DARWIN and BREEDER TULIPS

Rare Beauty . . . Favorite Types

You have undoubtedly seen large, beautiful tulips growing as high as forty inches and borne on strong, graceful stems. Perhaps you wondered what types they were and where you could obtain such beauties for your own garden. These are the Darwin and Breeder Tulips, by far the largest and best, the aristocrats of the tulip family. They bloom during the month of May, out-of-doors, are wonderful for greenhouse growing and can be planted in pots in the house. They are the most showy and beautiful of all the tulips and are distinguished by their immense size, strong graceful stems, wax-like petals and plants and gorgeous colors.

These are the tulips I am offering in this collection. By special arrangement with the foremost Holland growers, men skilled in the art of producing the very highest quality, I am able to make this unusual offer of twenty-five Tulip Bulbs, no two alike, of the Darwin and Breeder types, for the small sum of only \$2.00.

These tulips are all named kinds, varieties which have become most popular in Holland and America. Those included in my offer, range in colors from delicate tints of lavender to gorgeous flaming reds, and from soft cream colors to deep shades of orange. Then there will be varicolored ones, as well as deep shades of purples and near blacks. When these tulips bloom in your garden next spring there is but one conclusion, that this was the greatest Tulip Offer in America.

PLANT TULIPS NOW

You may plant tulips now, and until the ground freezes, and as far as care is concerned you may almost forget them. Wonderful specimens of Darwin and Breeder Tulips are easily obtained from the bulbs I send you in this offer. When your bulbs arrive, simply plant them four inches deep and from two to three inches apart. This entire collection will be sent to you prepaid, and safe arrival guaranteed for only

What a welcome sight in the springtime is a garden of tulips. They bloom when weary winter days have just passed. The grass, the trees and the shrubs have become green, the song birds have again arrived, the air is fresh and the warm rays of the sun have returned. What a setting for tulips with their happy colors and beaming faces. What joy these flowers bring. Is it any wonder that tulips are loved by all? Is it any wonder that when we think of Holland we think too of the marvelous flowers the Dutch people have sent to us? Holland and Tulips are almost synonymous. The scene on this page is typical of what you may expect if you plant the tulips I am offering you in this folder. A gorgeous scene will greet you if you plant these tulips this fall. Send your orders in now.
