the first to ripen.

HANSKA—The Hanska is a medium size bright red plum of superlative quality. Called by some "The Apricot Plum." Grows like a plum; smells and tastes like an apricot. The tree is an upright grower and quite ornamental.

SHIRO (Early Gold)—A very large, early plum of fine quality; ripens very early and is a profuse bearer.

SIX WEEKS or WINNSBORO—This is a very early bright red plum of fair quality. It carries well and is the best early market plum.

RED JUNE—Large size solid dark red color with yellow flesh; ripens early; sure bearer; very valuable for market.

OTHELLO (Purple Leaf Plum)—See description under shrubs.

BOTAN—A fine upright grower; fruit bright red; large size; very productive; sweetest of all plums. June 15.

HAPPINESS—Extremely large, dark red, best quality. A better plum than Gonzales; good grower and very productive. June.

METHLEY—A large dark red plum introduced and recommended by the U. S. Department of Agriculture.

ENDICOTT or MAMMOTH GOLD—The tree is strong, upright grower; the plums are yellow with pink blush, flattened at both ends. Very sweet.

DORIS—Very strong, upright grower; an immense bearer; fruit large, dark red, superlatively rich and sweet; colors before ripening. Fine shipper. June 15. You must see this plum to appreciate it. No description does it justice.

BURBANK—One of the best Japan varieties; spreading tree; very productive; good size and quality. June 15.

GONZALES—Very large bright red plum of excellent quality.

BRUCE—A very fine large market plum; bright red, firm, good quality. June 10.

NONA—A very greatly improved Wild Goose, as large as the largest Japan plum with the sprightly flavor of the American species. It has a long ripening period

CORRECTLY GROWN PECAN TREES IN OUR NURSERY

Hardy tree and good bearer. Ripe last of June and first of July.

AMERICA — Our very best commercial plum. Large yellow with red on sunny side. Very hardy tree and regular bearer. June.

GOLD — A fine late yellow plum of good size and quality. Ripe in July.

BARTLETT — A large freestone plum of superb quality. Tastes like a Bartlett pear, hence its name.

—o—

CHERRIES

EARLY RICHMOND — One of our best standard cherries; good size; dark red, almost black.

Size	Each	10
2 to 3 feet.....	\$.40	\$3.50
3 to 4 feet.....	.50	4.50

OPATA — Plum cherry cross. Indian name for "bouquet." When covered in the spring with a gorgeous mass of fragrant white bloom it is indeed a bouquet, and again when the branches are bent with their load of dark red fruit. Good quality. Ripe last of May and first of June. The larger trees bear the first year. If you want ripe fruit in your orchard in 5 or 6 months after planting, plant Opata.

Size	Each	10	100
1 to 2 feet.....	\$.18	\$1.50	\$12.50
2 to 3 feet.....	.25	2.00	15.00

Size	Each	10	100
3 to 4 feet.....	.30	2.50	20.00
4 to 5 feet.....	.40	3.50	30.00
5 to 6 feet.....	.50	4.00	35.00

PEARS

Size	Each	10	100
2 to 3 feet.....	\$.25	\$2.25	\$20.00
3 to 4 feet.....	.35	3.00	25.00
4 to 5 feet.....	.40	3.50	30.00
5 to 6 feet.....	.60	5.00	40.00

EARLY HARVEST — Large red cheek, marked aroma. Ripe June 10.

LE CONTE — An early summer pear of good quality.

GARBER — Resembles Keiffer in size, quality and appearance, but is somewhat earlier and better quality.

BARTLETT — Good size, buttery, juicy, highly flavored, good bearer.

HENDERSON'S SPECIAL PEAR — When do pears bear? If you plant this one you can say *now*. Fully one half of the one-year, 2 to 5 foot trees in the nursery rows bore big fine crisp yellow pears this year. If you prefer, say "send me trees that had pears" and you can see where they were pulled off. The quality is good. Ripe last of August and September. It has been absolutely proof against blight. New fruits with not half the merit of this usually sell for high prices.

KEIFFER—Everybody's pear. Very large, yellow flesh, brittle, juicy with a marked aroma; tree very vigorous and prolific; bears young, so far has proved to resist blight or other diseases better than any other pear.

APRICOTS

Size	Each	10
1 to 2 feet.....	\$.20	\$1.75
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.40	3.00
4 to 5 feet.....	.50	4.00
5 to 7 feet.....	.60	5.00

EARLY GOLDEN—Deep yellow, medium size. One of the sure bearers and a good all-round apricot. June 1.

CLUSTER—One of the best apricots for Texas; said to bear when other varieties fail.

MOORPARK—Large yellow, with red blush.

FIGS

Price, medium size, heavily rooted trees, 35c each, \$2.50 for 10; small size, 25c each, \$2.00 for 10.

This much neglected fruit should find a place in every orchard. In the north half of the State and adjoining states, plant Celestial. Farther south Magnolia is the variety to plant. Even this variety may be planted with profit where it freezes down for it will sprout from the roots and bear the same season.

The Magnolia figs really bear large, luscious, ripe figs the first year. I have gathered them by the water bucket full off the bushes eight months old in the nursery row.

CELESTIAL—Medium to small, immense bearer; purple, the sweetest, most delicious and hardiest of all figs.

MAGNOLIA—Fruit very large, yellowish white with purple netting. Good quality, prolific.

GREEN ISCHIA—Light, transparent green; flesh white, shading to crimson around the seed; best very late fig; comes into bearing early and is very prolific.

MULBERRIES

Plant mulberry trees where chickens and hogs can get the fruit. They are fine shade trees and grow quickly. Price, 4 to 6 feet, 35c each, 10 for \$3.00; 6 to 8 feet, 50c each, 10 for \$4.00.

BLACK ENGLISH—A luxuriant grower,

bears at two years old; has large berry. April and May.

PERSIMMONS

Size	Each	10
2 to 3 feet.....	\$.40	\$3.50
3 to 4 feet.....	.50	4.50

JAPANESE PERSIMMON—Every home should have some Japanese persimmons planted about the house. They are very ornamental; bear young and regular; abundant crops of orange-red fruit of large size and delicious quality.

AMERICAN HONEY PERSIMMON—The fruits are of sugary sweetness, clear yellow, and hang on till Christmas. They make fine shade. They are seedlings and some of them do not bear, so we put in two for each one ordered.

PAPER SHELL PECANS

The pecan has been designated the official State tree, and as such it deserves special mention. An excellent shade tree and a valuable nut tree.—Bulletin, A. & M. College.

The State Department of Agriculture has a move on foot to protect pecan growers against trees that are not suited to the Southwest. We can subscribe to every requirement of the department as we grow all the trees we sell here in our nursery from native seedlings grown from seed collected on the water shed of the Trinity River. Our trees are correctly grown, very hardy, and dependable.

EASTERN VARIETIES

Size	Each	10	100
1 to 2 feet.....	\$.75	\$6.50	\$55.00
2 to 3 feet.....	.90	7.50	65.00
3 to 4 feet.....	1.10	9.00	75.00
4 to 5 feet.....	1.40	11.00	90.00
5 to 6 feet.....	1.75	14.00	110.00
6 to 7 feet.....	2.00	17.00	125.00

STUART—Nuts very large, oblong with brownish shell, in quality one of the best, a heavy bearer. More largely planted than any other variety.

SCHLEY—Large size, oblong, flattened, kernel full and plump with rich nutty flavor.

SUCCESS—Size large to very large; shell thin; quality rich; flavor very good.

DELMAS—Very large nut, vigorous grower; prolific bearer; quality good.

WESTERN VARIETIES

The prices on these varieties are 10% more than the Eastern varieties.

All Varieties We Offer are Bearing in the Nursery Row. This is Halbert

BURKETT—Generally conceded to be the best West Texas pecan. It seems to do equally well in East Texas.

HALBERT—More largely planted than any western variety except Burkett. Fine quality. An early and very heavy bearer.

OTHER NUTS

SELECT SEEDLING PECANS—From choice well filled nuts. 40 cents each.

BLACK WALNUTS—One of our best nuts, nice 2-year-old trees, 25 cents each; 4 to 5 feet, 50 cents each. 6 foot trees \$1.00

ALMONDS—Budded trees. 3 to 4 feet, 50c each; 4 to 5 feet, 75c each.

BLACKBERRIES

Price, 45 cents per dozen; \$3.00 per 100.

DALLAS—A standard berry in Texas; large, fine quality, productive. Early to mid-season.

LAWTON—Has sturdy, erect canes, heavy bearer of large berries; fine quality.

MCDONALD BERRY—A cross between a blackberry and a dewberry; large, juicy, of best quality; early; hardy; very vigorous and most productive.

DEWBERRIES

Price, 30 cents per dozen; \$1.50 per 100.

ROGERS DEWBERRY—Large, black berry, earlier than Austin. Suited to South Texas.

AUSTIN DEWBERRY—Early, immensely productive, of largest size and fine quality. Very profitable.

GIANT HYMALAYA BERRY

This berry is perennial like a fruit tree, and its rapid growth makes it attain an enormous size in a few years. Anyone can grow the Hymalaya in any soil anywhere. It fruits in enormous clusters and in quality and fruit is similar to the very best blackberry. It bears luscious ripe berries from last of May to August. It is quite ornamental and can be used for covering arbors, fences, etc. Price, 10c each; \$1.00 per doz.

YOUNGBERRY

A very promising new fruit. It grows as strong and fruits as abundantly as the Austin Mayes Dewberry. The wonderful thing about this berry is its sweet red raspberry flavor and the very small, soft seed. Housewives who have used them will have no other. The vines are extremely vigorous growers and should be planted in eight foot rows six feet in row. Ripens through June. Price, 15c each, \$1.50 per dozen, \$9.00 per 100.

STRAWBERRIES

KLONDYKE—The best strawberry for home and market for the Southwest. Price

30c for 25 plants; 60c per 100; \$5.00 per 1,000.

GRAPES

BUNCH GRAPES

Strong plants, 20c each; \$1.50 for 10; \$12.50 per 100.

CONCORD — Vigorous, large, black, for table and market.

NIAGARA — One of the most profitable white grapes grown, bunch and berry large, of good quality.

R. W. MUNSON — One of the best large black grapes for the South. It should have some other variety planted with it as its flowers do not pollinate well.

MARGUERITE — A grape that is as hardy and strong grower as a mustang; medium size bunch and berry; dark pink; almost black. Quality good.

HERBEMONT — Small berry; large cluster, fine for table or market; very strong growth; will cover fences, arbors or trees.

MUENCH — Vine vigorous and free from all diseases. Large clusters of purplish-black berries. Very fine quality. Well adapted to this climate and should be planted in preference to Concord in the Southwest.

FERN MUNSON — Strong grower; large bunch and berry. Dark red; quality excellent.

MUSCADINE TYPE GRAPES

Extra heavy plants 40c each, \$3.00 per 10; medium plants, 25c each, \$2.00 per 10.

SCUPPERNON — Large, yellow, of muscadine type. It is free from disease, and good quality. Fine for arbors.

SAN ALBA — Large fruit, fine quality white grape.

E D E N — Large, black; large cluster; early bearer; fine quality; productive; free from disease.

SHADE TREES

Quantity discounts: 10 trees of a kind, 10%; 100 trees, 20%.

Prices on the varieties immediately following are: 2 to 3 feet, 15c each; 3 to 4 feet, 25c each; 4 to 6 feet, 40c each; 6 to 8 feet, 75c each; 8 to 10 feet, \$1.00 each; 1½ to 2 inch caliper, \$1.50 each; 2 to 3 inch caliper, \$2.00 each.

SYCAMORE — One of the largest and best shade trees over most of the state. It is not attacked by insects nor affected by adverse city conditions.—Bulletin, A. & M. College.

We have a very excellent stock of Sycamores, in all sizes.

CHINESE ELM — This tree has sprung into such popularity the last few years that the demand is unprecedented. Splendid shade tree; very quick grower.

Prices on the varieties immediately following are: 2 to 3 feet, 15c each; 3 to 4 feet, 25c each; 4 to 6 feet, 30c each; 6 to 8 feet, 45c each; 8 to 10 feet, 75c each; 10 to 12 feet, \$1.00 each.

COTTON WOOD — Quick growing shade.

CAROLINA POPLAR — Beautiful growing shade tree.

LOMBARDY FOPLAR — This tree is very upright in growth.

NEW CHINESE LOMBARDY POPLAR — Darker green than regular Lombardy.

SILVER MAPLE — The hardiest maple in the Southwest.

BLACK LOCUST — A very hardy, quick growing tree of tropical appearance.

Prices on the varieties immediately following are: 2 to 3 feet, 30c; 3 to 4 feet, 40c; 4 to 6 feet, 60c; 6 to 8 feet, \$1.00.

ALBIZZIA (MIMOSA) — A beautiful ornamental shade tree with fine-cut, fern-like foliage, covered in summer with beautiful feathery pink flowers.

WEeping WILLOW — A very effective tree in landscape planting. Grows anywhere but likes a moist location.

CHINESE TALLOW TREE — Compact dense head of small bright green leaves; the cleanest of all deciduous trees. In late summer and fall, when many trees have yellow and brown falling leaves, the Tallow-tree is beautifully fresh and green. 2 to 3 feet, 3 to 4 feet, 4 to 5 feet only.

EVERGREEN ASH — Evergreen in South Texas; without foliage a short time in N. Texas. Good grower.

WHITE FLOWERING DOGWOOD — This makes a nice symmetrical tree, covered in spring with flowers and in autumn with bright red berries and gorgeous varicolored foliage. Price, 2 to 3 feet, 25c; 3 to 4 feet, 40c; 4 to 6 feet, 75c each.

WILD CHERRY — This makes a stately symmetrical shade tree and bears regular crops of jet black fruit. Priced same as White Flowering Dogwood.

TEXAS UMBRELLA TREE (or CHINA) — This tree makes the quickest shade of any and a good one, too. Well adapted to the Texas prairie. Plant a few. I have the

finest strain I have ever seen. Price, 1 to 2 feet, 10c; 2 to 3 feet, 20c; 3 to 4 feet, 30c; 4 to 6 feet, 75c each.

JAPAN VARNISH—A stately, hardy tree from Japan. Large leaves, smooth green bark that looks as if it were varnished. Price, 5 to 6 feet, \$1.00; 6 to 8 feet, \$1.75.

TULIP TREE—Of tall pyramidal habit, with broad, glossy, fiddle shaped leaves and beautiful tulip-like flowers. Price, 6 to 8 feet, \$1.00; 10 to 12 feet, \$2.00 each.

SUGAR MAPLE—A good shade tree of straight, spreading, symmetrical growth. Price, 6 to 8 feet, \$1.00; 10 to 12 feet, \$2.00.

CATALPA BUNGEI—This tree grows into a symmetrical, rounded head like an umbrella. Price, 6 feet, \$1.50 each.

CATALPA SPECIOSA—Big leaf timber and shade tree. 4 to 6 feet, 40c each; 6 to 8 feet, 75c each.

RED BUD or JUDAS TREE—Small native tree with large heart-shaped foliage, covered in spring before leaves appear with a mass of purplish-red flowers. Price 3 to 4 feet, 40c each; 4 to 6 feet, 60c each; 6 to 8 feet, \$1.00 each.

KOELRENTERIA (Varnish Tree, Golden Rain Tree) — Medium size tree with pinately divided leaves. Showy in July when spangled with foot long clusters of golden yellow flowers and in autumn when foliage colors to crimson and gold. Price, 3 feet, 75c each.

RED CEDAR—See Evergreens.

MAGNOLIA—See Evergreens.

—o—

BROAD - LEAVED EVERGREENS

SOUTHERN LAUREL (Cherry Laurel) One of the most beautiful evergreens. Foliage is exceptionally glossy and has a rich green color. Naturally compact and symmetrical. Will make a fine shade tree or can be sheared to any desired form. Price, 12 to 18 inches, 75c; 2 to 3 feet, \$1.00; 3 to 4 feet, \$2.00 each.

MAGNOLIA GRANDIFLORA—Beautiful broadleaf evergreen with immense white blossoms. Price, 2 feet, \$1.50; 3 feet, \$2.00.

CAPE JASMINE—An evergreen shrub

with dark green, glossy foliage. The flowers are white, waxy, very fragrant, large and showy. Price, good 2-year plants, 35c; strong 2-year plants, 50c; large 3-year plants, 75c each; extra large specimen plants up to \$2.00, according to size.

FORTUNE'S CAPE JASMINE—A new strain with everblooming habit. Price, 2-year plants, 50c each.

AMERICAN HOLLY—A native evergreen tree of great beauty. Price, 1 to 2 feet, 50c; 2 to 3 feet, 75c; 3 to 4 feet transplanted, bushy, \$1.50; 5 to 6 feet, \$3.50.

COTTONEASTER PANNOSA. Very fast growing and very graceful. The foliage is a soft gray-green and the under sides of the leaves are silvery in color. White flowers in spring followed by masses of dull red berries which are very attractive during fall and winter. Price, 18 to 24 inch, \$1.50; 24 to 30 inch, \$2.00; 30 to 36 inch, \$2.50 each.

ENGLISH BOXWOOD—Leaves are small, round, and glossy green. Of very slow growth and useful for tubs, boxes, low hedges or other situations requiring a slow growing plant. May be sheared to any desired shape. Price, 12 to 18 inch, \$1.00 each.

EUONYMUS COMPACTA—Dwarf compact form of evergreen euonymus. Price, 15 to 18 inch, 50c each.

PRIVET, AMOOR RIVER (South)—The finest hedge plant for the Southwest; grows rapidly, withstands drouth, holds its foliage well, usually during the entire winter. When left unsheared, it develops the most beautiful specimens for planting singly or in groups. Has beautiful frond-like branches and of spreading growth. Prices: 1 to 2 feet, 7c each, 75c per dozen, \$5.00 per 100; 2 to 3 feet, 10c each, \$1.00 per dozen, \$7.00 per 100; 3 to 4 feet, 15c each, \$1.50 per dozen, \$9.00 per 100. Specimen plants—these were transplanted last winter two feet in row and sheared back. They are thick, heavy plants, suitable for shearing or immediate effect. 3 to 4 feet, 25c each, \$2.25 per dozen, \$20.00 per 100. Larger sizes, 50c to \$1.50 each.

CALIFORNIA PRIVET—Of upright rapid growth, very popular for hedging purposes, as well as single specimen plants. Price, 1-year plants, 5c each, \$4.00 per 100; heavy 2-year plants, 8c each, \$7.00 per 100.

OUR GUARANTEE: We guarantee every tree and shrub you buy from us to be true to name, to be healthy and free from disease, and to be carefully packed and delivered in good condition. We use every precaution to keep our varieties true to name. However, should a mistake occur, on proper proof, we gladly replace the stock or refund the purchase price

AMOO RIVER PRIVET

GOLDEN PRIVET — A very striking ornamental privet with beautiful golden bordered leaves. Price, 12 to 18 inch, 25c; 18 to 24 inch, 50c; 2 to 3 feet, 75c each.

QUOHOI PRIVET (Everblooming Privet) — Small dark green glossy foliage. The only privet having the true everblooming habit. One of the hardiest and best. Price, strong 1-year plants, 25c each, \$2.50 per dozen; medium 1-year plants, 15c each, \$1.50 per dozen.

ABELIA GRANDIFLORA — A pretty low growing evergreen shrub covered with white flowers tinged with pink from May until frost. Well rooted plants, 30c each; medium plants, 50c; heavy plants, 80c each.

LAVENDER COTTON — A dwarf evergreen with silver gray foliage. Used as border plant and carpet covering. Large clump, 75c; small divisions, 10c.

NATIVE MYRTLE — An evergreen well suited to damp places. However, will grow in most situations. Price, 2-foot plants, 50c; heavy clumps, \$1.50.

MYRTLE (MYRTIS COMMUNIS) — A beautiful broad-leaved evergreen shrub of spreading habit. Leaves aromatic and shining green. Small fragrant white flowers produced all summer. Well rooted plants, 50c each.

ROSEMARY MYRTLE — Smaller leaves; more compact grower than the above. Bushy plants, both varieties, 2 to 3 feet, \$2.00 each.

COMPACT ROSEMARY MYRTLE — Same as Rosemary, except it is a very compact form. Nice 2-year plants, \$1.00.

EUONYMUS JAPONICA — One of our best glossy-leaved evergreens. Price, 18 to 24 inches, 40c each; 2 to 3 feet, 65c each; 3 to 4 feet, \$1.00 each.

PATENS EUONYMUS — A spreading evergreen shrub of unusual hardness. Drops its leaves just before the new growth starts in spring. Its bursting seed pods display red seeds in winter. Small plants, 30c; medium plants, 50c; large clump, 75c.

CARRIER'S EUONYMUS — Low growing, spreading branches with shiny green leaves turning bronze in winter. Useful for edging beds of larger shrubs. Small, well-rooted plants, 30c; strong plants, 40c; heavy clumps, 75c each.

JASMINE FLORIDUM (Formerly called Humille) — Almost an evergreen. Has bright yellow flowers all summer. Strong 2-year plants, 50 cents each; heavy clumps, \$1.00 each; extra large specimen plants, \$1.50 each.

JASMINE HUMILLE — An upright growing, bushy plant with numerous yellow flowers in summer. Price, strong plants, 75c; extra heavy plants, \$1.50 each.

PRIMROSE JASMINE — A rambling evergreen shrub with arching branches bearing small evergreen leaves. Produces a profusion of bright yellow flowers. Semi-climber. Strong plants, 50c each; extra

UPRIGHT LIGUSTRUM

WAX LIGUSTRUM

large plants, \$1.00 each.

NANDINA (JAPANESE) — Hardy leafy shrub, foliage tipped with pink and bronze in summer, changing in winter to deep wine and bronze red. Red berries in winter add to its beauty. Price, 2-year plants, spread of foliage 8 to 10 inches, 50c; 10 to 12 inches, 75c; very fine 3-year plants, 12 to 18 inches, \$1.25; 18 to 24 inch plants, \$2.00 each; extra large specimen plants up to \$3.00 each.

ELAEAGNUS PUNGENS — A fine evergreen shrub of spreading habit, gray foliage, silvery beneath, flecked with bronze. Small flowers in summer, red berries in winter. Price, 1 to 2 feet, 50c; 2 to 3 feet, \$1.00 each.

LEUCOPHYLLUM TEXANUM — This plant has a beautiful ashen-gray leaf, is evergreen and during the summer, after every shower, produces a profusion of lilac-colored flowers. We have three varieties: *Leucophyllum Texanum Compacta* (a very compact grower); *Leucophyllum Texanum Floribundum* (more profuse bloomer than the other varieties); *Leucophyllum Texanum Upright* (Upright growth). Extra nice 2-year plants, \$1.50 and \$2.00 each.

FEIJOA SELLOWIANA — Called pineapple guava. Foliage gray green, silvery underneath. Numerous white flowers with red stamens. Very drouth resistant. Fruit dark green, delicious for eating fresh or for making jelly and jam. Very useful evergreen, worthy of planting if it bore no fruit. Price, 18 to 24 inches, \$1.00 each.

PHOTINIA — A broad leaf upright evergreen. The new growth blood red. In winter some of the old leaves turn crimson. Price, 12 to 15 inches, 60c each; 15 to 18 inches, 80c each; 18 to 24 inches, \$1.00; 24 to 30 inches, \$1.50; 30 to 36 inches extra heavy, \$2.00.

JAPAN LIGUSTRUM — The smooth-leaved evergreen shown so beautifully on San Antonio plazas and around State Capitol in Austin. Can be pruned to any desired form or allowed to grow into elegant shade tree. Bright green all winter. One of the most popular evergreen shades; 2 to 3 feet, 40c each; 3 to 4 feet, 60c each; 4 to 5 feet, 85c each; 5 to 6 feet, \$1.00.

LARGE-LEAF LIGUSTRUM — Has exceedingly large leaves. A greatly improved strain of the Japanese Privet. Beautiful quick-growing plant, attaining 12 to 15 feet. Grafted. Price, 2 to 3 feet, 50c; 3 to 4 feet, 75c; 4 to 5 feet, \$1.00; 5 to 6 feet, \$1.50

Note — This plant is fine for tall hedges and makes beautiful shade trees. In ordering, please state whether you wish to train your plant to a single stem or have it remain bushy.

LIGUSTRUM NEPALS LUCIDUM — Dark green, thick, glossy leaves, curled upward. Uniform spreading, upright growth — a very attractive plant. Makes excellent specimen. These are grafted and of uniform type. Price, 18 to 24 inch, 50c; 2 to 3 feet, 75c; 3 to 4 feet, \$1.00; 4 to 5 feet, heavy, \$1.50.

LIGUSTRUM UPRIGHT LUCIDUM —

The one broad-leaved evergreen that can be used with good results to cover high points in a planting. Between windows, at corners, and in front of columns. They do not crowd smaller plants. Grafted. Price, 18 to 24 inch, 50c; 2 to 3 feet, 75c; 3 to 4 feet, \$1.00; 4 to 5 feet, \$1.50 each.

LIGUSTRUM WAX LEAF —

The very finest of all Lucidums. In appearance it has the finest quality of any broad-leaf evergreen. The foliage is deep, rich green, almost black. The leaves are very thick, beautifully shaped, and glisten as though polished. In growth this plant is very compact, dense, and wide spreading, keeping greater width than height ordinarily. It permits pruning and trimming to any desired shape. Fragrant, white, wax-like blossoms are produced in the Spring. Grafted plants. Price, 12 to 18 inch, 35c; 18 to 24 inch, 50c; 2 to 3 feet, 75c; 3 to 4 feet, \$1.00.

PYRACANTHA — Yonnanese Firethorn

A broad spreading type of evergreen hawthorn with an abundance of beautiful coral-red berries in the fall. Price, 18 to 24 inch spread, \$1.50 24 to 30 inch spread, \$2.00 each.

ROSEMARY —

A handsome low spreading evergreen shrub with many-stemmed, gray-green foliage. Small spikes of blue flowers in the spring. Diameter or spread is about equal to their height. Price, 8 inch plants, 40c each; extra heavy clumps, \$1.50 each.

TRUE LAVENDER —

A low, many-stemmed plant averaging one to two feet in height with a spread or diameter about equal to the height. Price, 6 to 9 inch, 75c each; 9 to 12 inch, \$1.00 each.

YAUPON —

Very desirable evergreen shrub with small oval dark green leaves. Covered in winter with clusters of red berries. Price, 18 to 24 inch, \$1.25; 24 to 30 inch, \$1.75; 30 to 36 inch, \$2.25 each.

— o —

CONIFEROUS EVERGREENS

The price of evergreens is for the plants fresh dug and the roots puddled in thick mud. If wanted with a ball of earth on roots, add 25 cents per plant. We do not pay express on balled plants.

ARIZONA CYPRESS — A beautiful bluish-green cypress of narrow, pyramidal form, from the mountains of Arizona and Northern N. Mexico. A handsome ornamental tree, well suited to the Southwest. Price, 8 to 12 inch, 50c; 12 to 18 inch, 75c; 18 to 24 inch, \$1.00; 2 to 3 feet, \$1.50; 3 to 4 feet, \$2.00.

ROYAL ITALIAN CYPRESS — A tall, slender tree with erect branches, having a pillar or columnar effect. A useful subject for gateways, arches, tall borders, etc. Price, 18 to 24 inches, \$1.00; 2 to 3 feet, \$1.50; 3 to 4 feet, \$2.00 each.

BONITA ARBORVITAE — The most perfect globe-shaped Arborvitae ever introduced. Hardy, healthy grower. Color beautiful green. Price, 12 to 15 inches, 75c; 18 to 24 inches, \$1.50; 24 to 30 inches, \$2.50; extra heavy specimens, \$4. to \$6. each.

BERCKMAN'S DWARF GOLDEN (au-rea nana) The most called for Arborvitae. Golden tipped, cone shaped. Rather slow but healthy grower. Price, 12 to 18 inch, 75c; 18 to 24 inch, \$1.50; 24 to 30 inch, \$2.00; 30 to 36 inch, \$2.75; extra heavy specimens, \$4.00 to \$6.00 each.

BEVERLY GOLDEN ARBORVITAE —

Tall stately pyramid, with bright green foliage overcast with golden yellow. Price, 24 to 30 inch, \$1.75; 30 to 36 inch, \$2.00; 3 to 4 feet, \$2.50.

GOLDSPIRE — The best golden, pyramidal type yet introduced. Broad base, tall and erect with intense golden foliage. Very hardy and popular. Price, 2 to 3 feet, \$2.00; 3 to 4 feet, \$3.00 each.

BAKER'S ARBORVITAE — This is one of the very best Arborvitae for the South. Compact, cone shaped, and remains in beautiful shape without shearing. Price, 12 to 18 inch, 50c; 18 to 24 inch, \$1.00; 24 to 30 inch, \$1.25; 30 to 36 inch, \$1.75; 36 to 42 inch, \$2.50; 42 to 48 inch, \$3.50; extra large specimens, \$4.00 to \$6.00 each.

COMPACT ARBORVITAE — Deep green, thick, compact top. Very hardy. Price, 12 to 18 inch, 75c; 18 to 24 inch, \$1.00; 24 to 30 inch, \$2.25; 30 to 36 inch, \$3.00; extra large specimens, \$4.00 to \$6.00 each.

CHINESE ARBORVITAE — These plants

Athens, Texas, Dec. 26, 1931.

Henderson's Nursery, Athens, Texas.

Dear Sir: The 78 pecan trees I bought from you last winter have made about twice the growth of trees I planted at the same time from another nursery that claimed the "best rooted trees." These trees cost a little more than twice as much as the trees I got from you and yours are finer, larger trees. Book me for 120 trees for this winter.

Yours truly, C. A. RITTER.

**YOU ARE CORDIALLY INVITED
TO VISIT OUR NURSERY**

Plan a trip to our nursery. You'll see much to interest you and perhaps you will find a suggestion as to just the very things you need to make your grounds more beautiful and fruitful. You'll enjoy every minute of your visit.

are very hardy in the Southwest. Are pyramidal in shape and of good green color. These are seedling and the type varies. Price, 24 to 30 inch, 35c; 30 to 36 inch, 60c; 3 to 4 feet, 80c; 4 to 5 feet, \$1.00; 5 to 6 feet, \$1.50 each.

ROSEDALE HYBRID—Unlike any other *Arborvitae* in foliage, being of fine feathery, bluish-green. Very compact. Price, 12 to 18 inch, 75c; 18 to 24 inch, \$1.20; 24 to 30 inch, \$1.75; 30 to 36 inch, \$2.25 each.

ANDELA RETINOSPORA—This plant forms a dense, compact, round head with soft, bluish-green foliage, turning to purplish-bronze in winter. Price, 18 to 24 inch plants, \$2.00 each.

RAMSEY'S HYBRID (*Thuya Orientalis*) — A fast growing evergreen of very beautiful type when matured. Dark green foliage, rather thin in the young plants but improves with age. Growth is upright and erect in form and stands heat and drouth as well as cold. Price, 3 to 4 feet, \$2.50; 4 to 5 feet, \$3.50; 5 to 6 feet, \$5.00 each.

CEDRUS DEODARA — Feathery artistic blue foliage. Considered the most beautiful ornamental cedar for the South. 15 inch plants, \$1.00; 18 to 24 inch, \$1.75; 2 to 3 feet, 2.50; 3 to 4 feet, \$3.50; 4 to 5 feet, \$4.50; 5 to 6 feet, \$6.00 each.

JUNIPERUS CANADENSIS — A dwarf spreading evergreen with bluish-green foliage. Price, 12 to 18 inch plants, \$1.00; 18 to 24 inch, \$1.50.

IRISH JUNIPER — A fine leaf, bluish juniper, medium size. Ornamental in masses or as specimens. Price, 10 to 15 inch plants, 75c; 15 to 18 inch, \$1.00; 18 to 24 inch, \$1.50; 24 to 30 inch, \$2.00; 30 to 36 inch, \$2.50; 3 to 4 feet, \$3.25.

PFITZER JUNIPER — One of the most popular of all evergreens. Spreading bushy, graceful, informal habit. Can be kept as low as desired. Beautiful grayish green foliage drooping. Price, 10 to 12 inches, 75c; 12 to 18 inches, \$1.00; 18 to 24 inches, \$1.50; 24 to 30 inches, \$2.00; 30 to 36 inches, \$2.75 each.

JUNIPERUS CHINENSIS COLUMNARIS—A column Chinese juniper. A comparatively new and rare introduction from China forming a tall narrow pyramid with blue compact foliage. One of the finest new conifers we list. Price, 12 to 18 inch, \$1.50; 18 to 24 inch, \$2.00; 30 to 36 inch, \$3.00 each.

SYLVESTER JUNIPER — A small, loosely pyramidal tree with slender, horizontal branches drooping at the tips. 18 to 24 inch, \$1.00; 24 to 30 inch, \$1.50; 30 to 36 inch, \$2.00 each.

SPINYGREEK JUNIPER—Dwarf, compact, very ornamental tree decidedly conical in form. Well branched and densely clothed with grayish-green glaucous foliage. Price, 10 to 12 inch, \$1.00; 12 to 15 inch, \$1.50; 15 to 18 inch, \$2.00; 18 to 24 inch, \$2.50 each.

SAVIN JUNIPER — A low, semi-spreading evergreen with dark green foliage. Price, 12 to 15 inch (spread) \$1.25 each; 15 to 18 inch (spread) \$1.75 each.

JUNIPERUS CHINENSIS PROCUMBENS (Trailing Chinese Juniper) — A prostrate, creeping variety with dense, compact, blue-green foliage. Very hardy. Price, 12 to 18 inch (spread) \$1.75; 18 to 24 inch (spread) \$2.50; 2 to 3 feet (spread) \$3.00 each.

JUNIPERUS HORIZONTALIS—Spreading on the ground like a watermelon vine; blue-green foliage; slender branching growth. Price, 12 to 15 inch (spread) \$1.25; 15 to 18 inch (spread) \$1.75; 18 to 24 inch (spread) \$2.50; 2 to 3 feet (spread) \$3.00 each.

EXCELSA STRICTA VARIGATA (Spotted Spiny Greek Juniper) — A dwarf, slow growing conical shaped juniper with dense foliage, spotted with creamy-white branchlets. Price, 10 to 12 inch, \$1.00; 12 to 15 inch, \$1.50; 15 to 18 inch, \$2.00; 18 to 24 inch, \$2.50 each.

VON EHRLON'S JUNIPER—Like Savin's Juniper except much faster grower. Price, 18 to 24 inch, \$2.00; 24 to 36 inch, \$3.00.

JUNIPERUS CONFERTA (Shore Juniper) — A low prostrate juniper with slender, spreading branchlets. A very rapid growing plant with willow-green foliage. Grows well on sandy soil. Price, 12 to 18 inch (spread), \$1.00; 18 to 24 inch (spread) \$1.50; 24 to 30 inch (spread) \$2.50 each.

JUNIPERUS VIRGINIANA KOSTERI — A semi-dwarf, naturally spreading tree with dense, light green to bluish foliage resembling in outline the Pfitzer Juniper. Price, 18 to 24 inch, \$1.50; 24 to 30 inch, \$2.00 each.

RED CEDAR — Too well known to need description. Price, 1 to 6 feet, 25c per ft. Extra bushy plants, 50c per ft. We have both the native and the Platt River types.

VIRGINIA BLUE CEDAR — A very rare variety of the cedar family, with blue-gray foliage. A richly colored, hardy specimen plant. Price, 18 to 24 inch, \$2.00 each; 24 to 30 inch, \$2.50 each; 30 to 36 inch, \$3.00; 36 to 42 inch, \$3.50; 42 to 48 inch, \$4.00; 4 to 5 feet, \$5.00; 5 to 6 feet, \$6.00; 6 to 7 feet, \$7.50.

We have a few plants of *Juniperus Ca-*

narti, Schott's Redcedar, Myer's Juniper, Lee's Juniper, Juniper Pendula. If interested in these, write for prices.

MUGHO PINE — Low, dwarf, many-stemmed pine. Price, 6-year plants, \$2.50.

PINE (NATIVE SOUTHERN) — Price, 18 to 24 inch, 75c; 2 to 3 feet, \$1.50; 3 to 4 feet, \$2.50 each.

Pine trees require careful handling, and should be balled and burlapped.

—o—

VINES

KUDZU VINE — Very rank, fast grower, suitable for quick shade. Beautiful Wistaria-like blossoms. Price, 25 cents each.

HONEYSUCKLE — A favorite vine with flowers of delicious fragrance, strong, rapid grower in any soil or location, will cover arbors, verandas or posts and is beautiful when allowed to ramble over trees and bushes in a wild, natural way. Strong plants, 25 cents each.

CLIMBING ROSES — See list under roses

WISTERIA — Chinese Purple. A rapid-growing vine covered in early spring with large clusters of pea-shaped purple flowers. Price, 40 cents each.

WISTERIA — White. Same as above except flowers are white.

ENGLISH IVY — Clings to stone, brick or wood. Hardy, with thick, dark green leaves. Well rooted plants, 25c each.

TRUMPET CREEPER — The old fashioned sort. Good for covering back fences, dead trees, etc. Price, 25 cents each.

QUEEN'S WREATH — Very rapid-growing vine which dies to the ground in winter. Covered in summer with magnificent sprays of bright rose pink flowers. Price, 35 cents each.

VIRGINIA CREEPER — Clings to the smoothest wall. Large green foliage changing to brilliant scarlet in the fall and later dropping the leaves. Price, 25c each.

BOSTON IVY (Ampelopsis Veitchii) — A clinging vine for covering walls, chimneys and stonework. Green in summer, gorgeous reds and yellows in autumn. Price, strong 2-year plants, 30c each.

VINCA MAJOR (Periwinkle) — Bright blue flowering evergreen trailer for banks borders, hanging baskets and window boxes. Price, 10c each, \$1.00 per dozen.

VINCA MINOR — Like above except has small leaves. Same price.

LATHYRUS LATEFOLIUS (Perennial Pea) — A climbing vine; perfectly hardy and increases in beauty each year. While the flowers lack the delightful perfume of the Sweet Pea, they are larger and much more beautiful, growing in clusters and remaining in full bloom the greater part of the summer. Mixed colors. Heavy blooming plants, 25c each.

—o—

SHRUBS

Price, except where noted: Extra strong field grown 2-year plants, 40c each; medium 2-year and strong 1-year plants, 25c each.

CREPE MYRTLES — Nature's special gift of beauty to the South. A shrubby tree covered with large trusses of bright flowers all summer. They should be planted about every Southern home and make this the "Land of Crepe Myrtle." Even in the North where the tops may be frozen they will spring from the roots and give a wealth of bloom that summer. We have the following varieties: Red, Pink, Purple, White.

SPIREA VAN HOUTTEI — Grandest of the white Spireas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white blooms, the foliage hardly showing. Clusters of twenty to thirty white flowers make up the raceme, and are set close along the drooping stems. Medium 1-year plants, 15c each, \$1.50 per dozen; extra strong plants, 25c and 40c each.

SPIREA FROBELLII — Dwarf pink spirea blooms like Anthony Waterer, and stands our climate much better than Anthony Waterer.

RUSSIAN OLIVE — A shrubby tree with grayish green foliage. Yellow flowers and small ornamental fruits of varying shades. Trees 5 to 6 feet, \$1.00.

POMEGRANATE — A Southern yard ornament of rare merit, covered throughout the summer with bright scarlet flowers and fruit. It fruits first season in the nursery.

Reagan, Texas, Dec. 21, 1931.

Henderson's Nursery, Athens, Texas.

Dear Sir: All of the trees I ordered from you are doing fine and all of them are living. All of my friends are talking about my fine trees. Please send me one of your catalogs, I want to order some more.

Yours truly, I. S. WILLIAMS.

Dallas, Texas, Nov. 18, 1930.

Mr. E. M. Henderson, Athens, Texas.

Dear Sir: If my trees ordered from you don't grow it won't be the fault of the nurseryman, for they certainly came in the very best of condition.

Yours very truly, C. L. THOMAS.

RED CRAPE MYRTLE IN OUR NURSERY

DWARF POMEGRANATE — A wonderful little plant covered throughout the summer and fall till freezing weather with bright red flowers and highly colored fruits. In severe winters tops will freeze down, but it will sprout from roots and be in bloom by early summer. It is a fine pot plant for winter use. Price, 1-year, 40c; 2-year, 75c; extra heavy, \$1.00.

FLOWERING POMEGRANATE — A good shrub with deep green, glossy leaves. Red, very double flowers through the summer. 2-foot plants, 40c.

ALTHEA (Hardy Hibiscus or Rose of Sharon) — The Althea makes a neat, shapely shrub or tree 4 to 8 feet high, covered with gorgeous flowers throughout the summer. Very easy to grow. We have the double varieties in white, pink, red and purple; single varieties in blue. Medium 1-year plants, 15c each, \$1.50 per dozen; extra strong plants, 25c and 40c each.

TAMARIX — Hardy shrub with feathery blue green foliage. Dainty pink flowers in summer.

FLOWERING WILLOW (Chilopsis) — A very hardy, drouth resisting shrub. Covered in late summer with purplish-pink blooms. 3 to 4 feet, 25c; 4 to 5 feet, 40c; 5 to 6 feet, 75c each.

PHILADELPHUS (SYRINGA or MOCK ORANGE) — A hardy, fast-growing shrub covered in spring with fragrant saucer-shaped blossoms, white with golden stamens.

HARDY ORANGE (CITRUS TRIFOLIATE) — A very ornamental shrub. Has dark green branches and foliage with a profusion of orange blossoms in spring and golden yellow oranges in late summer and fall. Stands drouth, heat and cold well. Fruit not edible.

WEIGELIA — Fine shrub covered in spring with pink flowers. One-year plants, 30 cents each; 2-year, 50c.

FLOWERING ALMOND — A low, broad shrub, completely covered in early spring with double flowers like small roses borne all along the stems. Pink and white varieties. Price, 18 to 24 inch, 40c; 2 to 3 feet, 60c each.

FLOWERING PEACH — Large shrub or small tree. In early spring, before leaves come out, it is covered with a profusion of double, red flowers like roses. Price, 2 to 3 feet, 25c; 3 to 4 feet, 40c; 4 to 5 feet, 60c each.

OTHELLO (PURPLE LEAF PLUM) — Prolific bearer of deep crimson fruit. The foliage is of the most brilliant reddish-purple and holds its color throughout the season. An ornamental tree of rare merit. Price, 2 to 3 feet, 25c; 3 to 4 feet, 40c; 4 to 5 feet, 60c each.

JAPAN QUINCE (or FIRE BUSH) — A hardy shrub covered in early spring with a profusion of bright coral red flowers, which give the plant almost the appearance of a burst of flame.

PURPLE LILAC—An old shrub of great beauty. Needs no description.

ROUEN LILAC — This lilac blooms more than other sorts. The bush is covered with bloom in the spring and then it blooms occasionally through the summer and fall. Strong 2 to 3-foot plants, 40c; 3 to 4-foot, 60c each.

SOUV. DE LUDWIG SPAETH (French Lilac) —Darkest of the blues. A deep purplish shade in long panicles. Price, 50c and 75c each.

DEUTZIAS (Pride of Rochester)—Grows strong and upright, 4 to 6 feet high. Flowers double and full, pure white.

DEUTZIAS (Crenata)— Growth same as above. Is covered in spring with a mass of single white bell shaped flowers.

FORSYTHIA (Golden Bell)—This splendid old shrub is covered in early spring with a mass of golden yellow flowers. We have the variety "Suspensa," which will cover arches or trellises.

MALVIVISCUS—This shrub has large, heart-shaped leaves and is covered from June until frost with camelia-shaped scarlet flowers.

ARTEMESIA (Silver King) — A vigorous, quick-growing plant with a close net work of branches, fine stemmed and slender leaved. A beautiful "mist" for setting off bouquets and floral combinations. Clumps, 75c, divisions, 10c each.

BUTTERFLY BUSH (Summer Lilac) — One of the most admired and sought after shrubs grown. Blooms from June till frost. Beautiful lavender flower spikes 10 inches long as sweet as a Spring Lilac.

RED LEAF BARBERRY — Compact shrub which grows about 3 feet high. The foliage is an unusually bright red and remains so during the summer season if in full sun. A very striking plant of the newer introductions. Price, 12 to 15 inches, 60c.

SWEET LAVENDER (Vitex) — Flowers and foliage noted for their distinctive lavender color and fragrance. Blooms from May till frost. 2 to 3 feet, 25c; 3 to 4 feet, 40c; 4 to 6 feet, 60c each.

We can furnish the following native trees and shrubs: Coral Berry or Indian Currant, Calli Carpa, Black Haw, and Sassafras, at 40 cents each.

HYDRANGEAS—Two year pot grown plants, 60c each. We have the following varieties:

HILLS OF SNOW — Hardy, white.

E. G. HILL — I m m e n s e , clear pink, French Hydrangea.

OTAKSA — The best standard pink French variety.

POINCIANA (Bird of Paradise)— Large shrub or small tree with feathery foliage, bright yellow flowers and red stamens in summer. Price, 2 to 3 feet, 25c; 3 to 4 feet, 40c each.

KOLKWITZIA (Beauty Bush) — A twiggy shrub forming a dome shaped mass. Deep pink, tubular flowers. Price, strong 2-year plants, 75c each.

ROSE ACACIA—One of the most striking of the spring blooming small trees or shrubs, with large rose colored flowers covering the plant in early spring. Medium plants, 40c; large plants, 75c each.

SPECIMEN PLANTS — In the following we have 3- and 4-year plants where extra large specimens are needed: Crepe Myrtles, Pomegranate, Spirea Van Houttei, Philadelphus, Deutzias, Butterfly Bush, Sweet Lavender, Flowering Willow. Price 75c to \$1.50 each.

— o —

CHOICEST NEW ROSES

In these you not only get the very newest roses, but those of proven merit. Price, 50c each, \$5.00 per dozen, unless otherwise noted.

TALISMAN — Brilliant orange red buds open to a large fragrant high pointed bloom of golden yellow stained with coppery-red and orange rose. The most vivid color of any rose, good grower and bloomer. Price, 60c each.

PRESIDENT HERBERT HOOVER—The rose sensation of 1930. Maroon, orange and gold, long pointed buds, enormous flowers, very fragrant, constant bloomer. Price, field grown plants, 60c each.

E. G. HILL — Here is the finest new red rose in several years, with immense flowers of very lasting, dazzling scarlet, never fading or turning blue, but actually becoming deeper red as it opens. The flowers are borne on long stems, and are deliciously fragrant.

DAME EDITH HELEN—One of the largest and most perfectly shaped pink roses known. Blooms abundantly with long, strong stems. Very sweetly scented. A great show rose. The finest new pink rose. 50c each.

BETTY UPRICHARD — A charming, semi-houble rose with copper-red buds, opening to lovely bi-colored flowers, soft-salmon-pink on the inner surface of the petals and glowing orange-carmen outside.

REV. F. PAGE-ROBERTS — Copper red buds of great length. The inner face of the

petals is a soft buff yellow, and the reverse is a rich salmon. The flowers are large, very double, with a delicious fruity fragrance.

ETOILE DE HOLLANDE — Brilliant red blooms of magnificent size, perfect in bud, half open or fully developed flower. One of the best new garden roses.

LADY MARGARET STUART — One of the finest new roses with buds of deep sunflower yellow, heavily veined and splashed with orange-scarlet; sometimes entirely of the latter color, and opening to a firm, full flower. The general color effect of which is cadmium-orange.

MRS. HENRY MORSE — Bright two-tone pink, with underlying yellow glow. Free bloomer, large double flowers.

MRS. ERSKINE PEMBROKE THOM — A long pointed bud with well shaped open flowers of deep yellow with other shadings. Strong growing. A mass of golden yellow throughout the summer.

WILHELM KORDES — One of the most interesting roses in our collection, because of its extremely variable coloring. The color in general is red or pink on a yellow ground but it varies from pink to red and yellow so greatly that it piques your curiosity into wondering what the combination will be in the next flower that unfolds.

STANDARD LIST OF BEST KNOWN ROSES

Price of strong, field-grown blooming plants, 35c each, \$3.50 per dozen.

RADIANCE — Brilliant rosy carmine displaying rich and opaline tints in the open flower, which is delightfully fragrant.

RED RADIANCE — A bright, cheerful even shade of pure red; size, growth, and habit same as its parent, "Radiance."

MRS. CHAS. BELL (Shell Pink Radiance) — Just like Radiance, except in color, which is a beautiful shell pink.

The three Radiance Roses here listed are

among the strongest growers and furnish a wealth of perfect flowers throughout the growing season. You can't go wrong planting Radiance.

EDWIN MAWLEY — Fine new crimson rose, strong grower, which will please the rose grower.

LADY MARGARET STEWART — Large exhibition bloom with enormous petals. Perfect form, high pointed center, golden yellow shaded orange and red. Richly colored, gorgeous new rose.

HADLEY — In color it is a deep velvety crimson, retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed. Very fragrant. A better rose than Mrs. Herbert Hoover.

J. J. L. MOCK — A giant pink rose from Holland. Good grower and bloomer.

LOS ANGELES — The color of this new rose is a gorgeous rich flame-pink, shaded golden yellow, quite different from any other rose in cultivation. The bud is long and full.

WILLOMERE — Superb rich shrimp pink, delicately blended with carmine pink. Buds long and pointed.

COLUMBIA — A giant pink of distinct merit, being an extremely strong, rank grower. Blooms with great freedom, its blooms of the very largest size imaginable are carried on long, stiff, erect stems. Very fragrant, clear Imperial pink, deepening as it opens to glowing pink. A peculiarity of the variety is that the shades all become more intense until the full maturity of the open flower.

MADAM BUTTERFLY — New fancy colored rose. A glorified sport of Ophelia with all the colors of Ophelia intensified, making it a harmony of bright pink, apricot, and gold. The buds are a lovely shade of Indian red, yellow at the base.

SUNBURST — Long pointed buds on very long stems. Color, golden orange and golden yellow, lighter on the edges of the petals.

ROSE COLLECTION

Throughout the season we have a surplus of some varieties of roses. These are usually our very best varieties as we grow them in larger quantities. In order that every person may have a rose garden and try our wonderful roses, we will make a special offer of mailing size roses as follows:

Six Roses, our selection.....	\$1.75 postpaid
Twelve Roses, our selection.....	\$3.25 postpaid

You may name your choice of varieties and we will follow your wishes as nearly as our stock will permit.

If you can use 100 or more roses, send your list for special price.

These prices are net and not subject to special free offer as listed on page three.

LUXEMBURG — The blending of colors in bud and bloom make this a most beautiful and attractive rose. Its color is a coral red, shaded chrome yellow, opening to a large flower of shrimp pink, shaded coppery orange. Free and constant, strong grower.

ALEXANDER HILL GRAY — One of the most beautiful yellow Tea Roses for general planting. The flowers are of good size, deep, full, very sweet-scented. Lemon yellow.

KAISERIN AUGUSTE VIKTORIA — A beautiful rose with elegant large pointed buds and very large full double flowers, delicate creamy white, deliciously fragrant. The plant is a strong healthy grower and constant bloomer. The flowers are on long stiff stems, with rich, glossy foliage.

LADY HILLINGDON — Long, slender buds of intense deep golden yellow; profuse bloomer. Just about our hardiest yellow rose.

FRAU KARL DRUSCHKI (White American Beauty or Snow Queen) — A hardy, vigorous grower, with bright green leaves, splendid long buds, and magnificent, snow-white blooms, with saucer-shaped petals; rightly named.

GEO. DICKSON (Red Frau Karl Druschki) — A tall-growing giant dark red rose. Very large, very fragrant.

PAUL NEYRON—The largest of all rose blooms; bright, shining pink, clear and beautiful; very double and full; finely scented and a strong grower.

FRANCIS SCOTT KEY (Star Spangled Banner) — Color, cherry red; very double; petals beautifully recurved. This rose has largely taken the place of American Beauty, being a stronger grower, producing, as it does, a very wonderful bloom that keeps longer than most varieties.

WHITE MAMAN CHOCHET — Pure white, yellow base, with outer petals shaded pink. Long bud, opening to full, double rose. Constant bloomer producing perfect flowers in hottest weather.

DUDLEY CROSS — Soft, rosy yellow, with deeper shadings. This rose is as fine as a Chochet and is thornless.

MRS. TAFT (Antoine Revoire)—Creamy white, delicately tinted with pink, the most perfect of shell pink roses. Healthy grower, constant bloomer.

MARY COUNTESS OF ILCHESTER — One of the very best pink roses. Very double, intense shade of deep pink. Constant bloomer, healthy grower.

ETOILE DE FRANCE — A fine rose, upright bush with few thorns. Has fine buds,

borne on long, stiff stems, flowers very large, full and of cup form, dark crimson velvet.

MRS. W. C. MILLER—A stocky, upright grower. Color striking rose with light pink bloom. Continuous bloomer.

PREMIER — A very popular pink rose.

SENSATION — A new red rose that is gaining popular favor.

SOUVENIR de CLAUDIUS PERNET — Intense, sun flower yellow. Moderate grower, constant bloomer.

GOLDEN OPHELIA — Bright, golden yellow, medium pointed buds of beautiful shape. Good bloomer.

MME. EDOUARD HERRIOTT (Daily Mail) — This vivid rose always catches and holds the eye first, no matter what other roses are present. Its red hot copper shade in the bud and the softer coral tint of the open flower are probably the most sensational colorings produced in any rose.

—o—

DWARF BABY ROSES

These roses bloom continuously from spring till stopped by freezing weather.

BABY HERRIOTT — A beautiful little baby rose with miniature buds of the same shape and form as Cecile Bruner, but the color is rich coppery orange, similar to that of Mme. Edouard Herriott.

WHITE BABY RAMBLER — Double snow white clusters.

CHATILLON — A fine pink Baby Rose with white center, giving a bi-color effect. Roses come in clusters of from 15 to 50. An improved Orleans. The showiest and prettiest of the pink baby class.

BABY DOLL — The color in this delightful little "Sweetheart" rose is absolutely new. Golden yellow tipped with clear bright cerise.

ORLEANS — Brilliant geranium red, suffused rose, and deep cerise. Blooms freely; lasting quality.

EDITH CAVELL— Brilliant scarlet overlaid velvety crimson with white eye. Glistering, mildew-free foliage. The best Red Baby Rose. Flowers keep two weeks.

PERLE D'OR — Coppery gold, changing to fawn and salmon; very double; elegantly perfumed. Called Yellow Cecile Bruner.

GOLDEN SALMOND — Bright orange flowers in huge clusters. The first really orange baby rose. Price, 40c each.

EVERBLOOMING CLIMBING ROSES

CLIMBING ETOILE DE FRANCE — Same flower as bush form; vigorous, hardy climber. Constant bloomer.

MARECHAL NEIL — The fame of this superb climbing yellow rose is world wide. Strong grower and free bloomer.

CLIMBING WOOTEN — A strong grower, blooms in great profusion; color bright magenta, passing to a violet crimson. Called by some "Red Marechal Neil."

CLIMBING LOS ANGELES — Just like Los Angeles, except it is a strong climber.

CLIMBING CECILE BRUNNER (Sweet-heart Rose)—Blush pink shaded to salmon. Strong climber. Very popular as a miniature flower rose. Also have this in bush form.

GAINSBORO, or CLIMBING VISCOUNTESS FOLKSTONE — Delicately tinted fawn, almost white with a satiny luster, very large flower, resembling a light pink, fluffy peony.

CLIMBING METEOR — Finest crimson everblooming climbing rose. It is rich velvet crimson like the Bush Rose Meteor, of which it is a sport, and an extremely strong growing variety making shoots 12 to 15 feet long in a single season under favorable circumstances.

CLIMBING COLUMBIA — An exquisite rose, both in bud and open flower; bright clear pink, large and very double, stems long and stiff; foliage handsome and glossy. One of the most constant bloomers in the climbing class.

CLIMBING KAISERIN (MRS. ROBERT PERRY)—This is without doubt the grandest of all white climbing roses.

HARDY ANNUAL BLOOMERS

CLIMBING AMERICAN BEAUTY — Flower much like regular American Beauty. Strong climber.

DOROTHY PERKINS — A strong, hardy pink climber of wonderful beauty.

RED DOROTHY — Same as above except it is a brilliant red.

PAUL'S SCARLET CLIMBER — Vivid scarlet shaded slightly crimson. Makes a brilliant display for a long time. This can not be classed as a monthly bloomer. It has a few blooms at intervals through the season.

SILVER MOON—Strong climber, healthy foliage, covered in spring with 4 to 5 inch semi-double flowers, pure white with thick cluster of yellow stamens.

AMERICAN PILLAR — Large, single flowers of rich rosy pink. A glint of white at the center, with golden yellow stamens. Very strong grower.

MARY WALLACE — Bright clear rose pink, with salmon base to petals. Very large, shapely, free blooming. Pillar rose type, with glossy, disease resistant foliage.

—o—

BULBS

CRINUM LILY (ANGEL LILY) — This lily grows from year to year without transplanting. Blooms through late summer and fall when other flowers are scarce. Gorgeous white flowers with pink stripe. Large clump, 75c; large mother bulb, 40c; smaller size, 25c each.

YELLOW DAY LILY — Has long narrow leaves. Produces many tall stems of fragrant waxen yellow flowers throughout the summer; thrives in any good soil. Price, 10c each; \$1.00 per dozen.

DEEP BLUE IRIS — Tall, dark blue.

IRIS HONORABILIS — Standards, golden yellow; falls, rich, mahogany brown. Price, 15c each; \$1.50 per dozen.

OLD-FASHION JONQUILS — 5c each; 50c per dozen.

AMARYLLIS JOHNSONII—Also called the Red Lily. Blooms very early in spring on two-foot long stems that bear clusters of three and four lillies of very bright red with white stripe. Large size bulb, 50c each, \$5.00 per dozen; medium size bulb, 35c each, \$3.50 per dozen.

MEXICAN TUBEROSE — Pure waxy-like single, fragrant flowers on tall, stiff stems. Very free perpetual bloomer of easy culture. Price, 10c each, \$1.00 per dozen.

ELEPHANT'S EAR (Caladium Esculentum) — One of the most effective tropical-like plants in cultivation for bordering canna beds or for planting singly or in masses on the lawn. Must be watered freely. 25c each, \$2.50 per dozen.

ZEPHYRANTHES CANDIDA — Star-like, two inch flowers of six distended petals, white with faint lilac streak outside; blooms freely in summer and early fall. 10c each, \$1.00 per dozen.

CANNAS—10c each; \$1.00 per dozen. We have the following varieties:

ITALIA—Golden yellow and bright orange scarlet.

THE PRESIDENT — The greatest red Canna, possessing every desirable quality.

PINK CANNAS — 20c each; \$2.00 per dozen.

CHRYSANTHEMUM — 10c each, \$1.00 per dozen. We have these varieties:

PINK TURNER—Large size lavender pink.

WHITE TURNER—Makes a perfect ball of purest possible white.

WHITE CHIEFTAIN — An immense white, showing a tinge of pink.

DWARF YELLOW — Medium size flowers, but very profuse bloomer.

—o—

YUCCA, CATCUS, GRASSES

YUCCA WHIPPLEI — Two foot narrow, glaucous green leaves. The flower spike is six to ten feet high and is covered with hundreds of waxen, bell shaped flowers. Price, \$1.00 each.

YUCCA FILAMENTOSA (Spanish Bayonet) — A conspicuous plant with fibrous needles. The large clusters of creamy-white flowers make a fine effect in summer. Excellent for massing.

DASYLIRION (Saw Tooth Sotol) — Very ornamental desert plant growing well in hot dry situations without care. Green leaves have numerous small spiny teeth. Flower spike has many catkins of yellow blooms. Fine for planting in pots and urns and in landscape work. Price, \$1.00 and \$2.00 each.

ECHINOCEREUS RIECHENBACHII — A pretty cactus of columnar growth covered with many miniature spines. Has rosy pink blooms in the spring.

ECHINOCEREUS HORIZONTALONIUS — Commonly called Devil's Pincushion. This cactus is flat with long spines standing up like pins stuck in a cushion. Has rosy pink blooms in spring.

ARIOCARPUS FISSURATUS — Small flat cactus with many spines. One of the prettiest. Has light pink blooms in fall. All cactus, small size, 35c, larger, 50c.

TRUE PAMPAS GRASS — Has white blooms, light-green foliage and grows to a height of six to eight feet. Strong divisions, 25c each.

MOCK PAMPAS GRASS — Will stand more hardships than True Pampas. Plumes not so showy. Big clumps, \$1.00, divisions, 20c each.

—o—

SEEDS

BLUE BONNET SEED — Native Texas Bluebonnet. Our State flower. Every home should have some of these. 25c per ounce, \$2.50 per pound.

TREES BY MAIL

In most all varieties of fruits listed in this catalog, I have nice healthy trees of mailing size and will send them to you post-paid at price named. **DO NOT SEND ORDER FOR LESS THAN \$1.00 UNLESS YOU INCLUDE POSTAGE.** These trees, if well cared for, will make you a fine orchard. Do not order large trees sent by mail. They are not mailable.

I ship by mail or express, according to your instructions and my best judgement.

—o—

TO THE NEW CUSTOMER

Or at least I hope you will prove to be a customer.

So, being optimistic and looking on the bright side, I will take it for granted that you are ready to make your trial order. You will want to ask some questions. That is right. Just help yourself. Read the catalog carefully. It will answer most of them.

The best way to send money is by P. O. money order or express money order. If you prefer you may send one-fourth of the total amount cash with the order and the plants will be shipped, balance C. O. D.

I am bending my energies to produce the best nursery stock that can be grown and feel much encouraged at my success. It gives me pleasure to know that my efforts are appreciated, as the many complimentary letters from pleased customers and largely increased business will testify. It is a source of gratification to me to notice that my largest orders and best trade comes from parties who have known my stock the longest.

I take particular pains to care for my customers' interests and they tell me they like that kind of treatment.

Now just write down what you want and send your order along. For, after all, much talk is confusing, and I feel sure that the thing that will make and keep you my friend and customer is the satisfaction of knowing that for every dollar you sent me you have received a dollar's worth of stock that will do you an honest service.

The life of my business depends on my pleasing you.

Sincerely yours,
E. M. HENDERSON.

—o—

Brownboro, Texas, Dec. 4, 1931.
Mr. E. M. Henderson, Athens, Texas.
Kind Sir: Am writing with reference to the year-old Elberta peach trees. Please quote me your price and the size of your one-year old trees. Am thinking of getting 200 somewhere. I want trees like those you sold me 24 years ago. I still have 35 yet.

Yours truly, C. H. LUTRICK.

THE FIRST NATIONAL BANK

*Capital, Surplus and Profits**\$300,000*

To Whom It May Concern:

Mr. E. M. Henderson, Proprietor of the Henderson Nursery, has resided in this vicinity since childhood. He is one of our most enterprising and foremost citizens, thoroughly reliable, and highly regarded by every one who knows him. He has transacted his business through this bank, and through this relation we have at all times found him to be entirely honorable in his dealings and perfectly reliable.

Very Respectfully,

T. F. MURCHISON, Pres.

For Vigorous Plant Growth

USE

VIGORO*Complete Plant Food*

Grass, flowers, shrubs and trees like human beings, must have a balanced diet. Vigoro is a scientifically balanced food ration furnishing all plant life with proper nourishment for maximum growth and beauty.

It is clear, odorless and easy to apply. We use it ourselves and highly recommend it. Full directions in every bag.

In feeding established lawn apply 4 lbs. of Vigoro on each 100 square feet of surface in early spring. Additional applications of 2 lbs. per 100 square feet during summer and 4 lbs. per 100 square feet in early fall will keep the lawn in thriving condition.

Prices:

5 lbs. for 375 sq. ft. of lawn.....	\$.50
25 lbs for 1875 sq. ft. of lawn.....	1.75
100 lbs. for 7500 sq. ft. of lawn.....	5.00

We do not pay express on Vigoro.

OFFICIAL NURSERY INSPECTION CERTIFICATE

Department of Agriculture, State of Texas

THIS IS TO CERTIFY, That the Nursery and Floral Stock grown, exhibited or held for sale by HENDERSON'S NURSERY, at Athens, County of Henderson, State of Texas, has been inspected by a duly authorized Inspector of this Department in accordance with the provisions of the Orchard and Nursery Inspection Laws of the State of Texas, and was found to be apparently free from Dangerously Injurious Insect Pests and Plant Diseases.

A printed copy of this Certificate on any shipping tag attached to any shipment of Nursery or Floral Stock is authority to any freight or express agent in Texas to accept same for transportation. This Certificate is void after September 1, 1932.

Approved: J. E. McDONALD,

Commissioner of Agriculture.

Austin, Texas, Sept. 19, 1931.

J. M. DEL CURTO,

Chief Inspector of Orchards and Nurseries.
