14. AUDUBON (JOHN J.). Album, containing Two ORIGINAL WATER-COLOR DRAWINGS by Audubon, designed for his "Birds of America." Inlaid, and bound with an Autograph Letter, signed, to General Houston, President of Texas. Folio, crushed green levant morocco.

TWO EXQUISITE DRAWINGS. The first represents "Bell's Vireo," and IS INITIALED AND DATED BY AUDUBON, Jan. 22, 1844. The other painting represents "Morton's Finch," INITIALED BY AUDUBON, DATED JUNE 8, 1844, AND WITH HIS PENCILLED NOTE "never before figured."

Both drawings are remarkable for the delicacy of their coloring and execution.

Inlaid, is an extremely fine and rare A. L. s., 1 p. folio, from the famous Naturalist to President Houston of Texas, introducing one of his assistants to him, and informing Gen. Houston of his having "undertaken in conjunction with my friend the Reverend John Bachman of Charleston, South Carolina, to publish a work incorporating all the Quadrupeds we can procure, along with their Figures or Representations, and again with their Histories" with other interesting particulars. The letter is dated Oct. 19, 1841.

A fine lithographed portrait of Audubon by D'Avignon and Brady, on INDIA PAPER, is bound up with the two drawings.

The drawings are the originals of plates 485 and 190 of the published work.

jects in life size. 4 vols., elephant folio, newly bound in half pig-skin. London: Published by the Author, 1827-38

A HANDSOME COPY OF THE ORIGINAL EDITION. With very few exceptions, the plates are in absolutely unspotted condition, and the coloring is very brilliant. The first and last plates are on heavier paper than the remainder, which has served to prevent the curling up of the end plates, a blemish which so frequently occurs.

Accompanying the set are the five volumes of "Ornithological Biography" Edinburgh, 1831-39, royal 8vo, uncut. There is also included, a copy of "A Synopsis of the Birds of North America," Edinburgh, 1839. 8vo, which is a companion volume to the foregoing. New York: Published by J. J. Audubon, 1845-48

THE RARE ORIGINAL EDITION. The plates are in particularly desirable state, and aside from the somewhat worn condition of the binding, is the crinkling of the title pages and one plate, which so frequently occurs in volumes of this size.

A COMPLETE SET OF GOULD'S WORKS

183. GOULD (JOHN). A Complete Set of the Ornithological and other Works of John Gould. 45 vols., folio, uniformly bound in full green levant morocco, gilt backs and borders (tooling slightly varied), gilt edges (a few bindings slightly scraped).

London, 1831-1888

THIS MAGNIFICENT SET IS TO EUROPE, ASIA, etc., WHAT THE FOLIO AUDUBON IS TO AMERICA. All the plates were drawn from the original specimens collected by Mr. Gould, and these models were afterwards deposited by him in the Museum of the Zoological Society at London.

A COMPLETE SET SUCH AS THIS, IN SUCH BRILLIANT AND WELL-PRESERVED CONDITION, with but very few blemishes on the plates, IS EXTREMELY UNCOMMON, AND DIFFICULT TO PROCURE. So complete was the absorption of these publications, that at the time of the death of the author, NOT ONE COPY OF THE "Birds of Europe" was in the Gould remainder stock. Of the "Birds of Australia" no perfect copy was left unsold, except the pattern copy, and of the "Birds of Great Britain" only four perfect original copies remained unsold.
