PRIMROSES

Correvon, the world's greatest authority on Alpines, says about the primrose: "The genus is one of the most precious and most popular with alpine gardeners. It increases as fast as an American town and every year brings new kinds, especially from Central Asia."

NEVILL PRIMROSE FARM POULSBO, WASH.

We are the largest growers of Primroses in the United States, and are constantly adding new varieties to our collection.

HYBRID PRIMROSES

Our primroses are propagated by subdivision from carefully selected plants grown from seed imported from England, Scotland, Switzerland, China, and Japan, and are absolutely the best that money can buy; nothing better can be had anywhere.

We have been working with these primroses for sixteen years before putting them on the market and none without special merit are tolerated on our grounds.

Primroses do best in a rich loamy soil and prefer a partly shady location, especially with some protection from the afternoon sun.

They are perfectly hardy but should be protected by a litter of straw or leaves during zero weather.

Plant our exquisite primroses in your rock garden, or edge your tulip beds with them, or tuck them under your spireas or other blooming shrubs, or naturalize them, and you will be the envy of all your gardener friends and have joy and satisfaction untold. If you have a color scheme in your garden you can match it in primroses and prolong the flowering period as they are the earliest perennials except Hellebore Niger which blooms in January. The primroses bloom as soon as the frost is out of the ground, the Veris (English variety) are the first, then come Cashmeriana, Aurioula, and Pulverulenta in the order named.

Cashmeriana are quite different from the English, with bright purple flowers forming a ball 2 to 3 inches in diameter on stems 8 to 12 inches high, very striking with a number of flower stalks to each plant.

Primula Auricula (native of Norway and Switzerland) is a lovely species, with a wealth of fleshy, grey foliage, and clusters of rich velvety blossoms with a warm fragrance. They are very popular in Europe and should be much better known here, as they are splendid for rock gardens and for edging.

Primula Pulverulenta brings the procession into June and July with its tall flower stalks of exquisite colors and beautiful crisp rosettes of large light green leaves that are an asset in themselves. The Cashmeriana and Pulverulenta should be marked as they die down below the surface in the Winter and show no sign until mild weather comes again in the Spring.

Primula Florindae comes later in the year than any other and blooms for a long time during the Summer.

If you want a hobby, or have a yen for collecting, these primroses are a great boon as there are several hundred varieties and new ones are always being discovered in all parts of the world. As often as we find anything new and good we will add it to our list.

PRIMROSES

Primula Veris, having a single flower on a stem.

Blue Bird —A beautiful sapphire blue	.35
Briar Rose	.50
Bright Rose	.50
Cerise —Very free flowering and early. Beautiful for edgings	.20
Cheerful —Deep rose with large yellow eye. Very free flowering	.20
Dainty Miss —Rosy mauve. Earliest of all and very floriferous. Flowers frilly. Each plant a most exquisite bouquet	.25
Dawn —Lovely blending of cream and cerise	.35
Deep Plum	.50
True English Primrose —A soft shade of yellow. Very fragrant and free blooming. One of the best for corsage work. Beautiful when combined with violets and very lovely when planted under deciduous shrubbery. Flowers 1½ inches in diameter	.25
Garnet Gem —Bright garnet with yellow eye. A real gem..	.50
Gold-laced —The finest variety	.20

My Favorite —Shades of purple violet. Large flowered and good bloomer. A most exquisite flower	.35
Purple Violet	.35
Ruby Gem —A very beautiful color	.50
Salmon Red	.20
Scarlet	.35
Violetta —Violet blue pencilled red with orange eye	.50
White Lady —White with yellow eye. Extremely good.....	.25

PRIMULA POLYANTHA

Having their flowers in a cluster

American Beauty Rose —Beautiful color. Flowers rather small, very free blooming. Especially good for edging. Blooms early	.35
Apricot	.20
Barr's Exhibition Reds —Finest strain of polyanthus in crimson shades	.35
Barr's Munstead Giants —A fine mixture in white, golden orange and yellow	.35
Blood Red Velvet —Most glorious of all. Very large blossoms of heavy substance	.50
Buttercup —Lovely clear yellow, ruffled	.25
Canary Bird —Of heavy texture with stiff stems	.25
Dark Red Velvet —Dark red with yellow eye	.50
Dean's Hybrids	.50
Duplex or Hose-in-hose —Very interesting and beautiful with one corolla placed inside another making it very double and frilly. In apricot and yellow	.50
Flames of Fire	.75
Moonglow	.35
Orange Glory —Beautiful self-colored orange. Extremely fragrant and most floriferous. One of the best. Do not miss this	.35
Polyantha —Mixed from seed in various shades of red and yellow	.20
Sun Gold	.25
Tango —Very lovely with good stiff stems. Free flowering	.35

DOUBLE PRIMULA VERIS

Bridesmaid —Double white shading to pink	.35
Lilacea —Double lavender rose. Exquisite	.50
Lemon Yellow —Double. Very rare	.50

PRIMULA CANDELABRA

Having a tall scape with numerous whorls of flowers, giving the appearance of a candelabra.

Ailin Aroon —A beautiful hybrid with light scarlet flowers. Height 18 inches	.35
Japonica —Bearing bronze red flowers in many tiers. Height 15 inches	.50
Pulverulenta —Whorls of flowers growing in tiers, on stems from 12 to 15 inches high, in shades of flesh pink, rose, and crimson with orange eye. Beautiful, light green, crinkly foliage. Very fine	.35
Red Hugh —Intense fiery-red crimson. A most unusual shade. Height 18 inches	.35

Remember that we pay the postage on all orders over \$1.00

VARIOUS PRIMULA

Auricula —Hybrids with rosettes of thick leaves bearing heads of bloom mostly deep red, maroon and purple. Very fragrant. One of the treasures of the rock garden	.25
Cashmeriana —Bright purple flowers forming a ball 2 to 3 inches in diameter on stems 8 to 12 inches high. Very striking with a number of flower stalks to each plant.....	.35
Florindae —An especially vigorous primrose from the Himalya mountains, 3 feet high bearing large tassels of pendulous blossoms with as many as 100 individual blooms to each plant. Color bright yellow with a spicy fragrance like Clove Pinks. Blooms in the Summer—the latest bloomer	.50
Saxatilis (often sold as <i>Cortusoides</i>). Very dainty with rosy-purple flowers. 12 inches	.50
Mixed Primula	.20

PRIMROSE COLLECTIONS

COLLECTION NO. 1

Blue Bird	.35
White Lady	.25
Dainty Miss	.25
Orange Glory	.35

ALPINES AND PLANTS FOR ROCK GARDENS

The alpine in this list are carefully selected to give the best results. We also aim to have the RARE and UNUSUAL, and will add to our list from time to time as we discover and procure plants we consider desirable.

Achillea Argentea —Silvery foliage. White flower heads 10 inches. May to June	.25
Achillea Tomentosa —Compact foliage. Yellow flowers 10 in. June-Aug. Blooms at the same time as <i>Veronica Incana</i> <i>Glauc</i> , and is lovely planted near it	.25
Achillea Ptarmioa —(The Pearl). White double flowers all summer	.25
Aethionema Persicum —Beautiful blue foliage on woody stems, and lovely pink flower heads. One of the best rock plants	.40
Alyssum Saxatile —(Basket of Gold). Yellow. In clusters. 10 in. April-June. No rock garden is perfect without this glorious flower	.35
Alyssum Saxatile Citrinum —Pale yellow and more compact	.50
Androsace Primuloides —Tufts of needle-like bright green rosettes from which rise pink flowers with golden eye. 2 to 6 ins. April-May. Lovely and interesting.....	.50

Anemone St. Brigid —The flowers are very large, semi-double; with finely divided petals and of most unusual rich and brilliant colors in pinks, lavenders and reds. They all show a handsome blue-black central zone. Early Spring until Summer. 12 ins.	.25
Anemone Japonica (Japanese Wind Flower)—Double pink or double white. Tall. Sept.-Nov. Very fine	.35
Anemone Pulsatilla (Pasque Flower). Large violet or purple flowers with yellow centers. 9 to 12 in. April-May....	.40
Anemone Sylvestris —Large white blossoms on nodding stems. 9 to 12 in. April-May	.40
Anthemis Aizoon (<i>Achillea ageratifolia</i>)—Masses of low silver-grey rosettes. Lots of white daisy-like flowers. Fine. 5 in. May-June	.25
Anthemis Tinctoria —Hardy perennial with delicate fern-like foliage producing bright golden-yellow flowers almost 3 ins. across. 15 to 18 ins. June to Oct.	.35
Aquilegia Jocunda —Large beautiful blooms of powder blue with pure white center. May-June	.50
Arabis flore pleno —One of the earliest spring flowers, producing masses of double white blossoms. An extra fine rockery plant and lasts well when cut. 6 to 8 ins. Early Spring	.25
Arenaria Montana —In tufts closely covered with silvery white flowers. Fine for edgings and in rockeries. Does well in full sun. June.	.20
America (Thrift)—Dwarf plants with bright green, grass-like foliage from which pink flowers appear on stiff stems. 9 in. June-July	.25
Asperula cynanchica —Flowers light rose. 10 to 12 ins. May	.35
Asperula odorata —(Woodruff). Heads of snow white flowers appear above the foliage. Fragrant. Excellent for carpeting in shady places. 6 to 8 ins. May	.35
Aster alpinus —A dwarf perennial aster for the rockery. Pink and blue shades. 6 ins.	.25
Aster sub-coeruleus —Clear mauve flowers with orange center. 3 ins. across on simple stems, 12 to 15 ins. June. Fine	.25
Astilbe (Spirea)—Hybrid varieties of very vigorous growth; producing many branched, feathered heads of flowers. Prefer partly shady location. Pink, white, lavender. 24 to 30 ins. June-July	.50
Aubrietia —One of the loveliest of all creeping plants. A gem for planting in crevices and rock walls—gives splashes of most brilliant violet, purple and rose.	
Aubrietia bougainvillea —Dark clear blue	.25
Aubrietia Florariensis —Crimson	.25
Aubrietia leichtlini —Large carmine flowers. Compact.....	.25
Aubrietia Lavender Queen	.25
Aubrietia Whitewell Gem —Rosy purple with distinct white halo in center	.25
Bellis rotundifolia coerulescens —Charming dwarf single lavender daisy. Excellent for rockery and edging	.25
Calypso Borealis —One of the rarest and most prized native orchids. Mauve pink. Dainty and very fragrant. Requires moist leaf loam. Early Spring. 3 to 6 in.	.50
Campanulas are indispensable in the rock garden as they bloom during the summer months when the flush of the rock garden bloom is over. To have bloom during the summer months plant <i>C. Carpatica</i> , <i>C. Excisa</i> , <i>C. Laurii</i> , <i>C. Rotundifolia</i> , <i>C. Pusilla</i> and <i>C. Pusilla alba</i> with <i>Geum Heldreichii</i> Superbum, <i>Geum Montana</i> and <i>Tunica Saxifraga</i> Fl. Pl.	
Campanula <i>Pusilla alba</i> is particularly lovely in combination with <i>Viola Bosniaca</i> , also with <i>Sempervivum Arachnoides</i> .	
Campanula Carpatica —Flowers clear blue, held erect on wiry stems. 8 in. June to Oct.	.35

Campanula Excisa —Rare alpine with punched-out hole at the base of each segment of the corolla. A delicate plant for a choice spot. 6 in. June	.50
Campanula Grandis —Flowers blue, often 2 ins. wide. 12 to 18 ins.	.45
Campanula Glomerata Superba —Large heads of deep violet flowers. 15 ins.	.35
Campanula Laurii —Rosy mauve bells, larger than rotundifolia, held upright on stiff stems. 9 ins.	.35
Campanula Longistyla —Deep blue. 12 ins.	.35
Campanula Pusilla —Tiny thimble-like bells of blue. 6 ins. June-Sept.	.35
Campanula Pusilla Alba —(white form)	.35
Campanula Rotundifolia —(Blue Bells of Scotland). 10 ins. May-Sept.	.25
Campanula Rotundifolia —Mt. Olympus. Flowers twice the size. Light blue. 6 ins. June-Aug.	.25
Campanula Turbinata —Dwarf cup-shaped violet flowers.....	.50
Centaurea Dealbata —Showy puffs of rosy pink flowers. 20 ins.	.35
Cheiranthus Allioni —Brilliant orange flowers. A most profuse bloomer. A beauty in the rock garden	.35
Cheiranthus Linifolius —A beautiful rock plant. Very free bloomer with lilac-mauve flowers. 12 ins. June-Sept.....	.35
Convallaria Majalis (Lily of the valley)—An old favorite with a profusion of bell-shaped flowers on spikes. White. Very fragrant. 8 ins. May. Per doz. pips.	.50
Coreopsis Lanceolata Grandiflora —Valuable border plant. Rich golden yellow. 36 ins. June-Sept.	.25

DELPHINIUMS

Our Delphiniums are selected from the best seed obtainable and only the choicest have been retained. The plants which we sell are from field-grown clumps, not seedlings, and are truly gorgeous.

Delphiniums like a deep, rich soil. If cut down to the ground after blooming they will flower two or three times during the season. The height is from 3 to 7 ft. and the individual blossoms are up to 2½ in. in diam. Price 35c ea. \$3.50 doz. except where marked.

- 1—Purple touched with blue. Light bee. Double.
- 2—Purple and blue. Yellow bee. Single.
- 3—Purple and indigo. Brown bee. Single. 6½ ft.
- 4—Lavender and light blue. White bee. Single. 5 ft.
- 5—Pale lavender touched with blue. Yellow bee. Double.
- 6—Light lavender. Yellow bee. Single.
- 7—Intense blue touched with lavender. White bee. Single.
- 8—Bright blue touched with lavender. Light bee. Single. 6½ ft.
- 9—Pale blue. Yellow bee. Single. 6 ft.
- 10—Intense blue touched with lavender. Light bee. Single. 5 ft. Slender and sturdy stalk.
- 11—Blue with lilac tint. Single. Brown bee. 6½ ft.
- 12—Pale lavender to blue. Dark bee. Double. 5 ft. \$1.00.
- 13—Pale lemon yellow and deep cream. Yellow eye. Double. 75c.
- 14—Sky blue touched with lavender. Single. Light and dark bee. 7 ft.
- 15—Bright sky blue. White bee. Single. 4 ft.
- 16—Sky blue flushed with lavender. Light and dark bee. Lovely.
- 17—Bright indigo blue. White bee. Single. 7 ft.
- 18—Purple on dark blue ground. Double. 6 ft.
- 19—Sky blue and lavender. Double brown bee.
- 20—Bright blue, purple edge. Brown bee.
- 21—Bright blue. Single. White bee.
- 22—Light blue. Single. Brown bee.
- Dianthus Alpinus Carmineus**—Dwarf alpine. Handsome rosy purple flowers
- Dianthus Deltoides**—Dwarf dark green foliage with bright pink flowers. June

.25
.25

Dianthus Deltoides. (Major Stearns variety). Dark brown foliage with brilliant crimson flowers	25
Dianthus Granaticus —Bright pink. 6 ins.	25
Dianthus Inodorus —Bright pink flowers, semi-trailing.....	25
Dianthus Neglectus —Cherry red flowers in diminutive tufts. 3 in.	25
Dianthus Sternbergii —Very dainty. Pale pink fringed flowers from grassy tufts	25
Doronicum Caucasicum —Large bright yellow flowers. Effective in a hardy border. Splendid for cutting. 18 ins. April	35
Draba Olympicum —Tight rosettes of foliage with yellow flowers. 2 in. May	35
Dracocephalum Ruyschianum —Resembles a small blue snap dragon. Good for rockery. 1 ft.	25
Erigeron multiradiatus roseus —Dwarf for the rockery. Soft pink	25
Erigeron speciosus —Lilac blue. 2½ ft.	25
Erinus Alpinus —Pretty rosettes of foliage with racemes of rosy purple flowers. 4 in. May-June	25
Euphorbia Myrsinites —Feathery bluish foliage with crowded heads of yellow flowers. 8 in. May-Sept.	25
Euphorbia Polychroma (Epithymoides)—A beautiful symmetrical plant forming a half round clump covered with yellow flowers. 12 ins. May-June. Exceptionally good and decorative	35
Funkia (Hosta; Plantain Lily)—Handsome massive foliage for the border with lavender or white lily like flowers.	
Funkia Coerulea lanceolata —Blue flowers in Summer.....	35
Funkia Glaucia —Foliage blue, flowers white	35
Funkia Variegata —Beautiful variegated leaves. Blue flowers	35
Gaillardia (Blanket Flower) Grandiflora —Daisy-like flowers with gorgeous colorings. The petals are marked with rays of brilliant crimson orange and vermilion. 24 ins. Blooms all Summer	35
Gentiana Septemfida —Dense evergreen mats of green leaves, with erect heads of sapphire-blue flowers. White toward center. 9 in. July-Oct.	75
Geum Mrs. Bradshaw —Large double scarlet flowers on erect 15 in. stems. All summer	35
Geum Lady Stratheden —Golden yellow counterpart of Mrs. Bradshaw	35
Geum Heldreichii Superbum —Brilliant orange. Blooms all Summer. A fine rock plant. 8 ins.	25
Geum Montana —Large single buttercup yellow. 8 in.....	25
Globularia Cordifolia —Round dark blue flowers on neat rosettes of dark green leaves. 8 in.	25
Helianthemum Mutabile (Sun Rose)—Low growing evergreen plants forming large clumps covered all Summer with little wild-rose-shaped flowers in orange, flesh, rose and yellow. Very fine	35
At the end of the blooming period the seed stems should be cut off to induce fresh bloom.	
Helianthemum Double Red	35
Hellebore Niger —A beautiful and little known flower of great value, has large Anemone-like white flowers 3 ins. diam. Foliage exergreen resembling peony leaves. Blooms in Dec. and Jan. Very hardy. 15 ins. 2 year old .35. 3 year old .50. Larger sizes up to	1.25
Heuchera Brizoides (Coral Bells)—Flesh pink, rose and scarlet. Dainty and lovely. 18 ins. May-June	35
Hutchinsia Alpina —Dwarf clump of leathery foliage with masses of white flowers. 4 in. May	25
Hypericum Henryi —Very graceful habit with long slender drooping stems. Very free-flowering. Flowers 2 ins. diam. of a rich golden yellow. Blooms entire Summer.....	35
Hypericum Polyphyllum —Creeping habit. Yellow flowers. Splendid rock plant. 6 ins. June-Aug.	35

Iberis —Evergreen foliage. Good rockery plants.	
Iberis Corifolia —White. 6 in. May-June	.25
Iberis Lilacina —Lavender	.25
Iberis Sempervirens —Very hardy, white	.25
Iris Cristata —Lavender blue flowers. Very dwarf. One of the best for the rockery	.25
Red-seeded Iris —Flowers inconspicuous but seed-pods curve outward showing the beautiful coral-like seeds	.50
Jasione Perenne —Dwarf fluffy heads of lavender blue. 8 in. July-Aug.	.30
Lewisia Rediviva —A choice native plant with waxy white or rose-colored flowers rising from rosettes of long thick leaves	.35
Lewisia Tweedyi —Beautiful soft pink flowers	.75
Lithospermum prostratum (Heavenly Blue) —Mat of evergreen foliage with intense blue flowers	.50
Lotus corniculatus Fl. Pl. —Creeping mat of clover-like leaves with red buds and double yellow flowers.....	.25
Lychnis Alpina —Tight tufted leaves with heads of pink blossoms	.25
Lychnis Viscaria flore pleno —Double rose flowers. Fine for rockery. 10 in. May-June	.35
Lychnis Viscaria —Single rose. 12 in. May-June	.35
Meconopsis Baylei —The glorious new sky-blue poppy from Thibet, semi-double with yellow anthers	.35
Mertensia —Pale blue flowers with sea-green foliage. 18 in.	.25
Michaelmas Daisies (Hardy Asters) —Showy fall-blooming perennials. Valuable for cutting when other flowers are past their best. Feltham Blue, Blue Climax, Purple or Rose. 48 ins. Sept.-Oct.	.30
Dwarf Lavender	.35
Myosotis Rosea —Rose-colored forget-me-not	.20
Nepeta Mussini —An evergreen border or rock plant with greyish green foliage and myriads of small lavender flower spikes. Blooms all Summer. Most satisfactory....	.25
Oenothera Missouriensis (Evening Primrose) —Excellent for sunny position in rockery or border. Large yellow flowers from prostrate ascending branches. Solitary flowers often 4 ins. across	.35
Pachysandra Terminalis —Hardy with yellowish flowers on procumbent stems	.25
Papaver Coonara —The new pink Iceland poppy	.25
Penstemon Heterophyllus —Loveliest of all penstemons. Dainty trumpets of tender blue with a sheen of amethyst. 15 ins.	.25
Phlox Adsurgens —Creeping evergreen with pink flowers. June-July	.35
Phlox Amoena —Dark green foliage. Creeping. Bright rose flowers	.25
Phlox Subulata —The well known Moss Pink with evergreen foliage hid under masses of bloom. Pink	.25
Phlox—The Sprite —Same as above with pale pink flowers. Lovely	.25
Physostegia Virginica —Spikes of tubular pink flowers all Summer	.25
Phyteuma (Rampion) Scheuchzeri —Dense heads of blue flowers. 8 in.	.25
Plumbago Larpentae —A most desirable evergreen border or rock plant. Of dwarf spreading habit with deep blue flowers during Summer and Fall. 6 to 8 in.	.35
Platycodon Mariesii —A beautiful dwarf with broad thick foliage and fleshy-looking bells in varying shades of blue. 15 ins.	.35
Potentilla Tonguei —Strawberry-like leaves. Apricot yellow flowers. 6 in. July until frost	.35

Saponaria Ocymoides Splendens —Mounds of lovely little pink blossoms. No rock garden is perfect without it. Also splendid to plant in wall with Aubrietia. 6 in. May-June	.25
Saxifraga Andrewsii	.35
Saxifraga Beauty of Ronsdorf —Mossy variety. Large bright red flowers fluted on the edges	.35
Saxifraga Cordifolia —Broad green heavy foliage, grows in large rosettes with tall stems of rose pink pendant flowers in bunches. 15 to 18 ins. Very early in the Spring....	.35
Saxifraga Cotyledon Pyramidalis —Very large rosettes of leaves and spikes of creamy blossoms. Fine for rockwork	.35
Saxifraga Flavescens —Beautiful tufts of encrusted foliage and spikes of pale yellow flowers.	.35
Saxifraga Mossy Improved —Tall pink bell-like flowers above moss-like evergreen foliage	.25
Saxifraga Mossy White	.25
Saxifraga Umbrosa (Pride of London) —Pink and white flowers	.25
Scabiosa Caucasica —A soft shade of lavender blue. Good for cutting. 18 ins. May-Oct.	.35
Sedum Anglicum —Grey green foliage with white or rosy tinted blossoms. 2 in. July	.25
Sedum Cristatum —Very interesting form with little cockscomb-like crests of green foliage. Yellow flowers.....	.25
Sedum Dasyphyllum —Very choice and dainty. Bluish foliage with small delicate flowers of white or white pink.....	.25
Sedum Ibericum —Bronze red foliage with lovely pink blossoms	.25
Sedum Kamschatsicum —Fleshy foliage with large orange blossoms. Splendid for walls or corner of steps	.35
Sedum Oreganum —Narrow bright green foliage turning red in late Summer. Flowers yellow	.25
Sedum Pruniatum Forsterianum —Bluish green leaves of trailing habit. Golden yellow flowers.....	.25
Sedum San Juan —Has round fleshy leaves on reddish stems	.25
Sedum Sarmmentosum —The best sedum for filling seams between rocks in wall garden	.20
Sedum Spectabile —Head of pink flowers. 16 in.	.25
Sedum Sieboldi —Round succulent glaucous foliage; bright pink flowers. Aug.-Sept.	.25
Sedum Spathulifolium —Large rosettes of deep rose foliage. Yellow flowers in early Spring. Choice	.35
Sempervivum Arachnoideum —Most interesting colonies of beautiful little grey rosettes covered with spider-web-like threads. Rose colored flowers. Lovely between rocks.....	.25
Sempervivum Arachnoideum Minor —Same as above, only much smaller	.25
Sempervivum hirtum —Same as above without webs. Yellow flowers	.25
Sempervivum soboliferum (Hen and Chickens) —New rosettes attached to parent by a slender thread	.25
Sempervivum tectorum —Has large succulent leaves with red tips	.20
Soldanella —Hardy alpine perennial with rounded heart-shaped leaves and drooping flowers	.50
Statice Latifolia —A handsome plant with tufts of leathery leaves. Immense heads of lavender-blue minute flowers. Fine for cutting and lasts well when dried. 18ins. July-Aug.	.35
Statice Minuta —Similar to above but very small	.50
Thymus Serpyllum Coccineus —Dense mass of tiny dark green leaves. Flowers red. 2 to 8 in. June-July.....	.25
Thymus Serpyllum Album —White flowers	.25
Thymus Lanuginosus —Woolly foliage with bright pink flowers. Use between stepping stones	.25
Trollius Deep Orange —A glorious flower like a giant but-tercup. A gem for the flower border. 1 to 2 ft. May-Sept.	.50
Trollius Moon Yellow —Exquisite	.50

Trollius—Buttercup Yellow	.25
Tunica Saxifraga —Produces a mist of dainty pink flowers throughout the Summer. Fine for rockery. 8 in. July-Aug.	.35
Tunica Saxifraga Fl. Pl. —Too much cannot be said in praise of this exquisite new flower with its clouds of cattelya pink blossoms like miniature roses	.50
Veronica Incanna Glauca —Bright silvery foliage with slender spikes of amethyst blue flowers	.20
Veronica Prostrata —Mats of dark green foliage covered with dainty blue spikes. 5 in. May-June	.25
Veronica Repens —Flat creeper with light blue flowers. Good for carpeting	.25
Veronica Saxitilis —Dark evergreen foliage. Dark blue blossoms. 4 in. July-Aug.	.25
Violets—White. Lovely for rockery. Fragrant	.25
Viola Jersey Gem —Of compact habit of growth with flowers of a pure violet on stems about 6 in. long. Good for cutting. 8 ins. June-Oct.	.25
Viola White Jersey Gem —Clear white sport of the popular Jersey Gem	.35
Viola—Jersey Jewel —Flowers about twice the size of Jersey Gem and of a beautiful velvety purple. Does best in full sunshine. 8 in. June-Oct.	.25
Viola Pride of Seattle —Rich purple and yellow with dark veins	.25
Viola Blue Boy —Very large and lovely. Light blue. One of the best	.25
Viola Ovidia Nevill —A sport of Blue Boy and Jersey Jewel, the two upper petals purple like Jewel, and the three lower ones light lavender. Large and good and very fragrant	.25
Viola Bosniaca —A true violet. Deep rose. Very attractive	.25
Viola Blanda —Charming little heavenly blue violas	.25

COLLECTION OF CHOICE LOW-GROWING ALPINES

2 Thymes (1 rose and 1 white)	.50
1 Campanula pusilla alba	.35
1 Campanula turbinata	.50
2 Mossy Saxifrage (1 pink and 1 white)	.50
1 Helianthemum (Sun Rose)	.35
1 Saponaria Ocymoides	.25
1 Hypericum Henryi	.35
2 Violas of different colors	.50

\$3.30 value for.....\$2.50

Remember that we pay the postage on all orders over \$1.00

The price per doz. of all plants listed is Ten Times the price of one

We have mailed primroses in every month from March to November—all over the United States. They may be shipped when in flower and will keep on blooming in their new home without any interruption.

Plant either in Spring or Autumn when the temperature is not too great, and be sure to plant in partial shade which protects from the afternoon sun.

Have the soil deep and rich and the results will surprise you, as no plants respond more freely than primroses to good treatment.

Be sure and try Orange Glory. It is of magnificent color and blooms both in the Spring and Autumn, and is extremely fragrant.

Do not forget Hellebore Niger.
