A COLLATION OF J. C. CHENU'S *ILLUSTRATIONS CONCHYLOGIQUES*, AND A NOTE ON P. L. DUCLOS' *HIST. NAT. GÉN. ET PART. COQUILLES*.

By C. DAVIES SHERBORN, F.Z.S., and EDGAR A. SMITH, I.S.O.

Read 13th January, 1911.

IN 1882 one of us made a list of the contents of the parts of Chenu from a copy then existing in the British Museum, while in 1909 the other was indebted to Messrs. Wheldon for a sight of a second copy in which vols. 1-3 were in paper covers and vol. 4 in original parts. This material, together with a number of other notes, now enables us to give a definite collation and series of dates for Chenu's work.

The dates of receipt of the parts at the British Museum and their contents will be found in the front of the following table, while the date in black figures at the end of each paragraph indicates the date of publication as deduced from all the evidence before us.

Exigency of space forbids us from listing the genera, text, and plates in proper order.

Duclos' work, *Hist. nat. gén. et part. de tous les genres de Coquilles Univalves Marines* . . . , as its title magnificently set forth, partly monographed three genera, and was published as follows:—

Genre OLIVE. Six parts.

1 and 2. Two sheets of text and twelve plates were received by the Academy of Sciences, Paris, in November, 1835.

3-6. Plates 13-33 were received by the Academy in February and March, 1840.

Genre COLOMBELLE. Two parts.

1 and 2. One sheet of cover and thirteen plates were printed in 1835 and published in April, 1840 (Bibl. Française).

Genre STROMBE. Twenty-five unpublished plates in the British Museum (Nat. Hist.) carry the following note:—"Ne. Ces planches, telles qu'elles sont ici, n'ont jamais vu le jour, M. Duclos les ayant abandonnées pour les faire paroître avec augmentation dans les Illustrations Conchyliologiques de M. Chenu.

Achetées à la vente de Duclos.
