FIELD SEEDS

GRIMM ALFALFA

This is probably the best known and most talked of variety. No other strain of Alfalfa is as hardy as true Grimm. Because of its extreme hardiness it is being grown extensively where winter killing is a serious factor. If you have a high water level or hard pan to contend with, Grimm is the proper type to use. Our Grimm comes in bags sealed and tagged under government supervision. This insures a true, genuine, Grimm type. Use 12 to 15 lbs. per acre.

Montana Alfalfa

Of all the common strains Montana grown Alfalfa seed is considered by all agricultural authorities to be one of the hardiest. As it is grown west of the Dakotas it is acclimated to the severe winters of that territory. Over a period of years the Montana State Agricultural College has shown in its test plots that Montana Alfalfa is the king of all common strains. Seed at rate of 15 to 20 lbs. per acre.

Home gardeners also receive the same high quality seeds and plants.

The New Vogue Is for Color

Color and lots of it is today's fashion in the home ground planting. Color everywhere is possible only with extensive planting of those things which provide it—Shrubs, Vines, Bulbs, Annuals and Perennials. Each has its place in the modern landscape treatment.

Modern homes are set in modern gardening—and proper planting can give even older houses a new and modern charm. New front yards are open and inviting, with plantings massed to mark the borders of the plot and frame the sweeping view of velvet lawn. Trees and foundation planting are so placed to frame not hide, the house and make the home seem nestled softly into place.

Porch and Window Boxes

Add much to the cheerfulness and beauty of the home. Let us fill your boxes. The cost ranges from 50c to \$1.00 per foot, depending upon the size of plants and includes soil and labor.

The following plants are best adapted to basket and porch boxes. VINES—Kentworth Ivy, Parlor Ivy, Vines, Trailing Musk, English Ivy, Trailing Lobelias, Cobaea Scandens.

Hardy Perennials

Including special types for Rock Gardens. Color is the dominant note in today's gardening conception so that our back yards were at least decently clothed with green mown grass, and bound in by appropriate groups of flowering shrubs. That was splendid—so much better than the uncouth barrenness of service yard and rubbish piles, so common the day before. So now, we are not content with green grass alone and the fringing shrubs, but demand color; all colors, and lots of each.

There is no other way to satisfy this desire than obtain a quick effect, than by planting flowers. Many delightful colorful beds can be established of "Annals" raised from seed (or transplanted from supply commercially grown by others). Here is where the Hardy Perennials come into their own. Beautiful in a thousand types and expressions. Once planted they continue year after year with no further gardening concern beyond cultivation, cutting and thinning.

Hardy Perennials

Artemisia (Silver King)—A wonderful addition for your shrubbery or perennial border, furnishing a large compact mass of beautiful silver foliage. Fine for cutting. Price 10c, large 25c.

Acutatum (Mop's Head)—Beautiful blue. Two shades. 20c each.

Anthrax—Blue, violet and rose mixture. Produces great masses of bloom in early spring, fine for rockeries and borders, very hardy. Young plants 10c each; \$1.00 per dozen.

Anchusa—A very hardy, vigorous growing plant, with large spikes of bright forget-me-not blue flowers. 25c and 50c each.

BLEEDING HEART—This old fashioned plant has a place in every garden, and that place is where nothing else will do well. It will grow in a shady location as well as in the open. Price 50c each.

Bellas (or English Daisy)—80c per dozen. **Coropsis**—Hardy plants. The flowers are large, rich golden yellow daisies; 2 or 3 feet. 35c and 50c per clump.

Campanula (Bellflower, Canterbury Bell)—Blue, white and pink. Old fashioned hardy plants, easily grown. 1 year old, 25c each; 2 year old, 50c each; small plants 15c, or \$1.50 dozen.

Carnations, New Hardy—This variety is of easy culture and produces enormous flowers, 10c each, \$1.00 dozen.

Peonies

The Peony bears the first big flower crop of June and is a close rival of the Rose. While in season, it is more lavish in its bloom, and makes the more pretentious show, besides which it is hardier and more easily cultivated. Peony blooms are very lasting when cut, and in most cases are exquisitely scented. Plant 2 to 3 feet apart in deep, rich well-prepared soil, covering the buds but an inch or two. Do not expect much of them the first year, as they are slow in establishing themselves.

The most natural time to plant Peonies is early in September but early spring planting—March 15 to April 15—is just as reliable for establishing the plants.

Pink, white and reds, 3 to 5 eyes, in choice double, 60c each; 3 for \$1.50.

Peonies—What looks prettier than a well-grown peony plant covered with a mass of gigantic flowers? With ordinary care the plants will increase in size and number of blooms with each year. Our peony divisions have 3 to 5 strong eyes. Double reds, pinks and white. Specially prepared for spring planting. 60c each; three for \$1.50.

Poppy, Oriental—Hardy perennials, producing immense flowers in gorgeous red. 25c and 50c each.

Pyrethrum Hybridum—This grand old-fashioned hardy perennial is easy to grow in any good garden soil. Large daisies, in bright shades. 10c each; \$1.00 dozen. Blooming clumps, 35c and 50c each.

Primrose, Hardy English—Low growing, rich yellow and bronze flowers, fine for rockery. 3 inch pot, 25c each. Young plants, 75c doz. **Pysostegia** (Pinks Hedges)—One of the prettiest hardy perennials, grows bushy with spikes of delicate pink flowers. Young plants, 75c per doz.; large plants, 35c each.

Hardy Shrubs

The Finest Stock We Have Ever Grown

Our homes become homes in the true sense, only when they are planted. Ornamental shrubs are the foundation of all landscape plantings. We offer a wide selection of varieties to beautify your home and garden.

Planting—As soon as your shipment arrives, open up to verify stock, then heel-in somewhere in shaded, moist soil. Take out a few at a time to location. Dig holes large and deep enough to receive the roots without cramping; sift fine dirt throughout the network of fibrous roots; fill up, tamp solid, leaving no fissures. Soak thoroughly and rake the surface level.

Maintenance—Thereafter, make sure there is sufficient soil moisture. Keep ground cultivated and free from weeds, preserving a straight clean edge.

Pruning in the dormant stage is not injurious to the plant and often easier to accomplish, but, as a result, the spring bloom is not as abundant. The ideal time to prune shrubs that blossom along their stems is just after the blooming period.

Almond Double Flowering—Pink or white. Very early. 75c each.

Athens Bush—Large, handsome flowers. Double red, white, purple and rose colors. Bloom late in summer. Price 75c to \$1.00 each.

Barberry Thunbergi—Three years. Price 25c to 50c. Discount on large quantities.

Barberry—New red leaf variety, very decorative. 75c to \$2.50 each.

Buckhorn—Tall, twiggy bush, dark green leaves and white flowers. Price 50c.

Baton Bush—Globe flower with glossy leaves, 60c.

Budilla ("Butterfly Bush," "Summer Lilac")—Of quick bushy growth; when the lovely bloom-spikes appear in July, the shrub, which had probably died down nearly to the ground during winter, is now a perfect, well-balanced specimen of about 5 feet; radiating a delightful perfume and glowing with the tints of the Spring Lilacs. It is best to cut them back annually. Plant this shrub for all summer bloom. Price, 50c and \$1.00 each.

Calycanthus (Sweet Scented Shrub)—An old favorite. Flowers are rich dark crimson. Delicate perfume. 50c and 75c each.

Campana—Yellow, sweet pear-shaped flowers. A tall grower. Price 50c.

Cotoneaster—A class of refined fruiting shrubs having dense, dainty little rounded leaves darkly lustrous and with brilliant autumn color and a grand display of vivid fruits. Adapted to rockery and wall adornment as well as to any other landscape usage. \$1.00 to \$2.50 each. Balled.

Cornus Stolonifera—Red bark. White flower. Is very decorative. Price 50c each.

Drunzia Rosea—Double rose flower. Dense, quick grower. Price 75c each.

Drunzia (Prickly Rosebush)—Shrub. White flowers. Price 75c each.

Desmodium—Purple leaf flower. Late fall, 75c each.

Elder—Finest golden leaved shrub. Flowers and fruit. Price 75c each.
