Das Inhaltsverzeichnis, welches sich im zweiten Band der *Bibliotheca Botanica* Hallers findet, ist in der botanischen und bibliographischen Literatur gar oft kritisch beleuchtet worden. Während alle Forscher, welche imstande waren, den Inhalt des Werkes zu beurteilen, ohne Ausnahme die *Bibliotheca Botanica* als eine Arbeit von grösster Bedeutung und von dauerndem Wert ansahen, sind sie darüber ganz einig, dass das Inhaltsverzeichnis dem Werke nicht entspricht. *Petzholdt, Meyer, Henckel von Donnersmarck, Pritzel und Jackson*, die sich alle mehr oder weniger auf dem Gebiete der botanischen Bibliographie bewegten, und denen *Hallers* Arbeit unentbehrlich war, sind darüber ganz einig, dass der Gebrauch derselben durch eine Unmenge von Druckfehlern, Lücken und Fehlschreibungen, die in dem gedruckten Inhaltsverzeichnisse vorkommen, sehr erschwert wird. *Ernst Meyer*, der die *Bibliotheca* sonst als « ein[en] stupende[n] Schatz literarischer Nachrichten » ansieht, spricht sich in folgender Weise aus: « Besonders das bei seiner chronologischen Anordnung so unentbehrliche Register wimmelt nicht allein von Druckfehlern, sondern . . . es enthält eine Menge Namen von Schriftstellern, die gar nicht im Werke vorkommen, eine Tatsache, auf die Herr *Dr. Pritzel* selbst mich erst aufmerksam machte, und die ich nicht glauben wollte, bis ich mich durch eigenes Nachsehen vollständig davon überzeugt habe » (Bot. Zeit. Jahrg. 7, 1849, S. 290). — In seiner ausgezeichneten, jetzt noch gültigen Methodologie « Ueber botanische Bücher-

kunde » (Bot. Zeit. Jahrg. 9, 1851, S. 785—792, 801—808) wiederholt Graf *Henckel von Donnersmarck* dieselbe Beschwerde.

Dieser Einwand ist sowohl berechtigt als unberechtigt. Es hat sich wohl erst jetzt durch meine gegenwärtige Arbeit erwiesen, dass man im Register etwa 800 Namen findet, die nicht auf den angeführten Seitenzahlen zu finden sind, — sondern an anderen Stellen. Das Register enthält aber kaum ein Dutzend Namen, die nirgendwo im Werke vorkommen. Es muss sodann verneint werden, dass im Register eine nennenswerte Zahl von Namen vorkommt, die im Texte fehlen.

Hervorzuheben ist aber zu gleicher Zeit, dass sich unter den 6000 Namen mit den daran geknüpften 7500 Nachweisungen, die das Register enthält, etwa 1200 Druckfehler, Fehlschreibungen etc. befinden und dass etwa 900 Namen, die im Texte vorkommen, nicht in das Register aufgenommen sind.

Hierdurch findet die Publikation eines neuen Inhaltsverzeichnisses zum Teil ihre Berechtigung. Was an Berechtigung fehlt, ergibt sich daraus, dass noch heutigen Tages Hallers *Bibliotheca Botanica* als « das reichhaltigste Hilfsmittel für die Geschichte der Botanik » (*Meyer*, Gesch. d. Bot. I, 1854, p. 2) in den botanischen Bibliotheken und in den literarischen und antiquarischen Werkstätten stetig benutzt wird.

Seit achtzehn Jahren gehört die *Bibliotheca* zu den Hilfsmitteln, die immer in meiner Nähe sind. In dem zu meinem Exemplare gehörigen Index habe ich von Zeit zu Zeit Verbesserungen eingetragen, anfangs nur, weil ja die Korrektur von Druckfehlern dem Bibliographen ohne weiteres in der Feder sitzt, später auch in dem Gedanken, eine Emendationsliste zu veröffentlichen. Indessen kam die Bizentennarfeier immer näher, und als ich die Verbesserungen und Zusätze zu sammeln anfang, um dieselben in bescheidener Weise zu veröffentlichen, über-

wältigte mich die Zahl derselben so sehr, dass die Herstellung eines ganz neuen Registers nicht nur der Sache besser dienlich schien, sondern auch dem Anlasse mehr passend.

Ich habe sodann das Werk, von dem Texte ausgehend, systematisch durchgearbeitet, jeden Namen mit seiner Zitation im Index verglichen, fehlende Namen auf Zetteln aufgeführt und schliesslich den Index gänzlich — auf Zettel — umgeschrieben. Die Methode dieser Arbeit ist von ähnlichen, in der Bibliotheksarbeit vorkommenden, nicht sehr verschieden, nur möchte ich daran erinnern, dass das neue Register sich dem Werke selbst eng anschliesst, und dass ich mithin nur ausnahmsweise, d. h. in etwa 200 Fällen, die Namensform verbessert habe, und zwar meistens da, wo *Hallers* Schreibweise im Vergleich mit der der *Bibliotheca Riviniana*, der *Bibl. Banks*, des *Cat. Brit. Mus.* und *Cat. Brit. Mus. (Nat. Hist.)* oder mit der *Seguiers*, *Pritzels* und *Ernst Meyers* minder korrekt schien, Aenderungen vorgenommen habe. Wo eine Einführung des vollen Namens irgend eines Autors nicht notwendig war, habe ich in Klammern die Jahreszahl seiner durchschnittlichen Tätigkeit angegeben.

Ich darf nicht hoffen, dass dieser neue Index alle Forderungen an Vollständigkeit erfüllt. Wenn aber damit der Gebrauch des monumentalen Werkes unseres Meisters erleichtert wird, scheint mir die zeitraubende Mühe wohl angewendet.
