ALPHABETICAL HAND-LIST
OF
NEW ZEALAND TERTIARY MOLLUSCA.

BY
HENRY SUTER.

WELLINGTON, N.Z.
BY AUTHORITY: JOHN MACKAY, GOVERNMENT PRINTER.
1915.

233837

ALPHABETICAL HAND-LIST
OF
NEW ZEALAND TERTIARY MOLLUSCA.

BY
HENRY SUTER.

This hand-list is issued for the convenience of those who are engaged in the comparison of the fossils of different horizons or localities. In order that its usefulness may be as little as possible impaired in the near future by the addition of new species, it has been made to include a large number of "nomina nuda," new names applied to chirotypes which are now awaiting description.

Species now living are marked with an asterisk. Of these there are 282 out of a total of 751 species—i.e., 37·5 per cent.

New Zealand Geological Survey,
Wellington, June, 1915.

WELLINGTON, N.Z.
BY AUTHORITY: JOHN MACKAY, GOVERNMENT PRINTER.

1915.
