IRIS

1932

R. MARSHALL

2253 North La Salle Gardens

DETROIT, MICHIGAN

Forget the Depression

—plant a garden. Plant an estate or a bed in the backyard—some private area where you can retreat from the onslaughts of outrageous fortune.

Your bonds may have soured. Dividends may have become rare. Maybe your pay has been cut or your job abolished. Most of us feel that we've been betrayed. Our castles in the air have been dissipated by raging deflationary winds. Our paper profits have vanished. What appeared to be safety thirty-six months ago looks like the flimsiest kind of insecurity today. The whole business seems unreal.

But in the garden will be found a cheerful peace. Nature in 1932 is much like Nature was in 1929. She's a generous, tender, soothing, mothering comforter. In the garden the tulips bloom just as surely. The peony is not trying to remain liquid—it declares a generous dividend of beauty. Rose garden coupons are as good today as they were in former years, good for armfuls of bloom. The delphinium still pays interest.

Here is an integrity not found in business. Every garden institution is solvent. And here is work for which wages have not been cut. Whether you go at it on your knees with your hands in the dirt or try the vicarious thing of doing the brain work under a lawn umbrella while some peasant person mangles the stubborn glebe at your direction, the reward is sure.

So plant a garden. Plant a garden and let your brain clear. Let the evening perfume of a rose arbor calm your nerves and bring peace to your soul. If you ever needed the loyalty of growing things, you probably need it now. And if you require iris, here they are:

The varieties are listed alphabetically for quick reference.

After each variety is given its official rating made by the American Iris Society, on the scale of 100. First is given the exhibition rating—the score of the variety as a specimen flower. Second is given its garden rating—its value in the landscape. Many of the newer varieties have not yet been judged.

The list offers no variety with a rating under 80.

Then is given the originator of the variety, the following abbreviations being used: Burch., Burchfield; Cay., Cayeaux; Gey., Geylenkek; Gros., Groschner; G. & K., Goos & Koenemann; Lem., Lemon; Mil., Millet; Mit., Mitchel; Mor., Morrison; Sturt., Sturtevant; Verd., Verdier; Vilm., Vilmorin; Wmson., Williamson.

All plants are shipped as soon after July 1 as possible. An endeavor will be made to conform to particular shipping date where the customer specifies definitely. Cultural directions accompany all shipments. Plants are sent carriage paid.

Acheron, 85-88 (Sturt. 1924) Red purple.....	\$0.50
Afterglow, 83-82 (Sturt. 1917) Grayish lavender and yellow.....	3 for .50
Alcazar, 86-87 (Vilm. 1910) Violet and purple	3 for .50
Aliquippa, 89-88 (Hall 1924) Pale massicot yellow, deeper color in center.....	.75
Ambassadeur, 92-91 (Vilm. 1920) Smoky bronze	.25
Amber, 88-88 (Dykes 1924) Rich yellow.....	.50
Andante, (Wmson. 1930) Velvety raisin purple, 36 in.	4.00
Antares, (Vilm. 1926) Yellow.....	.75

Yolande, 87-82 (Mil. 1923) Blue—very large	.35
Zingara (Wmson. 1928) Orange.....	2.00
Zwanenburg (Denis 1912) An early iris of odd coloring—amber, olive green and maroon	.25

DWARF IRIS

The earliest of the bearded iris to bloom. Short, bright, perky, these are valuable in borders and in rock gardens. Of 25 varieties grown here, these are considered the best:

Aramis (Millet 189....) Yellow.....	.25
Azurea, Sky blue.....	.35
Dixmude, 83-78 (Millet 1914) Purple...3 for	.50
Florida, Yellow	3 for .50
Harbor Lights (Burch. 1927) Light yellow....	1.00
La Fiancee, White.....	.25
Marocain, 74-85 (Millet 1914) Red purple	3 for .50
Negus, 62-80 (Millet 1914) Bright purple.....	.25
Orange Queen (Barr 1910) Deep yellow.....	.25
Schneekuppe (G. & K. 1910) White.....	.25
Sonny (Burch.) Clear yellow.....	1.00

BEARDLESS IRIS

These dainty iris are easily grown in ordinary garden soil and, unlike the bearded sorts, will thrive in damp spots. Suitable for the edge of a pool. They bloom after the bearded iris are through.

Dorothea K. Williamson (Wmson. 1918) A beautiful thing of velvet texture and vivid purple color	.50
Emperor, Deep violet.....	.35
Florrie Ridler (Perry 1920) Sky blue.....	.75
Fulva, Coppery red. Striking.....	.50

Mrs. A. W. Tait, a narrow petalled bloom of soft porcelain blue	.50
Perry's Blue (Perry 1912) A sky blue Siberian. Grassy leaves	.35
Pseudacorus Gigantea, rich yellow, grows to 5 feet in moist location.....	.75
Snow Queen (Barr 1900) Delicate white blooms. Easy to naturalize.....	.35
Versicolor Blue, native American species. Likes wet ground	.25
Stella Main (Main 1928) A white form of Iris Versicolor. White falls, yellow blotched	1.00

POGOCYCLUS IRIS

Interesting hybrids, delicately veined, with ruffled petals. Colors and form unlike the bearded iris common to our gardens. Plant in well drained sunny location. While easy to grow, not many gardens can boast of these varieties.

Lady Lilford (Foster) Deep violet purple with blackish falls	1.50
Nazarin (Foster) Light purple violet.....	1.00
Sir Trevor Lawrence (Foster 1905) Rosy mauve, gorgeously pencilled.....	2.00
Vulcan (Foster) Violet purple petals, with black blotch on falls.....	2.00

COLLECTIONS

My customers have found the following collection plan most satisfactory. I like it because I get a lot of fun out of it. If you do not feel competent to make a wise selection from this list, tell me something of your color preferences and send me the money—\$2.00 or \$200.00, any amount you want to spend—and I'll make up a collection that you'll be proud of. The more confidence the customer displays the more likely my generosity is to get the better of me. That's human nature.

GIFT BOXES

A garden lover appreciates nothing more than a gift of rare plants. I try to handle such matters with understanding. The rhizomes are boxed niftily as a gift and sent with a letter naming the donor. You may select the varieties or leave the selection to me—just tell me how much you want to invest in happiness for your friend. Shipping dates religiously observed.

AMERICAN IRIS SOCIETY

Every iris lover should join. Costs \$3.00 a year. You get a booklet "Irises for the Beginner" and four valuable bulletins each year. Send your application to J. B. Wallace, Jr., Secretary, 129 Church street, New Haven, Conn.

MICHIGAN HORTICULTURAL SOCIETY

For Michigan garden enthusiasts. The \$3.00 annual dues include a year's subscription to the National Horticultural Journal. I'll be glad to propose you for membership if you'll send your application to me.
