Ruedlinger Nursery

STANDS FOR

“Quality” and “Service”

IN DEALING with us you are patronizing a local concern of reputation and responsibility, carried on under my personal supervision.

We are fully equipped to do all kinds of landscape work—grading, building tennis courts, rock gardens, pools, waterfalls, roads, moving large trees, pruning of shrubs, tree work, and everything in connection with the beautification of home grounds.

We have in our organization only experienced men who have been with us for years.

We are pleased at all times to have you visit our nursery, where we have on display the finest selection of Evergreens, Shrubs and Trees. We also have a display of Rock Gardens, Pools and so forth which are planted out with suitable Alpine plants. We also have garden accessories, stepping stones and rocks suitable for Rock Garden construction.

We have an annual Tulip show where the finest and newest Tulips are displayed.

In thanking you for your confidence in the past we again offer to you our efficient and satisfactory service which we believe responsible for the yearly increase in the business of the R U E D L I N G E R NURSERY.

C. N. RUEDLINGER.

EVERGREENS

Koster, large sizes only									
Taxus, Canadensis	3.50								
Cuspidata	4.00								

Above prices include digging with ball and burlap.
Prices for larger sizes of above evergreens on application.

Evergreens are the aristocrats of the home grounds. There is not a group of plants that holds for its admirers quite the charm that the Evergreens do.

Great care should be taken in making selections for planting in front of the house to get the proper varieties. We will gladly plan your Evergreen plantings. Don't forget to include an Evergreen for a living Christmas tree.

Our Evergreens are all dug with a ball of earth and securely tied with burlap. Our soil at the Nursery is of such nature that we can dig our Evergreens with solid balls of earth.

We are fully equipped to move large Evergreens and other trees.

SHADE AND ORNAMENTAL TREES

The pruning of Shrubs and Trees is one of the most important things to be taken into consideration. Pruning often acts as a tonic for sick shrubs and trees but needs to be done by people who are familiar with shrub and tree life.

Our many years of experience as Nurserymen and Foresters will assure you of proper and efficient service in all kinds of forestry, spraying, tree pruning, cavity work and so forth.

We are equipped to do tree surgery and all kinds of other work pertaining to the well-being of trees.
