THE PROVIDENCE WEEKLY GAZETTE.

When we first conceived the idea of starting the present *Weekly Gazette* we based it upon our experience in publishing the *Weekly Times*. The *Times* had paid us well, and the *Gazette*, thus far, has netted us a better profit than ever the *Times* did.

Three Thousand Copies are printed weekly; two thousand of which are circulated in the wards of this city, which supplies one-quarter of the families in all the different wards, weekly, every week supplying new families in those wards, thereby taking four weeks to supply the entire city. The balance one thousand, goes into country villages through the State: never two in succession in the same village. We think this is the whole secret of success. The *Gazette* has now been published five years, and has become a "fixed fact." We desire to give the readers of our paper a full reading page, but as yet have been unable to do so, but will as soon as our narrow limits will admit.

Thankful for the very liberal patronage already received, we invite the citizens of the State generally, to call and see
