Note No. 1 & 2 Please read Foot notes As under

(A) Figures in Cols. 6, 8, 10 & 11 Indicate Percentage of Net Area Sown

(B) Figures in Col. 5, 7 & 9 Indicate Percentage of Total No. of Holdings.

Note No. 3 Please read Foot note As under

As against 146,330 hecte. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net Irrigated area as per Agricultural census 1980-81 is 76973 hecte.

Such a large difference in Net Irrigated area is attributable to Ignoring or under reporting of Irrigated area under six crops viz. wheat, cotton, summer Bajri by field staff in Agricultural census 1980-81.

General Notes : Wherever the words "hactares" is to be printed please corret as "hectares"

AGRICULTURAL CENSUS 1980-81 GUJARAT STATE
EXPLANATORY NOTE ON STATISTICAL TABLES OF
AGRICULTURAL CENSUS 1980-81 VOLUME-II PART-I

Like earlier agricultural census data collected under the main agricultural census have been tabulated in six standard tables for the state as a whole and for each of the districts in the state. Unlike earlier Agricultural Census in the main Agricultural Census 1980-81 the data have been tabulated for scheduled caste operational holding and scheduled tribes operational holdings also. Thus the statistical tables of Agricultural Census 1980-81 are published in three different parts. In part-I six standard tables for all the operational holdings in general have been presented. While in part-II six standard tables pertaining to scheduled tribes operational holdings have been presented and in part-III six standard tables pertaining to scheduled castes operational holdings have been presented. Besides these six standard tables, separate tables showing percentages and inter-se percentages have been also presented in this publication.

The value of the upper limit of size class has been included in the next higher size class, in order to widen the scope of the data and increase their usefulness, for tabulation 13 size classes have been considered.

Since agricultural Census 1980-81 was a decennial Agricultural Census, the entire agricultural Census 1980-81 was done on the basis of 100% enumeration. In this vol. II Part-I only six standard tables for the state as a whole and for each of the districts of the state have been presented for all the operational holdings in general. Detailed discussion of the findings is dealt in vol. -I.

A brief description of the contents of each of the six standard tables is given below :

Table : 1

Number of operational holdings and area operated by them obtained on the basis of complete enumeration have been shown in table-1 (A). There are 13 size classes and the information on number of operational holdings and area operated by them is broken up into three categories viz. individual, joint and institutional holdings. On the basis of these absolute figures percentages have been derived and information of percentage distribution of number and area of operational holdings is presented in table-1 (B). Similarly inter-se percentage distribution of number and area of operational holdings is shown in table-1 (C).

Table : 2

Number and area of operational holdings by tenure and tenancy status according to 13 size classes arrived at on the basis of complete enumeration have been shown in table-2 (A). This information is shown categorywise viz. wholly owned, wholly rented and partly rented holdings. Information on leased in area by terms of leasing for both partly leased in holdings and wholly leased in holdings is presented in table-2 (B). Inter-se percentage distribution of number and area of operational holdings by tenure and tenancy status has been derived according to standard 13 size classes and is presented in table-2 (C).

Table : 3

Size class-wise area under six standard classes of land use have been shown in table-3 (A). The six standard land use classes considered for this classification and tabulation of data are :

- (1) Net sown area
- (2) Current fallow
- (3) Other uncultivated land (excluding fallow land)
- (4) Fallow land other than current fallow
- (5) Culturable waste land and
- (6) Land not available for cultivation.

On the basis of absolute area figures under different land use classes percentages have been derived and presented in table-3 (B). Similarly inter-se percentage distribution of area under different land use classes has been worked out and presented in table-3 (C)

Table 4

Size class-wise number and area of operational holdings classified according to three categories viz

- (1) Wholly irrigated,
- (2) Wholly unirrigated and

(3) Partly irrigated and Partly unirrigated holdings, have been shown in table-4(A). On the basis of absolute number and area of operational holdings by irrigation status, percentage distribution of number of operational holdings by irrigation status has been worked out and presented in table-4 (B). Similarly inter-se percentage distribution of number and area of operational holdings has been presented in table-4 (C).

As against net irrigated area of 20.02 lakh hec. as per State Season and Crop Report 1980-81 and net irrigated area as per agricultural census 1980-81 is only 14.33 lakh hec. Under reporting to such an extent in agricultural Census 1980-81 is attributable to mainly ignoring or under reporting of irrigated area under six crops, viz. wheat, cotton, spices and condiments, Fodder, Summer Bajri and Summer groundnut

Size class-wise number of operational holdings receiving irrigation and area irrigated by different sources of irrigation are shown in table 5 (A). Number of wells and tube-wells by size class have been shown in table-5 (B). Percentage distribution of number of operational holdings receiving irrigation and area irrigated by different sources by size class is presented in table-5 (C). Similarly inter-se percentage distribution of number of operational holdings receiving irrigation and area irrigated by different sources by size class is presented in table-5 (D).

As against net irrigated area of 20.02 lakhs hect. as per state season and crop report 1980-81 net irrigated area as per agricultural census 1980-81 is only 14.33 lakh hec. Under reporting to such an extent in agricultural census 1980-81 is mainly attributable to ignoring or irrigated area under six crops, viz. wheat, cotton, spices and condiments, fodder, summer-bajri & summer-Groundnut.

Table 6

Size class-wise number of holdings growing different crops and crop-wise area irrigated and unirrigated and total area are shown in table-6.

As against gross irrigated area of 23.34 lakhs. hec. according to state season and crop report 1980-81, gross irrigated area as per Agricultural Census 1980-81 is only 14.96 lakh hec. Such a large difference in gross irrigated area in two sets of figures is mainly due to under reporting of irrigated area under six crops in Agricultural Census viz. (1) Wheat, (2) Cotton, (3) Spices & Condiments, (4) Fodder crop, (5) S. Bajri and (6) S. Groundnut.

It appears that under reporting of gross irrigated area to such an extent in Agricultural Census 1980-81 is attributable to the fact that there is under reporting of irrigated area and ignoring of irrigated area in rabi and hot-weather crops like wheat, Cotton, Spices and condiments. Fodder crop, Summer Bajri and Summer-groundnut. Irrigated area under above six crops as per season and crop report 1980-81 and agricultural census 1980-81 and the difference is shown in following table.

(Area in hectares)

Name of the crop	Item		Difference (col 2 & 3)
	As per SCR	As per Agri-cultural Census	
	1980-81	1980-81	
1	2	3	4
1. Wheat	474100	223256	— 250844
2. Cotton	443500	258768	— 184732
3. Spices & condiments	134000	68087	— 65913
4 Fodder crop	106800	35300	— 71500
5. Summer Bajri	128000	3150	— 124850
6. Summer Groundnut	91300	14598	— 76702
Total	1377700	603159	— 774541

As against net irrigated area of 20.02 Lakh Hects. as per State Season and crop Report 1980-81 net irrigated area as per agricultural census 1980-81 is only 14.33 Lakh hects. Under reporting of net irrigated area to such an extent in agricultural census 1980-81 is attributable to ignoring or under reporting of irrigated area under six crops viz. (1) wheat, (2) cotton, (3) Spices and condiments, (4) Fooder crops. (5) Summer bajri, (6) Summer groundnut. by field staff in Agricultural Census 1980-81

Crop-wise Area as per season and crop report 1980-81 and as per Agril. Census 1980-81 (Area in hecets)				
Name of the crop	As per S.C.R. 1980-81	As per Agril. Census 80-81	Difference (col. 2-col. 3)	
Wheat	474100	232558	-250844	
Cotton	443500	258768	-184732	
Spices & condiments	134000	68087	- 65913	
Fodder crops	106800	35300	- 71500	
S. Bajri	128000	3150	-124850	
S. Groundnut	91300	14598	- 76702	
Total	1377700	603159	-774541	

As against gross irrigated area of 23.23 lakh hecets. As per state season and crop Report 1980-81, gross irrigated area as per Agricultural Census 1980-81 is only 14.96 lakh hecets... Such a large difference in gross irrigated area is mainly due to ignoring or under report or irrigated area under six crops, viz. (1) wheat, (2) cotton. (3) spices & condiments, (4) fodder crops. (5) summer-bajri, & (6) summer-groundnut by field staff in agricultural census 1980-81.

As against 93,800 hec. of net irrigated area as per district season and crop report 1980-81 of this district, net irrigated area as per Agricultural census 1980-81 is 76063 hec. Such a large difference in net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, summer-bajri by field staff in agricultural census 1980-81.

As against 10,9000 hect. of gross irrigated area as per district season and crop report 1980-81 of this district, gross irrigated area as Per Agricultural census 1980-81 of this district is 82094 hect. Such a large difference in gross irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, cotton, spices & condiments, fodder crops, summer-bajri & summer groundnut by field staff in agricultural census 1980-81.

											72802

As against 108600 hafts. of net irrigated area as per district season and crop report 1980-81 of this district, net irrigated area as per Agricultural census 1980-81 is 72802 hafts. Such a large difference in net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz wheat, cotton, by field staff in agricultural census -1980-81.

											27071

As against 45200 hecta. of net irrigated area as per district season and crop report 1980-81 of this district, net irrigated area as Per Agricultural census 1980-81 is 27071 hecta. Such a large difference in net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz cotton, by field staff in agricultural census -1980-81.

As against 45,900 hec. of gross irrigated area as per district season and crop report 1980-81 of this district, gross irrigated area as per Agricultural census 1980-81 of this district is 29513 hec. Such a large difference in gross irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, cotton, spices & condiments, Fodder crops summer-bajri & summer groundnut by field staff in agricultural census 1980-81.

As against 54600 hectrs. of gross irrigated area as per district season and crop report 1980-81 of this district is 33,716 hectrs. Such a large difference in gross irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton Spices and condiments, fodder crops, summer bajra, and summer groundnut by field staff in agricultural census -1980-81.

As against 19000 hecets. of net irrigated area as per district season and crop report 1980-81 of this district, net irrigated area as Per Agricultural census 1980-81 is 16300 hecets. Such a large difference in net irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton fodder crops, by field staff in agricultural census -1980-81.

As against 23700 hec. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross irrigated area as per Agricultural census 1980-81 of this district is 16746 hec. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton spices & condimento fodder crops, summer bajri & summer groundnut by field staff in agricultural census -1980-81.

As against 204200 hectares, of Net irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 185090 hectares. Such a large difference in Net irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton fodder crops-Summer bajri by field staff in Agricultural census 1980-81.

As against 2,55,300 hec. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross Irrigated area as Per Agricultural census 1980-81 of this district is 19136 hec. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton splices & condiment: fodder crops, summer bajri & summer groundnut by field staff in agricultural census -1980-81.

As against 288400 hect. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 213489 hect. Such a large difference in Net irrigated area is attributable to under reporting or ignoring of irrigated area under all crops viz. cotton, spices & condiments fodder crops. Summer bajri by field staff in Agricultural census 1980-81.

As against 3,47,000 hectares of Gross irrigated area as per district season and crop report 1980-81 of this district, Gross irrigated area as per Agricultural census 1980-81 of this district is 2,20,465 hectares. Such a large difference in Gross irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton spices & condiments fodder crops, summer bajri & summer groundnut by field staff in agricultural census -1980-81.

As against 41,200 hecfs. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agrlultural census 1980-81 is 14,563 hecfs. Such a large difference in Net Irrigated area is attributable to i noring or under reporting of irrigated area under six crops viz. wheat, Summer bajri by field staff in Agricultural census 1980-81.

As against 41,200 hect. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 14,563 hect. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, Summer bajri by field staff in Agricultural census 1980-81.

As against 1,46,300 hec. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 76,973 hec. Such a large difference in Net Irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, Cotton Summer bajri by field staff in Agricultural census 1980-81.

As against 1,09,800 hecta. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 96,691 hecta. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, Cotton by field staff in Agricultural census 1980-81.

As against 1,09,800 hectares of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 96,691 hectares. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, Cotton by field staff in Agricultural census 1980-81.

As against 64,200 hec. of Net irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 40,272 hec. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. summer groundnut by field staff in Agricultural census 1980-81.

As against 73,600 hecta. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross Irrigated area as Per Agricultural census 1980-81 of this district is 42,335 hecta. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton, spices & condiments, fodder, crops, summer bajri & summer groundnut by field staff in agricultural census -1980-81.

As against 1,18,600 hectares of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 70,730 hectares. Such a large difference in Net Irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, cotton, fodder crops, and summer-groundnut by field staff in Agricultural census 1980-81.

As against 1,20,300 hec. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross Irrigated area as Per Agricultural census 1980-81 of this district is 72,723 hec. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton, spices & condiment, fodder, crops, summer bajri & summer groundnut by field staff in agricultural census - 1980-81.

As against 1,12,700 hec. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 73,455 hec. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, spices and condiments, fodder crops, and summer-groundnut by field staff in Agricultural census 1980-81.

As against 1,74,900 hect. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross Irrigated area as Per Agricultural census 1980-81 of this district is 78,656 hect. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton, spices & condiment, fodder, crops, summer bajri & summer groundnut by field staff in agricultural census - 1980-81.

As against 1,15,000 hect. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net Irrigated area as per Agricultural census 1980-81 is 94,002 hect. Such a large difference in Net Irrigated area is attributable to ignoring or under-reporting of irrigated area under six crops viz. wheat, cotton, fodder crops, and summer-groundnut by field staff in Agricultural census 1980-81.

As against 1,35,600 hectares of Gross irrigated area as per district season and crop report 1980-81 of this district, Gross irrigated area as per Agricultural census 1980-81 of this district is 96,549 hectares. Such a large difference in Gross irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat, cotton, spices & condiments, fodder, crops, summer bajri & summer groundnut by field staff in agricultural census - 1980-81.

As against 56,900 hects. of Net irrigated area as per district season and crop report 1980-81 of this district, Net irrigated area as per Agricultural census 1980-81 is 43,688 hects. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, summer groundnut by field staff in Agricultural census 1980-81.

As against 71,600 hec. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross irrigated area as Per Agricultural census 1980-81 of this district is 45,595 hec. Such a large difference in Gross Irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton, spices & condiments, fodder, crops, summer bajra & summer groundnut by field staff in agricultural census - 1980-81.

As against 150,400 hectares of Net irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agricultural census 1980-81 is 1,03,623 hectares. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, spices and condiments summer-groundnut by field staff in Agricultural census 1980-81.

As against 150,400 hect. of Net irrigated area as per district season and crop report 1980-81 of this district. Net irrigated area as per Agrilcultural census 1980-81 is 1,03,623 hect. Such a large difference in Net irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. wheat, spices and condiments summer-groundnut by field staff in Agrilcultural census 1980-81.

As against 73,600 hacts. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net Irrigated area as per Agricultural census 1980-81 is 54265 hacts. Such a large difference in Net Irrigated area is attributable to ignoring or under reporting of Irrigated area under six crops viz. cotton by field staff in Agricultural census 1980-81.

As against 73,600 hect. of Net Irrigated area as per district season and crop report 1980-81 of this district. Net Irrigated area as per Agricultural census 1980-81 is 54265 hect. Such a large difference in Net Irrigated area is attributable to ignoring or under reporting of irrigated area under six crops viz. cotton by field staff in Agricultural census 1980-81.

As against 74,700 hec. of Gross Irrigated area as per district season and crop report 1980-81 of this district, Gross Irrigated area as Per Agricultural census 1980-81 of this district is 55,978 hec. Such a large difference in Gross irrigated area is attributable to under reporting or ignoring of irrigated area under six crops viz. Wheat cotton, pulses & condiments, fodder crops, summer bajra & summer groundnut by field staff in agricultural census - 1980-81.
