A View of Onward, 4th.

PREFACE.

This is the first complete edition of The Book of Live Stock Champions.

It is the First Volume of a great work which is destined to include all Live Stock Champions as they become famous from time to time.

The next edition will include many more which this number does not contain.

If there are any famous animals conspicuously absent from this volume, future editions will make up the deficiency.

The publisher will not rest until all improved breeds are represented by their most meritorious and famous animals.

TIVERTON, 2:04½; foaled 1895; bay gelding; trotter; sired by Galileo Rex, a pacer, with a four-year-old record of 2:12¾. **TIVERTON'S** record is the world's fastest trotting record by a gelding in a race, and is held jointly by **TIVERTON** and **Wentworth**, 2:04½. **TIVERTON** was purchased to become one of a pair of fast road horses. He showed so much speed, however, that his purchaser decided to keep him in training, with the result that to-day, in the opinion of many, he is the fastest trotting horse before the public. It is a significant fact that in 1904, when nine years of age, and again this year at ten years of age, he has attained his highest flight of speed, which speaks well for the endurance of the American trotting horse.
