THE
HUNTERS' IMPROVEMENT SOCIETY.

VOL. V.

RECORD OF MARES AND SIRES.

THE
Hunters' Improvement Society

Has in View the following Objects :—

1. To improve and encourage the breeding of Horses for Hunting, Riding, Driving and Military purposes.

2. To give Premiums at Spring Shows, and obtain for breeders and tenant-farmers the use of sound Stud-horses at moderate service fees.

3. To publish Records of Hunter Mares and Sires, and use means to induce the various Agricultural Societies to offer prizes at their Shows for Mares and Young Stock.

4. To attract public attention to a subject so important to the nation, and to spread knowledge of the principles upon which better horses may be bred.

P R E F A C E .

THE Council beg to submit herewith the Fifth Volume of the Record of Mares and Sires, and have the pleasure to report a large increase in the number of registered Hunter Mares, as will be seen from the appended statement of the entries in the five Volumes,—

		Vol. I.		Vol. II.		Vol. III.		Vol. IV.		Vol. V.
Entries	141	..	143	..	198	..	191	..	251	
Re-entries.. ..	—	..	141	..	49	..	63	..	52	
	<hr/>		<hr/>		<hr/>		<hr/>		<hr/>	
	141	..	284	..	247	..	254	..	303	

Further, the figures of the present Volume are augmented by the inclusion of the thirteen entries of Hunter Sires, registered under the new rules.

In drafting the Conditions of Entry for Volume V. the question of admitting Stallions (not Thoroughbred) to registry under approved conditions was most thoroughly discussed, and the result of the Council's deliberations found expression in the regulations preceding the entries on page 1, from which it will be seen that the primary qualification for registry is—that the Stallion must have won races under Jockey Club Rules, or open races under Grand National Rules.

The first entry of Stallions complying with these rules must be considered satisfactory, and the Council hope that the publicity given to these entries in Volume V. will induce more owners to come forward and register their Hunter Stallions.

The pedigrees of the Sires registered extend back some four or five generations, and they are horses of good blood and racing capabilities, whose stock are possessed of speed as well as stamina and substance.

In accepting entries for this Volume it was deemed desirable to obtain information relative to celebrated Hunter Sires and Dams, not registered in the General Stud Book, but which have sired and bred many valuable horses, contributing in no small measure to the

maintenance and improvement of Horse-breeding. The particulars given have been collated and inserted with the view of permanently preserving for the information of Members and Hunter Breeders a record of the pedigrees and successes of these horses, and of adding to the interest and value of the Society's book, which was established to place the registry of foundation Hunting stock on a satisfactory basis.

The names of the Stallions and Mares whose pedigrees and performances have thus been specially compiled are :—

ADMIRAL BENBOW.	GALLOPING QUEEN.	MISS HONITON.
DEBONNAIRE.	HESPER.	NEW OSWESTRY.
DRESSMAKER.	KATHLEEN.	SOLFERINO.

Every effort has been made to obtain and verify the details given, and the thanks of the Council are especially due to two of the Lady Members—Miss A. Gore-Booth and Miss M. Temple—and to Messrs. Weatherby for the valuable assistance and information afforded in the compilation of these pedigrees.

Another regulation put in force in this Volume—that no particulars of a pedigree would be accepted unless verified by the breeder's name and address—has been rigidly adhered to; and the Council would like to see a similar rule enforced in the catalogues of all shows where the breeders of the Hunting stock are stated to be unknown.

With the consent and co-operation of their owners, the portraits of three stallions and two mares appear in the present book, viz. :—

CLIO.	GOODCRAFT.	
CROM-A-BOO.	LORD MOLYNNOO.	RAMESES.

The Volume also contains the Awards at the 1892 and 1893 London Shows of the Society, with short statistical statements conveying details of interest and comparison, and giving the location of the Premium Sires in these years; and it further contains particulars of the new scheme arranged by the Royal Dublin Society for the location of Thoroughbred Stallions in Ireland in 1892 and 1893.

G. g. dam, CUMBERLAND LASSIE.

Races won by the g. g. dam "Cumberland Lassie," qualifying "The Baron" for registry in the Record of Hunter Mares and Sires (rule 2):—

"Cumberland Lassie" was purchased in Carlisle, about forty-six years ago, by the father of Mr. John McGowan (of Fairview House, Millom, Cumberland) to whom the Society is indebted for information contained in this entry.

Her racing career commenced at four to five years old, when she won several local flat races and hurdle races, the first (stakes value £10) at Arrotfoot, the second a hurdle race at Cockran, near Lancaster, for £25; next she won £100 at the Flaw Hurdle Races at Ulverston. She was then sold to a gentleman at Stores Hall, Windermere, winning in his possession, hurdle races at Lancaster, and was claimed at £150; she also won a steeplechase at Kendal; and at Carlisle won a match of £100 against "Ellen McGregor." She broke down in a race at Liverpool, being two fields in front of the others; after which she was sold for breeding purposes, and went, Mr. McGowan believes, to Ireland. Her height was about 16 hands, and she was about three parts blood. Mr. M. J. Cranke, of Midtown, Urswick, Ulverston, "remembers seeing the mare run and win in a canter" at the Flaw Sports, forty-five years ago.

 June 18th, Alexandra Handicap of £175 at Alexandra Park.
- 1892 { August 19th, Fratton Handicap Plate of £100 at Portsmouth Park.
 October 5th, Imperial Plate Handicap of £473 at Hurst Park.

His sire VICTOR II. Brown. Foaled 1874, won :—

- 1881 { March 16th, Grand Annual Steeplechase of £147 at Cheltenham.
 May 10th, People's Plate Handicap of £50 at Kells, co. Meath.
 November 11th, Craven Steeplechase of £110 at Liverpool.

In the *Sportsman* of Wednesday, 15th February, 1888, the Special Commissioner in referring to "Victor II.," said, "Another of 'Victor's' family, though thoroughbred only as regards tail male descent, merits more than passing notice. This is 'Victor II.,' the winner of several steeplechases, including the Cheltenham Grand Annual, the People's Handicap at Kells and the Craven Steeplechase at Liverpool. That he was a more than useful steeplechaser will be generally admitted, whilst in evidence of his pluck may be cited a hard-fought battle when Mr. John Beasley just got the better of John Jones on the Lammar Lande. In training 'Victor II.' filled the eye as a thick-set though lengthy horse, scarcely of the average steeplechaser's height, but strongly knit all round, and heavily laden with muscle as to his loins and quarters, his arms and second thighs. Differing in colour, and not quite so lengthy, there yet were about him certain characteristics which distinguished 'The Lamb.' He is not admitted to 'Weatherby,' and perhaps is not quite clean bred, the stain coming from his dam, who was a lengthy, low-standing mare, on a small scale, though wondrous strong, and showing exquisite quality. . . . But what is most extraordinary connected with 'Victor II.' is that his only alliance with a thoroughbred mare has produced that most representative and good colt, 'Admiral Benbow.' Of course, I mean to say the latter's dam alone boasted pure origin among those allied with 'Victor II.' up to the close of the season in which the said youngster was born. True, 'the Admiral's' dam is a highly-bred mare from the Beenham Stud, by 'Doncaster' from 'Queen of Diamonds,' by 'King of Trumps' out of 'Amethyst,' by 'Touchstone,' but she did no good on the turf herself, nor did the results of her alliances with 'Wenlock' and 'Highborn' prove other than utter failures, though in each case, apparently, the progeny was reared." The writer then goes on to say that many thoroughbred mares in Ireland are not registered, and possibly "Maid of Honour" is one of them, and he has no doubt in regarding the pedigree of "Victor II." as though "he sat above the salt."

In response to inquiries, Mr. Edward Jones kindly supplied the following information :—

"Maid of Honour" is by "St. George"; her dam is not in the Stud Book, but no doubt she was thoroughbred, as she was taken by a young officer to join his regiment at the Curragh, and not being quite up to weight as an officer's charger, was exchanged for a half-bred mare. She was then run in half-bred races, in which half-breds were allowed 7lbs. which would exclude her from entering into the pages of "Weatherby" again.

The dam "*Hesperithusa*," *brown mare. Foaled 1855. Won as a three-year-old:—*

- 1858 { June 2nd, Royal Hunt Cup of £200 (with £380) at Ascot.
 { June 24th, Gold Cup Handicap of £140 at Newcastle-on-Tyne.
 { August 2nd, Studley Handicap Plate of £50 at Ripon.
 { August 23rd, Bury Purse of £39 at Radcliffe.

The grand-dam, *Rosaura*, by Don John, was the foundation of the late Colonel Towneley's stud, and was said to have fifteen or sixteen known pure crosses, and yet a "half-bred" in the eyes of Messrs. Weatherby! Her daughter "*Hesperithusa*," was the first foal, and first Cup winner Colonel Towneley ever owned. *Rosaura* was sent to Doncaster to be sold, with her grand-daughter "*Doefoot*," by King of 'Trumps. They returned unsold to Colonel Towneley's paddocks, no bid having been made for them, and *Doefoot* won the Liverpool Summer Cup subsequently, and many other races. See also pedigree of Red Hind (447) in Vol. IV., of the Record.

"New Oswestry" was ridden in most of his Races by "Mr. Charles" otherwise Colonel Rivers Bulkeley, one of the Council of the Hunters' Improvement Society.

In the *Live Stock Journal* of July 14th, 1893, Sir R. D. Green Price, Bart., thus writes of this famous Hunter sire:—

"It is, however, to a grandson of 'Pocahontas' that I am looking, when daring to advocate sires which have not found their way into the Stud Book. I allude to 'New Oswestry,' or rather to his descendants, for he, alas! is dead. He was a son of 'Knight of Kars,' out of 'Debonnaire,' by 'Newminster,' out of 'Mrs. Taft.' . . . The stain of blood, as is generally known, comes from 'Mrs. Taft,' which, nevertheless, was good enough to win the Cesarewitch. I make no apology for placing 'New Oswestry' as the best type of Hunter sire within our recollection, for not only was he a remarkable horse himself—so good, indeed, that, to quote the words recently written by a man who knew him well, and rode him in most of his races, 'there is no doubt but that he was the best horse of his time, and there is little doubt but that he could have won the Liverpool Grand National, Queen's Plates and Cesarewitch the same year.' As it was, he belonged to one of the most eccentric of men, by trade a butcher, who preferred to run him about at all the little meetings for small stakes, rather than give him the

chances he deserved. . . . He was a grand horse to look over : a bay ; with power enough to carry any reasonable weight to hounds, and with the best of tempers : his limbs must have been of cast iron to carry him through the host of encounters (he won fifty races) in which he took part, and he was never known to fall. As a sire, it may safely be said that he never begot a bad one, and no horse had a worse chance : but whether the mare was small or big, light or coarse, it made little difference—the ‘ young New Oswestrys ’ were either good hunters or steeplechasers. Of the latter class I have only to point to ‘ St. Galmier ’* and ‘ Savoyard ’* as specimens, while of hunters their name is legion. One remarkable instance I call to mind is a splendid hunter ridden by a lady in Shropshire, the dam of which was merely a cob, and the brother of this horse was sold for £600 to carry a king or prince abroad.”

RECORD

OF

PRIZE MARES & FILLIES, *that have gained Honours in Hunter classes at Shows in the United Kingdom, and of Hunter Brood Mares and Fillies admitted on Pedigree and by inspection after approval by the Editing Committee, with their Produce to the year 1893, and all that is known of their antecedents.*

The Conditions of entry are as follows:—

- (1) A Mare is eligible for entry which has been awarded a prize, been reserved or highly commended in Hunter classes at any Show in the United Kingdom.
- (2) A Mare, suitable for breeding hunting and half-bred stock, being approved by Editing Committee after inspection by a present or past member of the Council, will be eligible for entry. A Veterinary certificate, stating that the Mare is free from hereditary disease, must accompany each entry under this condition.
- (3) A Mare can be re-entered which has produced foals, or has herself or whose offspring have taken further prizes, or changed owners since the previous volumes were compiled.
- (4) A Mare, by a thoroughbred or registered sire and out of a registered dam, is eligible for entry.
- (5) A Mare, with a Veterinary Certificate of soundness from hereditary disease, may be accepted for registry:—
 - (a) Provided she has won races under Jockey Club rules or Grand National * rules, inclusive of point-to-point races, or
 - (b) Provided her *only* half-bred strain comes directly through an ancestor which has won races under Jockey Club rules or Grand National rules, inclusive of point-to-point races, or
 - (c) Provided her *only* half-bred strain comes directly through a stallion that has sired, or through a mare that has bred, winners of races under Jockey Club rules, or Grand National rules, inclusive of point-to-point races.

The portrait of "Goodcraft" is inserted opposite this entry, and Mr. Boucher James has kindly supplied the following particulars:—

"Goodcraft" was bred by Captain Fife in the year 1886. She is by "King Crafty" (by "Kincraft"), dam "The Good'un" (No. 130). She is a bright bay mare, standing 16·2, on good, clean legs, with plenty of bone. Her feet are good, and her joints short. She has powerful, deep shoulders, a lean hunter-like head, a well-set neck and great depth of chest. Her action is straight and true, and her exceptional value consists in her wonderful combination of substance and quality. Her awards are duly recorded in the current volume of the Record and Vols. II. and IV.

HUNTERS' IMPROVEMENT SOCIETY.

LONDON SHOW, 1892.

It was decided to invite the Judges acting at the 1892 Show to furnish a brief report on the exhibits which came before them, and to supplement this report with a short statistical statement, conveying any details of interest.

Lieut.-Colonel Rivers Bulkeley and Mr. T. H. Hutchinson accepted the Council's invitation to act as Judges, and Mr. Henry Withers kindly undertook the duties of Referee. Owing to indisposition Lieut.-Colonel Rivers Bulkeley was unable to attend the Show, and Mr. John Cooper took his place. The two Judges were unanimous in their awards, and Mr. Henry Withers was not called into the ring to give his adjudication in any one Class.

The Judges report as follows :—

The Society is to be congratulated upon the Show. Many most promising young hunters were brought before us, and, taken as a whole, showed more good breeding than those exhibited at former Shows.

Whatever may be said or written to the contrary, if you want a hunter that can really follow hounds you must have blood and plenty of it; if you want to breed a quiet, strong, slow horse that will do for a fat old man to trot about upon, and get an appetite for his dinner, it matters little whether you breed from a cart mare or use a half-bred stallion. At this Show it is most satisfactory to find a large proportion of the winners are by the Government premium sires.

1892
Show.

Judges
and
Referee.

Judges'
Report.

Class 1.—Mares, four years old,—13 entries.

The premium winners were five good mares, two or three of which ought to make very valuable hunters, and are good enough to win in any show-yard.

Class 2.—Mares, three years old,—14 entries.

This Class contained some beautiful fillies; three or four of the best are by premium sires, and the youngsters certainly do them credit.

Class 3.—Mares, two years old,—23 entries.

Amongst them were several blood-like galloping fillies, and to five of these we awarded the premiums and fancy that when they are ridden to hounds they will be able to hold their own in good company.

Class 4.—Yearling Fillies,—25 entries.

Twenty-three appeared before us: they made a good Class; the winners were far ahead of the others and ought to grow into nice mares.

Class 5.—Geldings, three years old,—9 entries.

This was not a strong Class, and with two or three exceptions they were only of ordinary merit.

Class 6.—Geldings, two years old,—10 entries.

In this Class there were two or three nice horses, but nothing very striking; as a rule, the geldings were not as good as the fillies.

Class 7.—Yearling Colts or Geldings,—12 entries.

This was not a strong Class: some of the five premium-takers looked fairly well bred, and will most likely grow into nice horses.

T. H. HUTCHINSON.
JOHN COOPER.

The foregoing report shows that the mares and fillies exhibited were superior to the geldings and colts, and this can be easily understood when it is remembered that the latter appeared for the first time in the Society's prize-list; and the same improvement in quality and numbers that has taken place in the mares and fillies may be looked for among the colts at future Shows.

The Council prepared a liberal prize-list for the young stock divided into the preceding seven Classes.

In each of the mare and filly Classes five premiums of £15 were offered, and in each of the gelding and colt Classes five premiums of £10, but it must not be inferred that Brood Mares were omitted from participating in the prize money given by the Society, as, provided they were registered in the *Prize Record* or entered for registry in Volume 5 on or before February 1st, 1892, they were awarded £5 through the success of their produce (colts and fillies) without the risk incidental to their exhibition at a time that is considered to be injurious to their breeding prospects.

The amount of money offered was therefore :—

Classes 1, 2, 3 and 4.—20 Premiums of £15	£300	Amount of
Classes 5, 6 and 7.—15 Premiums of £10.....	150	Premiums
Breeders' Premiums	175	
	<hr/>	
	£625	
	<hr/>	

As compared with :—1889	1890	1891
£300	£420	£415

And Silver Medals.

The Council recognised the importance of the representations made to them as to the risk of bringing in-foal mares to London at the time of year, and they deemed it desirable that premiums and medals for Hunter Brood Mares should be offered during the summer at the Country Shows. With this view the Society's scheme was last year put in operation when over £119 17s. was distributed. This year's offer has secured the co-operation of twenty-eight County and Agricultural Societies, and the contribution by the Hunters' Improvement Society will not be less than £150.

The money offered for Hunter Brood mares at Local Shows, together with the premiums to breeders at the Society's Show, amounts to £325 as against £307 in 1891.

CLASS 1.—FOUR-YEAR-OLD MARES (FOALED IN 1888).

Class 1.

There were thirteen entries in this Class. This is the first year the four-year-old mares have had a class to themselves, and it is difficult to give any reliable data, but they numbered in the Classes (four-year-old mares and upwards) at the previous shows:—

1887	1888	1889	1890	1891
5	5	4	10	4

The premium winners were:—

Mare.	Previous Awards at the Society's Shows.	
Carina (502)	...	Premium 1891.
Dorothy (319)	...	Premiums 1890 and 1891.
Miss Lewis (612).		
Sunshine (653)	...	Premiums 1890 and 1891.
Zingara (482)	...	Premium 1890.

"Carina's" dam, "Queen Mab" (254), has another winner at this Show in "Saffron" (866) (Class 4). "Dorothy" is out of "Yorkshire Lassie" (141), which has bred several winners at the Society's Shows.

The Reserve:—"The Queen" (657), out of the well-known "Lavinia" (74), gained premiums in 1890 and 1891, while the commended mare, "Phœbe" (622), was awarded a premium in 1891.

CLASS 2.—THREE-YEAR-OLD MARES (FOALED IN 1889).

Class 2.

The five mares to which the Judges awarded honours were:—

Mare.	Previous Awards at the Society's Shows.	
Blue Empress (497)	...	H.C. 1891.
Clematis (715)	...	Premium 1891.
Lady Scot (568)	...	Premium 1891.
Ladybird (560)	...	Reserve 1891.
Rachael.		

And among the entries in this Class were several mares which have appeared in the prize lists of former Shows:—

Doris	...	Premium 1890.
Kathleen	...	Premium 1891.
Miss Peel (613)	...	Premium 1891.
Vesta (663)	...	Premium 1890.

The entries numbered fourteen as compared with :—

1887	1888	1889	1890	1891
8	9	15	17	18

CLASS 3.—TWO-YEAR-OLD MARES (FOALED IN 1890).

The mares to which the Judges awarded premiums in this Class 3. Class were :—

Mare.	Previous Awards at the Society's Shows.
Lady Hamilton	... Premium 1891.
Pansy (838)	
Puritan (631)	... Commended 1891.
Queenie	... Reserve 1891.
Ruby	

Of these five premium mares "Puritan" (631) is out of "Goodcraft" (187), awarded the Society's Gold Medal at last year's Compton Stud Co.'s Show. "Puritan" is sired by "Huguenot" (a premium horse) and her dam was by "Kingcraft," a premium sire in 1886. The Reserve in this Class, "Sweet Briar," is a daughter of "Wild Briar" (481), a premium-taker in 1891; and the commended mare, "Romany" (640), is own sister to "Zingara" (482), one of the successful mares in Class 1. "Lady Connaught" (561) and "Mrs. O'Shea" (824)—other entries—each claimed premiums in 1891.

The entries of two-year-old mares have increased since their inclusion in the prize-sheet in 1886 :—

1886	1887	1888	1889	1890	1891	1892
6	6	5	18	18	20 *	23

CLASS 4.—YEARLING FILLIES (FOALED IN 1891).

Twenty-five entries (as compared with eighteen in 1890 and twenty-six in 1891) were sent in for this Class, and twenty-three were inspected by the judges, who selected for premiums, Class 4.

Filly.	Filly.
Duchess of Connaught (527).	Queen of the May (861).
Lady Fife (775).	Saffron (866).
Miss Prudence (820).	

The first-named comes of a distinguished family of premium-takers, her dam, "Princess" (247), being among the Society's list of winners in 1888, and a daughter of "Lavinia" (74).

"Lady Fife's" dam, "Duchess" (524), took the Society's Gold Medal at Bath last year, while the dam of "Miss Prudence"—"Prudence" (630) has bred another winner, her filly, "May Morn" (399), having won a premium in 1889. "Saffron" is the second filly out of "Queen Mab" (254), securing a premium at this Show. The dam, "Petticoat" (843), of the reserve filly, "Nightgown," was a Gold Medal mare at the Lincolnshire Show last year.

CLASS 5.—THREE-YEAR-OLD GELDINGS (FOALED IN 1889).

Class 5. Nine entries were made in this Class, and the awards went to the following:—

Gelding.	Gelding.
Blue Jacket.	King Arthur.
Blue Regent.	Prime Minister.
General Servant.	

The first two named and the Reserve gelding, "Belwade," are out of registered mares.

CLASS 6.—TWO-YEAR-OLD GELDINGS (FOALED IN 1890).

Class 6. The five winners out of the ten entries were:—

Gelding.	Gelding.
Dutchman.	Strathmore.
Gadabout.	The Major.
Oak-apple.	

Strathmore's dam, "Stella" (649), was awarded the Society's Medal at the Ripon and District Society's Show in 1891, and "Brown Bess" (25), the dam of "The Major," has bred several successful animals, her 1888 foal "Royal Windsor" having taken 1st in 1889 at the Royal Show, Windsor.

CLASS 7.—YEARLING GELDINGS OR COLTS (FOALED IN 1891).

Class 7. The twelve entries included eleven colts and one gelding, and the dams of the winners have distinguished themselves as prize-takers or the dams of other prize-winners:—

Colts.	Dams.
Banker (Gelding)...	Evelyn (533), Premium 1891, Compton Stud Co.
Bumptious ...	Holdfast (550), Premium 1891, Hunters' Improvement Society.

Colts.		Dams.
Councillor	...	Mermaid (94), Premium 1889, Hunters' Improvement Society; 1st Royal Show, Windsor, 1889.
Prince Pero	...	Lavinia (74).
Sweet Sam	...	Dunny (322).

Thirteen "Premium" sires contributed fifteen winners in the above list, as follows:—

Blue Grass	2.	Marioni	1.
Connaught	1.	Omega	1.
Huguenot	1.	Pearl Diver	1.
Jack Tar	1.	Prestonpans	1.
King Alfred	1.	Ruddigore	2.
Knight Templar	1.	Scot Guard	1.
Linnæus	1.		

At the close of the 1890 show there were 62 Thoroughbred stallions, which had been awarded Service and "Queen's" Premiums*. Taking a low estimate and assuming there are only 400 Thoroughbred and Hunter Stallions serving Hunter Mares in the country, the 62 Premium Sires would represent about $\frac{1}{7}$ of the Stallions serving. There are 15 out of 35 winners sired by Premium stallions, which is equal to $\frac{3}{7}$ of the whole or 3 times as many as should have been expected from the Premium horses.

Proportion of winners contributed by Premium sires in excess of expectation.

THOROUGHbred STALLIONS.

The entries of Thoroughbred Stallions showed an increase over those of the previous years, 117 being entered for the 22 Queen's Premiums of £200 offered by the Royal Commission on Horse-breeding, and the 3 Premiums of £200 and 3 Gold Medals offered by the Royal Agricultural Society of England, and the Warwick Local Committee respectively.

The Show, held conjointly with the Hackney Horse Society, was carried through successfully, and the Council are indebted to the Stewards, Mr. J. B. Ellis, Major G. C. Ricardo and Mr. Frank Usher, for the manner in which their share in the arrangements was performed; and to Mr. Henry Withers, Mr. John Cooper and Mr. T. H. Hutchinson for the duties kindly undertaken by them.

Success of
Show.

The seating accommodation was considerably reduced by the London County Council, who would not allow any seating to be erected over the Exhibitors' Stalls, much to the inconvenience of members and the public; otherwise the Eighth Show may be regarded as one of the most successful which have been held under the management of the two Societies.

At the Seventh Annual General Meeting, Lord Middleton, the President, referred to the comparatively small number of members of the Society, considering the number of gentlemen who hunt and who necessarily benefit by the work of the Society, and suggested that each member should do what he could to obtain new subscribers. The Council desire to impress on members the necessity for such action.

HUNTERS' IMPROVEMENT SOCIETY.

LONDON SHOW, 1893.

FOLLOWING the precedent adopted at the previous Show the Council decided to invite the Judges to draw up a short report on the various Hunter Classes which came before them, supplementing their remarks with a few statistics bearing on the salient points of the Society's Ninth Annual Spring Exhibition.

Agreeably to this decision the judges—Major Langlands and Mr. R. J. Mann—submitted the following report :—

Judges'
Report.

In bringing our report before the Society, we would beg to state that we were much impressed with the excellence and the forward condition in which the young stock were brought up for exhibition, and we are of opinion that this state of things is of great advantage to breeders, as the more forward in condition young stock can be produced the more marketable they are.

It is a very satisfactory feature that many of the young horses which have gained premiums and commendation are sired by the Royal Commission Stallions.

- Yearlings. Yearlings.—These Classes were exceptionally good; they were well grown, good movers and showed plenty of quality and substance; this, combined with action, carries weight.
- Two-year-olds and Three-year-olds. Two-year-olds.—The same remarks apply to the Two-year-old Colts and Fillies, but when we came to the Three-year-olds, though much pleased with the Fillies, we were on the whole disappointed with the Colts, both in point of numbers and quality.
- Four-year-olds. Four-year-olds.—The Four-year-old Mares left the judges but little choice, as only six Mares appeared to compete for the five premiums offered.

In concluding our remarks we would draw attention to the great improvement in the young stock exhibited since the Hunters' Improvement Society started, and we would point out to breeders the advisability of using Premium Stallions and well-bred Mares.

ROBERT J. MANN.

J. S. LANGLANDS.

Referee. Mr. Henry Withers, on the invitation of the Council, again acted as Referee.

Prize Lists of 1892 and 1893. It may be well, before dealing with each Class, to briefly review the Prize lists of this and the preceding year, and it may be at once noted that though the amount offered for competition last March was less than in 1892, the total entry showed an increase.

The Classes for Mares were drafted on the basis of the previous year, viz. five equal premiums of £15 (with £5 to the breeders in all cases where the dams had been registered in the Record of Hunter Mares and Sires) for four, three, and two-year-old mares and yearling fillies. The Classes for three and two-year-old geldings were thrown open to colts; but only one colt (and that a reserve number) received recognition at the

hands of the judges. The five premiums of £10 in last year's list were reduced to three, with a proviso, in the two-year-old and yearling classes, that if more than fifteen entries were made in either class an additional premium of £10 would be offered, and the seventeen entries in each class secured the award of the extra premium of £10, with the accompanying breeder's prize.

The following comparative table shows the respective monetary value of, and entries in each class for the last five Shows:—

‡ No breeding qualification.

While retaining the class for Thoroughbred Stallions, not competing for Queen's Premiums, the Council introduced a new feature in the Society's Prize List by the institution of a

Hunter
Sires.

class for Hunter Sires (not Thoroughbred), registered or eligible for registry in the Society's Record, under the following rules:—

A Half-bred Stallion may be accepted for registry as a Hunter Sire on the following conditions:—

- (1) Provided he has won races under Jockey Club rules, or open races under Grand National rules, or
- (2) Provided his *only* half-bred strain comes directly through an ancestor which has won races under Jockey Club rules, or open races under Grand National rules; or
- (3) Provided his *only* half-bred strain comes directly through a stallion that has sired, or through a mare that has bred, winners of races under Jockey Club rules, or open races under Grand National rules.

Any of these Hunter Sires approved by the Judges, after veterinary examination, would receive the Society's Silver Medal.

The privileges assured to Thoroughbred Sires in the award of the Society's Gold Medal at Country Shows are also extended to them, and mares with foals by Registered Hunter Sires are now eligible to compete.

Local
Scheme of
Premiums
and Medals

The scheme of premiums and medals for Hunter Brood Mares at Country Shows grows apace each year, and make annually a greater demand on the Society's funds, having increased during the three years of its existence in the following manner:—

	1891.	1892.	1893.
Number of Societies co-operating ..	20	28	34
Grant by Hunters' Improvement Society	£119 17s.	£150 2s.	£191 5s.

These figures speak for themselves, and show how fully this section of the Society's efforts is appreciated, and though the increasing applications bear heavily on the Society's financial resources, the Council are keenly alive to two great benefits accruing from the existence of the scheme—firstly, the award of these prizes to Hunter Brood Mares at their own local Shows obviates the risk and danger incidental to their

exhibition in London in the spring; and secondly, and equally important to tenant-farmers and Hunter breeders, the local Societies have in the majority of cases *doubled* their prizes for Hunter Brood Mares to obtain this Society's Medal; no Society giving less than £25 in prizes for Brood Mares being able to secure the grant.

To insure the sequence of the classes in the Catalogue the Thoroughbred Stallions, not competing for premiums, and entered as "Extra Stock," followed those entered for the Queen's Premiums and were arranged in Class I., and it will be well to follow this numerical order in dealing with the statistics of the Show.

CLASS 1.—THOROUGHbred STALLIONS (NOT COMPETING
FOR PREMIUMS).

Three entries, as compared with five in 1892, were made Class 1.
in this Class, and each stallion had "won his spurs" in previous competitions for service Premiums:—

Marshal Soult	...	Queen's Premium 1892.
Scot Guard	...	Premium (Hunters' Improve-Society) 1886.
Westburton	...	Queen's Premium 1888.

Silver medals were awarded to all three Stallions.

CLASS 2.—HUNTER SIREs (NOT THOROUGHbred), REGISTERED,
OR ELIGIBLE FOR REGISTRY IN THE SOCIETY'S RECORD.

Three entries were also made for Class 2, but only two of these Class 2.
came to the Show, the absentee being "Henry Benedict" (4), owned by Miss M. Temple. His dam is by the celebrated Hunter Sire "New Oswestry" (13), whose extended pedigree and principal races will be found on pages 12 and 13.

"Sir George" (7), by "Favo," out of "Georgina," by "Roman Bee," out of "Cimeraire," by "Rapid Rhone," out of "Calcavella," by "Burgundy," out of "Certe," by "Sir Hercules," was exhibited by Mr. Guy Fenwick and was bred by Mr. Rice Meredith of Rathbride Manor, Kildare, Ireland. He is a bay horse with black points, foaled in 1885, standing 16·1

high, and his success in the Leopardstown Handicap on August 27th, 1888, entitled him to registry and exhibition.

"The Baron" (9), the other exhibit, is by "Bravado," out of "Patch," by "Ernest," out of "Jessie," by "Contract," out of "Cumberland Lassie,"—a noted winner of races on the flat and over hurdles some forty-six years ago, winning, among others, a match of £100 against "Ellen McGregor."

The owner of "The Baron" was Mr. J. E. Huddleston, Hill Wood, Tenbury, who also bred him. This horse has also been represented at the Society's Shows as a successful Hunter Sire by his daughter "Duchess," which took a premium at the 1891 Show as a yearling filly, while another of his produce, "Baroness," was commended in the same year.

Silver medals were awarded to both Stallions.

CLASS 3.—FOUR-YEAR-OLD MARES (FOALED IN 1889).

Class 3.

The entries in this Class do not compare favourably with those of the preceding year, though the same amount in prizes was offered. Seven entries for premiums value £100 cannot be considered a satisfactory response.

A winner in the three-year-old Mares in 1892, "Clematis," was again selected for honours.

The five premium Mares were : —

Mare.	Previous Awards at the Society's Show.
Bonny Girl (699) ...	Premium 1891
Clematis (715) ...	Premiums 1891 and 1892.
Dimples ...	Commended 1891.
Miss Peel (613) ...	Premium 1891.
Sweet Briar.	

"Lady Rose," the Reserve Mare, was sired by the well-known "Lancastrian," Premium Stallion in 1888, 1889, 1890 and 1891.

CLASS 4.—THREE-YEAR-OLD MARES (FOALED IN 1890).

Class 4.

The entries showed an increase of five over the corresponding

1892 Class, and three winners in last year's list again figured as premium-takers:—

Mare.	Previous Awards at the Society's Show.
Caramel (709)	
Lady Hamilton ...	Premiums 1891 and 1892.
Queenie ...	Reserve 1891 ; Premium 1892.
Romany (640) ...	Commended 1892.
Ruby ...	Premium 1892.

“Caramel” was a new comer, but “Lady Hamilton,” by her present win, secures a premium in three successive years. “Queenie,” Reserve in 1891, improved her position in 1892 by securing a premium and has maintained her place in the prize-list, while “Romany” changed her commendation of last year into a prize-card. “Ruby,” the property of Mr. John Beach, again takes the position among the winners that she occupied last year as the property of Miss A. K. King.

The reserve mare “Pansy” (838) won a premium in 1892, while the dam of the highly-commended “Cocoatina” (718) was sired by “Huguenot,” a premium sire. Among other entries in this class were “Lady Connaught” (561), and “Puritan” (631), which won premiums in 1891 and 1892 respectively; in fact, this class contained eight animals which, as two-year-olds, faced the Judges at the Society's Show last year.

CLASS 5.—TWO-YEAR-OLD MARES (FOALED IN 1891).

Twenty-two entries were made for this Class, and the premium-winners included two of last year's successful competitors:—

Mare.	Previous Awards at the Society's Show.
Duchess of Connaught (527) ...	Premium in 1892.
Oak-apple.	
Queen of the May (861) ...	Premium in 1892.
Stella (892).	
Truce (903)	

The mare "Stella" (892) fully justified her selection in the prize-list, as she has taken during 1893 the First Prize at the Royal Show, the Doncaster, Peterborough, Lincolnshire, Leicestershire and the Great Yorkshire Shows. The Reserve mare "Hesper" (764) was by a Premium horse, "Homely," out of an inspected mare, while "Lady Fife" (775), a premium mare in 1892, was highly commended. "Souvenir," also awarded a high commendation, is out of " Middleton" (813), a mare that has bred several foals, two of which, " Middleton" and "Nigel," have gained several Firsts and Seconds. "Souvenir" is sister to "Stella" (649) awarded the Society's Gold Medal at Ripon in 1891. Mr. Joicey's "Peppermint" mare (842) was also highly commended, being out of "Astasia" (680), which won the Beaufort Hunt Jubilee Steeplechase in 1887.

CLASS 6.—YEARLING FILLIES (FOALED IN 1892).

Class 6.

The entries here numbered eighteen, and the five fillies awarded premiums were:—

Daybreak (731).

Lady Cecil.

Miss Kheen (819).

Ruddigore filly.

Sweetheart.

"Goodcraft" (187), so well-known in the prize-ring as a Hunter Brood Mare, was the dam of the "Ruddigore" filly so that the successes obtained by both parents are continued in the next generation. The Reserve, "Falka," is out of "Marion" (807)—a winner in the Hunter Brood Mare Classes at the 1891 Show of the Society. A thoroughbred filly "Princess Marion," by "Ruddigore," out of "Queen Marion," by "King Tom," was highly commended, as were "Festive" and "Real Gem," the latter by "Pearl Diver," out of the registered mare "Dunny" (322).

CLASS 7.—THREE-YEAR-OLD HUNTER COLTS OR GELDINGS

(FOALED IN 1890).

The fourteen entries made for this Class were composed of Class 7. four Colts and ten Geldings, but in the award of the three premiums and other honours the geldings "swept the board."

The three successful animals were :—

Geldings.

Bruno.

Hansard.

Whitewings.

and were new comers, as well as the Reserve "Rufus," but "Gadabout," which was commended, appeared last year as a premium-taker.

CLASS 8.—TWO-YEAR-OLD HUNTER COLTS OR GELDINGS

(FOALED IN 1891).

The proportion of colts to geldings among the seventeen Class 8 entries in this Class was five to twelve, and one Colt "Huntsman"—was noticed and placed Reserve.

The four selections for premiums were :—

Geldings.

Bay.

Firelight.

Prince Pero.

Blue Blood gelding.

Only one had before appeared as a winner at the Society's Show, viz. : "Prince Pero," which, as a yearling, was allotted a premium in 1892. His dam, the famous "Lavinia" (74), is certainly honoured at this Show, for two of her offspring, "Prince Pero" and "Lord Pero," gain premiums as two-year-old and yearling colts respectively, while her granddaughter, "Duchess of Connaught" (527), and grand-son, "Count Bercey," are also winners in Classes 5 and 9. "Jim," the Reserve number in the yearling colts in 1892, was unnoticed.

CLASS 9.—YEARLING HUNTER COLTS OR GELDINGS (FOALED
IN 1892).

Class 9. The seventeen entries, the same number as received in Class 8, were composed exclusively of colts, and the Judges awarded the four premiums as follows :—

Colts.

Count Bercy.

Lord Pero.

Make Haste colt.

Prince Idwal.

Reference has been made to “Count Bercy” and “Lord Pero.” The “Make Haste” colt is out of “Heroine” (763), an inspected mare, while the dam of the Reserve “Melrose” won the Society’s Gold Medal at the Bath Horse Show, 1891.

Awards.
Premium
Sires.

Thirty-one Premiums were awarded, seven animals were reserved, eleven highly commended and one commended. Nine “Premium Stallions” sired eleven winners. The following table shows the successful sires in 1892 and 1893 :—

SUCCESSFUL PREMIUM SIRES.

"Ruddigore" has this year increased his winning produce to three, and again occupies the top of the list, shared last year with "Blue Grass," which does not this year contribute. "Connaught" and "Omega" again have one winner; while the other Stallions siring each a premium-taker at the Society's Show in 1893 are "Blue Blood," "Eglamore," "Friar Rush," "Huntingtower," "Peppermint" and "Sam Kheen." Of the seven Reserve numbers three were sired by Premium Sires, while six of the eleven high commendations were accredited to five other Premium horses, "Ruddigore" again leading the way with two in this section of honours.

THOROUGHBRED STALLIONS.

The number of stallions entered to compete for the thirty Entries.
Queen's Premiums offered by the Royal Commission on Horse-Breeding decreased in 1893 to 105, as compared with 117 in 1892. The Royal Agricultural Society of England did not this year offer their Service Premiums, and the Royal Commission on Horse-Breeding decided to reduce the value of the Queen's Premiums to £150 each and increase the number to thirty, which enabled six stallions to be allotted to Scotland where four were previously located, and added another stallion to District Class B, to District Class C and District Class F, thus increasing the stallions serving by five horses.

Fourteen of the twenty-five stallions serving in 1892 were again awarded "Queen's Premiums," while sixteen other stallions were selected by the Judges appointed by the Royal Commissioners on Horse-Breeding—the Earl of Lonsdale, Lord Marcus Beresford and Rev. Cecil Legard—to serve under the 1893 scheme. Seven of last year's winners were among the competitors at the last show, but were not honoured with awards, another, "Marshal Soult," was exhibited in the Extra-Stock Class, while the remaining three horses were not entered for competition. A rule of importance was enforced by which a stallion which had won four Queen's Premiums in the same District Class was ineligible for entry again in the same class, but was eligible for any other District Class.

Awards marked (R.A.S.E.) refer to the service premiums offered by the Royal Agricultural Society of England, and those with brackets (H.I.S.) refer to the premiums offered by the Hunters' Improvement Society; all others relate to the Queen's Premiums.

The Show was undoubtedly a great success, the attendance of the members and the public being so large on three of the four days of the Show, that the grand stand accommodation was taxed to its utmost capacity, and many subscribers arriving somewhat late in the afternoon were unable to obtain seats. This, combined with the inadequate accommodation for the ever-increasing number of entries, has led the Joint Horse Show Committee to fully consider the whole question with the possibility of keeping the judging within the prescribed times, and giving the members an opportunity of witnessing a full parade of the exhibits.

It was felt that the Show could not go on under the existing combined arrangement, and that one or more of the Societies concerned must withdraw. The outcome of several meetings resolved itself into the separation (after nine combined Shows) of the Hackney Horse Society and the Hunters' Improvement Society, the former taking the week usually occupied jointly by the two Societies, while this Society will devote a third week to its own Show, at which the Royal Commission on Horse-Breeding will offer their Queen's Premiums. Each Society will therefore have its own Show, able to do what was impossible under the old conditions viz. to develop and improve it, and therefore in a better position to forward the interests of the two breeds in which they are severally interested.

In thus separating this Society can look back with pleasure to the sincere and harmonious feeling which has always actuated the joint efforts of the two Societies in the administration of their Joint Show, contributing not only to its present success, but also to the encouragement and promotion of Horse-Breeding.

To the Stewards, Mr. J. B. Ellis, Major G. C. Ricardo and Mr. Frank Usher, the sincere thanks of the Society are due for the able manner in which they grappled with and overcame the difficulties of the large Show.

The Council have re-organized their prize-list for the next Show on a comprehensive and liberal basis, and they now look to Hunter Breeders and Exhibitors for support to enable the Society to make this, their trial Show, a permanent Annual Exhibition, at which the best types of Hunters, and the young produce of Premium Sires and Registered Mares may be seen, thus enlarging the scope and amplifying the aim of the work of the Hunters' Improvement Society.

A full list of the awards in 1893 is given on pages 170 to 180, and 191 to 198.

District Class F. (*continued*)**RAMESES.** *See page 182.*

The portrait of this horse is given opposite, and in response to the Society's request, the owner, Mr. J. C. Harford, has kindly furnished the following particulars:—

"Rameses" is a rich dark brown horse with a white star on his forehead, stands 16·0½ hands high with plenty of bone, he is a beautiful mover and has a grand back and loins, and the very best of legs. He was bred by Lord Bradford, and is by "Chippendale," out of "Goddess," by "Cramond," and was trained by John Nightingale, and ran twice as a two-year-old; he was then trained for steeplechasing, but bought by me in March 1889 before he had run, and served for three seasons in Cardiganshire, getting very good stock; in 1892 he was shown for the first time in London, and won a premium in Class F of £290, and the Agricultural Society's Gold Medal, and was exhibited at Warwick; he stood that year at Ludlow. In 1893 he was again shown in London, and again won a premium in Class F of £150, beating a great many good horses; and stood again in Cardiganshire. Besides these successes he has won many prizes at local Shows and never been beaten; his stock are big, with good bone, and as a rule, show plenty of quality, and he has been very successful with half-bred mares, and is besides a very sure foal getter.

The Royal Dublin Society.

SEASONS 1892 and 1893.

LOCATION OF THOROUGHBRED STALLIONS.

THE regulations drawn up for the administration of that portion of the Subsidy of £5000, set apart for encouraging Improvement in the Breed of Horses in Ireland during the seasons 1892 and 1893, differ so materially from the procedure followed in previous years that the particulars of the Horse-Breeding scheme (kindly supplied by the Royal Dublin Society) are given in detail, with the prefatory note issued with the list of registered Thoroughbred Stallions for 1893.

A list of the Stallions, with the Counties in which they stood in 1892 and 1893 and the number of services and the amount of service fees, has been summarised and is given in two tables at the end of the scheme.

PREFATORY NOTE.

OWNERS of Thorough-bred Stallions in every County in Ireland were invited to Register their horses for service under the Horse-Breeding Scheme of 1893, as in the previous year. The conditions of Registration required that the Stallion shall be entered in Weatherby's Stud Book; shall be over three and not over eighteen years of age; shall, by the Royal Dublin Society's Veterinary Surgeons, be declared free from all hereditary diseases, and shall in other respects be considered suitable for the objects of the Horse-Breeding Scheme.

Applications were received for the Registration of 137 Stallions.* Of these Stallions, 11 failed to pass the Veterinary inspection. Eight could not be registered for other reasons. The remaining 118 were accepted, and appear in this Register.

Special importance was attached to the test of soundness. The Veterinary inspections were carried out by the Royal Dublin Society's Veterinary Surgeons at the stables of the owners. This work involved a considerable outlay, but it was felt that the advantages to the public of having so large a number of Stallions passed through a searching Veterinary examination would amply justify the expenditure.

Every one of the 118 Stallions has, by the Royal Dublin Society's Veterinary Surgeons, been declared free from all hereditary diseases. This fact is of importance to many beside

* In 1892 the figures were:—Applications for registry, 147; 29 failed to pass the Veterinary inspection and 17 could not be registered for other reasons. The regulations for 1892 were similar to those enumerated in the subsequent pages.

the sixteen hundred Farmers who will this year receive direct benefit from the grant for promoting improvement in Horse-Breeding in Ireland.

The directions issued to the Veterinary Surgeons are as follows:—

1. "If the Stallion suffers from one or other of the following hereditary diseases, viz. Roaring, Whistling, Ringbone, Unsound Feet, Navicular Disease, Spavin and Cataract, the Certificate is to be marked *Unsound*.

2. "If the Horse is free from these diseases, the Certificate is to be marked *Sound*.

3. "No other remarks are to be entered on the Certificate as to the condition of the Horse.

4. "The Veterinary Surgeon is requested to make the inspection of the Horse most careful and searching. He is in particular to thoroughly test the Horse as to the soundness of his wind. For this purpose the Veterinary Surgeon is advised to carry with him a lunge rope, not less than 36 feet long, as in some cases Owners of Stallions may not have such a rope conveniently at hand.

5. "Veterinary Surgeons are particularly requested to regard the results of the inspection as *strictly confidential*."

The Veterinary Surgeons reported that Roaring, Whistling, Ringbone and Cataract were the prevailing ailments with which unsound Horses were found to be affected.

A satisfactory feature reported by the Veterinary Surgeons in some districts is that *fewer unsound* Stallions were submitted for Registration, and also that several horses, rejected last Season* by the Horse-Breeding Committee, *have disappeared* from the Country.

HORSE-BREEDING SCHEME—1893.

The following are the Regulations for the administration of that portion of the Subsidy of £5000, set apart for encouraging Improvement in the Breed of Horses in Ireland, during the Season 1893 :—

1. The sum of £3200 shall be divided amongst the 32 Counties in Ireland in the proportion stated below for allotment in Nominations to Thorough-bred Stallions Registered for the purposes of this Scheme for approved Mares, the property of Farmers, the tenement valuation in aggregate of whose holdings does not exceed £150 a-year—the term Farmer to be understood to mean a person who derives his means of living from farming.

Division
of the
Grant.

2. The subsidies to the various Counties shall be as follows :

Antrim	£100	Limerick	£110
Armagh	80	Londonderry	90
Carlow	90	Longford	90
Cavan	90	Louth	80
Clare	110	Mayo	100
Cork	160	Meath	100
Donegal	80	Monaghan	80
Down	110	Queen's County	100
Dublin	80	Roscommon	100
Fermanagh	80	Sligo	90
Galway	100	Tipperary	140
Kerry	110	Tyrone	100
Kildare	100	Waterford	100
Kilkenny	110	Westmeath	100
King's County	100	Wexford	140
Leitrim	80	Wicklow	100

3. County Committees will be appointed, to whom all questions connected with this Scheme in the County may be referred.

County
Commit-
tees.

4. The County Committee shall take such steps as they may consider necessary to secure that none but suitable Mares shall receive Nominations ; young Mares to have the preference, and particular attention to be given to size, soundness and general fitness for breeding.

Duties of
County
Commit-
tees.

5. Every decision of the Local Committees shall be subject to confirmation by the Royal Dublin Society.

6. The conditions attached to the award of the Nominations are as follows :—

Registration of Stallions.

(a) The Nominations for Farmers' Mares shall be confined to Stallions annually Registered by the Royal Dublin Society for the purposes of this Scheme.

Shows of Mares.

(b) The County Committee shall, upon a day and at a place duly advertised in the local newspapers, hold one or more Exhibitions of Mares for the purpose of issuing Nominations.

Mares entitled to Nominations.

(c) The Mares to receive Nominations shall be selected by Judges named by the Royal Dublin Society, must be passed free of any hereditary disease by the Society's Veterinary Surgeon, and must be the property of Tenant Farmers in the County, whose aggregate valuation does not exceed £150 a year.

(d) A Farmer whose holding extends into more than one County may apply for a Nomination in any one of the counties in which he holds land. No Farmer shall this year receive more than one Nomination.

(e) The County Committee may, with the approval of the Society, refuse a Nomination for any Mare without assigning any reason therefor.

Number of Nominations to each County.

(f) The Nominations issued in any one County shall not exceed one Nomination for every £2 of grant assigned above to that County.

Choice of Stallions.

(g) A Farmer receiving a Nomination may select for his Mare any one of the Registered Stallions whose Service List is not already full.

Fees.

(h) For a Nomination to a Registered Stallion whose Service Fee for Nominated Mares does not exceed £3, the sum of £1 shall be paid by the Owner of the Mare, and the balance by the Royal Dublin Society ; for a Nomination to a Registered Stallion whose Service Fee for Nominated Mares exceeds £3, the sum of £2 shall be paid by the Royal Dublin Society and the balance by the Owner of the Mare. In addition the Farmer shall pay a Groom's Fee of 2s. 6d. for each Mare in each case.

Conditions as to Payment of Fees.

(i) All Fees payable by the Farmer shall be paid to the Stallion Owner at the time of first Service, or at such other time as may be agreed upon between the Stallion Owner and the Farmer.*

* The following table shows the portion of the Fees payable by the Farmer :—

For Stallion Registered to serve Farmers' Mares at—				Amount payable to Stallion Owner by Owner of Nominated Mare, including Groom's Fee of 2s. 6d.			
£	s.	d.		£	s.	d.	
2	0	0		1	2	6	
2	10	0		1	2	6	
3	0	0		1	2	6

4	0	0		2	2	6	
4	4	0		2	6	6	
5	0	0		3	2	6	
5	5	0		3	7	6	

(j) The Nomination is not transferable, and is available only for the selected Mare, except in the case of the death or illness of Mare, in which case it shall be in the power of the Royal Dublin Society or the County Committee to sanction the transfer of the original Nomination, or issue a new one. Cases of illness must be certified by a qualified Veterinary Surgeon.

Nomina-
tions not
transfer-
able.

7. The conditions attached to the Registration of Stallions for the purposes of this Scheme are as follows :—

(a) A Stallion to qualify for Registration must be thoroughbred, and duly entered in Weatherby's Stud Book. He must be over three, and under eighteen years of age, and must be passed free from any hereditary disease by the Society's Veterinary Surgeon, and if he has been to Stud, his Owner must produce satisfactory evidence as to his fruitfulness. The Veterinary examination will be made at Owner's Stables, and free of charge. The Royal Dublin Society shall have the right to have the Stallion inspected at the Owner's Stables, or at such place as may be arranged between the Owner and the Society, by one or more qualified Judges as to his general merit and fitness for the purposes of the Scheme, it being left to the discretion of the Society to waive this Inspection in the cases of Stallions that have, in the opinion of the Horse-Breeding Committee, sufficiently established their character as sires.

Conditions
of Regis-
tration of
Stallions.

(b) The Stallion shall stand during the season at the Owner's Stables, or at such other place or places as his Owner may determine; full particulars as to this to be given when applying for Registration.

Where
Stallions
may stand.

(c) The Owner of a Stallion in applying for Registration shall state the Fee for which he is prepared to give the Service of the Stallion to Nominated Mares—the Fee in no case to exceed the Fee he advertises for Farmers' Half-bred Mares, and the Owner to send to the Royal Dublin Society his printed or advertised list of Fees, for the Stallion, along with the Application Form. The Owner shall also state the number of Nominated Mares he is prepared, if asked, to have served by the Registered Stallion at the Fee named.

Service
Fees and
number of
Services.

(d) Subject to the provisions of Rule 8, the Owner of a Registered Stallion shall be bound to accept for Service by that Stallion such Nominated Mares as are offered to him, provided that the Owner of the Mare complies with the conditions as to payment of Fees, and that the Service list for the Stallion is not already full for the season.

Obligation
of Stallion
Owner.

(e) The Service Season shall be reckoned to commence on the 1st of April, and terminate on the 31st of July.

Service
Season.

(f) The County Committee shall arrange for an Exhibition of the Registered Stallions standing in the County at the same time and place,

of Stal-
lions.

as they hold the Exhibition, or Exhibitions, of Mares, or at such other time and place as the County Committee may decide. Intimation of the time and place of these Exhibitions will be given by the Society to the Owners of Registered Stallions in the County.

(g) Every Stallion Registered for the purpose of this Scheme must be present for the inspection of Farmers at least at one Exhibition of Mares or of Stallions in the County in which he is to stand for Service. In the event of a Registered Stallion standing for Service in more than one County he must appear at one Exhibition of Mares or of Stallions in each of these Counties. If the Owner of the Stallion desires he may send his Horse to all the Exhibitions of Mares or of Stallions held in the County, or Counties, in which he is to Stand for Service.

Return of
Services
to Royal
Dublin
Society.

(h) On the first Monday in October, 1893, owners of Registered Stallions shall forward to the Royal Dublin Society the Orders for the Services effected by their Horses, accompanied by a Statutory Declaration, to the effect that the conditions of Service have been duly complied with. The Society will thereupon, or as soon as satisfied as to the fulfilment of the conditions of the Scheme, make payment of the amounts due to the various Owners. Forms for the declaration required by this paragraph may be had on application to the Agricultural Superintendent, Royal Dublin Society, Leinster House, Dublin.

Applica-
tion Fee.

(i) An Application Fee of £1 will be charged for each Stallion entered for Registration, and a Certificate of the Registration will be issued. The Application Fee shall be placed to the credit of the Horse-Breeding Fund.

Rejecting
Stallions.

(j) The Royal Dublin Society may, without assigning any reason, or without carrying out any Veterinary or other Inspection, decline to register any Stallion for the purpose of this Scheme.

Applica-
tion Forms
for Regis-
tration of
Stallions.

(k) Application Forms for the Registration of Stallions may be had from the Agricultural Superintendent of the Royal Dublin Society, Leinster House, Dublin. This Form, accurately filled in every particular, and signed by the owner or his Agent, must be lodged with, or sent by post addressed to "THE REGISTRAR, Royal Dublin Society, Leinster House, Dublin," together with the Application Fee of £1 for each Stallion, on or before Wednesday, the 1st day of February, 1893. Drafts or Post Office Orders to be made payable to "The Royal Dublin Society."

(l) The form of Application must state the following particulars, relating to the Stallion to be *Registered* :—

Particulars
required
regarding
Stallions.

The name and address of the Owner.

The name and address of the Breeder.

The name of the Stallion, his age, colour and Pedigree, with Weatherby's Stud Book references, as described in the Form.

The County or Counties in which the Stallion will stand.

The place, or places, at which the Stallion will stand for service during the season. If the Horse is to stand at more than one place, state the days and dates at each place.

The Fee for which the Owner is prepared to give the service of the Stallion to Nominated Mares—the Fee in no case to exceed the Fee advertised by the Owner for Farmers' Half-Bred Mares, and the Owner to send to the Royal Dublin Society his printed or advertised Fees, for the Stallion, along with the Application Form.

The number of Nominated Mares the Owner is prepared, if asked, to have served at the Fee named.

N.B.—Information is also asked for—to be given or not at the option of the Owner—as to the Districts in which, if he has been to Stud, the Stallion has been standing in former years ; as to the prizes, if any, the Stallion has won ; as to his racing achievement, if he has been on the turf ; and any particulars the Owner may desire to give as to the produce of the Stallion, or other point relating to the character of the Horse as a sire.

8. Owners of Stallions have a right to require hobbles to be used when necessary, and to refuse Service to Mares suffering from contagious diseases. Mares can only be served at their Owners' risk.

9. In the event of a sufficient number of Stallions for this Scheme not being Registered in any County or District, the Royal Dublin Society shall have the power to provide for such County or District, either by hiring or buying one or more Stallions for the purpose, or by some other means ; or to employ the amount of the Grant allocated above to such County or District, in the furtherance of a similar Scheme for other Counties or Districts.

10. The Decision of the Royal Dublin Society shall in all cases be final.

HUNTERS' IMPROVEMENT SOCIETY

(Established to promote the Breeding of Riding, Driving and Military Horses)

REPORT OF THE COUNCIL

TO THE

SEVENTH ANNUAL GENERAL MEETING of MEMBERS

HELD ON WEDNESDAY, MARCH 2nd, 1892,

AT THE

ROYAL AGRICULTURAL HALL.

Balance
Sheet.

THE Council have to submit the Balance Sheet for the year ending December 31st, 1891, duly certified as correct by the Auditor. The balance on the current account at the Bankers on January 1st, 1891, was £82 18s. 3d., while £350 remained on the deposit account. These amounts on December 31st had respectively increased to £263 0s. 8d. and £500. The enlarged receipts at the Show, honoured by the presence of Her Majesty the Queen, contributed in no small measure to this satisfactory result, but the subscriptions of Members and other regular sources of income have steadily grown, and the financial position of the Society is now better than at any period in its history. A statement of the assets and liabilities at the close of the last three financial years is therefore of interest:—

		ASSETS.			LIABILITIES.		
		£	s.	d.	£	s.	d.
1889.	..	531	10	6	120	15	8
1890.	..	525	9	0	12	7	9
1891.	..	849	8	8	100	1	9

The Members now number 860, as follows :—

Members.

1 Honorary
753 Annual
79 Life
27 Life Lady Members

showing a *net* increase of 58 Subscribers since the same period last year.

The Fourth Volume of the Prize Record has been issued. It contains the entry of 191 fresh mares, and the re-entry of 63 registered animals. With the cordial co-operation of their owners, the Council have been enabled to give the portraits of ten Stallions and two Mares, which have appeared at the Spring Shows as premium-winners.

Prize
Record,
Vol. IV.

Several Mares have been accepted by the Editing Committee for the book after inspection by a Member of the Council, and they desire especially to bring this rule before all who have Brood Mares suitable for breeding Hunters.

Inspection
Clause.

Under condition 5, Mares by Premium Sires out of Mares registered in or for the Prize Record are eligible.

Pedigree
Clause.

At the present Show the Council have instituted a new departure in the prize list. Representations having been made to them at various times as to the risk and danger in bringing in-foal Mares to the London Show, they decided to offer Premiums for Hunter Brood Mares in the summer at the country shows, and to supplement the classes for young stock at the Society's Spring Show.

1892 Show.

Young
Stock.

It was further arranged that the Brood Mares should participate in the honours gained by their produce. The breeder of every Premium Animal in the Show, whether Mare, Filly, Gelding or Colt will therefore receive an additional Premium, provided the dam is either registered in the Prize Record, or was entered for Vol. V. with the Secretary by February 1st.

Brood
Mares will
participate
in their
offspring's
honours.

The value of the Premiums offered is £625; Mares and Fillies, £400; Geldings or Colts, £225; while the Royal Commission on Horse-Breeding and the Royal Agricultural

Society offer respectively the Queen's and Service Premiums for Thoroughbred Stallions.

The total entry for the Show is as follows :—

Premiums
at Local
Shows.

Last year the Society inaugurated its system of offering Premiums and Medals at Local Agricultural Shows where £25 was given for Hunter Brood Mares, viz.—To the best Mare in foal to or which had produced a foal to a Thoroughbred Horse. Twenty shows accepted the Society's offer, and the awards were as follows :—

United Counties' Hun- ters' Society ..	Alice (674) ..	Miss Powell.
Warwickshire Society ..	Bluestocking ..	Lord Willoughby de Broke.

For the current year* the Council have issued a similar 1892 Show offer under amended conditions :—For the best Hunter Brood Mare, in foal to or with foal at foot by a Thoroughbred Horse, and the following Societies have already intimated their acceptance of the scheme :—

Bath and West of England Society.	Lincolnshire Agricultural Society.
Compton Stud Company's Show.	Northamptonshire Agricultural Society.
Herefordshire Horse Show Society.	Northumberland Agricultural Society.
Highland and Agricultural Society of Scotland.	Peterborough Agricultural Society.
Lechlade and V. W. H. Agricultural Society and Horse Show.	Pitchley Hunt Show.
Limerick Horse Show.	Suffolk Agricultural Association.

The amount thus expended in 1891 was £112 4s. 6d., and it is estimated that the scheme in 1892 will entail an expenditure of £150.

By the death of MR. JAMES MARTIN, the Council have lost ^{The late} a valued Colleague, and the Society a staunch supporter. ^{Mr. James} MR. MARTIN was thoroughly interested in its work, and any practical suggestion for extending its operations or promoting its objects received his warm support and sympathy. ^{Martin.}

MR. MARTIN's duties as Steward terminated at the close of the present show, and MAJOR G. C. RICARDO has kindly consented to undertake the duties of the office.

This report of the Society's work at its own Shows and in co-operation with the Country Societies, demonstrates that the Council are promoting not only the breeding of Hunters, but are encouraging Farmers and Breeders to send their Brood Mares to the best available Sires, and are thus improving the horses throughout the country, but they look to members to assist them to extend the scope of the operations by inducing all interested in their work to join the Society.

By order of the Council,

A. B. CHARLTON,

February, 1892.

Secretary.

HUNTERS' IMPROVEMENT SOCIETY

(Established to promote the Breeding of Riding, Driving and Military Horses)

REPORT OF THE COUNCIL

TO THE

GENERAL MEETING OF MEMBERS,

HELD IN THE

ROYAL SHOW-YARD AT WARWICK,

ON TUESDAY, JUNE 21st, 1892.

THE Council have the pleasure to report that two gentlemen, who have thoroughly identified themselves with the work of the Society since its commencement, have been elected President and Vice-President respectively,—HON. T. W. FITZWILLIAM and CAPT. W. H. FIFE.

President
and Vice-
President.

At the close of the late Show it became the duty of the Council to nominate a Steward. MAJOR RICARDO kindly undertook the office in March last (rendered vacant through the lamented death of MR. JAMES MARTIN), and the Council are happy to report that MAJOR RICARDO has accepted their invitation to act in that capacity for the next three Shows.

Steward.

Though the number of Members is small in comparison to those who hunt and who necessarily benefit in the Society's work, it is satisfactory to report a steady annual increase. The list now comprises :—

Members.

- 1 Honorary.
- 775 Annual.
- 81 Life.
- 33 Life Lady Members.

A total of 890, and showing an addition of 50 since June, 1891.

Balance at
Bankers.

The balance at bankers on May 30th was £791 15s. 4d., of which £500 was on the deposit account.

1892 Show.

The last Show, again held in conjunction with the Hackney Horse Society, was noted for the largest entry as yet made, the figures for the eight shows being :—

1885.	1886.	1887.	1888.	1889.	1890.	1891.	1892.
168	176	246	236	289	457	507	563

The Royal Commission on Horse-Breeding and the Royal Agricultural Society of England offered, as in the previous four years, their Service Premiums for Thoroughbred Stallions. The young stock—Mares, Colts and Geldings—were well cared for by this Society, as £625 were offered among the seven classes, a special feature of the prize-list being the Premiums placed at the disposal of Breeders who have registered their Mares in the Society's Record. The absence of Premiums for Brood Mares caused some disappointment, but the Council recognized the importance of the representations made to them as to the risk to in-foal Mares travelling at the time of the year, and they decided to offer Premiums and Medals at the local shows.

Hunter
Brood
Mares.

This departure has been well justified by the large increase of applications from Societies which, by enlarging their prizes for Hunter Brood Mares, have claimed this Society's Medal. In 1891 the number of Societies co-operating was twenty; this year (1892) they are twenty-eight, and their names are :—

Societies
offering the
Gold
Medal.

Abergavenny Horse Show.
Bath and West of England Society.
Bath Horse Show.
Cardiff Horse Show Society.
Cheshire Agricultural Society.
Co. Cork Agricultural Society.
Compton Stud Company's Show.
Doncaster Agricultural Society.
Exeter Horse Show Society.
Herefordshire Horse Show Society.
Highland and Agricultural Society.
Hollymount Agricultural Society.
Lechlade and V. W. H. Agricultural Society and Horse Show.
Leicestershire Agricultural Society.
Limerick Horse Show.
Lincolnshire Agricultural Society.
Newbury Horse Show Society.
Northamptonshire Agricultural Society.

Northumberland Agricultural Society.
 Peterborough Agricultural Society.
 Pytchley Hunt Show.
 Ross Horse Improvement Society.
 Royal Manchester, Liverpool and N. Lancashire Agri. Society.
 Sherborne and South of England Horse Show.
 Shropshire and West Midland Agricultural Society.
 Suffolk Agricultural Society.
 Tunbridge Wells and S. E. Counties Agricultural Society.
 United Counties Hunters' Society.

It is gratifying to state that the Committee of the Lechlade Horse Show, in thanking the Hunters' Improvement Society for the Gold Medal awarded to the Hunter Brood Mare "Lismore," at their recent Show, intimated their wish to become Members, and reported that since this Society's Medal was offered, the farmers in their district "were more particular as to what they bred from."

The contributions of the Hunters' Improvement Society under this year's scheme will be £150 as against £119 in 1891.

The Council have resolved to continue in 1893 the offer of the Society's Medal under similar conditions, viz. :— 1893.

"At all Agricultural Shows or Horse Shows held in the United Kingdom in 1893, where £25 is given in Prizes to Brood Mares in Hunter Classes, a Gold Medal, or, if preferred, a Bronze Medal and £5, may be given to the best Hunter Brood Mare, in foal to or with foal at foot by a Thoroughbred Horse or Registered Hunter Sire. In the event of an in-foal Mare receiving the award, the Society will not forward the Medal till a certificate of foaling has been lodged with the Secretary."

Towards the 1892 Show the Council made a grant of £625, and the Horse Show Committee, after paying the Premiums to Exhibitors and Breeders, &c., had expended £546 7s. The Judges who officiated—MR. JOHN COOPER and MR. T. H. HUTCHINSON—were invited to give a short report on the exhibits which came before them, and it is issued to Members in this volume together with a statistical statement conveying details of importance and interest. 1892 Show.

At their April meeting the Council appointed a Special Committee, on the motion of MR. C. W. TINDALL, "To con- Special Committee.

sider the present position of the Society, more especially as regards the title of its Prize Record, and conditions of entry in future volumes for Stallions as well as for Mares."

The question is one of such importance that the constitution of the Committee was most carefully considered by the Council, and the Members selected were gentlemen to whose initiative the Society not only owes its origin, but who have always evinced a constant and practical interest in its work. That Committee sat between the April and May meetings of the Council, and after discussion, drew up a report and presented it to the Council. This was printed and distributed, and on June 13th the Council met and fully considered each recommendation, and have now to submit the result of their deliberations :—

1.—TITLE OF THE BOOK.

The title of the "Record of Prize Mares" shall in future be the "Hunters' Improvement Society's Record of Mares and Sires."

2.—CONDITIONS OF ENTRY FOR STALLIONS.

A Half-bred Stallion may be accepted for registry as a Hunter Sire provided that he has won races, or whose *only* half bred strain comes directly through an ancestor which has won races under Jockey Club Rules or open races under Grand National Rules, or whose *only* half-bred strain comes directly through a stallion that has sired, or through a mare that has bred, winners of races under Jockey Club Rules, or open races under Grand National Rules.

3.—CONDITIONS OF ENTRY FOR MARES.

1. A Mare is eligible for entry which has been awarded a prize, been reserved or highly commended in Hunter Classes at any Show in the United Kingdom.
2. A Mare suitable for breeding hunting and half-bred stock, being approved by Editing Committee after inspection by a past or present Member of the Council, will be eligible for entry. A Veterinary Certificate, stating that the Mare is free from hereditary disease, must accompany each entry under this condition.
3. A Mare can be re-entered which has produced foals, or has herself or whose offspring have taken further prizes, or changed owners since the previous volumes were compiled.
4. A Mare by a thoroughbred or registered Sire and out of a registered dam is eligible for entry.

5. A Mare, with a Veterinary Certificate of soundness from hereditary disease, may be accepted for registry provided she has won races, or whose *only* half-bred strain comes directly through an ancestor which has won races under Jockey Club or Grand National Rules, inclusive of point-to-point races, or whose *only* half-bred strain comes directly through a stallion that has sired, or through a mare that has bred, winners of races under Jockey Club Rules, or open races under Grand National Rules, inclusive of point-to-point races.

4.—RECORD OF PRODUCE UNDER THEIR DAMS.

1. All produce of Mares accepted by the Hunters' Improvement Society shall be recorded under the entry of their dams, stating name and breed of horse by which they are sired.
2. Filly Foals accepted as produce will, in future, be accepted as Brood Mares, provided they are by thoroughbred or registered Sires.

5.—PEDIGREE RECORDS, BREEDERS, &c.

The Editing Committee have been empowered :—

1. To trace, for insertion in the next Volume, the Pedigrees of such Horses as are not recorded in the General Stud Book, but that would be of interest to the Society.
2. To omit the Record of all Pedigrees which are not verified by the Breeders' names and addresses.

6.—LAST DATE OF ENTRY FOR VOLUME V., Monday, October 17th, 1892, but entries will be received at Double Fees up to Monday, October 31st.*

7.—ENTRY FEES.

Stallions.—Members, 10s., and Non-Members, £1 per Entry.

Mares.—Members, 5s., and Non-Members, 10s. per Entry.

Inspection Fees.—Members, 10s. 6d., and Non-Members, £1 1s. per entry.

8.—LONDON SHOW, 1893.

Hunter Sires accepted for registration in the Society's Record of Hunter Mares and Sires shall be allowed to be exhibited at the London Show of 1893 as "Extra Stock."

In presenting this report and the conditions of entry for Stallions as well as Mares, marking an important step in the Society's work, the Council trust that they will have the support of the Members, as these rules are drawn up with one view—the promotion of the interests of Hunter Breeders.

Suggestions from Members are invited, and shall receive full consideration.

By order of the Council,

A. B. CHARLTON,

June 13th, 1892.

Secretary.

HUNTERS' IMPROVEMENT SOCIETY

(Established to promote the Breeding of Riding, Driving and Military Horses)

REPORT OF THE COUNCIL

TO THE

EIGHTH ANNUAL GENERAL MEETING OF MEMBERS

HELD ON WEDNESDAY, March 1st, 1893,

AT THE

ROYAL AGRICULTURAL HALL.

Members. THE Council have to report a constant and steady increase to the Society's Membership during the past year, the list of Subscribers being represented as follows :—

1	Honorary
803	Annual
84	Life
36	Life Lady Members

Total 924

as compared with 860 Members at the time of last year's Show.

Balance
Sheet.

In their last Annual Report the Council were enabled to present a most satisfactory Balance Sheet, to which the enhanced Show receipts, consequent on the visit of Her Majesty the Queen, largely contributed. The finances of the past year have not been so favoured. A large increase in the prize-money, combined with normal Show receipts, raised the expenditure on the Show from £207 3s. 10d. in 1891 to £557 7s. 2d. in 1892; while the increasing number of Shows co-operating in the Society's scheme of Medals and Premiums for Hunter Brood Mares, required a contribution of £155 14s. 6d. in 1892, as against £112 4s. 6d. in the preceding year.

The regular receipts have in all cases been maintained, and it is gratifying and significant to note that while the Annual subscriptions have increased on the previous year by £81 18s., the arrears of subscriptions, with the larger Membership, are £18 18s. below those of 1891.

Increase of
Annual
Subscrip-
tions.

The Council at their last meeting considered the question of the last date of entry for Vol. V., and decided that, as 250 entries are requisite to enable them to issue a volume, the last date of entry shall be kept open till such number is received. The Secretary will then intimate this fact to the Members, and to those who have sent in entries for Vol. V., to enable them to add any further details that they may desire incorporated in the particulars already sent.

Record,
Vol. V.

All who have animals eligible are invited to register them so as to ensure the early issue of Vol. V.

The conditions of entry for the Record are well known to Members, but the Council would direct their special attention to those regulating the registry of Hunter Sires:—

Registra-
tion of
Hunter
Sires.

A Half-bred Stallion may be accepted for registry as a Hunter Sire on following conditions* :—

- (1) Provided he has won races under Jockey Club rules, or open races under Grand National Rules; or
- (2) Provided his *only* half-bred strain comes directly through an ancestor which has won races under Jockey Club rules, or open races under Grand National rules; or
- (3) Provided his *only* half-bred strain comes directly through a stallion that has sired, or through a mare that has bred, winners of races under Jockey Club rules, or open races under Grand National rules.

At the present Show a class has been instituted for Stallions complying with these conditions, and three entries have been sent in for exhibition, and, if approved by the Judges and passed sound by the Society's Veterinary Inspector, will receive the Society's Silver Medal; and it may be added that Mares with produce by the Society's registered Sires will be allowed to compete at the Country Shows for the Society's Gold Medal.

1893 Show.

The Society has again followed the lines, laid down at the last Show, of offering Premiums to young stock—Mares up to

* For Stallions so registered see pages 1 to 14.

four years old, and Colts and Geldings up to three years, the admission of Colts in the three and two-year-old classes being an addition to last year's prize list.

Breeders' Premiums. Breeders will have another opportunity of participating in the awards to the young stock, as Premiums of £5 will be awarded in every case where the dam of a Premium animal has been registered in the Record.

Value of Premiums. Briefly, the value of the Premiums and Medals offered is £555 :—£300 for Hunter Mares and Fillies, £90 for Hunter Colts and Geldings, with £145 to breeders, and £20 in Silver Medals for Thorough-bred and Hunter Sires.

Entry for the Show. The total entry for the Show is as follows :—

Medals at Country Shows. Twenty-eight Societies co-operated in the 1892 Brood Mare scheme, and offered the Hunters' Improvement Society's Medal for the best Hunter Brood Mare, in foal to or with foal at foot by a Thoroughbred Horse, and the awards were :—

The successful competitors had the choice of a Gold Medal or £5 and a Bronze Medal, and twelve chose the former, while fifteen preferred the latter award.

At the Bath Horse Show no award was made, as the first, second, third and Reserve Mares were all debarred by reason of their previous wins of the Hunters' Improvement Society's Medals and Premiums. From the same cause, the Medal at seven of the Shows went to the second Mare; at two it was awarded to the third in order of merit; while in one instance the Reserve animal was the recipient of the Society's medal.

The total cost to the Society of the 1892 scheme was £150 2s.

During the current year the Council have decided to offer 1893 Medals for the best Hunter Brood Mare, in foal to or with Shows.

foal at foot by a Thoroughbred Horse or Registered Sire, at Shows where £25 is given for the Brood Mares; and it is estimated that the Premiums and Medals to be awarded will amount to £190.

The number of Societies intimating their wish to co-operate already exceeds fifteen,* although the last date for receiving applications is April 1st.

President
in 1893.

The office of President during the current year will be filled by CAPTAIN W. H. FIFE, who has been associated with the Society since its formation, and has taken an active part in promoting the objects for which it was established. As Vice-President for 1893 (*i.e.* President in 1894), the Council desire to nominate COLONEL J. F. HORNBY, of Northmoor, Dulverton, who, as Vice-Chairman of the Horse Show Committee, has taken a deep interest in the direction and management of the Society's Shows.

Vice-
President.

Record of
the year.

In presenting this report for the adoption of the Members, the Council would point out that the record of the Society's work during 1892 compares favourably with its efforts in the past. They have drawn up, after careful consideration and discussion, approved rules for the registration and exhibition of Hunter Sires, not thoroughbred, but containing only a remote strain; they have awarded valuable Premiums to Hunter Brood Mares and young stock at the Society's Shows and in the country, thus offering every inducement to the tenant farmer to breed good stock; and they have issued another volume of the Record, thereby encouraging breeders to register and keep a correct record of the pedigrees of their Hunting Stock.

Members can assist the Council in the maintenance and extension of these practical benefits by inducing their friends to become subscribers to the Hunters' Improvement Society.

By order of the Council,

A. B. CHARLTON.

HUNTERS' IMPROVEMENT SOCIETY

(Established to promote the Breeding of Riding, Driving and Military Horses).

REPORT OF THE COUNCIL TO THE EXTRAORDINARY GENERAL MEETING OF MEMBERS

HELD IN THE
ROYAL AGRICULTURAL SOCIETY'S SHOWYARD,
AT CHESTER,
ON WEDNESDAY, JUNE 21st, 1893.

Members. THE Council have again the pleasure of reporting a gratifying increase to the list of Members since they presented their report in the Warwick Show Yard. The number is now 982:—

1 Honorary Member
861 Annual Members
84 Life Members
36 Life Lady Members

Total .. 982

as compared with last year's total of 890, or a *net* increase of 92.

The Society's Membership has always evinced a steady progress, as is shown by the subjoined figures presented at the General Meetings, held in June of the respective years:—

1888	1889	1890	1891	1892	1893
<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
547	619	760	840	890	982

At the same time the Council are of opinion that the Society is not as well supported as it should be, that many who benefit directly and indirectly by its work do not subscribe, and that instead of their return of Members standing at 982, it should be not less than 2000.

The Council, desiring to enlist the sympathies of hunting men, have resolved that an Honorary Corresponding Member shall be appointed in each Hunt in the United Kingdom, who shall make known the objects of the Society, and shall use his best endeavours to obtain new Members in his particular district.

But, after all, the efforts of individual Members have the most direct and beneficial effect to the Society, and this report embodying the proposals to hold a separate Show with the Royal Commission on Horse-Breeding—essentially a Show having as its main object the improvement and promotion of the Breed of Hunters, should act as an incentive to all Members to endeavour to obtain even one new Subscriber, as such additions would soon double the present Membership.

The Council have invested the sum of £500 of the Society's Funds in $2\frac{3}{4}$ per cent. Consolidated Stock, and as the first contribution to the Reserve Fund, the Council may well congratulate the Society on its growing financial prosperity, having special regard to the large sum in Premiums and Medals annually offered in London and at the Country Shows. A sum of £200 is also on deposit, while £239 was, on May 24th, standing to the credit of the Society's current account.

Some measure of this satisfactory condition is due to the financial result of the last Show at the Royal Agricultural Hall. Increased receipts in the Grand Stands, Catalogue Sales, and in the "Gate," reduced the expenditure on the 1893 Show to £429 7s. 6d., as compared with £557 7s. 2d. in 1892.

But the increasing entries and Members of both the Hackney and Hunters' Improvement Societies have so taxed the accommodation at the disposal of the Joint Show Committee that on the conclusion of the recent Show it was felt that some change in the arrangements was inevitable. The whole question was therefore discussed; firstly by the

Joint Show Committee, composed of Members of the Horse Show Committees of the respective Councils, and under whose direction the administration of the nine combined Shows has been harmoniously and successfully conducted ; and secondly, by each Council, and it was the unanimous feeling that there were but practically two courses:—That the two Societies should hold their Show without the Royal Commission on Horse-Breeding, or the Hunters' Improvement Society should withdraw from the combined Show, and invite the Royal Commission on Horse-Breeding to offer the Queen's Premiums at a Show in the following week.

A Sub-Committee was therefore appointed to investigate the whole question, and their report, presented and unanimously adopted at a Special Council Meeting, on May 11th, was briefly:—

“That the Royal Commission on Horse-Breeding had favourably considered their proposals to offer the Queen's Premiums at a Show of the Hunters' Improvement Society to be held in March, 1894 ; that satisfactory arrangements had been made with the Royal Agricultural Hall Company for holding such Show in the week following the Hackney Horse Society's Show, and that the Shire Horse Society and Hackney Horse Society, consequent on these arrangements, had consented to liberate the Hunters' Improvement Society from the existing agreement for holding the Shows.”

The thanks of the Society are therefore due to the Royal Commission on Horse-Breeding, the two Societies and the Royal Agricultural Hall Company for the courtesy with which their representations were received and considered, and to the Members of the Sub-Committee—MAJOR-GENERAL FRYER, SIR WALTER GILBEY, Bart., MR. TANQUERAY, and MR. WITHERS—to whose endeavours the successful issue of the negotiations is due.

The exigencies of the case necessitate the choice of the second alternative, and though the immediate effect of holding a separate Show will be to increase the expenditure on the Annual Shows, the Council feel assured that the Society, by the establishment of its own Show, has laid the foundation of a prosperous and useful future.

To meet the extra expense entailed, the Council would make a Special Appeal to all Members to assist them in obtaining new Subscribers. On page 276 a brief summary of the Society's past work is given with a form of Membership, which it is hoped will be shortly returned to the Secretary filled up by a Candidate for election.

The last date of entry for Vol. V. has been definitely fixed for MONDAY, JULY 31ST, and after that date the preparation of the Volume will be actively pushed forward, and it should appear by the end of the year. Members are earnestly desired to aid the Editing Committee in the compilation of this book by making entries at once.

Scheme in
 1894.

The Society's Gold Medal will in 1894 be offered under the following conditions:—

- (1) At all Agricultural Shows or Horse Shows (which become Annual Members of the Hunters' Improvement Society), held in the United Kingdom in 1894, where £25 is given in prizes to Brood Mares in Hunter Classes, a Gold Medal, or, if preferred, a Bronze Medal and £5, may be given to the best Brood Mare, in foal to or with foal at foot by a Thoroughbred Horse, or Registered Hunter Sire.
- (2) Mares which have previously been awarded the Society's Medal, and Mares which have previously won a Hunters' Improvement Society's Premium as a Brood Mare to be ineligible for this Medal.
- (3) In the event of the Medal being awarded to a Mare, entered as "in foal to a Thoroughbred Horse, or Registered Hunter Sire," the Society shall not forward the Medal till a Certificate of foaling has been lodged with the Secretary.
- (4) If any of the Prize Mares are disqualified owing to their having previously won the Hunters' Improvement Society's Medal or Premiums, it shall then be awarded to the next in order, provided she takes one of the Prizes or First Reserve.

Railway
 Rates.

In response to the invitation of the Royal Agricultural Society, two Representatives of the Society—DR. BOND and MAJOR-GENERAL FRYER—attended the Deputation to the Railway Clearing House on May 11th, asking the Railway Companies to revert to the old system of free conveyance for men travelling in charge of Live Stock to and from Agricultural Shows. The result was most satisfactory, as the Railway Managers conceded the point asked for, and stated that the old arrangement would be restored, this decision taking immediate effect.

By Order of the Council,

A. B. CHARLTON.

SECRETARY—A. B. CHARLTON,

11, Chandos Street,

Cavendish Square,

London, E.

THE HUNTERS' IMPROVEMENT SOCIETY

Was established to improve and encourage the breeding of Horses for Hunting, Riding, Driving and Military purposes, and the Council would specially draw attention to the following brief record of its work:—

1.—Service Premiums for Thoroughbred Stallions.

As pioneer in the movement for the encouragement of Horse-breeding, the Society, in 1885, inaugurated the system of giving Service Premiums for Thoroughbred Stallions, which has resulted in no less a sum than £32,450 being so awarded.

2.—Hunter Brood Mares and Young Stock.

The claims of the Hunter Brood Mares and their produce have received full recognition, as Premiums valued at £2500 have been awarded in London and, latterly (with a view to obviating the risk and danger to Brood Mares travelling in the spring) at the summer local shows. THIRTY-FOUR Societies offered the Gold Medal this summer.

3.—Hunter Sires.

The Council has registered the pedigrees and permits the exhibition of Stallions, not thoroughbred, but with only a remote strain, in compliance with approved rules, whose entries will be of interest to Hunter Breeders.

4.—Registration of Pedigrees.

With a view to inducing tenant farmers and breeders to keep a record of the pedigrees of their mares and young stock, the Society has published four Volumes of the Record of Hunter Mares and Sires, containing the registry of 673 Mares, while the current book contains the entries of 13 Hunter Stallions and 303 Hunter Mares and Fillies.

5.—Influence of the Society.

The Society may well claim its share in the present revival of Horse-breeding in the country, and its influence may be discerned in many districts where the prizes for Hunter Brood Mares have been **doubled** to obtain the Society's Gold Medal.

6.—Future Spring Shows.

The increasing entries at the London Shows, held since 1885 in conjunction with the Hackney Horse Society, so taxed the accommodation at the recent show, not only for the exhibits but for the members and public, that it was felt some change was inevitable. It was decided that the Hunters' Improvement Society should hold a separate show, and, on the invitation of the Council, the Royal Commission on Horse-breeding have favourably considered the proposal to there offer the Queen's Premiums for Thoroughbred Stallions. In 1894, THE HUNTERS' IMPROVEMENT SOCIETY THEREFORE HOLDS A SHOW OF ITS OWN, having as its primary object the promotion and encouragement of the breeding of Hunters. To meet the call on the Society's funds which this new departure demands, the Council wish to make a SPECIAL appeal to

Members. That they will bring the Society's past work and future aims before ladies and gentlemen interested in the object for which it was established, and to

Non-members. That they will become subscribers and thus aid the Council to extend its scope of utility.
