DALEWOOD NURSERIES

ARTHUR A. DUGDALE
Ornamental Nursery Stock
Landscape Service
ASHLAND, VA.

Foreword

The Dalewood Nurseries present this price list trusting that it will be of interest to you. Please accept our thanks for your patronage and we sincerely hope that we may have the pleasure of serving you during the approaching season. In preparing this list we have purposely omitted lengthy descriptions and color cuts, to enable us to offer you our first class stock at these attractive prices. See our descriptive catalogue for detailed information.

It is our aim and ambition to produce and sell to you ornamental nursery stock of the highest quality at reasonable prices. We believe that the best is none too good for our customers. Every order has the personal attention of the writer, and each plant is freshly dug when delivery is made.

Sincerely yours,

ARTHUR A. DUGDALE.

Telephone—Ashland 16-J

Location

Our main nursery and offices are located on the Richmond-Washington highway (U. S. No. 1) two and one-half miles north of Ashland, Va. We have recently acquired this splendid location, affording natural beauty and a variety of soils. A beautiful lake on the rear of the property furnishes an ideal location for naturalistic water-gardening. You are cordially invited to visit our nurseries. Our original office and sales lot is on James Street in Ashland, where samples of varieties of shrubs and evergreens and many perennials may be seen.

Read Carefully Before Sending Order

Guarantee and Responsibility

We guarantee our trees and plants to be in a healthy, vigorous condition, free from disease and insect pests, when leaving our nursery. We use every care and precaution to have our plants true to label and description, and replace, free of charge, any stock that should prove to be otherwise. However, it is mutually agreed that we are in no way responsible for an amount greater than the original purchase price of the stock.

Replacements

The future success of nursery stock is dependent upon proper planting, soil, and weather conditions, and various other factors beyond our control, therefore we can not assume full responsibility for any plants that should fail to live. However, if the patron wishes to replant, we allow a liberal discount on "replacement" orders.

Terms

Cash with order, unless otherwise arranged. When financial responsibility of customer is known to us, or when satisfactory references are furnished, orders will be booked and delivered, with the mutual understanding that payments for full amount of invoice will be made within thirty days from date of delivery.

Rates and Prices

We furnish six plants of the same variety and size at the dozen rate, and twenty-five plants (same variety and size) at hundred rate. Where dozen rate is not given, this amounts to the "each" price of ten plants of same variety and size. Prices in this catalogue are "F. O. B." Ashland, Virginia.

Delivery and Claims

Small orders may be sent Parcel Post. When this is desired, add 5% of amount of order to cover postage. Delivery is made within five miles of Ashland, Virginia, free of charge, and within a radius of twenty-five miles at a nominal cost, for small orders.

It is understood that we do not assume responsibility for damage done to stock while in the hands of transportation companies. All claims will be given our prompt attention, provided they are made not later than ten days after receipt of stock.

Certificate of Inspection

A certificate of inspection, from the State Entomologist, to the effect that our nursery stock and premises are free from dangerous plant diseases and insect pests, accompanies every shipment of stock.

Planting Service

When the customer desires our planting services, satisfactory arrangements can be made. We assume full responsibility for the life of the plants during the first year. It is necessary for us to make a small additional charge for this service. Ask us about our planting and maintenance service.

New and Additional Varieties

We can furnish many varieties not listed herein, in small quantities. Give us an opportunity to be of service to you.

Specimen Plants

Specimen plants are priced according to their individual value.

Coniferous Evergreens
