PREFACE.

IN the present Catalogue are included the titles of all acquisitions to the Library of the ENTOMOLOGICAL SOCIETY OF LONDON since the publication of the last Catalogue in 1893. The most important additions have been derived from the Library of the late Mr. H. T. Stainton, F.R.S., his widow having bequeathed to the Society all books and pamphlets of which it did not possess a copy. The works received from this source are indicated in the following pages by a letter **S** after each title. They are of especial interest to the Fellows of the Society, as many of them formed part of the Library of James Francis Stephens, which passed intact into the possession of Mr. Stainton, who prepared and published a catalogue of these books in 1853. Another important acquisition to the Library is a large number of separate papers on Hemiptera, including some copied in MS., brought together by Mr. J. W. Douglas during a long series of years, and presented by Mr. McLachlan, F.R.S. These papers are bound up in twelve octavo volumes, and for facility of reference the volumes are quoted in the present Catalogue as arranged and paged by Mr. Douglas. Many books and separata have also been presented to the Library by various other Fellows of the Society, more particularly by Prof. Chr. Aurivillius, Hofr. C. Brunner v. Wattenwyl, Prof. A. Forel, Dr. H. de Saussure, Colonel Yerbury, and Messrs. W. F. H. Blandford (many separate works on economic entomology), A. S. Packard, and S. H. Scudder. The other additions have been acquired by purchase or exchange. The titles of all works given in the Appendix of the 1893 Catalogue (pp. 293—312) are incorporated in the present one, in their alphabetical sequence. As regards the periodicals, only the new ones are given.

LIBRARY REGULATIONS.

---

*(Extract from the Bye-Laws, as amended at a Special Meeting
held 1st December, 1886.)*

CHAP. XI.

1. No Fellow shall, without special permission of the Council, be allowed to borrow from the Library more than four volumes at one time, or, without leave of the Librarian, to retain any volume longer than one month.

2. If any book be torn, injured, lost, or not forthcoming when demanded by the Librarian, full compensation shall be made for the same by the borrower.

3. The Librarian shall call in all books borrowed from the Library on the 5th day of January and 5th day of July in each year ; and in case the same be not returned on or before the Ordinary Meeting of the Society in the following month, notice thereof shall be given by him to the Council, who shall then direct a second notice to be sent to the Fellow retaining any book, and in case the same be not returned within the further space of four weeks from the date of such second notice so sent, such Fellow shall in future be disqualified from borrowing books from the Library without the special permission of the Council.

4. The Library shall be open to the Fellows between the hours of one and six p.m. on every week-day, except Saturday, and on that day between one and three p.m.

5. No stranger shall be allowed access to the Library unless introduced by a Fellow ; but a note addressed to the Librarian or Secretary shall be deemed a sufficient introduction.

By order of the Council, certain books are not allowed to be taken out of the Library ; a list of these can be seen at the Society's Rooms.

The Library is open at the times stated above, and also on Meeting nights till 9.0 p.m.
