Just the Better

Bulbs • Hardy Plants • Shrubs

1932

MOUNT AIRY GARDENS

STAMFORD, CONN.

Foreword

WE take pleasure in presenting to you our catalog of "Just the Better Bulbs, Hardy Plants and Shrubs" for 1932, which we believe you will find to be an improvement on previous issues. We wish to thank all our friends and customers for their generous support, and to assure them of our earnest desire to merit their confidence. It is our aim to conduct this business on a Golden Rule basis, and if anything you get from us is not satisfactory, we want to know it. Our growth has resulted almost entirely from the recommendations of our friends and customers, proving conclusively, that a satisfied customer is the best advertisement. In any transaction you have with us, you must be satisfied.

While our emphasis is on quality rather than price—in keeping with the trend of the times, we have reduced prices materially wherever it is possible to do so, and we think you will find them right for the quality offered, especially as we stand back of everything we sell. If they do not make good, we do, and cheerfully.

We have added to our list of varieties of both plants and shrubs and have tried to add only those of unusual and proven merit, so that you may expect to find here many that are not found in the usual nursery.

We have also added Evergreens, particularly those suitable for the rock garden and foundation plantings. Especially do we wish to call your attention to the new Evergreen Barberries, *Daphne mezereum*, *Buddleia alternifolia*, American and Oriental Bittersweet, Japanese Cherries, upright and weeping, Double Flowering Peach, Pearl Bush, Beauty Bush and *Pyracantha lelandi*. Also perennials: Double Pyrethrum; *Trollius ledebouri*; Hardy Aster *Luteus*; Oriental Poppies, Henri Cayeux, *Joyce* and Perfection; Betcher hybrid *Hemerocallis*; Anemone, September Charm; and the new hardy Chrysanthemums, Vivid and Daybreak, offered for the first time this year. Also many new and rare Irises, including our own originations, Rippowam and Tokeneke.

Enthusiasm for the rock garden is on the increase and we have added many new plants, shrubs and evergreens suitable for this form of garden activity. Properly built and planted, a rock garden is a thing of beauty and a joy from the beginning of the season to the end. It never fails to thrill the garden lover. If some of the dwarf evergreens and evergreen shrubs are used, it will be attractive in Winter as well as in Summer. We wish to call special attention to our offering of fruit trees, These are all upland grown, specially selected high-grade stock, guaranteed true to name. For want of space, we are listing only a few varieties, but can supply any standard variety on a few days' notice.

Should you wish to consult us on your garden problems, we will, on request, be glad to call and see you, without any obligation on your part. We make a specialty of foundation plantings, shrubbery or evergreens.

You are cordially invited to visit us during the blooming season. From early April until the ground freezes in the Fall, you will always see some interesting plants in bloom; and the most satisfactory way to make a selection for your own garden is to see them in bloom here. Tulip, Iris, Peony and Delphinium blooming times are particularly interesting. Visitors are always welcome.

Directions how to reach us will be found on the back cover.

Telephone: Stamford 3-8559.

TERMS

ORDER EARLY. We cannot urge too strongly the importance of ordering early to avoid disappointment, as stocks of some varieties are limited and we do not substitute unless requested. Orders by mail and by telephone will receive special attention and prompt delivery.

Terms. Remittance should accompany order; please make checks payable to Mount Airy Gardens.

Delivery. Our prices include packing and prepayment of charges by mail or express to points east of the Mississippi River. We deliver by truck within a radius of 25 miles; or by special arrangement, at a greater distance, when the quantity justifies it.

Shipment. Orders will be shipped at what we consider the proper time unless you instruct otherwise.

References. The Fidelity Title & Trust Company, Stamford, Connecticut, and the Mt. Vernon Trust Company, Mt. Vernon, New York.

Hardy Perennial Border

HARDY PERENNIAL PLANTS

No flowers in the garden are quite so satisfactory as perennials. Improving from year to year, they give a lavish display of lovely flowers with very little care. With judicious selection, a succession of bloom may be had from early Spring until late Fall.

Rock Plants indicated by an (*). 12 for the price of 10.

	Each		Each
ACHILLEA (<i>Milfoil or Yarrow</i>).		ACONITUM (<i>Monkshood</i>).

ALYSSUM (<i>Rock Madwort</i>)		Each			Each
* argenteum . Dense growth. Leaves silvery beneath, flowers yellow, in clustered heads. 15 ins. May-June.....		\$0.35	* ARMERIA (<i>Sea Pink</i> or <i>Thrift</i>). Used extensively in rock gardens. May-June.		
* citrinum . Charming variety with masses of pale yellow flowers. Dwarf compact habit. Especially good for the rock garden. May-June.....		.50	Formosa . Deep rose. 12 ins.		\$0.35
* saxatile compactum . Broad masses of bright yellow flowers in early Spring. An excellent plant for the rockery or front of borders. 1 ft. April-May..		.50	lauchiana . Deep pink, 4 to 6 ins		.50
* Serpyllifolium . Very dwarf, 4 to 5 ins. high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden.....		.50	plantaginea . Pale pink, long stems; good garden plant.....		.35
AQUILEGIA (<i>Columbine</i>).			ARTEMISIA lactiflora . Flowers creamy white, sweet-scented. 3 ft. Aug. Good for cutting.....		.35
* canadensis (Common American Columbine). The native bright red and yellow variety, and one of the brightest. Good rock plant		.35	Silver King . One of the best all-round decorative plants. Its bright silver-colored stems and foliage are very attractive. Good for cutting.....		.50
Dobbie's Imperial Hybrids . A very fine assortment made by a European hybridizer. Mixed colors. May-June.....		.50	ASTER (hardy) (<i>Michaelmas Daisy</i>). Among the showiest of our late Fall flowering plants. 3 to 4 ft. Sept.-Oct.		
Mrs. Scott Elliott . The best strain of long spurred hybrids. 2 to 3 ft. May and June.....		.50	Barr's Pink (New). Large pink flowers said to be the best pink in cultivation; good for cutting.		.75
ARABIS (<i>Rock Cress</i>)			Climax . Large pale mauve flowers.		.35
* alpina . Pure white flowers produced in dense masses; splendid for border and rockery work and last quite some time when cut. April-May.....		.35	* Freedom (New). Bright violet blue. Early. 2½ to 3 ft. Very desirable.....		.50
* alpina rosea . Similar in habit to the above. The flowers are a delicate pale pink.....		.50	Hybrid Luteus (New). One of the most striking introductions of recent years. Resembles a glorified Goldenrod more than the familiar Hardy Aster. Of exceptional value for cutting and outstanding in the garden.....		.75
* alpina flore-pleno . Same as above, but with double white flowers; very fine rock plant.....		.50	Lil Fardel (New). Clear pink; large.....		.50
* ARENARIA (<i>Sandwort</i>).			Maid of Athens . Rich rose pink.		.50
grandiflora . Large pure white flowers in Spring; beautiful rock plant.....		.35	Mrs. Perry Improved (New). Large rich rose-colored flowers. 3 ft.....		.75
montana (<i>Sandwort</i>). Very desirable evergreen trailing plant, forming a dense carpet of foliage and covered with large white flowers in Spring. Excellent for the rockery.....		.35	N. A. Rosea . Deep reddish violet.		.50
verna . A prostrate growing plant creeping over the ground. Fine plant for the rock garden and between stones.....		.35	Queen Mary . Large, dark sky blue flowers; a strong grower and one of the best of the Novi Belgi type. A splendid cut flower variety. 3 ft.....		.50
verna caespitosa . Like green moss, will grow between stepping-stones. Excellent for rock garden; covered with little white flowers in early Spring.....		.35	Royal Blue . Rich, deep blue, golden center. Excellent for cutting.		.50
			Sam Banham . The best white Aster; good for cutting.....		.50
			St. Egwin . Beautiful pink flowers; one of the best.....		.50
			ASTILBES . Hybrid varieties of vigorous growth.		
			Ceres . Rosy lilac, 2½ to 3 ft.; good garden variety.....		.75
			Rose Pearl . Shell pink.....		1.00
			Vesta (New). Tall lilac rose; an excellent garden variety.....		1.00
			Walkure . Lavender pink, beautiful.....		1.25

	Each		Each
*AUBRIETIA. One of the daintiest of all creeping plants. Very desirable for rockeries. April-May.		*CERASTIUM.	
deltoides. Neat compact plants covered with closely set lilac flowers.....	\$0.50	tomentosum. A low creeping plant with light colored leaves and pretty white flowers, good rock plant. May.....	\$0.50
Hybrids. Lilac and lavender flowers.....	.50	CHELONE (<i>Shellflower</i>). Handsome perennials, growing about 2 ft. high, and bearing numerous spikes of large flower heads. Summer and Fall.	
BAPTISIA australis (<i>False Indigo</i>). A strong growing plant about 3 ft. high, with dark green deeply cut foliage and spikes of dark blue, lupinelike flowers; good for cutting.....	.50	lyoni. Heads of showy purplish red flowers.....	.35
BOLTONIA.		CHRYSANTHEMUMS (<i>Hardy</i>). We are offering only the early flowering varieties, as the late ones are not satisfactory for the garden. After the tops have been killed in the Fall, they should be cut off and the roots well mulched for the Winter.	
latisquama. Pink, tinged with lavender; Sept. 5 ft.....	.50	Alice Howell. Single, bronzy orange yellow.....	.35
nana. Covered with dainty pink flowers in Sept. 3 ft.....	.50	Barbara Cummings. Decorative type, clear yellow shading to orange bronze toward the center. Over 3 inches across; very early.....	.35
BUDDLEIA (<i>Summer Lilac</i>).		Daybreak (<i>New</i>). Single type, large soft shell; pink, fragrant. Excellent for cutting.....	.75
magnifica. Sweet-scented, excellent for cutting. Strong field grown plants. 2 yr.....	1.00	Frances Whittlesey (<i>New</i>). Rich bronze and garnet. Dwarf stocky plant.....	.50
Farquhari (<i>New</i>). Deep rose lilac. Growth not as heavy as magnifica. June to Sept.....	1.00	Gypsy Girl. Single type, with a double row of petals. Crimson, shading to chestnut crimson; very dependable bloomer.....	.35
alternifolia (<i>New</i>). One of the outstanding novelties of recent years. Wide-spreading pendulous branches covered with clusters of lilac purple flowers. Blooms on wood of the previous year. Vigorous grower. June to Sept. 2 to 3 ft.....	1.50	Korean type. Single white flowers, shading to pink. Does best in light soil and dry location..	.35
3 to 4 ft.....	2.50	Mrs. L. Birchard. One of the best Pompons. Large, bright shell pink; good cut flower variety..	.35
CALLUNA nana. A small evergreen perennial growing about 6 ins. high. Outstanding in the rock garden.....	1.00	Mrs. Calvin Coolidge. Single, rich cardinal red.....	.35
*CALAMINTHA (<i>Calamint</i>).		Mrs. J. Willis Martin. A blend of crimson and crushed strawberry. An unusually attractive Decorative type.....	.35
alpina. A very graceful little rock plant, growing 6 ins. high, with rich purple flowers.....	.35	October Girl. Vigorous branchy habit; flowers 2 ins. across, semi-double, color rose-pink shaded lavender; very free flowering..	.35
CAMPANULA (<i>Bellflower</i>).		October Dawn (<i>New</i>). Lovely shade of soft daybreak pink. Good size decorative type; good cut flower.....	.50
*carpatica. Branching stems bearing cup-shaped, blue flowers, 1½ ins. or more in diameter. 1 ft. July-August.....	.50	Ruth Cummings. A rich reddish bronze; Decorative.....	.35
persicifolia (<i>Peach Bells</i>). Blue flowers during June and July; 2 ft.	.35	Ruth Hatton. Decorative Pompon type, vigorous bushy growth. Color clear ivory white; the best garden white.....	.35
*rotundifolia (<i>Bluebells of Scotland or Harebells</i>). 1 ft. June to August. Clear blue flowers. Especially suited for crevices in the rock garden or steep slopes. if planted to show pendent habit.	.50		
CENTAUREA.			
montana. Large blue flowers. 2 ft. June to Sept.....	.35		
macrocephala. Large thistle-like golden yellow flowers. Useful for cutting. July-Aug. 3½ ft..	.50

Chrysanthemums

CHRYSANTHEMUMS—Continued

Each

R. Marion Hatton (New). Decorative, Pompon type; bright canary yellow; early.....\$0.50

Vivid (New). Color closely approaches that of the American Beauty rose. Extremely vigorous and free flowering......75

Button Type. Separate colors, red, yellow and bronze......35

CHRYSANTHEMUM maximum (*Giant Moonpenny* or *Shasta Daisy*).

Glory of Wayside. The earliest to flower, coming into bloom in May, pure glistening white flowers, 12 to 15 ins.35

Mrs. C. Lothian Bell. This magnificent white Daisy is undoubtedly the largest in its class, 2½ to 3 ft.; extra for cutting......50

CIMICIFUGA (*Snakeroot*).

racemosa. A handsome native species, bearing in July and August, spikes of pure white flowers......35

Simplex (New). Most valuable by reason of its late flowering, Sept. and Oct. Its flower stems are 2½ to 3 ft. high, terminated with a dense spike of white flowers; lasts a long time when cut.....1.25

CORYDALIS.

Each

cheilantifolia. Handsome fern-like foliage and long spikes of yellow blossoms, 10 to 12 ins. in height. Very rare and perfectly hardy. Does well in shade.\$0.75

***DAPHNE.**

cneorum (*Rose Daphne*). Gray-green foliage, low spreading. Pretty pink flowers in April-May. Delightful fragrance.
8-10 in.....1.00
10-12 in.....1.25
12-16 in.....2.25

mezereum (*February Daphne*). A deciduous shrub covered with lavender blossoms before the leaves appear. Conspicuous scarlet berries. 15 to 18 in....1.50

DELPHINIUM (*Larkspur*).

One of the best perennials for cutting and mass planting; should be in every garden. 3 ft. June to Sept.

belladonna. Large spikes of sky-blue flowers......35

bellamosa. Dark blue form of the belladonna......35

chinense. Dwarf species with fine foliage and dainty light blue flowers. 1½ ft......35

***Lamartine**. Rich blue flowers with white centers. 2½ ft....50

"Mount Airy" Hybrids. These are raised from seed of the best English hybrids, named varieties and novelties. Mixed colors, with large spikes, often 1½ to 2 ft. long. A very exceptional strain. Selected specimens, 2 year.....\$1.00 to 3.00

DIANTHUS—or as they are more popularly known—Pinks—have been favorites since the early dawn of gardening activities. Their fragrance, their prodigality of bloom and their daintiness win for them a warm place in our regard. As a border, or in clumps for cutting, they are splendid.

Bristol Maid. A large double flower. Rose pink, shading to lavender, delightfully clove scented and free flowering. 1 year......50

Homer. Deep rose with darker center......50

(At right) **Delphinium**
See page 5

(Below) **Dianthus barbatus**

Dicentra spectabilis

DIANTHUS—Continued

	Each
Juliette. White, laced crimson. \$0.50	
Lord Lyons. Deep rose.	.50
White Reserve. Pure white, perpetual flowering.	.50
barbatus (<i>Sweetwilliam</i>). In separate colors, red, white and pink; double and single.	.35
*alpestris knappi. A dainty species producing slender stems which bear clusters of small yellow flowers.	.50

DIANTHUS—Continued

Each

- *arenarius** (Sand - loving Pink). This Pink delights in a sandy soil and sun. Flowers white with carmine rings, deeply fringed and fragrant. Excellent for dry, hot places. 6 ins. \$0.50
- *deltoides Brilliant.** Glowing crimson flowers. A most striking rock plant.35

DICENTRA.

- spectabilis** (*True Bleedingheart*). Long racemes of heart-shaped pink flowers. Scarce. 1½ ft. 1 yr. .75
- *eximia** (*Plumy Bleedingheart*). A dwarf growing sort, beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. 1 yr. . . .75

DICTAMNUS (*Gas Plant*).

- The Dictamnus is one of the most satisfactory hardy plants in cultivation, both on account of splendid flowers and its rich, durable foliage. For best results it should be left undisturbed for years.
- fraxinella alba.** White.75
- fraxinella rubra.** Rose.75

Helenium. See page 8

DIGITALIS. Each
gloxinaeflora, Shirley Strain.
 (Foxglove). Spikes of tubular
 flowers in white, rose and purple,
 beautifully spotted.....\$0.35

DORONICUM caucasicum. Large
 bright yellow flowers, good for
 cutting. Early Spring. 1½ ft... .50

DRACOCEPHALUM (Dragonhead).
 Very showy plants when in flower.
 Hardy. Delight in a cool
 situation.

ruyschianum japonicum. Flower-
 ers white; central lobe of corolla
 with a blue border and white
 spots. Might be called a blue
 Physostegia. 2 ft..... .75

ECHINACEA purpurea (Giant Purple
 Coneflower). Flowers reddish
 purple, with brown, cone-shaped
 center. July to Oct. 3 ft..... .50

EUPHORBIA (Milkwort).
corollata (Flowering Spurge).
 Showy and useful native plant
 growing about 18 in. high and
 bearing from June till August
 umbels of pure white flowers with
 a small green eye; good cut
 flower..... .50

***polychroma.** A beautiful formal
 plant 1 ft. high, forming a semi-
 spherical clump covered with
 yellow flowers in May and June.
 Excellent border or rockplant.. .75

Eupatorium coelestinum

EUPATORIUM coelestinum Each
 (Hardy Ageratum). Lavender
 flowers. Good for cutting. Aug.
 to Nov.....\$0.50

ECHINOPS ritro. Metallic blue
 flowers; thistlelike foliage. 3 to
 4 ft. July-Aug. Used for garden
 or cutting..... .35

ERYNGIUM (Seaholly). Finely cut
 spiny foliage and thistlelike
 heads of flowers, a beautiful
 steel-like blue. Very decorative
 in the hardy border and useful
 for dry bouquets in Winter.

amethystinum. The finest cut,
 spiny foliage and the beautiful,
 thistlelike heads are of glistening
 amethystine blue. For garden or
 cutting..... .50

planum. Branching heads of steel
 blue flowers; stems and bracts of
 a glistening metallic sheen... .35

ERIGERON (Fleabane). A very
 effective genus of Michaelmas
 Daisylike plants usually with
 pink and purple flowers. They
 flourish in any garden soil, are
 indispensable for groups and
 flower borders and are excellent
 for cutting. June to Aug.

***alpinus.** A dwarf species suitable
 only for rock gardens. Plant
 bears an attractive head of pur-
 plish flowers..... .35

speciosus. 2 ft. June and July.
 Large, handsome blue flowers,
 violet tinted and yellow centers;
 fine for cutting..... .35

Geum

GAILLARDIA (*Blanketflower*).

Each

grandiflora. Flowers brilliant yellow orange and red, being in bloom from May until Nov. 1½ ft.\$0.35

Golden Gleam (New). A splendid free flowering variety. Large, pure yellow flowers without shading. Valuable for the garden or for cutting.50

Portola. Growth erect and vigorous. Color brilliant coppery scarlet, margined yellow.35

GALEGA (*Goatsrue*). Showy plants of the easiest culture and very useful in the hardy border. They form very bushy plants with attractive foliage and pea-shaped flowers. Fine for cutting.

Duchess of Bedford. Lilac and white.50

GEUM heldreichii. Large orange flowers. The best hardy Geum.50

GYPSOPHILA.

Bristol Fairy. Flowers pure white, early. Large and are produced in large clusters if kept cut will bloom all Summer. 2 yr. ... 1.00

cerastioides. A choice rock plant forming a dense mat of foliage, thickly studded in Spring with large, lilac flowers veined with pink. 3 ft.75

ehrelei (New). Flowers twice the size of *Paniculata*, plant is also much larger and more graceful. 2 yr.75

GYPSOPHILA—Continued

Each

repens. A dwarf trailer, excellent for cascading down the slopes of the rock garden. Masses of small white flowers. June-July.\$0.35

repens monstrosa. A stronger growing and more erect variety of the preceding. Very useful for cutting. 1 ft. May-June.50

HELLEBORUS niger (*Christmas Rose*). A rare and delightful hardy plant blooming outdoors during mild spells all Winter and on into Spring, often sending its large, milk white flowers up through the snow at Christmas time. Can be planted in Spring or Fall. Best planted in a shady place in the garden or border. Best left undisturbed for years. 1.50

HELENIUM.

autumnale rubrum. Terra cotta flowers. Sept. 4 ft.50

hoopesii. Charming yellow flowers, in clustered heads. Good for cutting. 2 ft. June-July.50

Riverton Beauty. Lemon yellow. 4 ft. Aug.-Sept.50

Riverton Gem. Old gold. 3½ ft. Aug.-Sept.50

HELIOPSIS pitcheriana. Golden yellow flowers, throughout the Summer. Good for cutting.35

***HELIANTHEMUM** (*Rock or Sun-rose*). Low-growing evergreen plants, forming broad clumps, and which during their flowering season, July to Sept., are hidden by a mass of bloom. For the front of the border, the rockery, or a dry, sunny bank.

Fireball. Bright scarlet; double.50

Mrs. Earle. Single; scarlet.50

Praecox. Single; yellow, silvery foliage.50

Rhodanthe carneum. Large, pink flowers; silvery foliage.50

HELIANTHUS (*Hardy Sunflower*).

maximiliani. Late, golden yellow flowers in graceful sprays in October; fine for cutting.50

HOLLYHOCKS.

Double Varieties: Apple Blossom, Bright Rose, Cerise, Crimson, Newport Pink, Salmon Rose, White, Yellow.35

Single: Mixed.35

HEMEROCALLIS (*Yellow Daylily*).

aurantiaca. Rich orange yellow flowers; a strong growing and free blooming variety.35

HEMEROCALLIS—Continued

- Each
- Betscher's Hybrids.** A very much improved strain in various shades of yellow and orange. Named varieties. Good for cutting. Each.....\$1.50
- flava** (*Lemon Daylily*). Fragrant yellow flowers in June. Grows 2 ft. high with flowers on long stems for cutting..... .35
- Gold Dust.** Of a bright Indian yellow color, buds and reverse of petals bronzy gold. 2½ ft... .35
- Dr. Regel.** Handsome, rich orange yellow flowers in May. Very fragrant. Fine for cutting. 1½ ft..... .35
- thunbergi.** Much like Flava, but flowers in July a month later.. .35

HEUCHERA (*Coralbells*). Beautiful plants for front row borders, with slender, fairylike spikes of richly colored flowers; most striking in the garden, light and graceful for cutting. Excellent in wall or rock garden.

- ***brizoides.** Has the same foliage and habit as *Heuchera sanguinea*, but the flower is pale pink, though three times as many flowers are produced. Blooms in May..... .50
- La Perle.** Dark red. 18 in..... .50
- Pluie de Feu.** Bright crimson. One of the best. June to Sept... .50
- ***sanguinea.** 12 to 18 in. June to Sept. Flowers bright crimson; very free flowering. Nice for cutting. Excellent for rock garden. .50
- The Shirley.** Bright red flowers, free and continuous bloomer... .50
- ***Rosamunda.** This is the best of the coral pink sorts; strong grower, not subject to blight, free bloomer..... .50

HIBISCUS (*Giant Mallow*). Red, pink and white..... .50

- ***HYPERICUM** (*St. Johnswort*). A very pretty race of plants for the border with their pretty formed yellow flowers nestling amongst the bright green foliage.
- ***coris.** A very pretty, erect growing little plant about 3 in. high. Graceful foliage and large yellow flowers..... .75
- moserianum** (*Goldflower*). Enormous rich golden yellow flowers with yellow stamens and crimson anthers. Very attractive. 18 in. June to Sept..... .75

Hypericum

HYPERICUM—Continued

- Each
- ***olympicum.** A rare rock plant, gray foliage and large yellow flowers. 6 in. June, July.....\$0.75
- ***reptans.** Distinct trailing species from the Himalayas. Very large, soft yellow flowers tinged reddish. July and August flowering. Wonderful rock plant..... 1.00
- ***IBERIS** (*Hardy Candytuft*). Most desirable dwarf plants, 8 to 10 in., with evergreen foliage which is completely hidden with dense heads of flowers early in the Spring.
- gibraltarica Hybrids.** Largest of the Iberis; light lavender. 1 to 2 ft..... .50
- Little Gem.** Dwarf, pure white flowers in June..... .50
- sempervirens.** Very dwarf and covered with a sheet of white; a particularly fine rock plant.. .50
- ***IRISES, Crested.** They are particularly charming in the rock garden. Must have thorough drainage. Some shade is beneficial.
- ***cristata.** Clear lavender, orange at haft. 4 in. Fragrant..... .50
- ***Verna.** Lilac blue, banded orange at haft. Fragrant. More like bearded than crested Iris. 4 in. .50
- ***tectorum** (*The Chinese Roof Iris*). Large flowers of deep lilac blue with striking white crests. Very handsome. Plant in sunny position with good drainage. 10 in. .75
- tectorum alba.** Pure white. A very beautiful variety. 10 in.. 2.00

LEONTOPODIUM (*Edelweiss*). Each

***alpinum.** A well known Alpine with pretty white leaves and small yellow flowers which are surrounded by starlike heads of leaves, clothed with a dense white, woolly substance. A splendid plant for the rock garden. 4 to 5 in. June to Aug. . . . \$0.75

LIATRIS.

pycnostachya. Long, slender stems with rosy purple flowers. 4-5 ft. July-Aug. Good cut flowers.50

scariosa. Deep purple. 2-3 ft. Aug.-Sept.50

calliopsis. Deep lilac. 2-3 ft. July .50

LILIES, Hardy Garden Varieties.

No garden is complete without a generous planting of Hardy Lilies. They are particularly happy in the perennial border. They are not difficult to grow, but should have a good, rich, deep soil that is well drained.

auratum (*Goldbanded Japan Lily*). Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of six petals of a delicate ivory white color, thickly studded with chocolate crimson spots and striped through the center a golden yellow. 3 to 5 ft. July to Sept. 30c.- .40

Mertensia. See page 11

Liatris

LILIES—Continued

Each

regale, or myriophyllum (*The Royal Lily*). It is absolutely hardy. One of the best for the garden. The flowers are white, slightly suppressed pink, canary yellow throat and delightfully perfumed. 35c.-\$0.50

speciosum album. Pure white with incurved petals, blooms at the same time as Auratum and Magnificum; very choice.40

speciosum magnificum. Frosted white, spotted, clouded and bordered with deep pinkish crimson. A much superior variety to the Roseum, Rubrum or Melpomene of the Speciosum type. . . 35c.- .50

LINUM (*Flax*).

***perenne.** A continuous succession of sapphire blue flowers throughout the Summer. 2 ft.35

***flavum.** Fine variety with transparent, yellow blossoms.50

***narbonnense.** Forms a spreading clump of attractive foliage with a profusion of azure blue flowers with white eye. Very handsome for the rockery.50

LOBELIA cardinalis (*Cardinalflower*).

Rich, fiery cardinal flowers. Strong plants, often producing 10 to 18 spikes. 24 to 30 in. long. .50

Papaver orientalis (Oriental Poppy)
See page 12

LUPINES. The Lupines produce beautiful long spikes of pea-shaped flowers a foot long on stems 3 ft. high. They are perfectly hardy but cannot endure drought, and must be planted in well prepared garden soil and kept watered in dry weather.

Harkness Regal Mixed......\$0.50

Harkness Regal Selected Pink... .50

Harkness Regal Selected Blue... .50

LYCHNIS (*Campion*). A fine, old-fashioned flower, bearing large heads of brilliantly colored flowers that liven up the border during Summer and early Autumn.

***alpina.** Compact cushions of rich green leaves studded with heads of pink flowers in April and May. .35

***arkwrighti.** A very showy form, particularly desirable for massing in the rockery or garden, does well in dry soil. Brilliant shades of cardinal and orange red prevail. 12 to 18 in. July-Aug.35

chalconica. Heads of vivid scarlet flowers, blooming a long time. One of the brightest plants in the hardy border. 3 ft.35

LYCHNIS—Continued

Each

***haageana.** 1 ft. June to Aug. Very showy, producing orange red, scarlet or crimson flowers nearly 2 in. across.\$0.35

viscaria splendens florepleno. Brilliant red. A fine double variety; fine for cutting.50

***MAZUS rugosus.** A prostrate grower forming a dense, green carpet, studded in Spring with large violet flowers spotted with gold.50

MERTENSIA (*Bluebells*).

virginica. An early Spring flowering plant, growing about 1 to 1½ ft. high with flowers fading to clear pink; one of the most interesting of our native Spring flowers.35

MYOSOTIS (*Forget-me-not*).

palustris semperflorens. Large, rich blue flowers with yellow eye; a charming plant for damp places and a more profuse bloomer than the *Alpestris*.50

***NEPETA** (*Catmint*) **mussini.** An excellent plant for any position, but especially useful in the rock garden. Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender. 1 to 1½ ft.50

Pentstemon. See page 12

(Right) **Linum**. See page 10

(Below) **Lupines**. See page 11

- OENOTHERA** (*Evening-primrose*).
Elegant, for a sunny position in the border or on the rockery; blooming all Summer.
- missouriensis**. 10 in. June to Aug. A low species with prostrate ascending branches; profuse bloomer. Solitary flowers often 4 in. across. Good for rock garden or border. \$0.50
- youngi**. 2 ft. June to Aug. A strong, stocky, largeleaved plant with firm, shiny foliage, numerous bright lemon yellow flowers. .50

- PAPAVER** (*Oriental Poppy*). One of the hardiest perennial plants and very free flowering when once established, should be planted in August.
- Beauty of Livermore**. Crimson, with black blotch; fine flowers. .75
- Cerise Beauty**. Cerise red; large. 1.00
- Henri Cayeux**. Orchid fading to dull lavender; distinct and unusual. .1.50
- Joyce**. Unique old rose; one of the best. .1.25
- Lula A. Neely**. Said to be the world's best red Oriental Poppy. 1.25
- May Sadler**. Salmon pink, very large; ruffled. .75
- Mrs. Perry**. A soft shade of apricot pink; very fine. .50

Each **PAPAVER—Continued**

- Perfection**. Large, deep flowers of a lovely shade of pink, large black spots. \$1.25
- Perry's White** (New). The flowers are a fine, satiny white with a crimson maroon blotch at the base of each petal.75
- Princess Victoria Louise**. Soft salmon rose shading to pink. .50
- Royal Scarlet**. Rich glowing scarlet flowers of enormous size. 3 ft.50
- Scarlet**. Large scarlet. 3 ft. 3 for 75c.35

PENTSTEMON.

- barbatus torreyi**. Graceful, tapering stems with tubular scarlet flowers. 4 ft. June-Aug.35
- barbatus, Pink Beauty**. Spike is 30 in., not as "stringy" as Torreyi, and flowers plentiful on the spike. Color is bright, clean, shell pink. Perfectly hardy. Stock limited.50
- Coral Gem**. Coral pink, large spikes; makes up beautiful with Delphinium Belladonna or hardy Asters.35
- Gordon Splendens**. Long, erect stem, large spikes of light blue flowers; fine for cutting.50

Hardy Phlox

Hardy Phlox are among the most effective plants we have in the garden during the Summer and Fall months. Varieties have been much improved in the last few years, both in color and size of bloom. Given a good soil and divided every two or three years, they will not deteriorate. Should be watered during dry periods.

Twelve for the price of ten

Phlox

	Each
Enchantress. Bright salmon pink with deeper eye.	\$0.50
Evelyn. Rich salmon rose; flowers large and of perfect form. 3 ft. ...	.50
Ferdinand Cortez. Deep crimson.	.75
Giffon. Peach blossom pink with bright rose eye. 2½ ft.	.50
Geo. Mendel. Rose pink, light halo, crimson eye. 2½ ft.	.75
Guy Moore. Crushed strawberry and white. Very showy color. 2½ ft.	.50
Hindenburg. Cerise with dark eye.	.50
H. Pfleiderer. White with pale rose tinting, carmine eye.	.50
Independence. Large, early flowering white, compact truss. 2½ ft.	.35
Jules Sandeau. Large, fine, free flowering pure pink.	.35
La Vague. Warm mauve with emphatic carmine eye. 2½ ft.	.35
Leo Schlageter. Scarlet carmine; very showy.	.75
Mars La Tour. Pale pink, deep rose eye. 2½ ft.	.35
Miss Lingard. Flowers earlier than other varieties. Pure white, lilac eye. 2½ ft.	.35
Miss Verboom. This is one of the best new Phlox recently introduced. Its greatest contribution is its early flowering; is absolutely free from red spider. This in fact, is the rose pink form of Miss Lingard. Habit and foliage are the same; flowers just as early.	.50
Mrs. Milly Van Hoboken. Soft pink, without eye.	.50
Mrs. Paul Dutrie. Large trusses of delicate orchid or lilac rose. Choice.	.50
Mrs. Livingston Farrand (New). Lively flesh pink with cerise eye. Especially fine and showy. 3 ft. ...	1.00
Mrs. Scholten. New, dark salmon pink flowers in enormous pyramidal spikes. A splendid sort of great value. Midseason flowering and of medium height.	.50
Mrs. W. G. Harding. Deep rose pink, deeper eye, large clusters and flowers (new).	.75
No. 301. Tall, large white, immense trusses; late.	.50
Peachblossom. Peachblossom pink.	.50

	Each
Antonin Mercie. A tall variety of a beautiful shade of lavender; eye white. Midseason. 2 ft.	\$0.35
Asa Gray (New). Crimson pink, deep crimson eye; an unusual combination.	.75
B. Comte. Tall growing variety, producing large heads of rich, satiny, amaranth flowers. Very brilliant.	.35
Bacchante. Fiery pink with crimson eye. 2½ ft.	.35
Baron Von Deedem. Large trusses and scarlet blood red flowers. 2 ft.	.35
Baron Van Heeckeren (New). Excellent salmon pink flowers.	.35
Camillo Schneider. Brilliant scarlet red; excellent.	.75
Czarina. Fine white, late, large trusses. 3 ft.	.50
Deutschland. Intense orange scarlet; very fine.	.50
Elizabeth Campbell. Very large spikes with flowers of distinct light salmon; dark red eye.	.50

PHLOX—Continued

	Each
Prof. Wendt. One of the finest dark colored varieties with large flower heads of rich satiny amaranth.	\$0.50
Prof. Virchow. Bright carmine overlaid orange scarlet.	.50
R. P. Struthers. Bright rosy carmine with claret red eye. 2 ft.	.35
Rijnstroom. Deep salmon. Immense trusses of flowers. 2½ ft.	.35
Saladin. Brilliant orange scarlet, large trusses.	.75
September Glow. Crimson scarlet, deeper eye.	.75
Special French. Glowing pink, mammoth trusses.	.35
Splendor (New). Rose pink with deeper eye, large flowers and trusses.	.75
Sylphide. White; fine truss and perfect flowers. 2 ft.	.50
Thor. Deep salmon pink with red eye. 2½ ft.	.35
W. C. Eagen. Light salmon pink; large trusses.	.35

PHLOX—DWARF VARIETIES

	Each
*Amoena. Glossy green foliage, masses of pink flowers in April and May. 9 in.	\$0.35
*Divaricata. Truss of large, fragrant lavender blue flowers. May. 9 in.	.35
*Subulata alba (Moss Pink). Moss-like foliage, covered with white flowers in April and May. 6 in.	.35
*Subulata atrolilacina. Deep lilac flowers entirely cover the plants during April and May, nearest to blue of this type.	.35
*Subulata, G. F. Wilson. Neat, of glossy foliage completely hidden by masses of starry lavender flowers in April and May. 6 in.	.50
*Subulata, Vivid. Bright pink with fiery red eye. Said to be the finest free flowering dwarf Phlox in existence.	.50

PHYSALIS (*Chinese Lantern Plant*).

francheti. Bright orange scarlet lanterns which when dried are useful for Winter bouquets.

PHYSOSTEGIA (*False-dragonhead*).

virginica, Vivid. Dwarf, compact, heavy bloomer flowers deep pink. Very good for cutting flowers, lasting well in water.

PLATYCODON (*Balloonflower*).

grandiflorum. Very large, deep blue, cupped, star-shaped flowers. 3 ft.

Pyrethrum. (See page 15)

PLATYCODON—Continued

	Each
album. Having spikes of beautiful large, pearly white flowers. 18 in.	\$0.50
*mariesi, Blue. 12 to 15 in. July until late Sept. A beautiful dwarf species with broad, thick foliage and large, deep violet blue flowers.	.50
*mariesi alba. White flowered form of the above.	.50
PLUMBAGO (Leadwort).	
*larpentae. One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 in. high, covered with deep blue flowers during the Summer and Fall.	.50
POLEMONIUM (Jacobs Ladder).	
caeruleum (Richardsoni). Erect stems of sky blue flowers. 1 to 1½ ft. June to July.	.35
*reptans (Greek-valerian). 8 to 10 in. April to June. Dwarf, bushy plant of graceful growth. Showy blue flowers. Rock gardens and fine border plant.	.35
PULMONARIA.	
*angustifolia azurea. A lovely early blue Spring flower not unlike Mertensia, but dwarfer flowers.	.75
saccharata. Same as above but flowers are pink; foliage beautifully spotted.	1.00

PYRETHRUM.

roseum hybridum. Very hardy and one of the choicest of the perennials. The attractive, fern-like foliage is interesting when the plants are not in bloom and the flowers ranging from pure white through shades of pink to deep crimson are beautiful on the plant or as cut flowers. They flower the last of May and through June.\$0.35

Miami Queen. Large double pink .75

Trojan. Double crimson red, very early.75

uliginosum (*Giant Daisy*). White flowers, carried on long, erect stems. Good for cutting. 3 ft.. .35

Saxifraga

***SAXIFRAGA (Megasea).**

cordifolia. These will thrive in any kind of soil and in any position. Grow about 1 ft. high, and are admirable for the front of the border of shrubbery, forming masses of handsome, broad, deep green foliage, which alone renders them useful; flowers appear very early in the Spring. Fine among rock or ledges.\$0.75

***crassifolia.** Drooping masses of pink flowers high above the large clustered leaves. 12 to 15 in. A fine rock plant.75

Each **SAXIFRAGA—Continued**

Each

decipiens. Dwarf mossy plants, white flowers in May. Bronzy, crimson foliage in Winter. 4 in.\$0.65

lingulata leichtlini. Bright red, good for rock garden. 30 in.... .75

McNabiana. Foliage gray-green in rosette form; small white flowers. Excellent rock garden plant.75

purpurea. Purple flowers, very showy. 30 in.75

SALVIA

azurea grandiflora. Tall straight stems, 4 ft., covered with sky-blue flowers. Aug.35

pitcheri. Similar to *Azurea*, but flowers are a rich gentian blue, very attractive; the best hardy *Salvia*. 4 ft. Sept.50

turkestanica. Extremely decorative, sweet scented foliage and showy whorls of white flowers surrounded by pale pink.50

virgata nemorosa. Distinct and effective foliage with showy whorls of white flowers.50

SCABIOSA

caucasica. One of the best hardy plants. Soft lilac blue flowers on long stems. 2 ft.35

japonica. Lavender blue flowers from July to Sept. 2 ft.35

***SEDUM**

Album. Creeping, bronze foliage, white. 2 in.35

hispanicum. A minute plant, forming spreading tufts of gray foliage, becoming bronze in Fall. 3 in.50

lydium. Bronze green foliage, pink flowers. 2 in.35

sarmentosum. Strong spreading habit, yellow flowers, 6 in.35

sexangulare. Dark green foliage, yellow flowers, 4 to 6 in.35

sieboldi. Round, succulent, glaucous foliage; bright pink flowers in Aug. and Sept.35

spurium coccineum. A beautiful rosy crimson flowered form; July and Aug. 6 in.35

spectabile. Erect habit with broad glaucous leaves, rosy purple flowers in large flat heads. Aug. and Sept. 1½ ft.50

Brilliant. Deeper color than above, a vivid amaranth red. 1½ ft.50

	Each		Each
SIDALCEA (<i>Greek Mallow</i>). Erect growing, more or less branching plants, producing their showy flowers during June and July. They will succeed in any garden soil in a sunny position....		TRITOMA.	
Rosy Gem. Pretty bright rose-colored flowers. 2 to 3 ft.	\$0.50	Hardy Hybrids. These are seedlings of various colors, ranging from pale yellow to deep orange and are very showy; perfectly hardy.....	\$0.75
SILENE		pfitzeri. Grasslike foliage and thick, fleshy stems covered with orange scarlet, tubular flowers; late. 2-3 ft. Sept.-Oct.	.35
*Alpestris. A dainty little rock plant of compact tufted habit, bearing masses of small white flowers. 4 in. May-June.	.50	THYMUS (<i>Thyme</i>). The charming Mountain Thymes make a perfect, close carpet on hot, dry, sunny banks where grass is hard to establish; they are a sheet of blossoms in June and July. Excellent for carpeting patches of Spring flowering bulbs.	
SPIRAEA		album. Dense mats of dark green foliage, white flowers.	.35
*filipendula. Loose clusters of creamy white flowers, tipped red. Slender stems, rising from tufts of fernlike foliage.	.50	citriodorus. The golden yellow form of the well known "Lemon Thyme".	.35
filipendula fl. pl. Double.	.75	lanuginosus (<i>Woolly-leaved</i>). Woolly foliage with bright pink flowers.	.50
ulmaria fl. pl. Loose heads of creamy white flowers on long, straight stems; good for cutting. June-July. 2½ ft.	.50	nitidus. A beautiful plant, masses of purple flowers.	.50
STATICE (<i>Sea-lavender</i>).		serpyllum coccineum. Plants become completely covered with brilliant crimson scarlet flowers.	.35
latifolia. Branching flowers, stems bearing countless small blue purple flowers; good for cutting.	.35	TROLLIUS (<i>Globeflower</i>).	
STOKESIA		Europaeus, Orange Globe. Desirable free flowering plants, producing their giant orange yellow, buttercuplike blossoms on stems 1 to 2 ft. high from May until August; succeeds admirably in the border in a half shady position.	.50
cyanea (<i>Cornflower Aster</i>). Large blue flowers, 4 in. in diameter. July-Oct. 1½ ft.	.50	europaeus superbus. Same habit as Orange Globe with pale yellow blossoms.	.75
alba. White.	.50	ledebouri. A recent introduction growing about 2 ft. high and bearing large, deep orange yellow blossoms. Late June and July. Distinct and unusual.	1.00
lutea. Creamy yellow.	.50	VERBASCUM phoeniceum. The finest of the species. Neat tufts of dark green foliage, slender spikes of brilliant colored flowers, in white, rose, purple and intermediate shades.	.50
THALICTRUM		VINCA minor. A trailing evergreen plant for carpeting the ground; good in shady places.	.35
adiantifolium. Clumps of Maiden Hair foliage and long spikes of loosely arranged small yellowish white flowers; good for cutting. June-July.	.50		
aquilegifolium purpureum. Columbinelike foliage and feathery heads of rosy-purple flowers. June-July. 3 ft.	.50		
diptercarpum. Long graceful sprays of rosy purple flowers, with conspicuous yellow anthers, fernlike foliage. 3 to 5 ft. June-July.	.75		
*THERMOPSIS (<i>False Lupine</i>). Elegant subjects with showy pea-shaped flowers, doing well in any situation, but succeeding best in a light, rich soil. They are deep rooted plants and endure drought very well.			
caroliniana (<i>St. Peter's Staff</i>). Pretty yellow pea-shaped flowers on handsome, tall growing stems. 5 to 6 ft.	.50

Verbascum. See page 16

- VERONICA** (*Speedwell*). A family containing some of the most beautiful subjects for the hardy garden and rockery. Given a rich, well drained soil in an open situation in full sun they will all thrive in an amazing manner.
- elegans**. An erect growing variety. 12 in. Large flowers, pink. July.....\$0.35
- filiformis**. Blue flowered, creeping......50
- *incana**. Deep blue flowers with silvery foliage. 1 ft. July-Aug.. .50
- longifolia subsessilis**. 2 ft. July to Sept. One of the handsomest blue flowering plants. Spikes completely studded with beautiful blue flowers; fine for cutting. .50
- *repens**. Carpets of evergreen, covered in Spring with pale blue flowers......35
- *rupestris**. A fine rock plant growing 3 to 4 in. high. Thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers......35
- *rupestris rosea**. Has the same habit and flowers the same time as *rupestris nana*. The flowers, however, are mauve pink......35

VERONICA—Continued

- Each
- saxatilis**. Pretty for rockery, small rose pink flowers; spreading habit.....\$0.35
- *spicata**. 18 in. June and July. Long spikes of violet blue flowers .50

VIOLAS, or TUFTED PANSIES.

The improved forms of *Viola cornuta* are rapidly growing in favor. They flower continuously for nearly six months in the year, and while their flowers are not so large as those of the Pansy, their bright colors and floriferousness make them welcome additions to any garden. We offer strong, field grown clumps. Good for cutting.

- *Apricot**. Beautiful rich apricot, shaded orange towards center. .50
- *Jersey Gem**. Possesses the dwarf habit and continuity of blooming of the true horned *Viola*. Color is pure, rich violet and slightly perfumed. It is one of the best hardy plants......35
- Lutea Splendens**. Golden yellow. .35
- pedata bicolor**......50
- White Perfection**......50

VIOLETS.

- Double Russian**. A very hardy variety and a gem for the hardy border. Large, double deep blue flowers......50
- *odorata Rosina** (New). A novelty of unusual interest to the hardy plant lover. The color is a charming combination of pink and old rose. Its most outstanding feature is its delicious fragrance. A rugged grower and fine for the rock garden, although it is best in partial shade......50

- *WALLFLOWER, Siberian**. Gorgeous orange flowers, excellent for rockery or dwarf borders... .35

YUCCA

- filamentosa**. The bayonetlike leaves are dark green growing into large clumps suitable for group plantings. Large, bulb shape flowers on extra strong stalks......50
- Variegated**. This form of *Yucca* has a central strip of green with an edging of golden yellow..... 1.00

Showing a perennial border with Iris well placed
Iris are appropriate in all types of gardens and make a beautiful display in the Spring

Bearded Irises

upon to give the greatest satisfaction. The Iris continues to hold its place in the esteem of all lovers of the beautiful. Easy to grow, particularly free from plant pests and diseases, it can always be relied upon. Improvements made in this flower in the past ten years are almost unbelievable and the American originations may be said to be equal to any in the world. Many of the new varieties are reasonable in price.

Zua (7.3). S. and F. white tinged lilac, edges crumpled. Dwarf. Early.....	.50

DWARF BEARDED IRISES

These Irises are dwarf in growth and short of stem, but some of them bear comparatively large blooms. They come into bloom about one month before the Tall Bearded Varieties. They are of great value in the rock garden, for planting in front of the taller sorts and for edging.

	Each
Graminea (Bonnewitz List). 6 in. Brilliant red violet, almost a self; beard orange.....	\$0.35
Huron Imp. (Bur. 1923). 6 in. Deep blue-toned self. Excellent....	.75

Reichenbachi-Orange (Coll. Dwf.) 8 in. Clear, deep yellow self. Grows well, blooms freely and is an excellent yellow dwarf. One bloom per stalk.....	.35
Yellow Bird (Van Fleet, 1926). 6 in. Medium yellow of high quality. Grows and blooms well.....	.35

SIBERIAN IRISES

Their blooming period follows the Tall Bearded Iris and they are very easy to grow. They have long, tall stems, grassy foliage and are excellent for cutting. The flowers are in various shades of blue with white markings. They succeed best in a sunny situation, with moist, rich soil.

12 for the price of 10

	Each
Butterfly. Clear porcelain blue; tall	\$0.50
Emperor. Large, fine deep violet; tall	.50
Perry's Blue. Clear, deep blue, the best of the Siberians; tall	.75
Snow Queen. Pure white with yellow throat	.35

IRIS PSEUDACORUS

	Each
Pseudacorus (<i>Yellowflag Iris</i>). 3 to 4 ft. June. Yellow. Will grow in wet soil. Good for naturalizing near pools	\$0.35

JAPANESE IRISES (KAEMPFERI)

The Japanese Irises follow the Bearded and Siberian, lengthening the period of Iris blooms two to three weeks. A field of them in bloom is a most gorgeous sight, one never to be forgotten. They like moist (not wet) soil, but will do well in any good garden soil, in a sunny situation, if kept well cultivated.

William Tell. Cream white with lilac	1.00
Yedo-jiman. Royal blue	1.25
Zamo-no-moi. White, shaded purple	1.25

Peonies

The Peony is one of the most satisfactory plants in the hardy garden and its popularity increases each year. It is easy to grow, wonderful for size and color, fragrant as a Rose. Keeps well when cut, is practically immune from disease and is hardy as an Oak. It is indispensable for the garden or hardy border. Given good soil and proper planting, a good Peony is an investment that will pay generous dividends in flowers and increase for many years.

Peonies

	Div. 1 yr.	
Albert Crousse. Bomb type, late, delicate seashell pink, good cut flower.....	\$0.75	\$1.50

Dahlias

Dahlias are the glory of the garden in the late Summer and Fall. All are wonderful for decorative planting and many of the newer varieties are splendid for cutting. They are easy to grow and as a rule multiply quite rapidly.

The following abbreviations are used throughout the list, to indicate "type": HC., Hybrid Cactus; Dec., Decorative; Peo., Peony type; C., Cactus.

Dahlia

- Tubers, Each
- Barbara Redfern** (Dec.). A combination of old rose and old gold. Large flower on a heavy stiff stem. One of California's best introductions.\$1.50
- Ellenor Vandever** (Dec.). Large satiny rose pink, long stiff stems; fine cut flower.75
- Jane Cowl**. A massive deep decorative with petals curled and twisted. Color a bronzy buff and old gold. A stem of unusual strength, foliage thick and leathery. Insect resisting. 1.50
- Jean Chazot** (HC). Golden bronze, suffused nasturium red.75
- Judge Marean** (Dec.). Iridescent pink, yellow and gold. 1.00
- Jersey's Beauty** (Dec.). Eosine pink, tall, strong stems, the best pink.75
- Jersey's Beacon**. Chinese scarlet, with paler reverse, giving a two-toned effect; large, good grower. 1.00
- Mrs. I. de Ver Warner** (Dec.). Immense mauve pink.75
- Robert Treat** (Dec.). American Beauty red, fine stems. 1.50

- Tubers, Each
- Roman Eagle** (Dec.). Brilliant burnished copper color, strong stems; good bloomer.\$1.50
- Single White**. Large pure white petals, gold center.50
- Sagamore** (Dec.). Large apricot buff; wonderful cut flower. 1.00
- U. S. A.** (Dec.). Deep orange shade. 1.00
- Tango Century** (Single). Orange bronze; very attractive garden flower, good bloomer.50

POMPON DAHLIAS

These small Dahlias are growing more popular each year. They are especially good for small vases and table decorations. Keep well when cut. Very free flowering.

- Each
- Aimee**. Bronze, very small, free flowering.\$0.50
- Amber Queen**. Deep amber, good for cutting.50
- Arthur** (New). Brilliant scarlet, long stems; good bloomer.75
- Charming**. Lavender pink; fine for exhibition or cutting.50

Trees and Shrubs

	Each	AZALEA—Continued	Each
ABELIA grandiflora. Evergreen. Choice small shrub with white tinted lilac flowers, produced throughout entire Summer. 15 to 18 in.	\$1.25	Almond Flowering. 2½ to 3 ft. Double pink flowers in May; very showy.	\$1.00
2 to 3 ft.	1.75	BERBERIS.	
AZALEA amoena. Evergreen. Conspicuous purple red flowers. April-May. Leaves turn a rich bronze green in Winter. 12 to 15 in.	2.50	thunbergi (<i>Japanese Barberry</i>). A splendid low hedge plant or for massing—brilliant Autumn coloring, scarlet berries; According to size.	25c., 35c. .50
calendulacea (<i>Flame Azalea</i>). The great Flame Azalea of Carolina Mountains; very showy; burnt orange flowers. 18 to 24 in.	3.50	thunbergi atropurpurea (<i>New Redleaved Japanese Barberry</i>). This is a bright redleaved form of the Japanese Barberry. Rich bronzy red tones in the Summer, changing to vivid orange and scarlet in the Fall. Scarlet red berries. Very attractive.	
hinodegiri. Evergreen. Larger leaves and looser growth than above; flowers very bright carmine pink; effective in masses or with Rhododendron. 12 to 15 in.	3.50	9-12 in., 2 yr.	.75
mollis (<i>Chinese Azalea</i>). Large showy flowers in shades of orange and red. May-June. Large hairy leaves. Likes sun. 15 to 18 in.	3.50	12-15 in., 2 yr.	1.00
Yodogawa. Double pinkish lavender flowers. May. Very hardy and of exceptional merit. 15 to 18 in.	3.00	18-24 in., 3 yr.	1.25
18 to 24 in.	4.00		

Hardy Evergreen Barberries

	(New)	Each
BERBERIS gagnepaini. Black Barberry variety with graceful, arching branches; leaves narrow, green. 15-18 in.		\$1.50
julianiae (<i>Wintergreen Barberry</i>). Green, shiny foliage; one of the best. 15 to 18 in.		1.75

BERBERIS—Continued

Each

- triacanthophora** (*Threespine Barberry*). One of the most graceful of the Evergreen Barberries. 15 to 18 in.\$2.00

BUDDLEIA alternifolia (New).

- Very distinct and handsome in bloom. Long, arching branches covered with clusters of lilac purple flowers. Flowers on shoots of the previous year during Summer and Fall. Very hardy. Destined to be a popular shrub when known. 3 yr., 3 to 4 ft. 2.00
2 to 3 ft. 1.25

AMERICAN BITTERSWEET.

- Most adaptable vine with orange and red berries that retain color when cut and dried. 2 yr., 3-4 ft.75

ORIENTAL BITTERSWEET.

- Prized for its glossy, light green foliage and large clusters of orange berries. 2 yr., 3 to 4 ft.75

JAPANESE FLOWERING CHERRIES.

- These Cherries are among the earliest trees to flower, coming into bloom early in April. They are perfectly hardy and will succeed in almost any location.

- James H. Veitch.** Double pink. 4 to 5 ft. 3.75

- Kanzan.** One of the best—flowers deep pink and very double. 4 to 5 ft. 3.75

- Weeping Japan Cherry.** A most beautiful and graceful tree, covered with pink blossoms in early Spring. 5 to 6 ft. stems, 2 yr. heads. 6.00

COTONEASTER.

- acutifolia.** A tall, upright shrub with small, oval, lustrous leaves, and black berries. 18 to 24 in. 1.00

- horizontalis** (*Rock Cotoneaster Evergreen*). Small boxlike leaves; bright red berries; effective among rocks. 12 to 15 in. 2.75

- microphylla** (*Rockspray Cotoneaster*). Very small leaves dark green; large, dark red berries. 12 to 15 in. 1.75

CRAB.

- Bechtel.** Large, double pure pink flowers; fragrant, vigorous grower; last to flower. 2 to 3 ft. 1.25
4 to 5 ft. 2.50

- Carmine.** Single red flowers, free flowering. 4 to 5 ft. 2.00

CRAB—Continued

Each

- Malus floribunda** (*Japanese Flowering Crab*). Literally covered with pink buds and white flowers in Spring—yellow fruits. 4-5 ft. \$2.25

DOGWOOD, Redflowering (*Cornus*

- florida Crab*). Pink flowers. 2½ to 3 ft. 4.00
3 to 4 ft. 5.00
5 to 6 ft. 7.50

DAPHNE cneorum (*Rose Daphne*).

- Gray green foliage, low spreading. Pretty pink flowers in April-May. Delightful fragrance. 8 to 10 in. 1.00
10 to 12 in. 1.25
12 to 16 in. 2.25

mezereum (*February Daphne*). A

- deciduous shrub covered with lavender blossoms before the leaves appear; conspicuous scarlet berries. 15 to 18 in. 1.50

DEUTZIA gracilis (*Slender Deutzia*).

- Profuse bloomer, pure white. May. 18 to 24 in. 1.00

EUONYMUS.

- alatus.** Interesting corky bark, Warm crimson Autumn coloring. Makes fine specimen shrub. 3 to 4 ft. 1.50

- patens.** Evergreen. Grows vigorously, forming broad, rather loose shrub; leaves persist until late Winter. Ornamental fruits. 18 to 24 in. 1.25

FIR (*Evergreen*) **concolor.**

- Bluish in color and pyramidal in form. Very showy and desirable. 18 to 24 in. 3.00
2 to 2½ ft. 4.00

FORSYTHIA. Bright yellow flowers in April before leaves unfold—profuse and beautiful.

- fortunei** (*Fortune Goldenbell*). Best of all, with large, rich golden flowers. Bushy habit. Arching branches. Yellow. 3 to 4 ft. 1.00
4 to 5 ft. 1.50

- spectabilis** (*Showy Border Goldenbell*). Most profuse bloomer. 3 to 4 ft. 1.00
4 to 5 ft. 1.50
5 to 6 ft. 3.00

HAWTHORNE.

- English Hawthorne.** Single white flowers. 2 to 3 ft. 1.00
Pauls Scarlet. Double scarlet flowers. 3 to 4 ft. 2.25

	Each		Each
HEATHER. Evergreen. These evergreen plants are best in masses. May be used on well drained slopes. Good for the rock garden.		LAUREL (<i>KALMIA latifolia</i>) (<i>Mountain-laurel Evergreen</i>). Most effective in June when the clusters of pink flowers open. Likes shade. 18 to 24 in.	\$3.50
aurea. Foliage golden in Summer, red in Winter. Pink flowers. 2 yr.	\$1.00	MAHONIA aquifolium (<i>Oregon Pollygrape</i>). Evergreen, shining green leaves turn rich scarlet in Autumn; striking in May when yellow flowers appear; blue black fruits. Best in half shade. 15 to 18 in.	2.25
rubra. Bright green foliage; flowers rosy carmine. 1 yr.	1.00	MORUS alba pendula (<i>Teas Weeping Mulberry</i>). 8 to 10 ft. The most popular small "weeping" tree. 4 to 5 ft. heads, 3 yr.	4.50
HEMLOCK (Canada). Evergreen. Most graceful and adaptable. 2 to 3 ft.	3.50	MOUNTAIN-ASH. A valuable tree on a small lawn. Scarlet berries. 8 to 10 ft.	3.50
3 to 4 ft.	5.00	FRENCH LILACS. Named varieties (<i>Syringa</i>).	
4 to 5 ft.	7.00	Charles the Tenth. Reddish purple; single. 3 to 4 ft.	1.50
JUNIPERUS.		Congo. Dark crimson, single. 3 to 4 ft.	1.50
depressa plumosa (<i>Plumed Spreading Juniper</i>). New, exceedingly hardy. Assumes a very attractive purple color in Winter. Transplants readily. 12 to 15 in.	2.25	Ludwig Spaeth. Single, reddish purple. 3 to 4 ft.	1.50
horizontalis (sabina prostrata). Evergreen. Branches trail along ground. Adapted to rock work and ground covering. 15 to 18 in.	2.25	Mme. Casimir Perrier. Double white. 3 to 4 ft.	1.50
hudsonica. Excellent trailing plant useful for rock work. Fairly rapid growth. 15 to 18 in.	2.75	Pres. Grevy. Double, blue. 3 to 4 ft.	1.50
sargentii (Green). Evergreen. Prostrate habit, grass green foliage. A valuable ground cover and rock plant. 12 to 15 in.	2.25	PEARLBUSH (<i>Exochorda grandiflora</i>). Snow white flowers like pearls cover this bush in May. One of our best shrubs. 3 to 4 ft.	1.00
pfitzeriana. Evergreen. Broad, bushy habit. Gray green foliage, giving feathery appearance. A most adaptable hardy evergreen; highly recommended. 18 to 24 in.	3.75	4 to 5 ft.	1.50
2 to 2½ ft.	4.75	PEACH, Doubleflowering. Very decorative blooms before leaves appear. Double red and pink. 3 to 4 ft.	1.50
KERRIA.		5 to 6 ft.	2.50
japonica (Japanese Kerria). Golden yellow. June-Sept. Green branches useful for Winter effects. Graceful habit. 2½ to 3 ft.	1.25	PHILADELPHUS.	
florepleno (Double Japanese Kerria). Desirable double flowering form. Stronger growth and blooms more profusely. 2 to 3 ft.	1.25	coronarius (Mockorange or Syringa). The fragrant creamy white flowers are freely produced in May-June, vigorous. 3 to 4 ft.	1.00
KOLKWTZIA amabilis (Beauty-bush). A beautiful shrub somewhat similar but much finer than any of the Weigelas. Covered in early May with mass of pink flowers. 3 to 4 ft.	1.75	nivalis (Snowbank Mockorange). Free flowering, fragrant. 3 to 4 ft.	1.00
LABURNUM vulgare (Golden Chain). Attractive small tree with yellow, pea-shaped flowers in long racemes. 5 to 6 ft.	3.75	Bouquet Blanc. Clusters of large, pure white flowers, very sweet-scented; upright, shapely bush with dark foliage. 2 to 3 ft.	1.00
		Mt. Blanc. Pure white, semi-double flowers; tall, very free flowering. 3 to 4 ft.	1.00
		Virginal. Double, white, ever-blooming. One of the best of all Philadelphus. Large flowers. 3 to 4 ft.	1.25
		4 to 5 ft.	1.50

	Each
PLUM (<i>Prunus pissardi</i>) (<i>Purpleleaf Plum</i>). 6 to 8 ft.	\$2.50
PRIVET (<i>Golden</i>). 18 to 24 in. ...	.75
2 to 3 ft.	1.25
PUSSY WILLOW (<i>Japanese</i>). Very large pink and white buds. 2 yr.	1.00
QUINCE (<i>Cydonia japonica</i>) (<i>Flowering Quince</i>). Scarlet flowers in April. 15 to 18 in.	1.00
SNOWBERRY (<i>Symphoricarpos racemosus</i>). Large white berries in September. Attractive foliage. Best in half shady, moist locations. 3 to 4 ft.	1.00
SPIREA.	

Anthony Waterer (*Waterer Spirea*). Deep rose pink, very free flowering all Summer. A compact shrub.
12 to 15 in.50
2½ to 3 ft. 1.00

thunbergi (*Thunberg Spirea*). Slender arching branches clothed with pure white flowers. April-May. Feathery light green leaves. Valuable for seaside planting. Good Fall coloring. 2 to 2½ ft. 1.00

trichocarpa. Flowers like Vanhouttei, but two weeks later. 3 to 4 ft. 1.00

vanhouttei (*Vanhouttei Spirea*). White. May-June. Graceful habit. Extremely free flowering and very adaptable. 18 to 24 in.75
3 to 4 ft. 1.00

SPRUCE, Colorado Blue. Symmetrical habit. Hardy near salt water. Selected blue types. 15 to 18 in. 2.25
18 to 24 in. 3.25
2 to 3 ft. 5.00

Norway. Evergreen. The real Christmas tree. Fast grower and one of the best to plant for shelters and windbreaks. 2 to 3 ft. 2.00
3 to 4 ft. 3.00

VIBURNUM.

carlesi (*Fragrant Viburnum*). 4 ft. One of the most desirable semi-dwarf flowering shrubs with wonderfully fragrant flower clusters of white shaded with pink. Foliage nice green. 2 to 2½ ft. ... 3.25

rhytidophyllum (*Leatherleaf Viburnum*). 6 to 8 ft. Evergreen. Large, oblong leaves, deep green above, gray beneath; a bold, handsome shrub. 2 to 2½ ft. . 4.00

Lilac. See page 30

VIBURNUM—Continued

tomentosum. Flat heads of single white flowers, June. Berries red to black. Good foliage. 3 to 4 ft. \$1.50

VITEX. Dainty shrub, gray green, star shaped leaves; prefers sun.

macrophylla. Fine blue flowers, very attractive. Great improvement over the old type. 2 to 3 ft. 2.00

WEIGELA.

desboisi. Deep rose pink, flowers profusely. 3 to 4 ft. 1.25

floribunda (*Crimson Weigela*). Crimson, June. Free flowering. 3 to 4 ft. 1.25

Eva Rathke (*Redflowering Weigela*). Carmine. June-Aug. 2½ to 3 ft. 1.00

4 to 5 ft. 1.50

rosea. Showy, pink flowers freely produced. June. Vigorous grower. 3 to 4 ft. 1.25

WISTERIA, Purple.

3 to 4 ft., 3 yr. grafts. 1.50

4 to 5 ft., 4 yr. grafts. 2.50

Tree form, 4 to 5 ft., 3 yr. heads. 5.00

YEW (*Taxus*).

cuspidata (*Spreading Japanese Yew*). Evergreen. Rich, deep green leaves. Spreading, bushy habit. Valuable in foundation plantings. Very hardy. 18 to 24 in. 4.50

2 to 2½ ft. 6.00

brevipolia (*Dwarf Japanese Yew*). Broad, thick leaves, blackish green. Slow grower; very hardy. 15 to 18 in. 5.50

18 to 24 in. 7.00

Apple Orchard

Fruit Trees

All out stock is grown on upland. All trees are of the best quality, clean, smooth, well rooted, absolutely free from disease and strictly true to name. We are listing only a few, but we can supply any standard variety on a few days' notice. All stock will be freshly dug so as to get it to you in the best possible condition.

12 for the price of 10; prices per 100 on application

PLANTING OF TULIPS

Come and See Our Tulips in May

WE shall have in bloom (with normal growing season) in May, a most interesting collection of 100 varieties, Darwin, Breeder, Cottage and Parrot Tulips and 25 varieties, American-grown Narcissus which includes some of the newest and rarest gems in these aristocrats of the floral world. ¶ Seeing them in bloom is the only way to select those that appeal to your particular fancy. We can take your order while their characteristics are still fresh in your memory and deliver the bulbs in the Fall. ¶ With a low overhead, and the fact that we can have these early orders specially packed for you in Holland, we are prepared to supply the very cream of Holland's Best, at extremely low prices.

How to reach Mount Airy Gardens from Stamford

Take North Stamford Avenue to Willard School, bear left on Scofield-town Road to Brookdale Road,

Or

Take Strawberry Hill Avenue and Newfield Avenue to the end of Newfield Avenue, then turn left and follow Mount Airy Garden signs
