PERENNIALS AND ROCK GARDEN PLANTS

GROWN IN THE OZARKS

Prices are quoted on three of a kind, postpaid, for the reason that more than one plant is nearly always needed and the price is so little that we can't afford to pack and ship one alone. All plants are heavy, field or pot grown and will give quick, satisfactory results.

AQUILEGIA, Columbine. Grandiflora, all colors. 3 for 50c. Long spurred hybrids, all colors, 3, 65c.

ACHILLEA, Milfoil. Boule de Nieve, white, double. Millefolium Roseum, rosy pink flowers, July to October, Either variety, 3 for 50c.

ALYSSUM SAXATILE COMPACTUM. Dwarf drouth resistant, completely covered for a long time in Spring and Early Summer with bright yellow flowers. 3 for 50c. Doz. \$1.50.

ANTHEMIS KELWAYI, Tinctoria, 2 ft. handsome, finely cut foliage and large, golden yellow flowers produced all summer. 3 for 50c.

AUBRIETIA, Purple Rock Cress. One of the most beautiful of all dwarf, creeping rock plants for carpeting beds or massing with Alyssum or Sedums. 3 for 65c.

ARTIMESIA SILVER KING, Silver gray foliage and stems, growing to a height of about three feet. For landscape effect from early summer till late fall and even into the winter. Artimesia is a most outstanding plant. Unexcelled as a misty filler with cut flowers and in florists design work.. Thrives in any garden soil, is practically drought proof and when ripened in late summer, may be cut and dried for winter use. Strong pot grown plants from cuttings in Springs. Each 25c.

BUDDLEI Magnifica. Sometimes classed as a shrub, but a true herbaceous perennial. 4 to 6 feet and covered all summer with fragrant lilac like spikes of bloom. Each 50c. 3 for \$1.00.

DESMODIUM PEDULIFOLIUM. Bush Clover. Slender, drooping branches, three to five feet long, covered their entire length with purple flowers from midsummer on. Each 40c| 3 for 80c.

CAMPANULA Carpatica, Carpathian Harebell. Unsurpassed as a border or rock plant. 8 inches high, in bloom all summer with clear blue, bell like flowers, drouth resistant. 3 for 75c.

DAISY, Early Elder. In bloom for Mothers' Day and continuing on through Memorial day, May 30, 3 for 40c. Dozen for \$1.00.

EUPATORIUM COELESTINUM, Hardy Ageratum. Splendid for border, edging or rock garden. Foliage almost entirely hidden by the mass of mist blue flowers from midsummer on. Very hardy and drouth resistant. 3 for 40c. Dozen, \$1.00.

ERYNGINUM AMETHISTINUM, Sea Holly. Blue thistle. Rigid, spiny leaves and thistle like flowers surrounded by spiny bracts of steel blue. Beautiful novelty. 3 for 85c.

FESTUCA GLAUCA. Dwarf ornamental grass of a deep glaucous blue. Something entirely different for the rockery or as an edging plant. 3 for 50c. Dozen, \$1.00.

FUNKIA SUBCORDATA GRANDIFLORA. White Plaintain Lily. Large, pure white, lily shaped flowers in midsummer. Thrives in shade. Each, 50c. Three for \$1.00.

GOLDEN GLOW. Large double yellow flowers on tall stems in Summer. Good background and good cut flowers. 3 for 40c.

HEMEROCALLIS, Day Lily. Beautiful hardy perennials belonging to the Lily order. Flava (Lemon Lily) Sweet scented, clear Yellow. 3 for 65c. Dr. Regal, Rich orange yellow flowers, very fragrant. 3 for 65c. Quanso, Double orange flowers, 3, 50c.

HOLLYHOCK, Althea Rosea. Double, mixed colors. 3 for 65c. Dozen \$1.50.

HESPERIS MATRONALIS, Sweet Rocket. Fragrant purple flowers freely produced in showy spikes two to three feet tall in early Summer. 3 for 40c. Dozen, \$1.00.

LYTHRUM ROSEUM SUPERBUM, Loosetrife. Dense spikes of rosy purple, three feet tall, all Summer. Grows into large clumps. Excellent. 3 for 50c.

LYCHNIS VISCARIA SPLENDINS. Catchfly. 12 inches tall, flowering most profusely for a long period in midsummer. Rosy pink in color and a good cut flower. 3 for 50c.

LINUM PERRENNE, Blue Flax. Very attractive both in foliage and flower. Flowers are pale blue on slender stems and completely cover the plant. 3 for 50c.

MYOSOTIS PALUSTRIS, For-get-me-not. Rich blue flowers with yellow eye. Suited to moist shady positions. Ideal for the edge of the Lily pool. 3 for 50c.

NEPETA, Mussini. An excellent plant for any position, but especially useful in the Rock Gardens, Dwarf, compact, producing masses of bloom of a beautiful lavender all Spring and through most of the Summer. 3 for 65c.

PHYSOSTEGIA, Virginica. Form large clumps three to four feet tall, bearing long spikes of delicate pink flowers in midsummer. 3 for 50c.

PHYSOSTEGIA, Vivid. A new dwarf variety 20 inches tall and blooming three weeks later than Virginica. Flowers a much deeper pink. Both good cut flowers. 3 for 65c.

PLATYCODON GRANDIFLORA, Chinese Bell Flower. Large, showy, deep blue flowers are produced on twenty inch spikes all Summer. Splendid for the Hardy border. 3 for 50c. Dozen, \$1.00.

PENTSEMON Barbatus Torreyi. Spikes two feet long of bright scarlet flowers, June till August. 3 for 50c.

POLEMONIUM, Jacobs Ladder or Greek Valerian. Reptans. Dwarf, bushy plant with graceful pinnate foliage and showy blue flowers six inches high in early Summer. Excellent for shady spots in the border or rockery. 3 for 50c.

PHYSALIS FRENCHETI, Chinese Lantern plant. An ornamental variety of the Winter Cherry forming dense bushes and producing freely its bright orange scarlet, lantern like fruits, which, when cut will last all winter. 3 for 50c. Dozen, \$1.00.

SANTOLINA, Lavender Cotton, Ground Cypress. A sweet smelling, dwarf evergreen perennial, with delicate, silvery white foliage. Useful as a rockery or border plant and also as an edging to walks and flower beds. Large clumps 50c each. Smaller one year old plants, three for 65c. Dozen \$1.50.

STOKESIA, Stokes hardy aster. Cornflower aster *Cyanea Coerulea*, Beautiful corn flower like flowers profusely produced on 18 inch stems from midsummer till Autumn. Lovely for cutting, for the Rock Garden or border. One of the best late Summer flowering hardy plants. 3 for 65c.

SWEET WIVELSFIELD, An improved, ever-blooming Sweet William. All the good qualities of the old Sweet William, but larger flowers, a greater variety of color and a profuse bloomer from Spring until hard freezing in the Fall. One of the most valuable additions to our gardens in many years. 3 for 50c.

SCABIOSA, Pincushion flower, Perennial type. *Caucasica*. Flowers are charming shade of lavender, on stems 18 to 24 inches and continuing from June to September. An excellent cut flower and border plant. 3 for 75c.

SEDUMS. See special Sedum list.

VERONICA, Longifolia Subsellis. 2 feet. Blooms July to September. One of the best blue flowering plants. Perfectly hardy. Spikes completely studded with blue flowers. Fine for cutting. 3 for 75c.

VERONICA RUPESTRIS. Fine Rock plant growing 3 to 4 inches high with deep green, thickly matted foliage, that is almost completely hidden in early summer under a cloud of bright blue flowers. Thrives in shade or Sun and useful in border, rockery or as a ground cover. 3 for 50c.

VERBENA Canadense. Native, hardy, ever-blooming variety that responds wonderfully to cultivation. Bright rosy purple flowers from early Spring till Fall. Drouth resistant and hardy against cold. Most desirable in the Rock garden. 3 for 50c. Dozen, \$1.00.

VERBENA Venosa. A creeping variety, perfectly hardy and in bloom all Summer. Flowers purplish blue. Good for permanent beds in warm, sunny corners, 3 for 50c.

DWARF IRIS (Pumila)

A race of dwarf, very early flowering iris that have a place in the Rock garden and in front of the hardy border, or as an edging to beds of the taller varieties. Dainty little plants, four to ten inches tall and blooming with the daffodils.

ATROVIOLACEA, Rich purple, free flowering and early.

NEGUS. Dark Purple.

AUREA MACULATA, Yellow, slightly marked purple.

MAROCAIN. Rich Purple.

PRAIRIE GEM, Yellow.

BRIDESMAID, White, marked blue and yellow.

All the above uniformly priced, 3 for 50c. Dozen for \$1.25.

CRISTATA, A native creeping species, 3 or 4 inches high with flowers of rich amethyst blue in early Spring. A gem for a shady spot in the rock garden. Will form a solid mat of flowers that are very beautiful. 3 for 65c.

Hardy perennials may be planted any time during Fall, Winter and Spring when the soil is not frozen or too wet. Very early flowering sorts are better planted in Fall or early Winter, but pot grown plants may go in the ground at any time during the year. Most of them require an ordinary garden soil but insist upon perfect drainage. With few exceptions they suffer from wet feet and are a failure in heavy, wet clayey soils. A gritty, gravelly soil with an abundance of humus or leaf mold is pleasing to most all of them.

"Ozark grown" plants and perennials are healthy vigorous and full of pep. All they ask of you is a fair chance to do their stuff. If you don't see what you want listed, ask us. We can probably get it for you.
