Abbot, Lieut. Henry L.

3. 1857 a General Report, General Description of the Regions
Examined. Report upon Explorations (in 1855)
for a Railroad Route, from the Sacramento Valley
to the Columbia River by Lieut. R.S.Williamson,
assisted by Lieut. Henry L. Abbot, Pt.1, pp.19-134
(Chaps. 1-4, pp.25-111), U.S.33rd Congr., 2nd sess.,
Sen.Ex.Doc., no.78, 1857.

Largely representative to and including 1918; but not ex-
haustive. Publications on mining and economic geology have been
examined only to the extent that this literature is listed in the
U.S.Geological Survey bibliography, and very little of that is
included. Also there are no entries from the early Spanish writings
and explorations.

** For delimitation of area comprising the Great Basin region
see Merriam, J.C., Trans.Amer.Philos.Soc..n.s., vol.22, pt.3, fig.25,
1915; Fenneman, Nevin M., Physiographic Divisions of the U.S.,
Ann.Assoc.Amer.Geographers, vol.6, pt.1, 1917. (Columbia Plateau
region, differentiated in latter, is included by Merriam in
Great Basin region.)

Report of a Reconnaissance and Surveys, on partial routes in California, Connected with the Surveys for Ascertaining the Most Practicable Railroad Route from the Mississippi River to the Pacific Ocean, under Command of Lieut. R.S. Williamson in 1853-1854. Published as a separate only, of House Ex.Doc.no.129, 33rd Congr., 1st.sess., 80 pp., ?July, ?1885.
- Williamson's Report was not published with the other parts of H.Ex.Doc.no.129, in vol.18, pt.2 of House Executive Documents, although Williamson's and Blake's reports are listed in Table of Contents of vol.18 as "Pt.x" of "Vol.iii" of House Pacific Railroad Reports; this vol.iii was never issued, and Pacific Railroad Reports, Pts.vii, ix, x, which were to constitute it, appear subsequently in augmented form in Senate doc.
- The date 1854 appearing in various bibliographies for Blake's Preliminary Report is an error; the date is probably 1855, but not earlier.
