FORESTRY LAW.

AN ACT relating to the prevention, control and extinguishment of forest fires in plantations and unorganized townships.

Section 1. The forest commissioner shall take measures for the prevention, control and extinguishment of forest fires in all plantations and unorganized townships, and to this end he shall establish such forest districts as he may deem necessary for effective protection against loss or damage by such fires.

Sect. 2. The said commissioner shall appoint in and for each of said districts, so established, a chief forest fire warden, and he shall also appoint within such districts such number of deputy forest fire wardens as in his judgment may be required to carry out the provisions of this act, assigning to each of the latter the territory over and within which he shall have jurisdiction. All chief and deputy forest fire wardens, so appointed, shall hold office during the pleasure of said commissioner, be sworn to the faithful discharge of their duties by any officer authorized to administer oaths, and a certificate thereof shall be returned to the office of such commissioner.

Sect. 3. The said chief forest fire wardens, under the direction of said commissioner, shall have general supervision of their respective districts and of the deputy forest fire wardens therein. Each chief forest fire warden, when directed by the said commissioner, shall patrol the forests of his district for the purpose of searching out, extinguishing and guarding against forest fires. He shall investigate and gather evidence regarding the causes of forest fires, enforce all laws relating to forests and forest preservation, arrest all violators thereof, prosecute all offenses against the same, and in this connection shall have the same power to serve criminal processes against such offenders and shall be allowed the same fees as a sheriff, or his deputy, for like services, and shall have and enjoy the same right as a sheriff to require aid in executing the duties of his office. Said

chief forest fire wardens shall perform such other duties, at such times, and under such rules and regulations, as the said commissioner may prescribe, and each shall receive as compensation two dollars and fifty cents for each and every day of actual service, with an allowance for expenses of travel and subsistence not to excel two dollars daily for such period. The said commissioner may authorize the employment of suitable persons to assist said chief forest fire wardens in patrolling their respective districts and every person so employed shall be paid fifteen cents for each hour of service so rendered by him and be provided with subsistence during such period. Deputy forest fire wardens shall perform such duties, at such times and under such rules and regulations, as the said commissioner, or the chief fire warden of the district, with the approval of said commissioner, may prescribe, and they shall receive as compensation two dollars for each and every day of actual service.

Sect. 4. Whenever a fire occurs on, or is likely to do damage to forest lands within the district of any chief forest fire warden, he shall take immediate action to control and extinguish the same. If such fire occurs upon or is likely to do damage to forest lands within the territory of a deputy forest fire warden and the chief fire warden of the district is not present, then and in such case the deputy forest fire warden having jurisdiction of the territory shall forthwith proceed to control and extinguish the same, and he shall meanwhile, with all consistent dispatch, cause the said chief fire warden of the district to be notified of the occurrence of such fire. Until the arrival of the chief warden at the place of fire the deputy warden shall be in charge of the control and extinguishment of the same. For the purpose of controlling and extinguishing fires as aforesaid chief forest fire wardens, and deputy forest fire wardens when in charge of the control and extinguishment of forest fires or when so directed by the chief warden, may summon to their assistance citizens of any county in which said fire may be, and each person so summoned and assisting shall be paid fifteen cents, for each hour of service

rendered by him. Immediately after the extinguishment of a fire the deputy forest fire warden who for any time may have been in charge of the same shall make return to the chief warden of the district of the expense thereof during the period of his being in charge, including the names of the persons so summoned and assisting, with their postoffice addresses and the hours of labor actually performed by each under his direction. The return shall be made upon oath and the said chief warden is hereby authorized and empowered to administer such oath. Upon receipt of such return the said chief fire warden shall carefully examine and audit the same and he may direct the deputy to amend and correct any return found to be incomplete, incorrect or insufficient in form. If upon examination and auditing of said return, and investigation of the subject matter thereof, said chief fire warden believes said return to be just and correct, he shall endorse his written approval thereon and forward the same so approved to said forest commissioner. The chief fire warden of every district burned by a forest fire shall, upon the extinguishment of such fire, promptly forward an extract and detailed statement of the expense, if any, which said chief fire warden may have incurred in connection with the extinguishment of such fire, to the said forest commissioner, who may confirm, reject or recommit either or both said approved return of said deputy or said detailed statement of said chief fire warden if justice so requires.

Sect. 5. All expense incurred under the provisions of this act shall be paid from the funds appropriated to and for the use of the forest commission.

Sect. 6. All acts and parts of acts which are inconsistent with the provisions of this act are hereby repealed.

INSTRUCTIONS TO FIRE WARDENS.

An important part of practical forestry is the prevention of fire. This cannot be accomplished successfully without a well organized force, in which the duties of each individual are well defined and clearly understood. To this end the following instructions should receive careful attention.

It is the duty of the chief fire warden to see that the district fire wardens are fully supplied with printed notices containing the rules and regulations relating to the prevention of forest fires. Early in the season fire notices are sent to all wardens but more can be obtained at any time by writing to the Forest Commissioner. The district fire wardens should see that their respective districts are properly posted with these notices, putting them up on trees along each forest trail and locations frequented by fishing and hunting parties.

During the dry seasons when fires are most likely to occur, especially in spring before the trees are in leaf, the chief fire wardens and their deputies should keep a sharp lookout for any sign of fire, and have everything in readiness so that when the smoke is seen there will be no unnecessary delay in reaching the spot. Fishermen, hunters and campers should always be cautioned whenever the opportunity offers to be careful in the use of fire; to refrain from throwing lighted matches on the ground; and especially, to extinguish their camp fires completely before leaving them.

No instructions seem necessary here as to how the work at a forest fire should be conducted, for it is assumed that each fire warden has had ample experience in this respect. At the same time it may be well to remind each one that backfiring should not be resorted to until its necessity is plainly evident; and, even then, the entire situation should first be carefully examined and well understood.

It should be remembered, also, that in controlling a woodland fire, one hour's work in the early morning or late evening is worth six in the middle of the day. For this reason, if a fire is not extinguished at evening, the men should remain on the ground all night, and the fire wardens should make arrangements to send in food and blankets to the party. If the men are allowed to leave a fire at evening and go back to their homes much valuable time is lost.

Especial pains should be taken to ascertain the cause of the fire, and the person or persons who started it. Too many reports are received in which the printed questions as to the origin of the fire is answered with the words, "Cause

unknown." If attended to promptly, there should be little trouble in ascertaining the point at which the fire started, and, in most cases, who started it. The facts should then be written out fully in the report, no matter whom it may concern. Each fire warden should discharge his duty fearlessly in this respect, without fear or favor. If the fire warden is unable to report definitely as to who the guilty parties were and their connection with it, he is at liberty to give his opinion as to the cause and who were to blame in the matter.

In addition to answering fully the printed questions in the report, the fire warden should furnish such further information as may not be conveyed in the preceding answers, and should take pains to include also everything that might relate directly or indirectly to the matter.

After a fire occurs the chief fire warden should, as soon as possible, mail the report of the same to the Forest Commissioner, using the printed form furnished for this purpose. Before sending the report he should make an examination of the burned area, so that he may be able to state approximately the number of acres burned over, the extent of the damages, the amount and kinds of timber destroyed.

EDGAR E. RING,
Forest Commissioner.
