PREFACE.

THE specimens of MOLLUSCA and SHELLS marked B.M. in the following List, were received from the Executors of the late M. SOULEYET, as the type specimens described and figured in the "Histoire naturelle des Mollusques Ptéropodes, Monographie comprenant la description de toutes les espèces de ce groupe de Mollusques, par MM. P.-C.-A.-L. RANG et SOULEYET. Accompagnée de quinze planches coloriées. À Paris, 1852. Folio:" and in the "Voyage autour du Monde, exécuté pendant les années 1836 et 1837, sur la Corvette LA BONITE, commandée par M. Vaillant, Capitaine de vaisseau. Publié par ordre du Gouvernement, sous les auspices du Département de la Marine. Histoire Naturelle: Zoologie: par MM. EYDOUX et SOULEYET, Médecins de l'Expédition. Atlas. Paris. Folio."

The text of the Zoological part of the "Voyage" has not yet been published; but there is a detailed explanation of the Plates, with only the French names of the species, which are given in this Catalogue, with the Latin names used by LAMARCK, or given by M. SOULEYET, when the name occurs, in a small MS. list which accompanied the Collection, as being that which he intended to have used if he had lived to publish the descriptions.
