ANNUAL CATALOGUE.

OF

FRUIT AND ORNAMENTAL

TREES AND PLANTS,

CULTIVATED AT THE

LINNÆAN BOTANIC GARDEN AND NURSERIES.

WILLIAM PRINCE & SONS,

PROPRIETORS, FLUSHING, LONG ISLAND, NEAR NEW-YORK.

“ A wood coeval with himself he sees,
And loves his own contemporary trees.”

THIRTIETH EDITION.

NEW-YORK.

PRINTED BY GEORGE P. SCOTT AND CO.

1837.

P R E F A C E.

The Proprietors in tendering their new Catalogue with *reduced prices*, desire to state that their Fruit and Ornamental Trees, &c. are nearly all of *large size and vigorous growth*, and superior to any before offered to the public. The establishment contains at the present period *more than a million of Trees and Plants*, and the Proprietors are willing to enter into arrangements of the most liberal description both as to terms and credit with all such persons as desire large quantities of Trees, &c. and with those proprietors of Nurseries who wish to extend their collections, and such other persons as may wish to establish new Nurseries, they will make arrangements *which will allow ample time for advantageous reimbursement*. Any persons who are desirous to act as Agents in towns where no agency at present exists, will be glad to communicate their views in regard thereto.

The fruit trees in the catalogue are either grafted or inoculated, and are propagated from such European and American kinds as have acquired a well merited celebrity, the whole collection of which has recently undergone a most careful revision, and the selections have been made with great care and attention. Every precaution is taken which is necessary to preserve the different varieties completely distinct, and all the peach and other trees are perfectly healthy, and free from disease. Many persons, however, are apt to purchase trees without regard to any point but their cheapness, and not unfrequently, after the toil and expense of years, find them, when they arrive at bearing, absolutely worthless. Others who regard the price only, pay no attention to the size, and vigour of the trees, and consequently sacrifice many years uselessly before their orchards come into bearing. The strongest proofs the proprietors can give the public of their anxiety to guard against misconception, are the precise descriptions contained in the Treatises recently published, and other works of a similar character, in which they are now engaged; the result of which will be, that any person, however ignorant on the subject, cannot fail to know if he has been deceived.

In regard to the identity of the various kinds of fruits, the Proprietors do not pretend to a perfect infallibility, but they do constantly aim at that point, and therefore if an inadvertent error occasionally arise, it is because their unwearied scrutiny has not been able to guard against it.

One great advantage possessed by the trees sent from this establishment, is their particular hardihood. From the proximity of the nurseries to the ocean on one side, and to the East River on the other, with a free and open exposure to all winds, accompanied by the particular advantage of being so far north as to acclimatize the trees to any still more northern section of our country, they acquire a degree of hardihood which renders them extremely eligible for colder latitudes, and to support the rigour of less favored regions, and trees thus hardened by nature are also found to succeed best in our southern states. It is doubtless to these causes that is to be attributed the general success which has attended the trees sent from this establishment, even when transmitted to Nova Scotia, the Canadas, &c. and the winter of 1831-32, incontestably proved their superior hardihood, they having withstood the severity of that season uninjured, while immense numbers of trees elsewhere in the middle, and in the Eastern States, were destroyed thereby.

Specimen trees of every variety of fruit comprised in this catalogue, are now standing in the experimental orchards of the establishment, and all kinds are ready for sale. The stock of some of the newest sorts, however, is limited, and the trees, in consequence of their recent introduction are of less size. Many other varieties will be announced hereafter in a Supplementary Catalogue, additional time being necessary as well for their propagation, as for judicious investigations. New fruits are not added to the collection, merely, because their names differ, but a selection is made of those only, which merit and have received the encomiums of persons acquainted with the subject.

A large number of the apples are the same as described by Mr. Coxe, and the Treatise on Fruits or Pomological Manual, published by the proprietors, contains descriptions of near 800 varieties of the different fruits.

It seems almost superfluous to remark, that the trees and plants in this catalogue not particularly designated as tender, and hardy.

Every tree, when set forth from the garden, is duly labelled; and from fifteen to thirty trees are usually packed in each matted bundle, and where boxes are preferable, from 50 to 100 Trees and Shrubs can be packed in each.

Where trees are requested for exportation, they are carefully packed in mats, casks, or boxes, so as to be sent to Europe, the West Indies, or any part of America, with perfect safety, for which a reasonable charge is made.

All packages of trees are delivered at Fulton-market wharf, New-York, by water, free of freight; and, when desired by persons at a distance, they will be shipped to any port they may designate, and agreements have been made with the lines of packets to Boston, Baltimore, Washington, Richmond, Charleston, Savannah, &c. to take bundle of trees at very moderate freights. If desired to be transmitted to Philadelphia, they can be sent there by the transportation line in one day, and the canals now forming in every section of the country, present cheap and easy modes of conveyance. No care is wanting on the part of the proprietors to give such directions as may cause them to arrive safely; but it is to be expressly understood, that after being thus delivered or shipped at New-York, they are wholly at the risk of the person who ordered them. Insurance against loss by sea will be effected whenever requested.

To such persons as desire fruit trees, &c. and are not themselves acquainted with the qualities of the different kinds, it is recommended that they specify in their orders the number of trees wanted of each species of fruit, and leave the selections to the proprietors, who will make it according to the views and tastes of the applicants; and in such cases they may rely that those only will be sent which are of the most approved kinds; and when desired, those that will ripen in succession, and larger trees can generally be selected in such cases. They can however if they prefer it, obtain all the necessary information by referring to the "Treatise on Fruits," &c.

It is also well, where the orders are small, to unite those of several neighbors in one, which will both abridge the trouble of execution and the expense of packing and transportation; and as each tree is labelled, it can cause no confusion.

Persons who may wish to make selections of fruits of American origin, will find them particularly designated. It sometimes occurs that the demands for particular kinds of fruit trees are so much greater than anticipated, that it renders those kinds for the moment comparatively scarce, except such as are of small size. In these cases, in order to prevent any delay it would be well that the orders should authorize, that such kinds may be replaced by others of equal quality, which trust will be executed in a manner worthy of the confidence reposed.

American Indigenous Trees, Shrubs, and plants, or their seeds, suitable for sending to Europe, will be supplied in assortments from five to one thousand dollars or more, as enumerated in the catalogue, No. 4.

The proper seasons for transplanting trees, are the months of October, November, and December, in autumn; and March and April in the spring. For bulbous flower roots, the best season is from July to November inclusive. Greenhouse plants can be forwarded with safety at any season, except the winter months, and even then, if the conveyance is wholly by water.

In addition to these, Scions of Fruit Trees, Grapes Vines, &c. can be transmitted from October to April. Many persons are prevented from ordering trees, from a supposition that they will not bear distant transportation, an idea so extremely erroneous, that it ought to be exploded; the proprietors are in the constant habit of sending trees, and even the most delicate plants, to the remotest part of the Union with success, and they annually transmit large quantities to the different cities of Europe, where in some cases they have from 300 to 500 miles land carriage, after crossing the Atlantic. The success which attends these expeditions is an ample proof of the superior manner in which the articles will be packed for their respective voyages; and persons sending orders, will please to state the extent of land and water carriage, and the articles will be packed accordingly. Precise directions should be given how the packages are to be marked, and by what route or conveyance they are to be forwarded, &c. The packages will be forwarded by such route as shall be designated, and where the option is left to us, we will adopt such mode of transmission as shall be most economical and safe. During winter, when the northern rivers and canals are frozen, all packages destined for the Western States can be sent by the way of New Orleans, or via Philadelphia or Baltimore, to Pittsburgh or Wheeling.

Catalogues may be obtained gratis by direct application to us. All orders for Fruit and Ornamental Trees, Greenhouse Plants, Bulbous Flowers, Dahlias, or Seeds, must be sent post paid direct to us, or through a regular authorized agent, and not through the agency of any person who vends similar articles. Every invoice transmitted by us will have a printed heading and our signature, to prove it genuine, and we assume no guarantee whatever, where such an invoice cannot be produced. We mention these cautions for good and conclusive reasons, knowing that we have been injured by deceptions, and we most particularly enjoin their strict observance on purchasers.

As many persons in the Union act as agents for different nursery establishments, it is particularly requested, that where orders are intended for us, it be plainly specified, but no person is to be considered as our Agent, unless he can produce written proof of the fact. It is expected that persons with whom no acquaintance exists, will, in forwarding orders otherwise than through an agent, designate some person in New York who will be responsible for the payment, or tender a suitable reference. It is requested that those who, in sending orders, mention only the numbers by which the trees, &c. are enumerated in the catalogue, should be particular to state the edition from which they make their selections, as there are some numerical variations in the different editions. All letters requiring information will be promptly replied to, and the proprietors prefer that applications be made to them direct on every subject.

The postage of a letter is a trifling thing, but to one who receives a great number it becomes burdensome ; persons are therefore desired to send their letters post paid.

Any packages intended for us can be left with Wm. P. Wright, corner of South and Beekman streets, New-York, but letters should always be transmitted per mail.

N. B. It is expected that no persons having similar establishments will copy the different remarks attached to this catalogue, without crediting the source ; as it would be extremely unreasonable that other persons should take upon themselves the responsibility for any errors which may have been inadvertently advanced by the authors of this publication.

W. PRINCE & SONS.

PRICES OF TREES, &c.

The prices have been greatly reduced on a large number of articles ; in many cases 25, 33 and even 50 per cent. below former rates, and the average prices through out the catalogues will be found as low and in general much lower than the same articles, equally genuine and of equal quality, can be obtained elsewhere.

Green House Plants, in large assortments, will be supplied at lower rates than they can be obtained any where else in the United States.

N. B. Where ornamental trees of very large size are wanted for streets, avenues &c. or where fruits trees are wanted of extra size, they will be charged in proportion.

For the table of Contents, see last page.

APPLES. Pommiers. *Pyrus malus*.

25 to 37½ cents each; \$18 and \$20 to \$25 per 100, according to the kind and quality of the fruit, and the size of the trees.

ALL ARE TABLE FRUIT—Except where otherwise designated,

C denotes those which have proved good for cider also.

K those which are proper for cooking or preserving.

T and K those for both table and cooking.

Red do	White Juneating, or tart bough,
Talman sweeting	Lady finger,
Fort Magee crab,	Morden Bloom,

N. B. Many French and English Apples are not added, they being found of inferior quality, or of very small size.

PEARS. *Poiriers. Pyrus communis.*

37½ to 50 cents each, according to the kind, and quality, of the fruit, and the size and rarity of the trees.

[The collection of Pears has been revised and scrutinized with the utmost care and attention to guard against error, and being a concentration of the most choice from every clime, is unrivalled in this or any other country. A large number of the kinds cultivated by different persons under the same names, will be found to differ essentially from the genuine fruits in this collection.]

M denotes melting, or juicy pears.

But denotes buttery pears.

C ——— breaking, or crisp do

Bak ——— best for baking and preserving.

CHERRIES. *Cerisiers. Prunus Cerasus.*

50 cents each.

* denotes fruit of large size.

† ——— most esteemed for quality.

‡ ——— best for tarts, wine and preserves.

NOTE.—The two classes of Cherries are thus distinguished—G denotes those of the Kentish or Griotte family, the trees of which acquire a medium height, with compact and spherical heads, and will sustain a severe northern climate.—Those not noted belong to the Heart and Bigarreau families, the trees of lofty growth and pyramidal form.

Lemon freestone		Yellow nutmeg, very small and inferior	
Mammoth	Sept		

N. B. Trees of the different kinds can be supplied suitable for dwarfs or espaliers.

NECTARINES. *Brugnons. Amygdalus nectarina.*

37½ cents each—\$30 per hundred.

N. B. This fruit will succeed and produce well in any place where the peach does, if the directions are followed which are stated in the Treatise recently published; and as the varieties of this fruit are characterized by their beautiful transparent and waxen appearance, they may be ranked among the most admired appendages of the desert.

C denotes clingstones, or paves.

Fine new French and Italian Almonds—\$1 each, except those noted.

11 Aberame demi-amère	14 Parisienne, sweet
12 Amande à flotte, or à flots, sweet	15 New bitter fruited, 50 cts
13 Balotte, sweet	16 Small round hardshell, sweet 75 cts

N. B. French sweet hard-shell almonds, \$25 per hundred.

MULBERRIES. *Muriers.*

In consequence of the attention of our government, and of individuals, to the rearing of silk, and the culture of the Mulberry, great pains have been taken to introduce from France, Italy, and elsewhere, the kinds which have acquired most celebrity for this purpose; and of the success of those exertions, the following list will bear ample testimony.

S denotes those most used for silk worms.	Those marked * are 37½ cts.
T those for table fruit.	† are 50 cts.
O those that are for ornament.	‡ are 75 cts.

Those marked thus ¶ are \$1.

N. B. Where no price is named by the hundred, a discount of a third in price will be made when 50 to 100 are taken of one kind.

- 1 Large black, T 37½ to 50 cents.

|---|---|

N. B. Many other kinds have been imported that have not yet been increased, but will be inserted in a Supplement Catalogue.

GRAPES. *Vignes. Vitis vinifera.*

Those marked thus * 37½ cts each. † 50 cents each. ‡ 75 cents each.

Those not marked are \$1 each.

T denotes celebrated table grapes. W denotes celebrated wine grapes. L denotes those from the garden of the Luxembourg.

These prices are for single plants, or where a few vines only are wanted. Those who wish to establish vineyards, and consequently desire a large number, will be supplied at a great reduction.

For descriptions of the respective varieties, and directions for their culture, see "Prince's Treatise on the Vine."

The synonyms are carefully arranged, and in no case is the same fruit *knowingly* twice enumerated in this list, and where a doubt exists, it is so stated. Several hundred foreign varieties can be supplied that are not here enumerated, but which will be found in the Treatise on the Vine, and in former Catalogues.

<p>1 †July grape, Madeleine, or Early black T</p> <p>2 †Early white muscadine, T</p> <p>3 †White sweet water T</p> <p>4 *Black sweet water T</p> <p>5 †Striped Aleppo T</p> <p>6 †Esperione T</p> <p>7 †Black Hamburg, or Frankenthal T</p> <p>†Red do T</p> <p>8 †White do White Raisin, or Nice, White Lisbon

Madeira Grapes.

All of which are celebrated for wine.

74 Maroto Preto	78 †Herbemont's Madeira, or Warrenton round purple, \$4½ per dozen
75 †Tinta, Negra-mol Violet, or blue Madeira, per dozen \$8	79 Bual
76 Verdelho, or Verdilhio	80 Muscatel
77 Nigrinho, \$8 per dozen	

German and Swiss Grapes.

These are principally celebrated wine grapes; and I have information from the highest sources, that those numbered 82, 92, 94, 96, 97, 98, 101, 102, and 103, are considered among the most valuable for vineyards, on account of their abundant and regular crops, and their resisting the severest winters uninjured. In addition to these here enumerated, a number of varieties of grapes are cultivated in Germany which are necessarily arranged under other heads in this catalogue, including the principal part of the Burgundy grapes; and I am assured by a gentleman who has a very extensive vineyard on the Rhine, that the grapes numbered 1, 5, 65, 66, 67, 68, 69, 71, and 72, support there all the rigors of the climate, and produce immense and regular crops.

81 †Blue cartager, T	87 †Blanc du Rhin, or White Rhenish
82 †Facon, white, very celebrated for wine and abundant crops L	88 †L'Yverdun bon vin, L W
83 †Feldlinger L	89 Olwer W
84 Fendant vert	90 Red Burger, or Facon rouge W
85 Copette, productive	91 †Queen, white and very large T
86 Rousseline très precocé	92 †Petit rauchling, or Small muscat W \$6 per dozen

This last is very celebrated for wine and
for abundant crops

290 † Westpoint	

N. B. Many new American varieties are under cultivation, including a large number of seedling varieties, originated by the proprietors from admixture of pollen. These will be for sale soon, when an extra catalogue of them will be published.

Grape Vines in quantity.

Fine varieties for wine, assorted by the proprietors, 20 to 25 dollars per 100.

do do for the table, assorted by the proprietors, 25 dollars per 100.

do do of the more rare varieties, 40 dollars per 100.

Common French varieties, such as are usually sent out in mass from their vineyards. 12 to 15 dollars per 100.

SCIONS, &c.

Scions of Grapes of a number of kinds can be supplied if applied for in season, at from 5 to 12 dollars per 100, or in less quantities; but in no case will scions of any variety be sent to a less amount than the price of a vine; and of the very rare varieties, three scions will be considered equivalent in value to a vine. Scions of several kinds of Grapes, 15 to 25 dollars per thousand.

Scions of all kinds of Fruit trees, suitable for grafting, will be supplied at 50 cents per dozen, where the price of a tree does not exceed that sum; but where it does, the same price will be charged for the dozen scions as for a tree of the same kind; and in no case can a charge of less than the price of a tree be made for grafts of any variety, however few may be desired. When a large number of scions are wanted of the more plentiful sorts of Fruits, they will be supplied by the 100 or 1000 at reduced rates. It is better that such orders be sent in the fall or winter.

Scions of Currants, Gooseberries, Raspberries, Berberries, Mulberries, Quinces, Figs, Poplars, Willows, &c. will be supplied at prices in proportion to their respective value; but no charge is made of a less sum than the price of a tree of the same kind.

Scions of the fine species of Osiers, or Willows, most celebrated for basket-making, can be supplied, suitable for planting hedge-rows, at from 3 to 5 dollars per 100, or 25 dollars per 1000.

Hawthorn for hedges, of the celebrated Washington Thorn, at 75 cts per 100, or \$5 per thousand.

Do do extra large, 6 to 8 dollars per 1000.

English hawthorn quicks, 75 cts per 100, and to 5 dollars per 1000.

do do extra large and strong, 6 to 8 dollars per 3000.

Buckthorn, or Rhamnus catharticus, for hedges, 2 to 3 dollars per 100.

do larger size, 6 dollars per 100

Yellow Locust, small trees for hedges, at from 5 to 8 dollars per 100.

Osage Orange, or Maclura, for hedges, 40 dollars per 100.

Chinese arbor vitæ, small, for hedges, 15 to 20 dollars per 100.

Privet, or prim, for hedges, 12 dollars per 100

Scions of do 4 dollars per 100, and 25 dollars per 1000.

Honey Locust, or Three thorned Acacia, (part thornless,) 5 to 10 dollars per 1000.

Red Cedar, for hedges, 12 dollars per 100, or 80 dollars per 1000.

ESCULENT ROOTS, &c.

- Asparagus, Common, per 100, 50 to 60 cents, and per 1000 \$4
 Ditto, 2 and 3 years old \$5½ to \$6 per 1000
 Large Dutch, per 100, 75 cents to \$1; per 1000, \$6
 Ditto, 2 and 3 years old, \$7½ per 1000
 Artichoke, Jerusalem, per dozen, 50 cents; per 100 \$3.
 Ditto do. New European variety, much superior, 75 cts per dozen, and \$4½ per 100
 Green globe, per dozen, \$2½; per 100, \$15.
 Cardoon, per dozen, \$2½; per 100 \$15.
 Chamomile, double, each 25 cents; per dozen, \$1½; per 100 \$8.
 Horse radish, per dozen, \$1½; per 100 \$5.
 Dyer's Madder, each 25 cents; per dozen, \$2½ per 100, \$10.
 Licorice, each 50 cents; per dozen, \$5.
 Hop roots, per dozen \$1; per 100 \$5; per 1000 \$30
 Sea Kale, per dozen, \$2; per 100, \$12.
 Rhubarb for Tarts, or Pie Plant, each 12 to 25 cents, according to age; per dozen 1½ to \$2½; per 100, 10 to \$18.
 Common, or Rhapontic, each 50 cents; per dozen, \$4,50.
 Palmated officinal, each 50 cents; per dozen \$5
 Thick leaved, each 50 cents; per dozen \$5.
 True Medicinal, or Rheum australe, each 75 cents; per dozen, \$6.
 Wilmot's early red, each 50 cents; per dozen, \$4½.
 Goliah, each 50 cents.

FIGS. *Figuers. Ficus Carica.*

The culture of this delicious fruit having recently become an object of particular attention, and requiring no more care to covering in winter than the delicate kinds of grapes, the greatest pains have been taken to extend the collection by importations of the choicest kinds from the south of France, Italy, and elsewhere; and it now forms a concentration of this fruit, unrivalled in extent and excellence.

Those marked thus * 50 cents. † 75 cents. Those not marked are \$1. By the hundred a discount of one third in price will be made.

D denotes those described in Duhamel.

1 †Early Brown	26 Coucoufrelle brune D
2 *Large late brown	27 gavotte
3 †Large white	28 Datte
4 *Ischia	29 Datte montagnette
5 Marseilles, white or y ellow	30 Franque paillarde
6 *Brown Malta	31 Grosse aubique noire D
7 †Large blue	32 Jerusalem
8 Fine white	33 Lipara, D

11 Napolitaine	36 Negrette
12 Poulette	37 Oeil de perdrix
13 White bourjassotte	38 Peau Dure
14 Large green, grosse verte	39 Petarelle
15 Violette, or perruquine, very productive D	40 Pied de bœuf
16 Cuprea	41 Recousse noire, black
17 Geneva	42 Rose peyronne
18 *Small blue	43 Rougette
19 †Green Ischia	44 Rougette de montagnette
20 *Yellow	45 †Vernissenque
21 *Celestial	46 Verte petite, or Petite Verdale
22 Caprifiguier, curious but not valuable for fruit	47 Prolific white
23 Bourjassotte grise	49 Datte quotidienne
24 Bourjassotte noire	50 Rocarde
25 Clementine	51 †Versailles twice bearing, or Figuier bifère, D

POMEGRANATE. *Grenadier.*

Those marked thus * are 75 cents; those thus † \$1; and those thus ‡ \$1.50
The fruit requires in this latitude, that the trees should during winter be placed in a cellar, or some other place free from frost. South of the Potomac, it is supposed they will not require that care.

1 Fruit bearing, 50 to 75 cents	<i>Punica granatum</i>
2 † Large Malta	<i>melitensis</i>
3 ‡ Sweet fruited	<i>dulcis</i>
4 † Acid fruited	<i>acida</i>
5 † Semi-acid	<i>mi-acida</i>
6 Double crimson, 50 cts	<i>rubra plena</i>
7 † Great Double crimson	<i>plena major</i>
8 † Prolific	<i>prolifera</i>
9 † White flowered and fruited	<i>alba</i>
10 † Double white flowering	<i>alba plena</i>
11 † Yellow flowering	<i>flava</i>
12 * Dwarf profuse flowering, or Chinese	<i>nana</i>
13 † Double dwarf, or Chinese	<i>plena</i>

OLIVES. *Olivers.*

Those marked thus * are \$1; thus † \$1.50 and thus ‡ \$2.
These species require in this latitude, during winter, that the trees be placed in a cellar, or some other situation free from frost. It is considered that south of Virginia this care will not be requisite.

1 † European	<i>Olea europea</i>
2 † Blanquet	<i>var.</i>
3 † Bouquetier	<i>var.</i>

21 * Twiggy, or branching	<i>media</i>
22 † Gold blotch leaved	<i>fol. var.</i>
23 † Rosemary leaved	<i>rosmarinifolia</i>
24 * Holly leaved	<i>spinosa, vel. illicifolia</i>
25 * Serrated leaved	<i>serrata</i>

N. B. See greenhouse catalogue for other varieties.

ORANGES, LEMONS, CITRONS, SHADDOCKS, AND LIMES.

These require sufficient protection in winter to keep them from freezing, in the states north of South Carolina: in the latter state and those south of it, they do not require it. In Italy, extensive nurseries of these fruits are cultivated, some of which

contain 200 varieties. A work has recently been published at Paris, edited by Messrs. Risso and Poiteau, which contains engravings and descriptions of 160 varieties comprising the most valuable and interesting. It is from an inspection of those figured in this work that the new varieties have been selected which are here enumerated; to obtain which has been attended with great difficulties. About 40 new varieties, not here enumerated, will be ready for sale in September 1837, when an extra catalogue of them will be furnished.

Those marked thus *, of 1 year's growth from inoculation, \$2

2 do do do 3

3 do do do 3 50

Those marked thus † are \$3 50 each. Some of these kinds of three, and others but of one and two years growth.

Those marked thus † will be each \$5, and being quite new, are not at present large.

Oranges.

ORNAMENTAL FOREST TREES

Of the first class and largest growth, esteemed for their foliage, flowers, or fruit.

Those not marked are 25 cents each. † are 37½ cents each. ‡ are 50 cents each.

Note.—European Linden, Silvery leaved Abele, Willows, Larch, Honey Locust, Tulip tree, Maples, Poplars, Elms, Ailanthus, Horse Chesnut, Catalpa, Alders, yellow Locust, Plane, Buttonwood, and many others, can be supplied of very large size, suitable for streets, avenues, &c., and at prices in proportion.

1 White flowering horse chesnut, 50 cts each	<i>Æsculus hippocastanum</i>
Ditto large size, 75 cts to \$1	
Ditto very large, 1,25 to \$1,50	
2 Ohio Buck eye, 50 to 75 cts	<i>pallida</i>
3 Sugar maple, or Hard, 25 to 50 cts	<i>Acer saccharinum</i>
4 Scarlet do 25 to 50 cents	<i>rubrum</i>
5 †Norway do	<i>platanoides</i>
6 †European sycamore	<i>pseudoplatanus</i>
7 †Silver leaved do. 25 to 50 cts	<i>dasyarpum</i>
8 †Black sugar do	<i>nigrum</i>
9 Chinese ailanthus, or tree of heaven, ‡ with }
leaves 4 feet long, 50 to 75 cts }	<i>Ailanthus glandulosa</i>
Ditto, smaller size, \$4½ per dozen	
Ditto, large size, \$1 each	
10 †European alder, rapid growth	<i>Alnus glutinosa</i>
11 †Cut leaved do	<i>v. lasciniata</i>
12 †Scotch weeping birch, of poetic celebrity	<i>Betula alba pendula</i>
13 †Canada canoe birch	<i>papyracea</i>
14 Poplar leaved do	<i>populifolia</i>
15 Catalpa, showy flowers 25 to 50 cents	<i>Catalpa syringæfolia</i>
Ditto, 5 to 6 feet, per dozen \$3 ; per 100 \$20	
16 American eypress, 37 to 50 cts	<i>Cupressus disticha</i>
Ditto, larger size, 75 cts	
17 †European ash, rapid growth, \$37½ per 100	<i>Fraxinus excelsior</i>
18 †Various leaved do	<i>simplicifolia</i>
19 Manna do. 75 cts	<i>rotundifolia</i>
20 Chinese do. 62 cts	<i>chinensis</i>
21 Walnut leaved do.	<i>juglandifolia</i>
22 White do	<i>acuminata</i>
23 Black do	<i>sambucifolia</i>
24 †Green barked do	<i>viridis</i>
25 †Broad leaved do. and many others	<i>latifolia</i>
26 Honey locust, or thorny acacia	<i>Gleditschia triacanthos</i>
Ditto, extra large, 50 to 75 cts &c.	
27 Thornless do 25 to 50 cts	<i>inermis</i>
N. B. For Honey locust by the 1000, for hedges see page 36. And larger sized
trees will be supplied at \$18 per 100.	
28 Chinese red spined do \$1	<i>horrida</i>
29 Chinese large spined do \$1	<i>macroacanthos</i>
30 Purple spined do \$1	<i>purpurea</i>
31 †Kentucky coffee	<i>Gymnocladus canadensis</i>
32 Sassafras	<i>Laurus sassafras</i>
33 Maple leaved sweet gum	<i>Liquidamber styraciflua</i>
34 Oriental do \$1	<i>imberbe</i>

‡ This tree is so called in Japan, on account of the enormous height to which it attains. It has the quality of withstanding the greatest heat uninjured, and retains its foliage until very late in the season.

- 35 Tulip tree, or whitewood, 25 to 50 cts
 36 Entire, or saddle leaved do \$1
 37 †Pride of India, rather delicate
 38 †European larch, for dry, or upland soil
 25 to 50 cents, and 25 to \$30 per 100
 Ditto, extra large \$1

Smithii

Ditto, per dozen, \$8

Above 40 other beautiful species can be supplied, comprising all that are particularly interesting, a part of which are enumerated in Catalogue No. 4, of American Trees and Plants.

ROSES. *Rosiers. Rosa.*

This favorite flower has been cultivated to such an extent in Europe, that it combines almost every tint of which nature is susceptible, and some of their collections contain above 1400 superb varieties. The following have been selected on account of their fragrance, size, beauty, singularity, or delicacy, and the original plants of many of these kinds cost from \$1,50 cents to \$4,75 cents each, exclusive of the expenses and losses attending importation. The collection *occupies an acre of ground*, where all the kinds are marked with their respective names, and during the period of their bloom they present an accumulation of varied beauties scarcely to be rivalled, and those who may desire it, can make their selections when in flower. The various kinds of roses, present, also a great diversity in respect to size as well as other points, some being naturally of very tall stature, others of medium height, and others quite diminutive. All the following Roses will endure the winters of any part of the Union without protection, with the exception of a few of the China roses. The culture of roses is of the most simple and easy description, and information on that point will be found in the *Treatise* recently published. The different kind of Roses have been critically examined when in flower, and the remarks as to their qualities are the result of the personal observation of the proprietors.

These roses are almost wholly on their *own bottoms*, a few of the most rare kinds only being inoculated, and the *prices are lower than ever before offered to the public*. Where a dozen plants are ordered a discount of 25 per cent, will be made—where fifty are ordered 30 per cent, and to such Nurseries as purchase an *assortment* of a hundred or more to revend, consisting of two or more of a kind, 40 per cent, and where two hundred or more are taken of those most plenty, and similarly selected, 50 per cent.

Those marked thus * are 25 cents each. † are 37½ cents each. ‡ are 50 cents each. Those marked thus ¶ are 75 cents each. Those not marked are \$1 each.

The first section of Roses, extending to No. 529, is comprised of Double Roses only, and is a selection, comprising such only as are beautiful and interesting.

- 1 †Admirable, *extra superb*
- 2 Adonis, *fine full red*
- 3 Favorite agate, *agate favorite, delicate blush*

 briar, of Mexico sii, gemella, fraxinifolia, fenestrata, Penn-
 N. B. Also, Rosa florida, corymbosa, sylvanica, monsonia, &c. at 25 to 37 cts

China Roses.

Most of which are monthly, or Ever-blooming,

The monthly varieties, when planted in the open ground, are particularly interesting, on account of expanding their flowers in March and April, when those of other kinds have not yet made their appearance. They continue to bloom throughout the summer; and in the autumnal months their numerous flowers also afford particular gratification, as nature then seems most to need their cheering influence.— Nearly the whole number support our winters with little or no protection, as designated by this mark †: those most tender need only to have a box or barrel placed over them during winter. Where any kinds are designated as climbers, it is meant that they grow tall, and are suitable for training, &c.

		\$	cts
531 † Double red, or daily	Rosa indica, pallida		40

The first assortment of 50 roses	of 50 very fine kind	35	
second do.	do.	of 50 fine kinds	28
third do.	do.	of 50 good kinds	20

Where the whole collection of roses is taken, or where a large number is wanted, a liberal discount will be made.

N. B. About 70 other kinds of Roses are under cultivation, which will be mentioned in the next Catalogue.

PÆONIES. *Pivoines.*

No class of flowers has recently attracted more attention in Europe than this, a monograph of which has been published in London. Every variety will support the winters of the United States and Canada. Most of the varieties are extremely splendid, and others possess striking peculiarities. Anticipating that a similar taste would be evinced in this country, the proprietors have, by great exertion, obtained every variety possible,

1 Sabine's crimson officinal	<i>Pæonia officinalis, sabini</i>	75 to \$1 00
2 Large double crimson	<i>rubra</i>	25 cts to 50

CARNATIONS. *Oiellets doubles. Dianthus caryophyllus.*

This most interesting class of flowers, which so deservedly commands universal admiration, has received particular attention; and the entire collection now comprises about 200 superb varieties—the most of which have been considerably increased, and the others are in a course of propagation. It may be well to remark, that sometimes a branch, or even a whole plant, may vary the color of its flowers; but this is not very frequently the case.

Those marked thus * are 37½ cents each. † are 50 cts each. ‡ are 75 cents each. Those not marked are \$1 each. ¶ denotes those whose flowers are rose leaved.

- 1 Large dark crimson, shaded with dark brown like a Picotee
- 2 †¶ Large rose and white
- 3 ¶ Scarlet bizar, of four colors, scarlet, crimson, brown, and white
- 4 † Rose striped

CHINESE CHRYSANTHEMUMS.

Chrysanthemum sinense.

This superb flower (often denominated *Artemisia*) is deservedly esteemed; being perfectly hardy, and affording a most brilliant display, at a period when the chilling blasts of autumn have left us but the vestiges of departed verdure. It is therefore a subject of much gratification, that the number obtained from China exceeds 60 varieties, nearly the whole of which are offered to the public in this catalogue.

The following are 25 to 35 cts each.

1 White quilled	14 Paper white
2 Buff, or orange, changeable, red and orange flowers often on the same plant	15 Quilled flame yellow
4 Purple	16 Sulphur do
5 Lilac quilled	17 Superb clustered do
6 Rose colored, or pink	18 Small yellow
7 White and lilac, changeable; the flowers vary to lilac, to white with a purple centre, and to pure white	20 Quilled pink
8 Spanish brown	21 Semi-double do do
9 Straw colored quilled	22 Large quilled orange
10 Golden yellow	23 Semi-double quilled do
11 Tasselled white	24 Early crimson
12 Superb do	25 Curled lilac
13 Semidouble quilled white	26 Quilled light purple
	27 Expanded light purple
	28 Quilled yellow

The following kinds are 37 to 50 cents each.

29 Double Indian yellow, superb	37 Quilled salmon, 37 cts
30 Double Indian white, superb	38 Semi-double quilled pale orange
31 Brown purple, 37 cts	39 Two colored red
32 Early blush, 37 cts	40 Curled buff, or salmon, 37 cts
33 Golden lotus, 37 cts	41 Large lilac, 37 cts

IRIS, or *Fleur de Lis*.

This flower, from its great combination of colors, (whence it derives its title,) and altogether unique appearance, has ever found admirers among the curious and the scientific. It is also the court flower, or emblem, of the Bourbons. In addition to these here enumerated, there are about 50 beautiful bulbous varieties, for which see catalogue of bulbous flowers.

MEDICINAL AND CULINARY PLANTS.

BIENNIAL AND PERENNIAL.

Price 12½ to 25 cents, except those noted.

1 Black snake root	<i>Actæa racemosa</i>
2 Cohosh	<i>spicata</i>
3 Water plantain	<i>Alisma plantago</i>
4 Chives, 25 cts per dozen	<i>Allium schœnoprasum</i>
5 Common garlic, 25 cts per dozen	<i>sativum</i>
6 Shallot, 50 cts per dozen	<i>ascalonicum</i>
7 Scallion, 50 cts per dozen	<i>majus</i>
8 Marsh mallow	<i>Althæa officinalis</i>
9 Sweet alyssum	<i>Alyssum maritimum</i>
10 Official bugloss	<i>Anchusa officinalis</i>
11 Dill	<i>Anethum graveolens</i>
12 Fenchio	<i>ozoricum</i>

13 Fennel	<i>Anethum fœniculum</i>
14 Garden angelica, 50 cts	<i>Angelica archangelica</i>
15 Shining do	<i>triquinata</i>
16 Chamomile, single, and double	<i>Anthemis nobilis</i>
18 Smallage	<i>Apium graveolens</i>
19 Spikenard	<i>Aralia racemosa</i>
20 Wild Sarsaparilla	<i>nudicaulis</i>
21 Wormwood, shrubby	<i>Artemisia absinthium</i>
22 Tarragon, on astragon, \$1,50 per dozen	<i>dracunculus</i>
23 Mugwort	<i>vulgaris</i>
24 Ditto, striped leaved, 37 cts	<i>fol. var.</i>
25 European asarabacca, 50 cts	<i>Asarum europeum</i>
26 Twining black swallow-wort	<i>Asclepias nigra</i>
27 Official asclepias, 50 cts	<i>vincetoxicum</i>
28 Deadly nightshade, 50 cts	<i>Atropa belladonna</i>
29 Mandrake, 50 cts	<i>mandragora</i>
30 Official betony	<i>Betonica officinalis</i>
31 Official borage	<i>Borago officinalis</i>
32 Caraway	<i>Carum carui</i>
33 Wild succory	<i>Chicorium intybus</i>
34 Official hound's tongue	<i>Cynoglossum officinale</i>
35 Purple foxglove, 12 cts	<i>Digitalis purpurea</i>
36 White do. 12 cts	<i>alba</i>
38 Caper spurge	<i>Euphorbia lathyris</i>
39 Columbo, 50 cts	<i>Frasera Walteri</i>
40 Official goat's rue	<i>Galega officinalis</i>
41 Three leaved Gillenia	<i>Gillenia trifoliata</i>
42 Large stipuled, do, 37 cts	<i>stipulacea</i>
43 Green hellebore, very curious, 50 cts	<i>Helleborus viridis</i>
44 Black do. or Christmas rose, 50 cts	<i>nigra</i>
45 Henbane	<i>Hyoscyamus niger</i>
46 Official hyssop	<i>Hyssopus officinalis</i>
47 Elecampane	<i>Inula helenium</i>
49 Common lavender, shrubby	<i>Lavandula spica</i>
50 Motherwort	<i>Leonurus cardiaca</i>
51 Virginian speedwell, or <i>Leptanthus</i>	<i>Leptanthus Virginicus</i>
52 Lovage	<i>Ligusticum levisticum</i>
53 Water horehound	<i>Lycopus Virginicus</i>
54 Horehound	<i>Marrubium vulgare</i>
56 Common balm	<i>Melissa officinalis</i>
57 Peppermint	<i>Mentha piperita</i>
58 Spearmint	<i>tenuis, vel viridis</i>
59 European catnep, or Catmint	<i>Nepeta cataria</i>
60 Variegated do. beautiful, 37 cts	
61 Common marjorum	<i>Origanum vulgare</i>
62 True ginseng, 37 cts	<i>Panax quinquefolium</i>
63 Three leaved do	<i>trifolium</i>
64 Winter Cherry, or Alkekengi	<i>Physalis alkekengi</i>
65 Seneca snake root	<i>Polygala senega</i>
67 Official lung wort, 50 cts	<i>Pulmonaria officinalis</i>
68 Tart rhubarb, and others, see page 3	<i>Rheum undulatum</i>
69 Garden patience dock, 50 cts per dozen	<i>Rumex patientia</i>
70 Garden sorrel, 50 cts per dozen	<i>acetosa</i>
71 Common rue, shrubby	<i>Ruta graveolens</i>
72 Garden sage, do	<i>Salvia officinalis</i>
73 Variegated leaved do, 50 cts	
74 Clary	<i>sclarea</i>
75 Official, or Garden burnet	<i>Sanguisorba officinalis</i>
76 Sweet scabious	<i>Scabiosa atropurpurea</i>
77 Myrrh, or sweet Cicely	<i>Scandix odorata</i>

- 78 Scrophulary
- 79 Official scullcap
- 80 Common houseleek
- 81 Water Cress, 50 cts per dozen
- 82 Comfrey
- 83 Oriental do
- 84 Tansey
- 85 Rosemary
- 86 Common thyme
- 87 Lemon do
- 88 Common colt's foot
- 89 Variegated leaved do

- Scrophularia marylandica
- Scutellaria lateriflora
- Sempervivum tectorum
- Sisymbrium officinalis
- Symphytum officinale
- orientale
- Tanacetum vulgare
- balsamita
- Thymus vulgaris
- serpyllum
- Tussilago farfara
- fol. var.

N. B. Many other medicinal plants will be found enumerated in Catalogue No. 4

DAHLIAS.

THE new catalogue of this magnificent Flower is now ready for distribution, comprising all the new varieties, many of which are superbly striped and variegated. Those who desire assortments will be supplied at lower rates than they can be obtained elsewhere, and 10,000 roots are now ready for delivery, comprising above 500 varieties, of which a specimen bed containing an acre is annually formed for the inspection of visitors. The collection is the most extensive in America, and for particular details and descriptions, as well as directions for their culture, see Catalogue of them. Those who order assortments of Dahlias should name the kinds they already possess, in which case those varieties will be omitted. The selection of the assortments is to be made by the Proprietors. The prices are rated lower on account of their retaining the privilege of sending such as they have the largest stock of : but in doing this the purchaser receives quite as beautiful varieties as he could select himself, even at considerably higher rates. It is the determination of the Proprietors, that their customers shall be supplied, in all cases, on the most favorable terms.

Superb double varieties, each 75 cts

Double varieties of kinds less rare, each 25 to 50 cts

Some very superior new kinds, each \$1 and upwards as per Catalogue

Some very superior new kinds, \$8 to \$10 per dozen, including many that are usually sold at very high rates

Very fine assorted kinds per dozen, each a distinct named variety, \$6

Fine Do	do	do but less rare	\$4,50
---------	----	------------------	--------

Assortments	do	do	of the more common kind \$3
-------------	----	----	-----------------------------

Mixed double varieties \$2 50 per dozen

Double Dahlias by the 100, 200, or 300 or more varieties will be supplied at very low rates.

CAMELLIA JAPONICA, or Japan Rose, &c.

THE collection of Camellias comprises all the newest varieties, most of which are very remarkable for their splendour. The prices are now greatly reduced, in consequence of the plants being much increased. Owing to the universal admiration which this plant has received, and its requiring so little care, and enduring without injury a great degree of cold, the demand has been unexampled. The proprietors have at all times very large quantities to supply wholesale orders, on which a liberal discount will be made, and their present collection exceeds 3000 plants, which they are rapidly increasing.

The collection of Geraniums has also been enriched by the addition of above a hundred new varieties, whose flowers are remarkable for their size and splendid coloring, comprising the very *élite* of this class of plants.

For a complete list of the different varieties, with the low prices at which these and other Greenhouse plants are now offered, see Greenhouse Catalogue, No. 3.

SELECTIONS OF FRUITS.

THE following selections of fruits of kinds best known, are well calculated for a garden and orchard, where only a limited number is required, and it may aid those who are not acquainted with the subject. The numbers refer to the enumeration in the catalogue.

The trees we can furnish by selections from our immense stock, will average from 25 to 33 per cent better in point of size and vigor, than such as are usually sold. Some persons complain that Pear trees do not succeed, which arises in most cases from an improper selection of the varieties. Care should be taken to always select such as have originated in, or become acclimated to a corresponding climate. For the northern section of the Union, the Flemish varieties are greatly to be preferred.

APPLES—*Forty varieties.*

5 A Catalogue of Garden, and Flower Seeds.

6 Do. do. do. in French.

The Books and Catalogues can be transmitted by mail, at a postage of $1\frac{1}{2}$ to $2\frac{1}{2}$ cents per sheet.

N. B. The Proprietors will supply the following classes of Plants in large or small Assortments at very reduced rates.

Camellia Japonica, or Japan Rose, of 150 varieties.

China Roses, and other classes of Roses comprising above 600 varieties, and including all the new and choice kinds, as enumerated in this Catalogue and others.

Geraniums, of 150 varieties, comprising above 60 that are entirely new and remarkable for the magnitude of their flowers, and for the brilliant and varied hues which distinguish them.

Passion Flower, of 30 species, and varieties, including the different Scarlet flowering kinds.

Chinese Azaleas, and other varieties, comprising a concentration of the most beautiful kinds.

Amaryllis, of 100 varieties.

Ixia, 30 varieties—Lachenalia of 15 do.—Oxalis of 30 do.—Antholyza of 12 do.

Aloes, or 40 species, and Cactus of 30 do.

Magnolia, the entire collection comprising all the species and varieties known. Plants of the rare Thompsonian and Soulangeana varieties are of blooming size.

Chrysanthemums, above 50 varieties, as enumerated in Catalogue, and at the low prices therein stated.

Greenhouse Plants will be supplied in Assortments of 25, 50, or 100 or more pots, each a distinct species or variety, at every reasonable rates, and such omitted as, the applicant already possesses.

Hardy Herbaceous Flowering Plants will also be supplied in Assortments of 25 to 500 species.

CONCLUSION.

Strangers who may wish to visit the Garden at the period at which particular flowers may be seen in perfection, are informed, that the Hyacinths are in their greatest beauty from the 1st to the 25th of April—Tulips from the 1st to the 18th of May—Roses from the 1st to the 15th of June—Pæonies from the 10th to the 30th of May. Carnation Pinks from the 1st to the 15th of July—Dahlias from June to October ; but among such a multitude of Plants from every region, there is at all times a great variety in flower, which are calculated to interest both the botanist and the amateur.

All Proprietors of Nurseries and Venders of Seeds, &c., are invited to visit and inspect our Establishment.
