Railliardia Herbstobatae (Carr) comb. nov.

Dubautia herbstobatae Carr, Pacif. Sci. 33: 233,
fig. 1, (1979) = 1980.

Railliardia waianapanapaensis (Carr) comb. nov.

Dubautia waianapanapaensis Carr, Pacif. Sci. 33:
234-237, fig. 2, (1979) = 1980.

These two species have the phyllaries of the heads laterally coalesced into a cup. This is the distinctive character of *Railliardia*. The two combinations made above, are proposed for the botanists who, like the writer, accept the genus *Railliardia*.
