Bulletin **Wholesale Trade List** **Sept. 1st**
Fall-No.1. **1932**

Stock offered subject to prior sale; these prices cancel all prior lists

TERMS

Orders from unknown correspondents must be accompanied by cash or satisfactory reference.

Nursery stock, due Dec. 1st, net, Greenhouse stock, 60 days net; 2% 10 days. Orders to be sent C. O. D. must be accompanied by cash to one-fourth of the value of goods ordered, to guarantee acceptance.

Prices. 5 of a kind will be furnished at dozen or ten rate, 25 at hundred rate, and 250 at thousand rate if listed. Less than 5 of a kind is not wholesale; but will be computed at such discount from retail prices as character of the order justifies.

Packing. Charges for boxes and bales of Trees, Shrubs, Etc.

12x12 inches.. \$1.25	Boxes are 8 or 10 feet long.
14x14 inches.. 1.50	
16x16 inches.. 1.75	Add 50 cts. extra for
18x18 inches.. 2.00	12 foot length.
20x20 inches.. 2.25	Paper lining extra at
24x24 inches.. 2.50	cost.
28x28 inches.. 3.00	Bales—35 cts. to \$4.00,
30x30 inches.. 3.50	according to size.

Shipments. Our responsibility for delivery of stock ends when shipment has been delivered in good condition to the transportation company. If stock is not received in good condition, any claim for adjustment of loss or damage is a matter between the consignee and carrier.

Non-Warranty. While we hold ourselves in readiness, on proper proof, to replace free of charge all trees, etc., that may prove untrue to label, or refund the amount paid, we give no warranty expressed or implied as to description, quality, productiveness or any other matter of any Nursery stock, seeds, bulbs, or plants we sell.

PHLOX SUBULATA ATROPURPUREA (New)

Here is a distinctive new introduction which adds much to the dignity and desirability of the creeping phlox group. Its lavish flower expanse stands out preeminent during the spring season of its class—the rich wine-color of B. Comte, slightly darker at the eye. Strong field grown.

" Barbatus (Sweet William). 2-2½'. 4 colors. Midsummer.		.60	4.00
" Deltoides (Maiden Pink). 18". Little coral pink spikes. May-June.		.60	4.00
<p>NEW HYBRID HARDY PINK—Furst Bismarck. In constant luxurious bloom from early June till frozen in late November. The color is an even rose pink; the heavy clusters easily mistaken for polyantha roses in prime. There could be no more delightful or practical dwarf border subject, the height averaging about one foot. Does well under rockery conditions, and makes one of the most valuable pink flowering plants for that purpose.</p>

HARDY PERENNIAL PLANTS—Continued

PACHYSANDRA TERMINALIS—Japanese Spurge. An evergreen ground cover unsurpassed for its adaptability to all situations and conditions. Chief among its many uses, we recommend it for planting under evergreens and shrubs. As a border for walks and drives it is most attractive. Also splendid for steep slopes in sun or shade, and for dense shade under any kind of trees. Pachysandra is the only plant to thrive under pine trees. It forms a thick mat of clean, green foliage attaining a height of about 8 inches.....

Spectabills —18”. Large rubbery gray leaves; lavender flower cymes.....	.70	5.00
“ Brilliant —18”. Crimson flower cymes.....	.70	5.00
Spurium Coccineum —6-8”. Thrifty, loose growth with kite-shaped leaves. Upright crimson panicles, May-June.....	.80	6.00

FLORISTS' FORCING STOCK

XXX Florists' XXX Forcing Roses

Complete listing of our well known XXX grade of fine forcing varieties, on pages 6 and 7.

Perennials for Forcing.

ASTILBE (Spirea)

Make wonderful blooming plants that are very showy for Easter and Mothers' Day Sales. Can also be used for cut flowers. Water copiously, they should not be allowed to become dry. When growth appears in January move onto a sunny bench about 55° temperature, possibly a few more degrees heat in March to push blooming. They cannot stand heavy fumigating.

America—Early rose pink.

Amethyst—Delicate early silver pink.

Gloria—Deep rose.

Peachblossom—Compact; peach pink.

Princess Mary—Earliest forcer; bright red.

Queen Alexandra—Extra large, bright pink.

Rhineland—Bright crimson shaded salmon

Heavy forcing clumps for Nov.-Dec. delivery—
\$3.00 per 12; \$20.00 per 100; \$180.00 per 1000.

DELPHINIUM (Larkspur)

In the general list of hardy perennials we offer various strains of this delightful family; but select only two old standbys—**Belladonna** (sky blue), and **Bellamosa** (dark blue)—as the perfect types for winter forcing. Care for them as advised for Digitalis. Bench our selected strong 1 year clumps in November or December—even as late as February—and provide your customers a line of out-of-season bloom spikes to rave about. Price—**\$8.00 per 100; \$60.00 per 1000.**

DICENTRA SPECTABILIS

The well known "Bleeding Heart" profitably commercializes sentiment, when prepared and advertised for Valentine Day. Potted up eight weeks before needed, they will come in on time. Require merely plenty of water, and temperature 55-60°. XX forcing grade—**\$16.00 per 100.** (November delivery).

DIGITALIS (Foxglove)

The heavy Foxglove spikes are familiar in summer gardens, but have you tried them yet for winter bloom? They can be forced easily in a cool house (Carnation temperature). Space them 18-24 inches apart, to allow the soil to dry out. Watering carefully is important; as no water should touch the center of the plant. A light feeding after plants are well established, benefits quality of the flower spikes. **Giant Shirley Hybrids**—selected f. g. plants, **\$8.00 per 100.**

DORONICUM EXCELSUM

The single daisy-like flowers are long stemmed, evenly and closely rayed, 3 inches across, a sales-inspiring yellow shade. Use fairly good soil (old mum soil is O. K.). First batch brought in Oct. 15 to Nov. 1, will cover Christmas to Easter sales. It blooms six weeks after greenhouse planting, flowering for three weeks, resting three weeks, and then producing another crop. Field grown plants—**\$15.00 per 100.**

Funkia Undulata Variegata

Extensively used in the make-up of fancy winter baskets, and freely sold as pot plants. It takes three to four weeks after potting to bring out the strong cream and white variegation in its tender greens. Use plenty of water, but keep foliage dry. 50-60°. XX f. g. clumps—**\$10.00 per 100.**

GERBERA JAMESONI

The Lovely "Transvaal Daisy"

A wonder for winter cut-flowers. Grow it in a light, well-ventilated house with a night temperature 45-48°, and by day not higher than 60°. Soil should be light, not too rich, and very well drained. After plants have taken hold, they may be fed with liquid manure; or mulch with strawy cow-manure. Gerberas do not like much water, so avoid wetting the hearts of the plant, and apply early enough to ensure their drying out before night. In cutting, it is important to leave at least three inches of stem; to avoid the danger from a shorter stump drying-in (which, if it reached the roots, would prevent further growth).

Flowers are on the order of single Pyrethrums, with long, stiff stems. Pastel shades range from blue to orange red, but are dominantly a soft coral or salmon red. Pot grown plants—**\$8.00 per 100.**

Forcing Bulbs

FREESIA—COLORED VARIETIES 5/8—3/4-inch

Purity	Waxy white, fragrant, productive, of finest quality.	Per 100	Per 1000
