HOME GROWN NURSERY STOCK

Is Always More Dependable

Nursery stock raised by us is acclimated to this territory. When you ship stock in from other places the change of climate, even if it is slight . . . from other parts of the state for example . . . is apt to cause you needless loss of trees and shrubs, and a diminished production from those that do survive. Before buying nursery stock you should consult with us, explaining the conditions, drainage, etc., in the spot where you intend to set out plants and trees. We can often save you a great deal which you might otherwise waste by experimenting with stock which you select at random. We also advise you what variety will best meet your needs. Don't take chances. Be sure before you set out anything and avoid regrets later on.

We guarantee all nursery stock you get from us. It is healthy and alive. We will replace free any plants that do not grow for you providing you notify us by July 1, 1934. After that date we will furnish new plants at half price if notified by October 1, 1934.

W. W. STOKES

Fruit Trees

If you have delayed setting out those orchard trees, now is the time to do it. They will pay you big dividends year after year. Our stock is hardy, which enables it to withstand unfavorable weather conditions. We select varieties that are prolific bearers.

APPLES—All the leading varieties —Summer, Fall, Winter, 5 to 6 feet, each	\$.40
PEARS—Keiffer, Seckel, Flemish Beauty, 5 to 6 feet	.35
CHERRIES—Early Richmond, Mont- morancy, Wragg, Compass, 5 to 6 feet 35c each or 3 for	1.00
PLUMS—6 feet	.40
PEACHES—5 to 6 feet	.35

All Leading Varieties

Evergreens: Ornamental and Protective

If the windbreak around your home is inadequate, a grove of evergreens will soon pay for itself with the fuel it saves. An occasional tree in the yard adds beauty and cheer, especially during the winter months.

White Spruce, 2 feet	\$1.25	Scapularum Juniper, 2 to 3 ft.	2.00
Conealer Fir, 2 feet	1.50	Pyramidal Arbor-Vitae, 18 to 24 inches	1.50

500	3.00
Mastadon Everbearing, 100 for	1.50
DEWBERRIES—Lucretia, per doz.	.75

Shade Trees

If you have shade trees that are decaying and will soon need to be replaced, don't wait for them to die. Start some new ones now alongside the old trees so that they will be well started when you cut the old ones down. Our varieties are fast growers and give an abundance of shade.

CHINESE ELM, 18 to 24 inches, per 100	\$4.00
CHINESE ELM, 4 to 5 feet	.12
